The Conservative Party were Sustained in Provincial Elections

The contest was decided yesterday when Premier Whitney and the Conservative Party were sustained in the Provincial elections by a handsome majority of seventy seats, being a gain of seventeen over last term's standing in the house, with several to be heard from yet and one doubtful.

All the ministers were re-elected with the exception of Hon. Nelson Monteith, who was defeated by 6.

For four years the present administration has conducted Provincial affairs at Toronto in a manner meeting the high approbation from all broad-minded citizens, and neither before or at the elections have the friends evidenced that they had any reasonable hope of securing a majority in the house. Of course, as in all cases where a Government appeals to the electorate with a past record for good, honest, able and intelligent handling of the reigns of office, the opposition made an effort to at least hold their ground on the legislative benches. Yesterday the Liberals were completely snowed under, losing a number of seats.

West Peterborough

And in this city particularly, the election was characterized by a phenomenal lack of the enthusiasm and interest which usually prevails at such times. It was in truth hard to realize that a Provincial election was in progress. And the many American visitors in town must have concluded that Canadian people are exceedingly phlegmatic where the interests of a province are at stake. But it is well to say that the electorate here never for one moment doubted the results of yesterday's voting, and generally conceded that Mr. T. E. Bradburn would win out by a handsome majority over his opponent, Mr. G. A. Gillespie, who, although an admirable and highly esteemed young man, is not as widely known, either in the city or the county, as his competitor for legislative honors. Mr. Bradburn had during four years of office manifested commendable interest in West Peterborough, has proved an exceedingly capable and energetic representative at Toronto, never losing an opportunity to promote the welfare of his riding, and was the candidate of a party whose administration the past term was generally admitted to have been clean, thorough and desirable of continuation for the benefit of the Province as a whole. Hence the marked lack of customary enthusiasm and excitement.

THE MAJORITIES

Mr. Bradburn's majority in the city last election was 1171, and this year 430, a reduction of 744.

Mr. Gillespie only secured small majorities in two polling sub divisions as follows; No. 19—43, and No 20—24. These divisions were in ward five, Mr. Gillespie's home ward; where he might reasonably have been expected to be substantially supported. These results point pretty conclusively to the fact that although Mr. Gillespie is a young man of marked inherent and acquired ability, and thoroughly clean of character he was not sufficiently known to stand the shock of a Provincial election.

At night, after the results of the election were known, the winning candidate, T. E. Bradburn, M.P.P., who now enters upon his second term, was tendered the customary reception at the committee rooms — the opera house not being available—where the usual congratulatory speeches were in evidence, accompanied by a fitting and profuse return of thanks by the member elect, who assured his admirers and supporters of his unqualified and whole-hearted interest in matters legislative and in this riding's needs next term.

This was followed by a joyous parading of the streets by three bands—the 57th, the bugle, and the Peterborough—with the customary pyrotechnical display. The pictures of both Premier Whitney and T. E. Bradburn, M.P.P., were carried in advance of the procession, which, however, was characteristic of the day's tameness, not a very large concourse of citizens taking part.

East Peterborough

In East Peterborough, McNulty of Norwood had been picked as a winner, the riding having been formerly represented by Wm. Anderson, Liberal (deceased). But the election on the east proved a surprise, the conservative gaining this seat, W. J. Thompson of Havelock, winning out by a substantial majority of 400. The Conservatives in this riding were naturally very jubilant last night. W. J. Thompson, M.P.P., is also warden of the County of Peterborough.

The Torontos

Toronto went Conservative solid, the four class A candidates and the four new seats all being elected by substantial majorities. The Liberals receiving a white-washing.

Attorney-General Foy and G. H. Gooderham were elected for South Toronto; Speaker Crawford and McPherson, West Toronto, were both elected, as also were the Minister of Education, Dr. Pyne, and his running mate, Whitesides, East Toronto. In North Toronto, McNaught and his running mate, John Shaw, were also elected; the latter seat was the only one in Toronto considered doubtful by the Conservatives. John Shaw's majority over the Rev. Hossack was 408.

Fashion and Fat

Isn't it fortunate that when fashion demands slender gracefulness of women who have to break corset laces to make themselves even presentable that science steps in and makes their task easy?

For dieting and exercising it has substituted a pleasant wholesome mixture that can be obtained at small cost from any druggist, viz.: 1-2 ounce Marmola 3-4 ounce Fluid Extract Cascara Aromatic, and 4 3-4 ounces Syrup Simplex.

One teaspoonful of this mixture after meals and at bedtime will take off four to seven pounds of fat a week without causing wrinkles, interfering with the diet, or distressing the stomach in the slightest.

Hon. J. P. Whitney
Premier of Ontario.

the formerly completely mystified the bonanzaites with his shoots.

The Story of a Medicine.

Its name—"Golden Medical Discovery" was suggested by one of its most important and valuable ingredients — Golden Seal root.

Nearly forty years ago, Dr. Pierce discovered that he could, by the use of pure, triple-refined glycerine, aided by a certain degree of constantly maintained heat and with the aid of apparatus and appliances designed for that purpose, extract from our most valuable native medicinal roots their curative properties much better than by the use of alcohol, so generally employed. So the now world-famed "Golden Medical Discovery," for the cure of weak stomach, indigestion, or dyspepsia, torpid liver, or biliousness and kindred derangements was first made, as it ever since has been, without a particle of alcohol in its make-up.

A glance at the full list of its ingredients, printed on every bottle-wrapper, will show that it is made from the most valuable medicinal roots found growing in our American forests. All these ingredients have received the highest endorsement from the leading medical experts, writers and writers on Materia Medica who recommend them as the very best remedies for the diseases for which "Golden Medical Discovery" is advised.

A little book of these endorsements has been compiled by Dr. R. V. Pierce, of Buffalo, N. Y., and will be mailed free to any one asking same by postal card, or letter addressed to the Doctor as above. From these endorsements, copied from standard medical books of all the different schools of practice, it will be found that the ingredients composing the "Golden Medical Discovery" are advised not only for the cure of the above mentioned diseases, but also for the cure of all catarrhal, bronchial and throat affections, accompanied with catarrhal discharges, hoarseness, sore throat, lingering, or hang-on-coughs, and all these wasting affections which, if not promptly and properly treated are liable to terminate in consumption. Take Dr. Pierce's Discovery in time and persevere in its use until you give it a fair trial and it is hardly likely to disappoint. Too much must not be expected of it. It will not perform miracles. It will not cure consumption in its advanced stages. No medicine will. It will cure the affections that lead up to consumption, if taken in time.

Minister Without Portfolio.

A Plot to Blow Up The Royal Family

Lisbon, June 8.—The police have arrested 50 anarchists. The bombs which had been discovered and frustrated a big plot to be manufactured by the society which was confronted, and correspondence seized shows that the society to which Manuel Buiesa, one of the principals in the assassination of King Carlos and Crown Prince Luis last February, belonged, had close relations with Constantino Medios, three noted anarchists in Barcelona and Madrid.

Mr. Sam. Long Relates Some of His Experiences

Mr. Samuel Long, who, it will be remembered was lost in the woods for 16 days, has returned to the city, and tells of his wanderings and the terrible ordeal he was subjected to while lost. In Mr Long's own expression, words cannot convey an idea of the harrowing nature of his wanderings. He is not yet completely recovered from the injuries to his feet, received by his boots wearing out and his feet becoming lacerated and bruised.

LOST 16 DAYS

The story of how Mr. Long came to lose his way has already been mentioned in these columns. He was lost for 16 days wandering between Windy Lake and the camp which is about 16 miles from Worthington.

During all that time he did not have a bite of food. The only thing that kept him alive was chewing spruce gum and drinking plenty of water. The first day when cutting off a blub of the gum he broke his only knife, a little pen knife. After that he had to bite the gum off with his teeth. Mr. Long said he would be living yet if he had not been found for he felt perfectly well and strong and was thriving on his gum diet.

WALKED ON HANDS AND KNEES

Mr. Long's feet became so painfully hurt that it was impossible for him to stand on them. He had then to crawl on his hands and knees. Accordingly he cut his trousers off to the knees using the cloth to pad them in order to protect them when crawling. His upper clothing was also used in this way. During the last part of his roamings he had to proceed in this way and very often he would go but a short distance. He had reached the shore of Windy Lake and could see the trains passing and repassing three miles away, but by shore it was a distance of 10 miles.

RAFT BUILT.

He decided to build a raft and gathered logs and planks from an old shanty close by, which had long been out of use. Crawling on his hands and knees he collected the boards at the water's edge and with withes tied them together and over them placed an old door.

With exceeding difficulty he secured a limb for a sail and had everything in readiness the day he was found.

INDIAN GOING TO SHOOT.

The Indian who discovered him one evening said afterwards that he thought him a moose. The Indian had got one at that point a year ago and was again on a lookout.

Mr. Long had a three-week's growth on his face, his clothing was in shreds and nearly all gone and his appearance bordered on the wild.

After the first two days' searching for the camp, Mr Long changed his tactics and merely decided to find a way out. He never suffered physically and his mental powers were unstrained. It was due to his indomitable will that he did not become insane in his lonely struggles.

There are but a few of his experiences. When one thinks of the heavy brush, the high rocks and steep precipice it is wonderful that Mr. Long fares so well. His friends are congratulating him on the pluck and determination which successfully shut out despair and finally won out against terrible odds.

In the Realm of Sport

Peterborough defeated Cobourg in a Midland League game in Cobourg on Saturday by the score of 6 to 5. Cobourg imported a battery and a third baseman from Rochester, but Parsons, the pitcher, was knocked out in the fifth innings. The game was chuck full of excitement, as Cobourg had a chance to nearly every inning to tie the score or win out, but Clements' fine pitching and the great infield work of the Peterboroughs kept them from getting the necessary runs. The attendance was large, and the crowd was a very noisy one, the umpire having to put them off the lines several times during the last few innings of the game. The Petes lined up as follows:

Edmunds, c.
Clements, p.
Lawson, 1b.
McDermott, 2b.
Maddock, ss
Cheatham, 3b
Burns, rf
O'Brien, cf.
Murphy, lf

Belleville, June 8.—The Peterborough Midland league team, paid a visit to the city today and administered a severe drubbing to the locals. The score at the end of the nine innings was 16 to 6. Cheatham and Edmunds were the visitors' battery, and

Canadian Olympic Athletes Chosen by Committee

Ottawa, June 8.—The following have been selected to go on the Canadian team to the Olympic games in England.

Keith and Elliott qualify in gymnastics.

George Goulding, Toronto, in the walking events.

The marathon men are; Harry Lawson, Bert Goldsboro of Toronto, Wm. Woods of Brantford, Simpson of Peterborough.

In the pole vaulting Archibald of Toronto.

Sprinters, Lou Sebert of Toronto, Lukeman of Montreal, Beddow of Montreal, Kerr of Hamilton.

Tait of Toronto in one mile, Macdonald of New Glasgow.

In a mile, Galbraith, Central, Y.M.C.A., Toronto; Fitzgerald of Edmonton.

Hurdle jumps, George Barker, Toronto; Savage, Montreal; Bricker, Toronto

GO AT OWN EXPENSE

Longboat, Irving, Parks of Y.M.C.A., Toronto; Art Burn of Calgary, and Tom Coley of Hamilton may go at their own expense, as may any others recommended by the C.A.A.U. who enter at Ottawa before June 10, and if they finish in the money they will get their expenses returned.

Result of Quebec Elections Bourassa Defeats Premier

Montreal, June 8.—Although the Liberal party were returned to power, one of the biggest surprises ever sprung, was unearthed today, when Henri Bourassa the Nationalist candidate in St. James division and in the County of St. Hyacinthe, was elected in both constituencies, defeating Premier Gouin by a small majority.

At a late hour tonight the number of constituencies heard from gave the Liberal party a majority of 27 seats in the house. The standing was as follows; Liberals 42, Conservatives 15, with nineteen constituencies yet to be heard from.

In a practice game last night, the Wellingtons of the city league, took the Athletics into camp at Riverside Inn their regular battery, and with lots of confidence the "kids" got right after the Midland Leaguers' substitute slab artist for 14 hits.

"There's a Reason"

Doctors Report Many Cases

Say that Spring Fever is Prevalent. Patients Feel Drowsy, Dull, Dead Tired.

How provoking to sleep well, but when you awaken to find none of the exhilaration that rest and sleep should bring. You ought to feel alert, bubbling over with vim, but instead of this there's dullness, languor and disinclination to do things.

Three causes for this sort of feeling—a lazy liver, lazy kidneys, and a weak stomach, the last doing its work very poorly and compelling the other organs to perform a task they are unequal to.

Note the consequence—blood is filled with waste matter—poisonous substances weighing down the nervous system—rebuilding processes absolutely impossible.

Take Ferrozone and note the rapid change. Your appetite improves and your digestion soon is as good as ever. Your skin has its natural color, the sense of languor and unsteadiness if not entirely gone, comes back only occasionally, and then disappears.

You see Ferrozone restores all the powers of the body to normal activity.

The reason you feel better is because Ferrozone is driving out all the poisonous wastes from the body.

Ferrozone imparts to the blood that element that is necessary to render the air you breathe vitally active and strength-giving. In the old condition it simply acted on the surface. Now it enters deeply into all the recesses of the body.

Now you know that Ferrozone stimulates appetite and makes rich, red blood.

Now you feel that Ferrozone gives strength, endurance, vim.

Ferrozone clarifies the brain, imparts tone and vigor to it, gives clearness and strength.

Your will power is as strong as ever, and your enjoyment of life has a new zest because so vigorously renewed.

As a bracing, uplifting tonic for men, women and children—as a medicine for anaemia, weakness or nervous troubles nothing excels Ferrozone.

Try it, 50c a box or six for $2.50, at all dealers.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

PETERBOROUGH, JUNE 1908

FORESTRY ASSOCIATION

The railway builder has been often sounded the death-knell of the forest. Only of late years has the necessary care been exercised to prevent the wholesale destruction of forests along railway lines in course of construction.

The Canadian Atlantic and the Temiscaming and Northern Ontario Railways are examples of railway lines built in some portions through valuable forests without any considerable damage having been done to the woods by fire. During the construction of the former its builder, Mr. John R. Booth, the well-known lumberman, laid down his contractors such regulations in regard to burning brush along the right of way and setting fires generally that no serious fire took place. Constant and careful patrolling of the line of the T. & N. O. has likewise resulted in an almost complete absence of forest fires.

An unfortunate contrast to this is presented in the construction of the C.P.R. lines in Northern Ontario and British Columbia. These were constructed before the days of official oversight in the matter of fires along the right of way. In 1869 a fine grove forest extended from Nipigon On., westward to within a comparatively short distance of Winnipeg. The passage of the troops through this country in 1869 was partly responsible for its being burned over; but the building of the railway in 1882-84 was responsible for a far greater amount of the loss. Around Canmore, B. C., and Kicking Horse Lake, too, occurred conspicuous examples of devastation wrought by forest fires arising from C. P. R. construction.

In the building of the new transcontinental line, the Grand Trunk Pacific, better things are promised. As a result of the co-operation of the Dominion and New Brunswick governments, it is announced that a strong fire patrol will be maintained along the line of the railway through the latter province, where valuable timber areas are traversed. West of Edmonton, too, along the route of the railway, the patrolling of the line has been arranged for and is already in operation.

Piles are easily and quickly checked with Dr. Shoop's Magic Ointment. To prove it I will mail a small trial box as a convincing test. Simply address Dr. Shoop, Racine, Wis. I surely would not send it free unless I was certain that Dr. Shoop's Magic Ointment would stand the test. Remember it is made expressly and alone for swollen, painful, bleeding or itching piles, either external or internal. Large

General Servant Wanted:

By 1st July a competent general servant, must be a good plain cook. Small family, no children. Apply at Times Office for address.

News in Brief

New York, June 8.—In order that Miss Catherine Holmes, clerk in the department store, may recover from out of the hospital with a full head of hair more than one hundred department store girls each gave an inch of scalp with long locks attached. On May 15 Miss Holmes' hair was shorn in a cash carrier, and most of it was pulled out by the roots. Physicians in charge at first suggested a wig, but she objected to that, and it was decided that the grafting process should be used.

Saratoga, N. Y., June 8.—Mac O'Reilly, who Julius C. Tompkins, Jr., a confession to Prosecutor Jennings was murdered on the Quinn farm in Jefferson, Del., arrived on Tuesday last from New York City, and is staying with friends here.

St. Louis, June 8.—On the chance of securing a legacy now believed awaiting her at the end of her journey, Mrs. Cora Lynch, 62 years old, started to walk to Coffeyville, Kan., 450 miles. Mrs. Lynch has long been a familiar figure on down-town streets, where she keeps a news stand. Recently she heard a legacy awaited her in Kansas, but was being held there as she had no money to buy a railroad ticket.

SECURITY—The Entire Property and Improvements Owned THE URES CONSOLIDATED MINING COMPANY in the District of Ures, State of Sonora Mexico, Free from Mortgage or Bonded Indebtedness except this present Bond Issue.

An Unusual Opportunity for Investment in Sound Security

The Ures Consolidated Mining Company offers $100,000 of First Mortgage Gold Bonds. This issue of bonds is the only mortgage or bonded indebtedness ever placed on the company's properties.

These bonds are in the denomination of $100.00, and bear interest at the rate of 7 per cent. per annum, payable semi-annually, July and January, and are redeemable on or before five years from date at the company's option at $110.00 and accrued interest.

$100.00 Stock Bonus Given with Every $100.00 Bond

With each bond issued there will be given $100.00 par value of the capital stock of the company as a bonus, and in addition thereto there will be placed in escrow with the Trustee additional stock which will be available to the bondholders at their option any time within a period of three years, the bondholder being entitled to surrender his bond any time within said period and receive in lieu thereof stock for every dollar of indebtedness to him on account of said bonds.

The Security Back of these Bonds

The company owns twelve claims situated in the district of Ures, State of Sonora, Mexico, free from mortgage or bonded indebtedness, except the present bond issue.

On one of these properties (The Ramona Mine) 5,400 feet of underground development work has been done, consisting of an inclined shaft to the depth of 400 feet with drifts in three levels to the North and South of the shaft.

An average value of ore worth $11.47 per ton is exposed throughout the mine, from the collar of the shaft to the extreme parts in the drifts, all of which is above water level.

The company has made surface improvements and mine improvements to the extent of $60,000.00 in the way of machinery, skids, trams, steam hoists, mill and nearly everything necessary to make the mining camp complete.

In addition to the absolute ownership of these twelve valuable claims, the company has a lease on the San Jose Mine, adjoining its property, in which the company has been operating in high grade ore.

During the past sixty days the company has extracted and delivered to ore buyers and the bank at Hermosillo, $3,000.00 worth of ore and bullion, the ore having been reduced to bullion through the company's mill, with the exception of 1,456 pounds, which was sold to an ore buyer for $502.59.

The Money Derived from the Sale of These Bonds

This issue of bonds is made for the purpose of securing money at once in order to extend the development work more quickly than the company's present means will permit.

With the high grade ore in sight to the distance of 50 feet to the South of the shaft, the management is assured that within six months from date of making the improvements now necessary the company's properties will be on a self-sustaining and dividend-paying basis.

The Stock which is Given with these bonds will be as valuable as the bonds when the Company has the ready capital to push operations

Men who invest in these bonds will have no cause or reason to regret their action, for the bonds afford an investment in a security which is absolutely safe—much better than ordinary city or country real estate, which is considered perfectly safe if the property put up to secure a mortgage is double the face of the loan. The security given on these bonds is better than 7 to 1, for the Ures Consolidated Mining Company has refused an offer of $750,000.00 for the property upon which this $100,000.00 worth of bonds is issued.

These bonds are an investment with all speculative risk eliminated—an investment with absolute security.

Make your reservation at once. This is small and promises to be quickly sold.

For complete information, detailed description of the property, records of title, etc., address

Banco de Sonora,
Hermosillo, Mex.,
Feb. 11th, 1908.

To whom it may concern:—
We hereby beg to state that The Ures Consolidated Mining Company has during the past five years made several deliveries of bullion to this bank, and it is the opinion of mining men here that they have the making of a fair mine, and further, that the properties owned and controlled by them bid promise of becoming paying properties.
From our knowledge of the men connected, we believe they are doing all in their power to bring about the results above mentioned.
Respectfully,
BANCO DE SONORA,
Max Muller, Gerente.

SYNOPSIS OF CANADIAN NORTHWEST

HOMESTEAD REGULATIONS

reserve may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at an Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead duties under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3) If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of a homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father or mother.

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line exclusive of the width of road allowances crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the agent for the district of such intention.

Six months' notice in writing must be given to the Commissioner of Dominion Lands at Ottawa, of intention to apply for patent.

W. W. CORY,
Deputy of the Minister of the Interior.

Heart Strength

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Positively, not one weak heart in a hundred is in fact actually diseased. It is almost always a broken tiny little nerve that really is all at fault. That obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the Heart must continue to fail, and the stomach and kidneys also have these same controlling nerves.

This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing Hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—this popular prescription—is to be directed to these weak and wasting nerve centers. It builds, strengthens; it offers real, genuine heart help.

If you would have strong Hearts, strong digestion, strengthen these nerves — re-establish them as needed, with

Dr. Shoop's Restorative

"ALL DEALERS"

VISITING YOUR FRIEND.

No Place Like Home, After All, So a Victim Believes.

Visiting has ever been a form of discomfort.

Your friend, who has a new home, a lately replenished library, a unique garden or something which represents money enough to make him vain in its possession, cannot rest until he has dragged you from a happy home to cater to this feeling of vanity.

As for yourself, you put it off as long as possible. Of course you want to go. The thought of not having been able to get to see him has, you assure him, filled you with perpetual gloom. But circumstances over which you have had no control have forbidden. All this you assert until the fatal moment arrives when you realise that no further subterfuge is possible, and, with many protestations of anticipatory delight, you start off.

Your friend meets you at the station with his auto. He explains its workings, its superiority over all others, as you proceed back. If it breaks down on the way, as is more than likely, he smiles brightly. Such a thing has never happened before. He knows, of course, what the cause was. He mentions it carelessly, thereby implying that it was of so little consequence that it was scarcely worth while to avoid it.

You arrive at his house. Filled with enthusiasm and reveling in a new victim, he proceeds forthwith to drag you over its weary length before you have had time to change your shoes.

"Fine room this!" he exclaims, with a burst of honest pride, and so on. By and by, when he is getting tired, his wife, like a relay pony, takes up the lecture where he leaves off.

So plastic are we that at the time by a sort of fictitious warmth you really seem to be enjoying yourself.

You exclaim in wonder over the fact that you have been so long in getting there. And when at last, a week later, you reluctantly leave you tell him, with tears in your eyes, that you had the time of our life.

It is only when once more you find yourself joyfully in your own humble apartments, with its faithful bed, whose very imperfections have endeared themselves to you, that you cry out in deep gladness, "Thank God it's over, for, after all, there's no place like home!"—T. L. Masson in Puck.

They Prayed Running.

Harry and Ethel were crossing a field on their return from Sunday school when they encountered a bull. At the animal's approach they fled in terror. Faster and faster they ran, yet nearer and nearer came the bull.

"We must pray," panted Harry.

"You do it," Ethel pleaded. "We'll kneel down right here."

"No, we'll pray running. You ought to do it. You're a girl."

"O Lord—O Lord—I can't!" sobbed Ethel. "You do it."

The proximity of the bull demanded immediate action, and Harry rose to the occasion. Loudly and fervently he prayed:

"O Lord, for what we are about to receive make us truly thankful!"—Success Magazine.

Trapped.

"I saw the cutest thing today," began Miss Passay coyly. "It was a painting of the—er—what is the name of that little god that represents matrimony?"

"Well, now," said Mr. Timmid, "you've got me."

"Oh, Ma Timmid, this is so sudden!"—Philadelphia Press.

Ripping Times.

Gunner—Hot times out at the ball game. The players were slamming balls all the afternoon.

Guyer—And how about the bleachorites?

Gunner—Oh, they were slamming the umpire!—Chicago News.

Co-operating With Reform.

"Do you think racing will ever be stopped?"

"The trouble I have always had," replied the hard luck specialist, "is that the horses I bet on always want to stop."—Washington Star.

It is easy in this world to live after the world's opinion. It is easy in solitude to live after our own, but the great man is he who in the midst of the crowds keeps with perfect sweetness the independence of solitude.—Emerson.

Ready For Business.

A tragedian playing Richard III. in a small town was waited on after the show by an honest farmer, who said that "if the gen'l'm who wanted a horse was still of the same mind he would like to do business with him."

"You Americans don't appreciate art," said the man from abroad.

"We don't, eh?" rejoined the earnest patriot. "Why, we pay some sport dollars every Thanksgiving Saturday."—Exchange.

A Lung Developer.

Liftman (for the second time)—No smokin' in the lift.

Navvy—I ain't smokin'.

Liftman—Well, don't you call that a cigar?

Navvy (trying once more to make his "smoke" draw) — Naw, of course it ain't. It's a bloomin' lung developer.—Tatler.

Piles are easily and quickly checked with Dr. Shoop's Magic Ointment. To prove it I will mail a small trial box as a convincing test. Simply address Dr. Shoop, Racine, Wis. I surely would not send it free unless I was certain that Dr. Shoop's Magic Ointment would stand the test. Remember it is made expressly and alone for swollen, painful, bleeding or itching piles, either external or internal. Large jar 50c. Sold by all dealers.

Regular Meeting of Separate School Board

The regular monthly meeting of the Separate School Board was held on Thursday night. Trustees Hickey, Lane, Hanly, Murty, Primeau, Gosling, Collins, Carruth, Burns and Lynch being present.

A communication was read from the principal of St. Peter's school asking that awnings be supplied the school.—Received.

The Property Committee were instructed to purchase any oil needed from the Queen City Oil Company.

The Peterborough Fuel & Carting Co. submitted prices for coal.—Received.

ATTENDANCE

Reports of attendance for May:—Convent—Register, 219, average 208.

Lak Street School—Register, 249, average, 224.

St. Peter's School—Register, 297, average, 267.

Total register, 795, total average, 699.

This was received.

EXAMINER APPOINTED

On motion of Messrs. Lane and Primeau, Miss O'Connell was appointed examiner at the entrance examination.

The Property Committee were authorized to purchase 50 feet of hose and nozzle for St. Mary's Convent.

The board then adjourned.

A RAISE IN MINING STOCK

ALLOTMENT SUBSCRIBED.

The requisite amount of stock has been subscribed and paid in full to enable the Company to proceed to allotment and commence business.

RAISE OF MINING STOCK.

THE GREAT NORTHERN LARDER LAKE MINING CO., Limited, proposes to advance price of their treasury stock to Twenty-five (25c) cents on June 22nd. Last chance to buy at ten cents a share, par value One Dollar, fully paid up and non-assessable.

The foreman, Mr. David Foster, of Cobalt, has started to work on the Company's property with a gang of men to develop veins already discovered, also to continue striping in search of new gold veins.

We are erecting boarding houses and dining-rooms for our men.

READ COPY OF CERTIFICATE AND STATUTORY DECLARATION CONFIRMING SAME.

Toronto, March 20th, 1908.

To the Great Northern Larder Lake Mining Company, Limited:—

Gentlemen,—

I beg to confirm my previous report to you that in my judgment the surface showings on the 14 mining claims which the Company has acquired, being Nos. H.S. 221 to H. S. 234, both inclusive indicate the probability of the existence of large bodies of both high grade and low grade free-milling ore, sufficient to pay dividends for an indefinite period.

I have personally examined a number of veins and reefs on said property (consisting of about 560 acres) and had some assays made and from such examinations and assays I make this report.

The statement on pages nine and ten of the Prospectus giving the short history of the Company are correct. I insisted on retaining a large interest in the Company rather than sell for any price that seemed reasonable to the purchasers.

DAVID A. FOSTER,
(Haileybury)

IN THE MATTER OF THE GREAT NORTHERN LARDER LAKE MINING CO., LTD.

Statutory Declaration.

DOMINION OF CANADA
County of York
TO WIT:

I, David Foster, of the town of Haileybury, in the district of Nipissing, miner, do solemnly declare that the statements in the annexed certificate are true. I have personally inspected all of the fourteen claims now transferred to the Great Northern Larder Lake Mining Company, Limited. I have taken samples containing gold values from said property, and from my personal examination, and from assays made, I believe the Company's property when developed, will prove very valuable. I have full confidence in the success of the said Company, and on this account, with the exception of $400 already received, I have agreed to accept stock in said Company, and a note which I believe will not be of much value should the actual development work not prove the said claims to contain gold in paying quantities as it is not payable for one year from this date or until after the Company shall have done the necessary development work on said claims. And I make this solemn declaration conscientiously believing it to be true and knowing that it is of the same force and effect as if made under oath, and by virtue of "The Canada Evidence Act."

DAVID A. FOSTER.

Declared before me at Toronto, in the County of York, this 31st day of March, 1908. J. T. LOFTUS, A. Commissioner in H. C. J.

PROPERTIES TRANSFERED.

Since the prospectus was printed, the sale of the 14 mining claims to the Company has been completed and the transfers to the Company are registered in the Recorder's Office at Larder City. There is no mortgage or other encumbrance against said claims.

10c. PER SHARE.

Par Value One Dollar fully paid Up and Nonassessable.

OFFER IN PLAIN WORDS

$ 5.00 buys	50 shares, par value $ 50.00	$ 10.00 buys	100 shares, par value $ 100.00
20.00 buys	200 shares, par value 200.00	10.00 buys	500 shares, par value 500.00
100.00 buys	1,000 shares, par value 1000.00	500.00 buys	5,000 shares, par value 5000.00

We earnestly recommend that you purchase the Great Northern Larder Lake Mining stock at 10 cents per share.

Fill in application form and forward and you will be on the upward move.

Fortunes have always been made by those who can see a good thing coming.

ADVERTISE IN THE TIMES.

RAWHIDE-DULZURA

1 CENT A 2 SHARE

Send us your name as a member in this new company, with your remittance for as many thousand shares as you can take at $5 per thousand.

This is a short-time offer on a hurry-up proposition. Our vice president is up at Rawhide now putting the miners at work. We want to raise the necessary funds for development as quickly as possible. Therefore, we offer the first block of stock at $5 a thousand shares. This subscription must be all cash. We want the money in hand. We mean to work without let-up, and we have made it an ironclad rule not to run in debt. Cash counts now.

Our prospectuses are out. Send for one.

Make reservation of stock. If you do no more. But, remember, this present offer of stock at Half a Cent a Share is now open, and will be closed as soon as enough cash subscriptions are in hand. Don't wait, or you will get left.

The gold mining property owned outright by the company consists of 7 claims, 3 in the Rawhide district of Nevada, and 4 in the Dulzura district of Southern California.

The Rawhide district to-day is more famous than Goldfield, Tonapah, Bullfrog, or Searchlight were at the same stage of exploration and development. The Dulzura discovery is one of the most sensational in the history of California.

Ten samples of ore which were among the first assayed, run as high as $7,461.57 to the ton, and all ten averaged over $1,-600 a ton.

In both camps we located early, and our locations are choice. Our own officers will superintend the mining.

Rawhide-Dulzura Gold Mining Company

122 West Third Street, Los Angeles, Cal.

What every Woman Requires for Headache Langour

Mrs. Mary Flanigan Gives Advice that is Sound, Useful and True.

Has your strength given out? Do you feel languid and tired this spring?

Are you pale, somewhat nervous, finding it hard to do your housework? Thousands feel just the same—feel the enervating influence of spring, whether that brings out latent symptoms of disease and we know. You should do like Mrs. Flanigan, of Elgin Junction — here is her experience. "I will never again suffer the torture of deadening spring lassitude — never will I have headaches, such sleepless nights, such pale cheeks and loss of appetite. I lived through it all several times, but now I know the medicine that cures. I urge every person, young and old, to try the invigorating effect of Dr. Hamilton's Pills. When I was so played out, listless—Dr. Hamilton's Pills gave me appetite—refreshed my meals and gave strength, rosy color came to my cheeks, every day I felt brighter and better. All my old strength has been restored and the great tonic, blood purifying powers of Dr. Hamilton's Pills did it all."

Women who are continually pale, blind and sick headaches, faint and dizzy spells, aching muscles, bearing down pains, lack of sleep and loss of appetite—they are the poor women that sorely need Dr. Hamilton's Pills of Mandrake and Butternut, 25c at all dealers.

CITY AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES REPORTERS.

Will Attend Divine Service

L.O.L. No. 41 and No. 46 will attend divine service in a body on Sunday evening, July 5th, at Springville Presbyterian church.

Has Returned to the City

Mr. A. W. Spence of the Trent Canal engineering staff, has returned from Rosedale, where he has been engaged on the canal. He leaves again today for Rosedale, and his wife and daughter will accompany him.

Hot for Rice Lake

Steamer Otonabee will run regular trips to Idyl Wyld on Thursdays and Saturdays, leaving Wolfe street wharf at 1.30, and calling at Street Railway wharf, returning at 9 p.m.

Large Party of Americans

Mr. Jas. Wedlock, yesterday morning brought into the city a party of Americans from Cleveland, Ohio, who have been occupying the Willis cottage opposite Wedlock's. They left on the C.P.R. noon train for Boston.

Moving to Chemong

Owing to the continued fine weather many summer residents of Chemong are already moving to their cottages. Consequently the lake boats running to Chemong will commence their trips on June 9th instead of the 15th as was first decided on. This means that the big auto-bus will also be brought into commission on the same date.

Had His Leg Broken While Playing Football

Springville, June 8.— Sandwiched between two other players, and accidentally knocked down by them, Robert Lockie, 14-year-old son of Mr. Robt. Lockie, emerged with a broken leg, thus causing an abrupt and unfortunate termination of a football practice here on Saturday evening. Young Lockie, with a number of other boys, was engaged in the practice, along with a number of young men when the accident occurred. Three went down in a heap together, including Lockie, who, unfortunately, being the smallest, got between the others. He was sandwiched so tightly that he was knocked down, accidentally, of course, and trampled on.

On being taken from the mixup it was discovered that he was seriously injured. He was taken to the home of Mr. Matthew Clark, and medical aid was summoned from Peterborough. It was then found that the unlucky boy had had a leg broken in two places below the knee and near the ankle.

Doctors Young and Boucher came out to Springville, and decided to set the fracture. The injured boy was taken to Peterborough to the residence of his aunt, Mrs. Scott.

Personal

—Mr. M. T. Brue, Lindsay, was in the city yesterday.

—Mr. J. A. Lawless, New Liskeard, is in the city.

—Mr. Roy Wilson of Lindsay, was the guest of Master Leslie Stevens, Going street, over Sunday.

—Mrs. Jas. Watson, Sterling, is in the city.

—Miss Jessie Gray of Toronto, is the guest of Mr. and Mrs. Richard Wigram, 267 Sherbrooke street.

—Miss W. D. Smith of Toronto, is visiting Miss Joy Browatt, 457 Downie street.

—Mr. Geo. Miller has returned to Chicago after a week's visit to his parents, Mr. and Mrs. Finch W. Miller.

—Mr. J. O'Connor, Smith's Falls, was in the city yesterday.

—Hugh Workman is able to be around again and is none the worse from the injuries he received the other night.—Lindsay Warder.

Beware of Ointments for Catarrh that contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Villagers Armed Themselves with Guns

Springville, June 8.— Consternation reigned among the residents of this quiet hamlet last Friday following the report that a "wild" man carrying a mammoth knife was on the way there from Fraserville. The unknown stranger created considerable disturbance at the latter place when he walked boldly into the cheese factory with a threatening manner. To get rid of him there they informed him that there was a fighting man in Springville who was waiting for him. He immediately struck off in that direction but a telephone message arrived before him to warn the residents there.

Rev. Dr. Marsh then went around to inform them of the approaching danger and soon every man and youth in Springville was armed with guns or other weapons of defence. The doors and windows too were all bolted. But the stranger was rather slow in getting here so it was arranged by phone that the Fraserville and Springville citizens travel both ways and corner him up.

Finally they observed him travelling on towards Cavanville, but what became of him after that is not known.

Wedding Bells

A very pretty wedding was quietly solemnized at 11 o'clock yesterday morning, when Miss Mabel Jory Wigram, only daughter of Mr. and Mrs. Richard Wigram, 267 Sherbrooke street, became the wife of Mr. Ernest Kampf, son of Mr. John Kampf of Fort Wayne, Ind. The ceremony was performed by Rev. Thos. Dodds of St. Andrew's in the presence of only the immediate friends, while the young couple were unattended. Dr. and Mrs. Kampf left on the 11.45 G.T.R. train for Buffalo, New York and Fort Wayne, where they will visit the bride's parents. Afterwards they will go on to Kansas City where they will reside in future.

Young and Handsome Women Performers

Wherever the Cole Brothers' Shows have exhibited press and public have been a unit in praising the work of the exceedingly large number of young and handsome women performers. Ladies of the fair sex are represented among the riders, aerialists, contortionists, jugglers, high-wire artists, gymnasts, bicyclists, clowns, animal trainers, chariot drivers and in fact even among the ring masters. As may naturally be expected keen rivalry exists between the lady and gentlemen artistes, a fact which greatly enhances their performances. The lengthy imperial program, presented this year by these shows, contains only the best and most modern features that money and labor can procure and in such quantity and variety as to satiate every heroic taste and fancy. Lack of space prevents an enumeration of all the different acts, many of which must be seen to be appreciated. There is an extended list, the last of which does not by any means end the pleasures which the Cole Brothers' shows will provide patrons Thursday, 17th instant, afternoon and evening in this city.

There are the sports of ancient Rome and modern fete day races and contests. Then the big triple menagerie form a zoological display without a peer in all the world. Next is Cole Brothers' marvelous museum of

DISCOURAGED MEN

IS LIFE WORTH LIVING

MEN, you become disheartened when you feel the symptoms of Nervous Debility and decline stealing upon you. You haven't the nerve or ambition you used to have. You feel you are not the man you ought to be. You feel like giving up in despair. You get nervous and weak, have little ambition, pain in the back over kidneys, drains at night, hollow eyes, tired mornings, prefer to be alone, distrustful, variable appetite, looseness of hair, poor circulation—you have Nervous Debility. Our New Method Treatment is your refuge. It will strengthen all weak organs, vitalize the nervous system, purify the blood and restore you to a manly condition.

Pay When Cured.

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weakness? Our New Method Treatment will cure you. What it has done for hundreds of others, it will do for you. CONSULTATION FREE. No matter who has treated you, write for an honest opinion Free of Charge. Charges reasonable. BOOKS FREE—"The Golden Monitor" (Illustrated), on Diseases of Men.

ESTABLISHED 20 YEARS—CURES GUARANTEED. No Treatment sent C. O. D. No names on boxes or envelopes. Everything confidential. Question list and cost of Home Treatment FREE.

OXYDONOR

It applies to all cases, no matter what the form of disease may be. It revitalizes the human body with OXYGEN from the air. OXYGEN is a vital Necessity—the greatest necessity life knows.

You can apply Oxydonor at home while you rest or sleep. No loss of time from your work or business. It is easily applied safe, and always ready for use. Its force never exhausts. It will serve the family, children as well as adults.

Mr. Wm. Beers, 196 York St., Toronto, writes: "I have great pleasure in recommending your Oxydonor. When I first got the instrument I was suffering from Sciatica for about four months, and after applying it for five weeks it left me all at once and have not been troubled with it since. I can highly recommend it as a good family doctor, and would not be without it for double the price.

What Toronto Critics Think of Fred Simpson

Toronto Stars says:—

Fred Simpson, the Hiawatha Indian, who completes the Marathon team, is an enigma. He has none of Tom Longboat's erratic obstinacy, and adds to his tractability a whole lot of good horse sense. He says he is sorry that Longboat cast of his away his great chance. "This is my opportunity, and I'll make the best of it," said Simpson quietly before Saturday's race.

Simpson can run a great deal faster than he did in either trial Marathons. Instance his great showing in the Hamilton Herald race, where he came from behind in the last mile and easily handled.

Mr. John Adams Expired While Casting His Vote

One of the oldest electors of Harvey township, died suddenly on Monday at the polling booth in the town hall, Lakehurst, in the person of Mr John Adams, aged 88 years.

Deceased had walked from his home which is about a mile from the polling booth at the town hall, and it is thought the heat and to some extent the excitement of the occasion proved too much for his powers of endurance which were necessarily rather feeble on account of his advanced age.

As he was standing in the hall at about twenty minutes to ten and preparatory to the opening of the polls he was suddenly stricken and Dr. McCamus of Bobcaygeon, who was camping about three miles distant on the shores of Buckhorn lake was immediately sent for. The late Mr. Adams was placed on cot which was obtained at a nearby store and everything possible was done to restore him. Those who were at the hall fanned him, bathed his forehead and resorted to other means of resuscitation but without avail. When Dr McCamus had arrived the victim of the sudden illness had passed away. The body was removed to the late home by Mr. A. E. Shearer, the Harvey stage driver. The gloom caused by the death under such distressing circumstances was evident at the polling booth all day.

The late Mr. Adams who was highly respected was a very staunch advocate of the Orange cause and never missed a walk of the order when he found it possible to attend. It had been his intention to be present at the celebration to be held in Peterborough on July 12th next.

He came originally from Fermanagh in the north of Ireland, and is survived by his wife who is 87 years of age, and a nephew William Adams, who lived with him. He also had an adopted daughter, Mrs. Benjamin Beghem of Peterborough. He was a member of the Church of England, and a staunch and enthusiastic supporter of the Conservative cause.

The funeral will take place today to the Lakehurst cemetery.

In the Realm of Sport

LACROSSE.

Millbrook, June 8.—The Trent Valley Lacrosse League, which started the season in an unassuming way, is branching out into a more ambitious enterprise. Lindsay club has applied for admission and Trenton has entered a team.

The intention is to divide the league into two sections. No. 1 will consist of Trenton, Bellevill and Port Hope; No. 2, of Lindsay, Millbrook and the T.A.S., Y.M.C.A. and married men of Peterborough. A meeting to draw up a schedule will shortly be held.

FOOTBALL.

The Quakers and Norwood will clash tonight in a soccer match for the Stratton Cup. The game will be played at the Driving Park and will start at 6.30. The Quakers will line up as follows;

Goal—McFadden.
Back—Evans.
Back—Bayle.
Right half—McCarroll.
Centre—Scrimshaw.
Left back—Archibald.
Right forward—Baker.
Inside right forward—Hagley.
Centre forward—Huston.
Left inside forward—R Best
Left outside—Brodie.

ADVERTISE IN THE TIMES.

Where the finest biscuit, cake, hot-breads, crusts or puddings are required *Royal* is indispensable.

ROYAL
Baking Powder
Absolutely Pure

Not only for rich or fine food or for special times or service. Royal is equally valuable in the preparation of plain, substantial, every-day foods, for all occasions. It makes the food more tasty, nutritious and wholesome.

Big Delegation for Sandy Point Camp

Secretary Wright of the Y.M.C.A. yesterday received a letter from the secretaries of the Port Hope and Lindsay "Y's" stating that they would unite with the local organizations, and send a large delegation to the annual summer camp at Sandy Point, Clear Lake. About 75 boys are expected to attend the junior camp, which assembles on the 15th of July, and a jolly time will be spent for four days.

The senior camp will be composed of about 50 men, who will run up their tents on July 20th for a two weeks vacation.

Chinese Help Becomes Scarce

Chinese help is very hard to get at the present time. Restaurant keepers and laundrymen are daily complaining of their inability to secure employes, particularly in the warm weather. Many of the parties of young men going out camping, employ Chinese cooks and this to a great extent accounts for the scarcity of men for the restaurants and laundries. The situation applies here as well as in other places and the difficulty referred to prevails locally at the present moment. The men who do take employment demand big wages.

Week women should try Dr. Shoop's Night Cure. These soothing, healing, antiseptic suppositories go direct to the seat of these weaknesses. My "Book No. 4 For Women" contains many valuable hints to women, and it is free. Ask Dr. Shoop, Racine, Wis. to mail it. Ask the Doctor in strictest confidence, any questions you wish answered. Dr. Shoop's Night cure is sold by all dealers.

LATEST RETURNS SHOW MAJORITY IS 69 IN LEGISLATURE

elections	
Conservatives	87
Liberals	18
Labor	1
Total seats	106
Conservative majority	69

The returns to date indicate that the Government will have a majority of 69 in the legislature. Yesterday interest was keen in the news from Stormont and North Bruce. The Conservatives retain the former seat by the narrowest possible margin, while there is no doubt that Mr. Bowman, the late Liberal member for North Bruce, will be in the House again this year.

An Excellent Program Rendered by S.A. Band

A small crowd went to Victoria Park last night to hear the splendid program rendered by the Salvation Army band. The program given was one that suited all tastes, regimental, sacred and classical music being played.

The first number was a march, "Under the Colors," which had a decided military air. That old favorite, which one often hears in the churches, "Tell me the old, old story," was the next selection, and it was well rendered by the musicians. "Grand Redemption," the next number was well worth the trip to the park alone, it introducing a monster base solo by J. Richardson.

One of the latest marches "Plymouth," was a charming number. The next selection was a snare drum solo, representing a shunting and approaching train, also a battlefield with roaring cannons and the crack of the rifle, then the grand march played by the soldiers. Great credit is due Bandsman Meadows, who officiated with the sticks. "Songs of Scotland," a melodious number, brought back to many the memories of Lock Lomond's bonny braes.

"The Vesper Hymn," was the next rendered and the soft, clear music, made it sound almost pathetic. "Songs of Freedom," and "The Flag," were the closing numbers and were well received.

The program was as follows;

March, "Under the Colors," Band.
Selection, "The Old Old Story," Band.
Selection, "Grand Redemption," Band, introducing monster base solo by J. Richardson.
March, "Plymouth," Band.
Snare drum solo, representing a shunting and approaching train, also a battlefield, with the offering of guns, and the troops leaving the field, with the grand march past, etc., by Bandsman Meadows.
Selection, "Songs of Scotland," introducing many old Scotch airs, Band.
March, "The Vesper Hymn," Band.
Selection, "Songs of Freedom," Band.
March, "The Flag," Band.
God Save the King.

Durham Old Boys' Annual Outing

The Durham Old Boys' Association of Toronto will run the annual excursion to Niagara Falls on July 8th, starting at Peterborough on Grand Trunk Railway and connecting with the train at Toronto. The trip from Lewiston to the Falls will be made on the Gorge Route, on the United States side. Those who wish to cross to the Canadian side can do so on the street car which crosses the Bridge at the Falls. The Durham Old Boys' excursions are deservedly popular because their arrangements are always so complete, and every detail is carried out as planned. The excursion always affords an excellent opportunity for meeting with friends on the boat crossing the lake morning and evening. Toronto friends hope that a large number of their old friends in Durham will as usual take advantage of the excursion.

Pupils Eager to Get Into the New Institute

The last issue of the Collegiate Echoes in referring to the New Institute says;—

After many years of—may we say patient—waiting on the part of the staff and scholars of our school, we shall, in September, occupy the new and modern structure, which has been in course of erection during the past year. The old building has long out-lived its usefulness and in many ways the progress of the school has been retarded by its limited space and equipment. But now we are about to enter our new building. The years 1908 should mark the beginning of a new era in Collegiate Institute affairs in Peterborough. The old school spirit and life, literary and otherwise, ought now to receive an impetus such that it may never again ebb. Yes, great things should be done in the new Collegiate.

The new building is a large structure of red brick, presenting an imposing front on Central Park, side by side with the new armories, the work on which is now well under way. The site is one of the best in the city. The Y.M.C.A. building is not far distant, and the dreamer may see in his mind's eye our city hall and public library of the future in the immediate vicinity. At any rate the Collegiate Institute and the Armories are two magnificent additions to the public buildings of Peterborough.

The school will accommodate about four hundred pupils. It is three stories in height with a spacious basement. The first two stories will be devoted to the class and masters' rooms. All the rooms in the building are large and well lighted. The third story will be entirely devoted to an assembly hall.

There will be many new features in the new Collegiate that were not in the old. The corridor will be a "thing of beauty and a joy forever," and will, when completed, add very much to the interior aspect of the building. The assembly hall is an innovation and will be one of the largest and best equipped school halls in the Province. As it will seat six hundred people, one can easily imagine its dimensions. It will be fitted up in orthodox theater style, with its stage and large dressing rooms. What an opportunity for a dramatic club!

The science students of our school have long been handicapped by lack of equipment, but the science master assures us that such will not be the case in the future. The laboratories will be fitted up in the latest approved style, with glass-covered tables, specimen cupboards and all apparatus necessary for innumerable experiments.

The Cadets, who have been organized for some time, will have a splendid drilling ground. Moreover, after the armories is completed, we understand that they will be at our disposal at stated hours. This will prove a great boon to this part of school life.

We are about to occupy a modern building, and now we ought to "do things." First of all let us try to work up a spirit of school patriotism. The new assembly hall will facilitate the meetings of the Literary Society, but already our society is in a flourishing condition. Our athletic affairs, too, are undergoing a revival. Still something seems lacking. Just what that something is may be hard to determine. However, since the social side is neglected, let us see if enlivement socially will supply the want. The assembly hall would be just the place for informal little functions, in which both graduates and undergraduates could take part. If these proved successful we might later inaugurate and Old Boys' Reunion. Yes, if the scholars wish it, great things may be done in the new Collegiate.

$250 Needed to Send Simpson to England

$250 is needed to defray the expenses for training and other purposes of Fred Simpson, Peterborough's only athlete to catch a place on the Olympic team, while he is in England. This amount must be raised by tonight, and from all appearances no difficulties will be experienced in getting the required amount for at midnight nearly half the amount had been subscribed.

The sum of two hundred and fifty dollars is absolutely necessary towards the defraying of the expenses and the figure mentioned is the lowest that could possibly cover them. This will include the amount that will be involved by Simpson taking his trainer, Dick Baker, with him.

Simpson is certainly a credit to the province and is deserving of the most generous support of the citizens of Peterborough. In spite of the fact that the great athletic organization, the Irish-Canadian Athletic Club, has been after him to join its ranks he has been loyal to Peterborough and has always run under the colors of the local Y.M.C.A. under those same colors he will start in England.

He will be Peterborough's sole representative in the old country and the residents of this city are under a decided obligation to him. They should make it their duty to see that the $250 is raised to finance the trip of the crack Indian distance man.

Fred Simpson is a credit to the community in more ways than one. Besides his great ability as a runner, he is a splendid fellow—clean living, and eminently respectable. In fact, in every way he is a fit representative of this city to the big world's event in which he will take part.

Subscription blanks have been prepared and one has been left at the Y.M.C.A., Anyone wishing to subscribe may call there and do so.

It should be borne in mind that as Simpson sails with the other athletes on Friday on the SS. Teutonian the amount asked will have to be fully subscribed by Wednesday evening as he leaves the city Thursday morning.

Beware of Ointments for Catarrh that contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surface. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Just before 12 o'clock last night, a local photographer took several pictures of the south window display of R. B. Hall & Son's store. The window was very artistically dressed white and green being the color scheme. A life-sized baby doll adorns the center of this pretty window.

Militia Orders for the Week The March Out Last Night

There was a large turnout of the 57th Regiment at the weekly drill held last night. The men looked fine, on the march out, and good lively music was furnished by the bugle band.

The following orders were read out at nine o'clock in the drill hall.

Headquarters,
Peterborough, June 9, 1908.

Orders by the commanding officer of the 57th Regiment Peterborough Rangers;

1. Detail of duty for the week ending June 16, Captain for the week, Capt. Hounsell; next for duty, Capt McWilliams. Subaltern for the week, Lieut. Rackham, next for duty, Lieut. Heal.

2. Extract from general orders No 129 of May 26; Leave of absence with permission to travel abroad has been granted to Hon. Major and Chaplain J. C. Davidson, from the 15th inst. to October 1st next.

3. Leave of absence from parade is hereby granted to Capt. McLean, for three weeks. Leave of absence is also granted to Lieut. Fairweather.

4. Hereafter during this drill season the miniature ranges will be open in the drill hall to members of the regiment who have not yet put in their target practice, on Monday and Thursday evenings only. All ranks are reminded that to qualify for efficiency pay, each company and man who is not exempt must put in his target practice as prescribed by the regiment.

5. During the absence of Hon. Major J. C. Davidson, the hon. capt. chaplain, the Rev. Dr. E. A. Langfeldt, 3rd Prince of Wales Dragoons, is attached as acting chaplain of the 57th.

By Order,
MAJOR BENNET,
Acting Adjutant.

Young and Handsome Women Performers

Wherever the Cole Brothers' Shows have exhibited press and public have been a unit in praising the work of the exceedingly large number of young and handsome women performers. Belles of the fair sex are represented among the riders, acrobats, contortionists, jugglers, high-wire artists, gymnasts, bicyclists, clowns, animal trainers, chariot drivers and in fact even among the ring masters. As may naturally be expected keen rivalry exists between the lady and gentlemen artists, a fact which greatly enhances their performances. The lengthy imperial program, presented this year by these shows contains only the best and most modern features that money and labor can procure and in such quantity and variety as to satiate every aremic taste and fancy. Lack of space prevents an enumeration of all the different acts, many of which must be seen to be appreciated. There is an extended list, the last of which does not by any means end the pleasures which the Cole Brothers' shows will provide patrons on Thursday, 17th instant, afternoon and evening in this city.

There are the sports of ancient Rome and modern fete day races and contests. Then the big triple menageries form a zoological display without a peer in all the world. Next is Cole Brothers' marvelous museum in which are exhibited a myriad of human and animal freaks and other attractions. Thus it will be seen that there is a royal holiday feast in store for all who attend this mighty amusement exposition.

June Session of County Court Opened Yesterday

The June session of the County Court opened yesterday afternoon before his Honor, Judge Weller. The Grand Jury was sworn in as follows; Messrs. P. F. McNulty, foreman; J. H. Connell, Alex. Elliott, Jas. Foster, A. B. Greenbank, Thos. Murray, John Clancy, Harry Fitzgerald, Jas. P. Gilkespie, Thomas Miles, W. R. G. Higgins, Jacob Snidgrove, M. S. Crough and W. E. Chamberlain.

His honor in addressing the jury was pleased to state that there was no one in jail awaiting trial, although there was a man out on bail on a serious charge. At the present time there are five vagrants in the jail.

At the building of the House of Refuge a large number of vagrants were sent there, but they only take men of the county outside the city. The city and county should get together and come to some arrangement whereby the city might send its poor to the House of Refuge. At the present time the vagrants must go to jail.

His honor then referred to the one jury case, that of a charge against a local resident for receiving a quantity of wheat knowing it to be stolen. The boys who committed the theft had already been convicted by the magistrate. The judge said that not everyone who receives stolen goods is guilty. His honor drew the attention of the jurors to the fact that to prove his guilt it would be necessary to find out whether he knew the goods to be stolen when he received them.

The jury was instructed to visit the jail, and, if they desired to do so also the hospitals and the Protestant Home.

The jurors then retired.

CASE WAS SETTLED.

The case of the Port Hope Brewing & Malting Company against Geo Armstrong of Belleville, was settled. O'Connell & Gordon, solicitors for the defendant.

NON-JURY CASES.

The non-jury case to come up was that of A. Low vs. Brenner & Co. The following members of the bar were present; County Crown Attorney R. E. Wood, D. O'Connell, C. N. Gordon and A. P. Poussette.

Athletics Had a Good Work Out

In a practice game at Riverside Park last night the Athletics defeated the T.A.S. City League team by a score of 6—5 in a six-inning game. Hayes, the Abstainer slab artist, was in good form, and held the Midland Leaguers down to nine hits. But errors lost the game for the T.A.S., the infield losing many chances.

The Athletics played a loose article of ball, and on form should have scored a shut-out. Heslip at second played a good game, he pulling off many pretty catches. Cahill at short for the losers, was the pick of the fielders, his throwing to first being a feature. The score by innings was as follows.

Athletics	1	0	0	2	1	2	6
T.A.S.	0	2	0	1	1	1	5

The teams lined up as follows:

ATHLETICS—
Battery, c.
Pilling, p.
Graham, 1b.
Heslip, 2b.
Shea, ss.
Landry, 3b.
Connors, lf.
Callihan, cf.
Quinlan, rf.

T.A.S.—

Intermediate Bible Class Moonlight

A large crowd attended the moonlight excursion down the Otonabee last night, held under the auspices of the Intermediate Boys' Bible class of the Y.M.C.A., on the steamer Otonabee. The steamer was beautifully illuminated with over 200 electric lights, to say nothing of the big 2000 c.p. search-light, which lit up the banks of this pretty river, showing the grass, trees and flowers, heavily bathed in a summer's dew.

To stop any pain anywhere in 20 minutes, simply take just one of Dr. Shoop's Pink Pain Tablets. Pain means congestion—blood pressure—that's all. Dr. Shoop's Headache—or Pink Pain Tablets—will quickly soak blood pressure away from pain centers. After that, pain is gone. Headache, Neuralgia, painful periods with women, etc., get instant help. 20 Tablets 25c. Sold by all dealers.

To Found a Godless Church

Great Bend, Kan., June 8.—To spread the glad things of atheism throughout the civilized world is the object of the founders of the Church of Humanity, who will begin their first general assembly here on Sunday, June 7. Delegates from various parts of the country arrived to-day, and while the convention will be small in numbers, every part of the United States, from New York, to California, will have representation. A permanent organization will be effected, and plans made for propaganda which is expected eventually to extend throughout the world.

That all deities and devils, Christian and pagan, are myths, immortality a fable and death the end of conscious life is the basic creed of the new church. Neither do the founders present these statements as theories but declare that they are proven facts, capable of scientific demonstration. While there have been national organizations of freethinkers in this country this is the first attempt to found a national society along purely atheistic lines, as all previous organizations have been composed largely of agnostics, deists, pantheists and spiritualists. Voltaire, Paine and Ingersoll, the patron saints of all former freethinking societies, have been discarded as false leaders and hopelessly behind the times through their lack of the knowledge now revealed that "God is a myth like Santa Claus."

W. H. Kerr, a wealthy retired farmer of this city, is the principal spirit.

DOCTORS MISTAKES

Are said often to be buried six feet under ground. But many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous prostration, another with pain here and there, and in this way they present alike to themselves and their easy-going or overbusy doctor, separate diseases, but which he, assuming them to be such, prescribes his pills and potions. In reality, they are all only *symptoms* caused by some womb disease. The physician, ignorant of the cause of suffering, keeps up his treatment until large bills are made. The suffering patient gets no better, but realizes that wrong treatment, but probably would never recover medicine like Dr. Pierce's Favorite Prescription, *directed to the cause*, would have entirely removed the disease, thus by dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said that "a disease known is half cured."

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native American medicinal roots and is perfectly harmless in its effects in any condition of the female system.

As a powerful invigorating tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For overworked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," housekeepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nervine "Favorite Prescription" is unsurpassed and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, St. Vitus' dance, and other distressing, nervous symptoms commonly attendant upon functional and organic diseases of the uterus. It induces refreshing sleep and relieves mental anxiety and depression.

Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. One to three a dose. Easy to take as candy.

Doctors All Advise Suitable Spring Tonic

Pays You to Get Strong and Nourish the Blood During Change of Seasons.

In the spring time the vigor and resisting power of the body fall very low. Instead of being rich and nourishing, the blood is thin and watery. As a result the bodily forces become less active, sleep fails to bring rest. An ever-increasing tiredness develops into ever-pressing weakness.

People suffering from this spring sickness feel heavy and drowsy; they don't want to eat; they don't enjoy life—about half sick and half well. This is just the condition that favors pneumonia and typhoid, and you must build up as quickly as possible. You must increase your blood supply and make it rich and red.

The only way this can be done is by using Ferrozone, which is acknowledged to be the most efficient spring medicine.

The marvellous purifying and tonic properties of Ferrozone are quickly felt because the blood is at once supplied with the elements it needs to become rich and red. It is ironized vitalized and rapidly brought to its normal strength.

The very best ingredients for toning up the system are contained in Ferrozone, and if you use it you are sure to get back your old-time strength and spirits.

If you suffer from debility, insomnia, nervousness, loss of appetite, or any of the symptoms of disordered blood, nothing will so rapidly tone you up as this great food tonic, Ferrozone. Its record of successful cures, its recommendation by the public, by druggists and doctors commends it to every thinking person.

You need Ferrozone to make you well. Why not get to-day? Sold by all druggists; price 50c. per box or six boxes for $2.50.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

PETERBOROUGH, JUNE 1908

FRENCH AND ENGLISH

Nowhere in the world perhaps are the intimate and cordial relations between France and England, now permanently established, so keenly appreciated as by the peoples of this province. To see the two mother countries grasping hands in a fellowship of warm affection and esteem has been and is the highest of happiness to our peoples and the greatest incentive to extending mutual tolerance and appreciation among ourselves. The very best friends of England and France have always earnestly desired such an entente cordiale as has now happily come to pass. We like to give the honor and the glory of this blessed reconciliation to King Edward and President Loubet, M. Delcasse and Lord Lansdowne, and they did indeed each take occasion by the hand to consummate a relationship that now seems the most natural, indeed inevitable, thing in the world. But while unwilling to diminish by the least particle the debt of gratitude France and Great Britain and Canada owe to these four great protagonists, it cannot be concealed that the influence of Canadian publicmen, of French and British extraction, and the object lesson of the communion of the two races upon equal terms in this province, prepared the way—ploughed the land and sowed the seed, as it were—for the present rich harvest.

If one feels dull and "all-gone" in the spring or early summer, they call it "Spring Fever." But there's no fever—usually. It is the after-effect of our waste habits. The nerves are mostly at fault. The worn-out nerves, leaves us languid, lifeless, and without spirit or ambition. A few doses of Dr. Shoop's Restorative will absolutely and quickly change all of these depressing symptoms. The Restorative of course won't bring you back to full health in a day or two, but it will do enough in 48 hours to satisfy you that the remedy is reaching that "tired spot." Druggists everywhere are advising its use as a splendid and prompt general tonic. It gives more vim and more spirit to the spoonful than any other known nerve or constitutional tonic. It sharpens a failing appetite, aids digestion, frees sluggish livers and kidneys, and brings new life, strength and ambition. Test it a few days and be convinced. Sold by all dealers.

News in Brief

Asheville, N. C., June 8—Although N. H. Carpenter, formerly of Atlanta, who occupied one of the Vanderbilt villas at Baltimore, has been dead three weeks, and his body embalmed, natural color is returning to his cheeks, and the fulness of his face is being restored. Physicians declare the case the most remarkable known to medical science, and are closely watching all developments.

Mrs. Carpenter, at the time of his death, refused to allow her husband's body to be buried, declaring he was not dead. She and her husband were devout Christian Scientists. After keeping the body at Baltimore for two days, she agreed to have it sent to her former home for burial. The body was shipped, but Mrs. Carpenter changed her mind, and again refused to allow it to be buried.

St. Louis, June 8—On the chance of securing a legacy she believes awaits her at the end of her journey, Mrs. Cora Lynch, 42 years old, started to walk to Coffeyville, Kan., 450 miles.

Mrs. Lynch has long been a familiar figure on down-town streets, where she keeps a news stand. Recently she heard a legacy awaited her in Kansas, but was being cheated back. She had no money to buy a railroad ticket.

Milwaukee, Wis., June 9.—A demand for the same wages which were paid before the strike of the telegraphers on the Western Union Telegraph Company will probably be made by the national convention of the Commercial Telegraphers' Union, which opened here yesterday. Threats are made of a general strike if the demand is not complied with.

The locals of the union in a number of cities, including New York, voted some time ago to make the demand.

They claim that union operators who returned to work were compelled to drop out of the union and forfeit their insurance policies in the labor organization. They also insist that the companies have discriminated against female employes, particularly the woman operators.

New York, June 9.—In order that Miss Catherine Gorman, cancer in a department store in Brooklyn, may come out of the hospital with a full head of hair more than one hundred department store girls each will sacrifice from a quarter of an inch to an inch of scalp with long locks attached. On May 15 Miss Gorman's hair caught in a cash carrier, and most of it was pulled out by the roots. Physicians at the hospital at first suggested a wig, but she objected to this, and it was decided that the grafting process should be tried.

Weak women should try Dr. Shoop's Night Cure. These soothing, healing, antiseptic suppositories go direct to the seat of these weaknesses. My "Book No. 4 For Women" contains many valuable hints to women, and it is free. Ask Dr. Shoop, Racine, Wis. to mail it. Ask the Doctor in strictest confidence, any questions you wish answered. Dr. Shoop's Night cure is sold by all dealers.

SUNSET AT GUAYAQUIL.

There Is No Twilight, No Interval Between Daylight and Dark.

The days and nights at Guayaquil are of equal length. The sun knocks off promptly at 6 o'clock in the evening and gets up at 6 in the morning with equal regularity the whole year around. There is no twilight, no gloaming, no interval whatever between daylight and dark—only a brilliant illumination, the sudden disappearance of a red ball into a blue ocean, a spread of flame color over all the western sky for a few minutes and a purple haze in the east.

Then the surface of the ocean, like the heavens, is lighted with millions of strange and shifting stars, for the water is so impregnated with phosphorus that each tiny wave is tipped with light, and the foam that follows in the wake of the vessel is often like a stream of fire. Sometimes you can see porpoises swimming along the bow of the vessel livid with phosphorescent light and followed by a streak of sparks like a comet's tail.

The Southern Cross, with the right arm tipped out at proper angle, lies straight ahead in the midst of myriads of unknown worlds that look strange to those accustomed to the northern constellations. Under the left arm is a large black spot in the heavens, brightened by only a single modest star, which the sailors call "the devil's dinner bag." Over the stern of the vessel in the early evening you can plainly distinguish the familiar constellation of the Great Bear, but it goes to bed with the children.

HIS SERVICES.

What Became of All the Bills He Introduced in Congress.

"Yes, my fellow citizens," said the political candidate, "if you have paid any attention to the work of congress you will have noticed that during the past session I introduced twenty-two bills, each of which was intended to benefit this community. I stand before you today with the proud consciousness of having served you faithfully and to the best of my ability. Those twenty-two bills would, if they had been passed, have made this one of the most favored districts on God's green earth, and"—

"Oh," yelled a man in the gallery, "we know you introduced 'em, all right, but what happened to 'em after that?"

"Gentlemen, I appeal to your sense of honor. Do you consider it fair that I should be interrupted in this manner? Is it right that I should"—

"There ain't no harm in answerin' the question, is there?" asked another of the statesman's hearers.

"Well, sir, I will tell you what became of those bills, my fellow citizens. Every one of them was printed in the Congressional Record, where, if you will look over the files, you may find them today. But to revert to the need question, gentlemen, I do not hesitate to promise that no man living in this, the most splendid district in our grand old state, shall appeal to me in vain if *you shall deem it best to send me back* to Washington, where I have served you with such signal ability."

1854 THE 1854

HOME BANK OF CANADA

Head Office, TORONTO. Three Branches

Alliston, Lawrence Park, Forest, B. C — Bala, River, St. Thomas. — Cannington, Uxbridge, Whamfort.

To Canadian Investors

The undersigned has received an allotment of unsold portion of $100,000 of

7 PER CENT FIRST MORTGAGE FIVE-YEAR-GOLD BONDS

dated January 11, 1908, and maturing January 11, 1913. These Bonds are offered at par and accrued interest by Metropolitan Trust & Savings Bank, Chicago, trustees.

SECURITY—The Entire Property and Improvements Owned THE URES CONSOLIDATED MINING COMPANY in the District of Ures, State of Sonora Mexico, Free from Mortgage or Bonded Indebtedness except this present Bond Issue.

An Unusual Opportunity for Investment in Sound Security

The Ures Consolidated Mining Company offers $100,000.00 of First Mortgage Gold Bonds. This issue of bonds is the only mortgage or bonded indebtedness ever placed on the company's properties.

These bonds are in the denomination of $100.00, and bear interest at the rate of 7 per cent. per annum, payable semi-annually, July and January, and are redeemable on or before five years from date at the company's option at $110.00 and accrued interest.

$100.00 Stock Bonus Given with Every $100.00 Bond

With each bond issued there will be given $100.00 par value of the capital stock of the company as a bonus, and in addition thereto there will be placed in escrow with the Trustee additional stock which will be available to the bondholders at their option any time within a period of three years, the bondholder being entitled to surrender his bond any time within said period and receive in lieu thereof stock for every dollar of indebtedness to him on account of said bonds.

The Security Back of these Bonds

The company owns twelve claims situated in the district of Ures, State of Sonora, Mexico, free from mortgage or bonded indebtedness, except the present bond issue.

On one of these properties (The Ramona Mine) 5,000 feet of underground development work has been done, consisting of an inclined shaft to the depth of 400 feet with drifts in three levels to the North and South of the shaft.

An average value of ore worth $11.47 per ton is exposed throughout the mine, from the collar of the shaft to the extreme parts in the drifts, all of which is above water level.

The company has made surface improvements and mine improvements to the extent of $60,000.00 in the way of machinery, skids, trams, steam hoists, mill and nearly everything necessary to make the mining camp complete.

In addition to the absolute ownership of these twelve valuable claims, the company has a lease on the San Jose Mine, adjoining its property, in which the company has been operating in high grade ore.

During the past sixty days the company has extracted and delivered to ore buyers and the bank at Hermosillo, $3,000.00 worth of ore and bullion, the ore having been reduced to bullion through the company's mill, with the exception of 1,456 pounds, which was sold to an ore buyer for $502.56.

The Money Derived from the Sale of these Bonds

This issue of bonds is made for the purpose of securing money at once in order to extend the development work more quickly than the company's present means will permit.

With the high grade ore in sight to the distance of 30 feet to the South of the shaft, the management is assured that within six months from date of making the improvements now necessary the company's properties will be on a self-sustaining and dividend-paying basis.

The Stock which is Given with these bonds will be as valuable as the bonds when the Company has the ready capital to push operations

Men who invest in these bonds will have no cause or reason to regret their action, for the bonds afford an investment in a security which is absolutely safe—much better than ordinary city or country real estate, which is considered perfectly safe if the property put up to secure a mortgage is double the face of the loan. The security given on these bonds is better than 7 to 1, for the Ures Consolidated Mining Company has refused an offer of $750,000.00 for the property upon which this $100,000.00 worth of bonds is issued.

These bonds are an investment with all speculative risk eliminated—an investment with absolute security.

Make your reservation at once. This is small and promises to be quickly sold.

For complete information, detailed description of the property, records of title, etc., address

Banco de Sonora,
Hermosillo, Mex.,
Feb. 11th, 1908.

To whom it may concern:—

We hereby beg to state that The Ures Consolidated Mining Company has during the past five years made several deliveries of bullion to this bank, and it is the opinion of mining men here that they have the making of a fair mine, and further, that the properties owned and controlled by them bid promise of becoming paying properties.

From our knowledge of the men connected, we believe they are doing all in their power to bring about the results above mentioned.

Respectfully,
BANCO DE SONORA,
Max Muller, Gerente.

SYNOPSIS OF CANADIAN NORTHWEST

HOMESTEAD REGULATIONS

reserve may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at an Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead duties under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each on and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3) If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of a homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father or mother.

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line exclusive of the width of road allowances crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the agent for the district of such intention.

Six months' notice in writing must be given to the Commissioner of Dominion Lands at Ottawa, of intention to apply for patent.

W. W. CORY,
Deputy of the Minister of the Interior.

Weak Women

To weak and ailing women, there is at least one way to help. But with that way, two treatments must be combined. One is local, one is constitutional, but both are important, both essential.

Dr. Shoop's Night Cure is the Local.
Dr. Shoop's Restorative, the Constitutional.

The former—Dr. Shoop's Night Cure—is a topical mucous membrane suppository remedy, while Dr. Shoop's Restorative is wholly an internal treatment. The Restorative reaches throughout the entire system, seeking the repair of all nerve, all tissue, and all blood ailments.

The "Night Cure", as its name implies, does its work while you sleep. It soothes sore and inflamed mucous surfaces, heals local weaknesses and all discharges, while the Restorative, upon nerve excitement, gives renewed vigor and ambition, builds up wasted tissues, bringing about renewed strength, vigor, and energy. Take Dr. Shoop's Restorative—Tablets or Liquid—as a general tonic to the system. For positive local help, use as well

Dr. Shoop's Night Cure

"ALL DEALERS"

The Glory of Life.

The human race is still in its infancy. Up to the present moment, with a few grand exceptions, man has lived mostly an animal existence. The brute is only partially educated out of him. He has not yet evolved that superb character, that diviner man, foreshadowed in the beast. How few people ever get anything more than a mere glimpse of the true glory of life! Few of us see any real sentiment in life or anything above the real animal existence and animal pleasures. Most of us look upon our occupation as a disagreeable necessity that somehow or other ought to have been and might have been avoided. The trouble with many of us is that we think too meanly of ourselves. Our sordid aims and material, selfish ambitions have so lowered our standards that we think downward instead of upward; we grovel instead of soaring. Our lives are materialistic, selfish, greedy, because we live in the base of our brains, down among the brute faculties. We have never explored to any great extent the upper regions of our brain, never developed our higher intelligence.—Success Magazine.

A Courteous Pirate.

That even a Chinese pirate may have a strong idea of chivalry is proved by the following excerpt from an item in the North China Daily News: "The launch at once stopped when ordered to do so. The leader of the pirates was then heard to order his men that they were not to molest any one on board who voluntarily handed over his or her valuables. Among the passengers, however, were a father and son, the latter of whom, it seemed, was a little too slow in obeying the pirates' order to hand over his money, with the result that he was shot. Upon hearing the shot the pirate chief, who was on deck, came down into the cabin and, seeing the father of the unlucky young man lamenting over his son's death, addressed the old man and condoled with him on his son's unfortunate and 'undeserved' death. The chief finally brought out of his pocket a roll of $50 and handed the sum to the old man as a solatium, bidding him to refrain from further lamentations."

Sir Frederick's Prescription.

The King of England's famous surgeon, Sir Frederick Treves, has this to say to the rising generation. It comes from one who knows:

"Boys, don't bother about genius, and don't worry about being clever. Trust rather to hard work, perseverance and determination. The best motto for a long march is: 'Don't grumble, Plug on.' You hold your fortune V...s Ot....f ve emfwy emf future in your own hands. Never waver in this belief. Don't swagger. The boy who swaggers like the man who swaggers, has little else that he can do. He is a cheap-jack crying his own paltry wares. It is the empty tin that rattles most. Be honest, be loyal, be kind. Remember that the hardest thing to acquire is the faculty of being unselfish. As a quality it is one of the finest attributes of manliness. Love the sea, the ringing beach, and the open down. Keep clean body and mind."

Britishers Are Growing.

That the British head is shrinking and the British muscles are degenerating, as recently charged by certain scientists, was refuted by evidence introduced at the meeting of the British Association of Leicester. Records for the last twenty years at Marlborough College show that the fourteen-year-old boys there average five pounds heavier and nearly an inch taller than those of 1888.

A hatter who furnishes hats for the schools, vouches that hats of 21 1-8 inches circumference formerly were rarely demanded, while now hats of 21½ inches in circumference are needed continuously.

Sir Victor Horsley proposed a motion at the meeting, urging the Government to institute in connection with the medical inspection of school children, a system of periodic measurements.

Starving Statistics.

The statistician has been at it again. The average man, he has discovered, has twenty square inches of board on his face. Ergo, if a man will twenty square inches of face shaven every morning he will scrape away 7,300 square inches in a year. Accordingly if he shaves from the time he is twenty until he is seventy years old he will have shaved off—but spare blushes of heard.

"Crocodile Tears."

The phrase "crocodile tears" owes its origin to the imagination of some of the old travelers, who invented the fable that the crocodile weeps over its prey. One of the earliest English globe trotters to mention this fiction was Sir John Mandeville, who in his "Travels" (1499), speaking of "Ethiop," "Inde" and an "Ile clept Silla," says:

"That Lond is full of Serpents and of Cokadrilles. Thane Cokadrilles ben a manner of Long Serpents, naiowe and rayed abowen, and had four Feete and schorte Thyes and grete Nayles as Chen or Talemes, and there ben some that had five Fadme in length and some of six and a halvedal. And in the nyght thei dwellen in the Watre and on the Day wen upon the Lond. Thoise Serpentes ethe men, and thei eten hem wrygynge, and when thei eten thei meven the over Jowe and nayghen the nether Jowe, and thei have no tonge."—St. Louis Republic.

Dr. Shoop's Night Cure

"ALL DEALERS"

Cleaning Shoes.

Many people pin their faith to gasoline as the best cleanser for shoes in the light pastel shades, as well as those of darker leather.

A hardening of the leather, however, sometimes is the result of cleansing by this method.

The effect should be tried on the shoe under the instep before the entire surface is treated.

Under no consideration should the whole shoe be immersed in the gasoline, but an end of a piece of cloth should be dipped in the oil, then rubbed evenly over the leather.

Any stains or spots are eliminated by extra rubbings.

A Chair Hospital.

Quite the newest thing in the way of an occupation for women is putting cane seats in chairs.

A Boston woman has chosen this unique way of earning money and is making a decided success of it. She has secured a clientele among well known families, and every patron she serves brings several others, so that her "chair hospital," as she calls her workshop, is seldom without a large number of patients. She averages 60 or 70 cents on each chair and can cane five or six a day.

In the Sewing Basket.

Use a common bottle cork and a common thimble, push the cork into the thimble, small end first, then hollow out the cork enough to admit the point of your scissors. When your scissors are not in use keep the cork on the points of them and you need not be afraid they will do any damage to your sewing in your workbasket. This will also keep your fine scissor points in good condition.

For bath purposes the flesh brush should take the place of flannel. Indeed, the vigorous use of the flesh brush or glove may be recommended as an effective substitute for a bath where the latter is not at hand, as the rough glove or brush cleanses the skin of small particles which are apt to cling to it from the clothing that is in daily contact with the body.

White spots on furniture caused by putting down a hot jug or cup should be rubbed at once with a little oil of some kind, linseed for choice, though paraffin or sweet oil is nearly as good. Leave the oil on some hours if possible and then polish.

His Wife (writing)—Which is proper, "disillusioned" or "disillusionized?"
Her Husband—Oh, just say "married" and let it go at that.

Piles are easily and quickly checked with Dr. Shoop's Magic Ointment. To prove it I will mail a small trial box as a convincing test. Simply address Dr. Shoop, Racine, Wis. I surely would not send it free unless I was certain that Dr. Shoop's Magic Ointment would stand the test. Remember it is made expressly and alone for swollen, painful, bleeding or itching piles, either external or internal. Large jar 50c. Sold by all dealers.

A RAISE IN MINING STOCK

ALLOTMENT SUBSCRIBED.

The requisite amount of stock has been subscribed and paid in full to enable the Company to proceed to allotment and commence business.

RAISE OF MINING STOCK.

THE GREAT NORTHERN LARDER LAKE MINING CO., Limited, proposes to advance price of their treasury stock to Twenty-five (25c) cents on June 22nd. Last chance to buy at ten cents a share, par value One Dollar, fully paid up and non-assessable.

The foreman, Mr. David Foster, of Cobalt, has started to work on the Company's property with a gang of men to develop veins already discovered, also to continue striping in search of new gold veins.

We are erecting boarding houses and dining-rooms for our men.

READ COPY OF CERTIFICATE AND STATUTORY DECLARATION CONFIRMING SAME.

Toronto, March 30th, 1908.

To the Great Northern Larder Lake Mining Company, Limited:—

Gentlemen,—

I beg to confirm my previous report to you that in my judgment the surface showings on the 14 mining claims which the Company has acquired, being Nos. H.S. 221 to H. S. 234, both inclusive indicate the probability of the existence of large bodies of both high grade and low grade free-milling ore, sufficient to pay dividends for an indefinite period.

I have personally examined a number of veins and reefs on said property (consisting of about 560 acres) and had some assays made and from such examinations and assays I make this report.

The statement on pages nine and ten of the Prospectus giving the short history of the Company are correct. I insisted on retaining a large interest in the Company rather than sell for any price that seemed reasonable to the purchasers.

DAVID A. FOSTER,
Haileybury.

IN THE MATTER OF THE GREAT NORTHERN LARDER LAKE MINING CO., LTD.

Statutory Declaration.
DOMINION OF CANADA
County of York
TO WIT:

I, David Foster, of the town of Haileybury, in the district of Nipissing, miner, do solemnly declare that the statements in the annexed certificate are true. I have personally inspected all of the fourteen claims now transferred to the Great Northern Larder Lake Mining Company, Limited. I have taken samples containing gold values from said property, and from my personal examination, and from assays made, I believe the Company's property when developed, will prove very valuable. I have full confidence in the success of the said Company, and on this account, with the exception of $640 already received, I have agreed to accept stock in said Company, and a note which I believe will not be of much value should the actual development work not prove the said claims to contain gold in paying quantities as it is not payable for one year from this date or until after the Company shall have done the necessary development work on said claims. And I make this solemn declaration conscientiously believing it to be true and knowing that it is of the same force and effect as if made under oath, and by virtue of "The Canada Evidence Act."

DAVID A. FOSTER.

Declared before me at Toronto, in the County of York, this 21st day of March, 1908. J. T. LOFTUS, A. Commissioner in H. C. J.

PROPERTIES TRANSFERED.

Since the prospectus was printed, the sale of the 14 mining claims to the Company has been completed and the transfers to the Company are registered in the Recorder's Office at Larder City. There is no mortgage or other encumbrance against said claims.

10c. PER SHARE.

Par Value One Dollar fully paid Up and Nonassessable.

OFFER IN PLAIN WORDS

RAWHIDE-DULZURA

1 CENT A 2 SHARE

Send us your name as a member in this new company, with your remittance for as many thousand shares as you can take at $5 per thousand.

This is a short-time offer on a hurry-up proposition. Our vice president is up at Rawhide now putting the miners at work. We want to raise the necessary funds for development as quickly as possible. Therefore, we offer the first block of stock at $5 a thousand shares. This subscription must be all cash. We want the money in hand. We mean to work without let-up, and we have made it an ironclad rule not to run in debt. Cash counts now.

Our prospectuses are out. Send for one.

Make reservation of stock, if you do no more. But, remember, this present offer of stock at Half a Cent a Share is now open and will be closed as soon as enough cash subscriptions are in hand. Don't wait, or you will get left.

The gold mining property owned outright by the company consists of 7 claims, 5 in the Rawhide district of Nevada, and 4 in the Dulzura district of Southern California.

The Rawhide district to-day is more famous than Goldfield, Tonapah, Bullfrog, or Searchlight were at the same stage of exploration and development. The Dulzura discovery is one of the most sensational in the history of California.

Ten samples of ore which were among the first assayed, run as high as $7,461.87 to the ton, and all ten averaged over $1,600 a ton.

In both camps we located early, and our locations are choice. Our own officers will superintend the mining.

What every Woman Requires for Headache Langour

Mrs. Mary Flanagan Gives Advice that is Sound, Useful and True.

Has your strength given out?
Do you feel languid and tired this spring?
Are you pale, somewhat nervous, finding it hard to do your housework?
Thousands feel just the same,—feel the enervating influence of spring, whether the brings out latent symptoms of disease and weakness. You should do like Mrs. Flanigan of Flesherton Junction — here is her experience. "I will never again suffer the torture of deadening spring illness — never will I have head ches, such sleepless nights, such pale cheeks and lack of appetite. I lived through it all several times, but now I know the medicine that cures. I urge every person, young and old, to try the invigorating effect of Dr. Hamilton's Pills. When I was so played out, listless.—Dr. Hamilton's Pills gave me appetite—I relished my meals and grew strong. Rosy color came to my cheeks, every day I felt brighter and better. All my old strength has been restored and the great tonic blood purifying powers of Dr. Hamilton's Pills did it all."
Women who are continually pale, blind and sick headaches, faint and dizzy spells, aching muscles, bearing down pains, lack of sleep and loss of appetite—they are the poor women that sorely need Dr. Hamilton's Pills of Mandrake and Butternut, 25c at all dealers.

CITY AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES REPORTERS.

Shipped 80 Hogs

Messrs. Morris and Brown are keeping pace with the market. Yesterday morning they shipped 80 hogs to Montreal from the local C.P.R. station.

Had a Narrow Escape

Mr. J. Clancy had a narrow escape from serious injury yesterday morning. While talking to Mr. Thos. Ross in front of the City Hotel, a brick dislodged in some way from the top of the building, and came swiftly downward, just grazing Mr. Clancy's head in its flight.

Met with Accident

Mr. A. L. Blezard of the firm of Shelby and LeBlanc, had the misfortune to wrench his foot at Young's Point, while engaged in superintending the work of moving stone from the company's quarries.

Amusements at Jackson Park

Manager Larmouth of the Radial Railway Company, stated yesterday that the moving picture at Jackson Park will be continued every night while the good weather lasts. "The hour car is again proving very popular," said the manager and it will be kept running all summer.

locals

Board of Health Met Yesterday Morning

Several important matters were up for discussion at the regular monthly meeting of the Board of Health held yesterday morning, the members present being:—Dr. Burnham, chairman; Dr. Young, Dr. McNulty, Mr. Jas. Edgar, Dr. Bingham, M.H.O., and Chief Roach, sanitary inspector.

A letter was read from Geo. J. Povey, calling attention to what he termed the disgraceful condition of the mouth of Patterson's creek, near the Matthews factory. The communication stated that a large amount of refuse had collected there, which was not only disagreeable but a detriment to health.

City Engineer Hay explained that the difficulty was not overcome, as it had been done away with when the water fell. There would be no further trouble until next spring. He thought that a gate should be placed in the sewer.

Messrs. H. O. Fife and John Thompson wrote, asking that a short sewer be built on Dublin street, from Water street to Harvey street. It was impossible to get a petition sufficiently signed.

On motion it was decided that the council be requested to have the sewer built on sanitary grounds.

The medical health officer reported that the cess pool on Hunter street, east of Queen street, had been covered up with charcoal and sand and there was no longer any nuisance there. He also stated that Nicholas Burnett had had his premises on Charlotte street connected with the sewer, but that Mr. J. J. McHarg had taken no action in connection with the property on George street, between Brock street and Murray street.

The sanitary inspector stated that the tenants had been notified to move and the board decided to take no action.

It was decided to notify the owners of the terraces on both sides of McDonel street, from Bethune street to Stewart street, and on Sherbrooke street, west of All Saints' church, that they must connect their premises with the sewer.

The Children's Aid Society will be allowed to connect their premises on the Hilliard farm with a cess pool until such time as it is possible to get sewer connection there. The work to be done under the supervision of the medical health officer.

No 1 for Rice Lake

Steamer Otonabee will run regular trips to Idyl Wyld on Thursdays and Saturdays, leaving Wolfe street wharf at 1.30, and calling at Street Railway wharf, returning at 9 p.m.

City Topics
IN SHORT FORM FOR BUSY READERS

—The regular weekly drill of the 57th Regiment was held last night.

—The S.A. band gave a concert in Victoria Park last night.

—Messrs. Duncan & Doup have begun the work of painting the Hunter street bridge.

—The Board of Directors of the Y.M.C.A. held a special meeting last night, when much important business was transacted.

—The steamer Dawn arrived here Monday from Young's Point, towing a scow of stone to the new south end church.

—The Monarch arrived yesterday morning at 7 o'clock, with a scow of wood from Campbellford.

—The city water fountain has many patrons these days. The cold water is generally welcomed.

—The Y.M.C.A. Swimming and life saving class will meet on Thursday night, instead of Friday night this week. Instructor P. H. Smedmore requests a full turnout of members.

—Messrs J. J. Turner & Sons, have received the contract for decorating the Mutual street rink, Toronto, for the big convention of the Foundrymen of America.

Personal

—Mr. Thos. Hill of Pontypool, is in the city on a visit.

—Miss Grace MacCallum of Arnprior, is the guest of Mrs. John, 418 Rubidge street.

—Mr. Harry McGee of Omemee, is in the city.

—Mrs. J. N. Watson and children, 425 Chambers street, left yesterday morning for Hartford, Conn., for the summer.

—Mr. John Watt of the G.T.R. freight department left here yesterday for Midland where he has been transferred by the company.

—Mr. and Mrs. Alex Spence and Miss Jessie Spence have gone to Rosedale, Balsam Lake, for the summer.

—Mrs. M. A. Turner, Mrs. Jas. Kendry and Mrs. (Rev.) Campbell, left yesterday to attend the missionary convention in Bowmanville.

—Misses Agnes Boyle and Bessie Bell of Toronto, are the guests of their cousin, Miss Sarah Robinson, Weller street.

—Mr. Thompson of Toronto, came up to the city on the G.T.R. noon train yesterday to attend the meeting of the Board of Directors of the Y.M.C.A. last night.

Asked to Be Sent Up for Six Months

Andy Fawcett who was released yesterday morning from the county jail, where he has been for the past six months, went right down to the police court and asked to be sent back for another half year term. Andy is an old man, being over 70 years of age, and has neither home nor money. His request was granted.

Y.M.C.A. Will Only Send Two Entries

The local Y.M.C.A. will only send two entries to the Boys' championship events to be held in Toronto this coming Saturday. They are: Peter Wallace, who will compete in the mile event, and Harold Munro, who goes for the 100 yard dash and the 120 yards hurdles.

These two youngsters give promise of becoming top notchers in the athletic world. Young Wallace has on several occasions run a mile in better than 4.40, and on Saturday should be able to go the distance in 4.36. Munro is also a lively kid, he being able to step the 100 yards in less than twelve seconds. He is also very fast over the obstacles.

The pair will leave for Toronto on Saturday morning accompanied by Mr. E. A. Frowd, physical director of the "Y."

Piles are easily and quickly checked with Dr. Shoop's Magic Ointment. To prove it I will mail a small trial box as a convincing test. Simply address Dr. Shoop, Racine, Wis. Surely it would not send it free unless I was certain that Dr. Shoop's Magic Ointment would stand the test. Remember it is made expressly and alone for swollen, painful, bleeding or itching piles, either external or internal. Large jar 50c. Sold by all dealers.

Brewers Make Move to Elevate Saloons

Milwaukee, Wis., June 9.—As a result of the temperance wave that is now sweeping over the country, the United States Brewers' Association, which began its annual convention here to-day, will seek to secure the adoption of plans that will drive the dives and low groggeries out of business. Brewers who are here from all over the land agree that such action is necessary to protect the legitimate liquor dealers and to prevent the spread of the "dry" sentiment to sections yet unaffected.

One of the plans under consideration is that recently adopted in Cincinnati which has met with much success.

In Cincinnati several leading brewers have been sworn in as probation officers of the juvenile court of that city and are taking part in prosecuting every case of liquor selling to minors and endeavor to revoke the license as well as licenses of those who have violated the law.

As the brewers own a large percentage of the property in which saloons are run, their power is considerable.

They also employ secret agents to make investigations, and if they find saloons not being conducted in accordance with the law, they put them out of business.

In a small way the crusade against dive saloons has already been begun by the brewers in various other parts of the country, but the plan is to extend this movement, and during the next year many undesirable saloon men will be driven out of the business.

This spirit of inquiry, which has been started by the anti-saloon agitation, has brought the reputable saloon man throughout the country to realize that their worst enemies are within their own ranks. For some years efforts have been made here and there to rid the saloon business of its disorderly and law-defying elements. In Massachusetts this has been pretty thoroughly accomplished by wise legislation. In other States the laws themselves have invited and stimulated over-competition, which has proved disastrous to the morals of the business. The Texas brewers two years ago employed their own lawyers and secured their own evidence, and forced the hands of the police and prosecutors, and have rid the State of 3,000 gambling and other joints which were annexes to the saloons. The brewers of the Board of Trade of New York have now undertaken to do the same thing in co-operation with the Committee of Fourteen (organized to eradicate the Raines hotel law evil) and the bonding companies which bond the licenses. As a result of this arrangement it is expected that 150 disorderly places will be put out of business through their inability to obtain new licenses.

The Buffalo brewers have already done the same thing, and it is expected that similar resolutions will follow in Rochester, Syracuse and other upstate cities.

The West Virginia Brewers' Association has sent a circular letter to liquor dealers, insisting upon their rigid compliance with the law in every particular. The New Jersey brewers passed resolutions to the same effect a few months ago, and in Ohio brewers have taken similar action.

The Minnesota brewers are also in line, and the Milwaukee brewers are now taking the matter up. It is expected that a wholesale house-cleaning will take place in the retail liquor trade in every city of importance.

Saratoga, N. Y., June 8.—Mac O'Reilly, who Julius G. Treulson, Jr., in a confession in Texas, declared was murdered on the Gutness farm at Laporte, Ind., arrived on Friday last from New York City, and is staying with friends here.

Precious Life and Health can be Saved By this New Method
All Sickness is Alike to
OXYDONOR

It applies to all cases, no matter what the form of disease may be. It revitalizes the human body with OXYGEN from the air. OXYGEN is a vital Necessity—the greatest necessity life knows.

You can apply Oxydonor at home while you rest or sleep. No loss of time from your work or business. It is easily applied, safe, and always ready for use. Its force never exhausts. It will serve the family, children as well as adults.

Mr. Wm. Beers, 196 York St., Toronto, writes: "I have great pleasure in recommending your Oxydonor. When I first got the instrument I was suffering from Sciatica for about four months, and after applying it for five weeks it left me all at once and have not been troubled with it since. I can highly recommend it as a good family doctor, and would not be without it for double the price."

When the Nerves Cry—
Look to the
Coffee

The cry may be in some one of many ways, Trembling, Sleepy in the day time (comes from stomach) Headache Dyspepsia, Bowel Trouble, Heart Palpitation, Pains in various parts of the body, and even Piles, Diabetes and Weak Eyes originate in a disordered nervous system brought on by Coffee.

SCHOOL TEACHER
and Coffee Drinking

Many good people are loth to give up coffee, even though they admit that it is doing them harm, because they fear that nothing else in the way of a hot beverage will satisfy them. A school teacher says:

"I always enjoyed coffee for breakfast. The day seemed lost without it. But in time I began to experience bad results from its use. I grew very nervous and lost flesh and finally was prostrated by a complete nervous breakdown. Then I was compelled to abandon the use of coffee.

"I adopted Postum as my hot beverage at breakfast. Have been using it for more than two years. My health is restored and I am able to take an interest in life once more.

"My whole family, children and all, drink Postum, and we all thrive and keep healthy on it. It is to us a delightful drink, delicious and tempting and with none of the harmful effects that usually followed the use of coffee. The choicest brands of Java and Mocha, offered free, would not tempt us to quit the use of Postum."

Name given by Postum Co., Battle Creek, Mich. "There's a Reason." Read the little book, "The Road to Wellville," in pkgs.

If you don't heed the cry (Nature's hint) you may be sure the trouble will get worse, and not better, until you either quit the coffee habit which is the cause, or you develop fixed organic disease that may carry you down.

It is the finest trade possible, to quit coffee and get well.

Health is the most exquisite fun on earth.

It is easy to quit coffee when you have choice, well made Postum, a delicious hot beverage with the deep seal brown of strong coffee that changes to a rich golden brown when cream is added. Then you have the crisp coffee "snap" and a flavor all its own. The nerves are relieved of the old hurt of the poisonous 'Caffeine' of coffee and in its place you feed the system on strong food elements in Postum which quickly rebuild the worn out and exhausted nerve and brain cells destroyed by Coffee.

These are facts. Prove them by 10 days' trial.

"There's a Reason."
Get the little book, "The Road to Wellville, in pkgs.

Bourassa will Not Lead the Quebec Opposition

Montreal, June 10—Later returns from the Quebec election give the Liberals 50 and the Opposition 21 members, with three elections yet to be held. Malcolm County, which was reported last night as having elected Dr. Beaubien, Liberal, has elected Joseph Sylvestre, Conservative, by 15 majority. The Liberals claim that Mr. Blanc, the Opposition leader, is defeated in Laval by 17 majority, but the Conservatives do not concede this, and are confident that a recount will show Mr. Leblanc elected. While the Liberals also claim St. Hyacinthe, Mr. Bourassa's friends are confident that the recount will show his election, in which event Mr. Bourassa would resign that seat in favor of Mr. Lavergne, one of his most active supporters. There is also a probability that a recount will give St. Annes Division of Montreal to the Opposition. There is thus every likelihood that when the Legislature meets the Government will be confronted with an Opposition of close to 25 members, instead of seven, as in the last Legislature.

Mr. Leblanc the Opposition leader, who, the Liberals claim, was defeated in Laval, sent word from Laval yesterday that two of the ballot boxes had been lost, and that he was confident that before the affair was finished he would recover his seat for Laval.

Mr. Bourassa said yesterday that he would not be the leader of the Opposition at Quebec.

A Bumper Crop of Fruit All Over Ontario --No Winter Killing

Ottawa, June 10—Fruit in abundance all over Ontario; all over Canada, in fact, wherever fruit grows, apples, pears, plums, peaches, cherries, grapes, strawberries and raspberries and tomatoes.

Not a single variety that does not promise well. High prices for the housewife and frequent famine will not belong to the year 1908.

The fruit crop report of the fruit division of the Department of Agriculture is most promising.

Starting at the winter, it was very favorable. "Apple trees everywhere have come through the winter well." Small fruits in Essex and the Niagara Peninsula have come through the winter in excellent condition." "No injury," reported in the case of fruit trees in Nova Scotia, Quebec and British Columbia.

In the Ontario fruit sections "the season up to date has been almost ideal for the development of leaf and bloom buds." So with other parts of the Dominion.

Now for particulars:

APPLES

All varieties promise well, with the possible exception of the Spy. Baldwin and Russet, which they bore heavily last year. All growth is sufficiently early to insure a season long enough for the full development of fruit.

PEARS

In Districts 1, 2, and 3 bloom is heavy, and the conditions are favorable for "setting." Trees are reported to be in excellent condition.

In British Columbia the Bartletts are reported to be somewhat later in bloom.

PLUMS

Japan plums wintered badly in District 4 along Lake Ontario, and plum fruit buds all over Ontario are reported poor. In Prince Edward, but the Japan varieties for the most part in districts 1 and 2 came through the winter in good condition. In the commercial plum orchards in districts 1 and 2 and in the Georgian Bay district the bloom is full, and the conditions otherwise are all very favorable for European and American varieties.

British Columbia prospects are all favorable.

PEACHES.

Peaches trees came through the winter in excellent condition. There is an excellent promise for all varieties in the Niagara and Essex peninsulas. The majority of correspondents report prospects for a full crop. The bloom is more universal and somewhat heavier than last year. An encouraging feature is the statement by some correspondents that they expected to thin their peaches in nearly all varieties.

CHERRIES

Cherries have bloomed full everywhere. There has been no winter killing nor early spring frosts.

GRAPES

Grapes have wintered well, look healthy and show an abundance of vines.

SMALL FRUITS

Strawberries have wintered well everywhere, but will be a week or ten days later than usual in Southern Ontario and in British Columbia.

Raspberries also wintered well, with the exception of some old patches which suffered from the drought of last summer, and in a few instances where canes were broken by snowfall. Otherwise berries of all kinds look well.

The indications are that raspberries will overlap strawberries in the market, as the former are earlier relatively than the latter.

TOMATOES.

Tomatoe plants for the most part have been set from the hotbeds and cold frames. The warm weather and frequent showers have made ideal conditions for planting.

The acreage for Prince Edward county and Essex is reported to be larger than usual.

The following are the districts referred to;

No. 1—Counties north of Lake Erie.,

No. 2—Counties on Lake Huron and inland to York County.

No. 3—Lake Ontario counties north to Sharbot Lake and Georgian Bay.

Will Close Thursday Afternoon

The clerks are jubilant over the fact that the merchants of Peterborough, have decided to have Thursday afternoon holidays during the months of July and August. At first it was thought advisable to close the stores each day at five o'clock instead of half a day on Thursdays. However, this arrangement was not approved of and the stores will close on Thursdays commencing the second Thursday in July.

Peterboro Students Passed Examinations

The results of the examinations in medicine and arts at the University of Toronto, have been announced. Among those who have passed the first year exams in medicine are C. C. Burchard and H. M. Yelland of Peterborough, and J. F. Taylor, of Stockton, formerly of this city.

Mr. J. B. Mann of Bridgenorth, passed the third years exams in medicine with honors and Mr. R. E. Kelly of Bridgenorth, completed his fourth year. Mr. H. G. Manning, son of Rev. H. M. Manning, passed his third year exams in arts and Miss I. M. Roberts, formerly of Peterborough, also completed her third year in arts.

Wedding Bells

A very quiet wedding was celebrated yesterday morning at St. John's church, when Miss Bertha Brundrette, daughter of Mr. Wm. Brundrette, 608 Park street, was united in marriage to Mr. W. W. Armstrong, manager for Thomas Barrie. The ceremony was performed by Rev. Dr. Langfeldt. Mr. and Mrs. Armstrong left for Stony Lake on their honeymoon and on their return will reside on Hunter street. They will have the best wishes of a large number of friends.

NELSON—LOBB.

A quiet wedding was celebrated at noon yesterday at the George street Methodist parsonage, when Miss Mabel Alberta Lobb of Westwood, was united in marriage to Mr. Hilliard S. Nelson of Otonabee. Rev. E. A. Pearson performed the ceremony. The bride was assisted by Miss Bertha M. Lobb, and the groomsman was supported by Mr. H. A. Nelson.

HEALY—HOGAN.

A pretty wedding took place at St. Peter's Cathedral yesterday morning at eight o'clock, when Miss Mary Hogan, daughter of Mrs. Jas. Hogan, became the wife of Mr. Patrick Healy of East Ward. Rev. Father Galvin performed the ceremony. Miss Mary Hogan, cousin of the bride, was bridesmaid, and Mr. T. J. Dineen acted as best man. Mr. and Mrs. Healy, will reside in Peterborough.

FINAL DECISION TO SEND 12,500 TROOPS TO CITY OF QUEBEC

Some City Corps will go Full Strength, and Every Corps Throughout Canada will be Represented by a Unit of 43 Men and Five Officers

Ottawa, June 10—A militia general order will be issued today or tomorrow containing an outline of the proposed concentration of Canadian troops to the number of 12,500 in the city of Quebec next month, for the tercentenary celebration. The city corps of Quebec will participate in the celebration full strength. The department will select other city corps, full strength, to the total number of about 5,000, to take part therein, as well as detachments from other city corps throughout Canada. Permanent corps to the number of about 1200 will be assembled, representative of all branches of Canada's little standing army.

ALL TO BE REPRESENTED

In addition to the above there will be units from all the cavalry regiments in Quebec, and one company of five officers and 43 men from each rural infantry regiment from Nova Scotia to the Pacific coast.

PAY AND ALLOWANCES

All those taking part in the celebration will receive pay and allowances on their arrival in Quebec. The city corps to take part full strength will be chosen by the Militia Department.

The detachment to be sent from other units throughout the Dominion will be chosen by the regimental commanders.

The permanent corps will go into camp at Quebec on the 8th July. The other troops between the 20th and the 25th of that month.

In the selection of a company to represent their corps at Quebec, the regimental commanders will be free to select the best men in the whole regiment. It has been arranged that the rural corps sending a company to Quebec will also go into their annual training camps, but only at 65 per cent. of their full strength.

TO COST $100,000

It is expected that the proposed concentration of troops in Quebec will involve an outlay of about $100,000.

Newspaper Representatives were Guests at the House of Refuge

On an invitation by the members of the County Council, a party of newspaper men, accompanied by Reeve Scott of Smith, chairman of the Board of Management of the House of Refuge, and Mr. Fred Roy journed to Lakefield yesterday to look over the House of Refuge buildings and grounds.

The party left the city about 2.30 p.m., and arrived at the institution about four o'clock. Reeve Scott immediately took the scribes over the spacious building, which is divided into two sections, the male inmates occupying the north half of the building, and the women the south half.

The basement was first visited. Down there, at one end is a room with two cells both heavy bar-iron doors, which are very often used, when inmates become unruly. Next to the cell room are the big refrigerators, where the edibles are kept cool all summer. Then farther down the hall is a spacious lavatory with four long wash basins in it.

In the south end of the cellar, is the men's dining room. Here everything is perfect cleanliness, the four long tables being spread with snowy, white cloths. The large kitchen is placed next to the dining room. All the cooking is done on a large double range, which throws a great deal of heat. Next to the kitchen is the laundry, where the inmates' clothes are washed, ironed and repaired.

In the north end of the basement are the women's dining room, the ladies' room, and under the stairs leading to the first floor, there is a big steam-heated pump which draws the water into the vats at the top of the building.

On the second floor, to the south of the building there is the superintendent's private dining room. Further up the hall a chute is placed against the wall, down which the soiled linens are thrown. Then there is the men's lavatory, the men's clothes room, and next to this is one of the men's bed rooms. The room in which is placed five single cots, is large, clean and airy. Across the hall is the men's day room, where the twenty-one male inmates can smoke and chat.

Further down the hall there is the pretty private bed room of the superintendent. At the north end of the hall is the two hospital wards, one for the male inmates and another for the females. Next to this, on one side is a small medicine room, and on the other a small lavatory. Then farther down is a room in which the old men's clothing are kept. On this flat there are six bedrooms, three on each side of the building.

On the third floor on the women's side, is the bedroom. On one of the beds there was spread a pretty patch quilt of silk, made by an 84-year-old inmate, Miss Metcalfe, formerly of Keene. There were only two beds in this room. Then comes the sewing room and women's day room. Here the scribes were introduced to the twelve female inmates of the institution. One of these ladies has quite a little history with which to mark her life.

Perhaps some of the older residents of Peterborough, will remember the man named Brenton alias Fox, who was convicted and hung for the double murder of Mrs. Robert Payne and a little boy named Boudy, on a Dummer farm some 37 years ago. Well this particular inmate, Miss Eliza Ann Payne, was a baby in the cradle the day her mother was murdered.

The story runs, that on the day of the murder, Mr. Payne went away from home on business, leaving the hired man Fox, to look after the farm. About two hours after the master of the house had departed, Fox went into the house and killed Mrs. Payne and the boy Boudy, who was visiting at the home, with an axe. The murderer, however, spared the innocent six-months old baby, who was in a cradle in the room where the crime was perpetrated, and who is now alive and well, at the House of Refuge. Miss Payne stated to the reporters that her father had died some years ago.

The fourth floor of the building is as yet unfinished. From the windows on this flat, a splendid view of the surrounding country can be obtained. At the end of the floor is the big water vats, where both hard and soft water can be obtained. After the building had been fully gone over, Mr. Roy of Peterborough, took photos of the inmates in groups, and one of the two babies which are at the building. The newspaper men, Reeve Scott, Reeve Moore of Lakefield, and the superintendent and his wife were also photographed.

The building was first opened on January 2nd, 1907, and is one of the finest and best equipped buildings of its kind in Ontario, and cost nearly $19,000. The property on which the building stands, was purchased from Mr. William Preston of Lakefield.

Members of Canadian Medical Association Entertained by C.P.R. Co

(Special to The Times)

Ottawa, June 10—The members of the Canadian Medical Association and their friends to the number of about three hundred were the guests of the Canadian Pacific Railway Company this afternoon and were taken in special train to Caledonia Springs, the well known health resort near Ottawa, where they were entertained at a lunch on in the company's hotel there and shown innumerable courtesies. The medical men who were the objects of the hospitality, spoke in glowing terms of the kindness shown them and are loud in their praise of the springs as a health resort. During luncheon, Sir James Grant and Dr. F. Montizambert, president of the Medical Association, expressed appreciation of the action of the Canadian Pacific in giving the members an opportunity of visiting a place of such interest and beauty as Caledonia Springs, and bespoke the concern of the profession in its developments. The train that carried the doctors on the excursion, reached its destination at 1.30 p.m., the visitors were then escorted to the hotel recently erected by the company, and were shown many of the features of interest in the immense area that is the rarest of beauty spots.

The hotel, a building of palatial dimensions and great external beauty was the object of deep admiration, with its outlook over a region of varied scenery, its surroundings of sweeping lawn, tennis court, croquet grounds, spacious verandahs, magnificently furnished reception room, dining hall, and its general completeness of appointments, is an ideal place of summer residence at the disposal of guests. Every convenience has been installed. The hotel accommodates 200 persons, it is set in the heart of a park of general dells and sloping mounds of grass and level fields, scenery that is restful in its effect upon the mind.

Closely adjacent to the hotel are the famous Caledonian sulphur springs, and the visitor who summers there may without the slightest difficulty obtain a most healthy beverage of the medicinal value of the water with its saline sulphurous qualities. The highest opinion is expressed. The bathing, are of inestimable importance, the water is healthful, and everything from its use has been devised. The visitors showed the deepest interest in the baths, and the spring water, and numerous expressions of confidence in their value were heard. The luncheon constituted a most delightful affair. No pains had been spared by the company to meet every wish of their guests. The menu would have done credit to most elaborate antique feast and all details were attended to as only the Canadian Pacific can arrange.

In replying to the thanks of the Medical Association for the kindness shown them, Mr. Langrans, assistant manager of the hotel department, welcomed the doctors to the springs, and mentioned the work of developments that is proceeding to make it a perfect resort.

A most interesting feature of the afternoon's outing was a visit to the bottling works where Magi Caledonia water is prepared for distribution. Many comments were made by the doctors on the work the company is doing to make Caledonia Springs a most desirable health resort. In connection with the hotel a farm of 200 acres is cultivated. The excursion returned to Ottawa at six p.m., and the members of the Medical Association how to the courtesy and unbounded kindness of the Canadian Pacific Company.

Regatta May be Held on Little Lake

In all probability a regatta will be held at Little Lake this summer. There are a large number of canoeists and motor boat enthusiasts in Peterborough, and there is nothing to prevent the holding of a successful regatta.

A Send off for Fred Simpson

There was wild doings at Hiawatha last night, when that pretty little Indian settlement turned out in full force to give their brother redskin, Fred Simpson, a royal send off, before he leaves for England on Friday from Montreal.

$90 Needed

At midnight those in charge of the Fred Simpson subscription list for $250, to help defray training expenses while he is in the old land, reported that $160 had been received.

Handed in Their Resignation

Mr. H. C. Wright of the Y.M.C.A., handed in his resignation as secretary of the association to the Board of Directors at their meeting on Monday night, said resignation to take effect on August 10th next. Mr. Wright who came here last November, from Baltimore, Maryland, as successor to Mr. J. H. Williamson, will be greatly missed by his many Peterborough friends. Mr. Wright will enter McMaster University in the fall, where he will take a special course.

Mr. Archie Frowde, physical directors of the "Y" also handed in his resignation at the same time. Mr. Frowde has accepted a better position elsewhere.

Canadian Pacific Railway Company

As intimated in President's circular to the Shareholders dated January 14, 1908, an interest payment of 1 1-4 per cent., or 75 cents per share, will be paid on October 1, 1908, on the first three instalments (sixty dollars) per share, on the shares of the above new issue represented by the certificates of subscription, to holders of record at 3 o'clock p. m. on June 19, 1908, who have paid these instalments on or before their respective due dates, and it is hereby notified that this interest payment will be mailed from New York to the registered address of holders on September 30, 1908.

W. R. Baker, Secretary.

Montreal, 29th May, 1908.

Sports

FOOTBALL.

The Quakers defeated Norwood at the Driving Park last night by two goals to nil, in a game for possession of the Stratton trophy.

BASEBALL.

The Petes ended their tour yesterday by defeating Wellington by a score of 9—4. Murphy was on the slab for Peterborough.

ROWING.

A rowing club may be organized in Peterborough.

ADVERTISE IN THE TIMES.

Outlook Bright for a Splendid Yield in the West--Year of Economy Needed as well as Good Crops

Toronto, June 10.—The Bank of Commerce crop reports from the West for the last week of May indicate that the grain is in many places three weeks ahead, and there is every indication of bumper crops. In Saskatchewan there has been scarcely enough rain in places, and there are points in Alberta which have had almost too much. On the whole, however, the outlook is exceptionally hopeful.

"Yes, there is every reason to expect a good crop," said President Byron E. Walker, when asked his estimate of the situation. "There is nothing," he added, "which we need more. I have said often, and I repeat, that what Canada needs is a good crop and a year of economy. That would bring us back to the normal."

"Then the crop alone would not be sufficient?"

PEOPLE MUST ECONOMIZE.

"It would not," said Mr. Walker, "and perhaps it is because we have not been badly enough punished that we do not fully realize that. The West may think that the depression was caused by a bad crop. As a matter of fact the bad crop was only an incident. The depression would have come without it. In the States they had good crops, got more for their cereals, and their cotton, than before, but they had worse trouble financially than Canada had.

"The real cause of depression was the tendency and the practice of people in living ahead of themselves. If there is a splendid crop and Canada everywhere, but will be a week or ten days later than usual in Southern Ontario and in British Columbia.

Raspberries also wintered well, with the exception of some old patches which suffered from the drought of last summer, and in a few instances where canes were broken by snowfall. Otherwise berries of all kinds look well.

The indications are that raspberries will overlap strawberries in the market, as the former are earlier relatively than the latter.

TOMATOES.

Tomatoe plants for the most part have been set from the hotbeds and cold frames. The warm weather and frequent showers have made ideal conditions for planting.

The acreage for Prince Edward county and Essex is reported to be larger than usual.

The following are the districts referred to;

No. 1—Counties north of Lake Erie.,

No. 2—Counties on Lake Huron and inland to York County.

No. 3—Lake Ontario counties north to Sharbot Lake and Georgian Bay.

they will start cutting the same wide swath of over-expenditure. Then there will be the inevitable trouble following. The country needs a year of economy."

MUNICIPAL ECONOMY, TOO.

"The natural result of a good crop will be that money will be easier. Municipalities will find themselves able to sell their bonds. Some of them, perhaps, will take advantage of this to plunge into improvements on the old large scale. This will not be justified, for the country needs caution as well as crops."

The bank's crop reports for the last week in May are briefly summarized as follows;

MANITOBA.

Winnipeg—Reports on crop conditions continue to be satisfactory, except that some parts of Saskatchewan are in need of a little more rain. All are agreed, however, that the crop has had an excellent early start and that, up to date, conditions could scarcely be more satisfactory.

Portage la Prairie—Crop prospects could not possibly be brighter. Wheat and oats are well advanced. Farmers expect to finish the sowing of barley about the 10th instant.

Brandon—Crops in many parts of this district are reported progressing favorably. Wheat is up from six to nine inches, oats just rising above the ground. The conditions thus far resemble those of the spring of 1905, but are said to be better, owing to the succession of May rains this year.

Neepawa—Crops in splendid condition.

Rossmar—Crop conditions are good. Sufficient rain has fallen to give the growing grain a good start and the present condition of the crop is about three weeks ahead of last year.

Elgin—Should conditions throughout the season be favorable, a splendid crop is assured.

Gilbert Plains—What crop promises well and is now four to six inches above ground on the average; eight to ten inches in places. Farmers who are not able to get as much wheat planted as they desired, more spring plowing than usual having to be done. Consequently the crops of oats and barley will be large.

Swan River—Wheat is all up and looking well. Oats are all in, and all barley except on low, wet land. The present conditions and prospects of the crop are excellent.

Treherne—Wheat is from five to six inches in height. Farmers say prospects were never better.

Grandview—Wheat is looking well, but there is still a good deal of barley and oats to be sown.

Elkhorn—Crops growing nicely.

Dauphin—Crops looking well and farmers seeding oats and barley.

Nakomis—No rain recently, with the result that crops have not grown much during the past week.

SASKATCHEWAN

Langham—Local showers have refreshed the plants, which as yet are not suffering. Prospects very encouraging.

O.H.P. Belmont, One of the Idle Rich, Died Yesterday

New York, June 10.—O. H. P. Belmont died at his home at Hempstead, Long Island, this morning.

Mr. Belmont had been seriously ill only about a week. He has not been in the best of health for some time but his condition was not such as to cause any alarm until appendicitis developed a week ago last Monday.

Mr. Belmont had not been actively engaged in business for some years, having retired quite a while ago from the banking house of August Belmont and Company. Mr. Belmont was in his 50th year at the time of his death. He had always been very popular among a wide circle of friends and held a prominent position in club and social life here and in London and Paris. Mr. Belmont was a Democrat and served one term in Congress.

Mr. Belmont was regarded as one of the idle rich. He dressed in a rather striking fashion. In spite of the fact that he emphasized his homeliness. He affected extreme types of silk hat and huge standing collars of two generations past and in summer appeared on the top of a coach in white flannels or something else more or less unexpected.

Mrs. Belmont was the wife of W. K. Vanderbilt, and the mother of Consuelo, who married the Duke of Marlborough. She separated from her husband after the circulation of a good deal of scandal and some time afterward they were divorced on her application. She occupies her time with fashionable entertainments and dressing, and her ambition is to be seen in the very latest creation of the dress or hat makers.

Mr. Belmont's first marriage was with Miss Sarah Swan Whitney, now Mrs. George Rives. His only child, Mrs. William Burden, died several months ago.

Mrs. Belmont and her two sons, W. K. Vanderbilt, jr., and Harold Vanderbilt, were constantly at Mr. Belmont's side from the moment his illness took a critical turn. Mrs. Belmont's daughter, Consuelo, the Duchess of Marlborough, was kept constantly advised of Mr. Belmont's condition.

The Knock-out Blow.

The blow which knocked out Corbett was a revelation to the prize fighters. From the earliest days of the ring the knock-out blow was aimed for the jaw, the temple or the jugular vein. Stomach punches were thrown in to worry and weary the fighter, but if a scientific man had told one of the old fighters that the most vulnerable spot was the region of the stomach, he'd have laughed at him for an ignoramus. Dr. Pierce is bringing home to the public a parallel fact; that the stomach is the most vulnerable organ out of the prize ring as well as in it. We protect our hearts, throats, feet and lungs, but the stomach we are utterly indifferent to, until disease finds the solar plexus and knocks us out. Make your stomach sound and strong by the use of Doctor Pierce's Golden Medical Discovery, and you protect yourself in your most vulnerable spot. "Golden Medical Discovery" cures "weak stomach," indigestion, or dyspepsia, torpid liver, bad, thin and impure blood and other diseases of the organs of digestion and nutrition.

The "Golden Medical Discovery" has a specific curative effect upon all mucous surfaces and hence cures catarrh, no matter where located or what stage it may have reached. In Nasal Catarrh it is well to cleanse the passages with Dr. Sage's Catarrh Remedy fluid while using the "Discovery" as a constitutional remedy. Why the "Golden Medical Discovery" cures catarrhal diseases, as of the stomach, bowels, bladder and other pelvic organs will be plain to you if you will read a booklet of extracts from the writings of eminent medical authorities, endorsing its ingredients and explaining their curative properties. It is mailed free on request. Address Dr. R. V. Pierce, Buffalo, N. Y. This booklet gives all the ingredients entering into Dr. Pierce's medicines from which it will be seen that they contain not a drop of alcohol, pure, triple-refined glycerine being used instead.

Dr. Pierce's great thousand-page illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 21 one-cent stamps, or cloth-bound for 50 stamps. Address Dr. Pierce as above.

Excelling Extreme Uneasiness

London June 8.—King Edward's domination in the realm of foreign affairs is exciting extreme uneasiness among the British Liberals, who note that inevitably his efforts tend to isolate Germany.

The Liberals favor ententes or understandings with every power, but not at the risk of creating a situation in which the fierce German-hating sentiment nourished by the tories may easily provoke a war in Europe. At first everyone believed the king sought only universal peace, but now he is suspected with being infected with the prevalent jingo disease—apprehensive of a German invasion, which seems to inspire his whole internal policy.

The comments of both the English and French jingoes on the meaning of the French president's visit have intensified the concern in liberal quarters and aroused decided resentment against the king for employing phrases which seem to convey the impression there is a possibility that the Anglo-French entente may develop into an alliance.

GRAPES FROM AUSTRALIA.

By the Royal Mail Steam Packet Company's new steamer Asturias, on her first voyage from Australia, there was an experimental shipment of West Australian grapes. These were immediately sold by Messrs. Keeling and Hunt, and realised excellent prices. It is understood that the successful importation is of great interest to the other Australian colonies and to the Cape of Good Hope.

BURNING ITCHING ECZEMA CAUSED MANY SLEEPLESS NIGHTS.

Miss Mabel Knapp, of 247 Wolfe Street., Peterboro', Ont., says: "Eight months ago small white blotches and pimples broke out on my hands. To keep from rubbing and scratching was impossible as the itching was intense. This caused the pimples to break forming matttered sores between my fingers and spreading to the joints of my fingers. My hands were actually in a raw state. I suffered cruelly lying awake night after night with the burning, itching sen[illegible] For months I could not bear my hands in water and did very very little work about the house. Various remedies were tried, still the disease was not checked and I was now almost discouraged when a statement in the newspaper made by some person who had been cured of a similar disease by using Zam-Buk caught my attention. I obtained a box of Zam-Buk and began using it. Each application brought great relief. It checked almost instantly the burning and itching and soothed the parts, and soon banished all inflammation and swelling and in about three weeks from commencing with Zam-Buk, I was cured of this dread disease."

HEALING, SOOTHING AND ANTISEPTIC

Zam-Buk cures cuts, burns, scalds, ulcers, ringworm, itch, barber's rash, pimples and eruptions, blood poison, bad leg, nail sharm, abrasions, abscesses and all skin diseases. As an embrocation it is good for rheumatism, sciatica and all nerve pains when well rubbed in. Of all stores and druggists, 50 cents box or from Zam-Buk Co., Toronto, postpaid for price.

FREE! Send to the Zam-Buk Co., Toronto for a free sample. Cut out this coupon and mail with 1c. stamp for postage, &c.

Zam-Buk THE GREAT SKIN CURE

Blood-Cleansing Recommended in the Spring Time

In This Way The System is Strengthened and Better Health Assured.

From the earliest time it has been universally acknowledged that the transitory period between winter and spring is the seed time of disease.

Consequently it is necessary for us all to take suitable medicine.

A delay gives the germs and weakness a better chance to take hold.

Don't wait, think of our small resisting powers, and begin building up today. For weakness, overwork and debility the doctors prescribe Ferrozone, let it help you now.

Vitality and power are instilled into the blood; this means new strength for all weak organs.

The fire of youth will dance in your veins, and new found energy will increase your desire to work.

Ferrozone supplies the nourishing and tissue-building material your system lacks. Isn't this "a reason why?"

From Combermere, Ont., Mrs. Ino Oram writes as follows: "For a number of years I was sickly in the spring-time. I felt tired, nervous and had headaches. My blood was weak and damp days brought on rheumatism. My nervous system was unstrung and I felt utterly worn out. Ferrozone revived me in a short time. In two days my appetite increased, and I could feel a building-up process going on. This great tonic made a new person of me and I don't think a more strengthening medicine for the spring can be found."

Wouldn't it be just fine for you to get back your old-time spirits and vigor? Easily done with "Ferrozone"; commence to-day. Sold by all dealers, 50c. per box or six boxes for $2.50.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

PETERBOROUGH, JUNE 9TH 1908

The King's Visit to the Czar

Reval, June 8.—The Russian Imperial yachts, Polar Star, Standard, and Tsarevna, escorted by a fleet of torpedo boat destroyers, under command of Rear Admiral Von Essen arrived in the roadstead here early this morning. The Standard during the day will move alongside the pier from which Emperor Nicholas and other members of the Imperial family, accompanied by a numerous suite, will embark from the Imperial train, which is to arrive from St. Petersburg at 7 o'clock on the morning of June 9. The Imperial train will run directly on to the pier, the approaches to which will be closed by troops.

As soon as the Imperial party has embarked the yachts will proceed to sea to meet the British royal yacht Victoria and Alberta, which has King Edward, Queen Alexandra, Princess Victoria, and a large suite on board. The change in the plans of the Emperor's party in giving up the trip by sea to this port and coming by rail instead was executed so quietly that the local populations are in complete ignorance of the Emperor's movements.

The mayor of Reval and the marshals of nobility will tog their tender greetings to their majesties tomorrow.

The effects of the storm which had been prevailing in the Gulf of Finland for several days was not felt here and the meeting of the two monarchs will not be attended by the discomfort of a rough sea.

If one feels dull and spiritless in the spring or early summer, they call it "Spring Fever." But there's no fever—usually. It is the after effect of our winter habits. The nerves are mostly at fault. Tired worn-out nerves, leaves us languid, jeeless, and without spirit or ambition. A few doses of Dr. Shoop's Restorative will absolutely and quickly change all of these depressing symptoms. The Restorative of course won't bring you back to full health in a day or two, but it will do enough in 48 hours to satisfy you that the remedy is reaching that "tired spot." Druggists everywhere are advising its use as a splendid and prompt general tonic. It gives more vim and more spirit to the spoonful than any other known nerve or constitutional tonic. It absorbs a failing appetite, aids digestion, frees sluggish livers and kidneys, and brings new life, strength and ambition. Test it a few days and be convinced. Sold by all dealers.

To Found a a Godless Church

Great Bend, Kan., June 6.—To spread the glad things of atheism throughout the civilized world is the object of the founders of the Church of Humanity, who will begin their first general assembly here on Sunday, June 7. Delegates from various parts of the country arrived to-day, and while the convention will be small in numbers, every part of the United States, from New York to California, will have representation. A permanent organization will be effected, and plans made for propaganda which is expected eventually to extend throughout the world.

That all deities and devils, Christian and pagan, are myths, immortality a fable and death the end of conscious life is the basic creed of the new church. Neither do the founders present these statements as theories but declare that they are proven facts, capable of scientific demonstration. While there have been national organizations of freethinkers in this country this is the first attempt to found a national society along purely atheistic lines, as all previous organizations have been composed largely of agnostics, deists, pantheists and spiritualists. Voltaire, Paine and Ingersoll, the patron saints of all former freethinking societies, have been discarded as false leaders and hopelessly behind the times through their lack of the knowledge now revealed that "God is a myth like Santa Claus."

W. H. Kerr, a wealthy retired farmer of this city, is the principal spirit.

DRUMMERS MEET.

Calgary, Alta., June 9.—A hearty welcome to Alberta's capital was extended yesterday to the hosts of "drummers" arrayed under banner of the United Commercial Travelers of America, who are here for the fifteenth annual session of the organization. Many large delegations are here from cities of the United States, and the various councils throughout the two countries are well represented. Minneapolis has the strongest council in the United States and as sent a large representation of its trade drummers.

A very extensive program has been arranged for the convention, and the demands of sociability and amusement as well as the business side of the question will be abundantly catered to. A polo game, parade to Mewata park and an opportunity to witness the championship lacrosse match between Calgary and Lethbridge, will be some of the features of the session, and an excursion to Banff in the Rocky Mountains has been arranged for Wednesday.

Six are dead and many more are ill

Silverton, Colo., June 8.—Six men are dead, eight others in a critical condition from breathing foul air, and thirty more are temporarily confined to their homes by gas poisoning suffered in the Gold King Mine at Gladstone.

Thursday night fire destroyed the engine house of the mine, and also the shaft house. Two buildings were near the doors of the main shaft, and to prevent the spread of the flames and smoke to the working of the mine, these doors were closed temporarily. The men working the night shift in the mine were informed of the conditions on the surface and instructed to withdraw.

When the flames had been extinguished three men failed to come out of the mine. Efforts to rescue them were made. The first men to enter the mine returned in haste and informed those in waiting that the mine was filled with foul air. Two rescue parties were formed and the men started into the mine in groups of five by means of the electric elevator which was still working. The air generated by the movement of the elevator had cleared the atmosphere in the elevator shaft so that but little discomfort was experienced.

Soon after a score or more of the rescuers had entered the mine some of those last in appeared at the foot of the elevator shaft carrying the unconscious forms of miners who had succumbed to the noxious air. Later a party reached the surface, bringing the dead bodies of Victor Erickson, and the almost lifeless bodies of John Sumston and Otto Johnson, the three men whose absence caused the necessity for rescue work. The others who perished or were injured were of rescuing parties.

Young and Handsome Women Performers

Wherever the Cole Brothers' Shows have exhibited press and public have been unanimous in praising the work of the exceedingly large number of young and handsome women performers. Every one of the fair sex are represented among the riders, acrobats, contortionists, jugglers, high-wire artists, gymnasts, bicyclists, clowns, animal trainers, chariot drivers and in fact even among the ring masters. As may naturally be expected keen rivalry exists between the lady and gentlemen artists, a fact which greatly enhances their performances. The lengthy imperial program, presented this year by these shows contains only the best and most modern features that money and labor can procure and in such quantity and variety as to satiate every aristic taste and fancy. Lack of space prevents an enumeration of all the different acts, many of which must be seen to be appreciated. There is an extended list, the best of which does not by any means end the pleasures which the Cole Brothers' shows will provide patrons on Thursday, 17th instant, afternoon and evening in this city.

There are the sports of ancient Rome and modern fete day races and contests. Then the big triple menagerie form a zoological display without a peer in all the world. Next a Cole Brothers' marvelous museum in which are exhibited a myriad of human and animal freaks and other attractions. Thus it will be seen that there is a royal holiday feast in store for all who attend this mighty amusement exposition.

ADVERTISE IN THE TIMES

BANKS

ROYAL BANK OF CANADA

PETERBOROUGH BRANCH

DEPOSITS RECEIVED

Interest paid quarterly on Savings Bank Accounts.

Drafts Bought and Sold.

V. EASTWOOD, Manager

1854 THE 1854

HOME BANK OF CANADA

Head Office, TORONTO — Three Branches

Alliston, Lawrence, Parkdale, B. C. — Bells River, St. Thomas, Port — Cannington, Orangeville, Wiarton.

To Canadian Investors

The undersigned has received an allotment of unsold portion of $100,000 of

7 PER CENT FIRST MORTGAGE FIVE-YEAR GOLD BONDS

dated January 11, 1908, and maturing January 11, 1913. These Bonds are offered at par and accrued interest by Metropolitan Trust & Savings Bank, Chicago, trustees.

SECURITY—The Entire Property and Improvements Owned THE URES CONSOLIDATED MINING COMPANY in the District of Ures, State of Sonora Mexico, Free from Mortgage or Bonded Indebtedness, except this present Bond issue.

An Unusual Opportunity for Investment in Sound Security

The Ures Consolidated Mining Company offers $100,000.00 of First Mortgage Gold Bonds. This issue of bonds is the only mortgage or bonded indebtedness ever placed on the company's properties.

These bonds are in the denomination of $100.00, and bear interest at the rate of 7 per cent. per annum, payable semi-annually, July and January, and are redeemable on or before five years from date at the company's option at $110.00 and accrued interest.

$100.00 Stock Bonus Given with Every $100.00 Bond

With each bond issued there will be given $100.00 par value of the capital stock of the company as a bonus, and in addition thereto there will be placed in escrow with the Trustee additional stock which will be available to the bondholders at their option any time within a period of three years, the bondholder being entitled to surrender his bond any time within said period and receive in lieu thereof stock for every dollar of indebtedness to him on account of said bonds.

The Security Back of these Bonds

The company owns twelve claims situated in the district of Ures, State of Sonora, Mexico, free from mortgage or bonded indebtedness, except this present bond issue.

On one of these properties (The Ramona Mine) 5,400 feet of underground development work has been done, consisting of an inclined shaft to the depth of 400 feet with drifts in three levels to the North and South of the shaft.

An average value of ore worth $11.47 per ton is exposed throughout the mine, from the collar of the shaft to the extreme parts in the drifts, all of which is above water level.

The company has made surface improvements and mine improvements to the extent of $60,000.00 in the way of machinery, skids, trams, steam hoists, mill and nearly everything necessary to make the mining camp complete.

In addition to the absolute ownership of these twelve valuable claims, the company has a lease on the San Jose Mine, adjoining its property, in which the company has been operating in high grade ore.

During the past sixty days the company has extracted and delivered to ore buyers and the bank at Hermosillo, $8,000.00 worth of ore and bullion, the ore having been reduced to bullion through the company's mill, with the exception of 1,456 pounds, which was sold to an ore buyer for $662.50.

The Money Derived from the Sale of these Bonds

This issue of bonds is made for the purpose of securing money at once in order to extend the development work more quickly than the company's present means will permit.

With the high grade ore in sight to the distance of 80 feet to the South of the shaft, the management is assured that within six months from date of making the improvements now necessary the company's properties will be on a self-sustaining and dividend-paying basis.

The Stock which is Given with these bonds will be as valuable as the bonds when the Company has the ready capital to push operations

Men who invest in these bonds will have no cause or reason to regret their actions for the bonds afford an investment in a security which is absolutely safe—much better than ordinary city or country real estate, which is considered perfectly safe if the property put up to secure a mortgage is double the face of the loan. The security given on these bonds is better than 7 to 1, for the Ures Consolidated Mining Company has refused an offer of $750,000.00 for the property upon which this $100,000.00 worth of bonds is issued.

These bonds are an investment with all speculative risk eliminated—an investment with absolute security.

Make your reservation at once. This is small and promises to be quickly sold.

For complete information, detailed description of the property, records of title, etc., address

CAPITAL $1,500,000 RESERVE $950,000

Banco de Sonora,
Hermosillo, Mex.,
Feb. 11th, 1908.

To whom it may concern:—

We hereby beg to state that The Ures Consolidated Mining Company has during the past five years made several deliveries of bullion to this bank, and it is the opinion of mining men here that they have the making of a fair mine, and further, that the properties owned and controlled by them bid promise of becoming paying properties.

From our knowledge of the men connected, we believe they are doing all in their power to bring about the results above mentioned.

Respectfully,
BANCO DE SONORA,
Max Muller, Gerente.

PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablet—causes blood pressure away from pain centers. Its effect is charming, pleasingly delightful. Gently, though safely, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure.

If it's painful periods with women, same cause.

If you are sleepless, restless, nervous, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop it in 20 minutes, and the tablets simply distribute the unnatural blood pressure.

Bruise your finger, and doesn't it get red and swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain is—always. It's simply Common Sense.

We sell at 25 cents, and cheerfully recommend

Dr. Shoop's Headache Tablets

"ALL DEALERS"

FOUND THE FRASER RIVER.

Abandoned at First and Believed to Be Non-Existent.

Judge Howay recently delivered an interesting lecture in Vancouver on "The Attempt to Find the Fraser River by Land and Water." Judge Howay, as reported in The News-Advertiser, of Vancouver, said that the real discoverer of British Columbia was Captain James Cook, who on his third voyage landed at Nootka on March 29, 1778. Captain Cook discovered and named Cape Flattery by reason of its appearance having flattered him with the hopes of finding a harbor.

One of the best-known of all the traders and discoverers on the coast during the latter part of the eighteenth century was John Meares. His vessel, the Felice, entered the Strait of Juan de Fuca in June, 1788, and sailing southward he was on July 6, 1788, in the latitude of the Columbia river, which at that time was known as Martin d'Aguilar's river or the River San Roc. He did not discover the river, however, and came to the decision that "no such river as that of San Roc exists as laid down in the Spanish charts."

On May 11, 1792, Captain Gray sailed up this non-existent river in the American ship Columbia, and Meares claims for Gray the honor of being the first person to circumnavigate Vancouver Island, but the modest captain disclaims the honor by stating that he did not sail round the island.

A trouble which had arisen between England and Spain owing to the seizure of Lieutenant Meares' vessels and trading post by the latter, was settled in 1790 by the Treaty of the Escurial, and the terms stipulated that an officer should be sent to Nootka to receive from Spain, in solemn form, restitution of the territory. Captain George Vancouver was selected for this duty, and was given command of two vessels.

Reaching these territories, he immediately compared notes and discussed the geography of the regions already known with the Spanish commander.

Many weary months of toil and research followed in the hunt for the Fraser river, and although surrounded by evidences of its existence, and while lying in its very waters, Vancouver and the Spanish commanders solemnly agreed that the River of Florida Blanca did not exist, and unceremoniously rubbed it off the chart. The hour of exploration had not come, nor the man.

It was reserved for one of the hardy bourgeois of the Northwest Co. sixteen years later almost to a day, after many trials and much hardship, to seek out and trace the course of the river, from its source in the Shining Mountains to the mouth behind those giant sand-bars and to give his own name—Fraser—to that river."

Oldest Goose in Canada.

Unruffled by the smallpox scare in the village, the Weston goose serenely pursues her peaceful way, oblivious to all disturbances. Born in 1886, this goose claims to be the oldest in Canada. Since she first swam in the Humber a lot of water has gone under the bridge. Deadlock is no more, and in its stead "our fair Dominion now extends from Cape Race to Nootka Sound," the Liberal party is protectionist, and some of its Senators are as capable members of the Upper House as our veteran biped would be.

During the Fenian troubles of 1866, the late William Chew purchased from Thomas Quinn a young bird, hatched the year before. Born in civil war times, and contemporary with every campaign down to the last and bloodiest of them all, when men were slaughtered in tens of thousands in Manchuria, no doubt the Weston goose can testify that war is all William Tecumseh Sherman said it was.

Her performance of the matron-like duty of laying eggs and hatching them was steadfast till ten years ago. Since her thirty-third year her interest in the feathered household has been expressed in the grandmotherly attention which she pays to the welfare of all the flocks, regardless of whether they are geese, ducks or chickens.

Till sixteen years ago she had a mate. But one day when they were flying their roost from the high bank to the river below, he paid so little attention to his own flight that his collision with the limb of a tree had fatal results.

Since her gander's death, those who know her claim that she has withdrawn herself to a marked degree. It is only to one member of the family that she will respond. But her stately strut still proclaims her the dowager-duchess in her little court, and the weight of her forty-three years does not prevent her from enjoying her dignity as the oldest inhabitant. In the pasture with her on the farm of the Misses Chew roams "Trottie," a shaggy-maned little horse, who is now 37 years old. Two other equine friends on the farm are 30 and 28 years old respectively.

Sixty Years in Ice.

A despatch from Dawson says that Aubrey Forrest, who recently arrived there from Fort McPherson on snowshoes, reports that Capt. Jarvis of the Royal Northwest Mounted Police, has brought advices there from Herschel Island that Explorer McClure's famous ship Investigator, once a British man-of-war, which was caught in the ice sixty years ago and had been fast there ever since, last summer was so free that vessels could approach close to the ship.

The mildest winter ever known for that part of the Arctic may mean that the ice on the Arctic coast will not be so heavy this season, but that steam whalers may hope to be able to reach the Investigator this summer.

McClure had to abandon the ship because the men became afflicted with scurvy. They left their supplies on board. No one has visited the ship since. This may be the vessel that natives sighted on the Arctic coast a few years ago.

Visitor (rushing back)—I left my stick.

Little Girl—It's gone. I heard sister say, "Thank heaven that stick's gone."

TOBACCO POISON.

If You Must Smoke, Puff Your Cigar or Pipe Leisurely.

That it is much more injurious to smoke quickly than slowly is the conclusion arrived at by two Austrian scientists after careful study and experiment.

The two professors—Dr. Liebermann and Dr. Davidovics—tested pieces of cotton which had been placed in the mouthpieces of pipes and cigar holders and found them covered with yellowish brown flecks. These were found to be of a tarry nature, produced during the process of combustion, and highly poisonous.

It was found also that two cigars of the same brand and strength often produced differing degrees of discoloration of the cotton. Further investigation showed that these differences were due to the length of time occupied in smoking. The same weight of tobacco smoked in five minutes produced nearly three times as many yellowish brown spots as if it were smoked in fifteen minutes. The professors therefore concluded that a rapid smoker inhales a much larger quantity of poisonous substance, to the consequent injury of his health, than does his more phlegmatic colleague.—Pall Mall Gazette.

Her Purse and His Handkerchief.

"The thoughts of youth are long, long thoughts." The other day a young woman who had dropped her purse, full of pay money for the corps of girls under her charge, considered the thoughts of youth to be rather too "long."

She was in one of the large department stores, and as her hands were occupied she let her purse lie for a few moments where it had fallen. But her eye was on it. In the meantime a bright little fellow not more than nine or ten years old left his parents near by and deftly covered the purse with a handkerchief.

The woman, who is a perfectly self possessed young person, could hardly believe her eyes, but she waited to see what the boy would do. Just as he was stooping to his prize she placed her foot quietly upon it. The youngster slipped back without a word to the well dressed "respectable" people with whom he was.

Then the woman picked up her purse and, taking the handkerchief over to the lad, handed it to him, saying, "There is no reason why you should lose your handkerchief just because you didn't get my purse!"

Too Good to Miss.

"Theater audiences have improved in recent years," said a manager. "Why, with provincial touring companies in the past maltreatment was regularly expected. In fact, the companies profited by it in more ways than one.

"I knew of a company that was playing 'The Broken Vow' in Paint Rock, a one night stand. The audience didn't like 'The Broken Vow,' and eggs, cabbages and potatoes rained upon the stage.

"Still the play went on. The hero raved through his endless speeches, dodging an onion or a baseball every other minute and pretty sore from those missiles that he hadn't been able to dodge.

"But finally a gallery auditor in a paroxysm of rage and scorn hurled a heavy boot, and the actor, thoroughly alarmed, started to retreat.

"'Keep on playing, you fool,' hissed the manager from the wings as he hooked in the boot with an umbrella. 'Keep on till we get the other one.'"

Piles are easily and quickly checked with Dr. Shoop's Magic Ointment. To prove it I will mail a small trial box as a convincing test. Simply address Dr. Shoop, Racine, Wis. I surely would not send it free unless I was certain that Dr. Shoop's Magic Ointment would stand the test. Remember it is made expressly and alone for swollen, painful, bleeding or itching piles, either external or internal. Large jar 50c. Sold by all dealers.

The Great Northern Larder Lake Mining Company Ltd.

A RAISE IN MINING STOCK

ALLOTMENT SUBSCRIBED.

The requisite amount of stock has been subscribed and paid in full to enable the Company to proceed to allotment and commence business.

RAISE OF MINING STOCK.

THE GREAT NORTHERN LARDER LAKE MINING CO., Limited, proposes to advance price of their treasury stock to Twenty-five (25c) cents on June 22nd. Last chance to buy at ten cents a share, par value One Dollar, fully paid up and non-assessable.

The foreman, Mr. David Foster, of Cobalt, has started to work on the Company's property with a gang of men to develop veins already discovered, also to continue striping in search of new gold veins.

We are erecting boarding houses and dining-rooms for our men.

READ COPY OF CERTIFICATE AND STATUTORY DECLARATION CONFIRMING SAME.

Toronto, March 20th, 1908.

To the Great Northern Larder Lake Mining Company, Limited:—

Gentlemen,—

I beg to confirm my previous report to you that in my judgment the surface showings on the 14 mining claims which the Company has acquired, being Nos. H.R. 221 to H. R. 234, both inclusive indicate the probability of the existence of large bodies of both high grade and low grade free-milling ore, sufficient to pay dividends for an indefinite period.

I have personally examined a number of veins and reefs on said property (consisting of about 640 acres) and had some assays made and from such examinations and assays I make this report.

The statement on pages nine and ten of the Prospectus giving the short history of the Company are correct. I insisted on retaining a large interest in the Company rather than sell for any price that seemed reasonable to the purchasers.

DAVID A. FOSTER,
Haileybury.

IN THE MATTER OF THE GREAT NORTHERN LARDER LAKE MINING CO., LTD.

Statutory Declaration.

DOMINION OF CANADA
County of York

TO WIT:

I, David Foster, of the town of Haileybury, in the district of Nipissing, miner, do solemnly declare that the statements in the annexed certificate are true. I have personally inspected all of the fourteen claims now transferred to the Great Northern Larder Lake Mining Company, Limited. I have taken samples containing gold values from said property, and from my personal examination, and from assays made, I believe the Company's property when developed, will prove very valuable. I have full confidence in the success of the said Company, and on this account, with the exception of $500 already received, I have agreed to accept stock in said Company, and a note which I believe will not be of much value should the actual development work not prove the said claims to contain gold in paying quantities as it is not payable for one year from this date or until after the Company shall have done the necessary development work on said claims. And I make this solemn declaration conscientiously believing it to be true and knowing that it is of the same force and effect as if made under oath, and by virtue of "The Canada Evidence Act."

DAVID A. FOSTER.

Declared before me at Toronto, in the County of York, this 31st day of March, 1908. J. T. LOFTUS, A. Commissioner in H. C. J.

PROPERTIES TRANSFERRED.

Since the prospectus was printed, the sale of the 14 mining claims to the Company has been completed and the transfers to the Company are registered in the Recorder's Office at Larder City. There is no mortgage or other encumbrance against said claims.

10c. PER SHARE.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

Any reserve may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at an Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead duties under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3) If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of a homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father or mother.

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line exclusive of the width of road allowances crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the agent for the district of such intention.

Six months' notice in writing must be given to the Commissioner of Dominion Lands at Ottawa, of intention to apply for patent.

W. W. CORY,
Deputy of the Minister of the Interior.

ADVERTISE IN THE TIMES.

RAWHIDE-DULZURA

1 CENT A 2 SHARE

Send us your name as a member in this new company, with your remittance for as many thousand shares as you can take at $5 per thousand.

This is a short-time offer on a hurry-up proposition. Our vice president is up at Rawhide now putting the miners at work. We want to raise the necessary funds for development as quickly as possible. Therefore, we offer the first block of stock at $5 a thousand shares. This subscription must be all cash. We want the money in hand. We mean to work without let-up, and we have made it an ironclad rule not to run in debt. Cash counts now.

Our prospectuses are out. Send for one.

Make reservation of stock, if you do no more. But, remember, this present offer of stock at Half a Cent a Share is now open, and will be closed as soon as enough cash subscriptions are in hand. Don't wait, or you will get left.

The gold mining property owned outright by the company consists of 7 claims, 3 in the Rawhide district of Nevada, and 4 in the Dulzura district of Southern California.

The Rawhide district to-day is more famous than Goldfield, Tonapah, Bullfrog, or Searchlight were at the same stage of exploration and development. The Dulzura discovery is one of the most sensational in the history of California.

Ten samples of ore which were among the first assayed, run as high as $7,461.87 to the ton, and all ten averaged over $1,600 a ton.

In both camps we located early, and our locations are choice. Our own officers will superintend the mining.

[illegible] St. 383 Hunter Street.

Try Again for Health

The Dangerous Weakness That Follows Should be Cured Now

One of the oldest physicians, after closely studying spring tiredness says it seems to seek out the same victims year after year, and if the disorder is once contracted, one is very prone to contract it again.

The symptoms are common — no appetite — turn against your food, ache in back and limbs, nervous, and often melancholy, dyspeptic and languid.

"I had all the symptoms," writes Mrs. Evelyn Cookson, well known in Chester. "I was discouraged, but felt too poorly to bother with medicine. But I tried again for health and used Dr. Hamilton's Pills. The very sight of food used to turn me sick; now I eat and digest like a growing child. I used to feel bloodless and starved, now I am well nourished and gaining in flesh. My face was haggard, full eyes, dark circles; now I am animated, have pink cheeks, bright clear eyes. A hard cough that used to rack my chest is gone. But best of all is the feeling of buoyancy and good spirits that displaces the awful tired, drowsy, melancholy fits that come on, and always with splitting headache, too. I hope my letter will induce others to use Dr. Hamilton's Pills—such a good honest, dressing tonic should be in every home, both for children and parents' use."

You have a woman's work to do in life — you have only a woman's delicate organism to do it with. You'll be vastly assisted with Dr. Hamilton's Pills, because they are good for women just as they are good for men and children, too; 25c. at all dealers.

Pleasure easily and quickly checked with Dr. Shoop's Magic Ointment. To prove it I will mail a small trial box as a convincing test. Simply address Dr. Shoop, Racine, Wis. I surely would not send it free unless I was certain that Dr. Shoop's Magic Ointment would stand the test. Remember it is made expressly to end aching, painful, bleeding or itching piles, either external or internal. Large jar 50c. Sold by all dealers.

City Topics
IN SHORT FORM FOR BUSY READERS

—The police are after the owners of stray dogs.

—The annual Farmers' Institute excursion to Guelph took place today.

—Court Clemona, I.O.F., held a moonlight down the river last night on the steamer Otonabee.

—The steamer Monarch is bringing a barge loaded with hardwood from Campbellford to this city.

—Local anglers are preparing for bass and musk nonge fishing which begins Tuesday, June 15th.

—One thing that is prevalent to a very great extent at Jackson Park, and is, to say the least, annoying, is the habit some persons have of standing up to look at the pictures and blocking the view of others.

Evangelist H. S. Stephen of Toronto, is expected to arrive in the city this morning from Trenton and deliver a special address on Foreign Missions at Bethany Tabernacle this evening. Miss Stephens is well known in the city through former visits and should receive a hearty welcome. The public generally is cordially invited.

Beware of Ointments for Catarrh that contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Free Methodist Camp Meetings Today

The Ten Days' campmeeting to be conducted by the Free Methodists of the Toronto district at the Exhibition grounds, opens today. A large number of the Free Methodists came into the city by all trains yesterday, to attend the meetings. The people will camp right on the grounds and the meetings will be held in a large tent. There will be seven meetings each day, the first being held at six o'clock.

East Ward Family Turned Out of House

The landlord is a mighty man. This fact was evidenced on Monday, when an east ward family were turned out of their home and their furniture put out on the street. The people were going to move to another house next Monday and their rent was not due until then. What ever prompted the owner to be so hard and exacting can not be understood. It is said that he waited till the men of the house went away in the morning and then went and moved out the furniture and ordered the women and children to leave the place. Last night the neighbors gave the family shelter. It is said that proceedings against the landlord will be instituted in the court.

NERVOUS DEBILITY CURED

Excesses and indiscretions are the cause of more sorrow and suffering than all other diseases combined. We see the victims of vicious habits on every hand: the sallow, pimpled face, dark circled eyes, stooping form, stunted development, bashful, melancholic countenance and timid bearing proclaim to all the world his folly and tend to blight his existence. Our treatment positively cures all weaknesses by overcoming and removing the effects of former indiscretions and excesses. It stops all drains and quickly restores the victim to what nature intended—a healthy and happy man with physical, mental and nerve power complete.

For over 20 years Drs. K. & K. have treated with the greatest success all diseases of men and women.

If you have any secret disease that is a worry and a menace to your health consult old established physicians who do not have to experiment on you.

We guarantee to cure NERVOUS DEBILITY, BLOOD DISEASES, STRICTURE, VARICOCELE, KIDNEY AND BLADDER DISEASES. Consultation Free. If unable to call, write for a question Blank for Home Treatment.

Galbraith Coal Co., Ltd.
Non-personal Liability

Capital, $250,000.00 — 1,000,000 Shares 25c. each.

Good coal stock is a safe and sure investment.
Galbraith shares are especially attractive.

Modest Capitalization — Large Coal Reserves

This Company organized under the laws of the Northwest Territorie of Canada, owns and operates the Galbraith mine located at Lundbreck, Alta. They have four vertical seams of coal traversing their property, aggregating over 40 feet in thickness. Three of these seams are developed to a depth of 350 feet, and as they pass through the Company's lands for nearly a mile, some idea of the amount of coal may be had.

Shipping Steadily

The present output of the mine is about 200 tons per day. These shipments will be rapidly increased, as the C.P.R. allows its cars to be loaded with coal for points in the U. S.

We are selling a limited number of these shares at the extremely low price of

30 CENTS PER SHARE

in blocks of 100 or over. Tight money in the States makes it possible for us to give this unprecedented offer in stock that will be paying dividends inside of six months, and you are sure to realize a handsome profit.

Parties ordering can send money by P. O. Orders, Express Orders or Bank Drafts, and we will have the stock issued direct to you. Full information furnished on request. Correspondence solicited. References, Bank of Montreal

MIGHTON & CAVANAUGH

POLICE

A Euclid avenue resident, was remanded for a week by Magistrate Dumble in the police court yesterday morning on a charge of allowing his hens to run where they please. Mr. George Adams, the next door neighbor, was the complainant, he stating that the chickens were continually laying on his grass plot. The defendant's wife and another witness swore that the hens had not been out of the house since May 18th.

His worship allowed the case to stand for a week.

Patrick Corsey was fined $5. to be paid within ten days, or the alternative of ten days in jail, for being intoxicated. He of course pleaded not guilty. P. C. McHarry went into the witness box and swore that on Tuesday night about 9.30, he stood a crowd at the corner of Sherbrooke and George streets. The men were drinking beer in large quantities. Corsey, who had an axe in his hand, was going to murder some fellows across the road. About 12.30 a.m., the officer found Corsey lying in the yard at the rear of the house with Mrs. Crouter, both being pretty drunk.

Ann McCarthy pleaded not guilty to being drunk and disorderly, but the evidence was against Ann, and she was fined five dollars or ten days. P. C. McHarry found the woman wandering about the streets in a drunken condition and clad like a Dukhobor. She was in bare feet, bareheaded, and there was a deep cut in her nose. Her eyes were blackened and her face was terribly mutilated.

A young man was the next to face the beak, and contributed $2 as a result of having imbibed too much joy water.

Sarah Crouter pleaded not guilty to keeping a disorderly house at the corner of George and Sherbrooke streets.

Sarah was remanded for a week.

You cannot possibly have a better Cocoa than

EPPS'S

A delicious drink and a sustaining food. Fragrant, nutritious and economical. This excellent Cocoa maintains the system in robust health, and enables it to resist winter's extreme cold.

COCOA

Sold by Grocers and Storekeepers in ¼-lb. and ½-lb Tins.

Speaks for Itself

Experience of a Southern Man

"Please allow me to thank the originator of Postum, which in my case, speaks for itself", writes a Fla. man.

"I formerly drank so much coffee during the day that my nervous system was almost a wreck. My physician told me to quit drinking it but I had to have something to drink, so I tried Postum.

"To my great surprise I saw quite a change in my nerves in about 10 days. That was a year ago and now my nerves are steady and I don't have those bilious sick headaches which I regularly had while drinking coffee.

"Postum seems to have body-building properties and leaves one feeling clear. And I do no have the bad taste in my mouth when I get up mornings. When Postum is boiled good and strong, it is far better in taste than coffee. My advice to coffee drinkers is to try Postum and be convinced."

"There's a Reason."

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs.

Ever Read the above letter? A new one appears from time to time. They are genuine, true and full of human interest.

CARD OF THANKS

To the Electors of West Peterborough.

GENTLEMEN,—I desire to thank all those who gave me their support and influence during the contest just closed.

To my committees throughout the Riding who worked so energetically in my behalf, I offer my most cordial thanks.

In fact everyone of my supporters gave me such encouragement and confidence that the campaign was to me a most enjoyable one.

It is true I am not elected but the result is as I expected when I entered the contest so that there is no disappointment to me.

From the fact of our doing so well under present conditions perhaps on another occasion we will be more successful when better known.

In the meantime I desire to thank most heartily all those who in any way assisted me during the contest.

It is now closed and I have nothing to regret, except the result, and I regret that more for the cause which failed to succeed than for any lack of personal success.

Yours truly,
G. A. Gillespie

TO THE ELECTORS

GENTLEMEN,—I wish to thank the electors of West Peterborough, both Conservative and Liberal, for their kindness in re-electing me as a supporter of the Whitney Government. As in the past I shall in the future, do all I can to merit the trust reposed in me by you. We have had, I think, a clean election, and it is satisfactory to be able to look back upon it without regret. I wish also to express the kindest feelings towards my late opponent, Mr. Gillespie, who, so far as he was personally concerned, fought a hard but fair fight.

Again thanking you, I remain,
Yours truly,
T. E. Bradburn

All Sickness is Alike to

OXYDONOR

It applies to all cases, no matter what the form of disease may be. It revitalizes the human body with OXYGEN from the air. OXYGEN is a vital Necessity—the greatest necessity life knows.

You can apply Oxydonor at home while you rest or sleep. No loss of time from your work or business. It is easily applied, safe, and always ready for use. Its force never exhausts. It will serve the family, children as well as adults.

Mr. Wm. Beers, 196 York St., Toronto writes: "I have great pleasure in recommending your Oxydonor. When I first got the instrument I was suffering from Sciatica for about four months, and after applying it for five weeks it left me all at once and have not been troubled with it since. I can highly recommend it as a good family doctor, and would not be without it for double the price."

ANOTHER DOUBLE TRAGEDY--DOMESTIC TROUBLE THE CAUSE

C. E. Marshall, a Former U. S. Soldier at Fort Niagara, Shot His Canadian Wife at Earlton, Ont.

Cobalt, June 11.—The village of Earlton, about 25 miles north of here, was stirred by a double tragedy yesterday afternoon, when Chas. E. Marshall, aged 32 years, shot and killed his wife, Nelli Gray, aged 24 years, and then shot himself, blowing the top of his head off.

The tragedy happened on the farm of Mrs. Marshall's father, Absolom Gray, about one mile from the town.

Marshall first met his wife while he was attached to a regiment of the U.S.A., stationed in Fort Niagara about five years ago. They were married at Lewiston, N.Y., about a year ago. They came to this country on a visit from Niagara Falls, and returned on December 17th last to take up their abode. Marshall got employment work on the farm of his wife's brother, Jamie Gray.

WOULDN'T LIVE WITH HIM.

About a week ago Marshall went back to Niagara Falls, his wife refusing to live with him any longer. Shortly after he went away they received a letter saying that he would repent if his wife would come back to him. The day before he came back he wrote and said he would be away for a year. He returned, however, on the Cobalt special yesterday morning, when he got off at Earlton. Instead of taking the road to the farm he struck off through the woods.

FATHER FEARED TROUBLE.

Marshall's father-in-law saw him coming and suspected that something was wrong and started towards the house. When within a few feet of the building he heard four shots and on entering the house found Marshall lying on the dining room floor dead with the top of his head blown off, and his daughter in the kitchen dying. When he got to his daughter she said, "He killed me, father," and expired. She was shot through the arm, right thigh, and in the breast.

Dr. Fisher, the corner, of New Liskeard, went up to Earlton yesterday and declared an inquest unnecessary.

Tweed Merchant Sentenced to Two Years in Prison

Belleville, June 11.—In the county court this morning, before Judge Deroche, and a packed court room, Phillip Ketchison, a prominent merchant of Tweed village, in this county, was sentenced to two years less one day in the Central Prison, on charges of immorality, to which he pleaded guilty. He is also to receive six lashes one month after imprisonment, and also six one month before he leaves. The prisoner has respectable family affiliations.

In the Realm of Sport

Following are the results of the games played yesterday in the three big ball leagues.

BASEBALL.

The following interesting item is from the Youngstown Vindicator. It sounds funny over here, those references to the Canadian bushes and the wilds;—

"Manager Sam Wright will never rival a brass band nor a steam whistle in making a loud noise. His specialty is to look and listen instead of talking. Sam uses his ears and eyes far more than his mouth. He has little to say to his ball players, especially on the field of action. But the way Manager Wright got a line on one or two young ball tossers, who have shown promise with the champs this season, is an able illustration of his methods.

A traveling man's careless remark in a barber shop resulted in catcher Harry Burridge coming to Youngstown. The drummer and Manager Wright were sitting side by side, undergoing the tonsorial operation one morning last winter. The talk turned to the national game and the traveller remarked that he had seen a young catcher up in the Canadian bushes who was a sure comer. Something about the speaker convinced Wright that he knew a ball player and the manager took a chance at writing to the wilds and luring the busily little back stop to this city."

Burns of the "Petes" has had 13 hits in 13 times up. That's a record for the Athletic hitters to try and break.

ADVERTISE IN THE TIMES.

Anti-Gambling Bills Passed in New York

Albany, June 11.—The anti-gambling bills, passed by the Assembly yesterday, were handed down today, with every member of the Senate in his seat when at 10.25, the first of the bills was taken up, with the exception of Senator Foelkner. The senator, who was reported by his doctor as very weak, and as having had a poor night, reached the Capitol a few minutes before the stroke of noon, and at 12.03 voted "No" on a motion to amend. The first bill was then put upon its final passage, and passed 26 to 25. Senator Foelker's vote having saved the day.

Will Attend Garden Party Given by Royalty

The bishops, clerical and lay delegates who are attending the Pan-Anglican Conference in London, Eng., have been invited by their Royal Highnesses the Prince and Princess of Wales to attend a garden party at Marlborough House on June 24.

Rev. Canon Davidson rector of St. John's church this city, is one of the delegates who will meet the Prince and Princess of Wales at a garden party at Marlborough House, London, England.

Going West to Enter Into Business

Mr. Arthur Munn, druggist, leaves the city today for Grand Forks, B. C., to enter into business for himself. Mr. Munn for a number of years was employed with Mr. Wm. Medill, and last autumn went to the School of Pharmacy, Toronto, from which he succeeded very creditably in graduating this spring. He will go by way of Owen Sound, Fort William and the C.P.R. He will remain in Winnipeg for a few days, and will also visit his brother, Mr. Eddie Munn, in Nelson, B.C., before going to Grand Forks. His business there will be known as Munn & Company.

Mr Munn has many friends in Peterborough who will regret very much his departure.

New Welland Canal 25 ft. Deep Costing $25,000,000

Ottawa, June 11.—When the Welland Canal came up for discussion in the House this morning, Mr. Graham made an important statement. Unofficially, he said, the Welland route must be brought to a depth of 25 feet to enable it to compete with the new Erie canal and the American route generally. Discussing methods he stated that he was assured by eminent engineers that it would be better, instead of deepening the present 14-foot canal, to make a new one altogether. Such a new 25-foot canal would be cheaper and shorter and would have 75 per cent. less locking. The cost, he agreed, would be heavy; he would not like to do it under $25,000,000 or $30,000,000.

THE PREMIER'S LETTER.

On the opening of the House Mr. Borden brought up the matter of the letter addressed to Rev. Mr. Shearer by Sir Wilfrid Laurier on the subject of the Pringle charges. The Prime Minister said he would lay the correspondence on the table.

LEGISLATION YET TO COME.

Sir Wilfrid Laurier supplemented his announcement of yesterday as to coming legislation by stating that a Quebec bridge bill will be brought in. There also will be some amendments of minor importance. Thus the Government's list of legislation not yet introduced is;

1. Hudson Bay Railway bill.
2. Assistance to other railways.
3. Civil service reform bill.
4. Manitoba boundaries bill.
5. Quebec bridge bill.
6. The minor amendments above mentioned.

A CANAL EXTENSION.

The House went early into supply, taking up Mr. Graham's canal estimates. In the course of the discussion Mr. Haughton Lennox suggested the advisability of extending a canal from the Holland River to Bradford. No elevation would have to be overcome, the supply of water would be sufficient, and the soil being marsh the construction would not be excessive. Mr. Graham promised consideration.

Splendid Program for To-night's Band Concert

By kind permission of Col. Stevenson and officers commanding, the band of the 57th Regiment, under the direction of Bandmaster Gliddon, will render the following program in Victoria Park tonight;

March—"Regimental Pride," introducing trumpet and drum effects.
Overture "Morning, Noon and Night in Vienna," Von Suppe.
Cakewalk—"King of Rags," (new).
Euphonium Solo, by Bandsman Cronk—variations on a southern song.
Highland Patrol—"The Wee MacGregor."
Medley Overture—Remick's Latest Hits—J. Bodewalt Lampe.
Cakewalk—"Georgia Sunset."
Selections from the Comic Opera "Ermine."
Idyll (by request)—"The Mill in the Forest."
March—"On Dress Parade."
God Save the King.

Baker and Simpson Left for England

Good luck and a pleasant voyage was the wish of the large bevy of sports who went down to the C.P.R. station yesterday morning to see Fred Simpson and Trainer Dick Baker start on their long trip to London, England. The local men went through to Montreal with the rest of the Olympic team, who got on at Toronto. The team travelled in a special car and as soon as the train pulled up at Peterborough the boys all got out and gave Simpson and his trainer a cordial reception. The local men were quickly made acquainted with those in the party whom they did not know, and everybody was as happy as a lark. The team is in charge of Mr. J. H. Crocker of Toronto, the well known physical director, and a striking feature in connection with the men Canada is sending to uphold her prowess on the athletic field, is their youth. They are all young, surprisingly so, but they have proved their mettle, and will without doubt, bring honor to their home land.

One of the members of the team is Fitzgerald of Edmonton, the five-miler. He was much interested in Peterborough as he knew it was the home of Fred Whitcroft, who was his trainer at Edmonton. He asked a number of people at the station about "Whitty" and said he wished he had him along with him. Fitzgerald is a native of Ireland, and is said to have plenty of speed and endurance. Others in the party were Jack Tait and Bredin Galbraith, who are well known here. Harry Lawson attracted considerable attention, as also did Archibald, the pole vaulter, who is at least six feet tall.

Reptiles in the Peterborough Water

Mr. Fred R. Roy, son of the Hunter street photographer, was the second person The Times heard complaining of the city water. "If we have the tap in our studio running for ten minutes or perhaps half an hour at a time, the basin will contain many creatures undesirable for drinking purposes why I have often seen as many as four different kinds of little animals in a basin of water that come out of the tap. Some of them will be a greenish shade with horns protruding from their heads, while others will be black with long legs. Why I wouldn't think of drinking a drop of city water until it is first boiled."

While drawing a glassful of water from the tap yesterday afternoon, an Aylmer street resident was surprised to see a horny reptile about two inches long swimming around in the minute aquarium.

This little animal, had several very small legs, two big eyes, and horns of an inch in length protruding from the center of its head. It had the color of a crab, but looked more like a lizard.

"The sight of it gave me the shivers," said the man, and I certainly will not drink any more city water unless it is first boiled. The first thing we know, our drinking water will be unfit to drink. It is nearly time for the City Council to think about installing a proper filtration plant, for our water supply, when the conditions get as bad as they are now.

Has Made an Assignment

Mr. Andrew Graham, grocer, corner of McDonnell and Aylmer streets, has assigned to Mr. Jas. Edgar. A meeting of the creditors will be held a week from today.

Three gigantic new engines for the T. H. & B. Railway, passed through the city yesterday morning attached to a C.P.R. freight train. They were constructed by the Canadian Locomotive Company of Montreal.

Jimmy Reynolds, Port Hope's Walking Barber, One Hour Behind Time

Has to Cut Three Hours off His Record of 136 Miles in 36 Hours--Fine Weather is in His Favor

REYNOLD'S LAST TRIP.

(Left Port Hope, 6.02 a.m.
Newtonville, 21 miles, 8.18 a.m.
Newcastle, 17 miles, 9.28 a.m.
Bowmanville, 22 miles, 10.40 a.m.
Curtice, 27 miles, 11.55 a.m.
Oshawa, 31 miles, 1.15 p.m.
Whitby, 36 miles, 2.38 p.m.
Pickering, 41 miles, 4.24 p.m.
Toronto, 69 miles, 10.12 p.m.

REYNOLD'S TIME YESTERDAY.

Left Port Hope, 6 a.m.
Newtonville, 8.22 a.m.
Newcastle, 9.27 a.m.
Bowmanville, 10.40 a.m.
Pickering, 4.35 p.m.

Port Hope, June 11.—Plucky but foolish Jimmy Reynolds left the Queen's Hotel here this morning at six o'clock sharp, in an almost impossible attempt to cover the 134-mile walk to the King Edward, and return, in 36 hours, on a wager of $600 to $300. The best previous record was 36 hours, and locally it is not thought for a moment that he will do the trick in three hours less time. He is favored with good weather conditions, however.

To make his schedule Reynolds would have to reach Port Hope at 3 o'clock tomorrow afternoon.

N. Reynolds and H. Woods accompany the plucky pedestrian, as referees, and Jack Henderson and Richard Woodcock are looking after Jimmie's physical requirements.

Reynolds covered the distance to Welcome, a distance of about 3 1-2 miles, in 40 minutes, and was reported at Newtonville, 12 miles west of Port Hope, at 8.22. Newcastle, which is 17 or 18 miles from Port Hope, was reached at 9.27; Bowmanville at 10.40.

Reynolds was in fine condition for the walk when he left home. He expects to reach the King Edward about 9 o'clock tonight.

TOOK AN EGG-NOG.

Bowmanville, June 11.—Jimmy Reynolds passed through town at 10.49, accompanied by Dick Woodcock. He looked quite fresh, and when asked how he was getting along, said "Feeling fine, thank you." He only stopped at the Benoost House for a minute, to take an egg-nog.

BEHIND LAST YEAR'S TIME.

Oshawa, June 11.—Reynolds passed the Vindicator office, Oshawa, at 1.45, in fair condition, just exactly one hour after he was expected. A runaway passed at the same time, scattering the crowd. Feeling is not brisk in his favor.

EIGHTEEN MINUTES BEHIND.

Whitby, June 11.—Jimmy Reynolds passed through Whitby four corners at 2.50 p.m., dressed in a loose, cool outfit. Jimmy looked pretty tired, but feels quite confident he will make the trip. Two men walked beside him, and one about 30 feet ahead of him setting the pace.

AT PICKERING AT 4.35

Pickering, June 11.—Jim Reynolds, the walker, arrived here this afternoon at 4.35, very dry and very dusty. There were three rigs with him, containing his supporters and backers. Jim was going strong, and expressed the opinion that he "would do the trick all right."

He stopped into a hotel and took some refreshments and a rub-down. At 4.40 he was on the road again.

Mgr. Johnston's "Petes" Home After Week's Tour

Manager Johnston's "Petes" arrived home last night, after a most successful tour of the south-eastern towns. The boys all look in the pink, and state that they had the time of their lives. To win four straight games away from home, is going some considering the traveling the boys did by bus, train and Hoagland flash on. The team had a hard game at Cobourg last Saturday, the game being the most exciting ever seen in the lake shore town. On several occasions the home team had two and three men on bases with but one out, but the fast infield work, and the great pitching of Clements, spoiled their chances of a score.

The boys spent Sunday in Cobourg, and left for Belleville on Monday, playing there in the afternoon, and winning easily from the Eastern Ontario league team, by 16 to 6. They spent the night in Belleville, and left early Tuesday morning for Frankford, a drive of 15 miles, playing there and winning by the score of 11 to 3. Leaving Frankford they drove to Trenton where they spent the night. Then the boys did the Simpson act, and just caught the early morning train Wednesday for Wellington, where they played one of the finest games of the season before a record crowd.

The boys all speak well of the treatment they received at the different towns. When asked which of the towns they liked the best, they unanimously voted Wellington "the candy." They were treated white from the time they arrived until they left, and would like another trip there.

The practise the boys had while away, will no doubt prove valuable. Their batting was most creditable, and they all seem to have their eye on the leather now, and will certainly make the big league pitcher, which Cobourg intends to spring on them Saturday, hurry to beat them.

O'Brien is the only man suffering from the trip away, and his injury has proved serious, and will cause the brilliant fielder to lay up for a couple of weeks. His place will be filled however, by a clever fielder, and a good left hand batter.

The "Petes" will be very strong for Saturday's game and should make the best appearance of the season, when they meet the heavy sluggers from Cobourg.

Recital Given by Pupils of Miss M. McCabe

A large and appreciative audience attended the annual recital given by the pupils of Miss Margaret McCabe, in the Peterborough Music Company's music hall last night.

The program given was an excellent one, and showed the splendid advancement the pupils have made during the year.

That Miss Janet Quinn will be a wonderful artist, was manifested by the splendid performance when she played Lotoff's "Spinning Song." Her touch was excellent, she kept perfect time, and showed she had mastered this beautiful composition.

During the evening the pupils presented Miss McCabe with a beautiful bouquet of pink roses.

The program was as follows;

1. Opening March, duet—3 pianos.
2. "Narcissus," 3 pianos.... Nevin
Alice Neil, Nora Mollet, Nettie Rutherford.
3. "Meditation," 3 pianos.... Morrison.
Ruby Cunningham, Angela Devlin, Joe Mercier.
4. "Little Blue Flower," vocal solo Proter.
Jo Mercer.
5. "Irish Airs," 3 pianos—Arranged by Miss McCabe.
Georgie Davidson, Hazel Moffat, Loretto Barnett.
6 "Norwegian Bridal Procession"... Greig
Geraldine Byers.

PART II.

1. "Scotch Airs" 3 pianos ... Pape
Janet Quinn, Lizzie Smith, Harold Brown.
2. "La Tiera a Lone and Dreary Hour," vocal duet ... Wingard
Miss Hallihan, Mr. Kerr.
3 "Shepherds All and Maidens Fair." Nevin
Harold Brown.
4. "Rustle of Spring" ... Sinding
Lizzie Smith.
5. Waltz Song, "A Bunch of Wild Roses for Thee" ... Gabel
Miss Hallihan.
6 "Spinning Song" ... Litoff
Janet Quinn.
God Save the King.

Seven Peterboro Walkers will go to St. Catharines

Monday will see the start of one of the fastest walking matches ever held in Canada, as all the fastest walkers in Canada are entered. Stacey, the fast amateur walker, who walked second to Hefner, is here and practising on the track. This will be his first professional walk. He will, no doubt, make a good showing, along with Bartley, who holds the record from Toronto to Port Hope, his time being 36 hours 21 minutes. Other walkers who will arrive today are Cooper of Toronto, who has done a mile in 7 minutes 40 seconds; Chas. Stevens, the boy wonder from Peterborough; Harrison, champion short distance walker of Canada; Spensely, Joseph Guerin, and Steiner.

As the entries do not close until Saturday, there will be a big field. The rink will be open every night this week for the walkers to train. St. Kitts Star-Journal.

Harold Cuff, the 11-year-old lad who made such a good showing in the Y.M.C.A. walk went go to Belleville, with Jim Harrison, to walk there, as no match could be arranged for him.

Jim Harrison leaves for Belleville today, where he will meet Jack Cooper in a four-hour race for a purse of $100. He is in the pink of condition, and is confident that he can trim the Toronto ped.

GOLF.

Miss Lundy of this city, made a record drive of 148 yards, in the driving competition of the Ontario Ladies' championship series at Hamilton.

The Peterborough Golf Club will play Tuesday on the local links next Thursday. In all probability a game will be arranged for next week with the Port Hope golfers.

The Peterborough Fair Directors Met Last Night

A considerable amount of business was transacted at the meeting of the Board of Directors of the Peterborough Industrial Fair, held in the council chamber last night. All the Peterborough members of the Board were present, but owing to the Farmers' excursion to Guelph yesterday, none of the county members of the board were present.

Preliminary details were arranged with regard to this year's prize list, which will be larger than that of 1907. The directors also took up the question of a free entertainment for each night of the fair, and a number of high class acts are to be secured.

Grand Lodge Officers Will be Here Monday

A special meeting of the Ancient Order United Workmen will be held on Monday, June 15, to meet their Grand Master Workman, Mr. S. B. Morris and other officers.

Athletics

The Olympic team leaves for England on the Tunisian from Montreal this morning.

Alf. Shrubb is back in America, and is already looking for Big Chief Longboat.

Two more entries were received for the Houden trophy competition yesterday, R. Best and Stanley Caniff being the entrants.

The Canadian team for England, were given a great send off, when leaving Toronto yesterday morning.

Toronto always talks in thousands.—Brantford Courier.

The first Olympic victory goes to the United States. Jay Gould, jr., of New York, winning the world's racket championship at London, England, from Eustace Miles of London, Eng., by 6—5, 6—4, and 6—4.

But just wait until Freddy Simpson, Tom Longboat, Jack Tait and company get across the pond. Then watch the Canadian score go up.

Has Appealed Case

P. C. Newhall has appealed against the judgment given against him by County Magistrate Edmison, by whom he was fined $10 and costs on a charge of assaulting Mr. Dave Johnston, fishery inspector. The appeal will be heard before his Honor Judge Weller.

—Messrs. Colleton and Kenarr, of Pittsburg, Pa., passed through the city yesterday on their way to Stony Lake. They are traveling in two handsome auto cars, each one having one to himself. They came to Toronto by train, and from there to Peterborough in their automobiles.

The Modesty of Women

Naturally makes them shrink from the indelicate questions, the obnoxious examinations, and unpleasant local treatments, which some physicians consider essential in the treatment of diseases of women. Yet, if help can be had, it is better to submit to this ordeal than let the disease grow and spread. The trouble is that so often the woman undergoes all the annoyance and shame for nothing. Thousands of women who have been cured by Dr. Pierce's Favorite Prescription write in appreciation of the cure which dispenses with the examinations and local treatment. There is no other medicine so sure and safe for delicate women as "Favorite Prescription." It cures debilitating drains, irregularity and female weakness. It always helps. It almost always cures. It is strictly non-alcoholic, non-secret, all its ingredients being printed on its bottle-wrapper; contains no deleterious or habit-forming drugs, and every native medicinal root entering into its composition has the full endorsement of those most eminent in the several schools of medical practice. Some of these numerous and strongest of professional endorsements of its ingredients, will be found in a pamphlet wrapped around the bottle, also in a booklet mailed free on request, by Dr. R. V. Pierce, of Buffalo, N. Y. These professional endorsements should have far more weight than any amount of the ordinary lay, or non-professional testimonials.

The most intelligent women now-a-days insist on knowing what they take as medicine instead of opening their mouths like a lot of young birds and gulping down whatever is offered them. "Favorite Prescription" is of known composition. It makes weak women strong and sick women well.

Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send to Dr. R. V. Pierce, Buffalo, N. Y., 21 one-cent stamps for paper-covered, or 50 stamps for cloth-bound.

If sick consult the Doctor, free of charge by letter. All such communications are held sacredly confidential.

Dr. Pierce's Pleasant Pellets invigorate and regulate stomach, liver and bowels.

ON THE PARIS 'CHANGE.

A Place Among the Seventy Costs About Three Million Francs.

It may be said that a seat among the seventy (they call it a charge) costs about 3,000,000 francs ($600,000) or sometimes 2,500,000, and a charge earns from 5 to 15 per cent (net) a year, so that the annual profits are from $30,000 to $80,000, or more in exceptional years. But these are usually divided among several associates, for it rarely happens that an agent is the sole owner of his seat. More often he has paid for only half of it or a third of it and has three or four silent partners, who own the rest and who may again have subpartners, so that you will hear of a person owning an eighth or a sixteenth of a seat or even a thirty-second, these being simple investments that carry no rights or privileges on the bourse.

As to procuring a charge, the thing has none of the Stock Exchange simplicity, where the main requirement for getting a seat is to be able to pay for it. Here a candidate must be a Frenchman and at least twenty-five years old. He must have served four years in certain forms of business. He must be personally acceptable to the agent from whom he would purchase the seat and often to his family, including the ladies. He must be passed upon by the seventy with formal voting, as if he were joining some select club, which he is. There must be no stain on his business record and no slur on his personal character. A candidate was rejected recently for bad habits and another for no fault of his own, but because his brother had been concerned in questionable transactions. With all this favorably settled there is still needed the approval of the minister of finances and the sanction of the head of the government.

ADVERTISE IN THE TIMES.

This is Best Time For Spring Medicine

at, now the blood is cleansed, disease germs are destroyed, good summer health is assured.

That peculiar weakness so common in the spring, is demoralizing to body and mind alike.

It is the need of a stimulating tonic.

To impart quickness and great vitality to the entire system nothing acts like Ferrozone.

In a short time it makes you feel fit and fine, creates a feeling of youth and strength that's surprising.

Ferrozone revives and braces the sickly because it nourishes and builds up the organs that are weak. As a spring tonic appetizer and blood strengthener it is unequalled.

A well known resident of Utopia, Ont., Mr. H. H. Postle, writes: "From long experience I am convinced that everyone requires medicine in the spring. As a rule the blood is thin and impure and the whole system is congested with poisons that should be carried off. I use Ferrozone because it clears up the system, gives you an appetite and makes you feel well. One winter I had serious palpitation of the heart, nervous headaches, and an extreme tired feeling. Sleep was not restful and by spring I was in bad shape. I took six boxes of Ferrozone and was made the picture of health."

Ferrozone makes permanent cures. Absolutely safe because it is purely vegetable and contains no alcohol. Concentrated cure in tablet form, —that's Ferrozone, 50c per box or six boxes for $2.50 at all dealers.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

English office—30 Fleet street, London, E. C.

FRIDAY, JUNE 12TH, 1908.

News in Brief

London, June 11.—With the object of placing Mr. Chas. Fenwick, M.P., on a more equal footing with the other miners' representatives in Parliament, the Northumberland Miners' Council has decided to provide the member for Wansbeck with a free house and five coal supply from the labor funds.

CROYDONS EXCHANGE FLAGS.

The ceremony of the exchange of Union Jacks between the children of Croydon, Surrey, and Croydon, New South Wales, took place outside the Croydon town hall the other day. Miss Newnham handed the Croydon flag to the agent-general for Australia, and Miss Coghlan presented the Australian flag to the Mayor.

DANCER'S BUSY DAY.

Miss Maud Allan, the popular dancer at the Palace theater, led a strenuous life the other day. She was due to appear at a "fly ing" matinee at the Prince of Wales' theater, Birmingham, in the afternoon. Immediately her portion of the entertainment was finished, Miss Allan left for London in a special restaurant car for the Palace. The artist afterwards went on to a dinner part given by the Earl and Countess of Dudley, and submitted a lengthy series of classical dances to the King and Queen, who were honoring the party.

COUNTESS AND THE POOR.

Lambeth Guardians at their recent meeting received a report that the Dowager Countess of Shrewsbury has just completed thirty years' work amongst the poor of Lambeth, the Countess being a member of the Ladies' Committee of the Board. The Board passed a vote of thanks to the Countess for her useful services, and expressed the hope that she may long be spared to continue her beneficent labors.

Great Bend, Kan., June 8.—To spread the glad things of theism throughout the civilized world is the object of the founders of the Church of Humanity, who will begin their first general assembly here on Sunday, June 7. Delegates from various parts of the country arrived to-day, and while the convention will be small in numbers, every part of the United States, from New York, to California, will have representation. A permanent organization will be effected, and plans made for propaganda which is expected eventually to extend throughout the world.

That all deities and devils, Christian and pagan, are myths, immortality a fable and death the end of conscious life is the basic creed of the new church. Neither do the founders present these statements as theories but declare that they are proven facts, capable of scientific demonstration. While there have been national organizations of freethinkers in this country this is the first attempt to found a national society along purely atheistic lines, as all previous organizations have been composed largely of agnostics, deists, pantheists and spiritualists. Voltaire, Paine and Ingersoll, the patron saints of all former freethinking societies, have been discarded as false leaders and hopelessly behind the times through their lack of the knowledge now revealed that "God is a myth like Santa Claus."

W. H. Kerr, a wealthy retired farmer of this city, is the principal spirit.

Calgary, Alta., June 8.—A hearty welcome to Alberta's capital was extended yesterday to the hosts of "drummers" arrayed under banner of the United Commercial Travelers of America, who are here for the fifteenth annual session of the organization. Many large delegations are here from cities of the United States, and the various councils throughout the two countries are well represented. Minneapolis has the strongest council in the United States and as sent a large representation of its trade drummers.

A very extensive program has been arranged for the convention, and the demands of sociability and amusement as well as the business side of the question will be abundantly catered to. A polo game, parade to Mewata park and an opportunity to witness the championship lacrosse match between Calgary and Lethbridge, will be some of the features of the session, and an excursion to Banff in the Rocky Mountains has been arranged for Wednesday.

Reval, June 8.—The Russian Imperial yachts Polar Star, Standart, and Tsarevna, escorted by a fleet of torpedo boat destroyers, under command of Rear Admiral Von Essen, arrived in the roadstead here early this morning. The Standart during the day will move alongside the pier from which Emperor Nicholas and other members of the Imperial family, accompanied by a numerous suite, will embark from the Imperial train, which is to arrive from St. Petersburg at 7 o'clock on the morning of June 9. The Imperial train will run directly on to the pier, the approaches to which will be closed by troops.

As soon as the Imperial party has embarked the yachts will proceed to sea to meet the British royal yacht Victoria and Albert, which has King Edward, Queen Alexandra, Princess Victoria, and a large suite on board. The change in the plans of the Emperor's party in giving up the trip by sea to this port and coming by rail instead was executed so quietly that the local population at large is completely ignorant of the Emperor's movements.

The mayor of Reval and the marshals of nobility will together render greetings to their majesties tomorrow.

The effects of the storm which had been prevailing in the Gulf of Finland for several days was not felt here and the meeting of the two monarch will not be attended by the discomfort of a rough sea.

If one feels dull and spiritless in the spring or early summer, they call it "Spring Fever." But there's no fever—usually. It is the after-effect of our winter habits. The nerves are mostly at fault. Tired worn-out nerves leaves us languid, lifeless, and without spirit or ambition. A few doses of Dr. Shoop's Restorative will absolutely and quickly change all of these depressing symptoms. The Restorative of course won't bring you back to full health in a day or two, but two will do enough in 48 hours to satisfy you that the remedy is reaching that "tired spot." Druggists everywhere are advising its use as a splendid and prompt general tonic. It gives more vim and more spirit to the spoonful than any other known nerve or constitutional tonic. It sharpens a failing appetite, aids digestion, frees sluggish livers and kidneys and brings new life, strength and ambition. Test it a few days and be convinced. Sold by all dealers.

Young and Handsome Women Performers

Wherever the Cole Brothers' Shows have exhibited press and public have been unanimous in praising the work of the exceedingly large number of young and handsome women performers. Every of the fair sex are represented among the riders, acrobats, contortionists, jugglers, high-wire artists, gymnasts, bicyclists, clowns, animal trainers, chariot drivers and in fact even among the ring masters. As may naturally be expected keen rivalry exists between the lady and gentlemen artists, a fact which greatly enhances their performances. The lengthy imperial program, presented this year by these shows contains only the best and most modern features that money and labor can procure and in such quantity and variety as to satiate every aerobic taste, old and fancy. Lack of space prevents an enumeration of all the different acts, many of which must be seen to be appreciated. There is an extended list, the last of which does not by any means end the pleasures which the Cole Brothers shows will provide patrons on Thursday, 17th instant, afternoon and evening in this city.

There are the sports of ancient Rome and modern fair day races and contests. Then the big triple menageries form a zoological display without a peer in all the world. Next is Cole Brothers' marvelous museum in which are exhibited a myriad of human and animal freaks and other attractions. Thus it will be seen that there is a royal holiday feast in store for all who attend this mighty amusement exposition.

Pims are easily and quickly checked with Dr. Shoop's Magic Ointment. To prove it I will mail a small trial box as a convincing test. Simply address Dr. Shoop, Racine, Wis. I surely would not send it free unless I was certain that Dr. Shoop's Magic Ointment, either external or internal, Large intention of Canadian investors.

The undersigned has received an allotment of unsold portion of $100,000 of

7 PER CENT FIRST MORTGAGE FIVE-YEAR GOLD BONDS

dated January 11, 1908, and maturing January 11, 1913. These Bonds are offered at par and accrued interest by Metropolitan Trust & Savings Bank, Chicago, trustees.

SECURITY—The Entire Property and Improvements Owned THE URES CONSOLIDATED MINING COMPANY in the District of Ures, State of Sonora Mexico, Free from Mortgage or Bonded Indebtedness, except this present Bond issue.

An Unusual Opportunity for Investment in Sound Security

The Ures Consolidated Mining Company offers $100,000.00 of First Mortgage Gold Bonds. This issue of bonds is the only mortgage or bonded indebtedness ever placed on the company's properties.

These bonds are in the denomination of $100.00, and bear interest at the rate of 7 per cent. per annum, payable semi-annually, July and January, and are redeemable on or before five years from date at the company's option at $110.00 and accrued interest.

$100.00 Stock Bonus Given with Every $100.00 Bond

With each bond issued there will be given $100.00 par value of the capital stock of the company as a bonus, and in addition thereto there will be placed in escrow with the Trustee additional stock which will be available to the bondholders at their option any time within a period of three years, the bondholder being entitled to surrender his bond any time within said period and receive in lieu thereof stock for every dollar of indebtedness to him on account of said bonds.

The Security Back of these Bonds

The company owns twelve claims situated in the district of Ures, State of Sonora, Mexico, free from mortgage or bonded indebtedness, except the present bond issue.

On one of these properties (The Harmonia Mine) 5,000 feet of underground development work has been done, consisting of an inclined shaft to the depth of 400 feet with drifts in three levels to the North and South of the shaft.

An average value of ore worth $11.47 per ton is exposed throughout the mine, from the collar of the shaft to the extreme parts in the drifts, all of which is above water level.

The company has made surface improvements and mine improvements to the extent of $50,000.00 in the way of machinery, skids, trams, steam hoists, mill and nearly everything necessary to make the mining camp complete.

In addition to the absolute ownership of these twelve valuable claims, the company has a lease on the San Jose Mine, adjoining its property, in which the company has been operating in high grade ore.

During the past sixty days the company has extracted and delivered to ore buyers and the bank at Hermosillo, $3,000.00 worth of ore and bullion, the ore having been reduced to bullion through the company's mill, with the exception of 1,464 pounds, which was sold to an ore buyer for $562.50.

The Money Derived from the Sale of These Bonds

This issue of bonds is made for the purpose of securing money at once in order to extend the development work more quickly than the company's present means will permit.

With the high grade ore in sight to the distance of 80 feet to the South of the shaft, the management is assured that within six months from date of making the improvements now necessary the company's properties will be on a self-sustaining and dividend-paying basis.

The Stock which is Given with these bonds will be as valuable as the bonds when the Company has the ready capital to push operations

Men who invest in these bonds will have no cause or reason to regret their action, for the bonds afford an investment in a security which is absolutely safe—much better than ordinary city or country real estate, which is considered perfectly safe if the property put up to secure a mortgage is double the face of the loan. The security given on these bonds is better than 7 to 1, for the Ures Consolidated Mining Company has refused an offer of $750,000.00 for the property upon which this $100,000.00 worth of bonds is issued.

These bonds are an investment with all speculative risk eliminated —an investment with absolute security.

Make your reservation at once. This is small and promises to be quickly sold.

For complete information, detailed description of the property, records of title, etc., address

CAPITAL $1,500,000 RESERVE $950,000

Banco de Sonora,
Hermosillo, Mex.,
Feb. 11th, 1908.

To whom it may concern:—

We hereby beg to state that The Ures Consolidated Mining Company has during the past five years made several deliveries of bullion to this bank, and it is the opinion of mining men here that they have the making of a fair mine, and further, that the properties owned and controlled by them bid promise of becoming paying properties.

From our knowledge of the men connected, we believe they are doing all in their power to bring about the results above mentioned.

Respectfully,
BANCO DE SONORA,
Max Muller, Gerente.

SYNOPSIS OF CANADIAN NORTHWEST

HOMESTEAD REGULATIONS

Any reserve may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at an Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead duties under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3) If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of a homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father or mother.

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line exclusive of the width of road allowances crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the agent for the district of such intention.

Six months' notice in writing must be given to the Commissioner of Dominion Lands at Ottawa, of intention to apply for patent.

W. W. CORY,
Deputy of the Minister of the Interior.

Cough Caution

Never, positively never poison your lungs. If you cough—even from a simple cold only—you should always heal, soothe, and ease the irritated bronchial tubes. Don't blindly suppress it with a stupefying poison. It's strange how some things finally come about. For twenty years Dr Shoop has constantly warned people not to take cough mixtures or prescriptions containing Opium, Chloroform, or similar poisons. And now—a little late though—Congress says "Put it on the label if poisons are in your Cough Mixture." (Send) Very good!! Hereafter for this very reason mothers, and others, should insist on having Dr. Shoop's Cough Cure. No poison marks on Dr. Shoop's labels—and none in the medicine, else it must by law be on the label. And it's not only safe, but is said to be by those that know it best, a truly remarkable cough remedy. Take no chance then, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop package with others and note the difference. No poison marks there! You can always be on the safe side by demanding

Dr. Shoop's Cough Cure

"ALL DEALERS"

THE BUSINESS GIRL.

Don't Be Afraid of Undertaking New Ventures.

If you want to succeed you must dress the part. Don't be wasteful or extravagant in your dress, but keep yourself neat looking and well groomed. Don't go about with a slipshod, hanging air, as though you and success were as far apart as the poles. If you look helpless and incompetent no one will trust you with work of any kind.

When you apply for a post do so in a modest yet confident manner.

Business men are not looking for helpless, dependent femininity in their employees.

What they want is a well behaved, capable business woman.

Dress as well as you can afford to, but don't make the mistake of wearing beads and laces and elbow sleeves while on duty.

Many an applicant has failed to win a position because she was untidy or overdressed.

If you look capable, alert and interested, opportunities are sure to come your way.

When there is something important to be done your employer will say: "I will put it in the hands of Miss S. She looks trustworthy."

The first steps in the ladder of success are the most difficult ones to climb.

But nothing succeeds like success, you know, and when you have once made yourself known as a capable successful worker half the battle is won.

Don't be afraid of undertaking new ventures or of doing more than your share of the work.

Failure once or twice or half a dozen times does not mean failure for good and all.

These rules hold good with men as well as women.

THE CHINESE FARMER.

He Is Slovenly, Twisted and Bent and Queerly Clad.

The Chinese farmer gives the impression of a man whose life has been spent in downright hard work. There is not a single ounce of spare flesh upon him. His face and hands are of a dark brown color, tanned into them by exposure to the fiery faced sun of the orient and to the open air influence amid which his daily life is spent. His hands, unless he is still young, are gnarled and twisted out of shape by the constant grasping of his hoe, the one implement that to the Chinese farmer takes the place of the spade, only in a more extensive degree. He never stands erect. He bends a little forward, having a slight list to the left. This is due to his having to do all his own carrying work. The manure to fertilize his fields and the water to irrigate them when the rains are insufficient are both borne on the left shoulder of the sturdy farmer, and when the ripened crops are housed and the surplus is to be disposed of in the city miles away it is the same mode of conveyance that has again to be employed. Railroads and carts and wagons and beasts of burden are luxuries that are still beyond the reach of the farmers of this land.

The whole look of the man is that of a worker, and the very pose that his body has taken is but an attempt to ease the strain that severe labor is constantly putting on it. Unfortunately his dress does not add to his personal appearance. It consists of a loose coat, buttoned by a flap on one side and reaching to a little below the hips. The trousers are loose and baggy and extend to the knees. These and his usual clothing are made of cotton cloth, which is dyed with the universal blue that seems to have such a fascination for the working classes. As the weather grows colder others of the same kind and, where the purse will allow of it, wadded garments are added, but the legs and the feet even in the coldest weather remain uncovered excepting on very special occasions when etiquette demands that both shoes and stockings shall be worn.

The Chinese farmer further adds to his far from prepossessing appearance by his utter neglect of all habits of neatness. His head is shaved only at considerable intervals of time, and so the place that among the residents of the towns is clear shaved is covered with a thick bristly undergrowth of black hair that has a most untidy and slovenly look. His pigtail, instead of being plaited and combed smoothly, is allowed to grow at its own sweet will, and, following the instincts of nature that longs for freedom, it sends out straggling tufts here and there and so gives the wearer an unkempt and disorderly aspect.—John McGowan in North China News.

Life's Sorrows.

Bob (to Bessie)—It seems rather strange, Bessie, that when I didn't want to kiss you you didn't mind, but now that you are old enough to make me want to you won't let me.—New York Life.

VISITING YOUR FRIEND.

No Place Like Home, After All, So a Victim Believes.

Visiting has ever been a form of discomfort.

Your friend, who has a new home, a lately replenished library, a unique garden or something which represents money enough to make him vain in its possession, cannot rest until he has dragged you from a happy home to cater to this feeling of vanity.

As for yourself, you put it off as long as possible. Of course you want to go. The thought of not having been able to get to see him has, you assure him, filled you with perpetual gloom. But circumstances over which you have had no control have forbidden. All this you assert until the fatal moment arrives when you realize that no further subterfuge is possible, and, with many protestations of anticipatory delight, you start off.

Your friend meets you at the station with his auto. He explains its workings, its superiority over all others, as you proceed back. If it breaks down on the way, as is more than likely, he smiles brightly. Such a thing has never happened before. He knows, of course, what the cause was. He mentions it carelessly, thereby implying that it was of so little consequence that it was scarcely worth while to avoid it.

You arrive at his house. Filled with enthusiasm and reveling in a new victim, he proceeds forthwith to drag you over its weary length before you have had time to change your shoes.

"Fine room this!" he exclaims, with a burst of honest pride, and so on. By and by, when he is getting tired, his wife, like a relay pony, takes up the lecture where he leaves off.

So plastic are we that at the time by a sort of fictitious warmth you really seem to be enjoying yourself.

You exclaim in wonder over the fact that you have been so long in getting there. And when at last, a week later, you reluctantly leave you tell him, with tears in your eyes, that you had the time of our life.

It is only when once more you find yourself joyfully in your own humble apartments, with its faithful bed, whose very imperfections have endeared themselves to you, that you cry out in deep gladness, "Thank God it's over, for, after all, there's no place like home!"—T. L. Masson in Puck.

They Prayed Running.

Harry and Ethel were crossing a field on their return from Sunday school when they encountered a bull. At the animal's approach they fled in terror. Faster and faster they ran, yet nearer and nearer came the bull.

"We must pray," panted Harry.

"You do it," Ethel pleaded. "We'll kneel down right here."

"No; we'll pray running. You ought to do it. You're a girl."

"O Lord—O Lord—I can't!" sobbed Ethel. "You do it."

The proximity of the bull demanded immediate action, and Harry rose to the occasion. Loudly and fervently he prayed:

"O Lord, for what we are about to receive make us truly thankful!"—Success Magazine.

Trapped.

"I saw the cutest thing today," began Miss Passay coyly. "It was a painting of the—er—what is the name of that little god that represents matrimony?"

"Well, now," said Mr. Timmid, "you've got me."

"Oh, Mr. Timmid, this is so sudden!"—Philadelphia Press.

Ripping Times.

Gunner—Hot times out at the ball game. The players were slamming balls all the afternoon.

Guyer—And how about the bleacherites?

Gunner—Oh, they were slamming the umpire!—Chicago News.

Co-operating With Reform.

"Do you think racing will ever be stopped?"

"The trouble I have always had," replied the hard luck specialist, "is that the horses I bet on always want to stop."—Washington Star.

A RAISE IN MINING STOCK

ALLOTMENT SUBSCRIBED.

The requisite amount of stock has been subscribed and paid in full to enable the Company to proceed to allotment and commence business.

RAISE OF MINING STOCK.

THE GREAT NORTHERN LARDER LAKE MINING CO., Limited, proposes to advance price of their treasury stock to Twenty-five (25c.) cents on June 22nd. Last chance to buy at ten cents a share, par value One Dollar, fully paid up and non-assessable.

The foreman, Mr. David Foster, of Cobalt, has started to work on the Company's property with a gang of men to develop veins already discovered, also to continue striping in search of new gold veins.

We are erecting boarding houses and dining-rooms for our men.

READ COPY OF CERTIFICATE AND STATUTORY DECLARATION CONFIRMING SAME.

Toronto, March 20th, 1908.

To the Great Northern Larder Lake Mining Company, Limited:—

Gentlemen,—

I beg to confirm my previous report to you that in my judgment the surface showings on the 14 mining claims which the Company has acquired, being Nos. H.S. 221 to H. S. 234, both inclusive indicate the probability of the existence of large bodies of both high grade and low grade free-milling ore, sufficient to pay dividends for an indefinite period.

I have personally examined a number of veins and reefs on said property (consisting of about 640 acres) and had some assays made and from such examinations and assays I make this report.

The statement on pages nine and ten of the Prospectus giving the short history of the Company are correct. I insisted on retaining a large interest in the Company rather than sell for any price that seemed reasonable to the purchasers.

DAVID A. FOSTER,
Haileybury.

IN THE MATTER OF THE GREAT NORTHERN LARDER LAKE MINING CO., LTD.

Statutory Declaration.

DOMINION OF CANADA
County of York

TO WIT:

I, David Foster, of the town of Haileybury, in the district of Nipissing, miner, do solemnly declare that the statements in the annexed certificate are true. I have personally inspected all of the fourteen claims now transferred to the Great Northern Larder Lake Mining Company, Limited. I have taken samples containing gold values from said property, and from my personal examination, and from assays made, I believe the Company's property when developed, will prove very valuable. I have full confidence in the success of the said Company, and on this account, with the exception of $400 already received, I have agreed to accept stock in said Company, and a note which I believe will not be of much value should the actual development work not prove the said claims to contain gold in paying quantities as it is not payable for one year from this date or until after the Company shall have done the necessary development work on said claims. And I make this solemn declaration conscientiously believing it to be true and knowing that it is of the same force and effect as if made under oath, and by virtue of "The Canada Evidence Act."

DAVID A. FOSTER.

Declared before me at Toronto, in the County of York, this 21st day of March, 1908. J. T. LOFTUS, A. Commissioner in H. C. J.

PROPERTIES TRANSFERRED.

Since the prospectus was printed, the sale of the 14 mining claims to the Company has been completed and the transfers to the Company are registered in the Recorder's Office at Larder City. There is no mortgage or other encumbrance against said claims.

10c. PER SHARE.

Par Value One Dollar fully paid Up and Nonassessable.

OFFER IN PLAIN WORDS

ADVERTISE IN THE TIMES.

RAWHIDE-DULZURA

1 CENT A 2 SHARE

Send us your name as a member in this new company, with your remittance for as many thousand shares as you can take at $5 per thousand.

This is a short-time offer on a hurry-up proposition. Our vice president is up at Rawhide now putting the miners at work. We want to raise the necessary funds for development as quickly as possible. Therefore, we offer the first block of stock at $5 a thousand shares. This subscription must be all cash. We want the money in hand. We mean to work without letup, and we have made it an ironclad rule not to run in debt. Cash counts now.

Our prospectuses are out. Send for one.

Make reservation of stock, if you do no more. But, remember, this present offer of stock at Half a Cent a Share is now open, and will be closed as soon as enough cash subscriptions are in hand. Don't wait, or you will get left.

The gold mining property owned outright by the company consists of 7 claims, 5 in the Rawhide district of Nevada, and 2 in the Dulzura district of Southern California.

The Rawhide district to-day is more famous than Goldfield, Tonapah, Bullfrog, or Searchlight were at the same stage of exploration and development. The Dulzura discovery is one of the most sensational in the history of California.

Ten samples of ore which were among the first assayed, run as high as $7,461.87 to the ton, and all ten averaged over $1,600 a ton.

In both camps we located early, and our locations are choice. Our own officers will superintend the mining.

Clean Up Inside

Blood and System Cleansing in the Spring Makes Good Health all Summer.

In spite of all your careful habits, it is safe to say that in the spring you feel poorly—have a throbbing sensation in the head—skin is pale or yellow, with dark rings under the eyes. If not absolutely bilious the system is so full of bile that you feel heavy and tired all day long.

Clean up, work off the winter's accumulation of waste, purify your blood. Do this and you'll feel fresh as a prize-fighter. "For ten years," says W. B. Sangster, of Concord, "I suffered greatly from impure blood, which made me feel debilitated and unfit for work. I had no appetite suffered from indigestion and gas, had some pains in the back, caused by poor kidney action. Spring was the hardest time of all, and many a time I felt dependent and languid enough to throw up the sponge. I was impressed by the marvellous work done by Dr. Hamilton's Pills and tried them. They suited me exactly. In one week I felt like new. I was braced up, got rid of blood weakness, gained in flesh, got back my old time appearance and spirits. Dr. Hamilton's Pills will clean all the sickness out of a man in short order and I urge young and old to use this grand tonic medicine."

Dr. Hamilton's Pills are a perfect spring medicine; they destroy germs and poisons of every description and strength whereby the system rallies and the patient quickly enjoys the blessings of Perfect Health. Get Dr. Hamilton's Pills—to-day—25c at all dealers.

Beware of Ointments for Catarrh that contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Personal

—Mr. Jack Seymour is in the city from Midland.

—Misses Florrie and Ruby Burnham have gone to Stoney Lak.

—Mr. J. C. Smith of East Peterborough, was in the city yesterday.

—Evangelist H. G. Stephens of Toronto, spoke at Bethany Tabernacle last night.

—Mr. Joseph Irwin of the Post Office Department, Chicago, Ill., is in the city on a visit.

—Mr. W. A. Edwards left yesterday morning for a short visit to Bramford, Berlin, Galt and other western cities.

—Mrs. R. J. Kidd of Brandon, Man., is the guest of her mother, Mrs. Armstrong, Charlotte street.

—Miss Olive Couch of Toronto, is visiting her grandmother, Mrs. John King, 608 Bethune street.

—Mr. C. C. Nixon, editor of the Canadian Dairyman, Simcoe street, attended the Farmers' Institute excursion to Guelph yesterday.

—Mr. D. Hughes-Charles has returned home from Virginia, where he spent a pleasant holiday.

—Senator Cox, Mr. W. G. Morrow, the Misses Morrow and Miss Davidson arrived on the Adriatic at New York yesterday, and will be home today.

—Rev. Dr. Langfeldt has been appointed examiner in Modern Languages at Trinity College School, Port Hope, for the examinations to be held next week.

Piles are easily and quickly checked with Dr. Shoop's Magic Ointment. To prove it I will mail a small trial box as a convincing test. Simply address Dr. Shoop, Racine, Wis. I surely would not send it free unless I was certain that Dr. Shoop's Magic Ointment would stand the test. Remember it is made expressly and alone for swollen, painful, bleeding or itching piles, either external or internal. Large jar 50c. Sold by all dealers.

—Mr. Hague Sawers, of the Bank of Montreal, Portage la Prairie, arrived home Wednesday night for a three weeks' visit.

City Topics
IN SHORT FORM FOR BUSY READERS

—The City Council will hold a special meeting tonight.

—A special practice of the Salvation Army band will be held tonight.

—The 57th Band gave a concert at Jackson Park last night.

—The flooring on the Hunter St. bridge is being repaired.

—The Board of Directors of the Peterborough Industrial Fair met last night.

—A number of business places closed at noon yesterday.

—The Free Methodists of the Toronto district held the first of their 10-day camp meetings yesterday.

—A large crowd went down to Idyl Wyld yesterday afternoon on the steamer Otonabee.

—The Ontario Coal Company have installed a coal carrier in their sheds on the G.T.R. south of Wolfe street, and will have it in working order in a few days.

Late yesterday afternoon, a boy of thirteen, was badly shaken up as a result of a fall from his bicycle in front of Rich. Hall & Son's store. The lad was attempting to stop in front of the store, when something went wrong with the steering gear, and he ran into the curb, falling heavily to the ground.

Weak women should try Dr. Shoop's Night Cure. These soothing, healing, antiseptic suppositories go direct to the seat of these weaknesses. My "Book No. 4 For Women" contains many valuable hints to women, and it is free. Ask Dr. Shoop, Racine, Wis. to mail it. Ask the Doctor in strictest confidence, any questions you wish answered. Dr. Shoop's Night cure is sold by all dealers.

Up-to-date Souvenirs

Visitors to the city will find the best and most up-to-date assortment of souvenir articles at the Times Bookstore. All places of interest hand painted on Foley China, besides many other souvenier novelties. Desk room provided for those desiring to do their writing down town.

The Farmers' Excursion

Over 200 people of Peterborough and vicinity attended the Farmers' Excursion to Guelph yesterday. The party left on the G.T.R. train at 7 o'clock for Port Hope, arriving at Guelph about 1 o'clock. The party returned home late last night and reported that the excursion was a big success in every way.

Public Bible Class

"The Ten Commandments," will be the subject under discussion at the Public Bible Study Class in Gospel Hall tonight. First, What were they given for? Second, Are they still in force? Third, What part do they take in a man's salvation?

Mr. H. F. McKeown will open the subject dealing with the "Law,—Its Purpose and Effect," after which a free discussion will take place, in which all may join. An interesting time is looked for. All questions will be answered by reference to Scripture text.

The ST LAWRENCE SUGAR REFINING CO. Limited
MONTREAL

Galbraith Coal Co., Ltd.
Non-personal Liability

Capital, $250,000.00 1,000,000 Shares 25c. each.

Good coal stock is a safe and sure investment. Galbraith shares are especially attractive.

Modest Capitalization Large Coal Reserves

This Company organized under the laws of the Northwest Territorie of Canada, owns and operates the Galbraith mine located at Lanbrick, Alta. They have four vertical seams of coal traversing their property, aggregating over 40 feet in thickness. Three of these seams are developed to a depth of 350 feet, and as they pass through the Company's lands for nearly a mile, some idea of the amount of coal may be had.

Shipping Steadily

The present output of the mine is about 200 tons per day. These shipments will be rapidly increased, as the C.P.R. allows its cars to be loaded with coal for points in the U. S.

We are selling a limited number of these shares at the extremely low price of

30 CENTS PER SHARE

in blocks of 100 or over. Tight money in the States makes it possible for us to give this unprecedented offer in stock that will be paying dividends inside of six months, and you are sure to realize a handsome profit.

Parties ordering can send money by P. O. Orders, Express Orders or Bank Drafts, and we will have the stock issued direct to you. Full information furnished on request. Correspondence solicited. Reference, Bank of Montreal

MIGHTON & CAVANAUGH
Drawer 1082, Brokers. NELSON, B. C.

POLICE

Two young boys, 11 and 14 years of age respectively, were remanded until today by Magistrate Dumble in the police court yesterday afternoon on a charge of stealing a pocket book, containing about five dollars in bills from Wilfrid Smith, an employe of the Peterborough Cereal Company. The money was left in the pocket of Smith's coat while the latter was at work, and seeing the boys leaving the mill, some of the men became suspicious and detained them until P. C. McGinty arrived.

Jesse's Adventure.

Jesse, who is just learning to talk, always speaks of himself as "she." Not long since he ran in, trembling with excitement, and announced: "Oh, mamma, she tum to de hen-house, an' she see er ole hen, an' she shake her wing at she, an' she wum away."

Some Remarkable Guns.

At the siege of Rhodes the Turks constructed mortars by hollowing out cavities in the solid rock at the proper angle, and in the arsenal at Malta is a trophy of the long and glorious defence of Valetta, in a Turkish gun, about a six pounder, composed of a copper tube coiled over with strong rope and "jacketed" with rawhide. In the same collection are some antique "quick firers," breechloaders, with small bores and immensely long barrels, like punt guns. The Malay pirates put great trust in the long brass swivel guns called "lela," and in Borneo these lelas were used as a kind of currency, large sums being estimated in guns.

The Chinese cast excellent bronze guns (there is a fine specimen of them in Devonport dockyard), but so little did they understand gunnery that in the so called "opium war" the forts of the Bocca Tigris, defending the Canton river, had the guns built immovably into the walls. The Sikh gunners opposed to us in the two Punjab wars, though they loaded with amazing recklessness, shoveling in the powder from open boxes, stuck to their guns to the last. The blood of the first man killed was smeared on the gun, and the whole detachment died beside it sooner than retreat.—Chambers' Journal.

Built Up

Right Food Gives Strength and Brain Power

The natural elements of wheat and barley, including the phosphate of potash, are found in Grape-Nuts, and that is why persons who are run down from improper food pick up rapidly on Grape-Nuts.

"My system was run down by excessive night work," writes a N.Y. man, "in spite of a liberal supply of ordinary food.

"After using Grape-Nuts I noticed improvement at once, in strength, and nerve and brain power.

"This food seemed to life me up and stay with me for better exertion, with less fatigue. My weight increased 20 lbs. with vigor and comfort in proportion.

"When traveling I always carry the food with me to insure having it."

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs.

Young and Handsome Women Performers

Wherever the Cole Brothers' Shows have exhibited press and public have been a unit in praising the work of the exceedingly large number of young and handsome women performers. Brides of the fair sex are represented among the riders, serpentista, contortionists, jugglers, high-wire artists, gymnasts, bicyclists, clowns, animal trainers, chariot drivers and in fact even among the ring masters. As may naturally be expected keen rivalry exists between the lady and gentlemen artists, a fact which greatly enhances their performances. The lengthy imperial program, presented this year by these shows contains only the best and most modern features that money and labor can procure and in such quantity and variety as to satisfy every artistic taste and fancy. Lack of space prevents an enumeration of all the different acts, many of which must be seen to be appreciated. There is an extended list, the last of which does not by any means end the pleasures which the Cole Brothers' shows will provide patrons on Thursday, 17th instant, afternoon and evening in this city.

There are the sports of ancient Rome and modern fete day races and contests. Then the big triple menageries form a zoological display without a peer in all the world. Next is Cole Brothers' marvelous museum in which are exhibited a myriad of human and animal freaks and other attractions. Thus it will be seen that there is a royal holiday feast in store for all who attend this mighty amusement exposition.

OXYDONOR

It applies to all cases, no matter what the form of disease may be. It revitalizes the human body with OXYGEN from the air. OXYGEN is a vital Necessity—the greatest necessity life knows.

You can apply Oxydonor at home while you rest or sleep. No loss of time from your work or business. It is easily applied, safe, and always ready for use. Its force never exhausts. It will serve the family, children as well as adults.

Mr. Wm. Beers, 196 York St., Toronto writes: "I have great pleasure in recommending your Oxydonor. When I first got the instrument I was suffering from Sciatica for about four months, and after applying it for five weeks it left me all at once and have not been troubled with it since. I can highly recommend it as a good family doctor, and would not be without it for double the price.

VOL. XXXVI. NO. 138 PETERBOROUGH, ONTARIO SATURDAY JUNE 13, 1908 PRICE TWO CENTS

K. C.'s Have to Join at Lindsay or Peterborough

Toronto, June 12.—The priests of London diocese gave an official farewell to Rev. F. P. McEvoy, D.D., the newly-appointed Archbishop of Toronto, yesterday. His Grace will remain in London over Sunday, however, arriving here Tuesday for the installation at St. Michael's Cathedral the following day.

A great crush of people is anticipated for the event, and to prevent too great a crowd being present within the edifice invitation cards have been sent out to a number of people. These will be admitted by a private door, and if the number is not sufficient to fill the cathedral the doors will be thrown open to the public.

HIS GRACE'S SECRETARY.

Rev. J. T. Kidd, pastor of Petrolia, has been appointed Archbishop McEvoy's secretary. His duties will be confined to the secretaryship only, and he will have nothing to do with the regimen of Our Lady of Lourdes parish, of which Rev. J. M. Cruse will remain pastor.

A question of some concern to a number of clergy and laymen is what policy his grace will pursue with reference to the Knights of Columbus. The K. C.'s the strongest Catholic organization in the United States, and already in Canada has gained quite a foothold. Not a few of the clergy and laity belong to this order, but to do so they had to join at Lindsay or Peterborough, owing to the opposition of Archbishop O'Connor, who steadfastly refused to allow a branch to be established in Toronto. What policy the new Archbishop will pursue is not known.

Gravesend Ring is First to Close Under New Law

CLOSE GRAVESEND RING.

New York, June 12.—The betting ring at the Gravesend track was ordered closed today by the Jockey Club.

Albany, N.Y., June 12.—In a letter today, addressed to the various sheriffs in the State, Governor Hughes calls upon these officials to see that the provisions of the Agnew-Hart anti-race-track gambling laws are enforced.

New York, June 12.—That the new law prohibiting betting at the race tracks will be enforced today was indicated by an announcement by Police Commissioner Bingham that he had ordered two deputy commissioners and an inspector to take a large number of police to the Gravesend track to prevent betting on the races.

The anti-racing bills passed yesterday at Albany by the Senate of the State of New York, and subsequently signed by Governor Hughes, practically means the abolition of horse racing throughout the State, both the runners and the harness horses being affected by the passage of measures.

There were two bills passed yesterday. One of them repeals the Percy-Gray law, under which racing was conducted in New York State. The other amends the Penal Code by making betting on race tracks a misdemeanor, punishable by a year's imprisonment.

The new law takes effect immediately, and, hereafter it is a misdemeanor to gamble, and upon conviction one may be sentenced to jail or penitentiary or a period not exceeding one hour. A fine is also permitted. Imprisonment must follow conviction.

Up to the time Governor Hughes signed the new bills, betting on a race track in New York State was punishable under the law only by the participant suing in a civil action for recovery of the amount he wagered. All other gambling was a felony. The new laws in effect, change the grade of crime of all gambling from felony to a misdemeanor, and now any form of gambling is a misdemeanor, punishable by not more than a year's imprisonment.

With betting prohibited, the turf authorities of New York State—which is the hub of United States racing—declare that racing cannot exist, and that the tracks will be compelled to close the gates to the public. This will affect the following running tracks: Sheepshead Bay, Belmont Park, Gravesend, Aqueduct, Empire City, Saratoga, Brighton Beach, Jamaica, Kenilworth Park (Buffalo).

The new law will also prohibit betting, and therefore, harness racing at all the fall fairs throughout New York State, and the hundreds of harness meetings held within the jurisdiction.

However, the racing interests declare they will not give up without a fight. They will take the case to the courts to have the legality of several points decided. It is claimed that the new law is unconstitutional, and that the punishment provided for an infraction of the law is inhuman and cruel, and contrary to the principles of the constitution of the United States.

Much curiosity is evinced in the immediate course of events. Canadians are naturally very much interested in the outcome, owing to our proximity to New York State. All our celebrated breeders and owners such as Mr. Seagram, Mr. Hendrie, Mr. Beck, Mr. Mackenzie, and Mr. McLennan, race their horses in the Empire State, after their engagements in Canada are fulfilled, while thousands of Canadians follow the fortunes of the thoroughbreds in competition for the big purses hung up on the Metropolitan tracks.

Lookmaster Found Dead in Buggy

Rosedale, June 12.—Mr. Wm. McIntosh, postmaster, lockmaster and bridge-tender at Rosedale, was found dead in his buggy about 10.30 yesterday morning, opposite the residence of Mr. Geo. Gale, about half a mile from his own home. His colt had got out of pasture and he had procured Mr. Gale's horse and buggy to go back and look for the animal. A whip was found on the roadside about half a mile from Mr. Gale's, which indicated about where Mr. McIntosh had been overcome by the attack. The horse had apparently walked the rest of the way home without guidance.

A boy coming down to the well for water noticed the condition of affairs and called Mr. Gale on from the fields.

The deceased was a brother of Mrs. W. J. Doughty, Smith street, city.

Home Treatment for Skin Disease

The recent discovery that the drug citrox is a cure for eczema, tetter, salt rheum and other skin diseases has been of unestimable value to those suffering from all forms of skin diseases. The treatment is simple indeed—as is generally is when the right remedy is at last discovered. Purchase a small sealed package of pure citrox. Just as it comes from the chemical works. Citrox sold in bulk is not intended for medicinal use.

Dissolve a teaspoonful of citrox in two tablespoonfuls of warm water and bathe the affected skin twice daily, using a fresh solution each time for the treatment.

The discovery that citrox would cure skin diseases is claimed by several scientists. But in all probability Dr. J. E. Currier, of London, England is the person to whom the credit of the discovery should be given. As it is with most important discoveries, there are many ready to claim the credit now that citrox is proving of such value.

57th Band will Play at Toronto Exhibition

Bandmaster Gliddon of the 57th Regiment Band, received word yesterday from Manager Orr, of the Toronto Exhibition, stating that the band was requested to play at the Toronto Fair on September 8th and 9th. Thirty musicians will be taken besides the bandmaster, Mr. Gliddon.

NINE MEN KILLED BY EXPLOSION--CRUSHED TO DEATH BY ROCK

Deep Charge of Dynamite Went Off, Hurling Rock on Men in Cut—Wives of Dead Men are on the Ocean

Kenora, June 12.—Nine men were killed and two injured in a dynamite explosion at Simmons' sub-contract on the Government half of the transcont ental line, two miles east of Winnipeg River crossing, late yesterday afternoon.

The nine men were engaged mucking at the bottom of a large cut, and the two men injured were loading a deep hole with dynamite at the top.

ROCK FELL ON DOOMED NINE.

The dynamite exploded from the bottom and shot out masses of rock upon the unfortunate men in the cut, killing and crushing them in a fearful manner.

The names of the injured are: G. Shorton and A. McDonald.

The names of the dead cannot be obtained till late this afternoon.

M'ARTHUR HAD CONTRACT.

Ottawa, June 12.—J. D. McArthur has the contract west of the Winnipeg River, but the work is divided among a number of sub-contractors. The Transcontinental Commissioner has no word of the accident.

WIVES OF DEAD MEN ARE ON THE OCEAN.

Winnipeg, June 12.—Yesterday's explosion occurred at Chambers', McQuigg, and McCafferty's camp. Foreman Simons and another man were charging two fresh holes when suddenly, without apparent cause, they exploded.

Two of the men killed were Englishmen, the others were Swedes. The calamity points to some new explosive element contained in mineralized rocks, as the men in charge were most experienced. Foreman Simons had gone for another box of dynamite at the time of the accident.

A sad feature of the accident is that the wives of the two Englishmen killed are on the ocean en route to Canada to join their husbands.

In the Realm of Sport

BASEBALL.

Games played in the three big ball leagues yesterday, resulted as follows:

EASTERN

Montreal 7, Toronto 2
Buffalo 5, Rochester 1.
Providence 6, Newark 1.
Jersey City 2, Baltimore 8

NATIONAL

Pittsburg 4, New York 0.
Cincinnati 6, Brooklyn 1
Chicago 7, Brooklyn 1.
St. Louis 4, Philadelphia 2

AMERICAN

Washington 4, St. Louis 1
Philadelphia 1, Chicago 3
New York 1, Detroit 2
Boston 0, Cleveland 3.

THE TURF.

Racing results at Hamilton and Montreal yesterday are as follows:

Hamilton.

First.
1. Bill Heron, 7—2.
2. Estelle, 2—1, place.
3 Inspector Purvis, 20—1, out.

Second
1. Canuck Maid, 2—1.
2. Shamonex, 3—1 place
3. Caper Sauce, 3—2

Third.
1. Miss Image, even.
2. Patriot, 12—1
3. Law. Millar, 4—1.

Fourth.
1. Pleasa.
2. Night Mist, 3—2 place.
3 Her Johnson, 8—1 out.

Fifth.
1. Redondo, 2—1.
2. Maid Carroll, 15—1 place
3 Helen Virginia, 10—1

Montreal.

First.
1. Ragman, 2—1.
2. Gay King, 5—1 place.
3. Al. Busch, to show.

Second
1. St. Blaro, 6—5.
2. Gibson, 8—1, place.
3 Lady Isabel, 2—3

Third
1. Gold Heart, even
2. Cruche d'Or, 4—1.
3. Gally Ding, 12—1

Fourth.
1. Firefly, 9—5.
2. Butwell, 9—5 place.
3. Laurel Wood, 9—5, out.

Fifth.
1. Greek, even
2. Spoon, 4—5 place.
3. Niblick, 20—1, out.

Pimples and Boils

HEALED BY ZAM-BUK.

Mrs. Albert Gobeike of 485 Amherst street, Montreal, says:—"My three-year-old girl Annie suffered intensely since birth from scalp disease, and we could not get rid of this irritating disease. On March 19th, 1908, someone recommended my husband (who is elevator man at the Canary Co.) to try Zam-Buk Balm and Zam-Buk Medicinal Soap. From commencing to use these remedies we saw an improvement and after nine days treatment the child was cured completely."

No home should be without Zam-Buk. It is Nature's skin remedy and without equal as a healing balm. All druggists and stores, 50 cents a box.

Union Excursion of Woodmen of the World

The head executive of the Woodmen of the World, will again meet in Peterborough, this time on June 24th. In order to give the brethren of this district an opportunity to meet the executive, a union excursion is being arranged to enable the members from Lindsay, Port Hope, Campbellford and Omemee to meet the distinguished guests in the city on the above date, when the excursionists will join in a trip to Idyl Wyld per steamer Otonabee, when a fraternal powwow will take place. Sovereign D. Cunnamin of Lindsay, Head Advisor of the Order, passed through the city today on his way to Campbellford to make arrangements for the excursion from that section.

Will be Chief Inspector in Lindsay

—Mr. W. Welbourne leaves for Lindsay on Monday, where he has accepted a position as chief inspector with the Bell Telephone Co. there. "Bill" will be greatly missed here as he was a great favorite with the boys around the office. Here's wishing him success in his new position.

No Fire Chief was Appointed Last Night

And the new fire chief has not yet been appointed. And an appointment at the best will likely be made before Monday night, when the City Council will meet in special session.

A meeting of the council was called for last night to discuss the fire hall question, but it did not materialize. It is understood that six applications for the position have been received.

Will Cobourg's Nine be an Eastern League Outfit?

(Special to The Times)

Cobourg, June 12.—With one of the strongest line-ups that ever represented this town, Cobourg ball team will leave here early tomorrow morning for their game with the undefeated Peterboroughs at Peterborough tomorrow afternoon. The management are confident that they can beat the "Petes."

Excitement is at a fever heat over the splendid showing made by the locals against the crack Peterborough team, and the backers of the local team, are leaving no stone unturned that will help to procure a victory tomorrow.

A number of Americans who are summering at Cobourg, are producing the necessary funds to bring in Eastern League players for the game. Negotiations are also under way to procure that crack Canadian twirler, Fred Hekky of Toronto, to do the slab work for the locals. Hekky has a great record this season, having yet to lose a game.

If Hekky can not be secured, the Cobourg battery will be made up of big league material, and will have several other Eastern League men to support them.

So confident are the local followers of the game, that this team will win, there will be a large crowd of fans go along to see the game in the Electric City, and will have a bank roll with them to say their team will do the trick.

Jimmy Reynolds Gave Up the Walk After Going 115 Miles

REYNOLD'S LAST TRIP.

Left Toronto (return), 11.05 p.m
Half Way House, 1.15 a.m.
Whitby, 94 miles, 8.05 a.m.
Oshawa, 98 1-2 miles, 9.19 a.m.
Bowmanville, 109 miles, 12.00 a.m.
Newcastle, 114 miles, 1.42 p.m.
Port Hope, 132 miles, 6.21 p.m.

REYNOLD'S TIME TODAY

Left Toronto, 11.10 p.m.
Oshawa, 7.56 a.m.
Bowmanville, 10.20 a.m.
Newcastle, 11.43 a.m.

CAN HARDLY WIN.

Newcastle, June 12.—Reynolds left here at 11.43. He had 3 hours and 17 minutes to do 18 miles. He can hardly go at that gait at the end of his long journey.

FEET WERE PRETTY BAD.

Newcastle, June 12.—James Reynolds, the walking barber, quit on his long journey about one mile east of here today. He had walked up the long hill known as Figg's Hill, and extending quite a mile, splendidly. At the top he rested on account of pain in his feet. When he found out the late hour, he gave in to the wish of his trainers and stopped, as the hour was then too late for any hope of eventual success. His feet were very badly blistered, and he is so severely pained that it is probable he will lose several toe nails. Outside of this he is in excellent shape and talked with his trainers and friends all the way to Newcastle.

SICKNESS BEAT HIM.

Mr. Hazlewood, his chief trainer, gave it as his opinion that had it not been for the sickness of the stomach which overcame him yesterday between Bowmanville and Oshawa, he would, without doubt, have finished within the requisite 33 hours.

Busy Time for the Baseball Enthusiasts Today

GAMES TODAY.

Midland Leagues.
Cobourg at Peterborough.
Athletics at Port Hope.

City League.
Strathcona vs. West Ends
Wellingtons vs. T.A.S.

Baseball will reign as king of sports in Peterborough this afternoon. There is the big Midland League game at Riverside Park, and two good city league games on the Oval at 2 and 4 p.m., besides many a corner lot game between the small boys of the city.

The big fixture of the day is between Cobourg and the Petes, and it should prove one of the best games seen here this season. The Lake Shore aggregation will be here with a ten per cent. better team than that which they had on last Saturday, when after a red hot struggle the Petes won out by 7—6. The visitors have signed a big league twirler especially for the game, and are coming up determined to smash the unbroken string of 11 victories, which Manager Johnston's aggregation have to their credit.

The boosters will also be exceptionally strong for the game, they having played three winning games already this week. Outfielder O'Brien who will be out of the game today, with a very sore ankle, will however be on the coaching line and the fans are assured of an hour and a half's fun any old time that "Frazz" and "Don" Murphy get their extensive vocabulary of baseball talk in working order. Clements, who is pitching great ball now will be on the slab for the locals, and "Jerry" Edmunds will catch him. Lawson will be at first, McDermitt at the second sack, Maddocks will be at short, "Reddy" Cheatham at third, and Carney Burns, Murphy and Thorne will make up the outfield.

The Cobourg line up will be as follows.

Turpie, lb
Floyd, c,
Bentley, ss.
Wiesburg, 3b
Farnum, p.
King, lf.
Bulger, 2b.
Burge, cf.
Harcourt, rf.

The game will be called at 3 o'clock sharp, with J. M. Rowe at umpiring. The new grandstand will be ready for the occasion, and the promises to be an immense crowd of fans on hand for the biggest game of the season.

Two good games are down for decision in the city league. The first first game will start at 2 o'clock, and will bring together the Strathconas and West Ends. There is very little to choose from between the teams, as they are both pretty well matched. The advantage of any goes to the Orphans, who have been playing great ball all summer. But which ever way it goes, the game should be good one.

The second contest will be between the Wellingtons and T.A.S. On form the "Abstainers" look to be the best, but the "Dukes" have been improving each time out, and are about due to win. This game will start immediately after the Strathcona-West End game is finished.

The Badge of Honesty

Is on every wrapper of Doctor Pierce's Golden Medical Discovery because a full list of the ingredients composing it is printed there in plain English. Forty years of experience has proven its superior worth as a blood purifier and invigorating tonic for the cure of stomach disorders and all liver ills. It builds up the run-down system as no other tonic can in which alcohol is used. The active medicinal principles of native roots such as Golden Seal and Queen's root, Stone and Mandrake root, Bloodroot and Black Cherrybark are extracted and preserved by the use of chemically pure, triple-refined glycerine. Send to Dr. R. V. Pierce at Buffalo, N. Y., for *free* booklet which quotes extracts from well-recognized medical authorities such as Drs. Barthlow, King, Scudder, Coe, Ellingwood and a host of others, showing that these roots can be depended upon for their curative action in all weak states of the stomach, accompanied by indigestion or dyspepsia, as well as in all bilious or liver complaints and in all "wasting diseases" where there is loss of flesh and gradual running down of the strength and system.

The "Golden Medical Discovery" makes rich, pure blood and so invigorates and regulates the stomach, liver and bowels, and, through them, the whole system. Thus all skin affections, blotches, pimples and eruptions as well as scrofulous swellings and old open running sores or ulcers are cured and healed. In treating old running sores, or ulcers, it is well to insure their healing to apply to them Dr. Pierce's All-Healing Salve. If your druggist don't happen to have this Salve in stock, send fifty-four cents in postage stamps to Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and a large box of the "All-Healing Salve" will reach you by return post.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic, medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

One of the Reasons for Increasing I.O.F. Rates--Receipts from old Members $400,000 Behind 1907 Claims

Year.	Membership.	Insurance in Force.
1904	225,876	$242,896,000
1905	233,293	$248,801,000
1906	246,736	$258,895,000
1907	257,267	$261,969,142

And in June, 1908, the membership of the Independent Order of Foresters has reached nearly 265,000.

Enormous as is the membership of the Order, it stretches over Canada and the United States, England, Scotland and Ireland, and even in Australia, where the cost of carrying on business made it unprofitable and forced an abandonment of the field, there are still nearly 1,300 members in good standing.

The membership, according to countries was as follows at the end of last December:

Canada	91,868
United States	152,642
Newfoundland	134
Great Britain	9,151
Australia	1,298
Other countries	469

The increase was over 11,000 for the year.

With such a membership it is not surprising that an intense interest is being taken in the proposal of the executive to increase the rates for them. 265,000 members in 110,000 are vitally affected, all those who joined prior to 1899.

ACCUMULATIONS FALL BEHIND

They are face to face with much higher rates or a large cut in the amount of their policy payable at death.

But the actuaries have been at work, and they have found that the total payments made by the "old members" in 1907 fell short of the total disbursements for death and maturity by $400,000.

Not only so, but the annual accumulation of funds, which has now reached $11,000,000, will soon cease entirely owing to the increasing death rate among the old members. In 1905 the surplus amounted to $1,175,000; in 1906 it was $1,164,500, and in 1907 only $1,029,262—a decrease of $145,000 in two years.

THE NEW SCHEDULE

That is the situation that faces the management and the policyholders.

If the rates are increased, they will be in many cases doubled and even quadrupled. At 28 years of age the old rate was 80 cents per $1000 per month; the new will be 82c, 85c or 90c, according to the year of entry, being 1898, 1895 or 1891.

Age.	Old rate.	New rate.
25	$ .65	$1.05 to $1.22
30	.72	1.32 to 1.61
35	.78	1.65 to 2.35
40	.88	2.15 to 2.92
50 (1881)	1.45	3.32
50 (1891)	2.50	3.20
50 (1895)	2.50	3.13

But if the old member continues to pay his present rate the amount of the policy will be reduced anywhere from $1,000 to $500.

If he was 20 when he entered he would receive only $789; at 30, $632, a drop of $368; at 40, only $524, a drop of $476, and if he entered at 50, and before 1891, he would receive only $500.

Objection is made by Mr. Stevenson to increasing the new members' rates, as they were all raised in 1899. They are as follows: At 18, 70 cents; at 30, $1.14; at 40, $1.68; at 50, $2.90 per $1,000.

A committee of twenty-five delegates is meeting to consider the readjustment of rates, and the plan of the executive may be altered before it comes before the Supreme Court at Toronto.

Obituary

Of a particularly sad nature was the death of Miss Thos. Guerin yesterday morning, at the family residence, 28 Lafayette avenue. The deceased has been ill but a short time, but death resulted from pneumonia after a brief struggle. The deceased, whose maiden name was Josephine McKenzie, was twenty-two years of age.

The management of the Frankford, Ont., Gun Club yesterday afternoon telephoned to Manager Johnstone of the Petes, asking for the loan of a pitcher for their game with Wellington this afternoon.

A Plot Revealed to Kill King Edward

London, Friday, June 5.—It was not to be expected that the journey of the Czar to Reval to meet King Edward would pass off without a story of a plot, and this is now duly provided by the Daily Express, according to which his majesty only escaped assassination by the refusal of the woman appointed to do the deed. The paper says she is a local school teacher, who joined the Revolutionists a long time ago, but afterwards withdrew from active work in connection with the organization. The Revolutionists, however, learning that nobody would be admitted to the station at Reval on the occasion of the Czar's arrival except school children and teachers, called upon the aforesaid teacher, to prove her loyalty to the cause by assassinating the Czar with a bomb. Rather than comply, she committed suicide by throwing herself in front of a train two days before the Czar's arrival. She was buried at Reval yesterday in the presence of hundreds of school children, with whom she was very popular, and a few teachers and townsfolk who were aware of her story.

General Servant Wanted

A good general servant wanted. No children, and every modern convenience. Apply box 100, Times office.

Absolutely Pure
From Grapes, the most healthful of fruits, comes the chief ingredient of
ROYAL BAKING POWDER
The only baking powder made from Royal Grape Cream of Tartar
ROYAL
BAKING POWDER
Costs a little more than the injurious alum or phosphate of lime powders, but with Royal you are sure of pure, healthful food.

LOW SPRING FEVER

Doctors Report Many Cases.

Same thing happens every year. At winter's close the body is weak and run down. Damp spring weather brings out rheumatic tendencies, exhausts vitality, and simply demands everyone to use a bracing, strengthening tonic.

Time wont help; matters grow worse instead of better if your system isn't rid of its poisonous burden.

Your blood is not only thin, but is contaminated with a whole winter's accumulation of wastes.

A stimulating blood tonic is required.

What's it going to be?

Not bitters or alcoholic dope, but concentrated cure in the form of "Ferrozone" which is known as the best of all spring rejuvenators.

It creates keen appetite.

Produces prodigious digestion.

Converts food into nourishment.

Gives richness and vitality to the blood.

Makes strong nerves and hardy muscles.

Ferrozone possesses power that can't be doubted. It will do for you what it did for Walter Wood, of Beaufort, Car. Co., N. B., who writes: "I can say that Ferrozone has given me a new lease of life. A year ago I suffered much from nervous weakness. I was really miserably able to drag myself around. My appetite was gone, I had no color or ambition and felt generally used up. The first box of Ferrozone started me back to health. I took a number of boxes, but it was worth while as my health was completely restored.

Get back to health with *Ferrozone*, six boxes for $2.50, or 50c per box at all druggists.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

Kansas Wants Help

Wichita, Kan., June 10.—As a result of the recent call for help in harvesting the Kansas wheat crop, men are flocking into southern Kansas in droves and it is likely that the farmers will have plenty of assistance in saving the crop. Harvesting in southern Kansas and northern Oklahoma will probably begin in earnest next week, and the harvest hands will gradually work northward. In central and western Kansas the harvesting will begin about the middle of the month, and in northern Kansas and Nebraska the waving fields will begin to fall before the reapers early in July. The gathering of the harvest clans is highly picturesque, as usual, and includes men in all walks of life, from the hobo who is impressed into service to the college student who is "out for a lark" or who "needs the money".

News in Brief

By the Royal Mail Steam Packet Company's new steamer Asturias, on her first voyage from Australia, there was an experimental shipment of West Australian grapes. These were immediately sold by Messrs. Keeling and Hunt, and realized excellent prices. It is understood that the successful importation is of great interest to the other Australian colonies and to the Cape of Good Hope.

Lambeth Guardians at their recent meeting received a report that the Dowager Countess of Shrewsbury has just completed thirty years' work amongst the poor of Lambeth, the Count as being a member of the Ladies' Committee of the Board. The Board passed a vot of thanks to the Count ss for her useful services, and expressed the hope that she may long be spared to continue her beneficent labors.

Great Bend, Kan., June 6.—To spread the glad things of atheism throughout the civilized world is the object of the founders of the Church of Humanity, who will begin their first general assembly here on Sunday, June 7. Delegates from various parts of the country arrived today and while the convention will be small in numbers, every part of the United States, from New York, to California, will have representation. A permanent organization will be effected and plans made for propaganda which is expected eventually to extend throughout the world.

That all deities and devils, Christian and pagan, are myths, immortality a fable and death the end of conscious life is the basic creed of the new church. Neither do the founders present these statements as theories but declare that they are proven facts, capable of scientific demonstration. While there have been national organizations of freethinkers in this country this is the first attempt to found a national society along purely atheistic lines, as all previous organizations have been composed largely of agnostics, deists, pantheists and spiritualists. Voltaire, Paine and Ingersoll, the patron saints of all former freethinking societies, have been discarded as false leaders and hopelessly behind the times through their lack of the knowledge now revealed that "God is a myth like Santa Claus."

W. H. Kerr, a wealthy retired farmer of this city, is the principal spirit.

Miss Maud Allan, the popular dancer at the Palace Theatre, before famous the world over by her wonderful to appear at a "Tziganie" matinee at the Prince of Wales theatre, Birmingham, in the old tongue. Immediately her portion of the entertainment was finished, Miss Allan left for London in a special restaurant car for the Palace. The artists afterwards went on to Edmonton, given by the Earl and Countess of Dudley, and submitted a lengthy series of classical dances to the King and Queen, who were honoring the party.

London, June 11.—With the object of placing Mr. Chas. Fenwick, M.P., on a more equal footing with the other miners' representatives in Parliament, the Northumberland Miners' Council has decided to provide the member for Wansbeck with a free house and free coal supply from the labor funds.

WHAT IS MORE BEAUTIFUL THAN MOTHER LOVE?

A mother's worries are many. She sometimes forgets her own bodily discomforts because of her overpowering love for the child. She becomes broken down, sleepless, nervous, irritable and feels tired from morning until night. Many mothers of experience can tell you that at such a time they have been relieved, benefited and strengthened and put into proper health by taking a prescription which their mothers had told them was the only woman's tonic to be taken at such times. Dr. Pierce's Favorite Prescription has enjoyed an enviable reputation for over a third of a century. In all that time it has sold more largely in the United States than any other tonic for woman's needs, and today its sales are greater than ever.

In favor of Dr. Pierce's medicines is the frank, confiding, open, honest statement of their full composition, giving every ingredient in plain *English*, without fear of successful criticism and with confidence that the good sense of the afflicted will lead them to appreciate this honorable manner of counting to them what they are taking into their stomachs when making use of these medicines.

ALCOHOLIC TONICS.

A great many women feeling the need of a tonic take a concoction which is what is just as bad, some widely advertised compound, containing a large percentage of alcohol. Doctor Pierce's medicines are guaranteed to be entirely free from alcohol or narcotics—many of roots which cannot harm the most delicate system but have a wholesome, life-giving, tonic-effect upon the system. Tonics made largely of alcohol interfere with the digestion of certain foods, and as does increase the alcohol absorbed gets into the blood and shrinks the red blood corpuscles. As the blood feeds the nerves the nerves get imperfect nourishment and the mother becomes nervous. As the nerves suffer so does the skin.

Better look to a health-giving tonic that has in the past third of a century sold more widely than any other.

OPEN AS THE DAY.

What Dr. Pierce's Favorite Prescription is made of. Its ingredients are: Golden Seal root, Lady's Slipper root, Black Cohosh root, Unicorn root, Blue Cohosh root, Chemically Pure Glycerine.

Hobart A. Hare, M. D., University of Pa., says of Golden Seal—"Good in all catarrhal conditions, as uterine catarrh, leucorrhœa, etc." Prof. John King in the American Dispensatory says of Black Cohosh root—another important ingredient in "Favorite Prescription:" "By its special affinity for the female organs, it is an efficient agent in suppression, in dysmenorrhœa it is *surpassed by no other drug*, being of greatest utility in irritative and congestive conditions of the appendages, characterized by dragging pains, etc."

Prof. King says of Unicorn root, "have found this plant to possess a decidedly beneficial influence in cases of lassitude with weakness or dull pain in the renal, or lumbo-sacral (small of the back) region. It is one of our most valuable agents, acting as a uterine tonic, and gradually removing abnormal conditions, while at the same time it imparts tone and vigor to the reproductive organs. Hence, it is much used in *leucorrhœa, amenorrhœa, dysmenorrhœa.*

A PARTICULAR PHASE

Removed by it is the irritability and despondency that often attends these troubles. In those cases in which there is pelvic fullness, the aching, bearing-down organs feel *as if they would fall out of the body.* Its action here is very decided."

Dr. Pierce's Pleasant Pellets cure biliousness, sick and bilious headache, dizziness, costiveness, or constipation of the bowels, loss of appetite, coated tongue, sour stomach, windy belchings, "heartburn," pain and distress after eating, and kindred derangements of the liver, stomach and bowels.

Persons subjected to any of these troubles should never be without a vial of the "Pleasant Pellets" at hand. In proof of their superior excellence it can truthfully be said that they are always adopted as a household remedy after the first trial.

One little "Pellet" is a laxative, two are cathartic. They regulate, invigorate and cleanse the liver, stomach and bowels. As a "dinner pill," to promote digestion, take one each day. To relieve the distress arising from overeating, nothing equals one of these little "Pellets." They're tiny, sugar-coated, anti-bilious granules, scarcely larger than mustard seeds.

Dr. Pierce's Common Sense Medical Adviser will be sent free, paper bound, for 21 one-cent stamps, or cloth-bound for 50 stamps. Over 1000 pages and illustrated. Address Dr. R. V. Pierce, Buffalo, N. Y.

SECURITY—The Entire Property and Improvements Owned THE URES CONSOLIDATED MINING COMPANY in the District of Ures, State of Sonora Mexico, Free from Mortgage or Bonded Indebtedness except this present Bond issue.

An Unusual Opportunity for Investment in Sound Security

The Ures Consolidated Mining Company offers $100,000.00 of First Mortgage Gold Bonds. This issue of bonds is the only mortgage or bonded indebtedness ever placed on the company's properties.

These bonds are in the denomination of $100.00, and bear interest at the rate of 7 per cent. per annum, payable semi-annually, July and January, and are redeemable on or before five years from date at the company's option at $110.00 and accrued interest.

$100.00 Stock Bonus Given with Every $100.00 Bond

With each bond issued there will be given $100.00 par value of the capital stock of the company as a bonus, and in addition thereto there will be placed in escrow with the Trustee additional stock which will be available to the bondholders at their option any time within a period of three years, the bondholder being entitled to surrender his bond any time within said period and receive in lieu thereof stock for every dollar of indebtedness to him on account of said bonds.

The Security Back of these Bonds

The company owns twelve claims situated in the district of Ures, State of Sonora, Mexico, free from mortgage or bonded indebtedness, except the present bond issue.

On one of these properties (The Ramona Mine) 6,000 feet of underground development work has been done, consisting of an inclined shaft to the depth of 400 feet with drifts in three levels to the North and South of the shaft.

An average value of ore worth $11.47 per ton is exposed throughout the mine, from the collar of the shaft to the extreme parts in the drifts, all of which is above water level.

The company has made surface improvements and mine improvements to the extent of $60,000.00 in the way of machinery, skids, trams, steam hoists, mill and nearly everything necessary to make the mining camp complete.

In addition to the absolute ownership of these twelve valuable claims, the company has a lease on the San Jose Mine, adjoining its property, in which the company has been operating in high grade ore.

During the past sixty days the company has extracted and delivered to ore buyers and the bank at Hermosillo, $4,000.00 worth of ore and bullion, the ore having been reduced to bullion through the company's mill, with the exception of 1,456 pounds, which was sold to an ore buyer for $502.59.

The Money Derived from the Sale of these Bonds

This issue of bonds is made for the purpose of securing money at once in order to extend the development work more quickly than the company's present income will permit.

With the high grade ore in sight to the distance of 80 feet to the South of the shaft, the management is assured that within six months from date of making the improvements now necessary the company's properties will be on a self-sustaining and dividend-paying basis.

The Stock which is Given with these bonds will be as valuable as the bonds when the Company has the ready capital to push operations

Men who invest in these bonds will have no cause or reason to regret their action, for the bonds afford an investment in a security which is absolutely safe—much better than ordinary city or country real estate, which is considered perfectly safe if the property put up to secure a mortgage is double the face of the loan. The security given on these bonds is better than 7 to 1, for the Ures Consolidated Mining Company has refused an offer of $750,000.00 for the property upon which this $100,000.00 worth of bonds is issued.

These bonds are an investment with all speculative risk eliminated—an investment with absolute security.

Make your reservation at once. This is small and promises to be quickly sold.

For complete information, detailed description of the property, records of title, etc., address

CAPITAL $1,500,000 RESERVE $950,000

Banco de Sonora,
Hermosillo, Mex.,
Feb. 11th, 1908.

To whom it may concern:—

We hereby beg to state that The Ures Consolidated Mining Company has during the past five years made several deliveries of bullion to this bank, and it is the opinion of mining men here that they have the making of a fair mine, and further, that the properties owned and controlled by them bid promise of becoming paying properties.

From our knowledge of the men connected, we believe they are doing all in their power to bring about the results above mentioned.

Respectfully,
BANCO DE SONORA,
Max Muller, Gerente.

SYNOPSIS OF CANADIAN NORTHWEST

HOMESTEAD REGULATIONS

Any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at an Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead duties under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each on and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3) If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of a homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father or mother.

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line exclusive of the width of road allowances crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the agent for the district of such intention.

Six months' notice in writing must be given to the Commissioner of Dominion Lands at Ottawa, of intention to apply for patent.

W. W. CORY,
Deputy of the Minister of the Interior.

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend

Dr. Shoop's Restorative

"ALL DEALERS"

The Olive.

The olive has been applied for various medicinal purposes since old Ramses I. held away over his dark skinned subjects in northern Africa. In the days of ancient Rome the leaves and bark of the tree were used by the remarkable medical experts of that time to allay and cure violent attacks of intermittent fever, while the resinous gum which exuded from the tree in the hot season was used for many of the ills to which flesh is heir. The oil of the olive itself later was used by the Roman athletes to soothe their heated bodies after indulging in heroic attempts to break the early records for 100 yard dashes and putting the discus or shot. Then the oil of the wild olive was employed as an extraordinary panacea, guaranteed to stop the ravages of all ailments. Last of all, in more modern times the women of our own day use the olive oil in the form of soap to beautify the complexion by softening the pores and nourishing the skin itself.

Creating a Vacancy.

When the republic had been set up in France in 1848, wrote the Baroness Oncle, the first attempts of the enfranchised people to use their new powers resulted in the election of the most miscellaneous assembly that had ever tried to govern a country. A member nominated from Rouen went to Paris and selected his seat. He had hardly taken it when his next neighbor turned and stared at him. The Rouen man, embarrassed, turned up his coat collar, but too late.

"Sir," said his lynx eyed colleague, "I believe I had the honor of sending you to the galleys for murder in 18—, when I was judge. You had strangled the servant of the cure who had brought you up, and robbed the worthy man. Oblige me by resigning immediately."

The next day the Moniteur announced that there was a vacancy for Rouen, but did not tell why.

The Jury's Verdict.

An English coroner had directed the jury in a suicide case to find a verdict of felo de se. "Well, chaps," said the foreman of the jury when they had retired to consider the verdict, "it appears to me that this 'ere chap shot 'iself with a gun after shootin' another chap with a gun, but Dr. Jones, the coroner, who we all know and highly respect, 'e says that this 'ere chap fell in the sea. Well, it ain't for the likes of us to go arguin' the point with the doctor, for 'e knows more about it than we do. So, I propose we find a verdict of found drowned—and 'ave did."

HOUSEHOLD NOTES.

Cereals are seldom overcooked, but rather undercooked. Thus always allow plenty of time in preparing cereals.

If a bedstead creaks at each movement of the sleeper, remove the slats and wrap the ends of each in old newspapers. This will prove a complete silencer.

In using linen doilies on the highly polished table cut asbestus pieces to place beneath the mats, especially if there is any danger of the hot dishes marking the table top.

The polished appearance of starched clothes will be increased if a piece of wax the size of a small bean and half a teaspoonful of powdered borax be added during the boiling.

The new heavy embroideries of raised gold and silver work should never be brushed in the ordinary way. If rubbed gently with a piece of crimson velvet, a good result will be obtained.

A RICH GOLD MINE.

For Several Years Eager Fortune Seekers Worked Over It.

A tale is told of a rich gold mine in Idaho with a ledge of ore which once extended above the surface of the ground in a clear, solid ridge several feet high and entirely distinct from the surrounding formation. This ledge was long and unbroken and lay directly across the course which hundreds of prospectors took every year to reach other gold fields. This obstruction of rock, the great value of which was long unknown, was too high to be surmounted by pack animals, so the prospectors cut a trail directly through it. For several years these eager gold seekers passed backward and forward over this trail in search of gold mines. One night a prospector camping near this ledge of rock picked up a bit of it and from force of habit took it to a creek near by and washed it. Then he examined the stone, and, to his great astonishment, he found "colors" in it—bits of sparkling gold. The prospector does not mistake gold when he sees it. He is not deluded by iron crystals or bits of mica, as the "tenderfoot" frequently is. The gold sparkle is clearer and brighter than that of any other mineral, and it is the same in sunshine and shadow.

The prospector, tremendously excited, broke off more pieces of the ledge and found more of it bearing free gold. Then he located his claim, and that was the beginning of a rich mine. Yet for years the sagest of prospectors had passed over this trail through the cut in this ledge, never suspecting its value, although by its very prominence it seemed to invite inspection.—Leslie's Weekly.

The Man In Love.

The ordinary man in love is a sorry sight compared with his mistress. He makes his love conventionally and continually disappoints the woman, who wishes to see new lights gleam in his eyes. He is in poignant fear of discovery; he has a horror of ridicule; his one dread is lest he make a fool of himself. But a woman is a cheap chit indeed if she spends a thought on such nonsense; her abandon is superb.—London Queen.

His Start.

"Your son is going in for literature, I understand."

"Yes, and he's made an excellent start already. He went to auction this morning and bought a secondhand writing desk very cheap."—Exchange.

Her Purse and His Handkerchief.

"The thoughts of youth are long, long thoughts." The other day a young woman who had dropped her purse, full of pay money for the corps of girls under her charge, considered the thoughts of youth to be rather too "long."

She was in one of the large department stores, and as her hands were occupied she let her purse lie for a few moments where it had fallen. But her eye was on it. In the meantime a bright little fellow not more than nine or ten years old left his parents near by and deftly covered the purse with a handkerchief.

The woman, who is a perfectly self possessed young person, could hardly believe her eyes, but she waited to see what the boy would do. Just as he was stooping to his prize she placed her foot quietly upon it. The youngster slipped back without a word to the well dressed "respectable" people with whom he was.

Then the woman picked up her purse and, taking the handkerchief over to the lad, handed it to him, saying, "There is no reason why you should lose your handkerchief just because you didn't get my purse!"

Too Good to Miss.

"Theater audiences have improved in recent years," said a manager. "Why, with provincial touring companies in the past maltreatment was regularly expected. In fact, the companies profited by it in more ways than one.

"I know of a company that was playing 'The Broken Vow' in Paint Rock, a one night stand. The audience didn't like 'The Broken Vow,' and eggs, cabbages and potatoes rained upon the stage.

"Still the play went on. The hero raved through his endless speeches, dodging an onion or a baseball every other minute and pretty sore from those missiles that he hadn't been able to dodge.

"But finally a gallery auditor in a paroxysm of rage and scorn hurled a heavy boot, and the actor, thoroughly alarmed, started to retreat.

"'Keep on playing, you fool,' hissed the manager from the wings as he hooked in the boot with an umbrella. 'Keep on till we get the other one.'"

A RAISE IN MINING STOCK

ALLOTMENT SUBSCRIBED.

The requisite amount of stock has been subscribed and paid in full to enable the Company to proceed to allotment and commence business.

RAISE OF MINING STOCK.

THE GREAT NORTHERN LARDER LAKE MINING CO., Limited, proposes to advance price of their treasury stock to Twenty-five (25c) cents on June 22nd. Last chance to buy at ten cents a share, par value One Dollar, fully paid up and non-assessable.

The foreman, Mr. David Foster, of Cobalt, has started to work on the Company's property with a gang of men to develop veins already discovered, also to continue striping in search of new good veins.

We are erecting boarding houses and dining-rooms for our men.

READ COPY OF CERTIFICATE AND STATUTORY DECLARATION CONFIRMING SAME.

Toronto, March 20th, 1908.

To the Great Northern Larder Lake Mining Company, Limited:—

Gentlemen,—

I beg to confirm my previous report to you that in my judgment the surface showings on the 14 mining claims which the Company has acquired, being Nos. H.S. 221 to H. S. 234, both inclusive indicate the probability of the existence of large bodies of both high grade and low grade free-milling ore, sufficient to pay dividends for an indefinite period.

I have personally examined a number of veins and reefs on said property (consisting of about 560 acres) and had some assays made and from such examinations and assays I make this report.

The statement on pages nine and ten of the Prospectus giving the short history of the Company are correct. I insisted on retaining a large interest in the Company rather than sell for any price that seemed reasonable to the purchasers.

DAVID A. FOSTER,
Haileybury.

IN THE MATTER OF THE GREAT NORTHERN LARDER LAKE MINING CO., LTD.

Statutory Declaration.

DOMINION OF CANADA
County of York

TO WIT:

I, David Foster, of the town of Haileybury, in the district of Nipissing, miner, do solemnly declare that the statements in the annexed certificate are true. I have personally inspected all of the fourteen claims now transferred to the Great Northern Larder Lake Mining Company, Limited. I have taken samples containing gold values from said property, and from my personal examination, and from assays made, I believe the Company's property when developed, will prove very valuable. I have full confidence in the success of the said Company, and on this account, with the exception of $640 already received, I have agreed to accept stock in said Company, and a note which I believe will not be of much value should the actual development work not prove the said claims to contain gold in paying quantities as it is not payable for one year from this date or until after the Company shall have done the necessary development work on said claims. And I make this solemn declaration conscientiously believing it to be true and knowing that it is of the same force and effect as if made under oath, and by virtue of "The Canada Evidence Act."

DAVID A. FOSTER.

Declared before me at Toronto, in the County of York, this 21st day of March, 1908. J. T. LOFTUS, A. Commissioner in H. C. J.

PROPERTIES TRANSFERED.

ADVERTISE IN THE TIMES.

RAWHIDE-DULZURA

1 CENT A 2 SHARE

Send us your name as a member in this new company, with your remittance for as many thousand shares as you can take at $5 per thousand.

This is a short-time offer on a hurry-up proposition. Our vice president is up at Rawhide now putting the miners at work. We want to raise the necessary funds for development as quickly as possible. Therefore, we offer the first block of stock at $5 a thousand shares. This subscription must be all cash. We want the money in hand. We mean to work without let-up, and we have made it an ironclad rule not to run in debt. Cash counts now.

Our prospectuses are out. Send for one.

Make reservation of stock, if you do no more. But, remember, this present offer of stock at Half a Cent a Share is now open, and will be closed as soon as enough cash subscriptions are in hand. Don't wait, or you will get left.

The gold mining property owned outright by the company consists of 7 claims, 3 in the Rawhide district of Nevada, and 4 in the Dulzura district of Southern California.

The Rawhide district to-day is more famous than Goldfield, Tonapah, Bullfrog, or Searchlight were at the same stage of exploration and development. The Dulzura discovery is one of the most sensational in the history of California.

Ten samples of ore which were among the first assayed, run as high as $1,461.87 to the ton, and all ten averaged over $1,000 a ton.

In both camps we located early, and our locations are choice. Our own officers will superintend the mining.

Bridgenorth S. S. Excursion

The Bridgenorth Methodist Sunday school will run their annual excursion from the village to Stony Beach, Clear Lake, on Friday, June 26th. The steamer Empress has been chartered for the occasion.

Piles are easily and quickly checked with Dr. Shoop's Magic Ointment. To prove it I will mail a small trial box as a convincing test. Simply address Dr. Shoop, Racine, Wis. I surely would not send it free unless I was certain that Dr. Shoop's Magic Ointment would stand the test. Remember it is made expressly and alone for swollen, painful, bleeding or itching piles, either external or internal. Large jar 50c. Sold by all dealers.

Hot for Rice Lake

Steamer Otonabee will run regular trips to Idyl Wyld on Thursdays and Saturdays, leaving Wolfe street wharf at 1.30, and calling at Street Railway wharf, returning at 9 p.m.

Piles are easily and quickly checked with Dr. Shoop's Magic Ointment. To prove it I will mail a small trial box as a convincing test. Simply address Dr. Shoop, Racine, Wis. I surely would not send it free unless I was certain that Dr. Shoop's Magic Ointment, either external or internal, Large jar 50c. Sold by all dealers.

—Mr. J. C. Shook of Peterborough, was elected at the Winnipeg Conference as one of the elders to represent them in the Pan-Presbyterian Alliance on New York in 1909. This alliance meets every four years.

—The engagement is announced of Miss Elfrida B. Patterson, daughter of Mr. Geo Patterson of Springfield, Vt., formerly of Norwood, to Mr. Will L. Macaskill. The marriage will take place on June 17

Beware of Ointments for Catarrh that contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

—The next meeting of the Peterborough Cheese Board will be held on Wednesday, 17th inst., at 10.30 a.m.

—Rt. Rev. Bishop O'Connor sat for his photograph in Roy's studio on Thursday.

—Rumor has it that Thomas Hall, a Hamilton fireman is after the position of fire chief here.

—Strawberries are likely to be so plentiful this summer that the neighbors chickens will have to feed on them unless served with cream and sugar.

—The Postmaster General announces that the post office department intends to issue a new series of postage stamps on the 300th anniversary of the founding of Quebec this summer.

—The Port Hope Times comes to hand this week greatly improved in its "dress," and general make-up. "Bill" Grant, late of the Ottawa Citizen, is now in charge and promises to make the Times one of the best weeklies in Ontario.

—Tweed has made arrangements to have Dominion Day well observed and a big programme of entertainment is being drawn. Rain has been known to fall during the evening a concert will be given in Marsden's Opera House at which Miss Julia Choate, the talented young violin player, will appear.

Cleaning Up the Debris

Work was commenced yesterday on the big task of cleaning up the debris at Peterborough Cereal Mills, preparatory to rebuilding the works. Definite plans have not yet been formulated but will be in the course of a few days. It is probable that the new mill will be a storey higher than the old one and will extend west along Simcoe street, a short distance farther.

The directors of the Canada Flakes Company, have not yet decided whether they will rebuild or not. They will come to a decision in a few days however.

The announcement that the Peterborough Cereal Co., will rebuild is good news to the citizens of Peterborough, and especially to those who were employed at the mill.

Personal

—M. H. C. Hill is in Toronto on business.

—Miss (Dr.) Cameron is visiting her parents in York, Ont.

—Mr. H. C. M. Potter intends going to England for a visit at the end of the month.

—Miss Mary Gillespie of Cremore, is the guest of her cousin, Mrs W. J. Dunlop.

—Mr. Thos. Hill, general merchant, Pontypool, was in the city on business Wednesday.

—Mr. Archie Crowde of the Y.M.C.A. left for Toronto this morning. He will return again on Monday.

—Miss John Beckett of Carberry, Man., and her daughter, Mrs. Lockhart of Montreal, are the guests of Mrs. H. C. Ephick, 513 King street.

—Mr. F. S. Rosebrugh, of the Geo. E. Matthews Company of Peterborough, was in town—Lindsay Post Press.

—Mr. Burt, of Peterborough, was the guest of his brother-in-law, Mr. Jas. E. Fowler on Sunday.—Havelock Standard.

The many friends of Col. J. Z. Rogers will be glad to learn that he is making steady, though slow, progress towards recovery.

—Mr. A. M. Baker, B.A., of Ingersoll, a former teacher at Hall's Glen, Dummer, was in the city on business.

Weak women should try Dr. Shoop's Night Cure. These soothing, healing, antiseptic suppositories go direct to the seat of these weaknesses. My "Book No. 4 For Women" contains many valuable hints to women, and it is free. Ask Dr. Shoop, Racine, Wis. to mail it. Ask the Doctor in strictest confidence, any questions you wish answered. Dr. Shoop's Night cure is sold by all dealers.

Annual Inspection of 57th Regiment

The annual inspection of the 57th Regiment will likely take place next week. The said inspection will take place on the dates given below,

Left half battalion on company drill on Wednesday evening, June 17th

Right half battalion on Thursday evening, June 18th.

Friday evening, June 19th, the whole regiment in regimental drill and musketry.

Col. Young, Kingston, D.A.A.G., will likely be the company inspecting officer and Col. W. D. Gordon, D.O.C., the regimental inspecting officer. Captain Congr, District Paymaster, will likely be here for muster roll call.

Orders to the above effect will in all likelihood be issued in a day or so. The regiment is in good shape to pass before the inspecting officers.

POLICE

Willie Conroy and Harold Reid appeared before Magistrate Dumble in the police court yesterday morning on a charge of stealing a purse from the pockets of Wm. Smithson of the Peterborough Cereal Co. The boys pleaded not guilty through their lawyers, Mr. W. H. Moore, K.C., and G. S. Gordon.

His worship said that in his mind there was no doubt that they had committed the theft. These boys had been fined only last week for stealing grain. If the boys were put out on a farm he would let them go. They would either have to turn over a new leaf or go to jail.

Mr. Moore in speaking for Reid, said that his father had abandoned him, his mother it will be remembered having been drowned in the St. Clair river two years ago. Reid is fourteen years of age and is a bright intelligent boy.

It was decided to place Reid in charge of the Children's Shelter and he will be put out on a farm.

His worship administered some good advice to Conroy who promised not to appear before him again.

That Charivari Shooting at Bailieboro

Here is what the Port Hope Times has to say in reference to the charivari shooting at Bailieboro;

The usually quiet hamlet of Bailieboro is still excited over the strange shooting affray which occurred midnight on Tuesday, June 2nd as a result of which Ernest Anderson, Wellington Bateman, Mr. Gibson, and Orry Armstrong were more or less seriously injured. Opinion is divided on the merits of the case.

It appears, however, that Wesley Byers, a son of Mr. and Mrs. James Byers, living a mile from the village, had recently married a young lady from Cavan, and the youths of the village of Bailieboro decided to give the young couple an old time serenade.

Approaching the house about the midnight hour, the noise began, and was at its height when a shot from the house caused no small commotion among the merry-makers. Those who happened to be hit got a few of the pellets which proved to be Dr. Russell, one of the latter, Mr. Bateman, being taken to Peterborough hospital. He was struck in the eye.

While the outer affair began in a spirit of fun, it is unfortunate that it ended as it did. Both sides wish the matter dropped, it is said.

Official Militia Orders

The last copy to hand of the official militia orders have the following items of local interest. The Prince of Wales Canadian Dragoons, to be captain, Lieut. W. C. Campbell, vice T. J. Johnston, promoted. To be provisional lieutenant, Albert Wendell Medd, gentleman, vice E. S. Clarry, resigned.

Pelvic Diseases in Men.

Many an invalid is dragging out a miserable existence with catarrh of the kidneys, catarrh of the bladder, or both.

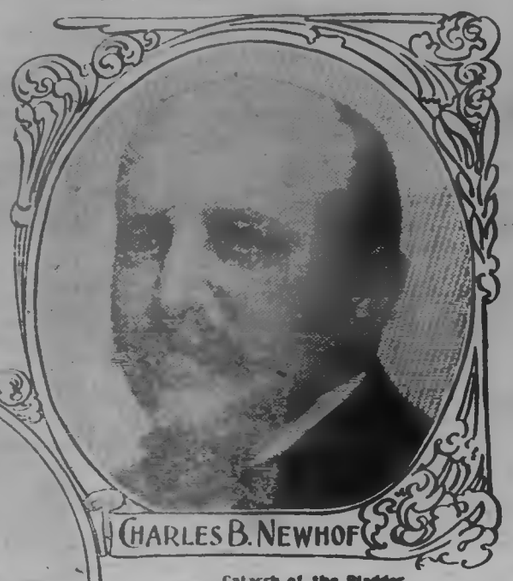
There is no disease equal to catarrh of the bladder in producing complete wretchedness, absolute despair, haggard misery and stubborn weakness.

An army of this sort of victims have one by one discovered that Peruna could be relied upon to relieve such cases.

One man tells another man, and in this way the news spreads until in all parts of the country are to be found men who have been permanently liberated from the thraldom of catarrh of the bladder by a course of Peruna.

Many cases of catarrh of the stomach, kidneys and other abdominal organs have reported themselves as cured.

We give below two prominent testimonials which illustrate the benefit of Peruna in these cases.



Catarrh of Stomach and Kidneys.

Mr. H. L. Emery, Vice Chancellor and Master of Arms, K. P.'s, of Omaha, Neb., writes from 305 North Sixteenth street, the following words of praise for Peruna as a tonic. He says:

"It is with pleasure *I recommend Peruna as a tonic* of unusual merit. A large number of prominent members of the different orders with which I have been connected have been cured by the use of Peruna in cases of *catarrh of the stomach and head;* also in *kidney complaints* and weakness of the *pelvic organs.*

"Peruna tones up the system, aids digestion, induces sleep, and is well worthy the confidence of sufferers of the above complaints."

Catarrh of the Bladder.

Mr. C. B. Newhof, 10 Delaware street, Albany, N. Y., President Montefiore Club, writes:

"Since my advanced age I find that I have been frequently troubled with *urinary ailments.* The *bladder seemed irritated,* and my physician said that it was catarrh caused by a protracted cold which would be difficult to overcome on account of my advanced years. *I took Peruna,* hardly daring to believe that I would be helped, but found to my relief that I soon began to mend. The irritation gradually subsided, and the *urinary difficulties passed away.* I have enjoyed excellent health now for the past seven months. I enjoy my meals, sleep soundly, and am as well as I was twenty years ago. *I give all praise to Peruna.*"

Mr. David L. Jaycox, Chaplain Clarinda I. O. G. T. and Chaplain G. A. R., 865 Broadway, Oakland, Cal., writes:

"I am an old war veteran. I contracted severe *bladder and kidney trouble.* I spent hundreds of dollars and consulted a host of doctors, but neither did me any good.

"Finally some of my comrades who had been cured by Peruna advised me to try it. I at once bought a bottle, and found it helped me so much that I kept using it for nearly four months.

"*Peruna has proven the best medicine* I ever used. *My pains are gone* and I believe myself to be cured. *I feel well,* and would not be without a bottle in time of need for ten times its cost."

Mr. Robert E. Harvey, Treasurer Knights of Industrial Freedom, also a well known writer and lecturer, writes from 11 South Nicholas St., Chicago, Ill., as follows:

"I was in good health until about four years ago, when my back became lame and sore. The pains kept increasing, with severe twitches and slow exhaustive aches. Urine was highly colored and passed with great irregularity. I knew this must be *inflammation of the bladder.*

"*Having read of Peruna I decided to try it.* I found relief from the pain within ten days. The aches gradually diminished, and it was a blessed relief I can assure you. *Within three months I was well once more.* My appetite had returned, nervousness and irritability were things of the past, and for over two years now I have been a healthy man.

"I give all thanks to your Peruna, and believe that it is a blessing to mankind."

BLOOD DISEASES
Guaranteed Cured or No Pay.

If you ever had any contracted or hereditary blood disease, you are never safe until the virus or poison has been removed from the system. You may have had some disease years ago, but now and then some symptom alarms you. Some poison still lurks in your system. Can you afford to run the risk of more serious symptoms appearing as the poison multiplies? Beware of mercury or mineral drugs used indiscriminately—they may ruin the system. Twenty years experience in the treatment of these diseases enables us to prescribe specific remedies that will positively cure all blood diseases of the worst character, leaving no bad effects on the system. Our New Method Treatment will purify and enrich the blood, heal up all ulcers, clear the skin, remove bone pains, fallen out hair will grow in, and swollen glands will return to a normal condition, and the patient will feel and look like a different person. All cases we accept for treatment are guaranteed a complete cure if instructions are followed.

Reader if in doubt as to your condition, you can consult us FREE OF CHARGE. Beware of incompetent doctors who have no reputation or reliability. Drs. K. & K. have been established over 20 years.

WE CURE Nervous Debility, Varicocele, Stricture, Blood and Secret Diseases, Kidney and Bladder Complaints. Consultation Free. If unable to call write for a Question List for Home Treatment.

VOL XXXVI. NO 140 — PETERBOROUGH, ONTARIO MONDAY JUNE 15, 1908 — PRICE TWO CENTS

Crazed Mother Slays the Entire Household

Cadillac, Mich., June 13.—Eight persons, all of the family of Mr. and Mrs. Daniel Cooper with the exception of one son, were murdered some time last night, probably by the wife and mother, who has been insane.

Fred Cooper, a son aged 18, was the only one of the family left alive and he died at Mercy Hospital without being able to give any account of the tragedy.

In every instance the victims were killed with a bullet through the head.

The other dead are: Daniel Cooper, 48 years old; Mrs. Cooper, 45 years old; Harry, aged 14; Inez, aged 11; Samuel, aged 10; Georgiana, aged 5; and Florence, aged 1 1-2 years.

When Mrs. Cooper's mother and other neighbors entered the home on Chapin street this morning, about which there were no signs of life, bodies of the victims were scattered all about. Some were on their beds and others on the floor. Mrs. Cooper lay across the body of the baby on a bed with an emptied revolver beside here.

It is believed Mrs. Cooper committed the murders and then killed herself. She was once confined in an insane asylum and for some time had been brooding over the fact that Cooper was out of work.

A few days ago she is reported to have said she would end it.

T.A.S. and Strathconas Win City League Game

Two good games were pulled off at the Oval on Saturday before a good crowd in ideal baseball weather. The first game was between the Wellingtons and T.A.S., the latter winning by a score of 11 to 7. The game was one of the best exhibitions seen on the Oval this season, the features being the snappy fielding and timely batting. As far as the slab work went, the Abstainers had slightly the best of it. Byers pitching a steadier game than Billington. The Abstainers started in to score from the start, the first two men up getting a hit and coming home on a timely bingle to center. Two more were added in the third, three in the 6th, two in the 7th, and one in each of the two remaining innings.

The Wellingtons got their score on errors and sacrifice hits. They scored two runs in the second, 2 in the 4th, 1 in the 5th, and 2 in the 8th.

The teams lined up as follows:

T.A.S.—
McFadden, c.
Heyns, p.
Doris, 1b.
Dereeber, 2b.
Cahill, ss.
Doherty, 3b.
Corkery, rf.
H. Quinlan, cf.
L. Giroux, lf.

WELLINGTONS
Hawkens, c.
Billington, p.
Falkes, rf.
Patterson, 2b.
Pruneau, ss.
Henderson, 1b.
S. O'Toole, 2b.
J. O'Toole, 3b.
Russel lf.

The second game was scheduled to start at four o'clock, but did not start until nearly six. The Strathconas and the champion West Ends were the competitors and after the first few innings, there was nothing to it but the Orphans, they pulling out a victory by the score of 17—7. Billingham and Graham who divided the pitching honors for the Strathconas, were both in fine form, and pitched winning ball all the way. Craig was a power of strength at first, and the work of Kendry at short was one of the features of the game. For the West Ends, McNern's work behind the willow was exceptionally good, while Dunnett at lf., accepted some good chances. The teams lined up as follows;

STRATHCONAS—

BRITISH FLEET FOR RIVERA.

Notice is given by the Maritime Prefect of Toulin to the naval administration of Cannes and Nice that the British Mediterranean fleet will pay a visit to the Riviera in July, and August.

Tenders for Fog Alarm Machinery

TENDERS addressed to the undersigned at Ottawa and endorsed on the envelop "Tender for Fog Alarm Machinery" will be received up to noon of the

FIRST DAY OF JULY, 1908

for supplying the machinery required by the Department of Marine and Fisheries, for fog alarm purposes during a period of one or three years, at the option of the Minister of Marine and Fisheries.

Specifications of the machinery can be procured at the Department here; at the Agencies of the Department at Montreal, Quebec, St. John, N.B., Halifax, N.S., Charlottetown, P.E.I., Victoria, B.C., at the Government Shipyard at Steveston, and the Prescott Lighthouse Depot.

Each tender must be accompanied by an accepted bank cheque for the sum of Five Hundred Dollars, payable to the order of the Minister of Marine and Fisheries, which will be forfeited if the party tendering declines to enter into a contract to furnish the machinery, or fails to carry out the contract. If the tender is not accepted the cheque will be returned.

The Department will not be bound to accept the lowest or any tender.

Newspapers copying this advertisement without authority from the Department will not be paid.

G. J. DESBARATS,
Acting Deputy Minister of Marine and Fisheries.

Department of Marine and Fisheries, Ottawa, Canada, 26th May, 1908.

Of Interest To Women.

To such women as are not seriously out of health, but who have exacting duties to perform, either in the way of household cares or in social duties and functions, which seriously tax their strength, as well as to nursing mothers, Dr. Pierce's Favorite Prescription has proved a most valuable supporting tonic and invigorating nervine. By its timely use, much serious sickness and suffering may be avoided. The operating table and the surgeons' knife, would, it is believed, seldom have to be employed if this most valuable woman's remedy were resorted to in good time. The "Favorite Prescription" has proven a great boon to expectant mothers by preparing the system for the coming of baby, thereby rendering childbirth safe, easy, and almost painless.

Bear in mind, please that Dr. Pierce's Favorite Prescription is not a secret or patent medicine, against which the most intelligent people are quite naturally averse, because of the uncertainty as to their composition and harmless character, but is a MEDICINE OF KNOWN COMPOSITION, a full list of all its ingredients being printed, in plain English, on every bottle-wrapper. An examination of this list of ingredients will disclose the fact that it is non-alcoholic in its composition, chemically pure, triple-refined glycerine taking the place of the commonly used alcohol in its make-up. In this connection it may not be out of place to state that the "Favorite Prescription" of Dr. Pierce is the only medicine put up for the cure of woman's peculiar weaknesses and ailments, and sold through druggists, all the ingredients of which have the unanimous endorsement of all the leading medical writers and teachers of all the several schools of practice, and that are as remedies for the ailments for which "Favorite Prescription" is recommended.

A little book of these endorsements will be sent to any address, post-paid and absolutely free if you request same of by postal card, or letter, of Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. Easy to take as candy.

OVER 1,500 PEOPLE ATTEND CEREMONY OF LAYING CORNER STONE OF NEW ROMAN CATHOLIC CHURCH

Rev. Father Roach, President of St. Michael's College, Toronto, Preached an Eloquent and Impressive Sermon Appropriate to the Occasion

The corner stone of this church dedicated to the sacred heart of Jesus, was laid on the 14th day of June, 1908, by the Right Rev. R. A. O'Connor, Bishop of Peterborough.

The above inscription is cut in the corner stone of the new Catholic church "Sacred Heart," at the corner of Romaine and Aylmer streets which was laid yesterday afternoon by the Right Rev. Bishop O'Connor, assisted by a number of visiting clergymen.

The ceremony was an impressive one, and nearly two thousand people turned out to see it. The humble congregation of St. Peter's church met at the church at three o'clock and marched to the site of the edifice by way of Hunter street to Aylmer and south to Romaine. The officiating clergy and the ladies of the congregation went in carriage, making a very large procession.

Promptly at 3.30 p.m., the children of the parish, numbering 300 voices, sang a beautiful and appropriate hymn, "Sacred Heart," after which the choir chanted a psalm in Latin, which opened the ceremonies.

The work of laying of the corner stone, took about fifteen minutes. Bishop O'Connor first took holy water and blessed the spot where the cross is placed, after which the choir of 70 voices sang the psalm "Set up O Lord Jesus Christ." The reading of psalm 83 by Rev. O'Connor, followed after which Rev. Father Roach led in prayer. The Bishop then on bended knee blessed the corner stone, and prayers followed, after which he sprinkled the corner stone with holy water and taking a trowel marked in it the sign of the cross saying as he did so;—"In the name of the Father, the Son and Holy Ghost Amen."

Prayers followed, and then psalm 126 was read. The corner stone was then placed in the foundation, and the Bishop repeating "Sprinkle me O Lord with hyssop and I shall be cleansed, wash me and I shall be made whiter than snow." Psalms 50 and 86 were then read after which the Bishop led in prayer. This concluded the ceremony of the laying of the corner stone. After the stone was well and truly laid, Rev. Father Roach, president of St. Michael's College, Toronto, preached an impressive sermon, appropriate of the occasion. He took for the subject of his remarks, "Truth," and spoke as follows;—

Mr. dear friends I am pleased to be with you on this occasion and congratulate you on having, what is to be, one of the finest Roman Catholic churches in Ontario. I will take as my fitting subject for the laying of the corner stone of your new church, the "Truth." Truth we have and we hold. If it had not been for truth, what would have become of our existence the last 2,000 years. God had the power to hand down to us today, the meaning between truths and untruths. Our proud heritage is one of the things we should be proud of. If it had not been brought down to us, we would have lost the greatest and noblest chance for our well being. We are all looking for the truth. Men of science, masters of literature and theologists. In science there is only one truth. Scientists will not accept the untruths. We may say that two and two make four, but we cannot say that two and two make five. Why the small boy would laugh at us. In the science of religion there is many different ideas. What did our Master think of truth? Why the birth in that stable, why the cruel death on the cross? Simply that the truth might be delivered to his people. God's knowledge is built on the truth and why should not ours. Can religion be changed? Does the truth of God change? No. Did God mean what he said, or did he mean us to accept the contradictory, or one thing alone? In religion there is the contradictory and its truth.

Jesus Christ said unto His disciples, I came into the world that I might give testimony on the truth. Jesus Christ was God. He came down unto earth to make His home among men. In His life there was no change, nor alteration, nothing ever happened by chance. There were no accidents then. Now there is, why? Simply because men cannot see ahead. But God sees all things before His penetrating vision. He acts without frustration, and never without forethought. Why is it that He has the power to prevent accidents. Simply because he is Jesus Christ. He said in His message to the people. "Upon this rock I will build my church, so that the gates of hell will not prevail against it." And He did. He is our teacher and master and to succeed we must follow Him. When He built that church, had He in His divine mind, some distinct idea or plan for its architectural looks and its mode of worship?

Jesus Christ had one thing in His mind, and that was that no man would have a hand in its building. Our teaching must come from God, and must be divine in all things. Do you think that when he told Noah to build the ark, that he give him some minute details as to how to build it. Yes he did, and Noah unconscious of failure, simply followed out God's idea and knew it would not fail. When God delivered unto Moses the Ten Commandments, it was with the intension that the people should abide by them. Our Lord Jesus Christ him made many promises. And He has fulfilled them all. On one occasion when speaking to His disciples, Christ said; "I have many things to say to you yet but you cannot bear them now. This was shortly before His ascension to heaven. His word to His disciples was for them to teach all nations to baptise them in the waters. When lay ing the foundation of the Church, that Christ promised to build he said, "Behold I am with thee always." Would disciples have been to blame if the Church had failed. Will Jesus Christ be to blame if design is not right. No, because you can conclude my dear friends that it has not failed, for God himself cannot fail. Was His message to the people given without time and hesitation? No. He said I promise to be with you ever and He as it Jesus Christ was with the Church at the beginning He is with it now. The Church has not reformed, but is the same today as it was in the past and will be the same in the future to bring salvation among souls. If the Church of God needed reformation why did not Christ send angels down to reform it. Could Paul do it? No, because it is indefectable to the end. Where do men come from who can reform the church of God. I don't know and I am not going to ask you my dear friends for an answer. God will never take word of man.. on which to base His operations. There is one thing we got from God and that is religion. My dear friends, the Church has been indefectable because God's own workmanship was used in its building.

In the Church, men can find no use for their petty instruments. In our time we have seen Governments fall, states rise and states fall, but the church always remains the same. It is wonderful that there is no institution that the course of time cannot change. Why is it that truth will always prevail against error? Why is it that the old Church has prevailed for the past 2,000 years. The reason for this is that our teaching is divine. Men will said can serve us to petition and science but not in religion. We go from court to court seeking the truth, and in the end we rest in this one supreme court where God will not let shutting criminals out but us. And it is my dear friends, our glory that the Church of God has not failed. There is no beginning and no end. God understands the make church to supply these needs. It is our glory that we have truth, and we should be glad we have such a wise word as that of Jesus Christ to follow. Place the cross on top of your church friends. It will help to keep men's minds on religion. But do not place the weather-vane on it to be blown about by shiftless winds. Jesus Christ only wants truth, not error.

At this juncture Father Roach was forced through lack of voice to stop talking, but before concluding he said he was proud of the new church and was of the opinion that it speaks volumes for religion in Peterborough. He complimented the priests of the city for their good work they were doing, and thanked the many people who had turned out on this memorable occasion.

Bishop O'Connor then spoke a few words, saying that the foundation of the church was another beautiful monument from which the people might be proud to have the word of God preached to them. He thanked all the congregation of St. Peter's church for the help they had given in the establishment of the new church. "We need more religion" he said and the more we get, the more we need. This world is not the beginning or end, but only a preparation for a great and better world. Learn to obey Jesus Christ, to love him and to praise others to love him. The cost of building this church will be heavy, and involve a great amount of money. The growth of the city has been rapid and the number of Catholics in Peterborough, has increased and consequently there was and is a pressing need for a new church. So I ask you, who can to as freely contribute to help defray the cost of this beautiful edifice.

Many hundreds went up on the platform to lay their offering on the corner stone, which was soon covered with money. A number of men of the congregation passed through the crowd with silver contribution plates and returned heavily laden.

Peterboro Boys Carry off Four 3rd Prizes in Toronto

Four third prizes was the best the Peterborough boys could do at the school boys meet in Toronto on Saturday.

Pete Wallace was third in the mile race, Harry Munro after running 1st and 2nd in two heats of the 100 yard dash, only got third in the final.

Frank Halpenny got two two prizes, being third in the 100 yard dash for boys under fifteen and third in the 220 yard hurdle race.

The boys who were under the charge of Physical Director Archie Froude of the Y.M.C.A., returned home on Saturday night.

C.O.F. Attend Divine Service at St.Paul's Church

About 100 members of the local lodge of Canadian Order of Foresters attended divine service in St. Paul's church last night. The Foresters met at the C.O.F. Hall, Simcoe street, and marched in a body to the church, where the Rev. Robt Pogue, pastor of the church, addressed them.

The rev. gentleman took no particular theme for his remarks, but commented on the 9th chapter of Acts, 12th verse, where Ananias was sent to Saul with a message. When Ananias met Saul he addressed him as brother Saul. There are two ideas of brotherhood, said Mr. Pogue, christian and unchristian. The speaker urged upon the Foresters the good to be derived from christian brotherhood. He also spoke on the conversion of Saul by the Prophet.

In speaking of the human element in his confession, Saul commended the action of Ananias when he addressed him as brother. This gave the speaker opportunity to voice the christian version of the word brother. In closing Mr. Pogue said that the word brother was much abused, as fact he said the most abused word is the English language.

Franco-British Exhibition, London

The Franco-British Exhibition in London this year is the great attraction, not only for the residents of the United Kingdom and France, but for people of all countries, and it is estimated that the attendance will reach from 30,000,000 to 40,000,000 during the life of the undertaking. Canada is well represented with the Dominion Government building and the railway buildings, and the country will no doubt receive more publicity in the old country than ever before. The Grand Trunk Railway System have erected a magnificent pavilion in the Court of Progress, one of the ideal sections of the Exhibition, and where the building is surrounded by beautiful gardens laid out by a noted French landscape artist.

"Petes" Add Another to Their Unbroken Chain of Victories-- Tripled the Score on Cobourg

Gradually but surely the Midland League Pennant is slipping into the grip of Manager Johnston's "Petes" for on Saturday another win was added to that unbroken chain of victories by planting it on the eye of Manager Mullholland's hard hitting nine, representing Cobourg, but composed of a few of the big leaguers gathered from the American cities across the lake, by a score of 12 to 4.

Visions of victory hovered round the Lake Shore camp all week when they landed the much touted Wienberger to hold down 3rd, and who has a fat average in the hitting columns. All the Cobourg fans had a win doped out as it was a shame what Bulger, Wienberger, Turpin and King would do to Clementa, then McKinnon who was put at the box the previous Saturday at Cobourg, when Farnum was knocked out by the "Petes," and the locals found it difficult to locate McKinnon, came up with the slogan that he would hold the locals down to two hits. He did—with about 17 additional ones, the visitors only getting five hits off Clementa, while the "Petes" touched up McKinnon for 19

The game was called sharp at 3.15, with a good crowd of fans, seated in the brand new grand stand. This is a splendid feature, the crowd being kept off the grounds so as not to interfere with the players and the fans have no trouble in seeing every play.

Umpire Jack Reavear announced the batteries and the game got going. Cobourg was first up and tallied two in the first, Wienberg reaching first on an error by McDermott, stole 2nd, Bulger flew to Burns, and Wienberg scored on Burn's throw to the plate. Bentley flew to Burns. Floyd hit one over Maddock's head, and Turpin slammed a two-sacker to center, Floyd went to 3rd, King hit to center field, bringing in Floyd. McKinnon out to McDermitt, leaving King and Turpin on bases.

Peterborough got one in the first. Burns was caught on fly foul and Murphy, hit to center, stole 2nd, Maddock came up with a two bagger and "Con" came home. Thorne sacrificed Maddock to third. McDermott failed to beat out a bunt to 3rd. Score Petes 1, Cobourg 2.

Cobourg failed to score in the second, but the locals added three. Edmunds sent a safe one to second, and Lawson beat out a pretty bunt. Cheatham sacrificed, and Edmunds and Lawson went around on. Clementa fanned, Burns came up with a two-bagger, scoring Edmunds and Lawson. Corney coming home on Murphy's single. "Con" going to 2nd on the throw home to catch Burns, Muddockkicked 9th McKinnon Murphy left on 2nd. Score — Petes 4, Cobourg 2.

Cobourg 3rd—McDermott was puzzled over a slow liner of Bentley's, Floyd hit to Thorne in center, who fumbled, allowing Bentley to score. Turpin fanned, King out by the Murphy route, McKinnon batted to Clementa, who fumbled, allowing him safe, and Floyd came home. McDermott picked up Burgess liner and retired the side, McKinnon being left on base. Score 4—4.

The Petes then settled down to play ball and shut out the visitors in the remainder of the game. The locals failed to score the 3rd and 4th jumping into the lead in the fifth. Every man got onto the job. "Fritz" O'Brien who was unable to play on account of a bad ankle did valuable service on the coaching line and got the batters going. Thorne grounded to 2nd, out. McDermott drove a liner to right garden. Bentley fumbled, Edmunds flied, Lawson brought home McDermott and Edmunds with a drive to right. Cheatham drove one to center, Lawson out on fielder's choice, Clementa lined one safe to short. Burns sent one in the same direction but retired the side leaving Cheatham and Clementa on bases. There was nothing doing in the sixth

THE KILLING.

There was a great killing in the seventh. Murphy got his Irish up, rolled up the sleeves of his green jersey, then "Con" did the grand march along the coaching line at first, did a couple of cart wheels, to the amusement of the fans, which indicated that the fireworks had begun. McDermott to McKinnon. Edmunds sent one to the right gardens for three sacks—Murph oiled up his "secular organs, and announced the balloon ascension and awaiting bee, while O'Brien pointed out the way to the scoring post. Lawson flied to center, bringing on Edmunds, Cheatham waited one just 2nd, and Lawson moved up one. Clementa put one in the willows for a three-bagger, and Lawson and Cheatham romped home, Murphy got out trying to extend a two bagger into three. Muddock's fly to Wienberg retired the side. Score. Petes 11, Cobourg 4.

Peterborough added another in the 8th—Thorne hit safe to short, McDermott failed to beat out a pretty bunt down the 1st base line, but moved Thorne to 2nd, he stealing 3rd, and came home on throw. Edmunds flew out to left, Lawson beat out a bunt, Cheatham flew out retiring the side, leaving Lawson on second.

Time 1.50. Umpire Reavear. Attendance 600.

LINERS.

Dave Lawson was certainly the "dandy" boy on Saturday. Dave had a hit for every time up, and accepted every chance that came his way out the first base route.

"Conductor" Murphy of the coaching line made a hit with the fans with his cart wheels. Can could even tell Jennings things.

The dago outfield was the whole cheese Saturday. Took everything that was coming.

McDermott played a good game considering that he has been on the sick list for a week.

Ted Maddock played his usual brilliant game at short.

Corney Burns is playing the game of his life this season, and we miss our guess if one of the big pro clubs don't have him on their line-up for next season.

Jerry Edmunds played a good, hard game on Saturday. Jerry has it on all the big mit artists that has appeared here this season.

Cheatham, Lawson and McDermott were cripples on Saturday—Yet the "Petes" won. They were there with with goods.

Weinberg, Cobourg's much-touted hitter, looked like a German sausage, when he tried to solve Clementa curves.

Clementa made Limberger out of Weinberger.

A commercial traveler who saw the game on Saturday, and who is a regular attendant of the "Pro." games made the statement that the "Petes" are the fastest amateur team in Canada and are playing faster ball than the teams in the international league.

PORT HOPE WON.

Port Hope defeated the Athletics on Saturday afternoon at Port Hope in a Midland League game by a score of 12 to 2.

Up-to-date Souvenirs

Visitors to the city will find the best and most up-to-date assortment of souvenir articles at the Times Bookstore. All places of interest hand painted on Foley China, besides many other souvenier novelties. Desk room provided for those desiring to do their writing down town.

General Servant Wanted

A good general servant wanted. No children, and every modern convenience. Apply box 109, Times office.

The latest mailing novelty is the Papoose in its Carrier with 25 views of Peterborough. We also have the Maple Leaf containing views. Be sure and send the latest to your friends. Get them at Times Bookstore.

England's Birth Rate Decreasing

London, June 14.—Some highly interesting and significant figures are set out in the Registrar-General's summary report with regard to marriages, births and deaths in England and Wales during the year 1907.

The report shows that the marriages in England and Wales during the year numbered 276,698, giving a rate of 5.8 persons married per 1000 of the population at all ages. This rate was 3.2 above the corresponding rate of the previous year, and equal to the average rate for the preceding ten years.

The births registered during the year numbered 917,536, being in the proportion of 26.3 per thousand of the population. This rate was 0.8 per thousand below the rate in the previous year, and lower than the rate in any other year on record. Compared with the average for the preceding ten years the birth rate for 1907 shows a decrease of 2.1 per thousand. Dublin alone among all the leading European cities shows a slight increase in the birth rate during the last twenty years.

But of the birth rate is decreasing, the death rate is decreasing in greater proportion. The depth rate for the year was 15 per thousand, the total number registered being 524,311. The rate was 0.4 below that for 1906, and the lowest death rate on record.

The rate of infantile mortality during the year was 14 per thousand below the rate for the previous year, and the lowest rate on record, the fact being mainly attributed to the showery and cool weather experienced during the summer. Compared with the average for the preceding ten years the rate of infantile mortality last year shows a decrease of 27 per thousand.

Harrison Defeated Cooper in the Belleville Walk

Belleville, June 13.—James Harrison of Peterborough, defeated Jack Cooper of this city, in their four-hour matched walking race in the skating rink here tonight, in the most decisive fashion, he leading at the finish by over two miles and a half.

The race started at seven o'clock and Cooper set a dazzling hot pace for the first six miles, but despite his fast walking, he could not shake off the game boy from the Electric City. Harrison kept within striking distance of him all the way, and when close o'clock came, he passed Cooper who was fast tiring. After that there was nothing to it but Harrison, and the small crowd who were present, generously applauded his fine exhibition. The match was for a purse of $100, winner take all.

ADVERTISE IN THE TIMES.

Spring Tirdeness Cured By Harmless Remedy

Many are Using it and receiving benefit from its strength-giving power.

All winter long you worked hard This took lots of nerve force. It lasted so far, but now it's all gone, and you feel half dead.

Somehow you must get new vitality and more nerve force. The water in your blood must be turned into strength and building material. Your fretful appetite must be braced up. Some new power must be imparted to your weak body.

This is just what happens in using Ferrozone, which is an instant blood maker, blood-enricher and nerve builder.

Ferrozone not only creates keen appetite, it goes further, improves digestion and assimilation, so that every particle of food is converted into nerve and muscle fibres.

By building up new nerve force and making each organ do the work that nature expects of it, Ferrozone quickly increases your weight and instils a reserve of vigor into the system that defies weariness, exhaustion, spring debility or sickness of any kind.

To prove the enormous strengthening power of Ferrozone we quote the following letter from Mrs. Cecil P. Gournally, well known in Middleville: "Last March I was very run down and thin. I had no appetite and scarcely felt like eating at all. My face was pallid and haggard and I had dark circles under my eyes. My weight was seven pounds under normal, and day by day that awful spring weariness dragged me down. The change Ferrozone wrought was surprising. It must certainly contain wonderful building and strengthening properties, because I gained strength, flesh and appetite from the day I started it. I speedily came back to vigorous buoyant health with Ferrozone, and recommend it as the best medicine any person in weak health can take."

Ferrozone strengthens the weak, restores the anaemic, soothes the nervous, assists men, women and children to better health. Try it 50c. per box or six for $2.50, at all dealers.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

THE SOCIALIST

Prof. Goldwin Smith, in referring to the Socialistic vote, says:—In the manifesto of the Socialist party in Toronto, Socialism of the revolutionary kind unmasks. It pledges itself "to conduct all the public affairs placed in its hands in such a manner as to promote the interest of the working class solely," thus openly renouncing loyalty to the community. It breathes the most intense class hatred, and plainly looks forward to the use of force. "Our aim", it says, "is to use the ballot to obtain control of the governing power, and by capturing the government, to range on the side of the working class all the forces of government now used against us." This is an angry dream; unfortunately the growth of class hatred and its consequences, social and political, are a growing reality. Notable is the number of foreign names among the Socialist leaders.

It is idle to discuss Socialism any further unless the Socialist will put before us a distinct plan of the constitution, social and political, which he proposes to form, and of the mode in which the transition to it is to be effected. At present, while we are told that the State is to be everything, we are never told who or what is to be the State. Nor have we been plainly told what is the Socialists' fundamental principle. If it is that implied in Jefferson's saying that "all men are created equal", nothing can be more manifestly false. No two men are created equal. The inequalities of every kind, physical, intellectual, and moral, are infinite, and have given birth, as they would again give birth, to inequalities of success and condition in life. Could Socialism undertake to roll us all flat and keep us so? The fact is that it is not in the constructive but only in the destructive part of Socialism that any meaning is to be found. In intention the destructive part is lively enough. Happily for the mass of us talking is not fighting, and ballots are not bombs.

There are, of course, Socialists of a mild and benevolent class, but with them Socialism seems to be little more than a dream. They do not give us their plan, and while we sympathize with their aspirations, as we do with those of the charming author of More's "Utopia", in discussing their polity we are grappling with a phantom.

The Franco-British Exhibition in London this year is the great attraction, not only for the residents of the United Kingdom and France, but for people of all countries, and it is estimated that the attendance will reach from 30,000,000 to 40,000,000 during the life of the undertaking. Canada is well represented with the Dominion Government building and the railway buildings, and the country will no doubt receive more publicity in the old country than ever before. The Grand Trunk Railway System have erected a magnificent pavilion in the Court of Progress, one of the ideal sections of the exhibition, and where the building is surrounded by beautiful gardens laid out by a noted French landscape artist. The Grand Trunk had the distinction of having their exhibit completed for the opening day of the Exhibition, in fact they were the only exhibit or ready for that event.

Thousands of people have already visited this building and from the many encomiums that have been passed upon it, this exhibit is a great success and a credit to the Grand Trunk. The collection of natural fruits from Ontario, and the fish and game trophies from the Canadian woods and waters create great interest, while the grains and grasses from Ontario, Manitoba, Saskatchewan and Alberta are much admired. Two record moose heads, worth $1,000 each, are objects of much interest.

The Electric lighting of the Building inside and outside has been arranged on a lavish scale.

The lines of the building are carefully followed by small electric lamps fitted with gold stars, about 6-10 of the 4 being required for this purpose, while the allegorical group of figures over the entrance is well shown up at night by concealed lights, and over the group is suspended a beautiful cut glass brilliant star, representing Canada as the "Star of Empire."

The interior lighting is very effective, the whole space being flooded with orange light from four large Flame lamps suspended from the lantern of the roof so that the service of light is from the same point either by day or night.

The private offices are lighted by electricity and also heated by this means.

The lettering on the exterior of the building is executed in French and English. The French flag as well as the Canadian flag and a series of banners on which are the names of the principal cities in Canada float over the top of the structure.

Cleaning Shoes.

Many people pin their faith to gasoline as the best cleanser for shoes in the light pastel shades, as well as those of darker leather.

A hardening of the leather, however, sometimes is the result of cleaning by this method.

The effect should be tried on the shoe under the instep before the entire surface is treated.

Under no consideration should the whole shoe be immersed in the gasoline, but an end of a piece of cloth should be dipped in the oil, then rubbed evenly over the leather.

Any stains or spots are eliminated by extra rubbings.

A Chair Hospital.

Quite the newest thing in the way of an occupation for women is putting cane seats in chairs.

A Boston woman has chosen this unique way of earning money and is making a decided success of it. She has secured a clientele among well known families, and every patron she serves brings several others, so that her "chair hospital," as she calls her workshop, is seldom without a large number of patients. She averages 60 or 70 cents on each chair and can case five or six a day.

In the Sewing Basket.

Use a common bottle cork and a common thimble, push the cork into the thimble, small end first, then hollow out the cork enough to admit the point of your scissors. When your scissors are not in use keep the cork on the points of them and you need not be afraid they will do any damage to your sewing in your workbasket. This will also keep your fine scissor points in good condition.

For bath purposes the flesh brush should take the place of flannel. Indeed, the vigorous use of the flesh brush or glove may be recommended as an effective substitute for a bath where the latter is not at hand, as the rough glove or brush cleanses the skin of small particles which are apt to cling to it from the clothing that is in daily contact with the body.

White spots on furniture caused by putting down a hot jug or cup should be rubbed at once with a little oil of some kind, linseed for choice, though paraffin or sweet oil is nearly as good. Leave the oil on some hours if possible and then polish.

His Wife (writing)—Which is proper, "disillusioned" or "disillusionized?"

Her Husband—Oh, just say "married" and let it get at that.

If one feels dull and spiritless, in the spring or early summer, they call it "Spring Fever." But there is no fever—usually. It is the after effect of our winter habits. The nerves are mostly at fault. Tired worn-out nerves, leaves us languid, lifeless, and without spirit or ambition. A few doses of Dr. Shoop's Restorative will absolutely and quickly change all of these depressing symptoms. The Restorative of course won't bring you back to full health in a day or two, but it will do enough in 48 hours to satisfy you that the remedy is reaching that "tired spot." Druggists everywhere are advising its use as a splendid and prompt general tonic. It gives more vim and more spirit to the spentful than any other known nerve or constitutional tonic. It sharpens a failing appetite, aids digestion, frees sluggish livers and kidneys, and brings new life, strength and ambition. Test it a few days and be convinced. Sold by all dealers.

1854 THE 1854

HOME BANK OF CANADA

Head Office, TORONTO — Three Branches

Alliston, Lawrence Park, Forest, B. C. — Bells River, St. Thomas, — Cookington, Ont. Cookington Westport.

To Canadian Investors

The undersigned has received an allotment of unsold portion of $100,000 of

7 PER CENT FIRST MORTGAGE FIVE-YEAR GOLD BONDS

dated January 11, 1908, and maturing January 11, 1913. These Bonds are offered at par and accrued interest by Metropolitan Trust & Savings Bank, Chicago, trustees.

SECURITY—The Entire Property and Improvements Owned THE URES CONSOLIDATED MINING COMPANY in the District of Ures, State of Sonora Mexico, Free from Mortgage or Bonded Indebtedness except this present Bond Issue.

An Unusual Opportunity for Investment in Sound Security

The Ures Consolidated Mining Company offers $100,000.00 of First Mortgage Gold Bonds. This issue of bonds is the only mortgage or bonded indebtedness ever placed on the company's properties.

These bonds are in the denomination of $100.00, and bear interest at the rate of 7 per cent. per annum, payable semi-annually, July and January, and are redeemable on or before five years from date at the company's option at $110.00 and accrued interest.

$100.00 Stock Bonus Given with Every $100.00 Bond

With each bond issued there will be given $100.00 par value of the capital stock of the company as a bonus, and in addition thereto there will be placed in escrow with the Trustee additional stock which will be available to the bondholders at their option any time within a period of three years, the bondholder being entitled to surrender his bond any time within said period and receive in lieu thereof stock for every dollar of indebtedness to him on account of said bonds.

The Security Back of these Bonds

The company owns twelve claims situated in the district of Ures, State of Sonora, Mexico, free from mortgage or bonded indebtedness, except the present bond issue.

On one of these properties (The Ramona Mine) 5,000 feet of underground development work has been done, consisting of an inclined shaft to the depth of 400 feet with drifts in three levels to the North and South of the shaft.

An average value of ore worth $11.47 per ton is exposed throughout the mine, from the collar of the shaft to the extreme parts in the drifts, all of which is above water level.

The company has made surface improvements and mine improvements to the extent of $60,000.00 in the way of machinery, skids, trams, steam hoists, mill and nearly everything necessary to make the mining camp complete.

In addition to the absolute ownership of these twelve valuable claims, the company has a lease on the San Jose Mine, adjoining its property, in which the company has been operating in high grade ore.

During the past sixty days the company has extracted and delivered to ore buyers and the bank at Hermosillo, $3,000.00 worth of ore and bullion, the ore having been reduced to bullion through the company's mill, with the exception of 1,164 pounds, which was sold to an ore buyer for $562.50.

The Money Derived from the Sale of These Bonds

This issue of bonds is made for the purpose of securing money at once in order to extend the development work more quickly than the company's present means will permit.

With the high grade ore in sight to the distance of 30 feet to the South of the shaft, the management is assured that within six months from date of making the improvements now necessary the company's properties will be on a self-sustaining and dividend-paying basis.

The Stock which is Given with these bonds will be as valuable as the bonds when the Company has the ready capital to push operations

Men who invest in these bonds will have no cause or reason to regret their action, for the bonds afford an investment in a security which is absolutely safe—much better than ordinary city or country real estate, which is considered perfectly safe if the property put up to secure a mortgage is double the face of the loan. The security given on these bonds is better than 7 to 1, for the Ures Consolidated Mining Company has refused an offer of $750,000.00 for the property upon which this $100,000.00 worth of bonds is issued.

These bonds are an investment with all speculative risk eliminated—an investment with absolute security.

Make your reservation at once. This is small and promises to be quickly sold.

For complete information, detailed description of the property, records of title, etc., address

The Ures Consolidated Mining Co.

CAPITAL $1,500,000 RESERVE $950,000

Banco de Sonora,
Hermosillo, Mex.,
Feb. 11th, 1908.

To whom it may concern:—

We hereby beg to state that The Ures Consolidated Mining Company has during the past five years made several deliveries of bullion to this bank, and it is the opinion of mining men here that they have the making of a fair mine, and further, that the properties owned and controlled by them bid promise of becoming paying properties.

From our knowledge of the men connected, we believe they are doing all in their power to bring about the results above mentioned.

Respectfully,
BANCO DE SONORA,
Max Muller, Gerente.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

reserve may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at an Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead duties under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each on and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3) If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of a homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father or mother.

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line exclusive of the width of road allowances crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the agent for the district of such intention.

Six months' notice in writing must be given to the Commissioner of Dominion Lands at Ottawa, of intention to apply for patent.

W. W. CORY,
Deputy of the Minister of the Interior.

Stop That Cold

To check early colds or Grippe with "Preventics" means sure defeat for Pneumonia. To stop a cold with Preventics is safer than to let it run and be obliged to cure it afterwards. To be sure, Preventics will cure even a deeply seated cold if taken early—at the means stage—they break, or head off these early colds. That's surely better. That's why they are called Preventics.

Preventics are little Candy Cold Cures. No Quinine, no physic, nothing sickening. Nice for the children—and thoroughly safe too. If you feel chilly, if you sneeze, if you ache all over, think of Preventics. Promptness may also save half your usual sickness. And don't forget your child, if there is feverishness, night or day. Herein probably lies Preventics' greatest efficiency. Sold in 10c boxes for the pocket, also in 25c boxes of 48 Preventics. Insist on your druggists giving you

Preventics

"ALL DEALERS"

General Gordon's Wife

Through the entire civil war General Gordon's wife accompanied him, never leaving his side save when the exigencies of campaign made her presence impossible. To the faithful devotion of his wife General Gordon owed his life in the bloody battle of Sharpsburg. Gordon, while in the midst of the carnage, was shot five times. As soon as he fell his wife rushed to his side and carried him to safety, stanching the flow of blood and attending his wounds until medical aid could be procured. She remained with him in the hospital until he had recovered, and when General Gordon went back to join his command Mrs. Fanny Haralson Gordon followed her husband.

The Annual Bath in the Ganges.

The largest regular assemblage of people in the world is said to be the crowd which gathers annually at Benares, in India, to bathe in the Ganges. A large temple, or rather a series of buildings, is on the shore at this point, while steps reach down to the water's edge. The Hindoos crowd upon this bank in enormous numbers, the crowd at times numbering upward of 50,000. As the natives are dressed in the brightest colors, the crowd gives the impression of an enormous bed of flowers.

Disappointed

A small miss who had but recently mastered her catechism confessed her disappointment with it thus: "Now, I obey the fifth commandment and honor my papa and mamma, yet my days are not a bit longer in the land, for I'm put to bed every night at 7 o'clock just the same."

By Frederick's Prescription.

The King of England's famous surgeon, Sir Frederick Treves, has this to say to the rising generation. It comes from one who knows:

"Boys, don't bother about genius, and don't worry about being clever. Trust rather to hard work, perseverance and determination. The best motto for a long march is: 'Don't grumble. Plug on.' You hold your fortune within a few years of your own hands. Never waver in this belief. Don't swagger. The boy who swaggers like the man who swaggers, has little else that he can do. He is a cheap-jack crying his own paltry wares. It is the empty tin that rattles most. Be honest, be loyal, be kind. Remember that the hardest thing to acquire is the faculty of being unselfish. As a quality it is one of the finest attributes of manliness. Love the sea, the ringing beach, and the open down. Keep clean body and mind."

Britishers Are Growing.

That the British head is shrinking and the British muscles are degenerating, as recently charged by certain scientists, was refuted by evidence introduced at the meeting of the British Association of Leicester. Records for the last twenty years at Marlborough College show that the fourteen-year-old boys there average five pounds heavier and nearly an inch taller than those of 1885.

A hatter who furnishes hats for six schools, vouches that hats of 21 1-8 inches circumference formerly were rarely demanded, while now hats of 21 7-8 inches in circumference are needed continuously.

Sir Victor Horsley proposed a motion at the meeting, urging the Government to institute in connection with the medical inspection of school children, a system of periodic measurements.

Shaving Statistics.

The statistician has been at it again. The average man, he has discovered, has twenty square inches of beard on his face. Hence, if a man with twenty square inches of face shaves every morning he will scrape away 7,300 square inches in a year. Accordingly if he shaves from the time he is twenty until he is seventy years old he will have shaved sixty-four square inches of beard.

The Home of Luther.

Few thoroughfares have been preserved in Europe which give an adequate idea of the streets of the middle ages. One of the most interesting of these relics is the home of Martin Luther, in Frankfurt-am-Main. It stands on the corner of a narrow street and rises to a height which seems unusual even in these days of tall buildings. Like most of the architecture of its period, the Luther house is half timbered and richly decorated. It is a very roomy place, though somewhat dark and probably badly ventilated. The Luther house, like many of its time, contained floors increasing in size as they rose, thus giving a curiously picturesque but top heavy appearance to the building.

The Expression "So Long."

With reference to the origin of the familiar expression "So long" a correspondent of the London Academy suggests that it is derived from the Norwegian "Saa Laenge," a common form of farewell, equivalent in meaning to "au revoir" and pronounced like "so long," with the "g" softened. There was a fair number of Norwegians among the settlers in America, to judge by names, and it is quite likely the phrase was picked up from them. It is in general use among the Dutch in South Africa.

Her Purse and His Handkerchief.

"The thoughts of youth are long, long thoughts." The other day a young woman who had dropped her purse, full of pay money for the corps of girls under her charge, considered the thoughts of youth to be rather too "long."

She was in one of the large department stores, and as her hands were occupied she let her purse lie for a few moments where it had fallen. But her eye was on it. In the meantime a bright little fellow not more than nine or ten years old left his parents near by and deftly covered the purse with a handkerchief.

The woman, who is a perfectly self possessed young person, could hardly believe her eyes, but she waited to see what the boy would do. Just as he was stooping to his prize she placed her foot quietly upon it. The youngster slipped back without a word to the well dressed "respectable" people with whom he was.

Then the woman picked up her purse and, taking the handkerchief over to the lad, handed it to him, saying, "There is no reason why you should lose your handkerchief just because you didn't get my purse!"

Too Good to Miss.

"Theater audiences have improved in recent years," said a manager. "Why, with provincial touring companies in the past maltreatment was regularly expected. In fact, the companies profited by it in more ways than one.

"I know of a company that was playing 'The Broken Vow' in Paint Rock, a one night stand. The audience didn't like 'The Broken Vow,' and eggs, cabbages and potatoes rained upon the stage.

"Still the play went on. The hero raved through his endless speeches, dodging an onion or a baseball every other minute and pretty sore from those missiles that he hadn't been able to dodge.

"But finally a gallery auditor in a paroxysm of rage and scorn hurled a heavy boot, and the actor, thoroughly alarmed, started to retreat.

"'Keep on playing, you fool,' hissed the manager from the wings as he hooked in the boot with an umbrella. 'Keep on till we get the other one!'"

They stripped her, cutting away her tangled ropes and sails and taking them aboard the Lizzie. Everything movable, except of course the lumber, they transferred thus or threw overboard. It was a hard job and took them all day. Bradley was a tired man when he reached home that night, but he had to answer countless questions put to him by the interested old maids. He saw Gus for a moment or two and reported progress. Then he went to bed.

Next morning was clear and calm, and they were delighted to find that the wrecked schooner had gained a little and that the cable was slacker than they left it. They tightened it again with the windlass and then set to work throwing overboard the lumber on the deck. They rigged a tackle

Ferguson, Temple Building, Toronto; Bankers—Bank of Toronto, Head Office, Toronto.

A RAISE IN MINING STOCK

ALLOTMENT SUBSCRIBED.

The requisite amount of stock has been subscribed and paid in full to enable the Company to proceed to allotment and commence business.

RAISE OF MINING STOCK.

THE GREAT NORTHERN LARDER LAKE MINING CO., Limited, proposes to advance price of their treasury stock to Twenty-five (25c) cents on June 22nd. Last chance to buy at ten cents a share, par value One Dollar, fully paid up and non-assessable.

The foreman, Mr. David Foster, of Cobalt, has started to work on the Company's property with a gang of men to develop veins already discovered, also to continue striping in search of new gold veins.

We are erecting boarding houses and dining-rooms for our men.

READ COPY OF CERTIFICATE AND STATUTORY DECLARATION CONFIRMING SAME.

Toronto, March 28th, 1908.

To the Great Northern Larder Lake Mining Company, Limited:—

Gentlemen,—

I beg to confirm my previous report to you that in my judgment the surface showings on the 14 mining claims which the Company has acquired, being Nos. H.S. 221 to H. S. 234, both inclusive indicate the probability of the existence of large bodies of both high grade and low grade free-milling ore, sufficient to pay dividends for an indefinite period.

I have personally examined a number of veins and reefs on said property (consisting of about 560 acres) and had some assays made and from such examinations and assays I make this report.

The statement on pages nine and ten of the Prospectus giving the short history of the Company are correct. I insisted on retaining a large interest in the Company rather than sell for any price that seemed reasonable to the purchasers.

DAVID A. FOSTER,
Haileybury.

IN THE MATTER OF THE GREAT NORTHERN LARDER LAKE MINING CO., LTD.

Statutory Declaration.

DOMINION OF CANADA
County of York.
TO WIT:

I, David Foster, of the town of Haileybury, in the district of Nipissing, miner, do solemnly declare that the statements in the annexed certificate are true. I have personally inspected all of the fourteen claims now transferred to the Great Northern Larder Lake Mining Company, Limited. I have taken samples containing gold values from said property, and from my personal examination, and from assays made, I believe the Company's property when developed, will prove very valuable. I have full confidence in the success of the said Company, and on this account, with the exception of $440 already received, I have agreed to accept stock in said Company, and a note which I believe will not be of much value should the actual development work not prove the said claims to contain gold in paying quantities as it is not payable for one year from this date or until after the Company shall have done the necessary development work on said claims. And I make this solemn declaration conscientiously believing it to be true and knowing that it is of the same force and effect as if made under oath, and by virtue of "The Canada Evidence Act."

DAVID A. FOSTER.

Declared before me at Toronto, in the County of York, this 31st day of March, 1908. J. T. LOFTUS, A. Commissioner in H. C. J.

PROPERTIES TRANSFERED.

Since the prospectus was printed, the sale of the 14 mining claims to the Company has been completed and the transfers to the Company are registered in the Recorder's Office at Larder City. There is no mortgage or other encumbrance against said claims.

10c. PER SHARE.

Par Value One Dollar fully paid Up and Nonassessable.

RAWHIDE-DULZURA

1 CENT A 2 SHARE

Send us your name as a member in this new company, with your remittance for as many thousand shares as you can take at $5 per thousand.

This is a short-time offer on a hurry-up proposition. Our vice president is up at Rawhide now putting the miners at work. We want to raise the necessary funds for development as quickly as possible. Therefore, we offer the first block of stock at $5 a thousand shares. This subscription must be cash. We want the money in hand. We mean to work without let-up, and we have made it an ironclad rule not to run in debt. Cash counts now.

Our prospectuses are out. Send for one.

Make reservation of stock, if you do no more. But, remember, this present offer of stock at Half a Cent a Share is now open, and will be closed as soon as enough cash subscriptions are in hand. Don't wait, or you will get left.

The gold mining property owned outright by the company consists of 7 claims, 5 in the Rawhide district of Nevada, and 4 in the Dulzura district of Southern California.

The Rawhide district to-day is more famous than Goldfield, Tonopah, Bullfrog, or Searchlight were at the same stage of exploration and development. The Dulzura discovery is one of the most sensational in the history of California.

Ten samples of ore which were among the first assayed, ran as high as $7,461.87 to the ton, and all ten averaged over $1,500 a ton.

In both camps we located early, and our locations are choice. Our own officers will superintend the mining.

Weary, Worn-out, Tired

If You Feel Poorly This Spring this Article is worth Considering

Nothing in life keeps people from advancement like poor health. If the nerves are weak, if the stomach, liver, bowels or kidneys fail to work properly, health surely suffers. Spring is the hardest time on health—the season when the system calls for "house cleaning" medicine.

The best plan is to entrust your condition to a physician of reputable edition to a physician of reputation like Dr. Hamilton, who has had years of experience in compounding tonics. For the ills and tired feeling of spring Dr. Hamilton says nothing is better than Mandrake and Butternut Pills, and this is well proved in the case of James Burton, of Lewistown. "I had grip and it left me very weak. The disease settled in my back and side, which ached day and night. I had a nagging cough. My appetite was all gone. My nerves unstrung. I could not sleep well. I struggled against growing pale, thin and weak—but it was not good. Spring brought depression, overpowering weakness and bad headaches. But my life was spared, simply because I learned of the wonderful merit in Dr. Hamilton's Pills of Mandrake and Butternut. The result was marvelous. I gained rapidly, became strong, ruddy, vigorous, perfectly well. I urge every man and woman to use Dr. Hamilton's Pills regularly.

You'll brighten up, have cleaner blood stronger nerves, better appetite after using Dr. Hamilton's Pills. 25c at all dealers. Guaranteed safe, sure, helpful for old and young.

Beware of Ointments for Catarrh that contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio by F. J. Cheney & Co. Testimonials free.

Dominion Day Excursions

On account of Dominion Day the Grand Trunk Railway System will issue return tickets of single fare between all stations in Canada, also to Detroit and Port Huron, Mich., Buffalo, Black Rock, and Suspension Bridge, N.Y., good going June 30th, July 1st, returning on or before July 2nd, 1908. Secure tickets from any Grand Trunk ticket agent.

A Distinguished Visitor

Mr. F. B. Lewis, a prominent citizen of Philadelphia, Pa., was in town last week looking over the ground with a view to establishing a factory here for the manufacture of a new and greatly improved automatic grease cups. Mr. Lewis was delighted with his visit to this city and to Canada, and was so pleased with the salubrious air of this part of the continent that he has decided to spend his vacation amongst us. The Times had the pleasure of meeting Mr. Lewis while here, and he is sure, on his approaching visit to greatly increase his already large circle of friends in Peterborough.

David Hartley Had Narrow Escape from Death

Mr. David Hartley had a very narrow escape from death on Saturday morning by a fall from the top of Hunter street bridge, where he was engaged painting. He was standing on a ladder working away when a passing vehicle driven by a farmer struck the foot of it, knocking Mr.

Easy to tell

POSTUM
"There's a Reason"
"Read "The Road to Wellville," in pkgs.

Hartley off onto the bridge. He was thought at first to be seriously injured, but on examination it was found his foot was badly swollen, his chest hurt and his neck cut. There was a possibility of him going to St. Catharines today, but his opportunity as now passed. His injuries were attended to by Dr. Eastwood.

Important Change

In Rates and Service to the Canadian Northwest

The passenger Department of the Grand Trunk Railway System have just made an important announcement that will be of great interest in connection with the movement of passengers from eastern to western Canada. While first-class fares are the same at the present time via the Grand Trunk Railway's line to Chicago, and its connections beyond to points in the Canadian Northwest, the second-class fares for many years via Chicago have been higher than by the route north of Lake Superior. Commencing June 14th the agents of the Grand Trunk in Ontario and Quebec, and connecting lines, will be able to issue second-class tickets from eastern to western Canada at the lowest current fares by new route. Naturally a large proportion of the passenger traffic referred to is made up of settlers and others who prefer to use second-class tickets, the saving between the prices of the first and second-class tickets being considerable, and the accommodation for passengers with second-class tickets having steadily improved.

As the Grand Trunk Railway have a double track to Chicago from Montreal, Toronto, Hamilton, Brantford, Woodstock, Ingersoll, London and other principal stations in Quebec and Ontario, it is expected that many passengers will prefer to travel by way of Chicago. In addition to this advantage, the Grand Trunk will connect at Chicago and offer the choice of seven lines between Chicago, St. Paul and Minneapolis, north of St. Paul and Minneapolis, a choice of three lines will be available. Many Canadians have friends and relatives residing at Chicago, St. Paul, Minneapolis and other large American cities passed through by the new routes, and doubtless the opportunity of a brief visit at the stations in such cities will be much appreciated by the patrons of the new route, and by their Canadian friends and relatives residing across the border.

All arrangements have been completed so that the baggage of passengers will be carried through the United States in bond without requiring any special attention on the part of passengers, and will be no detention or inspection of such passengers at any point in the United States who hold through tickets to points in the Canadian Northwest.

While through cars will not at present be operated, it is believed that many passengers making so great a journey will much prefer the comfortable transfer at points like Chicago and St. Paul into freshly ventilated clean cars.

While through tickets will continue to be sold when requested via North Bay, the Grand Trunk people believe that the new route, with the advantages outlined above will become so popular that it will command a very large share of the growing traffic from Eastern to western Canada. Already the Grand Trunk and its connections enjoy a liberal share of the business from the Canadian Northwest to Eastern Canada by way of St. Paul and Chicago, and now that the tariffs have been adjusted to permit of passengers travelling in both directions at the lowest fares, a large development of the traffic via Chicago is certain to follow.

W. A. Howard, of Owen Sound, New Fire Chief

His Appointment Decided Upon by City Council Last Night--Firemen and Large Number of Citizens Present

The [illegible] special meeting last night. There were present His Worship Mayor Henry Rush, Aldermen Phelan, Tovey, Bradburn, Butler, J. J. Turner, jr., Gillespie, Morrow, Elliott, McIntyre, Neill, and Morrow after two months' trip across the Atlantic.

The Board of Works met earlier in the evening and [illegible] the business [illegible] economy [illegible]

Mr. Phelan expressed himself strongly in opposition to [illegible] tearing up our streets [illegible] the city council. He [illegible] it is about time the council [illegible] position in this regard. He noted Monday morning that the gas company had opened up Simcoe St. from the gas works to the city hall without permission from the council. He thought a [illegible] action was stopped, and ask d the solicitor's advice as to the proper course for the city to pursue in such cases.

Mr. E. D. Hall answered that a city by-law prohibits the opening of any street without the permission of the council but the Peterborough Light and Power Company claim to be privileged under the provisions of an old charter forty years old. This would be a matter in which the courts must decide if necessary.

On resolution it was decided that the P. L. & P. Co. be notified that no streets may be opened without the council's sanction otherwise an injunction will be taken out by the city.

CONTROL OF STREETS

Ald. Phelan moved, seconded by Ald. Morrow,—That the council urge the Parliament of Canada not to pass the bill respecting the Dominion Power Company, without explicit provisions protecting the authority of municipalities over their streets, and providing that streets and highways may be used only with the consent of the proper municipal authorities.—Carried.

THE NEW FIRE CHIEF

Three local men, members of our present brigade, applied for the position of chief of the fire brigade. They are Thos. Rutherford, present chief; Joseph R. Metheral, present assistant chief; and Jno. Gibb, jr.

A petition, signed by Adam Hall and [illegible] others, favoring the appointment of a local man, was also to hand. The petitioners contended that it would be in the interests to appoint as chief a local man, who would have a thorough knowledge of our streets and hydrants. A member of our present brigade, with a number of years' experience, would, the petitioners pointed out, prove more efficient than a stranger.

The mayor remarked that it was a pity the petition had not been presented before.

The hall was filled with citizens interested in this appointment, including the major portion of the firemen.

THE REPORT

Ald. Neill then submitted the following report, Ald. Johnston, chairman being absent;

Gentlemen—Your Special committee appointed in regard to the Fire Department, beg leave to report as follows;

Enquiries were made from a number of municipalities bearing on the object for which this committee was appointed and your committee is of opinion that with the combination horse and chemical wagon completed and ready for service and an efficient brigade with a head with a thorough knowledge of appliances and methods and a reasonable number of permanent men and call men, the city would have a department that would be well able to protect the property of the citizens and that would result in a decrease in the rate of insurance. The secretary of the Underwriters' Association was consulted as to the rates and was assured that with this plan carried out a reduction would be given.

After making full enquiries regarding those who made applications for the position, your committee recommends;

1. That W. A. Howard of Owen Sound, be appointed chief of the Fire Department at a salary of $1,250 a year, he to have full control of the personnel of the brigade, his duties to begin on June 20th, 1908.

2. That the brigade consist of the chief, an assistant chief, and six other permanent men and six call men.

Your committee is of opinion that this brigade would cost for salaries about $6120 a year, and the cost of uniforms for the members of the brigade, which would be about $325 additional. The present cost of the brigade for salaries is $5535, and with an increase of $50 a year the cost would be $6,385, and the difference we consider small in comparison with the advantages that would be secured.

Ald. N ill moved, seconded by Ald Turner, the adoption of this report.

Ald. McIntyre moved in amendment, seconded by Ald. Morgan.—That clause one of the above report be struck out.

At this juncture Fire Chief Rutherford contended that Mr. Howard, the proposed new chief, could not protect the city of Peterborough with less than 18 or 20 men. Mr Howard might protect Owen Sound with a population of but 6,000, with fourteen men, but he could not safeguard Peterborough, of 17,000 souls, with a like brigade. Mr. Rutherford did not oppose the establishment of paid brigade by any means, but he and his men complained of not having been taken into the council's confidence; they would one and all have gladly done anything to assist the council in making the proposed change, but evidently their advice [illegible] council of little or no account value to be called into requisition. The whole matter had been sprung in a high handed way. Some of the younger aldermen apparently thought they knew more of fire fighting matters than men of 30 and 40 years' experience. There had been no fault to find with the brigade and the chief contended that the action of the committee must have originated from personal spite. In conclusion, Mr. Rutherford pointed out that the City of Brantford, with two thousand more citizens than Peterborough, paid $17,850 for its fire protection, and this city, he contended, could not be protected by an efficient paid brigade for less than $15,000.

Mr. Joseph Metheral and Charles Murty indorsed most heartily the sentiments of Chief Rutherford, as also did Alex. Carruth.

Ald. Morgan could not understand why the committee after agreeing with the present brigade to retain them and Chief Rutherford in office until the end of the year, and confining to the employment of four permanent men in the hall, and an increase of $200 or $250 in salaries, should come along with the foregoing report, recommending the appointment of a chief whose duties would commence on June 20th.

The mayor replied that Ald. Morgan was not quite correct. He understood that the chief was to remain in office until the special committee reported, which they had done tonight, and the men until June 30th.

Ald. Neill supported the mayor's contention, and stood by his guns, explaining that after careful investigation the committee had agreed that the course recommended in their report was the best one to adopt in the best interests of the town, irrespective whatever of personal feeling.

His worship had previously advised his colleagues to act only in the city's interests, and to vote as Aldermen Turner or McIntyre as the case might be, representatives of the ratepayers in general, and not as John Turner or Archie McIntyre. The mayor used these names illustrative only of his advice.

Ald. Turner as seconder of the report, concurred in Ald. Neill's views, and explained in a neat speech, that an outside man as chief, would be unable to assure better discipline in the hall than a local man, who would necessarily be handicapped by lifelong ties of friendship and association with the men under him.

Ald. Bradburn pointed out that the men had been [illegible] up for an increase of $50 a year each, and the council had concluded that it would be nearly as cheap and infinitely preferable to engage a permanent brigade.

At a subsequent consultation with Chief Rutherford, he (the chief) took exception to Ald. Turner's allusion to ties of friendship and association, and said how it was that Lord Roberts had risen to the commander-in-chiefship of the British army? Was it because he had been brought up with his men, and had won their admiration and love, or was it not? And Lord Roberts did not lack disciplined Continuing, Mr. Rutherford claimed that he had always kept good discipline, and never once each man. The men claimed, however, that they were to remain in office until the committee reported, and failing such report by June 30th, then the old-time conditions to come into force. Consequently the report relieved the men from duty. The committee assured the chief that the report, "until the committee reported" applied to him only, the men still being in office till the end of the month. A short-and-to-the-point talk was then entered into by the aldermen present, and Chief Rutherford, and the latter expressed himself as of the opinion that should a fire occur the men would not allow any citizen to suffer if within their power to prevent it. Finally Chief Rutherford agreed to interview the men at the hall and try and persuade to remain in office for the time being. In this he was successful, and until things are put on a definite footing citizens will be protected from fire as usual by the present brigade.

In the interview with Chief Rutherford, his faithful services of 40 years—28 as chief—were admitted by one and all. Ald. Neill claimed that while the men have been paid as well as, and in some cases more than other volunteer brigades, he contended that Chief Rutherford had been underpaid. And the took figures of the sum total of the chief's salary the past forty years with a view to securing a substantial recompense to him for the monetary recognition of splendid work owing him by the city.

Ald. Neill also admitted that it was the committee's intention to give first choice of office on the permanent, excepting that of the chief to the present firemen.

Chief Rutherford remarked that that he was quite satisfied to resign his position.

Union Men! Attention!

The members of Peterboro Local, No. 191, American Federation of Musicians, desire to call the attention of all Union Men to the fact that it is distinctly contrary to the principles of unionism to join in a parade headed by a non-union band and more especially when such engagement is secured by cutting prices. Our scale of prices is most moderate and what is more important still, we fill our engagements with competent musicians, using the best instruments manufactured in the world.

Again we ask the hearty co-operation of all Union Men in a Fight for fair prices for the men who can deliver the goods.

W. HUGHES, President. J. A. HARPER, Secretary

Peterboro, Local 191, A. F. of A. M.

Firemen Threatened to Quit and the Aldemen Ready to Take Their Places

Things Looked Blue for a While Last Night, but an Amicable Agreement Eventually Reached—Men Still in Office

At the adjournment of last night's council meeting, when W. A. Howard of Owen Sound, was appointed fire chief, the firemen present notified the mayor and aldermen that they were through, and the city was without a brigade, volunteer or otherwise. This created some consternation, and during a warm discussion of the situation the fire bell rang and our worthy aldermen concluded that they would have to fight the fire themselves. However, the alarm proved to be a general call to the firemen to meet at the fire hall for a conference.

The special committee maintained that the action of the council did not affect the men, who were under contract to remain in office until June 30th. But the situation nevertheless was taken seriously by the aldermen when his worship pointed out that some of them would have to accompany him to the fire hall and remain there the night should the firemen refuse to hold themselves in readiness for a possible call. After a short consultation the mayor left the committee room, and brought in Chief Rutherford with a view to reaching an amicable understanding.

The conference resulted in an arrival at the conclusion that the committee and the firemen had misunderstood each other at the recent meeting at the hall. The former claimed that the latter had agreed to remain on duty until June 30th, and if at such date nothing definite had been reached by the council they were to continue in office for this year, with the present chief, four men to be kept permanently in the hall, and an increase of $50 allowed

Three-Year-Old Whitby Tot Ate Strychnine Pills

Whitby, June 16.—A sad fatality occurred last evening in a farm house near Brooklyn. The three-year-old daughter of Mr. and Mrs Frank Batty left the room where her parents were, got at a box of strychnine pills, of several of them, returned to her parents, and fell to the floor. She was promptly hurried to a doctor at Brooklin, but she expired a few minutes after reaching the doctor's office.

The little one was the only child of her parents.

C.P.R. Co. Built Huge Steel Bridge Without Loss of Life

Parry Sound, June 15.—The big for supporting the heavy spans, steel viaduct across the valley of the Seguin river, and over a portion each of the legs of the towers. of the town of Parry Sound, on the Toronto-Sudbury branch of the Canadian Pacific Railway, may be fairly claimed to be one of the large railway bridge structures in Ontario. It is one of the very best steel structures to be found on the continent. It is part of the line opened yesterday and the first regular passenger train crossed it early today.

The arrangement and classification of spans is peculiar and most necessary owing to the unusual conditions of the location. The structure consists of 26 spans of various lengths, consisting of 22 deck plate girder spans, two 125 feet deck lattice spans, and two 165 feet deck lattice spans, all resting on ten steel towers of varying heights from 35 feet to 90 feet, and the whole steel superstructure is supported on 47 concrete piers, consisting of two abutments, one at each end of the bridge, five large piers

Those of the big concrete piers are ninety feet in height. The total length of the steel in this bridge is 1,700 feet and the total distance of the viaduct from bank to bank is 2,800 feet.

The height of the bridge from the top of the rail to the level of the water in the bay is about 125 feet.

The total weight of steel in the various spans and towers of the bridge is 3,500,000 pounds.

The erection of the bridge was undertaken by the Hamilton Bridge Works Company, of Hamilton, and completed with plant, appliances, and tools of the very latest engineering practice, and it is interesting to note that twenty spans out of the twenty-six were placed in position with the steel erection car, or derrick, and without false-work or scaffolding of any kind. The two 125 feet deck lattice spans and one of the 165 feet deck lattice spans were erected from false-work, or scaffolds, in the usual way, the material being delivered to the spans with the steel derrick car referred to.

The other 165 feet deck lattice spans over the River Seguin was erected as a cantilever without the use of false work and was a most interesting operation, and was witnessed daily by large numbers of townspeople and visitors to Parry Sound. This was all the more remarked as the erection was very similar to that of the Quebec bridge, except on a smaller way, and under almost the same engineering conditions as that of the big bridge across the St. Lawrence, which collapsed about the time the swinging of the cantilever across the Seguin commenced.

One of the most pleasing things in connection with the construction of this bridge is that not a serious accident occurred from start to finish. The only one that might not be said to be of a trifling character was that of one of the workmen falling off the bridge a distance of 110 feet into the Seguin River, and, remarkable to relate, he was able to swim ashore and walk to his boarding house, suffering no injury save a sprained back.

The bridge, which crosses the Seguin valley at the mouth of the river, is another picturesque structure, and will be the most prominent feature from the Bay and Sound, while from it passengers will have a beautiful view of the town and harbor. It towers over houses and mills and lumber yards, several houses having to be removed to permit its construction. As it crosses over the yards and tramways of the Parry Sound Lumber Company, the Railway Commission ordered that a large portion of the bridge shall have a solid deck or floor with steel railings six or eight feet high, so as to prevent the falling of sparks and cinders on the lumber piles.

The work of constructing the concrete piers and abutments was begun early in the spring of 1907 by the Toronto Company and was completed in an unusually short time.

The danger of bridge building may be illustrated by the fact that seven men left here last summer to work on the Quebec bridge and all perished in that disaster except one man, who fell with the bridge into the River St. Lawrence and was taken out of the water alive, and returned here and resumed his employment on this bridge.

The latest mailing novelty is the Paperoo in its Carrier with 25 views of Peterborough. We also have the Maple Leaf containing views. Be sure and send the latest to your friends. Get them at Times Bookstore.

Bruce Redpath's Remarkable Feat--Walks on Water

Toronto, June 15.—Bruce Redpath, the professional cancerist, whose wonderful stunts and surely a sensation in New York and Berlin, Germany, last year, has accomplished the feat of walking on the water.

He made a private trial Friday, and did it in public at the T.C.C. regatta Saturday.

Ridpath uses two five-foot flat-bottomed boats about a foot wide. On the bottoms are fins, which shut when he shoves his foot forward, and open and grip the water when he shoves forward. He travels at a nice gait, and in a week or so expects to have the stunt down fine.

The late Ned Hanlan once tried this game, but his attempt wasn't a distinct success.

A Home Remedy That Reduces Fat

Would you like to have a nice firm figure, but escape the tiresome, bone-breaking exercise or the soul-sickening diet of the old-time plan of reducing excess flesh?

Then go to the druggist and ask for this inexpensive mixture: 1-2 ounce Marmola, 3-4 ounce Fluid Extract Cascara Aromatic, and 4-3-4 ounces Syrup Simplex. Take a teaspoonful after meals and at bedtime, and in a few weeks you can be as fit physically as a fawn. Mix these ingredients at home if you wish, but see that you get the Marmola in a sealed package. When fresh it acts quicker.

Up-to-date Souvenirs

Visitors to the city will find the best and most up-to-date assortment of souvenir articles at the Times Bookstore. All pieces of interest hand painted on Foley China, besides many other souvenier novelties. Desk room provided for those desiring to do their writing down town.

Chatham Pastor Created Sensation on Sunday

Chatham, N.B., June 15.—A bombshell was thrown into the Methodist congregation here last evening when Rev. G. A. Sellar, pastor of St. Luke's church, announced in sermon time that as his opposition to the liquor traffic and liquor men did not meet with the approval of part of the congregation he would cease to be their pastor and would resign forthwith. He then left the pulpit and walked out of the church. Part of the choir and congregation followed him. Mr Sellar's action was wholly unexpected.

How to Tell

If the Kidneys and Liver are Not Acting Well.

Thousands die every year from aggravated kidney distress that could have been saved if they only knew.

Your back may ache, you think it's tiredness or physical weakness.

You grow irritable and nervous—it's put down to loss of sleep.

Joints ache, muscles get sore,—that's all put down to bad weather.

Then digestion gets poor, appetite fades away, color bleaches, spirit droop.

Can't you see it's all from your over-worked kidneys, which can't keep the body clear of poisons that are now surging through the whole system.

Cure your kidneys with Dr. Hamilton's pills.

"When I was so stooped and back weary, so lame and sore with kidney and bladder trouble, I cured myself quickly with Dr. Hamilton's Pills" writes C. C. Ferrier, a well known merchant in Plainsville. "Dr. Hamilton's Pills touched the spot at once, gave my back ease, lifted depression and weariness, made a new man of me. I can also say for a good spring medicine to clear and enrich the blood Dr. Hamilton's Pills have no equal."

The housewife whose aching back makes every little duty a burden, the working man who is tired all day and can't rest at night, whose back aches, and whose feet swell—these people have kidney trouble. Women whose kidneys are sick, suffer continually from blind and sick headaches, faint and dizzy spells, bearing down pains, sharp twinges when stooping, distressing urinary troubles, aching muscles and joints, lack of appetite and loss of sleep. Reach the cause. Cure the kidneys. Use Dr. Hamilton's Mandrake and Butternut Pills, which have cured thousands. 25c. at all dealers.

Masons May Run Two Day Excursion

The Masonic Lodge of Havelock will in all probability run a monster excursion from Havelock on June 22nd, returning home on the 23rd. The Masonic lodge of the railroad town intend going to Niagara Falls. The route will be to Peterborough by the C.P.R., and thence by the steamer Otonabee to the Falls, returning the next day. June 23rd

Beware of Ointments for Catarrh that contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do a ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio by F. J. Cheney & Co. Testimonials free.

57th Regiment Inspection this Week

Definite arrangements have been made for the inspection of the 57th Regiment by Col. Gordon and Col Young. The schedule for the inspection is as follows;

Companies 6, 7 and 8 on Thursday evening, June 18th.

Companies 1 to 5, inclusive on Friday evening, June 19th.

Regimental inspection on Thursday evening, June 25th.

Col. Gordon will be the regimental inspector officer and Col. Young, the company inspecting officer.

Only One Company from 57th for Quebec

Ottawa, June 14.—The troops who are going to Quebec will be under the command of Brig-Gen. Otter, C. B. The cadets of the R.M.C. and units of active militia, other than the permanent forces will be required to remain at Quebec for periods varying from five to eight days.

The detail is as follows;—R.M.C. three officers and 60 cadets; R.C.H.A., A. and B. Batteries; R.C., A. and B. Squadrons; R.C.G.A., Nos. 3 and 4 Companies, all to be in full strength; composite company of garrison artillery from Halifax, 100 of all ranks; Royal Canadian Regiment, three companies from Halifax, and G. H. I. and K. Companies; Army Service Corps, 75 all ranks, medical corps, 50 all ranks, jay corps, 16 all ranks; garrison artillery, 1st, 2nd, 3rd, 4th, 6th 7th and Cobourg, varying numbers Infantry—G.G.F.G., 2nd, 3rd, 5th, 7th, 8th, 9th, 10th, 13th, 14th, 21st, 43rd, 48th, 62nd, 63rd, 65th, 66th, 91st, 300 to 400 of all ranks. The G. O.R.'s allowed 400, the Royal Grenadiers and 48th, 250 each. One full company each will be furnished by the 1st, 15th, 19th, 22nd, 24th, 25th, 38th, 41st, 53rd, 57th, 84th and 86th regiments. These will be attached to the larger units above enumerated.

One company from the rural regiments will be taken.

—Mr. A. T. Hoover of Peterborough, was in town yesterday on business.

Boy Badly Bitten by a Horse on Sunday

While preparing to go to church on Sunday morning, O. Mellen, a 15-year-old lad of Smith township, was badly bitten on the cheek by a horse. Going out into the field with a bridle, he made an attempt to catch the animal, which suddenly turned on him and bit him severely.

Dr. Greer was called and found that the injuries required several stitches. The horse was naturally of a quiet disposition and was never before known to become so wild.

Young Mellen is suffering great pain and is still confined to his bed at his house. He will likely recover unless blood-poisoning sets in.

Grand Lodge Officers A.O.U.W. Here

The Grand Lodge officers of the A.O.U.W. paid a visit to the local lodge of the order last night for the purpose of district organization. The chair was taken by Bro. J. J. Turner, deputy district grand master and associated with him on the platform were;— Grand Master Workman, S. B. Morris of Rodney, Ont., Bro. Matthewson and Bro. Roberts of Havelock, and the District Organizer, Bro. Burns.

There was a large attendance of members present and a successful meeting was held. Several papers were read, showing how the A.O.U.W., stood compared with other fraternal societies.

Bro. Burns, in his address, urged on those present to co-operate with the Grand Lodge in the work of getting a bigger and better organization in the order.

Fishing Season Now Open

The great war is on. What warf Why the war against the finny-backed lunge and small mouthed bass that are placidly switching their tails in the waters of the Otonabee, unconscious of the fact that perhaps a dozen hobby-bedated angler up above them with baited hook and hungry eye.

The why and wherefore of it, is that the open season for lunge and black bass, commences today, and no doubt there will be an influx of pf fishermen to the banks of the Otonabee, while many others will trawl the river in the fragile canoe, or white-winged craft.

From now on we may expect to hear of many a (big fish) story from the lovers of the rod and line.

Sports

BASEBALL

Games played in the three big professional leagues yesterday resulted as follows;

EASTERN

Boston 6, St. Louis 0.
Washington 1, Cleveland 1.
Philadelphia v. Detroit, rain.

A Most Valuable Agent.

The glycerine employed in Dr. Pierce's medicines greatly enhances the medicinal properties which it extracts from native medicinal roots and holds in solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable demulcent, nutritive, antiseptic and antiferment. It adds greatly to the efficacy of the Black Cherry-bark, Bloodroot, Golden Seal root, Stone root and Queen's root, contained in "Golden Medical Discovery" in subduing chronic, or lingering coughs, bronchial, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

In all cases where there is a wasting away of flesh, loss of appetite, with weak stomach, as in the early stages of consumption, there can be no doubt that glycerine acts as a valuable nutritive and adds the Golden Seal root, Stone root, Queen's root and Black Cherry-bark in promoting digestion and building up the flesh and strength, controlling the cough, and bringing about a healthy condition of the whole system. Of course, it must not be expected to work miracles. It will not cure consumption except in its early stages. It will cure, very surely, incipient, hang-on chronic coughs, bronchial and throat troubles, and chronic hoarseness with hoarseness. In acute coughs it is not so effective. It is in the lingering hang-on coughs, or those of long standing, even when accompanied by bleeding from the lungs, that it has performed its most marvelous cures.

Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago, says of glycerine:

"In dyspepsia it serves an excellent purpose. Holding a fixed quantity of the principles of hydrogen in solution, it is one of the best menstruums for the proper administration of its action upon catarrhal, disordered conditions, especially if there is ulceration or catarrhal gastritis (catarrhal inflammation of the stomach). It is a most efficient preventive. Glycerine will relieve many cases of heartburn (heartburn) and excessive gastric (stomach) acidity."

"Golden Medical Discovery" cures and purifies the blood curing blotches, eruptions, scrofulous swellings and old sores, or ulcers.

Send to Dr. R. V. Pierce, of Buffalo, N. Y., for free booklet telling all about the roots (medicinal roots composing this wonderful medicine. There is no alcohol in it.

VARICOCELE CURED

NO NAMES USED WITHOUT WRITTEN CONSENT.

Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on a double varicocele. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy & Kennedy, as he had taken treatment from them himself and knew they were square and skillful. I wrote them and got THE NEW METHOD TREATMENT. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. I could only earn $18 a week in a machine shop before treatment, now I am earning $31 and never lose a day. I wish all sufferers knew of your valuable treatment."

HENRY C. LOCUST.

HAS YOUR BLOOD BEEN DISEASED?

BLOOD DISEASES are the most prevalent and most serious diseases. They sap the very [illegible] of the victim and unless entirely eradicated from the system will cause serious [illegible] ware of Mercury. It only suppresses the symptoms—our NEW [illegible] ON—Imprudent acts or later excesses have broken down your system. You feel the symptoms stealing over you. Mentally, physically, and vitally you are not the man you used to be or should be. Will you heed the danger signals?

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weakness? Our NEW METHOD TREATMENT will cure you. What it has done for others it will do for you. Consultation Free. No matter who has treated you, write for an honest, opinion Free of Charge. Books Free—"The Golden Monitor," (Illustrated on Diseases of Men.

DRS. KENNEDY & KENNEDY

Cor. Michigan Ave., and Griswold St., Detroit, Mich.

Many Get Consumption in Spring Months

The System is Generally Run Down an Lacks Power to Destroy the Germ.

Winter takes the vitality and snap out of us all. Instead of being rich and healthful, the blood is sure to be thin and watery in the spring. An overpowering tiredness comes upon us—this is followed by dead weakness, loss of sleep, poor appetite and depression.

Doctors all say the only hope lies in supplying lots of new blood which must be brimming with vitality and building material.

The quickest way to get the necessary supply of vitalized blood is by taking Ferrozone. It establishes a high standard of blood, increases nerve force, restores bodily vigor in a truly marvelous way.

You are amply protected from spring fever and debility diseases by using Ferrozone.—This is proved by Mrs. E. J. Richards, of Manotick, Ont., who tells in the following words how she gained in health and spirit from Ferrozone: "For about two years I was not well. I was thin and anaemic Towards spring I fell into a condition of nervous exhaustion that made life scarcely worth living. A dead tired-ness seemed to hang over me like a load of lead. I simply could not do housework of any kind. A bad cough developed that worried me greatly, for I thought it might be tubercular. When I first read about Ferrozone I was convinced it was good. I took it regularly for about eight weeks and the change in my health was wonderful. My cheeks filled out and became clear and rosy. I gained eight pounds in weight and am now as strong and vigorous as possible."

Ferrozone feeds and nourishes the organs that require assistance. It sends the thrill and vim of robust health from head to foot, makes you feel better at once. Won't you use Ferrozone? Sold everywhere; 50 chocolate-coated tablets in a box for 50 cents, or six boxes for $2.50, at all dealers.

Morning Times

TUESDAY, JUNE 16TH, 1903.

IS SLEEP NECESSRRY ?

It is nothing less than remarkable that so intelligent a man as Thomas A. Edison should advance the theory that sleep is altogether a matter of habit and wholly unnecessary to life or health. Just as remarkable is the reasoning by which he attempts to support his theory.

Sleep, he says, is a habit induced by the alternations of day and night. But he forgets apparently that nothing shows greater differences than these alternations. In high latitudes the days and nights are six months in length. In every latitude from the poles to the equator they are of different length at different seasons. If sleep is a habit, depending on the darkness of night, the habit should certainly bear some ratio to the darkness, and the natives of very high latitudes shoul deither sleep for six months at a time or not sleep at all.

Even in the temperate zone, on Mr. Edison's theory, people should sleep longer in the winter than in the summer. But they do not, as a general rule, and one of the greatest inconveniences that some sleeping apartments labor under is the interference of the early sun with the desire to sleep.

If sleep is a habit, anything that breaks up the habit, and especially anything that destroys the desire to sleep, ought to be an advantage. But, on the contrary, nothing is more deadly. There is no suffering comparable to insomnia and no torture equal to that inflicted by the Chinese, who sometimes put criminals to death simply by picking them with bayonets as fast as they fall asleep.

Extremists, however, including Mr. Edison, are always a blessing to society. Although very few people follow them, they always neutralize and correct the opposite extreme. Some such theory as Mr. Edison's, emanating from such a respectable source, is greatly needed to moderate the exaggerated habit of sleep. The truth is that too much sleep is almost as bad as none. Too little sleep tends to insanity and too much to stupidity.

Whatever else may be said of the voyage of the United States fleet from the Atlantic to the North Pacific, it cannot be denied that it has been a successful demonstration of the naval capacity of that country. It would not have been a matter of surprise had some accident to one or more of the vessels composing the fleet marred the experiment of moving such a powerful flotilla from one coast of this Continent to the other. The coaling problem in itself was one of no small difficulty, since there were no coaling stations under the control of the navy department on the route. But everything has apparently worked smoothly, and the whole expedition seems to have fully met the anticipations of the officials upon whom the responsibility rested for its organization that they could carry out the programme without any accident or breakdown in the many details that entered into the undertaking. Our neighbors certainly are to be congratulated on the outcome of this great naval demonstration.

If one feels dull and spiritless, in the spring or early summer, they call it "Spring Fever." But there is no fever—usually. It is the after effect of our winter habits. The nerves are mostly at fault. Tired worn-out nerves, leaves us languid, lifeless, and without spirit or ambition. A few doses of Dr. Shoop's Restorative will absolutely and quickly change all of these depressing symptoms. The Restorative of course won't bring you back to full health in a day or two, but it will do enough in 48 hours to satisfy you that the remedy is reaching that "tired spot." Druggists everywhere are advising its use as a splendid and prompt general tonic. It gives more vim and more spirit to the spoonful than any other known nerve or constitutional tonic. It sharpens a failing appetite, aids digestion, frees sluggish livers and kidneys, and brings new life, strength and ambition. Test it a few days and be convinced. Sold by all dealers.

Rod and Gun's Birthday number

With the issue for June "Rod and Gun and Motor Sports in Canada", published by W. J. Taylor, at Woodstock, Ont., enters upon its tenth year, and Ont., enters upon its tenth year, and produces as a birthday number one that has not been surpassed by any of the fine issues that have preceded it. Every one of the many articles appeals to sportsmen and lovers of outdoor life and may be read with interest. The record breaking moose hunt of Dr. W. L. Monro in New Brunswick through which, for the first time in the history of the Province, the record is held by an outsider is rightly given a prominent position. Fishermen have their interests well looked after. In addition to a paper on Live Bait; How to Procure and Preserve the same, a story of Herring Fishing in the Rideau, and one descriptive of a One Hundred Mile Canoe Trip in a Search after Bass, by C. H. Hooper, must secure attention from those who find their most enjoyable recreation in fishing. Judge Prudhack reminds us of old times in a delightfully reminiscent article on the Wayside Tavern and the Shooting Match. The scarcity of partridges, a subject of so much comment amongst sportsmen, is discussed, the conclusion arrived at being that in all probability the birds have been killed off by a disease which has been general in its character and results. Variety is given in an exploration paper entitled Fresh Fields in the Rockies; In a Boys' Camp in Temagami and others. My Experience in Shot Guns and a Review of Guns and Gunning, raise many questions connected with firearms which cannot fail to interest all shooters. The departments are one and all up-to-date and the number testifies to the leading position attained by the magazine and the strength with which it commences its tenth year of vigorous life.

SYNOPSIS OF CANADIAN NORTHWEST

HOMESTEAD REGULATIONS

reserve may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at an Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead duties under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3) If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of a homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father or mother.

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line exclusive of the width of road allowances crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the agent for the district of such intention.

Six months' notice in writing must be given to the Commissioner of Dominion Lands at Ottawa, of intention to apply for patent.

W. W. CORY,

Deputy of the Minister of the Interior.

Weak Kidneys

Weak Kidneys, surely point to weak kidney nerves. The Kidneys, like the Heart, and the Stomach, and their weakness, not in the organs themselves, but in the nerves that control and guide and strengthen them. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the Kidneys alone, is futile. It is a waste of time, and of money as well.

If your back aches or is weak, if the urine scalds, or is dark and strong, if you have symptoms of Bright's or other distressing or dangerous kidney disease, try Dr. Shoop's Restorative a month—Tablets or Liquid—and see what it can and will do for you. Druggist recommend and sell

"ALL DEALERS"

TRICKS OF THE BRAIN.

Experiences Which Physiological Theories Fail to Explain.

An uncle of mine with whom I was walking in a part of Yorkshire near Skipton, where neither of us had ever been before, stopped suddenly to say, "When we turn that corner you will see on the right an Elizabethan house partly surrounded by trees, with a lake or large pond showing through them, and in the middle of the water a little artificial island."

When we turned the corner we saw precisely what he had described, and yet he had never seen or heard or read of the place. The dual brain theory fails here, since neither lobe of the brain had received an impression of the place before we turned the corner.

Jean Jacques Rousseau in his "Confessions" says he foresaw in a reverie while taking a solitary walk all the incidents of the happiest day of his life as they occurred eight years later:

"I saw myself, as in an ecstasy, transported into that happy time and occasion, where my heart, possessing all the happiness possible, enjoyed it with inexpressible raptures, without thinking of anything sensual. I do not remember being ever thrown into the future with more force or an illusion so complete as that which I then experienced. What struck me most in the recollection of that reverie, now that it has been realized, is to have found objects so exactly as I had pictured them. If ever the dream of a man awake had the air of a prophetic vision that was assuredly such."

It is, I think, noteworthy that in all clairvoyant cases of this kind the body is through overwork or ill health or fasting or congenitally in the subdued state to which the Indian mystic and miracle monger reduces his own by mortification. It was so with Scott and Rousseau, and with William Howe when he had the following experience recorded in his memoir. When worn out with overwork he was shown into a certain room in a certain part of London where he had never been before.

"On looking around everything appeared perfectly familiar to me. I seemed to recognize every object. I said to myself: 'What is this? I was never here before, and yet I have seen all this, and if so there is a very peculiar knot in the shutter.' I opened the shutter and found the knot. Now, then, I thought, here is something I cannot explain on my principles; there must be some power beyond matter."

And from being a pronounced materialist he became a believer in spirits, and indeed, eventually a profoundly religious soul.—T. P.'s London Weekly.

The Glory of Life.

The human race is still in its infancy. Up to the present moment, with a few grand exceptions, man has lived mostly an animal existence. The brute is only partially educated out of him. He has not yet evolved that superb character, that diviner man, foreshadowed in the beast. How few people ever get anything more than a mere glimpse of the true glory of life! Few of us see any real sentiment in life or anything above the real animal existence and animal pleasures. Most of us look upon our occupation as a disagreeable necessity that somehow or other ought to have been and might have been avoided. The trouble with many of us is that we think too meanly of ourselves. Our sordid aims and material, selfish ambitions have so lowered our standards that we think downward instead of upward; we grovel instead of soaring. Our lives are materialistic, selfish, greedy, because we live in the base of our brains, down among the brute faculties. We have never explored to any great extent the upper regions of our brain, never developed our higher intelligence.—Success Magazine.

A Courteous Pirate.

That even a Chinese pirate may have a strong idea of chivalry is proved by the following excerpt from an item in the North China Daily News: "The launch at once stopped when ordered to do so. The leader of the pirates was then heard to order his men that they were not to molest any one on board who voluntarily handed over his or her valuables. Among the passengers, however, were a father and son, the latter of whom, it seemed, was a little too slow in obeying the pirates' order to hand over his money, with the result that he was shot. Upon hearing the shot the pirate chief, who was on deck, came down into the cabin and, seeing the father of the unlucky young man lamenting over his son's death, addressed the old man and condoled with him on his son's unfortunate and 'undeserved' death. The chief finally brought out of his pocket a roll of $20 and handed the sum to the old man as a solatium, bidding him to refrain from further lamentations."

My Symphony.

To live content with small means; to seek elegance rather than luxury and refinement rather than fashion; to be worthy, not respectable, and wealthy, not rich; to study hard, think quietly, talk gently, act frankly; to listen to stars and birds, babes and sages with open heart; to bear all cheerfully, do all bravely, await occasions, hurry never. In a word, to let the spiritual, unbidden and unconscious grow up through the common. This is to be my symphony.—William Henry Channing.

A FRILLY ROOM.

The Way Little Florence Fixed It Up to Look "Ba'ful."

Little Florence was in great glee. She said she had made the room look "bu'ful" for mother's friends that afternoon. She climbed into the great chair by the fireplace to admire her work. Over each picture she had placed a large green leaf, and there in front of the mirror, in the vase Uncle Jack brought from Venice last year, was a whole bunch of leaves. The room looked like a garden, and her own bright face was like a blossom above the green leaves in her hand.

But mother cannot find her little girl. Florence is not where she should be.

"Ah, at last I have found you, dear!" says mother. "What are you doing, Florence?"

"Just resting. I'm so tired from reaching up to the pictures! Isn't the room bu'ful? And, oh, mother, I'm so tired! Please, may I have my nap?"

The little head was bobbing over, and mother could not be cross with her darling, even though the leaves that brighten the room were from the best palm. The poor lady only sighed for her plant and tried to explain to Florence when she woke.

According to History.

A New York man, who spends a portion of the summer each year in England, tells of an amusing incident in connection with his first visit to Richmond castle. On that occasion he was accompanied by a guide who relied for his information mainly on a guide-book, which from time to time he would furtively consult if he thought the visitor was not looking his way.

"What is the height of this fine old keep?" asked the New Yorker.

"According to hist'ry," replied the guide, "it's ninety-two feet."

Similar replies were made to other questions of a like nature, each being vouchsafed with the assurance that it was "according to hist'ry."

Finally there was reached a part of the battlements where the hill on which the castle stands descends abruptly to the river.

"Pretty steep descent!" exclaimed the American.

"Yes, sir," came from the guide in his monotonous tone. "According to hist'ry, it's almost perpindicular!"

His View of It.

A little boy had been sent to the dairy to get some eggs, and on his way back he dropped the basket containing them.

"How many did you break?" asked his mother.

"Oh, I didn't break any," he replied, "but the shells came off some of them."

Keeping His Word.

Mrs. Fogarty (in fashionable restaurant)—Now, for goodness' sake, Mike, don't order Irish stew.

Mr. Fogarty—All right, I won't, dear. Waither, fetch me aythur some Hibernian suey or Celtic goulash!

A Point of View.

The new steamer City of —— was laid up for repairs, and one of the rickety old timers of the line was selling in her place. A passenger who was somewhat irritated by the fact remarked to another, an Irishman, by the way, "The City of —— always gets in at 2 in the morning, and this old tub never gets in before 6."

The Irishman thought for a moment and replied: "It's all right. The distance is just the same, and we get a longer sail for our money."

Needed a Cloudburst.

Staying at an inn in Scotland, a shooting party found their sport much interfered with by rain. Still, wet or fine, the old fashioned barometer that hung in the hall persistently pointed to "set fair." At length one of the party drew the landlord's attention to the glass, saying, "Don't you think, now, Dugald, there's something the matter with your glass?" "No, sir," replied Dugald, with dignity, "she's a gude glass and a powerful glass, but she's no' moved wi' trifles."

Such Is Fame.

A learned correspondent writes: "I was examining a witness, an elderly woman, the other day. On my inquiring her name she said it was Mrs. Bardell and that she came from Gravesend. I asked, 'Did you know Charles Dickens?' She replied, 'Do you mean the undertaker?' Such is fame."—London News.

Make use of time while it is present with you. It depends upon your will and not upon the number of days to have a sufficient length of life.—Montaigne.

Piles are easily and quickly checked with Dr. Shoop's Magic Ointment. To prove it I will mail a small trial box as a convincing test. Simply, address Dr. Shoop, Racine, Wis. I surely would not send it free unless I was certain that Dr. Shoop's Magic Ointment would stand the test. Remember it is made expressly and alone for swollen, painful, bleeding or itching piles, either external or internal. Large jar 50c. Sold by all dealers.

Toronto, March 20th, 1908.

To the Great Northern Larder Lake Mining Company, Limited:—

Gentlemen,—

I beg to confirm my previous report to you that in my judgment the surface showings on the 14 mining claims which the Company has acquired, being Nos. H.S. 231 to H. S. 234, both inclusive indicate the probability of the existence of large bodies of both high grade and low grade free-milling ore, sufficient to pay dividends for an indefinite period.

I have personally examined a number of veins and rocks on said property (consisting of about 560 acres) and had some assays made and from such examinations and assays I make this report.

The statement on pages nine and ten of the Prospectus giving the short history of the Company are correct. I insisted on retaining a large interest in the Company rather than sell for any price that seemed reasonable to the purchasers.

DAVID A. FOSTER,
Haileybury.

IN THE MATTER OF THE GREAT NORTHERN LARDER LAKE MINING CO., LTD.

Statutory Declaration.

DOMINION OF CANADA
County of York
TO WIT:

I, David Foster, of the town of Haileybury, in the district of Nipissing, miner, do solemnly declare that the statements in the annexed certificate are true. I have personally inspected all of the fourteen claims now transferred to the Great Northern Larder Lake Mining Company, Limited. I have taken samples containing gold values from said property, and from my personal examination, and from assays made, I believe the Company's property when developed, will prove very valuable. I have full confidence in the success of the said Company, and on this account, with the exception of $460 already received, I have agreed to accept stock in said Company, and a note which I believe will not be of much value should the actual development work not prove the said claims to contain gold in paying quantities as it is not payable for one year from this date or until after the Company shall have done the necessary development work on said claims. And I make this solemn declaration conscientiously believing it to be true and knowing that it is of the same force and effect as if made under oath, and by virtue of "The Canada Evidence Act."

DAVID A. FOSTER.

Declared before me at Toronto, in the County of York, this 31st day of March, 1908. J. T. LOFTUS, A. Commissioner in H. C. J.

PROPERTIES TRANSFERED.

Since the prospectus was printed, the sale of the 14 mining claims to the Company has been completed and the transfers to the Company are registered in the Recorder's Office at Larder City. There is no mortgage or other encumbrance against said claims.

10c. PER SHARE.

Par Value One Dollar fully paid Up and Nonassessable.

ADVERTISE IN THE TIMES.

RAWHIDE-DULZURA

1 CENT A 2 SHARE

Send us your name as a member in this new company, with your remittance for as many thousand shares as you can take at $5 per thousand.

This is a short-time offer on a hurry-up proposition. Our vice president is up at Rawhide now putting the miners at work. We want to raise the necessary funds for development as quickly as possible. Therefore, we offer the first block of stock at $5 a thousand shares. This subscription must be all cash. We want the money in hand. We mean to work without letup, and we have made it an ironclad rule not to run in debt. Cash accounts now.

Our prospectuses are out. Send for one.

Make reservation of stock, if you do no more. But, remember, this present offer of stock at Half a Cent a Share is now open, and will be closed as soon as enough cash subscriptions are in hand. Don't wait, or you will get left.

The gold mining property owned outright by the company consists of 7 claims, 3 in the Rawhide district of Nevada, and 4 in the Dulzura district of Southern California.

The Rawhide district to-day is more famous than Goldfield, Tonapah, Bullfrog, or Searchlight were at the same stage of exploration and development. The Dulzura discovery is one of the most sensational in the history of California.

Ten samples of ore which were among the first assayed, run as high as $7,462.57 to the ton, and all ten averaged over $1,500 a ton.

In both camps we located early, and our locations are choice. Our own officers will superintend the mining.

Secure tickets from any Grand Trunk ticket agent.

Met with Painful Accident

Lillian Sief, the four-year-old daughter of Mr. Andrew Sief, Lafayette avenue, met with a painful accident in front of her home on Saturday evening. She tripped and fell forward on the sidewalk, biting her tongue almost in two. It was a very nasty cut, the severed part hanging by a small portion of the flesh. The little one was taken to the Nicholls hospital, where three stitches were required to close the wound.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

The Morning Times

ONLY MORNING DAILY BETWEEN TORONTO AND OTTAWA

VOL. XXXVI. NO 141 PETERBOROUGH, ONTARIO WEDNESDAY JUNE 17, 1908 PRICE TWO CENTS

Liberal Members Are Not Afraid to Face People

Ottawa, June 16.—The Liberal Senators and members were given an opportunity in the party caucus this morning of expressing their views in regard to matters before Parliament. The caucus was presided over by Mr. Peter Mackenzie, of South Bruce, and was followed by an announcement that the ministerial program of legislation would be carried out.

There is intense resentment in the Liberal ranks arising out of the delays of the present session, and this sentiment has already found voice in the demand for the reform of the Parliamentary rules and the introduction of a system of closure as the only effective check to obstructive tactics. The government following in the House of Commons proclaim themselves ready to face their constituencies whenever the time for dissolution comes and is in no wise dismayed by the results of the recent Provincial elections.

Today's caucus brought no announcement in regard to the contentious election bill, but the work of revising the Provincial lists of Manitoba is now under way and the Liberals are in receipt of numerous complaints as to the way in which it is being done.

The Roblin Government has amended its election list proclamation so as to allow of the revising judges adjourning their courts where they see fit to do so, one of the revising judges has also announced his intention of holding sittings at other than the points named in the proclamation. But under the law of Manitoba the work of revision must be completed by the first of July so that there is very little time left.

In the meantime the Aylesworth election bill has been standing until it was seen how the work of revision under the authority of the Province of Manitoba was carried out.

Great Pan-Anglican Congress Meets in Old London

Nearly Eight Thousand Delegates in Attendance--Many More Expected

Interesting Subjects

London, Eng., June 15.—What is beyond doubt the greatest and most important religious gathering in the history of English speaking peoples was opened to-day by the Pan-Anglican Congress. Nearly eight thousand delegates and visitors, representing dioceses of the church of England and its sister communions throughout the world, are gathered in the world metropolis to-day and many more are expected. To-day the bishops, clergy and distinguished laymen are the guests at Knebworth, the Hertfordshire seat of Lord Strathcona. The congress will be formally opened tomorrow and will hold its sessions at Albert Hall, St. Paul's Cathedral and Westminster Abbey. Six other halls in other parts of London have been secured for the sectional meetings. The great public meetings will be held in Albert Hall and St. Paul's. Nearly all the Episcopal bishops of America are in attendance and there is also a large attendance of the clergy and laymen of the United States and Canada.

To the general public perhaps the most interesting section is that which will discuss the relations of the Church to human society, as all sorts of present day political and economic problems will be treated. Among these are "Morality in Commercial Life", "Sweating shops", "Trade Tricks," "Housing and Family Life", "The Drink Traffic", "Gambling", "Capital and Labor", "Companies and Dividends", "Morality of Control by Legislative Action", "Labor Organization", "The Unemployed", "Relief", "Religion and Wages", "Monopolies and Trusts" and "Christianity and Socialism."

The latter subject will form the basis of an extended discussion. The authors of the program lay great stress upon the question whether the gigantic forces represented by international socialism, already nearing its triumph in continental Europe and constantly gaining in England and America, can be brough under the guidance of Christianity. Church leaders from all parts of the world will take part in the discussion.

The relations of the missions to Government and national customs form the subject of papers by Sir Charles Elliott, late lieutenant-governor of Bengal, Colonel Montgomery and the Bishop of Madagascar, while the efforts of Mohammedanism to spread their faith with special reference to Pan-Islamism will be reviewed by Professor Margoliouth. The racial problems of America, South Africa, China, India and the West Indies will also be treated.

The subjects to be considered by the various sections are: "The Church and Human Society", "The Church and Human Thought", "The Church's Ministry", "The Church's Mission in Non-Christian Lands," "The Anglican Communion", "The Church's Duty to the Young".

In the secon dsection papers will be read contrasting Christian philosophy and Pantheism, and Christian science and Agnosticism. The relations of religion and science will be treated by Sir Dyce Duckworth, A. C. Benson will read a page ron Church and Literature and Leo Strachey will discuss the Ethics of Journalism.

The internal affair o fthe Church will be debated in the third section and in the fourth the foreign affairs of the Church will be reviewed.

In all, 251 dioceses are represented, and there are 1,000 colonial and foreign delegates at the congress and 300 Bishops among the 1,000 members of the Church. About 180,000,000 people are represented. Three meetings will be held every day. The delegates for the most part, will be accommodated at the clubs.

The congress was called by Bishop Montgomery of the Society for the Propagation of the Gospel, the organization being undertaken by the United Boards of Missions. A fortnight after the close of the congress the Bishops will hold their fifth decennial meeting, known as the Lambeth Conference. For this conference all the Bishops of the Communion will be present, even if they cannot manage to come for the Pan-Anglican Congress. Among them will be two colored Bishops from Western Africa.

A special thanksgiving meeting will be held, at which offerings will be presented by the Bishops from the various dioceses. The money will be devoted to the formation of new dioceses in Singapore, Manchuria, Northern Australia, Northern Rhodesia, and at Khartoum and Edmonton, (Canada).

Makes the most nutritious food and the most dainty and delicious.

ROYAL BAKING POWDER

The only Baking Powder made from Royal Grape Cream of Tartar

No fussing or fretting over the biscuit making. Royal is the aid to many a cook's success.

NO ALUM—NO LIME PHOSPHATES.

Beware of Pickpockets and Sneak Thieves

Don't leave your doors or windows open today, and by all means keep your hand on your money, for this is circus day, and at such times there is always some of the light fingered gentry," among the crowd. Realising that a big crowd is always in town on circus day, pick-pockets as a rule follow the circus and nearly everyone is bothered with crooks of the above calibre. Last year a smooth quartette composed of Messrs. Bradford, Phelps, Lewis and Goldfarb were rounded up much to the credit of the officer who was instrumental in having them taken into custody.

Says He Resides In Peterboro

On Saturday afternoon last a suit case full of clothes, the property of Rev. C. P. Clark, of Miberly, was stolen from the Grand Trunk station. Suspicion rested upon two hard looking persons, James Kelly and Edward Williams, and they were arrested by Chief Ruse, the same day. The suit case was found by the chief under the freight shed. Williams claims Peterborough as his home and Kelly says his home is in Toronto. The prisoners were brought before P. M. Holland on Monday, and they they were remanded to jail until Monday.—Cobourg Star.

POLICE

Frank Lefevre appeared before Magistrate Dumble in the police court yesterday morning charged with indecent assault. Mr. G. N. Gordon appeared for him but did not elect or plead. Bail was granted.

Today is Circus Day--Three Long Trains Arrive

To-day is circus day.

Cole Brothers' World Toured Shows are in town and long before the first meal of the day will have been disposed of the show grounds will be converted into a city of white tents. It will be the largest spread of canvas ever put up in this city and in keeping with the magnitude of these meritorious shows.

Early this morning three long trains of double length cars brought the circus to town and the reputation that preceded it here seemed to be an incentive for many to be on hand to welcome it. It was long before daylight when the first train came puffing in and this was closely followed by the other two sections. The work of unloading was begun at once and the perfect system of handling this colossal aggregation was indeed commendable.

This morning at 9.30 o'clock the formation of the street parade will be the first real indication of circus day and that feeling of expectancy so closely nursed since the first advertising car was here will be realized. This parade will leave the show grounds promptly at ten o'clock and pass through the principal streets. There will beyond all doubte be many thousands of people lined up on the sidewalks of the streets through which the parade will pass and the people will do well to secure desirable locations early. This parade is over a mile in length and does not in the least partake of the old time circus parade. It is almost entirely new in every way and in other cities where it has been seen has won unlimited praise. Five bands of music, hundreds of thoroughbred and highly caparisoned horses, scores of open dens of wild animals, handsome allegorical and historical floats and unique wagons, hundreds of nicely costumed lady and gentlemen riders, herds of elephants, camels and led animals, steam pianos, calliopes, and a retinue of grotesque and mirth-provoking clowns. As much as has been said in advance of the superb horses that are owned by Cole Brothers an opportunity will be given during the parade to get a line on them.

Immediately upon the return of the parade to the show grounds the grand free outside exhibition will be given. It is not the free exhibition that is usually given by circuses from their side show platforms, but one of magnitude equal to and much better than performances given by many other shows. This free exhibition will be repeated at night at half past six and it should not be missed by anyone.

Two performances will be given in this city. The first will be given this afternoon at 2 o'clock and another this evening at 8 o'clock. Doors to the menagerie, ethnological congress and promenade concert will open one hour in advance of each performance. All the tents with the Cole Brothers' Shows are absolutely rain and water proof and the main tent has a seating capacity of 10,000. All seats are provided with comfortable back and foot rests. Fifty uniformed ushers are in attendance at every performance as is a corps of experienced detectives.

A Harvest Never Before Equalled will be Realized

Winnipeg, Man., June 16.—There is probably not a better authority on the crops in Western Canada than J. L. Doupe, assistant land Commissioner for the C. P. R. and the way he expresses his opinions on the crops this year, will convince the most pessimistic that a harvest never before equalled will be realized. Mr. Doupe made the statement on June 10 that never before in his Western experience had he seen the wheat in such splendid condition. Winter wheat has attained a height of from 24 to 30 inches and spring wheat is now 15 inches high in many districts. Mr. Doupe makes the statement that the crops are five weeks ahead of last year at the present time.

WINNIPEG A CONVENTION CITY.

Following the close of the Presbyterian Assembly here on Friday last, the Methodist conference of Manitoba opened the session with a large attendance. The Rev. J. G. Walker of Port Arthur, Ontario, was unanimously elected President of the Convention. Over one hundred and fifty delegates being present at the opening.

RAILWAY DEVELOPMENT.

The Canadian Northern Railway will open their new through route on the 15th, forming a short line between Winnipeg and Duluth, leaving the Manitoba capital at 4.00 p. m. and arriving at Duluth at 10.00 a. m the following day.

The Canadian Pacific Railway will run their first official train over the new Winnipeg and Saskatoon line on Monday June 15th. Railway officials and Winnipeg business men will make up a party on the opening trip to Saskatoon.

An important change in the Canadian Pacific Railway's Winnipeg-Toronto train is announced by the officials. The first (The Winnipeg Express) is due to arrive from Toronto Tuesday the 16th, while the first (The Toronto Express) will leave Winnipeg for the Queen City at 10.30 the same evening. The new schedule reads Winnipeg to Toronto in 39 1-2 hours, where in the past it required 47 1-2 hours via North Bay to make the run.

DOMINION EMIGRATION AGENT.

J. Bruce Walker, of Winnipeg, has just returned from a trip of inspection throughout Western Canada, says: "I was very much impressed and extremely pleased with the crop outlook. There was never more favourable prospects for a bumper crop. There is a general average of 20 per cent. increase over last year, with fair conditions from now on, the crop is safe and we will see a renewal of commercial activity never before experienced in the country.

Three Hundred and Fifty Jap Fishermen Drowned

Tokio, June 16.—Fifty fishing boats have been wrecked off the coast of Kagoshima, and 350 of the crews have been drowned.

The governor of the Province has requested assistance from the Government navy yard at Sasebo.

A large gang of workmen are engaged in tearing up a section of the road on Simcoe street between George and Water streets, preparatory to the repaving of that section of the gas main.

Union Men! Attention!

The members of Peterboro Local, No. 191, American Federation of Musicians, desire to call the attention of all Union Men to the fact that it is distinctly contrary to the principles of unionism to join in a parade headed by a non-union band and more especially when such engagement is secured by cutting prices. Our scale of prices is most moderate and what is more important still, we fill our engagements with competent musicians, using the best instruments manufactured in the world.

Again we ask the hearty co-operation of all Union Men in a Fight for fair prices for the men who can deliver the goods.

W. HUGHES, President. J. A. HARPER, Secretary

Peterboro, Local 191, A.F. of M.

SUNDAY SCHOOL HOSTS GATHER IN THE SOUTH

Immense Gathering to Meet in Convention at Louisville, Ky.

Delegates Arriving from All Parts of the World

Louisville, Ky., June 16. — With thousands of Sunday School workers from all over the world already thronging the city and every train bringing hundreds more, the twelfth triennial convention of the International Sunday School Association promises to break all records in numbers and enthusiasm. While the meeting will not be formally opened until to-morrow, several preliminary conferences were held to-day.

The Adult Bible Class Conference is holding its session in the Warren Memorial Presbyterian Church, with separate sections for men and women. In the First Presbyterian church a Teachers' Training Conference is in progress and at the Broadway Methodist church the Elementary Department is in session.

The first general session to-morrow afternoon will be marked by an address of welcome by Governor A. E. Willson and a response by Justice Maclaren of Canada. A feature of the session will be a memorial tribute to Dr. John Potts, of Canada, who was chairman of the International Lesson Committee for eleven years.

The convention will last until next Tuesday, and will be participated in by 2,214 accredited delegates, representing the United States, Canada, Mexico and the East India Islands. Many distinguished religious workers from Europe and Asia are also here. All the general sessions will be held in the armory, which has been lavishly decorated for the occasion.

The last convention was held in Toronto, Ont., in 1905, and it is likely that Los Angeles, Cal., will be selected for the session three years hence, in 1911. Richmond, Va., is already in the field for the 1914 convention.

"The Relation of the Sunday School to Missions" will be one of the great subjects considered by the convention. The plan includes a presentation of moving pictures of actual conditions in the mission fields of India, China and Japan, and the Home Mission fields to be given Saturday evening; a great missionary meeting Sunday evening to be addressed by Robert E. Speer and one other; an address Monday morning by the Rev. Dr. John F. Goucher, of Baltimore, on "The Place of Missionary Instruction in the Sunday School," and three conferences on "The Individual Sunday School Organized for Missionary Work" to be held Monday afternoon. The committee will have the co-operation of the officials of the Young People's Missionary Movement, and among the speakers will be General Secretary C. C. Michener, S. Earl Taylor, R. E. Diffendorfer, the Rev. John N. Moore, and others.

Speakers already engaged in addition to those above noted include Bishop C. B. Galloway of Mississippi; Bishop W. M. Bell, President of the California State Sunday School association; Gov. R. B. Glenn, of North Carolina, ex-Gov. W. J. Northan of Georgia, President E. H. Hughes of DePauw university, Dr. Martin G. Brumbaugh, superintendent of public schools of Philadelphia; Marshall A. Hudson, national president of the Baracas; President Booker T. Washington, and others, who with the lesson committee, the secretaries and department superintendents and the executive committee will make a remarkable list of speakers who will present in the best possible way the many-sided work of the organized Sunday School.

Bad Symptoms.

The woman who has periodical headaches, backache, sees imaginary dark spots or specks floating or dancing before her eyes, has gnawing distress or heavy full feeling in stomach, faint spells, dragging-down feeling in lower abdominal or pelvic region, easily startled or excited, irregular or painful periods, with or without pelvic catarrh, is suffering from weaknesses and derangements that should have early attention. Not all of above symptoms are likely to be present in any case at one time.

Neglected or badly treated and such cases often run into maladies which demand the surgeon's knife if they do not resultfatally.

No medicine extant has such a long and numerous record of cures in such cases as Dr. Pierce's Favorite Prescription. No medicine has such a strong endorsement from men of every school of practice, as a remedy for all those weaknesses and ailments peculiar to women. The very best ingredients known to medical science for the cure of woman's peculiar ailments enter into its composition. No alcohol, harmful, or habit-forming drug is to be found in the list of its ingredients printed on each bottle-wrapper and attested under oath.

In any condition of the female system, Dr. Pierce's Favorite Prescription can do only good—never harm. Its whole effect is to strengthen, invigorate and regulate the whole female system and especially the pelvic organs. When these are deranged in function or affected by disease, the stomach and other organs of digestion become sympathetically deranged, the nerves are weakened, and a long list of bad, unpleasant symptoms follow. Too much must not be expected of this "Favorite Prescription." It will not perform miracles; will not cure tumors—no medicine will. It will often prevent them if taken in time, and thus the operating table and the surgeon's knife may be avoided.

Women suffering from diseases of long standing, are invited to consult Doctor Pierce by letter, free. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Medical Adviser (1000 pages) is sent free on receipt of 21 one-cent stamps for paper-covered, or 50 stamps for cloth-bound copy. Address as above.

Big Turnout at Weekly Drill--Militia Orders

There was an exceptionally large turnout of the 57th Regiment at battalion drill last night and the men presented a fine appearance. This was the last drill before the inspection which takes place tonight, to-morrow and Friday nights. The bugle band in order to qualify for efficiency pay, have to be sworn in, and a large proportion of the trumpeters did so last night.

The strength of the regiment at the drill was as follows.

A. Co.— 8.
B. Co —15.
C. Co.—13.
D. Co —17.
E. Co —14.
F. Co —13.
G. Co —20.
H. Co —13.

DISTRIBUTION

Field officers 6
Staff officers 4
Captains 6
Subalterns 10
Total officers 19
Staff sergeants 4
Sergeants 25
Stretcher bearers 3
Rank and file 113.
Total N.C.O. and men 151.
All ranks 173

The following regimental orders were read out after the drill:

Headquarters,
Peterborough, June 16, '08.

Orders by the officer commanding the 57th Regiment, Peterborough Rangers.

1. Detail of duty for week ending June 24, 1908, captain for the week, Captain McWilliams next for duty, Capt. McLean. Subaltern for the week, Lieut Neal next for duty, Lieut. Carruthers.

2. Leave of absence from parade is hereby granted to Lieutenants Cameron, Gemmell and Neal.

3. Companies No 6, 7 and 8 will parade at the drill hall in drill order on Thursday, June 18th, at 8 p.m., for company inspection by D.A.A.G. of the Eastern Ontario Command Col. D. W. Young.

4. Companies 1, 2, 3, 4 and 5 will parade on the same place and for the same purpose on Friday, June 19th, at the same hour.

5. It is noted for the information of all ranks that in order to qualify for efficiency pay or ordinary pay, every N.C.O. and man must be regularly plated into the regiment and sworn in within the last three years.

By Order,
G. W. BENNETT, Major,
Acting Adjutant.

In the Realm of Sport

On of the best games of the season will be played at Riverside Park on Saturday, when the Athletes and Manager Johnston's hard-hitting Pets in a league game. This will be the second time the teams have met, last time the Pets were triumphant, but it was only an exhibition game.

But the contest Saturday will be for championship honors, and the Athletes will go on the diamond with a considerably strengthened team. They have signed four new players from the city amateur league of Toronto and are not after victory. The new faces on the lineup will be Danny O'Hallaran, who plays short stop for the Royal Oaks. Danny Flynn the second new man is a new one on us for the old new face will be Mucklin, the Oaks back stop, who has been in the game for a long time.

If this trio are of A1 calibre, the Athletes should make the Petes go the limit to beat them.

The Johnstonites will have on their regular line-up, and are looking forward to hanging up game No 13 on the Windsor wall.

Games played in the three big professional leagues yesterday, resulted as follows:

EASTERN

Toronto 3, Baltimore 2; Toronto 12, Baltimore 3. (Two games).
Newark 4, Montreal 3.
Buffalo 4, Providence 1.
Jersey City 4, Rochester 3.

NATIONAL.

Philadelphia 2, Chicago 1.
Pittsburg 6, Boston 1.
Cincinnati 0, New York 0.
Brooklyn 4, St. Louis 2

AMERICAN

Washington 9, Cleveland 3.
Detroit 7, Philadelphia 3.
Boston 9, St. Louis 1

Board of Directors of Y.M.C.A. Meet

At the adjourned meeting of the Board of Directors of the Y.M.C.A. held last night it was decided not to go to the expense of putting up an addition at the south side of the building for the new bowling alleys. The board then left the matter in the hands of the Property Committee, who will get estimates as to the cost of erecting it, two alleys in the present building.

It was also decided to have the game room which is situated on the north-east corner of the building, made into a reading room, and have the present reading room fitted up as the game room.

County Council June Session Opened Yesterday Afternoon

The June sessions of the County Council were opened yesterday afternoon at the court house. The chair was occupied by Warden Jas. Thompson, M.P.P., and the following other councillors were present;

Wm. Oatman, Asphodel; J. Russell, Belmont and Methuen; Charles R. D. Scott, Burleigh and Anstruther; Wm. Bell, Cavan; S. Killen, Ennismore; Chas. Colwell, Galway and Cavendish; Jos. Ingram, Harvey; D. C. Moloney, Douro; C. J. Darling, Dummer; John Browne, North Monaghan; John H. Fee, Otonabee; W. J. Potter, Otonabee; R. N. Scott and T. H. Graham, Smith; F. J. Moore, Lakefield; A. Brault, Norwood.

Warden Thompson then read his address to the members, which in brief was as follows;

To the members of the County Council:

Gentlemen,— Following the example of my predecessors permit me to address you at this your initial session, 1908.

I am proud of the continued material prosperity of the county, and note with satisfaction the improvement in the amount of money now available for the prosecution of all industries and also for the purchase of municipal debentures, etc.

That you as well as I are aware of an agricultural county and Peterborough though having one of the most prosperous cities for its size within its boundaries is among the leading counties of an agricultural country, and I am proud of the position its products have, not only at home, but in the great consuming center, the British Isles. Canadian cheese is of world wide fame and Peterborough Cheese Board, the banner board of the Province. This is an evidence of the practical and honest contribution of the patrons of the factories brought into requisition co-operatively.

In order to encourage and foster this great agricultural industry, the council of the County of Peterborough have been active in providing highways or assisting to provide such and in doing so have built and assumed bridges in different parts of the county.

From the address of the recent grand jury, to his honor the county judge, you will see with satisfaction the absence of serious crime at the present time, also the county council will hear with pleasure the report of said jury upon the management and appearance of the County House of Refuge.

I will not deal with the matter of bridges as the councillors will no doubt have reports from their respective bridges.

In the current expenses of any municipality or corporation some years will exceed others and it must be apparent to all that this is one of the abnormal years of this county due to absolute necessity which as I have stated will be shown by the communications from the bridges, etc.

Some additional repairs have also to be made in the court house and other county buildings, which will of course also increase the current expenditure.

Although our financial standing as a county stands with those at the head of the list, I would respectfully urge upon you all to use economy in every department consistant with good work so that a consequence of good judgment will be to the credit of the council of the County of Peterborough as has been credited to and deserved by our predecessors.

Thanking you for the united assistance of all in the performance of the several duties in connection with the warden's and general council work, I am,

Yours respectfully,
JAS. THOMPSON.

Council then adjourned until this morning.

Long and Varied Circus Program

Program of the Great Cole Brothers' Show today.

10.00 a.m.—Starting from show grounds of stupendous street parade.

11.00 a.m.—Grand free outside open air exhibition.

11.30 a.m.—Opening of doors to Annex and World's Congress of Curiosities.

12.30 p.m.—Free inspection of Blue Ribbon Stables and Horse fair.

1 p.m.—Opening of doors to the big show.

1.10 p.m.—Grand promenade concert by Professor Charles H. Tenney and band of 40 soloists.

2.00 p.m.—Starting of afternoon performances in big show.

4.00 p.m.—Vaudeville entertainment and concert in big tent and feeding of animals.

4.30 p.m.—Visit to annex and curio department.

6.00 p.m.—Open air concert, Professor Tenney and band.

6.30 p.m.—Free outside open air exhibition.

6.45 p.m.—Evening opening of annex and congress of curiosities.

7.00 p.m.—Opening of doors to big show, evening performances.

7.15 p.m.—Promenade concert by Professor Charles H. Tenney and band of 40 soloists in menagerie tent.

8.00 p.m.—Starting of evening performance of big show.

10.00 p.m.—Vaudeville entertainment and concert in big tent.

Medicine in the Spring Needed by Everyone

Winter Weakens the System, Saps the Blood, Leaves Us Tired and Thin

Great epidemics break out in spring, such as fevers, pestilence, and infectious skin diseases.

Winter shuts us in from air and only the most robust get even a little sunshine. As a consequence of this unnatural mode of life, the blood becomes polluted, thin, colorless. Then we grow listless, dull, easily tired, have headaches and find our work a burden.

Reduced to this condition we become an easy prey to disease and fill hospitals, and churchyards.

To rapidly form rich blood, to expel the accumulated humors that winter has stored up in the system, to call back the energy, endurance and vim that will make life joyous, just take Ferrozone, a spring cleanser, unequalled in medicine.

Ferrozone purifies by rebuilding nerve tissue and vitalizing the blood. The entire system soon feels the beneficial action of new rich blood; slow organs are stimulated to normal activity, expel poisons and wastes from tiffully, harmonious working of the system. Weak folks are restored and health becomes as natural a consequence as growth from moisture and sunlight.

Men and women fortify your nerves with Ferrozone, renew the blood through its marvelous blood-forming power, regain vigorous and enduring strength by its action upon appetite and digestion. Use Ferrozone if you want to be strong.

"I increased my weight seven pounds in one month and regained health that had been lost for two years—did this by using Ferrozone," writes Mrs. C. B. Maybee, of Centertown. "Ferrozone brought me restful sleep and good digestion, enabled me to relish my meals and work hard all day. I consider it the finest tonic, the most nourishing medicine I ever used."

Try Ferrozone yourself, 50c per box or six boxes for $2.50, at all dealers.

Morning Times

published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

HOME RULE FOR SCOTLAND

The introduction of a Bill to give Home Rule to Scotland is an interesting development, and seems like a clever tactical move on the part of the Government to lessen the opposition to similar legislation for Ireland. On general principles it would appear to be difficult to refuse to one part of the United Kingdom what is granted to another, although the circumstances of the two cases may be entirely different. For the better despatch of business in the British Parliament the gradual transfer of purely domestic business to local legislative bodies is undoubtedly a wise policy from an Imperial point of view.

Czar Virtually Prisoner in Russian Capital

St. Petersburg, June 15.—When Nicholas II. returned from England after attending the marriage of the Prince of Wales a Court lady, who told me the story, asked him what had impressed him most in London.

"The crowd," he replied, "waiting outside Buckingham Palace to see Queen Victoria. People stood there for hours, and then at last a little black carriage came through the gates; few could catch a glimpse of the Queen, but they knew that she was there, and they went away happy.

"One day," he added, "it will be like that in Russia."

That was before the days of the revolution and the savage repression which is following it. If anything in this world is certain it is that Nicholas II. will not live to see his prophecy fulfilled. He is afraid of his people. He does not dare to drive through the streets of his capital. He lives like a prisoner at Tsarskoe Selo (Imperial Village) in the winter, and in summer time at Peterhof, on the Gulf of Finland. Only once since the opening of the first Duma, in the spring of 1906, has he been in St. Petersburg.

The great Church of the Resurrection, built on the spot where his grandfather, Alexander II., fell at the hands of assassins, was to be consecrated, and he could hardly be absent. But his subjects were not informed of his intention. The secret leaked out, yet no newspaper dared to publish it, for an editor who gives any information not officially authorized about the movements of members of the Imperial family is liable to a fine of 10 guineas or three months' imprisonment.

LIKE BEAR IN HIS DEN.

Never did a Sovereign come to his capital in stranger fashion. The Imperial yacht brought him up the Neva from Peterhof. His subjects could not get within sight of him as he drove the short distance from the quay to the church, for all the adjoining streets were held by troops. Even the British Ambassador was requested to see that the windows of the Embassy were closed, so that there should be no glimpse of a head being turned from them at the carriage of the Autocrat. When the ceremony was over the people on the quays could see him on the deck of the yacht as it took him back to his palace prison, and they stared at him in silence, as men stare at some strange beast.

"What is our Czar?" said a soldier; "a bear in his winter den."

The den, however, is comfortable enough, and life in the palace passes agreeably. The Czar is a man of businesslike habits, and clockwork regularity is observed in his home. The Imperial children rise at seven, and all five are given a bath every morning. An hour later their father gets up, and takes a simple breakfast of tea and bread and butter before beginning his work. His secretaries are ready for him at nine.

Nearly every morning one, and often several, of the Ministers arrive from St. Petersburg to see the Emperor about state business. When they are new they are always charmed with the cordiality with which the Czar agrees with what they say; but the old hands know that when they are gone he often does the diametrically opposite of that which they have suggested.

CHANGE OF DINING-ROOMS.

At one o'clock the Emperor and the Empress lunch together, and often Miss Schnut, the lady who taught the Empress Russian when she first arrived in the country, is invited. Ever since the time when the dining-room in the Winter Palace was blown up, just before the Imperial party went in to dinner, the custom has prevailed at Court of constantly changing the room in which meals are served. Most people in the palace do not know until the last moment in which department the Czar will lunch or dine. A short time ago one of the Ministers was with the Czar in his study when the little Grand Duchess Marie ran in and said, "Mamma asks you to luncheon". To his astonishment he found that the meal was served in the Empress' boudoir. "It will be in the bathroom next time," remarked his daughter when he told her.

The Imperial table is provided for by three restaurateurs. One of them is on duty for three months, and then, in order to give the Czar a complete change in the bill-of-fare, he is succeeded by one of the others, who remains in power for another three months. They have the right to make a fixed charge per head for every meal served in the palace.

In the afternoon the Czar always goes for a ride or a walk in the park, and after dinner, which is at eight, there is often music. The Czar's eldest daughter, the Grand Duchess Olga, plays the violin very creditably, and her father, who is a good pianist, is fond of playing her accompaniments. Russians often say that Nicholas II. is a bad Emperor, but a good man. Certainly as a father and as a husband he is ideal. He is bound up in his children, and very much in love with his wife.

If our fools dull and spiritless, in the spring or early summer, they call it "Spring Fever." But there is no fever—usually. It is the after effect of our winter habits. The nerves are mostly at fault. Tired worn-out nerves leaves us languid, lifeless, and without spirit or ambition. A few doses of Dr. Shoop's Restorative will absolutely and quickly change all of those depressing symptoms. The Restorative of course won't bring you back to full health in a day or two, but it will do enough in 48 hours to satisfy you that the remedy is reaching that "tired spot." Druggists everywhere are advising its use as a splendid and prompt general tonic. It gives more vim and more spirit to the spoonful than any other known nerve or constitutional tonic. It sharpens a failing appetite, aids digestion, frees sluggish livers and kidneys, and brings new life, strength and ambition. Test it a few days and be convinced. Sold by all dealers.

News in Brief

London, June 15.—For a first state engraving of the Duchess of Devonshire, by V. Green, after Sir J. Reynolds, 160 guineas was obtained at Christie's.

CHELSEA PAGEANT.

Princess Louise, who will be accompanied by the Duke of Argyll, will open the Chelsea Pageant at the Old Ranelagh Gardens, Chelsea Hospital, on the afternoon of June 25.

POSTAL RATES.

A bill supported by a large number of deputies has been introduced in the French Chamber, reducing the rate on letters between France and Great Britain from 25 centimes to 10 centimes, and the telegraph rate between the two countries from 20 centimes to 10 centimes a word.

NO LIABILITY.

As a practical joke, a man named Fitzgerald, employed by Messrs. W. J. Clarke & Sons, a riverside firm, was "shuting up" by a crane a distance of 50 feet by a fellow-workmen and dropped, with the result that he was crippled for life. The court of appeal upheld a county court decision that Fitzgerald could not recover from his employers under the Workmen's Compensation Act, as the accident had nothing to do with the man's employment.

Tenders for Fog Alarm Machinery

TENDERS addressed to the undersigned at Ottawa and endorsed on the envelope "Tender for Fog Alarm Machinery" will be received up to noon of the

FIRST DAY OF JULY, 1908

for supplying the machinery required by the Department of Marine and Fisheries, for fog alarm purposes during a period of one or three years, at the option of the Minister of Marine and Fisheries.

Specifications of the machinery can be procured at the Department here; at the Agencies of the Department at Montreal, Quebec, St. John, N.B., Halifax, N.S., Charlottetown, P.E.I., Victoria, B.C., at the Government Shipyard at Sorel, and the Prescott Lighthouse Depot.

Each tender must be accompanied by an accepted bank cheque for the sum of Five Hundred Dollars, payable to the order of the Minister of Marine and Fisheries. The cheque will be forfeited if the party whose tender is accepted declines to enter into a contract to furnish the machinery, or fails to carry out the contract. If the tender is not accepted the cheque will be returned.

The Department will not be bound to accept the lowest or any tender.

Newspapers copying this advertisement without authority from the Department will not be paid.

G. J. DESBARATS,
Acting Deputy Minister of Marine and Fisheries.

Department of Marine and Fisheries, Ottawa, Canada, 20th May, 1908.

Rod and Gun's Birthday number

With the issue for June "Rod and Gun and Motor Sports in Canada", published by W. J. Taylor, at Woodstock, Ont., enters upon its tenth year, and Ont., enters upon its tenth year, and produces as a birthday number one that has not been surpassed by any of the fine issues that have preceded it. Every one of the many articles appeals to sportsmen and lovers of outdoor life and may be read with interest. The record breaking moose hunt of Dr. W. L. Munro in New Brunswick through which, for the first time in the history of the Province, the record is held by an outsider" is rightly given a prominent position. Fishermen have their interests well looked after. In addition to a paper on Live Bait; How to Procure and Preserve the same, a story of Herring Fishing in the Hideaway, and one descriptive of a One Hundred Mile Canoe Trip in a Search after Bass, by H. H. Hooper, must secure attention from those who find their most enjoyable recreation in fishing. Judge Pinkham reminds us of old times in a delightfully reminiscent article on the Wayside Tavern and the Shooting Match. The scarcity of partridges, a subject of so much comment amongst sportsmen, is discussed, the conclusion arrived at being that in all probability the birds have been killed off by a disease which has been general in its character and results. Variety is given in an exploration paper entitled Fresh Fields in the Rockies; In a Boys' Camp in Temagami and others. My Experience in Shot Guns and a Review of Guns and Gunning, raise many questions connected with firearms which cannot fail to interest all sportsmen. The departments are one and all up-to-date and the number testifies to the leading position attained by the magazine and the strength with which it commences its tenth year of vigorous life.

THE FLAVOR

and purity of our Beer wins many friends. No expense is spared in the brewing and bottling.

Calcutt's Lager Beer Ale and Porter

costs you no more than you have often paid for inferior kinds. If you could get the best results drink Calcutt's

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

Any person who is the sole head of a family, or any male over 18 years of age, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at any Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead duties under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3) If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of a homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father or mother.

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line exclusive of the width of road allowances crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents on joining land owned by himself must notify the agent for the district of such intention.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa, of intention to apply for patent.

W. W. CORY,
Deputy of the Minister of the Interior.

Weak Kidneys

Weak Kidneys, surely point to weak kidney Nerves. The Kidneys, like the Heart, and the Stomach, find their weakness, not in the organ itself, but in the nerves that control and guide and direct their lives. Dr. Shoop's Restorative is a Kidney Remedy prepared to reach these controlling nerves. To observe the Kidneys alone, is futile. It is a waste of time, and of money as well.

If your back aches or is weak, if the urine scalds, or is cloudy, highly coloring, if you have symptoms of Urinary or other distressing or dangerous kidney disorder, try Dr. Shoop's Restorative, a scientific Tablets or Liquid—and see what it can and will do for you. Druggists recommend and sell

Dr. Shoop's Restorative

"ALL DEALERS"

THE EDUCATED MAN.

Not All of His Knowledge Comes From Books and Schools.

The most important part of education comes from intercourse with people. From this side comes the education in love and duty and service. The customs of people stimulate imitation and emulation. By these men grow in power and skill. From observation of the character of people men form ideals of character for themselves and are transformed thereby. Herein lies the consummate educative power in Christianity—the transforming power of the divine man.

According to this new idea, education is not merely receiving, but giving; not learning alone, but doing. The educated man is open eyed and open minded, quick to respond to influences from without, learning from all his experiences and growing in power as he grows in knowledge. Charles Kingsley said of his father that "he possessed every faculty but the faculty of using his faculties." He was not an educated man, although he was a very learned one.

Education is an individual matter. No two men can be educated alike in manner or degree. They respond to different influences and grow in different ways. One becomes educated by way of schools and colleges and life, another by life alone. The measure of a man's education is the measure of his use in the world.—George W. Martin in Boston Globe.

A COSTLY NAP.

Slumber That Led to the Death of King Charles I.

In the middle of Holborn once stood an inn, the George and Blue Boar, and there took place an incident which entirely changed the whole tale of England's history.

As twilight was falling in October, 1648, a very tired post boy mounted on a sweating horse pulled up outside the old inn. The lad knew nothing of the importance of the letters which lay in his great bag. His orders were to convey them to a point on the Great North road, where he would be met by other messengers.

But Cromwell's spies had followed him from the south coast, for England's liberty depended upon his dispatches miscarrying. The boy had some supper and afterward fell asleep, his head pillowed on his post bag.

While he slept Cromwell's men took the bag and found in it a letter from King Charles I. to the Scottish generals arranging for his rescue, an immediate advance on London and the arrest and execution of Cromwell and his friends. That same evening Cromwell had the fatal letter and determined on Charles' death.—London Tit-Bits.

Her Exalted Position.

"Ye needn't think because ye can ma goin' an' comin' be th' back door fr Mr. Malcolm Goldborough's mansion that Of'm wan fv th' common servants fv th' house," said the haughty customer to the uncivil butcher.

"Oh," ejaculated the fat little man, abruptly turning obsequious, "are—are you a family connection of the great Goldborough's, ma'am?"

"Of'm more than a mere connection, sir."

"Pardon me," added the butcher, gazing patronizingly at this personage, "you're one of the family that's been abroad and whom I haven't had the pleasure of meeting before perhaps?"

"Ye'll have t' go higher than that."

"Not Mr. Malcolm's new wife?" gasped the fat little man. "I didn't have a suspicion that he"—

"Higher, man. Of'm higher."

"Higher!" almost collapsed the perfectly bewildered butcher.

"Th. Of'm th' cook!"—Bohemian.

Drug Store For Horses.

"I came across a queer little drug store the other day," said the city salesman. "It makes a specialty of veterinarian prescriptions. According to the proprietor's own account, they don't sell very much in that store except horse medicine. They sell more of that than any other drug store in town. The neighborhood abounds in stables and animals' hospitals, and most of the drugs used in doctoring sick horses are bought at that store. Of course the place is fitted up with the usual drug store paraphernalia. There is a soda water fountain, a cigar stand, postage stamps can be purchased there and drafts and doses for human beings will be compounded upon request, but those familiar and supposedly primary functions of a drug store are in this case a superfluity, because about all that druggist does is to put up cures for equine ailments."—New York Press.

Her Guess.

Wife—Have you any secrets you keep from me, dearest?

Husband—None, darling.

Wife—Then I am determined I will have none from you either.

Husband—Have you secrets, then?

Wife—Only one, and I am resolved to make a clean breast of it.

Husband (hoarsely)—Go on!

Wife—For several days I have had a secret—a secret longing for a new dress, with hat to match, for my birthday.

That finished him.—London Mail.

TRICKS OF THE BRAIN.

Experiences Which Physiological Theories Fail to Explain.

An uncle of mine with whom I was walking in a part of Yorkshire near Skipton, where neither of us had ever been before, stopped suddenly to say, "When we turn that corner you will see on the right an Elizabethan house partly surrounded by trees, with a lake or large pond showing through them, and in the middle of the water a little artificial island."

When we turned the corner we saw precisely what he had described, and yet he had never seen or heard or read of the place. The dual brain theory fails here, since neither lobe of the brain had received an impression of the place before we turned the corner.

Jean Jacques Rousseau in his "Confessions" says he foresaw in a reverie while taking a solitary walk all the incidents of the happiest day of his life as they occurred eight years later:

"I saw myself, as in an ecstasy, transported into that happy time and occasion, where my heart, possessing all the happiness possible, enjoyed it with inexpressible raptures, without thinking of anything sensual. I do not remember being ever thrown into the future with more force or an illusion so complete as that which I then experienced. What struck me most in the recollection of that reverie, now that it has been realized, is to have found objects so exactly as I had pictured them. If ever the dream of a man awake had the air of a prophetic vision that was assuredly such."

It is, I think, noteworthy that in all clairvoyant cases of this kind the body is through overwork or ill health or fasting or congenitally in the subdued state to which the Indian mystic and miracle monger reduces his own by mortification. It was so with Scott and Rousseau, and with William Howe when he had the following experience recorded in his memoir. When worn out with overwork he was shown into a certain room in a certain part of London where he had never been before.

"On looking around everything appeared perfectly familiar to me. I seemed to recognize every object. I said to myself: 'What is this? I was never here before, and yet I have seen all this, and if so there is a very peculiar knot in the shutter.' I opened the shutter and found the knot. Now, then, I thought, here is something I cannot explain on my principles; there must be some power beyond matter."

And from being a pronounced materialist he became a believer in spirits, and, indeed, eventually a profoundly religious soul.—T. P.'s London Weekly.

Keeping His Word.

Mrs. Fogarty (in fashionable restaurant)—Now, for goodness' sake, Mike, don't order Irish stew.

Mr. Fogarty—All right, I won't, dear. Waither, fetch me aythor some Hibernian soup or Celtic goulash!

A Point of View.

The new steamer City of —— was laid up for repairs, and one of the rickety old timers of the line was sailing in her place. A passenger who was somewhat irritated by the fact remarked to another, an Irishman, by the way, "The City of —— always gets in at 2 in the morning, and this old tub never gets in before 6."

The Irishman thought for a moment and replied: "It's all right. The distance is just the same, and we get a longer sail for our money."

Needed a Cloudburst.

Staying at an inn in Scotland, a shooting party found their sport much interfered with by rain. Still, wet or fine, the old fashioned barometer that hung in the hall persistently pointed to "set fair." At length one of the party drew the landlord's attention to the glass, saying, "Don't you think, now, Dugald, there's something the matter with your glass?" "No, sir," replied Dugald, with dignity, "she's a gude glass and a powerful glass, but she's no' moved wi' trifles."

Such Is Fame.

A learned correspondent writes: "I was examining a witness, an elderly woman, the other day. On my inquiring her name she said it was Mrs. Bardell and that she came from Gravesend. I asked, 'Did you know Charles Dickens?' She replied, 'Do you mean the undertaker?' Such is fame."—London News.

Make use of time while it is present with you. It depends upon your will and not upon the number of days to have a sufficient length of life.—Montaigne.

Piles are easily and quickly cured with Dr. Shoop's Magic Ointment. To prove it I will mail a small trial box as a convincing test. Simply address Dr. Shoop, Racine, Wis. I surely would not send it free unless I was certain that Dr. Shoop's Magic Ointment would stand the test. Remember it is made expressly and alone for swollen, painful, bleeding or itching piles, either external or internal. Large jar 50c. Sold by all dealers.

A RAISE IN MINING STOCK

ALLOTMENT SUBSCRIBED.

The requisite amount of stock has been subscribed and paid in full to enable the Company to proceed to allotment and commence business.

RAISE OF MINING STOCK.

THE GREAT NORTHERN LARDER LAKE MINING CO., Limited, proposes to advance price of their treasury stock to Twenty-five (25c) cents on June 22nd. Last chance to buy at ten cents a share, par value One Dollar, fully paid up and non-assessable.

The foreman, Mr. David Foster, of Cobalt, has started to work on the Company's property with a gang of men to develop veins already discovered also to continue striping in search of new gold veins.

We are erecting boarding houses and dining-rooms for our men.

HEAD COPY OF CERTIFICATE AND STATUTORY DECLARATION CONFIRMING SAME.

Toronto, March 28th, 1908.

To the Great Northern Larder Lake Mining Company, Limited:—

Gentlemen,—

I beg to confirm my previous report to you that in my judgment the surface showings on the 14 mining claims which the Company has acquired, being Nos. H.S. 21 to H. E. 234, both inclusive indicate the probability of the existence of large bodies of both high grade and low grade free-milling ore, sufficient to pay dividends for an indefinite period.

I have personally inspected all of the fourteen claims now transferred to the Great Northern Larder Lake Mining Company, Limited. I have taken samples containing gold values from said property, and from my personal examination, and from assays made, I believe the Company's property when developed, will prove very valuable. I have full confidence in the success of the said Company, and on this account, with the exception of $400 already received, I have agreed to accept stock in said Company, and a note which I believe will not be of much value should the actual development work not prove the said claims to contain gold in paying quantities as it is not payable for one year from this date or until after the Company shall have done the necessary development work on said claims. And I make this solemn declaration conscientiously believing it to be true and knowing that it is of the same force and effect as if made under oath, and by virtue of "The Canada Evidence Act."

DAVID A. FOSTER.

Declared before me at Toronto, in the County of York, this 31st day of March, 1908. J. T. LOFTUS, A. Commissioner in H. C. J.

PROPERTIES TRANSFERRED.

Since the prospectus was printed, the sale of the 14 mining claims to the Company has been completed and the transfers to the Company are registered in the Recorder's Office at Larder City. There is no mortgage or other encumbrance against said claims.

10c. PER SHARE.

Par Value One Dollar fully paid Up and Non-assessable.

terest in the Company rather than sell for any price that seemed reasonable to the purchasers.

DAVID A. FOSTER,
Haileybury.

IN THE MATTER OF THE GREAT NORTHERN LARDER LAKE MINING CO., LTD.

Statutory Declaration.
DOMINION OF CANADA
County of York
TO WIT:

I, David Foster, of the town of Haileybury, in the district of Nipissing, miner, do solemnly declare that the statements in the annexed certificate are true. I have personally

ADVERTISE IN THE TIMES.

RAWHIDE-DULZURA

1 CENT A 2 SHARE

Send us your name as a member in this new company, with your remittance for as many thousand shares as you can take at $5 per thousand.

This is a short-time offer on a hurry-up proposition. Our vice president is up at Rawhide now putting the miners at work. We want to raise the necessary funds for development as quickly as possible. Therefore, we offer the first block of stock at $5 a thousand shares. This subscription must be all cash. We want the money in hand. We mean to work without letup, and we have made it an iron-clad rule not to run in debt. Cash counts now.

Our prospectuses are out. Send for one.

Make reservation of stock, if you do no more. But, remember, this present offer of stock at Half a Cent a Share is now open, and will be closed as soon as enough cash subscriptions are in hand. Don't wait, or you will get left.

The gold mining property owned outright by the company consists of 7 claims, 5 in the Rawhide district of Nevada, and 2 in the Dulzura district of Southern California.

The Rawhide district to-day is more famous than Goldfield, Tonopah, Bullfrog, or Searchlight were at the same stage of exploration and development. The Dulzura discovery is one of the most sensational in the history of California.

Ten samples of ore which were among the first assayed, run as high as $7,651.87 to the ton, and all ten averaged over $1,500 a ton.

In both camps we located early, and our locations are chosen. Our own officers will superintend the mining.

ADVERTISE IN THE TIMES.

Appetite Gone Nerves Badly Run Down
A Strong Moral Well Exemplified in Mrs. Wilson's Case.

Like thousands of other people at this season of the year Mrs. E. P. Wilson was tired and worn out—winter sorely tried her health and vigor. But now she is robust and well, eats well, sleeps well, feels invigorated and braced. "For some years," writes Mrs. Wilson of Waltmete, P.O., "I suffered from systematic weakness, biliousness and depressing headaches. I could take little nourishment and grew thin and pale. If I ate a hearty meal the result was dreadful. Pains started at my chest, and spread all through my body going across my stomach, back and right side. I was discouraged till a friend insisted on me taking Dr. Hamilton's Pills. They made a new woman of me, and for the past eight months my health has been perfect. For a good cleaning, rejuvenating medicine I urge every one to use Dr. Hamilton's Pills."

There is extraordinary and magic power in *Dr. Hamilton's Pills*; they bring vigor, tone, health, and spirits—are compounded from the most wonderful and healing juices and essences in vegetable life—are safe for young and old, and guaranteed to kindle renewed activity and strength in every system that is weak, sickly or run down from kidney, liver, stomach or bladder trouble. Get Dr. Hamilton's Pills of Mandrake and Butternut—today—25c. at all dealers.

Secure tickets from any Grand Trunk ticket agent.

Dave Belland will go to Olympic Games
The Quebec Chronicle says; Dave Beland, of this city, the fast 100 yards runner, will go to the London Olympic games, where he will compete under the colors of the Zouave A. A. A. Beland has on various occasions shown that he can cover the ground and even in the recent trials held in Montreal, although running at a serious disadvantage he clearly showed that he could hold his own with the best of them. The Zouaves therefore, undertook to send him to England, and when Dave sails away to represent Quebec at the Olympics, he will be followed by the best wishes of a host of friends.

Pains are easily and quickly checked with Dr. Shoop's Magic Ointment. To prove it I will mail a small trial box as a convincing test. Simply address Dr. Shoop, Racine, Wis. I surely would not send it free unless I was certain that Dr. Shoop's Magic Ointment would stand the test. Remember it is made expressly and alone for swollen, painful, bleeding or itching piles, either external or internal. Large jar $1a. Sold by all dealers.

—The roof of the shed of the National Hotel which was blown off by a high wind recently is being replaced by Mr. A. Moore and his men.

Beware of Ointments for Catarrh that contain Mercury
as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

To Canadian Investors
The undersigned has received an allotment of unsold portion of $100,000 of
7 PER CENT FIRST MORTGAGE FIVE-YEAR-OLD BONDS
dated January 11, 1908, and maturing January 11, 1913. These Bonds are offered at par and accrued interest by Metropolitan Trust & Savings Bank, Chicago, trustees.

SECURITY—The Entire Property and Improvements Owned THE URES CONSOLIDATED MINING COMPANY in the District of Ures, State of Sonora Mexico, Free from Mortgage or Bonded Indebtedness, except this present Bond Issue.

An Unusual Opportunity for Investment in Sound Security
The Ures Consolidated Mining Company offers $100,000.00 of First Mortgage Gold Bonds. This issue of bonds is the only mortgage or bonded indebtedness ever placed on the company's properties.

These bonds are in the denomination of $100.00, and bear interest at the rate of 7 per cent. per annum, payable semi-annually, July and January, and are redeemable on or before five years from date at the company's option at $110.00 and accrued interest.

$100.00 Stock Bonus Given with Every $100.00 Bond
With each bond issued there will be given $100.00 par value of the capital stock of the company as a bonus, and in addition thereto there will be placed in escrow with the Trustee additional stock which will be available to the bondholders at their option any time within a period of three years, the bondholder being entitled to surrender his bond any time within said period and receive in lieu thereof stock for every dollar of indebtedness to him on account of said bonds.

The Security Back of these Bonds
The company owns twelve claims situated in the district of Ures, State of Sonora, Mexico, free from mortgage or bonded indebtedness, except the present bond issue.

On one of these properties (The Ramona Mine) 5,000 feet of underground development work has been done, consisting of an inclined shaft to the depth of 400 feet with drifts in three levels to the North and South of the shaft.

An average value of ore worth $11.47 per ton is exposed throughout the mine, from the collar of the shaft to the extreme parts in the drifts, all of which is above water level.

The company has made surface improvements and mine improvements to the extent of $60,000.00 in the way of machinery, skids, trams, steam hoists, mill and nearly everything necessary to make the mining camp complete.

In addition to the absolute ownership of these twelve valuable claims, the company has a lease on the San Jose Mine, adjoining its property, in which the company has been operating in high grade ore.

During the past sixty days the company has extracted and delivered to ore buyers and the bank at Hermosillo, $8,000.00 worth of ore and bullion, the ore having been reduced to bullion through the company's mill, with the exception of 1,454 pounds, which was sold to an ore buyer for $562.80.

The Money Derived from the Sale of These Bonds
This issue of bonds is made for the purpose of securing money at once in order to extend the development work more quickly than the company's present means will permit.

With the high grade ore in sight to the distance of 80 feet to the South of the shaft, the management is assured that within six months from date of making the improvements now necessary the company's properties will be on a self-sustaining and dividend-paying basis.

The Stock which is Given with these bonds will be as valuable as the bonds when the Company has the ready capital to push operations

Men who invest in these bonds will have no cause or reason to regret their action, for the bonds afford an investment in a security which is absolutely safe—much better than ordinary city or country real estate, which is considered perfectly safe if the property put up to secure a mortgage is double the face of the loan. The security given on these bonds is better than 7 to 1, for the Ures Consolidated Mining Company has refused an offer of $700,000.00 for the property upon which this $100,000.00 worth of bonds is issued.

These bonds are an investment with all speculative risk eliminated—an investment with absolute security.

Make your reservation at once. This is small and promises to be quickly sold.

Bank References
CAPITAL $1,500,000 RESERVE $950,000

Banco de Sonora,
Hermosillo, Mex.,
Feb. 11th, 1908.

To whom it may concern:—

We hereby beg to state that The Ures Consolidated Mining Company has during the past five years made several deliveries of bullion to this bank, and it is the opinion of mining men here that they have the making of a fair mine, and further, that the properties owned and controlled by them bid promise of becoming paying properties.

From our knowledge of the men connected, we believe they are doing all in their power to bring about the results above mentioned.

Respectfully,
BANCO DE SONORA,
Max Muller, Gerente.

Twenty-Five Thousand Anarchists Located in the Big U.S. Cities

The Army Enlisted for Destruction of Government is Big Enough to be Worth Considering

200,000 Radical Socialists

Buffalo, June 17.—It is not the numbers of the advocates of violence and violence that should be feared. Twenty-five thousand anarchists and 200,000 radical socialists is a liberal estimate out of our entire population of 80,000,000, says Hoffman Brandenburg. The gravity of the situation arises out of the fact that they are located in the great cities, the nerve centers of the nation and something in the very spirit of the mass of things. Leaders of men. If a gigantic labor upheaval affecting the one or four million men should occur, the crisis would find the anarchists and force socialists leading the mobs, and the consequences would be dire. In their ranks are the Bantons, Marats, and Robespierres of the coming outbreak. A fortnight would serve to test the strength of the following turned from thousands.

They have a long names for these b of them are call ing they come of them agree. There are St ists, free lovers, ists, anti-Democrats and a doz they do not does not abolish

Union Men! Attention!

The members of Peterboro Local, No. 191, American Federation of Musicians, desire to call the attention of all Union Men to the fact that it is distinctly contrary to the principles of unionism to join in a parade headed by a non-union band and more especially when such engagement is secured by cutting prices. Our scale of prices is most moderate and what is more important still, we fill our engagements with competent musicians, using the best instruments manufactured in the world.

Again we ask the hearty co-operation of all Union Men in a fight for fair prices [illegible] can deliver the

W. HUGHES, [illegible]

Peterborough, June 17th, 1908.

Comes Here Well Recommended

Chief of Police Rossel yesterday received a letter from the chief of police at Owen Sound, who highly recommends the newly appointed fire chief. The letter is as follows:

Owen Sound, June 15, '08

Chief Constable,

Peterborough, Ont

My Dear Chief.—We learn with regret that our fire chief, W. A. Howard, is about to leave Owen Sound to take the position of chief of the Peterborough Fire Department, and wish to recommend him to you in the very highest terms.

Become to us well acquainted and has made a host of friends among the better class of citizens.

I would like to hear you call upon him as soon as he arrives in your city and give him the right kind of good fellowship. He is a [illegible] to approach [illegible] regret forgiving his acquaintance. I am Sir,

Yours respectfully,

JOHN McCAFFERY,

Chief Constable,

Owen Sound

Mr. T. E. Bradburn Donates Trophy

Mr. T. E. Bradburn, M.P.P., has made a handsome silver trophy to be competed for annually as a championship award in the Peterborough Lacrosse Club. The trophy shall be known as the Bradburn Trophy, and shall be held by the winning team for the year. Mr. Bradburn has also donated a handsome gold medal to be competed for annually by the members of the Peterborough Lacrosse Club.

Frenzied Man Threw Lighted Lamp at Wife's Head

North Towanda, June 17.—Because his wife returned home Saturday night with a Buffalo man Lawrence Saj of 44 Eighth avenue, struck the woman with a lighted oil lamp, inflicting a deep scalp wound and setting fire to her clothing and the house. Neighbors who heard the conflict rushed into the house and found the woman lying on the floor in a comatose state, while the husband was putting out the fire started by the lamp breaking as it struck Mrs. Saj.

The fire in Mrs. Saj's clothing was put out before the woman was burned. She was revived with stimulants and the gash in the scalp bandaged until a physician could attend her. The Buffalo man disappeared when the trouble started.

The police took Mr. and Mrs. Saj and several of the neighbors to headquarters, where arrangements were made to have them appear in court today to settle their differences.

The Dread Plague Has Broken Out in Caracas

Caracas, June 17.— The dreaded plague has at last come to Caracas, which for a few months past has been hoping against hope that it might be spared from the scourge which had stricken the neighboring port of La Guayra. The city has awakened to the full knowledge that the dreaded is here, and the fact that the case on that of an employee of the famous La Iglesia cafe, one of the finest in Caracas, did not tend to decrease the general alarm. It was feared that the presence of the [illegible] plague in such quarters meant that no section of the city was safe from its ravages.

Recently an employee of La Iglesia cafe died suddenly and it was announced that the cause of death was typhus, or lock-jaw, although it became known that the body was buried immediately and a watch set on the house by the police. It was only today that the people became convinced that the plague had got real hold on the city. Officially no epidemic exists in Venezuela.

President Castro's decree of May 23, announced the stamping out of the nefarious disease and the opening of La Guayra to commerce. This decree has not been revoked, although the port has remained closed and there are numerous cases there at the present time. The most reliable figures obtainable from private sources give about one hundred cases in La Guayra since the epidemic began two months and a half ago. This is only a little more than one case a day, but the city has little over five thousand inhabitants.

Charm of the Circus Attracts Thousands of People

The old-time religion is good enough for most people, and so is the old-time circus. Cole Brothers' offering at the Exhibition grounds yesterday, did not provide much that has not been seen before, but it was there with most of what has been seen. Of course its efforts were mostly concentrated beneath the big tent, and the feats of skill shown there were of the A.1. calibre. The clowns were just as funny as ever, and created tours of laughter. The trapeze artists were with but few changes the same old agile and shingly bunch.

The feature of the show was the horses, which were the finest collection of equines ever seen here. And they raced, jumped and cakewalked to the intense delight of the audience. A bunch of bicyclists did nearly they being masters of the track cycle art. Then there were the elephants, headed by "Mighty Mary," a gigantic beast, who weighs close to five ton. They showed their cleverness by many tricks, which have all been seen here before. The camels belonging to the show number four, and their act was decidedly "bumpy."

The horse back riders won much popularity from the crowd, when they gave exhibitions of clever riding, without the "pigskin. The wire performers who numbered an even half dozen, pleased the people with an act composed of old and some new stunts. But they were very good. Three acts were put on at once, with clowns of all classes in the ring.

One of the new features was the race for boys, which was appreciated almost as much as the liberty horse, which ran its own race. The feature of the chariot contests last night was the fact that no one was hurt, for the crowd that intended to be wise and catch a car for home before the big rush began, flocked in the ring, and caused some bewilderment to the performers.

The lady of the "iron jaw" was there with the troops. Besides this it was a well managed entertainment.

No Opposition to the Supreme Chief Ranger

Toronto, June 17.—At 1.30 today press representatives was informed that the following contest would be held:

Supreme Treasurer—E. J. Hearn vs. Harry Collins.

Supreme Councillor—Mr. Meyers against W. H. Hunter.

Wood vs. Moran for P.S.C.R.

Crewse vs. Clark for V.S.C.R.

George Bailey, of Antwerp, may oppose Auditor Fitzgerald, or a chartered account be chosen instead.

The confidential talk of the Chief to-be follows the last evening in family affairs made the reelection of Mr. Elliott Stevenson by acclamation perfectly certain. He was elected this afternoon.

It also broke down the possibility of any concerted action of the "allies" in bringing up opposition to the other officers, and it was generally admitted this morning that Mr. Matheson, Supreme Secretary, and Dr. Millman, Supreme Physician, were also safe from opponents. Mr. W. H. Hunter had not announced his intention to let Mr. Meyers take his place as Supreme Councillor, but it was not expected he would run. Various rumors were abroad of opposition to the Past S.C.R., Vice S.C.R. and to Mr. Harry Collins as manager in Toronto.

Another quiet session marked the gathering of the Foresters this morning, and considerable progress was made on amendments to the constitution as applied to the office of the Supreme Chief Ranger.

After the 30th of September applications [illegible] shall be deemed to be the age of the nearest birthday at the date of application. Heretofore they have been rated as of the last birthday.

Women [illegible] admitted to membership in [illegible] courts in connection with a [illegible] initiated. [illegible] will not carry insurance, but will [illegible] local ones.

An [illegible] where [illegible] of financial [illegible] [illegible] to [illegible] [illegible] [illegible]

Twenty-Five Thousand Anarchists Located in the Big U.S. Cities

The Army Enlisted for Destruction of Government is Big Enough to be Worth Considering

200,000 Radical Socialists

Buffalo, June 17.—It is not the numbers of the advocates of revolution and violence that should be feared. Twenty-five thousand anarchists and 200,000 radical socialists is a liberal estimate now of our little population of 80,000,000, says Houghton Brandenburg. The gravity of the situation arises out of the fact that they are located in the great cities, the nerve centers of the nation, and something in the very spirit of them make them leaders of men. If a gigantic labor upheaval affecting three or four million men should occur, the crisis would find these anarchists and force socialists leading the mobs, and the consequences would be dire. In their ranks are the Dantons, Marats, and Robespierres of the coming outbreak, and a fortnight would serve to show the strength of the following turned from thousands into millions.

They have a large number of names for their beliefs, and very few of them are certain of what leading they come under, and very few of them agree on any given point. There are State socialists, communists, free love advocates, Christian socialists, athelistic socialists, social democrats, expropriatory socialists and a dozen other sorts. The fact that they do not agree with each other does not lessen their dangerous possibilities.

Every corrupt man who is also a man of power is helping anarchy, every corrupt trust magnate is helping anarchy; every bit of watered stock, and every watered legislator whose vote protects that stock is helping anarchy. They are helping anarchy because they give it a solid base from which to work. They are helping anarchy because they themselves violate society; they themselves become anarchy's Horrible Example. For these men are bad for the State; their money or power is also bad for the State; and thus they give the vicious, blinded anarchist an opportunity and an example from which to argue that all our society is rotten and our laws are wrong.

Union Men! Attention!

The members of Peterboro Local, No. 191, American Federation of Musicians, desire to call the attention of all Union Men to the fact that it is distinctly contrary to the principles of unionism to join in a parade headed by a non-union band and more especially when such engagement is secured by cutting prices. Our scale of prices is most moderate and what is more important still, we fill our engagements with competent musicians, using the best instruments manufactured in the world.

Again we ask the hearty co-operation of all Union Men in a Fight for fair prices for the men who can deliver the goods.

W. HUGHES, President. J. A. HARPER, Secretary
Peterboro Local 191. A.F. of M.

Comes Here Well Recommended

Chief of Police Rossel yesterday received a letter from the chief of police at Owen Sound, who highly recommends the newly appointed fire chief. The letter is as follows:

Owen Sound, June 15, '08.
Chief Constable,
Peterborough, Ont.

My Dear Chief.—We learn with regret that our fire chief, W. A. Howard, is about to leave Owen Sound to take the position of chief of the Peterborough Fire Department, and wish to recommend him to you in the very highest terms.

He came to us well recommended and has made a host of friends among the better class of citizens.

I would like to have you call upon him as soon as he arrives in your city and give him the right hand of good fellowship. He is a capital fellow and easy to approach. You will never regret forming his acquaintance. I am sir,

Yours respectfully,
JOHN McCAULEY,
Chief Constable.
Owen Sound.

Mr. T. E. Bradburn Donates Trophy

Mr. T. E. Bradburn, M.P.P., has donated a handsome silver trophy as the championship award in the Junior Guild Baseball League.

Ended His Life Rather Than go to Court

Chatham, June 17. — Alexander Grover, a well-known Chathamite, committed suicide this morning by shooting himself above the heart with a 32-calibre rifle. He was 65 years of age, and for a number of years was engineer at the Blonde factory. The morning his son called him at 5.30, and then went to breakfast. About 6.20 he heard a noise like the closing of a door, and upon investigation found his father at the top of the stairs, partly dressed, with the bullet wound in his breast, and bleeding badly. Mr. Grover didn't speak a word and died a few minutes afterward.

For the past two weeks Grover had been despondent. He suffered greatly from rheumatism, and was not able to work all the time, and this preyed on his mind. On Monday last he got into a quarrel with a neighbor named Jas. J. Waddell. Grover kept a cow, and the animal frequently got on the neighbor's property. Waddell called on Grover on Monday to complain of the actions of the cow, and some warm words ensued. It is understood that as a result of the quarrel Grover struck Waddell. The latter entered a police court charge of common assault against Grover, and the case was to have come up in court this morning. Grover seemed to be quite worried by the summons, and this may have been partially the cause of his rash deed.

Grover leaves a widow and two sons and two daughters. The family are all grown up.

Frenzied Man Threw Lighted Lamp at Wife's Head

North Towanda, June 17.—Because his wife returned home Saturday night with a Buffalo man Lawrence Saj of 44 Eighth avenue, struck the woman with a lighted oil lamp, inflicting a deep scalp wound and setting fire to her clothing and the house. Neighbors who heard the conflict rushed into the house and found the woman lying on the floor in a comatose state, while the husband was putting out the fire started by the lamp breaking as it struck Mrs. Saj.

The fire in Mrs. Saj's clothing was put out before the woman was burned. She was revived with stimulants and the gash on the scalp bandaged until a physician could attend her. The Buffalo man disappeared when the trouble started.

The police took Mr. and Mrs. Saj and several of the neighbors to headquarters, where arrangements were made to have them appear in court today to settle their differences.

The Dread Plague Has Broken Out in Caracas

Caracas, June 17.— The dreaded plague has at last come to Caracas, which for a few months past has been hoping against hope that it might be spared from the scourge which had stricken the neighboring port of La Guayra. The city has awakened to the full knowledge that the disease is here, and the fact that the case as that of an employe of the famous La India cafe, one of the finest in Caracas, did not tend to decrease the general alarm. It was realized that the presence of the bubonic plague in such quarters meant that no section of the city was safe from its ravages.

Recently an employe of La Indian Cafe died suddenly and it was announced that the cause of death was tetanus, or lock-jaw, although it became known that the body was buried immediately and a watch set on the house by the police. It was only today that the people became convinced that the plague had got real hold on the city. Officially no epidemic exists in Venezuela.

President Castro's decree of May 23, announced the stamping out of the nameless disease and the opening of La Guayra to commerce. This decree has not been revoked, although the port has remained closed and there are numerous cases there at the present time. The most reliable figures obtainable from private sources give about one hundred cases in La Guayra since the epidemic began two months and a half ago. This is only a little more than one case a day, but the city has little over five thousand inhabitants.

Charm of the Circus Attracts Thousands of People

The old-time religion is good enough for most people, and so is the old-time circus. Cole Brothers' offering at the Exhibition grounds yesterday, did not provide much that has not been seen before, but it was there with most of what has been seen. Of course its efforts were mostly concentrated beneath the big tent, and the feats of skill shown there were of the A.1. calibre. The clowns were just as funny as ever, and created roars of laughter. The trapeze artists were with but few changes the same old agile and showy bunch.

The feature of the show was the horses, which were the finest collection of equines ever seen here. And they raced, jumped and cakewalked to the intense delight of the audience. A bunch of bicyclists did nearly, they being masters of the trick cycle art. Then there were the elephants, headed by "Mighty Mary," a gigantic beast, who weighs close to five ton. They showed their cleverness by many tricks, which have all been seen here before. The camels belonging to the show number four, and their act was decidedly "humpy."

The horse back riders won much popularity from the crowd, when they gave exhibitions of clever riding, without the "pigskin." The were performers who numbered an even half dozen, pleased the people with an act composed of old and some new stunts. But they were very good. Three acts were put on at once, with clowns of all classes in the ring.

One of the new features was the race for boys, which was appreciated almost as much as the liberty horse, which ran its own race. The feature of the chariot contest last night was the fact that no one was hurt, for the crowd that intended to be wise and catch a car for home before the big rush began, flocked in the ring, and caused some bewilderment to the performers.

The lady of the "iron jaw" was there with the goods. Besides this it was a well managed entertainment.

No Opposition to the Supreme Chief Ranger

Toronto, June 17.—At 1.30 today press representatives was informed that the following contest would be held:

Supreme Treasurer—E. J. Hearn vs. Harry Collins.

Supreme Councillor—Mr. Meyers against W. H. Hunter.

Wood vs. Morin for P.S.C.R.

Crease vs. Clark for V.S.C.R.

George Bailey, of Antwerp, may oppose Auditor Fitzgerald, or a chartered account be chosen instead.

The confidential talk of the "Chief" to his followers last evening at family affairs made the reelection of Mr. Elliott Stevenson by acclamation perfectly certain. He was elected this afternoon.

It also broke down the possibility of any concerted action of the "allies" in bringing up opposition to the other officers, and it was generally admitted this morning that Mr. Matheson, Supreme Secretary, and Dr. Millman, Supreme Physician, were also safe from opponents. Mr. W. H. Hunter had not announced his intention to let Mr. Meyer take his place as Supreme Councillor, but it was not expected he would run. Various rumors were abroad of opposition to the Past S.C.R., Vice-S.C.R. and to Mr. Harry Collins as Supreme Treasurer.

Another quiet session marked the gathering of the Foresters this morning, and considerable progress was made on amendments to the constitution as appended to the report of the Supreme Chief Ranger.

After the 30th of September applications initiated shall be deemed to be the age of the nearest birthday at the date of initiation. Heretofore they have been rated as of age at last birthday.

Women may be admitted as social members to companion courts or courts into which both sexes are admitted. These will not carry insurance, but will pay the local rates.

An ambiguity in the constitution which allowed the offices of financial secretary and treasurer in local lodges to be held by one person was done away with.

It was also decided to abolish the Total Disability Department by transferring it to the Mortuary Department, to which it formerly belonged.

A special committee was appointed to prepare a suitable memorial of the late Supreme Chief Ranger, Dr. Oronhyatekha. The members, all of whom were intimate associates, are: Messrs. Edward Botterell, Jas. R. Halkett, E. S. Cumming, Dr. T. Millman, and Hon. D. D. Aitken.

Mr. Victor Morin of Montreal, was re-elected Past Supreme Chief Ranger by 155 to 41. His opponent was Dr. Crain, of Chrysler, Ont.

LATER.

S.C.R.—*Elliott G. Stevenson
P.S.C.R.—xVictor Morin.
S.V.C.R.—*Joseph D. Clark
S.S.—*R. Matheson.
S.T.—xHarry Collins

*Re-elected by acclamation.
xRe-elected.

Toronto, June 17.—Such in part, were the officers elected by the I.O.F. Supreme Court this afternoon. The Supreme Chief Ranger went back into office to the tune of "He's a jolly good fellow."

Harry Collins, who once aspired to succeed him in office, was opposed for the office of Supreme Treasurer, which he has held for about fifteen years, by five aspirants. He was re-elected, however, after two ballots.

Beware of Ointments for Catarrh that contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Saturday's ball game between the Athletics and the unbeaten "Petes" should be a stellar one, and with the help of Old Saul the date should be a banner one for baseball in Peterborough.

The Athletics will be considerably strengthened for the game and with any kind of luck, will make the Johnstonites a step lively to beat them.

COMMON SENSE

Leads most intelligent people to use only medicines of known composition. Therefore it is that Dr. Pierce's medicines, the makers of which print every ingredient entering into them upon the bottle wrappers and attest its correctness under oath, are daily growing in favor. The composition of Dr. Pierce's medicines is open to everybody. Dr. Pierce being desirous of having the search light of investigation turned fully upon his formulas, being confident that the better the exact nature of these medicines is known the more will their great curative merits be recognized. Being wholly made of the active medicinal principles extracted from native forest roots, by exact processes original with Dr. Pierce, and without the use of a drop of alcohol, triple-refined and chemically pure glycerine being used instead in extracting and preserving the curative virtues residing in the roots employed, these medicines are entirely free from the objection of doing harm by creating an appetite for either alcoholic beverages or habit-forming drugs. Examine the formula on their bottle wrappers—the same as sworn to by Dr. Pierce, and you will find that his "Golden Medical Discovery," the great blood-purifier, stomach tonic and bowel regulator—the medicine which, while not recommended to cure consumption in its advanced stages (no medicine will do that) yet does cure all those catarrhal conditions of head and throat, weak stomach, torpid liver and bronchial troubles, weak lungs and hang-on-coughs, which, if neglected or badly treated lead up to and finally terminate in consumption.

Take the "Golden Medical Discovery" in time and it is not likely to disappoint you if only you give it a *thorough and fair* trial. Don't expect miracles. It won't do supernatural things. You must exercise your patience and persevere in its use for a reasonable length of time to get its full benefits. The ingredients of which Dr. Pierce's medicines are composed have the unqualified endorsement of scores of medical leaders—better than any amount of lay, or non-professional, testimonials. They are not given away to be experimented with but are sold by all dealers in medicines at reasonable prices.

Letters to the Editor

"A Tempest in a Teapot"

To the Editor of The Times.

Dear Sir,—As considerable exaggerated gossip is being circulated concerning the trouble arising from the fact that a quantity of wheat belonging to the Central Milling Co., was, at different times during the past month, taken from a car which had been standing on the siding near their mill, and was sold to two respectable south end residents, one of whom, Mr. D. Mohr, was suspected of having known that the wheat was stolen and in consequence of which was brought up in court, and although a small fine was imposed on the latter, yet considerable doubt exists in the minds of many as to whether he was guilty or not. These men know Mr. Moter best entirely repudiate the idea of guilty knowledge, notwithstanding the fact that some damaging circumstantial evidence was brought forward, but we must remember it was only circumstantial—there were no facts produced, and there were also existing circumstances which should not be lost sight of.

As near as I can understand the facts of the case, are about as follows:—On or about the 20th of May, the seal on one of the wheat cars was found to have been broken. On being weighed, the car was 41 bushels short. Suspicions were immediately fastened on those two citizens, who had, both, a short time previous, delivered wheat at the mill. Those persons, on being interviewed, acknowledged having bought the wheat from five boys who said they got it at the spur line and that it was what is known as sweepings. These sweepings, they said, are usually dirty, but when taken from the linings of the car they sometimes got as much as a bushel and a half of clean wheat, from one car and that they had swept as many as ten or twelve cars in one day. In bringing this wheat, the evidence went to show, that each boy brought about a bushel at each trip. In selling to the livery man and others during the past winter, they had often sold more than that amount at one time, and not only boys but also respectable men have taken a hand in this car-sweeping business. So that we cannot be very much surprised that an unsuspicious person could be judged into believing that it was what they represented it to be. He had no reason to conclude they were lying. He had on one occasion last winter bought a small quantity of oat sweepings from these same boys. This however, was the extent of his personal experience in this kind of business. He had, however, when engaged in the dredge near the spur line, during the past two summers, seen, perhaps, eight or ten bags of sweepings taken from there in one load.

To this we may add that those persons who bought and sold this stolen wheat made no effort to cover their tracks. They acted as any honest people would act in the ordinary routine of business.

When they got a few bushels together they hired a carter, not at an unreasonable or suspicious hour, but in broad day light, and had it taken to the elevator and sold there. How they know or even suspected it was stolen one would have thought it not a difficult matter for either of them, but especially the one who was up in court, and who has any number of friends in the farming community, to have procured a farmers outfit and have sold his load as farmers wheat. Again, Mr. Moter's action neither before nor after the trial seemed to indicate that the man carried with him a guilty conscience. Until the eve of the trial we find him at his usual employment and the day after we find him there again, proving that a man with a clear conscience does not fear the search light of public opinion.

Again if they knew it was stolen, they must have known it was stolen from the Central Milling Co. If they knew it was stolen from said company and then took it back to them for sale, they were fitter subjects for a lunatic asylum than for a prison.

And now, to "cap the climax" when all has been settled we find that not only the wheat, but also the bags in which it was taken to market, belonged to the Central Milling Co. Can we be surprised that Mr. Moter was deceived in regard to their ownership, when those men at the mill who are handling these bags every day did not recognize them. The company have, however, one satisfaction, if they had to pay a second time for their wheat. They have the consolation of having their bags returned free of charge.

Thanking you for four valuable space, I remain,

Sincerely yours,
NEIGHBOR.

Peterboro City Band

To the Citizens of Peterborough:

We wish to make a few statements and correct some mis-statements made by the 57th Band or some members thereof. We are a new band, organized last Christmas, most of our members being old bandmen and competent musicians.

We have paid our own expenses, bought our own instruments from money subscribed ourselves and proceeds of our concerts, serenades, etc.; the 57th Band got $140.00 from the city, a government grant, or rather a regimental grant for music, free room from the city and loan of the use of instruments mostly owned by the city and yet with these advantages they are doing their utmost to injure us and crush us out of existence, the same as they have done with every Band that has started here, but we don't think their methods will appeal to the citizens of Peterborough.

We would have paid no attention to them but for the mis-statements of facts in their call to the Union. We have as many union men in our Band as they, and I don't think their call will affect anyone. Now they claim we cut prices. We gave a figure for Thursday's playing for $15.00 for 12 men to play from 6 o'clock till seven, that is in all 36 hours at an average of about 40 cents per hour per man. Now we are informed on good authority that the 57th Band played for a certain event here for 25 cents per hour per man, and made the excuse that if they had not played for that "Comedy Band" would have got it.

Now, we did not figure on the Job. Our Sec.-Treas. met one of the parties and was told that he thought the 57th had the job. So we went no further into the matter.

Furthermore, in regard to Union matters, we are informed that competent musicians who were not in the ring have been rejected by the Union. Let any member of their Band, if he don't know one note from another, be illegible. Taking out three or four solo players who are paid a salary by the Band, we will play against them any time they wish.

Now it is plain to be seen that it is not the good of the Union they seek, but the power to crush out all opposition.

Thanking you for this insertion, I remain,

W. A. ELLIOT,
Sec.-Treas. Peterborough City Band.

The Oldest Voter at Provincial Elections

Keene, June 16.—Who was the oldest voter at the provincial election? There is but little doubt that the honor goes to Mr. Robert Hope, of Villiers, who is 96 years of age, and who voted for Mr. Thompson, ex-East Peterborough.

This gentleman, who in spite of his 96 years is in good health, voted at Villiers polling subdivision. He spent a week before elections trying on different pairs of spectacles to enable him to mark his ballot for Mr. Thompson as his eyesight is failing. On election day he put in his appearance at 7 o'clock and finding that the poll was not opened till nine o'clock, walked some distance to his home and walked back at nine o'clock, polling the first vote polled at Villiers that day.

Villiers, which has usually given a Liberal majority on this occasion gave a majority of thirty-six for Thompson, the best Conservative majority it ever gave.

No Cigarete Smoking Until Over Eighteen Years Old

Ottawa, June 17.—The cigaret bill was before the House yesterday. It absolutely prohibits the sale of cigarets, cigaret papers, and tobacco in any form to boys, whether for use or not.

Mr. Miller thought a boy of 18 was just as apt to be injured physically by smoking as one of 16.

Mr. Wright said his experience was that boys were boys until they were 18. (Laughter.)

Mr. Henderson also supported the amendment. There were, he said, some men of 25, and even more than 25, who required to be restrained. He did not think cigarets were good for anybody.

Mr. Schaffner favored the age limit being raised above 18.

Dr. Black did not think that any youth under 21 should be allowed to smoke.

Dr. Daniel pointed out that in New Brunswick the age limit was 18 years.

Hon. Mr. Aylesworth said the age limit varied in different provinces. In Ontario and New Brunswick it was 18; in Nova Scotia, Prince Edward Island, and in the new provinces in the West, 16; and in British Columbia, 15. If they fixed the limit at 18 they would impose a very considerable task upon the constables whose duty it would be to confiscate the smoking material of the boys caught. If, however, the House want ed it he was agreeable.

Mr. Blain thought the bill did not go far enough. He was in favor of prohibiting the importation, manufacture, and sale of cigarets.

Dr. Sproule did not think the Act would prove effective.

The amendment changing the age limit to 18 was carried.

Mr. Macpherson objected to the amendment, declaring that he was earning his living and smoking when he was 15, and, thus contributing to the revenue of the country.

The bill was reported, and the third reading stood over in order that Mr. Blain might have an opportunity to move his amendment, prohibiting the importation, manufacture, and sale of cigarets.

To stop any pain anywhere in 20 minutes, simply take just one of Dr. Shoop's Pink Pain Tablets. Pain means congestion—blood pressure—that is all. Dr. Shoop's Headache—or Pink Pain Tablets—will quickly ease blood pressure away from pain centers. After that, pain is gone, with women, etc., get instant help. 20 Tablets 25c. Sold by all dealers.

A Big Slump in the Value of Thoroughbred Horses

Hamilton, June 17.—The passing of the anti-betting bill in New York States has caused a big slump in the thoroughbred market, and many of the owners at Hamilton track hardly know what to do with their gallopers. It is expected that the customs authorities will have considerable trouble at the close of the meeting, as owners will abandon their horses rather than pay the shipping expenses to distant points. All altered United States horses are bonded at $500 each. The Hamilton Jockey Club tags on each hood, and many of them are not worth $50 now. The bonds amount to about $100,000. There is no duty on fillies, mares and stallions. This morning a number of private sales took place at the track. James Mackay bought a 2-year-old filly, Cherry Picker, and Jockey Ray bought Alarmist, who ran fourth the other day at 100 to 1, for $500. Before the race Mr. Healey offered to sell Alarmist, a 2-year-old, for $25 and the entrance fee.

Four Alleged Pickpockets Arrested

Four alleged pickpockets were gathered into the hospitable fold of the police by P.C.'s Newhall and Mc-Barry yesterday afternoon. The light-fingered gentry are thought to have been operating on the crowd at the circus, for when they were arrested, a search gave evidence that they had obtained a hoard of wealth in money, watches and jewelery of all sorts. The men implicated are all well-dressed, fine appearing young men who had from Uncle Sam's domain.

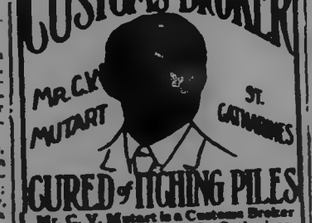
CUSTOM'S BROKER



CURED of ITCHING PILES

Mr. C. V. Mutart is a Customs Broker and Insurance Agent at St. Catharines, Ont. He writes the Zam-Buk Co. as follows: "I have been a sufferer for years with itching piles. I have spent many dollars on advertised remedies for Piles but got no relief. A friend of mine advised me to try Zam-Buk. I had but little faith in any remedy to cure me, but tried one box and I got relief at once. I have used four boxes and am completely cured. I cannot thank you enough for such a wonderful curative salve. I have recommended Zam-Buk to my friends and they too were cured."

ZAM-BUK Sold by all druggists and stores at 50c. box. Zam-Buk Co., Toronto.

Medicine in the Spring Needed by Everyone

Winter Weakens the System, Saps the Blood, Leaves Us Tired and Thin

Great epidemics break out in spring, such as fevers, pestilence, and infectious skin diseases.

Winter shuts us in from air and only the most robust get even a little sunshine. As a consequence of this unnatural mode of life, the blood becomes polluted, thin, colorless. Then we grow listless, dull, easily tired, have headaches and find our work a burden.

Reduced to this condition we become an easy prey to disease and fill hospitals and churchyards.

To rapidly form rich blood, to expel the accumulated humors that winter has stored up in the system, to call back the energy, endurance and vim that will make life joyous, just take Ferrozone, a spring cleanser, unequalled in medicine.

Ferrozone purifies by rebuilding nerve tissue and vitalizing the blood. The entire system soon feels the beneficient action of new rich blood; slow organs are stimulated to normal activity, expel poisons and wastes from tiffully, harmonious working of the system. Weak folks are restored and health becomes as natural a consequence as growth from moisture and sunlight.

Men and women fortify your nerves with Ferrozone, renew the blood through its marvelous blood-forming power, regain vigorous and enduring strength by its action upon appetite and digestion. Use Ferrozone if you want to be strong.

"I increased my weight seven pounds in one month and regained health that had been lost for two years—did this by using Ferrozone," writes Mrs. C. B. Mayhew, of Cantertown. "Ferrozone brought me restful sleep and good digestion, enabled me to relish my meals and work hard all day. I consider it the finest tonic, the most nourishing medicine I ever used."

Try Ferrozone yourself, 50c per box or six boxes for $2.50, at all dealers.

Morning Times

published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

HOME RULE FOR SCOTLAND

The introduction of a Bill to give Home Rule to Scotland is an interesting development, and seems like a cater tactical move on the part of the Government to lessen the opposition to similar legislation for Ireland. On general principles it would appear to be difficult to refuse to one part of the United Kingdom what is granted to another, although the circumstances in the two cases may be entirely different. For the better despatch of business in the British Parliament the gradual transfer of purely domestic business to local legislative bodies is undoubtedly a wise policy from an Imperial point of view.

Czar Virtually Prisoner In Russian Capital

St Petersburg, June 15.—When Nicholas II. returned from England after attending the marriage of the Prince of Wales a Court lady, who told me the story, asked him what had impressed him most in London.

"The crowd," he replied, "waiting outside Buckingham Palace to see Queen Victoria. People stood there for hours, and then at last a little black carriage come through the gates; few could catch a glimpse of the Queen, but they knew that she was there, and they went away happy.

"One day," he added, "it will be like that in Russia."

That was before the days of the revolution and the savage repression which is following it. If anything in this world is certain, it is that Nicholas II. will not live to see his prophecy fulfilled. He is afraid of his people. He does not dare to drive through the streets of his capital. He lives like a prisoner at Tsarskoe Selo (Imperial Village) in the winter, and in summer time at Peterhof, on the Gulf of Finland. Only once since the opening of the first Duma, in the spring of 1906, has he been in St. Petersburg.

The great Church of the Resurrection, built on the spot where his grandfather, Alexander II., fell at the hands of assassins, was to be consecrated, and he could hardly be absent. But his subjects were not informed of his intention. The secret leaked out, yet no newspaper dared to publish it, for an editor who gives any information not officially authorized about the movements of members of the Imperial family is liable to a fine of 100 guineas or three months' imprisonment.

LIKE BEAR IN HIS DEN.

Never did a Sovereign come to his capital in stranger fashion. The Imperial yacht brought him up the Neva from Peterhof. His subjects could not get within sight of him as he drove the short distance from the quay to the church, for all the adjoining streets were held by troops. Even the British Ambassador was requested to see that the windows of the Embassy were closed, so that there should be no chance of a bomb being hurled from them at the carriage of the Autocrat. When the ceremony was over the people on the quays could see him on the deck of the yacht as it took him back to his palace prison, and they stared at him in silence, as men stare at some strange beast.

"What is our Czar?" said a soldier; "a bear in his winter den."

The den, however, is comfortable enough, and life in the palace passes agreeably. The Czar is a man of businesslike habits, and clockwork regularity is observed in his home. The Imperial children rise at seven, and all five are given a bath every morning. An hour later their father gets up, and takes a simple breakfast of tea and bread and butter before beginning his work. His secretaries are ready for him at nine.

Nearly every morning one, and often several, of the Ministers arrive from St. Petersburg to see the Emperor about state business. When they are new they are always charmed with the cordiality with which the Czar agrees with what they say; but the old hands know that when they are gone he often does the diametrically opposite of that which they have suggested.

CHANGE OF DINING-ROOMS.

At one o'clock the Emperor and the Empress lunch together, and often Miss Schmit, the lady who taught the Empress Russian when she first arrived in the country, is invited. Ever since the time when the dining-room in the Winter Palace was blown up just before the Imperial party went in to dinner, the custom has prevailed at Court of constantly changing the room in which meals are served. Most people in the palace do not know until the last moment in which department the Czar will lunch or dine. A short time ago one of the Ministers was with the Czar in his study when the little Grand Duchess Marie ran in and said, "Mamma asks you to luncheon". To his astonishment he found that the meal was served in the Empress' boudoir. "It will be in the bathroom next time," remarked his daughter when he told her.

The Imperial table is provided for by three restaurateurs. One of them is on duty for three months, and then, in order to give the Czar a complete change in the bill-of-fare, he is succeeded by one of the others, who, remains in power for another three months. They have the right to make a fixed charge per head for every meal served in the palace.

In the afternoon the Czar always goes for a ride or a walk in the park, and after dinner, which is at eight, there is often music. The Czar's eldest daughter, the Grand Duchess Olga, plays the violin very creditably, and her father, who is a good pianist, is fond of playing her accompaniments. Russians often say that Nicholas II. is a bad Emperor, but a good man. Certainly as a father and as a husband he is ideal. He is bound up in his children, and very much in love with his wife.

If one feels dull and spiritless, in the spring or early summer, they call it "Spring Fever." But there is no fever—usually. It is the after effect of our winter habits. The nerves are mostly at fault. Tired worn-out nerves, leaves us languid, lifeless, and without spirit or ambition. A few doses of Dr. Shoop's Restorative will absolutely and quickly change all of these depressing symptoms. The Restorative of course won't bring you back to full health in a day or two, but it will do enough in 48 hours to satisfy you that the remedy is reaching that "tired spot." Druggists everywhere are advising its use as a splendid and prompt general tonic. It gives more vim and more spirit to the spoonful than any other known nerve or constitutional tonic. It sharpens a failing appetite, aids digestion, frees sluggish livers and kidneys, and brings new life, strength and ambition. Test it a few days and be convinced. Sold by all dealers.

News in Brief

London, June 15.—For a first state engraving of the Duchess of Devonshire, by V. Green, after Sir J. Reynolds, 160 guineas was obtained at Christie's.

CHELSEA PAGEANT.

Princess Louise, who will be accompanied by the Duke of Argyll, will open the Chelsea Pageant at the Old Ranelagh Gardens, Chelsea Hospital, on the afternoon of June 25.

POSTAL RATES

A bill supported by a large number of deputies has been introduced in the French Chamber, reducing the rate on letters between France and Great Britain from 25 centimes to 10 centimes, and the telegraph rate between the two countries from 20 centimes to 10 centimes a word.

NO LIABILITY.

As a practical joke, a man named Fitzgerald, employed by Messrs. W. J. Clarke & Sons, a riverside firm, was "slung up" by a crane a distance of 50 feet by a fellow-workmen and dropped, with the result that he was crippled for life. The court of appeal upheld a county court decision that Fitzgerald could not recover from his employers under the Workmen's Compensation Act, as the accident had nothing to do with the man's employment.

Tenders for Fog Alarm Machinery

TENDERS addressed to the undersigned at Ottawa and endorsed on the envelope "Tender for Fog Alarm Machinery" will be received up to noon of the

FIRST DAY OF JULY, 1908

for supplying the machinery required by the Department of Marine and Fisheries, for fog alarm purposes during a period of one or three years, at the option of the Minister of Marine and Fisheries.

Specifications of the machinery can be procured at the Department here; at the Agencies of the Department at Montreal, Quebec, St. John, N.B., Halifax, N.S., Charlottetown, P.E.I., Victoria, B.C., at the Government Shipyard at Sorel, and the Pratt Lighthouse Depot.

Each tender must be accompanied by an accepted bank cheque for the sum of Five Hundred Dollars, payable to the order of the Minister of Marine and Fisheries. The cheque will be forfeited if the party whose tender is accepted declines to enter into a contract to furnish the machinery, or fails to carry out the contract. If the tender is not accepted the cheque will be returned.

The Department will not be bound to accept the lowest or any tender.

Newspapers copying this advertisement without authority from the Department will not be paid.

G. J. DESBARATS.
Acting Deputy Minister of Marine and Fisheries.

Department of Marine and Fisheries, Ottawa, Canada, 28th May, 1908.

Rod and Gun's Birthday number

With the issue for June "Rod and Gun and Motor Sports in Canada", published by W. J. Taylor, at Woodstock, Ont., enters upon its tenth year, and produces as a birthday number one that has not been surpassed by any of the fifty issues that have preceded it. Every one of the many articles appeals to sportsmen and lovers of outdoor life and may be read with interest. The record-breaking moose hunt of Dr. W. L. Monro in New Brunswick through which, for the first time in the history of the Province, the record is held by an outsider is rightly given a prominent position. Fishermen have their interests well looked after. In addition to a paper on Live Bait; How to Procure and Preserve the same, a story of Herring Fishing in the Rideau, and one descriptive of a One Hundred Mile Canoe Trip in a Search after Bass, by C. H. Hooper, must secure attention from those who find their most enjoyable recreation in fishing. Judge Prattack reminds us of old times in a delightfully reminiscent article on the Wayside Tavern and the Shooting Match. The scarcity of partridges, a subject of so much comment amongst sportsmen, is discussed, the conclusion arrived at being that in all probability the birds have been killed off by a disease which has been general in its character and results. Variety is given in an exploration paper entitled Fresh Fields in the Rockies; In a Boys' Camp in Temagami and others. My Experience in Shot Guns and a Review of Guns and Gunning, raise many questions connected with firearms which cannot fail to interest all shooters. The departments are one and all up-to-date and the number testifies to the leading position attained by the magazine and the strength with which it commences its tenth year of vigorous life.

SYNOPSIS Of CANADIAN NORTHWEST

HOMESTEAD REGULATIONS

reserve may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at an Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead duties under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3) If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of a homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father or mother.

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line exclusive of the width of road allowances crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the agent for the district of such intention.

Six months' notice in writing must be given to the Commissioner of Dominion Lands at Ottawa, of intention to apply for patent.

W. W. CORY,
Deputy of the Minister of the Interior.

Weak Kidneys

Weak Kidneys, surely point to weak kidney nerves. The Kidneys, like the Heart, and the Stomach, find their weakness, not in the organ itself, but in the nerves that control and guide and strengthen them. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the Kidneys alone, is futile. It is a waste of time, and of money as well.

If your back aches or is weak, if the urine scalds, or is dark and strong, if you have symptoms of Bright's or other distressing or dangerous kidney disease, try Dr. Shoop's Restorative a month—Tablets or Liquid—and see what it can and will do for you. Druggist recommend and sell

Dr. Shoop's Restorative

"ALL DEALERS"

THE EDUCATED MAN.

Not All of His Knowledge Comes From Books and Schools.

The most important part of education comes from intercourse with people. From this side comes the education in love and duty and service. The actions of people stimulate imitation and emulation. By these men grow in power and skill. From observation of the character of people men form ideals of character for themselves and are transformed thereby. Herein lies the consummate educative power in Christianity—the transforming power of the divine man.

According to this new idea, education is not merely receiving, but giving; not learning alone, but doing. The educated man is open eyed and open minded, quick to respond to influences from without, learning from all his experiences and growing in power as he grows in knowledge. Charles Kingsley said of his father that "he possessed every faculty but the faculty of using his faculties." He was not an educated man, although he was a very learned one.

Education is an individual matter. No two men can be educated alike in manner or degree. They respond to different influences and grow in different ways. One becomes educated by way of schools and college and life, another by life alone. The measure of a man's education is the measure of his use in the world.—George W. Martin in Boston Globe.

A COSTLY NAP.

Slumber That Led to the Death of King Charles I.

In the middle of Holborn once stood an inn, the George and Blue Boar, and there took place an incident which entirely changed the whole tide of England's history.

As twilight was falling in October, 1648, a very tired post boy mounted on a sweating horse pulled up outside the old inn. The lad knew nothing of the importance of the letters which lay in his post bag. His orders were to convey them to a point on the Great North road, where he would be met by other messengers.

But Cromwell's spies had followed him from the south coast, for England's liberty depended upon his dispatches miscarrying. The boy had some supper and afterward fell asleep, his head pillowed on his post bag.

While he slept Cromwell's men took the bag and found in it a letter from King Charles I. to the Scottish generals arranging for his rescue, an immediate advance on London and the arrest and execution of Cromwell and his friends. That same evening Cromwell had the fatal letter and determined on Charles' death.—London Tit-Bits.

Her Exalted Position.

"Ye needn't think because ye see me goin' an' comin' be th' back door fr Mr. Malcolm Goldborough's mansion that Of'm wan fr th' common servants fr th' house," said the haughty customer to the uncivil butcher.

"Oh," ejaculated the fat little man, abruptly turning obsequious, "are—are you a family connection of the great Goldborough's, ma'am?"

"Of'm more than a mere connection, sir."

"Pardon me," added the butcher, gazing patronizingly at this personage, "you're one of the family that's been abroad and whom I haven't had the pleasure of meeting before perhaps?"

"To'll have t' go higher than that."

"Not Mr. Malcolm's new wife?" gasped the fat little man. "I didn't have a suspicion that he"—

"Higher, mon. Of'm higher."

"Higher?" uttered the perfectly bewildered butcher.

"Yis. Of'm th' cook!"—Bohemian.

Drug Store For Nerves.

"I came across a queer little drug store the other day," said the city salesman. "It makes a specialty of veterinarian prescriptions. According to the proprietor's own account, they don't sell very much in that store except horse medicine. They sell more of that than any other drug store in town. The neighborhood abounds in stables and animals' hospitals, and most of the drugs used in doctoring sick horses are bought at that store. Of course the place is fitted up with the usual drug store paraphernalia. There is a soda water fountain, a cigar stand, postage stamps can be purchased there and drafts and doses for human beings will be compounded upon request, but those familiar and supposedly primary functions of a drug store are in this case a superfluity, because about all that druggist does is to put up cures for equine ailments."—New York Press.

Her Secret.

Wife—Have you any secrets you keep from me, dearest?

Husband—None, darling.

Wife—Then if I am determined I will have none from you either.

Husband—Have you secrets, then?

Wife—Only one, and I am resolved to make a clean breast of it.

Husband (feebly)—Go on!

Wife—For several days I have had a secret—a secret longing for a new dress, with hat to match, for my birthday.

Husband—Oh!—London Mail.

TRICKS OF THE BRAIN.

Experiences Which Physiological Theories Fail to Explain.

An uncle of mine with whom I was walking in a part of Yorkshire near Skipton, where neither of us had ever been before, stopped suddenly to say, "When we turn that corner you will see on the right an Elizabethan house partly surrounded by trees, with a lake or large pond showing through them, and in the middle of the water a little artificial island."

When we turned the corner we saw precisely what he had described, and yet he had never seen or heard or read of the place. The dual brain theory fails here, since neither lobe of the brain had received an impression of the place before we turned the corner.

Jean Jacques Rousseau in his "Confessions" says he foresaw in a reverie while taking a solitary walk all the incidents of the happiest day of his life as they occurred eight years later:

"I saw myself, as in an ecstasy, transported into that happy time and occasion, where my heart, possessing all the happiness possible, enjoyed it with inexpressible raptures, without thinking of anything sensual. I do not remember being ever thrown into the future with more force or an illusion so complete as that which I then experienced. That struck me most in the recollection of that reverie, now that it has been realized, is to have found objects so exactly as I had pictured them. If ever the dream of a man awake had the air of a prophetic vision that was assuredly such."

It is, I think, noteworthy that in all clairvoyant cases of this kind the body is through overwork or ill health or fasting or congenitally in the subdued state to which the Indian mystic and miracle monger reduces his own by mascaration. It was so with Scott and Rousseau, and with William Hone when he had the following experience recorded in his memoir. When worn out with overwork he was shown into a certain room in a certain part of London where he had never been before.

"On looking around everything appeared perfectly familiar to me. I seemed to recognize every object. I said to myself: 'What is this? I was never here before, and yet I have seen all this, and if so there is a very peculiar knot in the shutter.' I opened the shutter and found the knot. Now, then, I thought, here is something I cannot explain on my principles; there must be some power beyond matter."

And from being a pronounced materialist he became a believer in spirits, and, [illegible]ed, eventually a profoundly religious soul.—T. P.'s London Weekly.

Keeping His Word.

Mrs. Fogarty (in fashionable restaurant)—Now, for goodness' sake, Mike, don't order Irish stew.

Mr. Fogarty—All right, I won't, dear. Waither, fetch me sayther some Hibernian suey or Celtic goulash!

A Point of View.

The new steamer City of —— was laid up for repairs, and one of the rickety old timers of the line was sailing in her place. A passenger who was somewhat irritated by the fact remarked to another, an Irishman, by the way, "The City of —— always gets in at 2 in the morning, and this old tub never gets in before 6."

The Irishman thought for a moment and replied: "It's all right. The distance is just the same, and we get a longer sail for our money."

Needed a Cloudburst.

Staying at an inn in Scotland, a shooting party found their sport much interfered with by rain. Still, wet or fine, the old fashioned barometer that hung in the hall persistently pointed to "set fair." At length one of the party drew the landlord's attention to the glass, saying, "Don't you think, now, Dugald, there's something the matter with your glass?" "No, sir," replied Dugald, with dignity, "she's a gude glass and a powerful glass, but she's no' moved wi' trifles."

Such is Fame.

A learned correspondent writes: "I was examining a witness, an elderly woman, the other day. On my inquiring her name she said it was Mrs. Bardell and that she came from Gravesend. I asked, 'Did you know Charles Dickens?' She replied, 'Do you mean the undertaker?' Such is fame."—London News.

Make use of time while it is present with you. It depends upon your will and not upon the number of days to have a sufficient length of life.—Montaigne.

Piles are easily and quickly cured with Dr. Shoop's Magic Ointment. To prove it I will mail a small trial box as a convincing test. Simply address Dr. Shoop, Racine, Wis. I surely would not send it free unless I was certain that Dr. Shoop's Magic Ointment would stand the test. Remember it is made expressly and alone for swollen, painful, bleeding or itching piles, either external or internal. Large jar 50c. Sold by all dealers.

A RAISE IN MINING STOCK

ALLOTMENT SUBSCRIBED.

The requisite amount of stock has been subscribed and paid in full to enable the Company to proceed to allotment and commence business.

RAISE OF MINING STOCK.

THE GREAT NORTHERN LARDER LAKE MINING CO., Limited, purposes to advance price of their treasury stock to Twenty-five (25c) cents on June 22nd. Last chance to buy at ten cents a share, par value One Dollar, fully paid up and non-assessable.

The foreman, Mr. David Foster, of Cobalt, has started to work on the Company's property with a gang of men to develop veins already discovered, also to continue striping in search of new gold veins.

We are erecting boarding houses and dining-rooms for our men.

READ COPY OF CERTIFICATE AND STATUTORY DECLARATION CONFIRMING SAME.

Toronto, March 5th, 1908.

To the Great Northern Larder Lake Mining Company, Limited:—

Gentlemen,—

I beg to confirm my previous report to you that in my judgment the surface showings on the 14 mining claims which the Company has acquired, being Nos. H.S. 221 to H. S. 234, both inclusive indicate the probability of the existence of large bodies of both high grade and low grade free-milling ore, sufficient to pay dividends for an indefinite period.

I have personally examined a number of veins and reefs on said property (consisting of about 560 acres) and had some assays made and from such examinations and assays I make this report.

The statement on pages nine and ten of the Prospectus giving the short history of the Company are correct. I insisted on retaining a large interest in the Company rather than sell for any price that seemed reasonable to the purchasers.

DAVID A. FOSTER,
Haileybury.

IN THE MATTER OF THE GREAT NORTHERN LARDER LAKE MINING CO., LTD.

Statutory Declaration.

DOMINION OF CANADA
County of York
TO WIT.

I, David Foster, of the town of Haileybury, in the district of Nipissing, miner, do solemnly declare that the statements in the annexed certificate are true. I have personally inspected all of the fourteen claims now transferred to the Great Northern Larder Lake Mining Company, Limited. I have taken samples containing gold values from said property, and from my personal examination, and from assays made, I believe the Company's property when developed, will prove very valuable. I have full confidence in the success of the said Company, and on this account, with the exception of $400 already received, I have agreed to accept stock in said Company, and a note which I believe will not be of much value should the actual development work not prove the said claims to contain gold in paying quantities as it is not payable for one year from this date or until after the Company shall have done the necessary development work on said claims. And I make this solemn declaration conscientiously believing it to be true and knowing that it is of the same force and effect as if made under oath, and by virtue of "The Canada Evidence Act."

DAVID A. FOSTER.

Declared before me at Toronto, in the County of York, this 21st day of March, 1908. J. T. LOFTUS, A. Commissioner in H. C. J.

PROPERTIES TRANSFERRED.

Since the prospectus was printed, the sale of the 14 mining claims to the Company has been completed and the transfers to the Company are registered in the Recorder's Office at Larder City. There is no mortgage or other encumbrance against said claims.

10c. PER SHARE.

Par Value One Dollar fully paid Up and Nonassessable.

OFFER IN PLAIN WORDS

$ 5.00 buys	50 shares, par value $ 50.00	$ 10.00 buys	100 shares, par value $ 100.00
20.00 buys	200 shares, par value 200.00	10.00 buys	500 shares, par value 500.00
100.00 buys	1,000 shares, par value 1000.00	500.00 buys	5,000 shares, par value 5000.00

We earnestly recommend that you purchase the Great Northern Larder Lake Mining stock at 10 cents per share.

Fill in application form and forward and you will be on the upward move.

Fortunes have always been made by those who can see a good thing coming.

ADVERTISE IN THE TIMES.

RAWHIDE-DULZURA

1 CENT A 2 SHARE

Send us your name as a member in this new company, with your remittance for as many thousand shares as you can take at $5 per thousand.

This is a short-time offer on a hurry-up proposition. Our vice president is up at Rawhide now putting the miners at work. We want to raise the necessary funds for development as quickly as possible. Therefore, we offer the first block of stock at $5 a thousand shares. This subscription must be all cash. We want the money in hand. We mean to work without let-up, and we have made it an ironclad rule not to run in debt. Cash counts now.

Our prospectuses are out. Send for one.

Make reservation of stock, if you do no more. But, remember, this present offer of stock at Half a Cent a Share is now open, and will be closed as soon as enough cash subscriptions are in hand. Don't wait, or you will get left.

The gold mining property owned outright by the company consists of 7 claims, 5 in the Rawhide district of Nevada, and 4 in the Dulzura district of Southern California.

The Rawhide district to-day is more famous than Goldfield, Tonopah, Bullfrog, or Searchlight were at the same stage of exploration and development. The Dulzura discovery is one of the most sensational in the history of California.

Ten samples of ore which were among the first assayed, run as high as $7,461.87 to the ton, and all ten averaged over $1,500 a ton.

In both camps we located early, and our locations are choice. Our own officers will superintend the mining.

Rawhide-Dulzura Gold Mining Company

Says This Medicine Has Mystic Powers

Will Assist Anyone in Weak, Pale, Nervous Condition to Robust, Hearty, Health.

It's in the spring that health gives out—that folks begin to feel draggy, weary, restless,—hate to eat, look pale, feel discouraged.

If you've reached this state, read what J. W. Jervell, well known in Morristown, has to say about the medicine that cured him. "Last winter I caught a heavy cold that settled on my back. My kidneys and liver were affected and my health failed. By spring I was in bad shape—couldn't sleep like I used to—felt tired in the morning—ate very little—was terribly depressed, pale and anxious looking. Twinges of rheumatism, frequent neuralgia attacks over the temples, made matters worse. The doctor prescribed three times, but didn't help. Then I heard of Dr. Hamilton's Pills.—They possess mystic power surely, for I gained and improved day by day and now am in perfect health again. I will praise and use Dr. Hamilton's Pills till I die."

The ingredients in Dr. Hamilton's Pills are pure and wholesome—come right from the store house of Nature in the form of vegetable juices and extracts,—consequently this gentle invigorating laxative tonic and blood purifier is safe for old and young alike. We assure you of enormous benefit from Dr. Hamilton's Pills, which revitalize delicate glands, search out the seat of hidden disease, flood the body with vigor and health that has caused thousands of broken-down, despairing men and women to join in a mighty song of praise for the beneficient aid that comes from this king of all tonics. Get Dr. Hamilton's Pills today. 25c at all dealers.

Secure tickets from any Grand Trunk ticket agent.

Swallowed a Pin

While at supper last evening, Mr Patrick Callaghan of the Sylvester Mfg. Co., swallowed a brass pin an inch long with his dessert which entered the flesh at the side of the throat. He was taken to Dr. McAlpine, when it was found after 10 minutes work that the pin had done no harm. Mr. Callaghan went to work again this morning with a sore throat, and it will be some time before he will be able to swallow right-ly.—Lindsay Post Press.

Personal

—Miss A. Mabel Howell, Dundas, is in the city.

—Mr. D. Perry, Liverpool, England, is in the city.

—Today is declaration day in Peterborough.

—A large crowd of farmers were in town yesterday.

—The Charlotte street choir will hold a rehearsal tonight.

—Mr. and Mrs. G. A. Smith, 545 Water street, are on a visit to Toronto.

—Mr. J. Irwin, trainmaster, Lindsay, is in the city.

—Mr. Gibbons, proprietor of the Millbrook Reporter, was in the city yesterday.

—Mr. William Black of Cobourg, who has been the guest of Mr. J. D. Hopkins, left yesterday for Riverwood.

—Mrs. F. Cooney of Toronto, returned home yesterday morning after visiting her mother Mrs. John Lane, Water street.

—Miss Elizabeth Tucker, Reid St., left yesterday for Brantford, where she will be the guest of Mrs. G. S. Matth wa for a couple of weeks

—Miss Ethel Stevens, daughter of Mr. George Stevens, Ashburnham, who has been attending the Institute for the Blind, Brantford, returned home for her vacation last evening.

Pimples are easily and quickly checked with Dr. Shoop's Magic Ointment. To prove it I will mail a small trial box as a convincing test. Simply address Dr. Shoop, Racine, Wis. Fearing I would not send it free unless I was certain that Dr. Shoop's Magic Ointment would stand the test. Remember it is made expressly and alone for swollen, painful, bleeding or itching piles, either external or internal. Large jar 50c. Sold by all dealers.

June Brides

Linlin—Timlin

The marriage took place at the George street parsonage yesterday at noon of Mr. Wm. John Linton, of Alnwick township, to Miss May Ruth Timlin, of the same place. The witnesses were Miss Maud Linton and Mr. Norman Shirton, both of Roseneath. The ceremony was performed by Rev. E. A. Pearson.

Callendar—Buchanan

An exceedingly pretty, but quiet wedding was solemnized yesterday morning at 11 o'clock, when Miss Mar Buchanan, second daughter of the late J. Harper Buchanan and Mrs. Buchanan, 413 Bethune street, was united in marriage to Mr. Orma G. Callendar of the Quaker Oats Company.

The ceremony was performed by the Rev. Archbishop Bathy. The bride was given away by her brother, Mr. J. R. Buchanan.

Mr. and Mrs. Callendar left on the 11.45 G.T.R. train for their honeymoon trip. On their return they will reside at 65 McDonnell street.

Comstock—Knox

A quiet home wedding took place yesterday afternoon at 1.30 o'clock when Carrie Isabel, eldest daughter of the late Mr. David Knox, 190 Queen street, was married to Mr. John Comstock, son of Mr. Aaron Comstock. The ceremony was performed by Rev. Robt. Pogue, pastor of St. Paul's church.

As the bridal party entered the drawing room, which was tastefully decorated with palms and cut flowers, Miss May Masson of Woodstock, sang sweetly, "O Fair, O Sweet and Holy." The bride was given away by her mother, and wore an embroidered Brussels net over silk gown and carried white roses. Her sister Miss Estella Knox, acted as bridesmaid, while Mr. John Gemmill was groom's man.

After the ceremony congratulations were showered on the young couple and Miss Masson sang in excellent voice, "Beloved, it is morn." A sumptuous luncheon was then served.

The presents, which were extremely beautiful, testified to the high esteem in which the bride and groom were held.

Mr. and Mrs. Comstock left on the 4.18 C.P.R. express, Mrs. Comstock travelling in a brown taffeta suit with hat to match. On their return they will take up their residence at 342 Charlotte street.

Irons—Thompson

A quiet wedding was solemnized at 6.30 p.m. on Wednesday, June 17th at the home of Dr. and Mrs. F. Newton Green, Aylmer street, when Dr. Ernest S. Irons and Miss Gertrude B. Thompson, both of Chicago, were united in marriage, the ceremony being performed by the Rev. Robert Pogue. Dr. and Mrs. Irons left on the evening train, on an extended tour in the West.

Up-to-date Souvenirs

Visitors to the city will find the best and most up-to-date assortment of souvenir articles at the Times Bookstore. All places of interest hand painted on Foley China, besides many other souvenier novelties. Desk room provided for those desiring to do their writing down town.

Obituary

The death occurred yesterday morning at eight o'clock at Nicholls Hospital, of Mrs. Joseph Agnew, Mount Pleasant, after a long illness, but the end came unexpectedly. Deceased was 28 years of age and leaves to mourn her loss, a husband, her father, Joseph Muirden of Cameron, two brothers, Cleworth and David of Cameron, Joseph Henry of Bowmanville, John and Frederick of this city, and Albert of Mount Pleasant.

The funeral will take place from the residence of Mr. V. Fair, 460 Sherbrooke street today at three o'clock to Little Lake cemetery.

"Two Topers"

A Teacher's Experience

"My friends call me The Postum Preacher," writes a Minn. school teacher, "because I preach the gospel of Postum everywhere I go, and have been the means of liberating many 'coffee-pot slaves.'

"I don't care what they call me so long as I can help others to see what they lose by sticking to coffee, and can show them the way to steady nerves, clear brain and general good health by using Postum.

"While a school girl I drank coffee and had fits of trembling and went through a siege of nervous prostration, which took me three years to rally from.

"Mother coaxed me to use Postum, but I thought coffee would give me strength. So things went, and when I married I found my husband and I were both coffee topers and I can sympathize with a drunkard who tries to leave off his cups.

"At last in sheer desperation, I bought a package of Postum, followed directions about boiling it, served it with good cream, and asked my husband how he liked the coffee.

"We each drank three cups apiece, and what a satisfied feeling it left. Our conversion has lasted several years and will continue as long as we live, for it has made us new—nerves are steady, appetites good, sleep sound and refreshing."

"There's a Reason." Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in Pkgs.

Ever Read the above letter? A new one appears from time to time. They are genuine, true and full of human interest

POLICE

William Stevens and Gordon Judge were remanded for a week on a vagrancy charge. Both pleaded guilty when the charge was read out to them, and at the request of Chief Rossel, the remand was given.

Throwing stones cost a young man of the city $2, and it should teach him a lesson.

ONE YEAR FOR SARAH.

Sarah Crozier was sentenced in the Mercer Reformatory for one year, by Magistrate Dumble in the police court yesterday morning for keeping a house of ill-fame on the corner of Sherbrooke and George streets.

P. C. Meharry stated that last Thursday night about 9.30 o'clock there was a crowd at the corner of Sherbrooke and George streets. They were drinking beer in large quantities. Carney had an axe and was going to murder some fellows on the opposite side of the road.

About 12.30 o'clock this afternoon Carney lying in the yard at the rear of the house quite drunk with Sarah Crozier.

GREAT LABOUR SAVING DEVICE

The Penman & Sprang

DUPLICATOR

Will produce 100 copies in ten minutes, and is without doubt one of the greatest inventions of its kind ever conceived

THE DUPLIGRAPH

The most reliable, cleanest, simplest, quickest and most up-to-da duplicating machine on the market

It will reproduce one hundred facsimile copies of a pen written origina in fifteen minutes; fifty to seventy-five copies of an original written on typewriter or twenty-five copies of an original written with a copying pen.

The original is written on ordinary paper, with an ordinary pen, typewriter or copying pencil, and the copies can be taken on ordinary paper cardboard, wood or china.

MONTREAL

Notice

Take notice that the Municipal Council of the Corporation of the City of Peterborough intends after one month after the last publication of this notice, to undertake the construction of a sewer on Sherbrooke street, from George street to the Creek, and to assess upon the real property to be benefitted by such sewers, such proportion of the cost thereof as may be just, in accordance with the provisions of Sections 664 to 666 inclusive of The Consolidated Municipal Act, 1903, or so much thereof as may be applicable thereto, and subject to the provisions of such By-law or By-laws of the said Corporation now or hereafter to be passed as shall be applicable to the same, and the number of annual special assessments therefor will be thirty.

Persons desiring to petition the said Council against undertaking the said proposed work, must do so on or before the 3rd day of August, 1908.

Dated the 17th day of June, 1908.

S. R. ARMSTRONG.

E. B. WOOD, Man. Dir.

To Canadian Investors

The undersigned has received an allotment of unsold portion of $100,000 of

7 PER CENT FIRST MORTGAGE FIVE-YEAR-OLD BONDS

dated January 11, 1908, and maturing January 11, 1913. These Bonds are offered at par and accrued interest by Metropolitan Trust & Savings Bank, Chicago, trustees.

SECURITY—The Entire Property and Improvements Owned THE URES CONSOLIDATED MINING COMPANY in the District of Ures, State of Sonora Mexico, Free from Mortgage or Bonded Indebtedness except this present Bond Issue.

An Unusual Opportunity for Investment in Sound Security

The Ures Consolidated Mining Company offers $100,000.00 of First Mortgage Gold Bonds. This issue of bonds is the only mortgage or bonded indebtedness ever placed on the company's properties.

These bonds are in the denomination of $100.00, and bear interest at the rate of 7 per cent. per annum, payable semi-annually, July and January, and are redeemable on or before five years from date at the company's option at $110.00 and accrued interest.

$100.00 Stock Bonus Given with Every $100.00 Bond

With each bond issued there will be given $100.00 par value of the capital stock of the company as a bonus, and in addition thereto there will be placed in escrow with the Trustee additional stock which will be available to the bondholders at their option any time within a period of three years, the bondholder being entitled to surrender his bond any time within said period and receive in lieu thereof stock for every dollar of indebtedness to him on account of said bonds.

The Security Back of these Bonds

The company owns twelve claims situated in the district of Ures, State of Sonora, Mexico, free from mortgage or bonded indebtedness, except the present bond-issue.

On one of these properties (The Ramona Mine) 5,000 feet of underground development work has been done, consisting of an inclined shaft to the depth of 400 feet with drifts in three levels to the North and South of the shaft.

An average value of ore worth $11.47 per ton is exposed throughout the mine, from the collar of the shaft to the extreme parts in the drifts, all of which is above water level.

The company has made surface improvements and mine improvements to the extent of $60,000.00 in the way of machinery, skids, trams, steam hoists, mill and nearly everything necessary to make the mining camp complete.

In addition to the absolute ownership of these twelve valuable claims, the company has a lease on the San Jose Mine, adjoining its property, in which the company has been operating in high grade ore.

During the past sixty days the company has extracted and delivered to ore buyers and the bank at Hermosillo, $5,000.00 worth of ore and bullion, the ore having been reduced to bullion through the company's mill, with the exception of 1,464 pounds, which was sold to an ore buyer for $662.50.

The Money Derived from the Sale of These Bonds

This issue of bonds is made for the purpose of securing money at once in order to extend the development work more quickly than the company's present means will permit.

With the high grade ore in sight to the distance of 80 feet to the South of the shaft, the management is assured that within six months from date of making the improvements now necessary the company's properties will be on a self-sustaining and dividend-paying basis.

The Stock which is Given with these bonds will be as valuable as the bonds when the Company has the ready capital to push operations

Men who invest in these bonds will have no cause or reason to regret their action, for the bonds afford an investment in a security which is absolutely safe—much better than ordinary city or country real estate, which is considered perfectly safe if the property put up to secure a mortgage is double the face of the loan. The security given on these bonds is better than 7 to 1, for the Ures Consolidated Mining Company has refused an offer of $750,000.00 for the property upon which this $100,000.00 worth of bonds is issued.

These bonds are an investment with all speculative risk eliminated—an investment with absolute security.

Make your reservation at once. This is small and promises to be quickly sold.

CAPITAL $1,500,000 RESERVE $950,000

Banco de Sonora,
Hermosillo, Mex.,
Feb. 11th, 1908.

To whom it may concern:—

We hereby beg to state that The Ures Consolidated Mining Company has during the past five years made several deliveries of bullion to this bank, and it is the opinion of mining men here that they have the making of a fair mine, and further, that the properties owned and controlled by them bid promise of becoming paying properties.

From our knowledge of the men connected, we believe they are doing all in their power to bring about the results above mentioned.

Respectfully,
BANCO DE SONORA,
Max Muller, Gerente.

All Sickness is Alike to

OXYDONOR

It applies to all cases, no matter what the form of disease may be. It revitalizes the human body with OXYGEN from the air. OXYGEN is a vital Necessity—the greatest necessity life knows.

You can apply Oxydonor at home while you rest or sleep. No loss of time from your work or business. It is easily applied safe, and always ready for use. Its force never exhausts. It will serve the family, children as well as adults.

Mr. Wm. Beers, 196 York St., Toronto, writes: "I take great pleasure in recommending your Oxydonor. When I first got the instrument I was suffering from Sciatica for about four months, and after applying for five weeks it left me all at once and have not been troubled with it since. I can highly recommend it as a good family doctor, and would not be with out it for double the price.

Sensation in New Brunswick by Girl's Elopement

St. John, N.B., June 18. — Miss Tweedie, daughter of Hon. L. J. Tweedie, Lieutenant-Governor of New Brunswick, eloped yesterday with her father's former coachman, David McEwan, a Scotch immigrant.

They were married in the afternoon at St. Stephen, and left on the evening train for Montreal, en route for the Old Country.

The Governor and Mrs. Tweedie were in St John attending the wedding of Judge Barker's daughter, and received the news by telephone from their home in Chatham. Both are almost heart-broken.

McEwan came to the Province last summer with an importation of cattle, bought in Scotland by the Provincial Government. He is a young man of fine appearance. Soon after his arrival the Governor hired him as a coachman.

His attentions to Miss Tweedie, who is aged 18 years, and her infatuation for him have been obvious for some time.

A few weeks ago he left the Governor's employ and went away to Chatham. Apparently, however, he kept in communication with Miss Tweedie, for Tuesday, during her parent's absence, she ran away to St. Stephen, where she met her lover, and the two were married.

McEwan told some of his friends some time ago that he was going to Scotland soon, and it is presumed that is the eloping couple's destination.

The affair has created a sensation in society, and has aroused a great sympathy for Mr. and Mrs. Tweedie.

Bowmanville is Willed a Fine Building in Washington

Washington, D.C., June 18.—James H. McGill, the prominent architect, who died recently, left his wife a life interest in valuable property, which will go to his home town of Bowmanville, Ont., on her death. The McGill office building, worth at least $150,000, on a prominent business street, where the values are constantly increasing, is part of the estate. The building is of six storeys, brick, and always filled with tenants. The retail section of the city is moving in that direction steadily, and property in that vicinity is in demand for investments.

Letters to the Editor

To the Editor of The Times.

Sir,—In reference to Mr. Elliott's letter in yesterday morning's Times, I wish, on behalf of the 57th Band and Musicians' Union, to emphatically deny the truth of the following statements therein contained:—

1.—That the 57th played for less than Union rates. This is absolutely untrue.

2.—That none but members of the 57th Band are eligible for membership in the Musicians' Union. This is also untrue. Any qualified musician is eligible and as a matter of fact we have men in the Union to-day who are not members of the 57th Band.

3.—That we are trying to crush out opposition is also in a sense untrue. Fair and square opposition is healthy at all times and we are quite willing to take all of this variety that comes our way, but the other brand don't go.

Yours truly,

J. A. HARPER,
Secy Musicians' Union.

Fair Directors Seek Grant from the County Council

The second day's session of the County Council, was as on the first, practically given up to the reading of reports from the chairman of the Board of Management of the House of Refuge, and that of the committee appointed to deal with the Warden's address.

The report of the Board of Management of the House of Refuge was read as follows;

Gentlemen,—Since the last report from the board we have admitted many inmates to the house, there now being 35. We are pleased to state that all are in fairly good health, save one old man, and a woman recently admitted with her baby, six months old.

Improvements consistent with the assistance available has been going on during the spring. We have now under way a wire fence in front of the lot.

You will notice by the accounts the purchase made of a permanent character which, of course, cannot be charged to current maintenance.

The crops look well, as well as the young stock, and considering the number of inmates, we are pleased to say we hope to be able to lessen the cost per inmate for maintenance this year.

Your board has endeavored to carry into effect the wishes of the council, and being credit upon all in so far as the care of the aged poor of the county is concerned.

The amount necessary to be raised by the people will be presented to you through the chairman of the Finance Committee, who has in charge that part of the work.

Yours respectfully,

R. N. SCOTT,
Chairman.

ON THE WARDEN'S ADDRESS.

Your committee appointed to deal with the Warden's address, beg leave to report as follows;

Your committee concur with you in recognizing the prospects of a bountiful harvest.

The reference made by you is certainly satisfactory; that is to the possibility of more easily dispensing of debentures due to improvement in the money market.

On motion of Messrs. Darling and Moore, Mr. Duff addressed the council, soliciting assistance for the Lakefield Agricultural Society. The matter was referred to the Finance Committee.

On motion of Messrs. Scott and Cohen, a deputation from Douro, addressed the council asking aid to Young's Point road. It was referred to Roads and Bridges Committee.

On motion of Messrs. Cohen and Breault, Mr. Hawthorne was permitted to address the council asking for assistance to East Peterborough Agricultural Society. Referred to Finance committee.

At the morning's meeting, Messrs Fife, reeve of Otonabee, occupied the chair, in the absence of the warden. A deputation, viz., Messrs. Leary, Gilkey, Bell and J. J. Turner, sr., waited upon the council, asking for assistance for the Peterborough Fair. —Finance Committee.

A deputation from Douro, Messrs. Hamilton and O'Brien, waited upon the council asking to have Shannon's bill in Douro, repaired. Referred to Roads and Bridges Committee.

JOINT COMMITTEE REPORT.

To the members of the Council—

Gentlemen,—I respectfully ask permission to lay before you not a regular report, but an explanation from your Joint Committee, with reference to the effecting of a lease of the Park to the Horticultural Society.

The same being county property and properly speaking, under the supervision of the Property Committee, yet in accordance with clause 2 of the Finance Committee report at the Property Committee, who, with me if thought it advisable, not considering any hurry necessary, to defer matters until we meet at this session and before the close of the session, we hope to be able to report a satisfactory lease, signed by all parties required to sign such.

Respectfully yours,

C. J. DARLING.
Chairman Joint Committee.

ADVERTISE IN THE TIMES

Midland Asks Help to Stop the Strike Riots

Midland, June 18.—Italian workmen at Tiffin, about one mile from Midland, where construction operations are in progress, are on strike, and there is serious trouble. High Constable Rogers of Barrie, was wired to by the authorities this morning for assistance and eight special constables were immediately sworn in there. Four have left Barrie for the scene of the disturbance and the remainder will be up this afternoon if the situation warrants it.

The strikers were employed by the Metcalf Company, contractors, for the New Grand Trunk elevator. There are 250 of them and they want $2 a day. Half a dozen of them who participated in a riot are under arrest. A man who would not quit work was roughly handled and is in the hospital. Several others were hurt but not seriously.

Tied in a Knot and is Still Living

C. R. D. Booth of Apsley, who is at present attending the June session of the County Council, has presented the Victoria Museum, through Lieut.-Col. H. C. Rogers, with a section of a young tree, which, when it was a tiny sapling, had been tied in a knot. Such an unusual thing as a tree continuing to grow under these circumstances makes this specimen a curiosity. Another specimen presented by Mr. Booth is a piece of birch tree, probably eight inches in diameter, which had been gnawed through this year by a beaver. It is chiefly valuable as evidence that beavers are still in existence in Apsley.

Won Scholarship Prizes at Ottawa University

At the sixteenth closing exercises of the Ottawa University, which took place on Tuesday, two local students, Messrs. John R. Corkery, son of Mr. John Corkery, the deputy postmaster, of the local post office, and J. F. McDonald were among the students to have special standing in their examinations and Mr. Corkery was presented with two silver medals and Mr. McDonald with twenty dollars in gold. The former received the medal given by his grace, the most Reverend Joseph Thomas Duhamel, Archbishop of Ottawa, Chancellor of the University, for excellence in Christian doctrine, English course, and also the medal for class standing presented by his excellency Earl Grey, the governor-general. Mr. McDonald was awarded twenty dollars in gold, presented by Rev. Jos. T. Roach, LL.D., Chicago, for the best English essay, followed by a student of the University.

Many Lunge' Have Been Hooked

With the fishing season now opened there have been a number of fair catches already recorded. On Tuesday there were a large number of canoeists out on the lake, and during the day it was reported that many fish had been hooked. The favorite place seemed to be from the C.P.R. bridge out into the lake.

Mr. Robt. Howland, as usual, was among the first of the successful fishermen, getting two nice "lunge on Tuesday morning. He caught the fish in the river, above the Cereal. Yesterday there were but few landed, although there were the usual gatherings out with the hook.

Two Charges of Assault Against Healey

With his head swathed in bandages Robt. Maxwell appeared in police court yesterday morning to press a charge of assault against a young man named Chas Healey. The alleged assault took place on Water street near the corner of Hunter street, at 6 o'clock last evening and it is said that Healey ran out from the sidewalk and knocked Maxwell off his wheel as he was passing. Some bystanders seized Healey and held him until P. C. McGinty arrived and put him under arrest.

In addition to the charge arising out of last evening's affair there were two other charges against Healey; one of assaulting Robt. Maxwell on Oct. 22nd, 1905, and the other that he hung a person on the black list of the liquor inspector, had unlawfully procured liquor.

Healey, whom interests were looked after by Mr. G. N. Gordon, pleaded not guilty and the three charges were enlarged until Saturday morning.

J. E. Barrington appeared on a charge of not procuring a tag for his dog. He informed the magistrate that he had sent the dog away this morning and the case was dismissed.

A milkman was fined $2 for obstructing traffic by allowing his rig to stand on Brock street for some hours.

Words of Praise

For the several ingredients of which Dr. Pierce's medicines are composed, as given by leaders in all the several schools of medicine, should have far more weight than any amount of non-professional testimonials. Dr. Pierce's Favorite Prescription has THE BADGE OF HONESTY on every bottle-wrapper, in a full list of all its ingredients printed in plain English.

If you are an invalid woman and suffer from frequent headache, backache, gnawing distress in stomach, periodical pains, disagreeable, catarrhal, pelvic drain, dragging-down distress in lower abdomen or pelvis, perhaps dark spots or specks dancing before the eyes, faint spells and kindred symptoms caused by female weakness, or other derangement of the feminine organs, you can not do better than take Dr. Pierce's Favorite Prescription.

The knife, surgeon's knife and operating table may be avoided by the timely use of "Favorite Prescription" in many cases. Thereby the offensive examination by the family physician can be avoided and a thorough examination by a lady physician is given without charge. "Favorite Prescription" is composed of the very best native medicinal roots known to medical science for the cure of woman's peculiar ailments, contains no alcohol and no harmful or habit-forming drugs.

Do not expect too much from "Favorite Prescription;" it will not perform miracles; it will not dissolve or cure tumors. No medicine will. It will do as much to establish vigorous health in most weaknesses and ailments peculiarly incidental to women as any medicine can. It must be given a fair chance by perseverance in its use for a reasonable length of time.

[illegible] as a substitute for this remedy, at [illegible] a compounder.

Sick women are invited to consult Dr. Pierce, by letter, free. All correspondence is guarded as sacredly sacred and womanly confidences are protected by professional privacy. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets the best laxative and regulator of the bowels. They invigorate stomach, liver and bowels. One a laxative; two or three a cathartic. Easiest to take as candy.

MUCH ENTHUSIASM WHEN W. H. TAFT WAS NOMINATED

State Delegations Marched Up and Down the Aisles Carrying Taft's Potrait on a Big Banner--Other Nominations

NOMINATED FOR PRESIDENT.

Speaker Joseph Cannon, Illinois, by Congressman Boutelle of Illinois and Congressman Fordney of Michigan.

Charles Warren Fairbanks, Vice-President, Indiana, by Governor Hanly of Indiana, and Hon. Charles A. Beckwalter.

Senator Philander C. Knox, by Lieutenant-Governor Murphy of Pennsylvania and Hon. J. A. Scarlet of Pennsylvania.

Governor Hughes of New York, by Governor Stewart Woodford of New York.

William H. Taft, Secretary of War, by Representative Burton of Ohio.

Convention Hall, Chicago, June 18.—The three planks of the minority report on resolutions, upon which separate votes were demanded, were each defeated.

12.45 p.m.—The platform was adopted by viva voce vote.

NOMINATIONS FOR PRESIDENT.

Nominations for Presidential candidates now to be made. The clerk is calling for the roll for presentation.

1.48 p.m.—As the States were called there was no response until Illinois was reached, when Congressman Boutelle took the platform to nominate Speaker Cannon. A practical agreement to adjourn for the day after completing the nomination of Presidential candidates has been reached. The effect will be to postpone the Vice-Presidential nomination until tomorrow.

ONLY A MOMENT TODAY.

When Congressman Boutelle in nominating Cannon, mentioned President Roosevelt's name there was a futile attempt at a demonstration, but it lasted a moment only.

Boutelle finished at 1.14, and Congressman Fordney of Michigan arose to second Cannon's nomination.

Owing to the overcrowding of the convention hall, the city building department has issued orders that no more people be admitted.

FAIRBANKS NOMINATED.

1.22 p.m.—Governor Hanly of Indiana, takes platform to nominate Fairbanks, amid cheers and cries.

GALLERIES IMPATIENT.

1.32 p.m.—The impatience of the galleries to get to a vote was shown by their constant interruption of the speakers by calling "Vote, vote."

Hon. Charles A. Beckwalter, Indiana, seconded the nomination of Fairbanks.

Lieutenant-Governor Murphy of Pennsylvania, nominated Senator P. A. Knox, which was seconded by Hon. James A. Scarlet of Pennsylvania.

HUGHES NOMINATED.

2.05—When New York was called General Stewart L. Woodford was recognized to nominate Hughes.

CHEERING FOR TAFT.

The roll call of States was continued until Ohio was reached, when the convention broke into an enthusiastic demonstration.

2.20 p.m.—Representative Burton was unable to begin his speech nominating Taft for some three minutes while the cheering and flag-waving continued.

A WILD SCENE.

2.40 p.m.—Burton concluded his nomination of Taft at 2.40. The cheering burst forth as Burton finished. Delegations were on their chairs, flag-waving, using megaphones and other noise-producing instruments.

LOOKS LIKE TAFT ALL RIGHT.

2.48 p.m.—The scene continues undiminished in its force. A large banner with Taft's portrait thereon is being paraded through the aisles. Several delegations, including Missouri, Arkansas, North Carolina, Oklahoma, Virginia, Washington, and Minnesota, have lifted the State standards and started marching down through the aisles.

The demonstration grows more vociferous, having lasted ten minutes.

Union Stock Yards, Ills., June 18.—As it looks this morning there will be no stampede today for Roosevelt, such as occurred yesterday, and Taft will receive nomination early this afternoon. However, Chicago was wild with Roosevelt enthusiasm last evening and late into the morning hours, and the scene has a chance of being duplicated today.

The Taft men plan to rush his name through early and avoid another Teddy ovation.

The word is now that Roosevelt would drop nomination absolutely, and force the convention to name his choice—Taft.

The platform is ready for the convention, which means that nominations ought to receive attention early this afternoon, should nominating speeches be brief.

THE ANTI-INJUNCTION PLANK

Chicago, June 18.—The court procedure or anti-injunction plank as adopted by the Committee on Resolutions is not very radical. It is as follows;

"The Republican party will uphold at all times the authority and integrity of the courts, State and Federal and will ever insist that their powers to enforce their process and to protect life, liberty, and property shall be preserved inviolate.

"We believe, however, that the rule of procedure in the Federal Courts with respect to the issuance of the writ of injunction should be more accurately defined by statute and that no injunction or temporary restraining order should be issued without notice, except irreparable injury would result from delay, in which case a speedy hearing thereafter should be granted."

SAT TILL 2.30 A.M.

Chicago, June 18.—The biggest problem before the Resolutions Committee of the Republican National Convention—that of the proposed plank in the platform dealing with the question of the limitation of the use of controversies—was disposed of at 2 a.m. today, when, by a vote of 35 to 16, with two States (South Carolina and Louisiana) not recorded, the full committee agreed to the plank. It was predicted after the vote that there would be no fight on the matter on the floor of the convention, when the full report of the committee was made.

The full committee adopted the separate Statehood plank for Arizona and New Mexico, thus reversing the sub-committee's action.

At 2.30 a.m., the committee adjourned.

MIGHT SLIP A COG.

Still, the explosive nature of the matters still to be acted upon by the convention itself, and the delicate political relationship and adjustments involved in the various aspects of the nominations to be made, left it entirely possible that this convention might be one of those well planned gatherings at which if all is well it is well, but at which the slipping of a cog in some unexpected place or at some apparently routine moment may precipitate one of those amazing eruptions that mark epochs in political history.

INJUNCTION PLANK THE CHIEF.

There were three major matters left to be disposed of when the convention began the morning session—the nomination for the Presidency, the nomination for the Vice-Presidency, and the adoption of the platform. In point of general interest and possibility of lively developments the last is first. Nothing else has so divided sentiment among the delegates as the proposed plank in the platform dealing with the question of court procedure, better known as the "injunction plank," by reason of its special reference to the use of injunctions and restraining orders of courts in connection with controversies between employers and employes.

WILL FIGHT ON FLOOR.

The plank was finally adopted as the form agreed on by the sub-committee of the committee on resolutions after a meeting which began at 10 a.m., and lasted until grey dawn was creeping up in the east. Some of those who opposed the injunction plank in the committee served notice that if it was adopted they would continue their opposition on the floor of the convention.

The remaining uncertainty in the matter lay chiefly in the fact that any mention of the injunction issue in the platform has all along been urgently opposed by many individual delegates in view of special conditions in their home districts. Not a few have declared that they would in any event vote, on this convention floor against such a plank.

NO ROOSEVELT STAMPEDE.

When the convention yesterday adopted the report of the committee on Credentials, it thereby confirmed the already evident control of the great body by the force favorable to the nomination of Secretary of War William H. Taft for the Presidency. The talk of a "Roosevelt stampede" has steadily diminished during the past 48 hours. The most enthusiastic admirers of the President must have been well satisfied with the ecstatic uproar of yesterday, following the mention of his name by Senator Lodge in his speech as permanent chairman of the convention. It lasted almost an hour without intermission, and there were moments during the ovation when those opposed to the presentation of the President's name for renomination may have been a bit apprehensive lest some one would seize that as the "psychological moment" for some such attempt.

Convention Hall, Chicago, June 17. —Report of Committee on Permanent Organization naming Senator Lodge of Massachusetts, as permanent chairman of the convention was adopted unanimously. Genl Woodford of New York and Governor Dawson of Illinois were appointed to escort Senator Lodge to the platform.

When Senator Lodge, in the course of his speech, said that the President was the best-abused but most popular man in the United States today, the most enthusiastic demonstration thus far seen in the convention occurred.

2 p.m.—The demonstration for Roosevelt still continues undiminished.

OHIO HOLDS ALOOF.

2.05 p.m.—Among the alternates a man standing on a chair has taken his coat for a flag and waving it has started the flag and waving it has started the scene into a great tumult. The scene has now lasted ten minutes and shows no signs of stopping.

While nearly all the delegates are on their feet, the Ohio delegation is notably settled and silent.

IGNORES THE BAND.

2.13 p.m.—The playing of the bands in an attempt to still the crowd only increases its noisiness. The demonstration has now lasted eighteen minutes, and is still furious, while the band plays "There'll Be a Hot Time in the Old Town To-night."

Chairman Lodge has given up all semblance of trying to stop the noise, and has taken his chair.

FOUR YEARS MORE.

2.17 p.m.—The demonstration for President Roosevelt continues unabated, having now last twenty-three minutes. The whole hall has broken into monotonous repetition of the phrase "Four years more," continuing like a chant, amid great excitement.

2.22 p.m.—Oved Lyon of Texas from the platform is encouraging his delegation to continue the demonstration.

Senator Lodge is making efforts to quiet the assemblage and is rapping for order, but the noise only breaks out more vociferously.

The scene has lasted twenty-eight minutes.

THREW DOWN TEDDY BEAR.

2.27 p.m.—Some one threw a large "Teddy Bear" among the press seats, and the scene became wild in its enthusiasm. The bear is now being tossed about among the delegates, causing increased ardor to the cries.

2.32 p.m.—The Teddy Bear incident was created by Miss Maude Neal of the Chicago Inter-Ocean, who brought the bear on the scene. The chanting of "Four years more" goes on, and though the situation has now continued 26 minutes, it shows no abatement.

2.35 p.m.—Most of the delegates and alternates have again taken their seats, but the galleries are just as demonstrative.

LASTED 45 MINUTES.

2.41 p.m.—Senator Lodge is going ahead with his address. There is comparative quiet now. The full force of the demonstration last 45 minutes.

Senator Lodge concluded his address at 2.49 p.m.

Reported that People are Dying of Plague Like Flies

Hong Kong, June 18.—The boycott against Japanese is still strongly maintained. The Government has prohibited meetings at restaurants, called to discuss the question of self-government, and similar subjects.

A missionary arriving from the Province of Hainan states that people are dying of plague like flies. The scourge is abating in Hong Kong.

Seven Soldiers Were Wounded by Shot

Niagara-on-the-Lake, June 18. —H. Company of the 36th Peel Regiment were "under fire" before they reached Niagara camp ground this year. On the trip down from Orangeville their train stopped at Stamford and some of the boys got out to stretch their limbs. One or two sat on a nearby fence. A farmer, who presumably owned the territory inside the fence, came out and let fly a charge of bird shot at the men.

"I heard the report," says Lieut R. J. Bennet, who was in charge of the company, "and heard the shot strike the car window. As I looked out the man fired a second time, and seven of the men were struck. Their helmets are full of shot; if any other headgear had been worn they would have had their eyes injured. As it was, Sergt. Buchanan, Sergt. Robbins, Hugler Holmes, Pte. Cole and others were struck and slightly wounded. The men were not misbehaving themselves, and I have asked for an investigation."

Four Alleged Pickpockets were Remanded for a Week

The four alleged pickpockets who were gathered in at the circus appeared before Magistrate Dumble yesterday morning. The four gave their names and addresses as follows; George Williams, 360 Yonge street, Toronto; Henry Hamilton, 32 Ashburn street, Charlotte, N. Y., Jas. Grancy, 11 Hertsford street, Detroit, Mich., and Jos. Adams, 162 St. James street, Toronto.

The charge against them yesterday morning was that of stealing $2 from the person of Jas. Gross, but there are other charges preferred against the quartette, who were defended by Mr. G. N. Gordon.

They did not elect or plead, and upon request of the Chief, were remanded for a week, although Mr. Gordon protested that the Chief should give his reasons for a remand. The Chief replied that it was reason enough that he was not ready to go on and that he could not get his witnesses here in shorter time than one week. One of the witnesses is a commercial traveler, who is said to have been relieved of $20 at the G.T.R. station.

P. C. Newhall had the four prisoners under suspicion as soon as they arrived in the city yesterday, and watched them unceasingly. Their actions at the G.T.R. station and at the circus grounds were suspicious in such so that on this afternoon they were arrested by P. C.'s Newhall and McHarry, Williams, Adams and Graney being arrested together and Hamilton soon after.

The four are all well dressed and present a respectable appearance. Graney gave his age as 23 years and as to the case.

The Great Struggle is on for Saturday Afternoon

The big game is on for Saturday, when the Athletics will use every effort to down Manager Johnston's so far unconquered "Peter." The Athletics have every confidence that with the three additional "good ones" that they have secured, they will take a fall out of the Johnstonites.

The Athletics will go on the field with almost a complete new bunch of ball tossers—players that have a reputation of playing the game as it should be played. On the other hand the "Petes" will go right after their opponents from the start, and do their utmost to add another victory to the list.

It will be a battle royal for supremacy as great rivalry exists between the teams and their supporters.

Pills are easily and quickly checked with Dr. Shoop's Magic Ointment. To prove it I will mail a small trial box as a convincing test. Simply address Dr. Shoop, Racine, Wis. I surely would not send it free unless I was certain that Dr. Shoop's Magic Ointment would stand the test. Remember this made expressly and alone for swollen, painful, bleeding or itching piles, either external or internal. Large jar 50c. Sold by all dealers.

Three Companies were Inspected

The annual company inspection of the 57th Regiment was commenced last night at the Armories. Companies 5, 7 and 8, were inspected by Col. D. D. Young, D.A.A.G., of Eastern Ontario Command. They paraded at the drill hall at eight o'clock in drill order. Tonight the remaining companies of the regiment will parade at the armories at the same hour and for the same purpose.

The regimental inspection will be held next week.

Decorated the Graves

Yesterday afternoon the annual decoration of graves of departed Oddfellows took place.

At five o'clock members of the Otonabee and Peterborough lodges, I.O.O.F., gathered at Central Park, where a procession was formed, headed by the Peterborough city band, and marched to the Little Lake cemetery, where the impressive ceremony of decorating the graves of their departed brethren was performed.

To stop any pain anywhere in 20 minutes, simply take just one of Dr. Shoop's Pink Pain Tablets. Pain means congestion —blood pressure— that is all. Dr. Shoop's Headache—or Pink Pain Tablets—will quickly coax blood pressure away from pain centers. After that, pain is gone. Headache, Neuralgia, painful periods with women, etc., get instant help. 20 Tablets 25c. Sold by all dealers.

Doctors Report Many Cases

Say that Spring Fever is Prevalent. Patients Feel Drowsy, Dull, Dead Tired.

How provoking to sleep well, but when you awaken to find none of the exhilaration that rest and sleep should bring. You ought to feel alert, bubbling over with vim, but instead of this there's dullness, languor and disinclination to do things.

Three causes for this sort of feeling—a lazy liver, lazy kidneys, and a lazy stomach, the last doing its work very poorly and compelling the other organs to perform a task they are unequal to.

Note the consequence—blood is filled with waste matter—poisonous substances weighing down the nervous system—tissue-building processes absolutely impossible.

Take Ferrozone and note the rapid change. Your appetite improves and your digestion soon is as good as ever. Your skin has its natural color, the sense of languor and unsteadiness if not entirely gone, comes back only occasionally, and then disappears.

You see Ferrozone restores all the powers of the body to normal activity.

The reason you feel better is because Ferrozone is driving out all the poisonous wastes from the body.

Ferrozone imparts to the blood that element that is necessary to render the air you breathe vitally active and strength-giving. In the old condition it simply acted on the surface. Now it enters deeply into all the activities of the body.

Now you know that Ferrozone stimulates appetite and makes rich, red blood.

Now you feel that Ferrozone gives strength, endurance, vim.

Ferrozone clarifies the brain, imparts tone and vigor to it, gives clearness and strength.

Your will power is as strong as ever, and your enjoyment of life has a new zest because so vigorously renewed.

As a bracing, uplifting tonic for man, woman and children—as a medicine for anaemia, weakness or nervous troubles nothing excels Ferrozone.

Try it. 50c a box or six for $2.50, at all dealers.

Morning Times

published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

FRIDAY, JUNE 19TH, 1908.

THE TRAGEDY AND PROBLEM OF THE AGE.

Of the entire population of the United Kingdom of sixty-five years and upwards, 30 per cent., says the Weekly Sun, are in almshouses or in receipt of outdoor relief and in some communities the proportion reaches 80 per cent. In Germany the family of the average workingman sees meat only once a week and then in insufficient qualities. In New York hundreds of thousands are crowded in tenements in which bodies are dwarfed and souls starved, and a population equal to that of a large city is standing in hopeless idleness.

In facts such as these lies the great tragedy and the great problem of human existence. But to this great tragedy the eyes of statesmen are blind and voices that are raised in demand for the solution of the problem fall upon deaf ears. At Washington the clamour is for battle ships sufficient to make of the Pacific an American Lake. At Berlin all the energies of the Government are centered on the maintenance of an army strong enough to hold the Rhine on the west, and at the same time extend German power to the south and on the high seas. At London discussion centres around means by which a world-wide Empire may be held together.

Flags and artificial boundary lines are more than the wail of starving children. The maintenance of the balance of power is of greater account than the distress of old age. Nineteen centuries of preaching of the Gospel of peace and human brotherhood and still untold treasures are being wasted in the creation of implements for human slaughter, while hosts of those who are taxed to provide the treasure are born in rags and die in abject poverty.

GRADED PRISONS.

His Honor, Judge Colter, at the opening of the June Sessions in St. Thomas the other day, made a valuable contribution to the subject of prison reform. Although some persons have taken great credit to themselves for enunciating theories for a more humane treatment of criminals, this is a matter in which the evolution of the human race and of responsible Government has played and is playing a very important part.

That this is true is shown by the fact that for a couple of hundred crimes that were once punishable with death capital punishment has been abolished. In Canada the greatest advances in the proper treatment of criminals has been made by Parole Officer, Archibald, and doubtless, there will be other changes made from time to time as time passes.

As a subject for immediate consideration that favored by Judge Colter is one that has distinct advantages under present conditions. There is much truth in the statement that a young offender who might otherwise become a respectable citizen, is more likely to become if confined with such persons, a vicious and hardened criminal.

Grading the prisoners would help to remedy the evil that is recognized by everyone who has given a thought to the question. It is only natural that more crime should mark the history of this province as the province becomes more populated. As the most prolific source of crime are legalized by the people themselves, the people should bear the responsibility of providing plenty of penal institutions and reformatories.

It may seem inconsistent to erect and maintain institutions where young men and woman might be reformed while outside the institutions we encourage methods of and means of dragging down the youth of our land to that point where public safety requires their reformation in an institution for that purpose. However, inconsistent or not, as long as the people encourage and condone those things that breed crime, then the people, if only to protect themselves from the results of their own folly, must provide places where offenders may be placed out of danger.

And the responsibility of the people does not rest with the mere confinement of prisoners under guard. We must consider it what way they will be confined to work out to the best advantage both for themselves and society in general.

OVES 1,200 ENTRIES FOR OLYMPICS

London, June 16.—Captain Jones, the energetic assistant secretary of the Olympic Games Committee, has already entered 1,200 names for athletics, and his task is not yet completed. Mr. Jones pointed out that the forms have not yet been scrutinized by the A.A.A. Olympic Games Committee. The Marathon race has already sixty entries and more are to be added.

Judging by results of the English Olympic trials, England's prospects of winning the sprints are remote; but in the walking and long-distance running events she has a great chance of holding her own. H. E. Harding, the old Oxford University Blue, emerged from his retirement recently at a meeting of the L.A.C., and although on that occasion he performed indifferently, he made amends yesterday by winning the 800 metres race (about four yards short of half of a mile) in 1.59 1-5. G. L. Larner, the ex-champion, who also, after a long absence from athletics, came out a little while ago, won the walk (3,500 metres, or about 350 yards over two miles) in 15.6 1-5. He decisively proved his superiority at the distance over E. J. Webb, the present seven miles walking champion. Once again E. H. Montague tried his luck at hurdling, but once again came a cropper in the 400 metres race over obstacles, and the sturdy J. B. Dewsham finished an easy first in the excellent time of .58 2-5. In the 1,500 metres race (about 120 yards short of a mile) H. E. Hawtrey, the winner of the five miles race at Athens, made a leg of the running, but was eventually beaten back into fifth place for speed. H. A. Wilson, of the Hillmarshire Harriers, gaining a rather unexpected win. The Olympic games record of 4.52-5, by J. D. Lightbody of Chicago, at St. Louis in 1904, was beat in in this event by the first three competitors, and this was undoubtedly the finest performance accomplished at yesterday's meeting. E. E. B. May, the Oxford Blue, beat another Oxford Blue, H. A. Tyffe, a quarter of an inch in the hammer throwing, the winner doing 125 feet 6 1-4 inches; not bad, of course, but of no use for the Olympic games. A. Russell, the steeplechase ex-champion, beat J. C. English, the present steeplechase champion, after a good race in the steeplechase, and in the five miles run, F. R. Voight, of the Manchester A.C. won after a grand race with the national and international champion, A. J. Robertson, in 25 minutes 26 2-5 seconds, which is faster time than that accomplished for the same distance by Hawtrey when he won at Athens in 1906.

CANADA'S CHANCES

Looking the performances over, Canada should beat England in the 100, 200, 400, and 800 metres, and the steeplechase. In the five miles, Hedin Galbraith's time is good enough to give him a chance. Goulding has a chance in the walk, and in the hurdles we should beat the English. In the jumps, too, we are superior, and our candidates have shown better than the English in the weights and javelin.

If one feels dull and spiritless, in the spring or early summer, they call it "Spring Fever." But there is no fever—usually. It is the after effect of our winter habits. The nerves are mostly at fault. Tired worn-out nerves, leaves us languid, lifeless, and without spirit or ambition. A few doses of Dr. Shoop's Restorative will absolutely and quickly change all of these depressing symptoms. The Restorative of course won't bring you back to full health in a day or two, but it will do enough in 48 hours to satisfy you that the remedy is reaching that "tired spot." Druggists everywhere are advising its use as a splendid and prompt general tonic. It gives more vim and more spirit to the spoonful than any other known nerve or constitutional tonic. It sharpens a failing appetite, aids digestion, frees sluggish livers and kidneys, and brings new life, strength and ambition. Test it a few days and be convinced. Sold by all dealers.

GREAT PROSPECTS IN THE WEST

All Things Seem to Point to Most Abundant Crop.

Winnipeg, Man., June 14.—After going to the pains of conducting a thorough inquiry throughout the entire west, the Western Associated Press is able to announce that, on account of the great increase in the cultivation of Western lands, the wheat crop this year is sure to be over one hundred million bushels.

This is probably the most important statement made for months. The increase in acreage is likely to prove 25 per cent. and some districts report such encouraging figures that it is not improbable that when the wheat has been harvested, the figure can be placed at 75 per cent. This most encouraging state of affairs is due to the fact that the immigration into Western Canada during the past year has been very heavy. The majority of new comers did not remain in the cities, but took up land in the country sections, and at once commenced to cultivate it. The early spring also was a great factor and the farmers were enabled to get to work before the first of April. In three districts it is reported that 50 per cent. of virgin land has been cultivated, and that the farmers are still at work at cultivation.

The fact that out of the three provinces, Manitoba shows the least increase in acreage, does not at all point to a condition of decrease in prosperity. On the other hand it points to the ever increasing wealth of the first wheat province, as to make up for the absence of wheat cultivation, fat stock and vegetable growing is becoming a foremost factor, and the increase in that line is just as great as the rise in wheat lands in the other provinces.

The farmers in the Moosejaw district expect to grow four million bushels this year and from reports received from there, they have good cause to be so optimistic. Coming to Alberta, characteristic reports as much as the following:—"The winter wheat is a marvellous crop. Fall wheat, Alberta's principal crop is twelve to thirty inches high, and never looked better. 'Great increase in virgin land cultivation'. Calgary reports spring seeding completed with 30 per cent. more wheat and 25 per cent. more oats. Speaking generally the rains of the past two weeks have done great good. Not for ten years have things looked so bright for Western Canada.

The fact that real estate men in Winnipeg state that business is better by 25 per cent. than it was a month ago, shows that the optimistic reports sent out a few weeks ago fell very near the mark. The actual increase in business cannot be noted at this stage, but your correspondent has the following statement from one of the best known business men in Winnipeg and the Canadian West.

"I will not say that business is now better than it has been for ten years, I will say, however, that not in that length of time has such an improvement taken place in so few weeks. In making an estimate, I would say that business in general has increased 25 per cent. since the first of April". To-day conditions are such as to warrant every resident of Western Canada to rest content that he is living in a country where prosperity is showing itself in no unmistakable manner.

In the past week over three hundred delegates were present at the general Presbyterian Assembly Convention at Winnipeg, the visitors coming from as far as Halifax on the Atlantic and Victoria on the Pacific Coast. The Rev. Fredrick W. DuVal was unanimously chosen as moderator to the general assembly for the next term. The visiting delegates were all surprised at the wonderful growth and prosperity shown in the city of Winnipeg.

The large abattoir of Gordon, Ironside and Fares at Winnipeg suffered a loss of $75,000.00 last week, almost wiping out the main building of the plant. The smoke had hardly cleared away when 100 men were at work clearing the ruins and it is understood larger and more costly buildings will replace those burned. In the year 1906 this same firm was the largest exporter of live stock in the world.

One of the leading Eastern commercial business men of Canada was in Winnipeg on June 3rd, his statement in part as to the outlook is as follows: "In Winnipeg I can see a constant growth. There is general feeling of hopefulness everywhere, and with a good crop things should improve rapidly. Depression such as we have been passing through for the past year is not overcome at once. In the East, the past winter has been a very hard one, business has been below normal, and collections have been very hard to make. That section is still so dependent on the Western crop that they are very quick to feel the effect of a bad season."

The following is an item printed in the Eastern press last week, which goes a long way toward telling of the splendid condition of commerce now existing in Western Canada."

"The telegraph companies are busy this week handling an unprecedented number and volume of orders from western jobbers to eastern wholesale houses. This indicates the remarkable turn of confidence following the remarkable success of seeding operations. The railroads expect a freight movement west during the next two months that will surpass all records of the season."

Sports

According to Dick Baker, Simpson and he are having a splendid time on their trip to the old country. They boarded the steamer Tunisian at Montreal on Friday night at seven o'clock, reaching Quebec at four o'clock on Saturday morning. The course of training was commenced on Saturday morning at six o'clock and after the morning workout it was resumed again at 3 o'clock in the afternoon, the hours mentioned being fixed for the daily training periods. Simpson is feeling in excellent trim and is well liked by all his friends on the boat, calling him "Big Chief."

Speaking of the game at Port Hope on Saturday the Guide says:

The locals won their second victory of the season on Saturday by defeating the Athletics of Peterborough by a score of 11 to 2. While many fast plays were pulled off still the game lacked the vim that has marked the other contests, due in a great degree to Quinlan the Peterborough pitcher, taking every advantage to cause delays.

The home team had been strengthened by McGuire of the St. Mary's team, Toronto, at second, and Dunn of London, at third, and both imports did good work. O'Toole, who was out of the last game through illness, held down his old position at third, but Jack had evidently left his batting eye in the Queen City, striking out four times.

Jack Wilson did the twirling and made a very favorable impression. He only allowed three scattered hits and made seven of the Athletics fan the air.

Port Hope got busy in the run line in the first innings tallying one on McGuire's and Wilson's hits. They added three in the second, five in the fifth and one in the seventh and one in the eighth. Peterborough scored one in the second and one in the third.

The city league game between the Y.M.C.A. and Whitwiggians, billed for last night was postponed until Friday night.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

reserve may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at an Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead duties under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each on and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3) If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of a homestead, or upon a homestead entered for by him in the vicinity such homesteader may perform his own residence duties by living with the father or mother.

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line exclusive of the width of road allowances crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the agent for the district of such intention.

Six months' notice in writing must be given to the Commissioner of Dominion Lands at Ottawa, of intention to apply for patent.

W. W. CORY.
Deputy of the Minister of the Interior.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn back grey hair back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease.

In Germany—while a Chemist in the City of Darmstadt—I found the last ingredient with which Dr Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, it unfailingly cures all curable cases of this horrid-to-be much dreaded disease. Those small-like granular wastes, found in Rheumatic Blood seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend

Dr. Shoop's Rheumatic Remedy

"ALL DEALERS"

VISITING YOUR FRIEND.

No Place Like Home, After All, So a Victim Believes.

Visiting has ever been a form of discomfort.

Your friend, who has a new home, a lately replenished library, a unique garden or something which represents money enough to make him vain in its possession, cannot rest until he has dragged you from a happy home to cater to this feeling of vanity.

As for yourself, you put it off as long as possible. Of course you want to go. The thought of not having been able to get to see him has, you assure him, filled you with perpetual gloom. But circumstances over which you have had no control have forbidden. All this you assert until the fatal moment arrives when you realize that no further subterfuge is possible, and, with many protestations of anticipatory delight, you start off.

Your friend meets you at the station with his auto. He explains its workings, its superiority over all others, as you proceed back. If it breaks down on the way, as is more than likely, he smiles brightly. Such a thing has never happened before. He knows, of course, what the cause was. He mentions it carelessly, thereby implying that it was of so little consequence that it was scarcely worth while to avoid it.

You arrive at his house. Filled with enthusiasm and reveling in a new victim, he proceeds forthwith to drag you over its weary length before you have had time to change your shoes.

"Fine room this!" he exclaims, with a burst of honest pride, and so on. By and by, when he is getting tired, his wife, like a relay pony, takes up the lecture where he leaves off.

So plastic are we that at the time by a sort of fictitious warmth you really seem to be enjoying yourself.

You exclaim in wonder over the fact that you have been so long in getting there. And when at last, a week later, you reluctantly leave you tell him, with tears in your eyes, that you had the time of our life.

It is only when once more you find yourself joyfully in your own humble apartments, with its faithful bed, whose very imperfections have endeared themselves to you, that you cry out in deep gladness, "Thank God it's over, for, after all, there's no place like home!"—T. L. Masson in Puck.

They Prayed Running.

Harry and Ethel were crossing a field on their return from Sunday school when they encountered a bull. At the animal's approach they fled in terror. Faster and faster they ran, yet nearer and nearer came the bull.

"We must pray," panted Harry.

"You do it," Ethel pleaded. "We'll kneel down right here."

"No; we'll pray running. You ought to do it. You're a girl."

"O Lord—O Lord—I can't!" sobbed Ethel. "You do it."

The proximity of the bull demanded immediate action, and Harry rose to the occasion. Loudly and fervently he prayed:

"O Lord, for what we are about to receive make us truly thankful!"—Success Magazine.

Trapped.

"I saw the cutest thing today," began Miss Passay coyly. "It was a painting of the—er—what is the name of that little god that represents matrimony?"

"Well, now," said Mr. Timmid, "you've got me."

"Oh, Mr. Timmid, this is an outdoor!"—Philadelphia Press.

Ripping Times.

Gunner—Hot times out at the ball game. The players were slamming balls all the afternoon.

Guyer—And how about the bleachers?

Gunner—Oh, they were slamming the umpire!—Chicago News.

Co-operating With Reform.

"Do you think racing will ever be stopped?"

"The trouble I have always had," replied the hard luck speculator, "is that the horses I bet on always want to stop."—Washington Star.

The new steamer City of —— was laid up for repairs, and she had for rickety old timers of the fish type sailing in her place. A passenger who was somewhat irritated by the fact remarked to another, an Irishman, by the way, "The City of —— always puts in at 2 in the morning, and this old tub never gets in before 6."

The Irishman thought for a moment and replied: "It's all right. The distance is just the same, and we get a longer sail for our money."

Needed a Cloudburst.

Staying at an inn in Scotland, a shooting party found their sport much interfered with by rain. Still, wet or fine, the old fashioned barometer that hung in the hall persistently pointed to "not fair." At length one of the party drew the landlord's attention to the glass, saying, "Don't you think, now, Dugald, there's something the matter with your glass?" "No, sir," replied Dugald, with dignity, "what's a gude glass need a powerful glass, but she's no' moved wi' tribs."

The Last Cigar in the Box.

"The last cigar in the box is the hardest to sell," was the remark of a Front street dealer. "Not because it is not as good as any other cigar, but because of the superstition of the average man against taking the last of anything. As a result we often take one cigar, or even two cigars, of the last cigars in a box and put them on top of the cigars in a full or almost full box. On the other hand, I ought to mention that there are men who prefer the last cigars and who ask us to save the last cigars in the boxes for them every day, sometimes to the number of six or seven daily, for which they call every evening. We have thus no trouble in disposing of these last cigars, but the contrast in the conduct of the two styles of customers is curious."—Philadelphia Record.

Fully Occupied.

Creditor—I say, old man, why don't you get out of debt?

Debtor—Haven't time. It keeps me busy getting in.—Detroit Tribune.

TRICKS OF THE BRAIN.

Experiences Which Physiological Theories Fail to Explain.

An uncle of mine with whom I was walking in a part of Yorkshire near Skipton, where neither of us had ever been before, stopped suddenly to say, "When we turn that corner you will see on the right an Elizabethan house partly surrounded by trees, with a lake or large pond showing through them, and in the middle of the water a little artificial island."

When we turned the corner we saw precisely what he had described, and yet he had never seen or heard or read of the place. The dual brain theory fails here, since neither lobe of the brain had received an impression of the place before we turned the corner.

Jean Jacques Rousseau in his "Confessions" says he foresaw in a reverie while taking a solitary walk all the incidents of the happiest day of his life as they occurred eight years later:

"I saw myself, as in an ecstasy, transported into that happy time and occasion, where my heart, possessing all the happiness possible, enjoyed it with inexpressible raptures, without thinking of anything sensual. I do not remember being ever thrown into the future with more force or an illusion so complete as that which I then experienced. That struck me most in the recollection of that reverie, now that it has been realized, is to have found objects so exactly as I had pictured them. If ever the dream of a man awake had the air of a prophetic vision that was assuredly such."

It is, I think, noteworthy that in all clairvoyant cases of this kind the body is through overwork or ill health or fasting or congenitally in the subdued state to which the Indian mystic and miracle monger reduces his own by mortification. It was so with Scott and Rousseau, and with William Blake when he had the following experience recorded in his memoir. When worn out with overwork he was shown into a certain room in a certain part of London where he had never been before.

"On looking around everything appeared perfectly familiar to me. I seemed to recognize every object. I said to myself: 'What is this? I was never here before, and yet I have seen all this, and if so there is a very peculiar knot in the shutter.' I opened the shutter and found the knot. Now, then, I thought, here is something I cannot explain on my principles; there must be some power beyond matter."

And from being a pronounced materialist he became a believer in spirits, and [illegible]ed, eventually a profoundly religious soul.—T. P.'s London Weekly.

Superstitious Fear Candles.

There were two substitutes for candles. The one was the ancient oil lamp, the crusie (French creuset), a triangular metal saucer with an upright hook at the base to be hung up by. There was an inner saucer, movable, to graduate the use of the oil. At the apex of the angle was flame, coming from a wick made of pitch of rushes, which must be cut at full moon, as the flame was thought to wax and wane with the moon if cut at any other time. The other substitute for the candle was the bog candle. It was made by splitting up the resinous logs of the primeval fir that are found imbedded in the bogs.

They were left to dry at the fireside over the crack or chain that held up the pot over the fire. The candlestick, called the peerman, was a stone with a hole in its center, into which was fixed a pillar of wood about four feet high and tipped with a cleft piece of iron, into which the candle fitted. The nose of the candle was always turned to the door.

Flies are easily and quickly caught with Dr. Shoop's Magic Ointment. To prove it I will mail a small trial box as a convincing test. Simply address Dr. Shoop, Racine, Wis. I surely would not send it free unless I was certain that Dr. Shoop's Magic Ointment would stand the test. Remember it is made expressly and alone for swollen, painful, bleeding or itching piles, either external or internal. Large jar 50c. Sold by all dealers.

A RAISE IN MINING STOCK

ALLOTMENT SUBSCRIBED.

The requisite amount of stock has been subscribed and paid in full to enable the Company to proceed to allotment and commence business.

RAISE OF MINING STOCK.

THE GREAT NORTHERN LARDER LAKE MINING CO., Limited, proposes to advance price of their treasury stock to Twenty-five (25c) cents on June 22nd. Last chance to buy at ten cents a share, par value One Dollar, fully paid up and non-assessable.

The foreman, Mr. David Foster, of Cobalt, has started to work on the Company's property with a gang of men to develop veins already discovered, also to continue striping in search of new gold veins.

We are erecting boarding houses and dining-rooms for our men.

READ COPY OF CERTIFICATE AND STATUTORY DECLARATION CONFIRMING SAME.

Toronto, March 28th, 1908.

To the Great Northern Larder Lake Mining Company, Limited:—

Gentlemen,—

I beg to confirm my previous report to you that in my judgment the surface showings on the 14 mining claims which the Company has acquired, being Nos. H.A. 211 to H. R. 224, both inclusive indicate the probability of the existence of large bodies of both high grade and low grade free-milling ore, sufficient to pay dividends for an indefinite period.

I have personally examined a number of veins and reefs on said property (consisting of about 640 acres) and had some assays made and from such examinations and assays I make this report.

The statement on pages nine and ten of the Prospectus giving the short history of the Company are correct. I insisted on retaining a large interest in the Company rather than sell for any price that seemed reasonable to the purchasers.

DAVID A. FOSTER,
Haileybury.

IN THE MATTER OF THE GREAT NORTHERN LARDER LAKE MINING CO., LTD.

Statutory Declaration.
DOMINION OF CANADA
County of York,
TO WIT:

I, David Foster, of the town of Haileybury, in the district of Nipissing, miner, do solemnly declare that the statements in the annexed certificate are true. I have personally inspected all of the fourteen claims now transferred to the Great Northern Larder Lake Mining Company, Limited. I have taken samples containing gold values from said property, and from my personal examination, and from assays made, I believe the Company's property when developed, will prove very valuable. I have full confidence in the success of the said Company, and on this account, with the exception of $400 already received, I have agreed to accept stock in said Company, and a note which I believe will not be of much value should the actual development work not prove the said claims to contain gold in paying quantities as it is not payable for one year from this date or until after the Company shall have done the necessary development work on said claims. And I make this solemn declaration conscientiously believing it to be true and knowing that it is of the same force and effect as if made under oath, and by virtue of "The Canada Evidence Act."

DAVID A. FOSTER.

Declared before me at Toronto, in the County of York, this 31st day of March, 1908. J. T. LOFTUS, A. Commissioner in H. C. J.

PROPERTIES TRANSFERED.

Since the prospectus was printed, the sale of the 14 mining claims to the Company has been completed and the transfers to the Company are registered in the Recorder's Office at Larder City. There is no mortgage or other encumbrance against said claims.

10c. PER SHARE.

Par Value One Dollar fully paid Up and Nonassessable.

OFFER IN PLAIN WORDS

$ 5.00 buys	50 shares, par value $ 50.00	$ 10.00 buys	100 shares, par value $ 100.00
20.00 buys	200 shares, par value 200.00	10.00 buys	500 shares, par value 500.00
100.00 buys	1,000 shares, par value 1000.00	500.00 buys	5,000 shares, par value 5000.00

We earnestly recommend that you purchase the Great Northern Larder Lake Mining stock at 10 cents per share.

Fill in Application form and forward and you will be on the upward move.

Fortunes have always been made by those who can see a good thing coming.

ADVERTISE IN THE TIMES.

RAWHIDE-DULZURA

1 CENT A 2 SHARE

Send us your name as a member in this new company, with your remittance for as many thousand shares as you can take at $5 per thousand.

This is a short-time offer on a hurry-up proposition. Our vice president is up at Rawhide now putting the miners at work. We want to raise the necessary funds for development as quickly as possible. Therefore, we offer the first block of stock at $5 a thousand shares. This subscription must be all cash. We want the money in hand. We mean to work without let-up, and we have made it an ironclad rule not to run in debt. Cash counts now.

Our prospectuses are out. Send for one.

Make reservation of stock. If you do no more. But, remember, this present offer of stock at Half a Cent a Share is now open, and will be closed as soon as enough cash subscriptions are in hand. Don't wait, or you will get left.

The gold mining property owned outright by the company consists of 7 claims, 3 in the Rawhide district of Nevada, and 4 in the Dulzura district of Southern California.

The Rawhide district to-day is more famous than Goldfield, Tonapah, Bullfrog, or Searchlight were at the same stage of exploration and development. The Dulzura discovery is one of the most sensational in the history of California.

Ten samples of ore which were among the first assayed, run as high as $7,461.87 to the ton, and all ten averaged over $1,500 a ton.

In both camps we located early, and our locations are choice. Our own officers will superintend the mining.

Rawhide-Dulzura Gold Mining Company

122 West Third Street, Los Angeles, Cal.

What every Woman Requires for Headache Langour

Mrs. Mary Flannigan Gives Advice that is Sound, Useful and True.

Has your strength given out?
Do you feel languid and tired this spring?
Are you pale, somewhat nervous, finding it hard to do your housework?
Thousands feel just the same,—feel the enervating influence of spring, whether that brings out latent symptoms of disease and weakness. You should do like Mrs. Flanigan of Essex Junction — here is her experience. "I will never again suffer the tortures of deadening spring illness — never will I have headaches, such sleepless nights, such pale cheeks and lack of appetite. I lived through it all several times, but now I know the medicine that cures. I urge every person, young and old, to try the invigorating effect of Dr. Hamilton's Pills. When I was so played out, listless,—Dr. Hamilton's Pills gave me appetite—I relished my meals and grew strong. Rosy color came to my cheeks, every day I felt brighter and better. All my old strength has been restored and the great tonic, blood purifying powers of Dr. Hamilton's Pills did it all."
Women who are continually pale, blued and sick headaches, faint and dizzy spells, aching muscles, bearing down pains, lack of sleep and loss of appetite—they are the poor women that sorely need Dr. Hamilton's Pills of Mandrake and Butternut, 25c at all dealers.

C.O.F. Excursion

Court Lily of the Valley, Canadian Order of Foresters, will run their annual excursion to Toronto and Niagara Falls on July 9th. The bills will be issued next week. This has always been a popular event, and no doubt this year will prove no exception to the rule.

Farmers are Drawing in Their Hay

Mr. W. A. Edwards of the Crystal, who has been on a visit in Western Ontario, is the authority for the statement that the farmers between Berlin and Preston are drawing in their hay and state that a splendid yield is looked for in the different grains. In fact the harvest season will be one of the best in Western Ontario.

One Pound Short of Prize

Mr. C. N. Brown's catch was only one pound short of winning Bunk's prize Wednesday. He arrived from the upper lakes with a handsome 15 pounder—just one pound short of the mark. The fish was on exhibition in his store Wednesday afternoon for an hour or two and was admired by many.

Horse Had to be Shot

A horse belonging to one of the Free Methodist ministers, while going through the driveway at the Ely block, fell and broke its leg. Dr. Johnston was called, but nothing could be done for the injured beast, so it was ordered to be shot. A man was sent over and the horse was killed. It was a valuable animal and its unfortunate accident caused a heavy loss to the owner.

Beware of Ointments for Catarrh that contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Kawartha Lakes' Excursion

Under the auspices of Lodge A. F. & A.M., No. 435, to Fenelon Falls and return, on Monday and Tuesday, June 22nd and 23rd, by steamer Otonabee, leaving Wolfe St. Wharf on Monday at 8 a.m., returning Tuesday Evening, 7 p.m. Return Tickets $1.40. Meals on board 40c. Special Hotel Rates for Stop-over at Fenelon Falls. This will be the trip of the season!

No Money for Walkers of St. Catharines

St. Catharines, June 18.—The local walking contest is practically concluded, only local men remaining in the contest. From a financial view the event has not been a success. Last night all out-of-town contestants quit at the end of the first hour. When they quit the standing was:
Stacey, Irish Canadians, Toronto, 44 miles 4 laps.
Harrison, Peterborough, 42 miles 13 laps.
Spencely, Peterborough, 41 miles 9 laps.
Guerin, Peterborough, 40 miles 12 laps.
Stevens, Peterborough, 40 miles 9 laps.
Lydiatt, 39 miles, 3 laps.
Ewen, 38 miles, 12 laps.
Hedgeman, 38 miles 12 laps.
Brown, 38 miles, 10 laps.
Lydiatt, Ewen and Brown continued till 10.30 o'clock, when time was called for the night, Lydiatt leading with 47 miles 10 laps, Ewen 45 miles 8 laps, Brown 44 miles 13 laps.
Harrison, Spencely, and Stevens left for Peterborough today. Stacey and Guerin will remain in the city for a while.

—Messrs. A. A. Robinson and C. H. Winch, are here from Montreal, on their way to Mr. C. H. Winch's cottage at Stony Lake.

Phone Operation

Regained Memory on Right Food

The girls who answer your call on the telephone, must be quick, accurate, and courteous. They must have good memories, also.

Those who work nights often get in the way of eating almost anything handy, which is apt to be the kind of food which does not rebuild waste brain and nerve cells.

"I have been night telephone operator for a number of years," writes a Calif. girl, "and was formerly in perfect health, never knew an ail.

"But irregular hours of sleep and meals, and the use of pastry or any food that happened to be available, soon caused my health and memory to fail.

"The loss of my robust health worried me very much. And medicine seemed to do no good.

"Four months ago, mother told me it was the condition of my stomach that caused my troubles, and she believed if I would change to Grape-Nuts food, I would improve.

"Eager to regain my health, I took her advice and instead of eating just anything, I ate Grape-Nuts regularly, and at the end of four months on Grape-Nuts I am the happy, robust girl I once was.

"I have gained eleven pounds in weight, have good color, am strong and hearty and nothing seems to escape my memory. And all this I owe to Grape-Nuts."

"There's a Reason". Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville" in pkgs.

Ever Read the above letter? A new one appears from time to time. They are genuine, true and full of human interest.

A good general servant wanted. No children, and every modern convenience. Apply box 100, Times office.

Dominion Day Excursions

On account of Dominion Day the Grand Trunk Railway System will issue return tickets at single fare between all stations in Canada, also to Detroit and Port Huron, Mich., Buffalo, Black Rock, and Suspension Bridge, N.Y., good going June 30th, July 1st, returning on or before July 2nd, 1908. Secure tickets from any Grand Trunk ticket agent.

Personal

—Mr. and Mrs. A. E. Bucher returned yesterday from Lindsay where they have been on a visit.

—Mr. Danny Smoots has gone to Boston, Mass., to fill a summer engagement.

—Mr. Jos. Maher of the Lindsay branch of Lang & Maher, was in the city yesterday.

—Mr. W. A. Richardson and son, Mr. Roy Richardson, of Norwood, were in the city yesterday.

—Misses Beryl and Thelma Graham are visiting friends in Peterborough this week.—Hastings Star.

Weak women should try Dr. Shoop's Night Cure. These soothing, healing, antiseptic suppositories go direct to the seat of these weaknesses. My "Book No. 4 For Women" contains many valuable hints to women, and it is free. Ask Dr. Shoop, Racine, Wis., to mail it. Ask the Doctor in strictest confidence, any questions you wish answered. Dr. Shoop's Night cure is sold by all dealers.

—Mr. Norman Moore and Miss Moore of Lakefield, are the guests of Miss Beatrice Blewett, 618 Rubidge street.

—Mr. Victor McFaddden, returned home last night from St. Michael's College, Toronto, for the summer vacation.

—Mr. and Mrs. R. J. Winch, accompanied by Mr. B. F. Ackerman, will go up to Mr. Winch's cottage, "Yarrow Brae," this morning.

—Mr. C. E. Houghton and family of New York, were registered yesterday at the Oriental. It is learned that they will occupy Mr. Miles Henry's summer cottage at Chemong during the summer.

—Friends of Mr. H. LeBrun, known as the "Ketchecum Party," left this morning to pay their annual visit to "Bellechasse," Stony Lake. They will be the guests of Mr. LeBrun for a few days.

—Hon. Ben. Jones and Senator Sheeds of Corundum, I.T., and Messrs. Robert Flay and J. H. Ferguson of this city, left yesterday morning for a few days' tussle with the gamey bass and maskinonge that are just now frolicking in the waters off Mr. Thomas Eastwood's reserves in Buckhorn.

Flies are easily and quickly checked with Dr. Shoop's Magic Ointment. To prove it I will mail a small trial box as a convincing test. Simply address Dr. Shoop, Racine, Wis. Positively would not send it free unless I was certain that Dr. Shoop's Magic Ointment would stand the test. Remember it is made expressly and alone for swollen, painful, bleeding or itching piles, either external or internal. Large jar 50c. Sold by all dealers.

City Topics

IN SHORT FORM FOR BUSY READERS

—The Women's Auxiliary of St. Luke's church, will hold a picnic to Jackson Park this afternoon.

—The Woodmen of the World are holding an excursion down the river on Wednesday afternoon of next week.

—A musicale will be given by the pupils of Miss Wilhelmine Gumpricht A.T.C.M., A.O.C.M., this evening at eight o'clock at 535 Aylmer street.

—St. Andrew's choir will meet for practice tonight at eight o'clock.

—An admirable picture of Mr. Jas. Stevenson, one of the city's oldest citizens, is in the display window of the Roy Studio.

—The first annual excursion of the Bricklayers' and Masons' Union will be held at Idyl Wyld on Saturday afternoon, July 4, per steamer Otonabee.

—Rev. G. W. Henderson, of Port Hope, who becomes pastor of Charlotte street Methodist church in July, was presented with a complimentary address by the Young Men's Brotherhood of the church on Tuesday evening.

—Inspector Bradshaw returned from the back lakes this morning, where he has been on the look-out for law-breakers, but the law has been well observed among the numerous fishermen on the different lakes.—Lindsay Free Press.

June Brides

Armstrong—Chambers

The nuptials of Miss Ethel K. Chambers, daughter of Mr. George Chambers, 522 Sherbrooke street, to Mr. Earl Armstrong of Scotia, N.Y., were solemnized Wednesday evening. The ceremony was performed at seven o'clock by Rev. H. M. Manning, in the presence of a number of friends and relatives. The bride was escorted by her sister, Miss Florence Chambers, and the groom was attended by Mr. George E. Grapside of Peterborough. The happy couple left yesterday evening for Scotia, N.Y., where they will reside. The groom is a former employe of the C.G.E. Company here, and has many friends in Peterborough. Mrs. Armstrong is also very popular, and they will have the best wishes of many friends for a happy married life.

Robinson—Stafford

The Brockville Times contains the following report of a wedding, in which the groom is a nephew of Mr. Jas. McKibbon, 3 Downeastown avenue, Peterborough.

A pretty June wedding was celebrated last night at the home of Mr. and Mrs. Wm. Stafford, Lyn, when their eldest daughter, Miss Etta Stafford, was joined in wedlock to George Robinson, a worthy young farmer of Halbert's school settlement. The bride's sister, Ines, was bridesmaid, and Wm. Robinson, brother of the groom was best man. Rev. T. Austin Smith officiated.

The house was prettily decorated for the event and the bridal party looked their best. Upwards of forty guests joined in the festivities and brought many handsome and valuable wedding gifts for Mr. and Mrs. Robinson, who are held in high esteem throughout the neighborhood of their homes.

News in Brief

London, June 16.—The Canadian Association Press understands that Hon. Mr. Haldane has sanctioned the payment to the Gordon Highlanders at Aldershot of an allowance to entertain a small detachment of their allied regiment, the 48th Highlanders of Toronto, consisting of three officers, two non-commissioned officers, and six privates on a visit to England. An official invitation has been issued.

London, June 16.—The Pilgrims' Society of London, gave a dinner last night at the Savoy Hotel to welcome the leading delegates attending the Pan-Anglican Conference. Some twenty American bishops, all the colonial archbishops and a number of missionary bishops received attention. Missionary bishops received invitations.

Lord Curzon of Kedleston presided at the gathering and in proposing a toast to the King and the President of the United States he spoke of them as the two rulers who had had more influence on the history of the world in the past seven years than any others.

The Premier Herbert H. Asquith, in responding in a noteworthy speech, paid a high tribute to President Roosevelt and exhorted the church to use its influence for the unity of nations and for peace. He offered a toast to the visitors, and the Archbishop of Rupert's Land replied in behalf of the Colonials, and the Bishop of Massachusetts, for the Americans. The bishops of Missouri and Saskatchewan also spoke eloquently for the guests.

Tenders for Fog Alarm Machinery

TENDERS addressed to the undersigned at Ottawa and endorsed on the envelope "Tender for Fog Alarm Machinery" will be received up to noon of the

FIRST DAY OF JULY, 1908

for supplying the machinery required by the Department of Marine and Fisheries, for fog alarm purposes during a period of one or three years, at the option of the Minister of Marine and Fisheries.

Specifications of the machinery can be procured at the Department here; at the Agencies of the Department at Montreal, Quebec, St. John, N.B., Halifax, N.S., Charlottetown, P.E.I., Victoria, B.C., at the Government Shipyard at Sorel, and the Prescott Lighthouse Depot.

Each tender must be accompanied by an accepted bank cheque for the sum of Five Hundred Dollars, payable to the order of the Minister of Marine and Fisheries. The cheque will be forfeited if the party whose tender is accepted declines to enter into a contract to furnish the machinery, or fails to carry out the contract. If the tender is not accepted the cheque will be returned.

The Department will not be bound to accept the lowest or any tender.

Newspapers copying this advertisement without authority from the Department will not be paid.

G. J. DESBARATS.
Acting Deputy Minister of Marine and Fisheries.
Department of Marine and Fisheries, Ottawa, Canada, 26th May, 1908.

To Canadian Investors

The undersigned has received an allotment of unsold portion of $100,000 of

7 PER CENT FIRST MORTGAGE FIVE-YEAR-OLD BONDS

dated January 11, 1908, and maturing January 11, 1913. These Bonds are offered at par and accrued interest by Metropolitan Trust & Savings Bank, Chicago, trustees.

SECURITY—The Entire Property and Improvements Owned THE URES CONSOLIDATED MINING COMPANY in the District of Ures, State of Sonora Mexico, Free from Mortgage or Bonded Indebtedness except this present Bond Issue.

An Unusual Opportunity for Investment in Sound Security

The Ures Consolidated Mining Company offers $100,000.00 of First Mortgage Gold Bonds. This issue of bonds is the only mortgage or bonded indebtedness ever placed on the company's properties.

These bonds are in the denomination of $100.00, and bear interest at the rate of 7 per cent. per annum, payable semi-annually, July and January, and are redeemable on or before five years from date at the company's option at $110.00 and accrued interest.

$100.00 Stock Bonus Given with Every $100.00 Bond

With each bond issued there will be given $100.00 par value of the capital stock of the company as a bonus, and in addition thereto there will be placed in escrow with the Trustee additional stock which will be available to the bondholders at their option any time within a period of three years, the bondholder being entitled to surrender his bond any time within said period and receive in lieu thereof stock for every dollar of indebtedness to him on account of said bonds.

The Security Back of these Bonds

The company owns twelve claims situated in the district of Ures, State of Sonora, Mexico, free from mortgage or bonded indebtedness, except the present bond issue.

On one of these properties (The Ramona Mine) 5,000 feet of underground development work has been done, consisting of an inclined shaft to the depth of 400 feet with drifts in three levels to the North and South of the shaft.

An average value of ore worth $11.47 per ton is exposed throughout the mine, from the collar of the shaft to the extreme parts in the drifts, all of which is above water level.

The company has made surface improvements and mine improvements to the extent of $60,000.00 in the way of machinery, skids, trams, steam hoists, mill and nearly everything necessary to make the mining camp complete.

In addition to the absolute ownership of these twelve valuable claims, the company has a lease on the San Jose Mine, adjoining its property, in which the company has been operating in high grade ore.

During the past sixty days the company has extracted and delivered to ore buyers and the bank at Hermosillo, $2,800.00 worth of ore and bullion, the ore having been reduced to bullion through the company's mill, with the exception of 1,456 pounds, which was sold to an ore buyer for $562.50.

The Money Derived from the Sale of These Bonds

This issue of bonds is made for the purpose of securing money at once in order to extend the development work more quickly than the company's present means will permit.

With the high grade ore in sight to the distance of 80 feet to the South of the shaft, the management is assured that within six months from date of making the improvements now necessary the company's properties will be on a self-sustaining and dividend-paying basis.

The Stock which is Given with these Bonds will be as valuable as the Bonds when the Company has the ready capital to push operations

Men who invest in these bonds will have no cause or reason to regret their action, for the bonds afford an investment in a security which is absolutely safe—much better than ordinary city or country real estate, which is considered perfectly safe if the property put up to secure a mortgage is double the face of the loan. The security given on these bonds is better than 7 to 1, for the Ures Consolidated Mining Company has refused an offer of $750,000.00 for the property upon which this $140,000.00 worth of bonds is issued.

These bonds are an investment with all speculative risk eliminated—an investment with absolute security.

Make your reservation at once. This is small and promises to be quickly sold.

CAPITAL $1,500,000 RESERVE $950,000

Banco de Sonora,
Hermosillo, Mex.,
Feb. 11th, 1908.

To whom it may concern:—
We hereby beg to state that The Ures Consolidated Mining Company has during the past five years made several deliveries of bullion to this bank, and it is the opinion of mining men here that they have the making of a fair mine, and further, that the properties owned and controlled by them bid promise of becoming paying properties.
From our knowledge of the man connected, we believe they are doing all in their power to bring about the results above mentioned.
Respectfully,
BANCO DE SONORA,
Max Muller, Gerente.

THE SICK WITHOUT  MADE WELL MEDICINE

Precious Life and Health can be Saved By this New Method
All Sickness is Alike to
OXYDONOR

It applies to all cases, no matter what the form of disease may be. It revitalizes the human body with OXYGEN from the air. OXYGEN is a vital Necessity—the greatest necessity life knows.

You can apply Oxydonor at home while you rest or sleep. No loss of time from your work or business. It is easily applied, safe, and always ready for use. Its force never exhausts. It will serve the family, children as well as adults.

Mr. Wm. Beers, 196 York St., Toronto, writes: "I have great pleasure in recommending your Oxydonor. When I first got the instrument I was suffering from Sciatica for about four months, and after applying for five weeks it left me all at once and have not been troubled with it since. I can highly recommend it as a good family doctor, and would not be without it for double the price.

ADVERTISE IN THE TIMES

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

The Morning Times

ONLY MORNING DAILY BETWEEN TORONTO AND OTTAWA

VOL. XXXVI., NO. 145 PETERBOROUGH, ONTARIO, SATURDAY, JUNE 20, 1908. PRICE TWO CENTS.

One Cent a Month as a Special Fund for the Aged

Toronto, June 19.—The Foresters are still debating the rate question. There is a decided change of opinion in favor of the medium scheme as proposed by Mr. Stevenson and it looks as if this would be adopted. The difficulty is the two-thirds vote needed.

An arrangement has been made for the creation of a special fund to take care of the needy old members of the Stevenson plan is adopted. There will be a levy of one cent a month from each member, amounting to over $30,000 a year.

The Finance Company will bring in a report advocating the gradual separation of the Order from trust, loan and other companies.

The Lincoln Paper Mills Destroyed by Fire

St. Catharines, June 19.—This city suffered another serious loss by fire, when at an early hour this morning one of the mills of the Lincoln Paper Co., situated on the Welland Canal, at the city limits, was totally destroyed, at a loss which will reach probably $50,000.

This is the second time the mill has been burned. Several years ago, when the mill was only a frame building, it was destroyed by fire, when one man lost his life.

There were about 20 men employed in the burned mill, the majority of the Lincoln Company's employees being at the larger mill further up the canal. It is understood that the company had just closed a deal to take over the Colonial Cotton Co.'s cotton mill at Merriton, which has been standing idle for a long time. This will enable them to greatly increase their capacity.

There were four men at work on the building last night, and they were suddenly startled by seeing flames bursting from the machinery room. The men fought the flames quickly for a while with the mill fire apparatus until the fire brigade of Merriton and St. Catharines could get there, but they finally had to give it up, as the fire spread with such rapidity, making it impossible for the men to stay in the building. The flames had gained too much headway for anything to be done when the firemen got to the scene, and it burned itself out when there was nothing left to lick up.

The cause is a complete mystery, though it may be laid at the door of friction. The expensive machinery used in making paper, is ruined, officials of the company declare. Welland D. Woodruff, president and general manager of the company, is at present on his way to England, whither he went to look after the Woodruff succession duties appeal case. Mr. Woodruff is the Liberal candidate in this county for the Dominion House, running against E. A. Lancaster, M. P.

ABOUT HALF INSURANCE

Wm Shea, assistant manager, said at noon that the loss would be about fifty thousand dollars with insurance of about half that amount divided among seven or eight companies.

Mr. Shea said he did not know whether the company would rebuild or not, but he thought that it was probable that they would go into the large cotton mills building at Merriton, which they had purchased.

STILL DOING BUSINESS.

The following notice from the Lincoln Paper Mills Company, Limited, has been sent out: "The loss of one of our mills by fire on Thursday night shall not interfere with our business operations. Orders will be filled with usual promptitude."

Farmer and His Wife Praise Zam-Buk

As a family balm and salve Zam-Buk is unequalled, and should be on every Canadian farm. Mrs. C. E. Tibbs of Oak Vale Farm, Winnipeg Beach, writes:—"We have found Zam-Buk a wonderful healer. I used it for a very bad burn on my hand, and by the next day the pain had gone and the wound well on the way to healing. My husband also used Zam-Buk for a nasty flesh wound on his arm which it healed in several ways we have found Zam-Buk so healing and soothing that we would not like to be without it in house. Before we could get Zam-Buk in Canada, we used to write to England for it, as we thought so much about it."

This great skin healer is sold by all druggists and stores at 50 cents a box.

EVERY HOME NEEDS ZAM-BUK!

Piles are easily and quickly checked with Dr. Shoop's Magic Ointment. To prove it I will mail a small trial box as a convincing test. Simply address Dr. Shoop, Racine, Wis. Fearing would not send it free unless I was certain that Dr. Shoop's Magic Ointment would stand the test. Remember it is made expressly and alone for swollen, painful, bleeding or itching piles, either external or internal. Large jar 50c. Sold by all dealers.

Millions of Caterpillars Delayed the Trains

St. John, N.B., June 19.—Caterpillars are creating havoc in sections of the province. A regular army of them is reported from York county between Tracy and Cook Station, on the C.P.R., between Fredericton Junction and McAdam.

On Thursday evening the pests started to cross the track, and as a heavy freight train that came along and rushed on them was soon stalled. Three times in a distance not greater than a mile the train was stopped by the insects. The train crew were forced to use shovels to clear the track. They report that there were millions of caterpillars, and that they had eaten almost every thing green in sight, and had wrought particular havoc to the poplar trees.

GREAT BRITAIN says

NO ALUM IN FOOD

and strictly prohibits the sale of alum baking powder—

So does France

So does Germany

The U. S. Congress has made the sale of alum foods illegal in Washington (District of Columbia), and alum baking powders are everywhere recognized as injurious.

To protect yourself against alum, when ordering baking powder,

Say plainly—

ROYAL BAKING POWDER

and be very sure you get Royal.

Royal is the only Baking Powder made from Royal Grape Cream of Tartar. It adds to the digestibility and wholesomeness of the food.

Married in St. Catharines

Mr. Richard Wilson, Formerly of This City, a Benedict

A very pretty wedding took place this morning at the manse, 105 King street, when Miss Esther Louise, daughter of Mr. and Mrs. Wm Dupre, was united in marriage to Mr. Richard Wilson, formerly of The Times staff, Peterborough, by the Rev. D. H. Macdonald. After the ceremony, the newly married couple drove to the residence of the bride's parents where a dainty breakfast was served, after which they left on the 10 a.m. train for Hamilton, this taking the boat for Montreal and other points. The bride's travelling suit was brown voile over taffeta with hat to match.

The couple were the recipients of numerous and handsome presents, showing the esteem in which they were held by their many friends. Amongst the gifts there was a handsome gift of silver from the choir, teachers and officers of the Hayes avenue Sabbath school, with which both were connected. Mudhill and Anderson, for whose employ Miss Dupre was for some time, sent a very fine gift of linen. A handsome cheque was presented by the bride's father.

The best wishes of a host of friends accompany the young couple on their journey.—(St. Catharines' Standard.

Has Been Chosen to go to Rome

The Canadian Machine Telephone Company, have chosen Mr. Geo. E. Chamberlain, who was formerly in Peterborough, and who left a few months ago to take a position in the factory in Toronto, to install an exchange in the City of Rome, Italy. His many friends in Peterborough wish to congratulate him on being sent on such an important mission, and they trust that he will have a pleasant journey, and be successful in carrying out the work he has been sent to perform.

Mr. Chamberlain left yesterday for New York, and previous to his leaving the employes of the Canadian Machine Telephone Company's factory in Toronto presented him with an address, wishing him a pleasant voyage and success in his work. The address was accompanied by an up-to-date camera. Mr. Chamberlain will probably be away for some months in Europe.

This shipment is the first foreign shipment the Canadian Machine Telephone Company has made, and it will be followed early in July by another exchange of three sections of automatic equipment, together with all the necessary apparatus to handle the toll lines, etc., for installation in the city of Lyons, France.

103 BAR-ROOMS IN A NO-LICENSE TOWN --LAW NOT ENFORCED

Eight Hundred and Ten Miners Away from Work and Most of Them Absent Through Drink --Town will Not Enforce Law

Glace Bay, June 19.—The Dominion Coal Company will likely take a hand in suppressing the liquor traffic in all the colliery towns, owing to the large number of men who absent themselves on Monday after getting their pay. Glace Bay, a no-license town, has 103 bar rooms, a number of them running wide open. Last Monday 810 men were away from work. This is ten per cent of the company's employes. Drink is said to be the cause of the greater portion of absentees. In one mine a year only did all the men show up. The loss in the output from the beginning of the year to last April is estimated at 45,000 tons of coal, which is at the rate of 130,000 tons per year. The year's loss in wages to the men amounts to $130,000. The Government loses $16,250 royalty. A quarter of a million dollars are spent for liquor every year in colliery towns in which the Dominion Coal Company operates mines.

It seems to be impossible to get the town to enforce the law.

The Coal Company will probably spend two or three thousand dollars next to in the enforcement of the law.

Peterboro Fair Directors will Receive Usual Grant

The County Council resumed business yesterday morning, the reports of the Property Committee and Joint Committee were submitted and other business transacted. The grants to the fall fairs was discussed and it was moved by Messrs. Scott and Molloy that East Peterborough and West Peterborough Agricultural Societies be granted each $150 and Lakefield Agricultural Society $50 and Lakehurst, Keene, Kinmount societies each $25 for the year 1908.

It was moved in amendment by Messrs. Cobeo and Porter, that the grants be the same as last year, namely, East and West Peterborough societies get $100 each, Lakefield $75, Keene $25, Kinmount $25 Lakehurst $25.

An amendment to the amendment was moved by Messrs. Graham and Moore that the grants be, East and West Peterborough $100 each, Lakefield $50, Lakehurst $25, Kinmount $25, Keene $25.

The amendment being the only one supported by a majority of the council, was declared carried, namely, that East and West Peterborough get $100 each, Lakefield, Kinmount, Keene and Lakehurst $25 each.

MORNING'S SESSION

The council met yesterday morning at 9 o'clock with Warden Thompson in the chair. Matters of insurance were discussed after which the council was addressed by Mr. J. Coyle Brown, P.S.I. Mr. Brown stated he had no formal report to make as he had presented one in January and would again next January. During his work through the country he had found manifest an extraordinary spirit of compliance with the school laws by the trustees and teachers. This was also manifested by not a few to discard the old school houses for the new and he believed the recent changes made in the school laws were working well. He was busy getting out examination papers for promotions and he believed the promotions would be more uniform and just this year than ever.

A POLICE MAGISTRATE

A resolution was passed by the council recommending the appointment of a police magistrate in the north western townships of Peterborough County. If this is carried into effect County Magistrate Edmison will be relieved of any trips into that section and it will also lessen the expenses for witnesses, who formerly very often had to come to Peterborough.

Mr. C. R. D. Booth, Reeve of Anstruther and Burleigh for nine years, was recommended, and no doubt if he becomes the police magistrate the government will have made a good appointment.

RESOLUTIONS PASSED.

Moved by Messrs. Scott and Fife that in the opinion of this council it is expedient that a police magistrate should be appointed for that part of the County of Peterborough comprising the Townships of Anstruther, Chandos and Burleigh, and of that part of the Township of Methuen lying north of the lots numbered twenty-five in the said township, and that this council requests the appointment by the Lieutenant-Governor of Mr. Charles R. D. Booth to that position, and that the warden be appointed to sit upon the Government in order to have this recommendation carried into effect.

Farmer Crushed to Death by a Load of Lumber

Norwood, June 19.—A farmer named Orton Colby, living about eight miles north of here and employed at Parker's mill, was coming to Norwood yesterday evening with a load of lumber when the neck yoke broke coming down a hill. The wagon upset and the unfortunate man was horribly crushed under the load, and died in a few minutes. He leaves a wife and large family of small children.

Sports

Games played on the three big professional leagues yesterday resulted as follows:

Toronto 1, Providence 13.
Rochester 3, Newark 8.
Montreal 2, Baltimore 0.
Jersey City 3, Buffalo 2

There was no game between Wellingtons and Y.M.C.A. last night in the City League on account of the rain.

Tower 80 Feet High

Omemee, June 19.—The material for the immense tower 80 feet high, and three miles southeast of here on Mr Edward Sheridan's farm, will be delivered at Cavanville, which is six miles from the tower. It will be built of Norway pine and steel, and will be built 80 feet high on a stone basement on one of the highest points in Ontario. It is stated that it will be used as an observatory for wireless telegraphy and for taking views at long distances away.

A Square Deal

Is assured you when you buy Dr. Pierce's family medicines—for all the ingredients entering into them are printed on the bottle-wrappers and their formulas are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless even to the most delicate women and children. Not a drop of alcohol enters into their composition. A much better agent is used both for extracting and preserving the medicinal principles used in them, viz.—pure triple-refined Glycerine. This agent possesses nutritive and strengthening properties of its own, being a most valuable antiseptic and antiferment, nutritive and soothing demulcent.

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heart-burn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels.

Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hacking coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not as good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate, chronic coughs, which, if neglected or badly treated, lead up to consumption, it is the best medicine that can be taken.

The Petes and Athletics Meet This Afternoon

The Athletics and Manager Johnston's "Petes" will meet on Riverside Park this afternoon in what will be one of the keenest and bitterest fought games that has been seen here this season.

Rivalry between the two teams has been at a high pitch. The Petes have carried away everything that has been up before them and today will go right after the Athletics with gloves on.

The Athletics have secured some of the fastest ball tossers that are playing the game for today's contest, and are confident of a victory. They have to win to be in the running and a fall out of the "Petes" will mean the first loss for the Johnstonites this season. It will be a strenuous contest, and a bumper crowd is expected. The fine new grand stand is ready and seats are free. It will be an ideal place to be on the afternoon of a warm day, where you catch the breeze right off the Otonabee.

Quinlan will be on the firing line for the Athletics, and Clements for the "Petes." The line up will be as follows:

PETERBOROUGH.

June Brides

Raymond--O'Grady

The marriage took place at St. Peter's Cathedral last Tuesday morning of Miss Theresa O'Grady, 52 Rogers street, and Mr. Thos. Raymond of this city. Rev. Father Galvin performed the ceremony. The bride was supported by Miss Fanny O'Leary, and the groom by Mr. A. Doua. The many friends of the happy young couple give them their best wishes.

Letellier--Butler

The marriage took place on Wednesday at Allegheny, N.Y., of Dr. Letellier of Seneca Falls, N.Y., and Miss Bessie Butler of Allegheny. Dr. Letellier is a son of Mrs. Archibald Letellier, Crescent street. Mr and Mrs. Letellier will spend their honeymoon in Peterborough.

Piles are easily and quickly checked with Dr. Shoop's Magic Ointment. To prove it I will mail a small trial box as a convincing test. Simply address Dr. Shoop, Racine, Wis. I surely would not send it free unless I was certain that Dr. Shoop's Magic Ointment would stand the test. Remember this made expressly and alone for swollen, painful, bleeding or itching piles, either external or internal. Large jar 50c. Sold by all dealers.

Might Have Been a Serious Accident

Yesterday afternoon at the Quaker Oats Co. mills, two of their employes nearly met death by falling down the elevator shaft. At the third flat a truck was being loaded onto the freight elevator, when someone below let it go down by pulling the rope. Mr Lockhart who attends the elevator, jumped and got the rope just in time to save a probable fatal accident. The elevator gate came down hitting one of the men on the head. It is customary for Mr. Lockhart to get off the elevator, while a truck is being put on, but it happened that he did not get off at this particular time. If he had he would not have pulled the rope down, and the men would have met their death.

Obituary

Another of Peterborough County pioneers passed away on Friday, at 11 o'clock in the person of Mr Andrew Ennor, South Monaghan. The late Mr. Ennor was 90 years of age, and had resided in South Monaghan for over 50 years. He was one of the best known farmers in Peterborough County.

The deceased was a Presbyterian in religion and was a member of the Centreville Presbyterian church. He had been ailing for some time never having recovered from a severe attack of la grippe, which he contracted last February. His wife predeceased him about 35 years ago.

The late Mr. Ennor leaves to mourn his loss, four sons and daughters; as follows; Edward and James of Peterborough, Johnny, Andrew and Walter of Monaghan; George of Carman, Manitoba; Mrs. Robt. Fisher and Mrs. Thos. Dawson of Monaghan; Miss Walter Fisher of Peterborough; Miss Jas. Ennor of St. Mary's.

The funeral will take place at 9.30 Sunday morning. Interment in Centreville cemetery.

Quakers Defeated Havelock Team

The Quaker Football Club and Havelock came together last night for a few minutes in a good game, which had to be called on account of rain. The Quakers had it pretty nearly their own way, and scored after about five minutes play the only goal scored. These two teams are a fine in the district, and the tie will be played off, probably in Norwood, in the near future.

Athletic Meet for Dominion Day

A boys' championship meet, open to any boy in Peterborough, will be held at Nicholls Oval on July 1st, and will be for boys 17 years and under. Events are now being drawn up and will be open at the Y.M.C.A. on Monday. Mr. V. Eastwood, manager of the Royal Bank, and first vice-president of the Y.M.C.A., has donated a handsome silver cup and then must be won for two years in succession to be held. This is a great chance for the boys of Peterborough.

Weak women should try Dr. Shoop's Night Cure. These soothing, healing, antiseptic suppositories go direct to the seat of these weaknesses. My "Book No. 4 For Women" contains many valuable hints to women, and it is free. Ask Dr. Shoop, Racine, Wis., to mail it. Ask the Doctor in strictest confidence, any questions you wish answered. Dr. Shoop's Night Cure is sold by all dealers.

ADVERTISE IN THE TIMES.

Doctors All Advise Suitable Spring Tonic

Pays You to Get Strong and Nourish the Blood During Change of Seasons.

In the spring time the vigor and resisting power of the body fall very low. Instead of being rich and nourishing, the blood is thin and watery. As a result the bodily forces become less active, sleep fails to bring rest. An ever-increasing tiredness develops into over-powering weakness.

People suffering from this spring sickness feel heavy and drowsy; they don't want to eat; they don't enjoy work—about half sick and half well. This is just the condition that favors pneumonia and typhoid, and you must build up as quickly as possible. You must increase your blood supply and make it rich and red.

The only way this can be done is by using *Ferrozone*, which is acknowledged to be the most efficient spring medicine.

The marvellous purifying and tonic properties of Ferrozone are quickly felt because the blood is at once supplied with the elements it needs to become rich and red. It is ironized vitalized and rapidly brought to its normal strength.

The very best ingredients for toning up the system are contained in Ferrozone, and if you use it you are sure to get back your old-time strength and spirits.

If you suffer from debility, insomnia, nervousness, loss of appetite, or any of the symptoms of disordered blood, nothing will so rapidly tone you up as this great food tonic, Ferrozone. Its record of successful cures, its recommendation by the public, by druggists and doctors commends it to every thinking person.

You need Ferrozone to make you well. Why not get to-day? Sold by all druggists; price 50c. per box or six boxes for $2.50.

Morning Times

published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

DRUGLESS MEDICINE

Dr. Osler has been quoted, according to an exchange, as authority for the statement that there were only about four drugs of any medicinal value to mankind. Certainly there is an increasing prevalence of experimenting with pure air and sunlight as remedial agents, instead of baneful drugs and decoctions of noxious weeds. Still there was a time, before Dr. Osler's name became known to fame, when people had recourse to nature's remedies instead of medical advice in time of illness. In a case of sore throat how simple a remedy it was to draw out, with a pair of pincers, a tuft of hair from a centre of the head, so as to be sure to extract the "ingrowing hair" which was irritating the throat.

Hayseed tea and such decoctions brewed by our ancestors kept them in health, where the red and blue light of the chemist was as unknown as the telephone. (When the British were concentrating the wives and children of the Boers in camps to take care of them while their men folk were fighting, many of the primitive methods of dealing with ailments among people who led the simple life came to light. It will be remembered that the Boer women added to scientific lore a method of dealing with measles, by painting the sick child all over with green paint. The child died, but has this not happened under other treatments?

What simple cure for rheumatism of carrying a potato in your pocket? It was just as good as nine-tenths of the rheumatism cures for which people could be found than the old remedy people now-a-days pay big money. There are instances known, too, where people who carried the potato, never had rheumatism all through their lives, which may be taken as a proof that it is a preventative as well as a cure.

The cutting down of a large white oak at Petersburg, Indiana, a few weeks ago, recalls an old method of treating asthma, which may be interesting to those who use modern cures that leave much to be desired. In this oak tree there was found a casing, which had been cut when the tree was young, containing a lock of hair, and the trimmings of finger nails. The man def the tree had grown over them, and nothing but a slight external scar showed where the auger hole was. An old citizen explained that this illustrated one of the ways of treating maladies among the days of medicine. It was the common belief that if a person had asthma and he would take a lock of his hair and the trimmings of his nails and put them in a hole bored in a green tree, at a height equal to his own height, the disease would be cured. It will thus be seen that the knowledge of how to get along and keep healthy without the use of drugs was known before Dr. Osler's time.

To stop any pain anywhere in 20 minutes simply take just one of Dr. Shoop's Pink Pain Tablets. Pain means congestion—blood pressure—that is all. Dr. Shoop's Headache or Pink Pain Tablets will quickly coax blood pressure away from pain centres. After that, pain is gone. Headache, Neuralgia, painful periods with women, etc., get instant help. 20 Tablets 25c. Sold by all dealers.

POPULAR LITERATURE

The American Booksellers' Association, at its annual convention the other day, adopted a resolution declaring that this association feels called upon at this time to use its influence to discourage the publication and sale of books of profound immoral plot or tone."

Assuming that the resolution was suggested and passed in all sincerity and for the sole purpose of protecting the reading public from unwholesome influences, the action of the Association is to be cordially commended. But indeed the output of popular literature of a "profound immoral plot or tone" is very small in comparison with the total product of the press. The New York Times Saturday Review declares that so far as present tendencies show the only novels that require examination on the score of moral dubiety are those written in England, chiefly by English women. This may sound like a prejudiced view, but we are very much afraid that the charge cannot be satisfactorily met by attributing it solely to prejudice.

Apart from a very few books, however, it may be said that the popular literature of the day is remarkably clean. It is the custom of superior people to show their superiority by denouncing the great bulk of modern fiction as trash. It is much easier to fall into the habit of denouncing indiscriminately than it is to take the trouble to be fair; and unfortunately it is sometimes more popular; yet there is something to be said for even the "trash." The mind that is occupied or entertained, or perhaps even instructed in some poor way, by the "trash" might find nothing at all but disappointment in literature of a higher class. The child creeps before he walks, and the boy whose young imagination has first been stirred by excursions along the very humblest paths of literature, may yet find his way to association with the immortals.

It would be well, no doubt, if we were all able to find enlightenment and satisfaction only in the very best; but we must accept the world as we find it, while contributing our little mites to its betterment. The tastes and the needs of all the people cover a very wide range.

If one feels dull and spiritless, in the spring or early summer, they call it "Spring Fever." But there is no fever—usually. It is the after effect of our winter habits. The nerves are mostly at fault. Tired worn-out nerves, leaves us languid, lifeless, and without spirit or ambition. A few doses of Dr. Shoop's Restorative will absolutely and quickly change all of these depressing symptoms. The Restorative of course won't bring you back to full health in a day or two, but it will do enough in 48 hours to satisfy you that the remedy is reaching that "tired spot." Druggists everywhere are advising its use as a splendid and prompt general tonic. It gives more vim and more spirit to the spoonful than any other known nerve or constitutional tonic. It sharpens a failing appetite, aids digestion, frees sluggish livers and kidneys, and brings new life, strength and ambition. Test it a few days and be convinced. Sold by all dealers.

EDITORIAL COMMENT

Of the entire population of the United Kingdom of sixty-five years and upwards, 30 per cent., says the Weekly Sun, are in almshouses or in receipt of outdoor relief and in some communities the proportion reaches 45 per cent. In Germany the family of the average workingman sees meat only once a week and then in sufficient quantities. In New York hundreds of thousands are crowded in tenements in which bodies are dwarfed and souls starved, and a population equal to that of a large city is standing in hopeless idleness.

In facts such as these lies the great tragedy and the great problem of human existence. But to this great tragedy the eyes of statesmen are blind and voices that are raised in demand for the solution of the problem fall upon deaf ears. At Washington the clamour is for battle ships sufficient to make of the Pacific an American Lake. At Berlin all the energies of the Government are centered on the maintenance of an army strong enough to hold the Rhine on the west, and at the same time extend German power to the south and on the high seas. At London discussion centres around means by which a world-wide Empire may be held together.

Flags and artificial boundary lines are more than the wail of starving children. The maintenance of the balance of power is of greater account than the distress of old age. Nineteen centuries of preaching of the Gospel of peace and human brotherhood and still untold treasures are being wasted in the creation of implements for human slaughter, while hosts of those who are taxed to provide the treasure are born in rags and die in abject poverty.

His Honor, Judge Colter, at the opening of the June Sessions in St. Thomas the other day, made a valuable contribution to the subject of prison reform. Although some persons have taken great credit to themselves for enunciating theories for a more humane treatment of criminals, this is a matter in which the evolution of the human race and of responsible Government has played and is playing a very important part.

That this is true is shown by the fact that for a couple of hundred crimes that were once punishable with death capital punishment has been abolished. In Canada the greatest advances in the proper treatment of criminals has been made by Parole Officer, Archibald, and doubtless, there will be other changes made from time to time as time passes.

As a subject for immediate consideration that favored by Judge Colter is one that has distinct advantages under present conditions. There is much truth in the statement that a young offender who might otherwise become a respectable citizen, is more likely to become if confined with such persons a vicious and hardened criminal.

Grading the prisoners would help to remedy the evil that is recognized by everyone who has given a thought to the question. It is only natural that more crime should mark the history of this province as the province becomes more populated. As the most prolific sources of crime are legalized by the people themselves, the people should bear the responsibility of providing plenty of penal institutions and reformatories.

It may seem inconsistent to erect and maintain institutions where young men and women might be reformed, while outside the institutions we encourage methods of and means of dragging down the youth of our land to that point where public safety requires their reformation in the institutions for that purpose. However, inconsistent or not, as long as the people encourage and condone those things that breed crime, then the people, if only to protect themselves from the results of their own folly, must provide places where offenders may be placed out of danger.

And the responsibility of the people does not rest with the mere confinement of prisoners under guard. We must consider it what way they will be confined to work out to the best advantage both for themselves and society in general.

C.O.F. Excursion

Court Lutt, John, Canadian Order of Foresters, will run their annual excursion to Toronto and Niagara Falls on July 9th. The bills will be issued next week. This line always runs a popular event, and no doubt this year will prove no exception to the rule.

Farmers are Drawing in Their Hay

Mr. W. A. Edwards of the Crystal, who has been on a visit in Western Ontario, is the authority for the statement that the farmers between Berlin and Preston are drawing in their hay and states that a splendid yield is looked for in the different grains. In fact the harvest season will be one of the best in Western Ontario.

—The first annual excursion of the Bricklayers' and Masons' Union will be held at Idyl Wyld on Saturday afternoon, July 4, per steamer Otonabee.

How Nature Provides.

Our Beauty, Health and Happiness.

Is it not possible, and altogether probable that elements necessary for the body-health are contained in the medicinal roots found in the earth, digested in the plant laboratory of Nature and made ready for man or animal?

There is a growing belief among scientists that the vegetable kingdom furnishes us with the necessary elements for blood making and to keep that delicate balance of health that the human animal is so apt to disturb by wrong methods of living. Then we know that we should get the phosphates from the wheat in our bread—in some cereal foods, and from fresh cereals vegetables, such as spinach and greens.

If there is ill-health then our best method for recovering our standard balance of health is to go to Nature's Laboratory—the plant life which will furnish the remedy.

Buried deep in our forests is the plant known as Golden Seal (Hydrastis) the root of which Edwin M. Hale, M. D., Professor of Materia Medica at Hahnemann Medical College, Chicago, states "In relation to its general effects on the system, there is no medicine in use about which there is such general unanimity of opinion. It is universally [illegible] as the tonic useful in all debilitated states." Dr. Hale continues: "Prof. John M. Scudder says, 'It stimulates the digestive processes, and increases the assimilation of food. By these means the blood is enriched, and this blood feeds the muscular system.' 'I mention the muscular system because I believe it first feels the increased power imparted by the stimulation of increased nutrition. The consequent improvement on the nervous and glandular systems are natural results.'"

Stillingia or Queen's root is another root which has long been in repute as an alterative (blood purifier) and Prof. John King, M. D., says of it: "An alterative unsurpassed by few if any other of the known alteratives; most successful in skin and scrofulous affections. Beneficial in bronchial affections—permanently cures bronchitis—relieves irritation—an important cough remedy—coughs of years' standing being cured. Aids in blood-making and nutrition, and may be taken without harm for long periods."

Nearly forty years ago, Dr. R. V. Pierce of Buffalo, N. Y., combined an extract of the two above roots, together with that of Stone root, Black Cherry-bark, Bloodroot, Mandrake and Glycerine—into a prescription which he put up in a ready-to-use form, and called Dr. Pierce's Golden Medical Discovery. It was most successful in correcting and curing such ailments as were due to stomach and liver derangements, followed by impure blood.

In cases of weak stomach, indigestion, dyspepsia, alienation of stomach or bowels, torpid liver, or biliousness, the "Golden Medical Discovery" has never been excelled as a tonic and invigorator which puts the affected organs "in tune" and enables them to perform their proper functions.

This alterative and tonic is indicated when you have sourness of head, backache, in fact "pain all over." When your appetite is gone, tongue furred, bad taste in mouth, foul breath, when you feel weak, tired, blue and discouraged, then is the time to take this natural restorative of Dr. Pierce's "Golden Medical Discovery" is not a secret, or patent medicine, because all its ingredients are printed on the bottle wrapper. It contains no alcohol, or other harmful, habit-forming agents—chemically pure, triple-refined glycerine being used as a solvent and preservative.

A good medical book, written in plain English, and free from technical terms is a valuable work for frequent consultation. Such a work is Dr. Pierce's Common Sense Medical Adviser. It's a book of 1008 pages, profusely illustrated. It is given away now, although formerly sold in cloth binding for $1.50. Send 21 cents, in one-cent stamps, to pay for cost of customs and mailing only for paper-covered copy, addressing Dr. R. V. Pierce, Buffalo, N. Y.; or 50 cents for an elegantly cloth-bound copy.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and [illegible] one or more a dose.

Heart Strength

[illegible] Heart Strength, or Heart Weakness, means Nerve Weakness, or Nerve Weakness means nothing more. For nearly [illegible] years Dr. Shoop has been telling [illegible] that nearly all [illegible] Heart Nerve [illegible] and more [illegible] more power, more [illegible] Dr. Shoop's Restorative [illegible] that the heart must continue [illegible] kidneys also have [illegible]

The clearly explains why, as a specialties, Dr. Shoop's Restorative has in the [illegible] the people of all this country. [illegible] heart diseases. [illegible] Dr. Shoop's [illegible] prescription—is also directed to those [illegible] nerves, nerve centers. It builds [illegible] nerves, not [illegible] heart beat.

If you would have strong, vibrant, strong digestion, clean blood—no sick-headache [illegible] as needed, with

Dr. Shoop's Restorative

"ALL DEALERS"

Cleaning Shoes.

Many people pin their faith to gasoline as the best cleanser for shoes in the light pastel shades, as well as those of darker leather.

A hardening of the leather, however, sometimes is the result of cleaning by this method.

The effect should be tried on the shoe under the instep before the entire surface is treated.

Under no consideration should the white shoe be immersed in the gasoline, but an end of a piece of cloth should be dipped in the oil, then rubbed evenly over the leather.

Any stains or spots are eliminated by extra rubbings.

A Chair Hospital.

Quite the newest thing in the way of an occupation for women is putting cane seats in chairs.

A Boston woman has chosen this unique way of earning money and in making a decided success of it. She has secured a clientele among well known families, and every patron she serves brings several others, so that her "chair hospital," as she calls her workshop, is seldom without a large number of patients. She averages $5 or $6 a week on each chair and can take five or six a day.

In the Sewing Basket.

Use a common bottle cork and a common thimble, push the cork into the thimble, small end first, then bottom out the cork enough to admit the point of your scissors. When your scissors are in use keep the cork on the points of them and you need not be afraid they will do any damage to your sewing in your workbasket. This will also keep your fine scissor points in good condition.

For both purposes the cloth brush should take the place of flannel. Indeed, the vigorous use of the cloth brush or glove may be recommended as an effective substitute for a bath, if the latter is not at hand, as the rough glove or brush cleanses the skin of small particles which are apt to cling to it from the clothing that is in daily contact with the body.

White spots on furniture caused by putting down a hot jug or cup should be rubbed at once with a little oil of some kind, linseed for choice, though paraffin or sweet oil is nearly as good. Leave the oil on some hours if possible and then polish.

His Wife (writing)—Which is proper, "disillusioned" or "disillusioned?"

Her Husband—Oh, just say "married" and let it go at that.

A RICH GOLD MINE.

For Several Years Eager Fortune Seekers Worked Over It.

A tale is told of a rich gold mine in Idaho with a ledge of ore which once extended above the surface of the ground in a clear, solid ridge several feet high and entirely distinct from the surrounding formation. This ledge was long and unbroken and lay directly across the course which hundreds of prospectors took every year to reach other gold fields. This obstruction of rock, the great value of which was long unknown, was too high to be surmounted by pack animals, so the prospectors cut a trail directly through it. For several years these eager gold seekers passed backward and forward over this trail in search of gold mines. One night a prospector camping near this ledge of rock picked up a bit of it and from force of habit took it to a creek near by and washed it. Then he examined the stone, and, to his great astonishment, he found "colors" in it—bits of sparkling gold. The prospector does not mistake gold when he sees it. He is not deluded by iron crystals or bits of mica, as the "tenderfoot" frequently is. The gold sparkle is clearer and brighter than that of any other mineral, and it is the same in sunshine and shadow.

The prospector, tremendously excited, broke off more pieces of the ledge and found more of it bearing free gold. Then he located his claim, and that was the beginning of a rich mine. Yet for years the eagerest of prospectors had passed over this trail through the ore in this ledge, never suspecting its value, although by its very prominence it seemed to invite inspection.—Leslie's Weekly.

Many excellent boars are put to a dirty pen and confined the year round without any pasture or yard for them to exercise in, and by the time they are old enough to be in their prime they are ruined by excessive service and lack of exercise, proper nourishment, etc. Give him a good, roomy pen, if not if possible, with a good strong fence around it, and away from the rest of the herd, provide him a warm sleeping place during the cold and damp weather and treat him in a manner that will make him think he is of some importance and not subject him with a kick or a club every time you go around him. His depositing ground you will be to a great extent what you make it, and you can rest assured that he will appreciate and enjoy any kindness and rubbing that you do for him and will not forget all of the injuries and resent his chance to get even with you.

A Bunch of Anecdotes.

Some interesting anecdotes and gossip, new and old, of the law courts are given in the English Illustrated Magazine. The writer of the article, Mr. A. J. Hughes, was once present in court when a juror who opened the ball by saying, "This case, my lord, really lies in a nutshell," received the reply, "You crack it then."

There have been times when clever witnesses have got the better of counsel in a skirmish of words. When the farrier was asked where he got his knowledge of the mare's age from, he said, "From the mare's own mouth, sir."

Irish lawyers are generally endowed by Dame Nature with quick wits. Among them all, perhaps, Curran held the palm for lightness and vivacity. When some one told him that no student should be called to the bar who did not possess a landed estate of his own, he retorted, "How many acres make a wiseacre?"

But it was a Scotsman, appropriately enough Lord Brougham, who, seeing his horses take fright, yelled to the coachman, "Drive into something cheap!"

HOUSEHOLD NOTES.

Corners are seldom overlooked, but rather undercooked. Thus always allow plenty of time in preparing corners.

If a bedstead creaks at each movement of the sleeper, remove the slats and wrap the ends of each in old newspapers. This will prove a complete silencer.

In using linen doilies on the highly polished table cut asbestos pieces to place beneath the mats, especially if there is any danger of the hot dishes marking the table top.

The polished appearance of stenciled clothes will be increased if a piece of wax the size of a small bean and half a teaspoonful of powdered borax be added during the boiling.

The new heavy embroideries of raised gold and silver work should never be brushed in the ordinary way. If rubbed gently with a piece of crimson velvet, a good result will be obtained.

Some Remarkable Guns.

At the siege of Rhodes the Turks constructed mortars by hollowing out cavities in the solid rock at the proper angle, and in the arsenal at Malta is a trophy of the long and glorious defense of Valetta, in a Turkish gun, about 8 ins. in calibre, composed of a copper tube rolled over with strong rope and "jacketed" with rawhide. In the same collection are some antique "quick firers," blunderbusses, with small bores and immensely long barrels, like punt guns. The Malay pirates put great trust in their long brass "rantaka" guns called "lela," and in Borneo these latter were used as a kind of currency, large sums being estimated in guns.

The Chinese cast excellent bronze guns (there is a fine specimen of them in Devonport dockyard), but so little did they understand gunnery that in the so-called "opium war" the forts of the Bocca Tigris, defending the Canton river, had the guns built immovably into the walls. The Sikh gunners opposed to us in the two Punjab wars, though they loaded with amazing recklessness, shoveling in the powder from open boxes, stuck to their guns to the last. The blood of the first man killed was smeared on the gun, and the whole detachment died beside it sooner than retreat.—Chambers' Journal.

The Great Northern Larder Lake Mining Company Ltd.

Incorporated on the 6th Day of June, A. D., 1907

The Great Northern Larder Lake Mining Company is incorporated by Letters Patent of the Ontario Government under the Ontario Companies Act.

AUTHORIZED CAPITAL $1,000,000

Divided into 1,000,000 shares of the par value of $1.00 each, fully paid up and non-assessable, and carrying no personal liability.

TREASURY STOCK, 600,000 SHARES.

HEAD OFFICE---404 McKINNON BUILDING, TORONTO, ONTARIO, CANADA

Read Official Statements as to Gold Discoveries in Larder Lake District

OFFICERS AND DIRECTORS

President—Silas Walker, Toronto, Manufacturing Furrier; Vice-President—H. H. Smallpiece, Toronto, Journalist; Treasurer—S. H. McCartney, Toronto, Capitalist; Secretary—H. Murby, Toronto, Cattle Dealer; Managing Director—C. C. Richardson, Toronto, Manufacturing Jeweler; M. Tromer, Toronto, Retail Furrier; David A. Foster, Haileybury, Miner; Solicitor—John A. Ferguson, Temple Building, Toronto; Bankers—Bank of Toronto, Head Office, Toronto.

A RAISE IN MINING STOCK

ALLOTMENT SUBSCRIBED.

The requisite amount of stock has been subscribed and paid in full to enable the Company to proceed to allotment and commence business.

RAISE OF MINING STOCK.

THE GREAT NORTHERN LARDER LAKE MINING CO., Limited, proposes to advance price of their treasury stock to Twenty-five (25c) cents on June 22nd. Last chance to buy at ten cents a share, par value One Dollar, fully paid up and non-assessable.

The foreman, Mr. David Foster, of Cobalt, has started to work on the Company's property with a gang of men to develop veins already discovered, also to continue stripping in search of new gold veins.

We are erecting boarding houses and dining-rooms for our men.

HEAD COPY OF CERTIFICATE AND STATUTORY DECLARATION CONFIRMING SAME.

Toronto, March 25th, 1908.

To the Great Northern Larder Lake Mining Company, Limited:—

Gentlemen,—

I beg to confirm my previous report to you that in my judgment the surface showings on the 14 mining claims which the Company has acquired, being Nos. H.R. 211 to H.R. 224, both inclusive indicate the probability of the existence of large bodies of both high grade and low grade free-milling ore, sufficient to pay dividends for an indefinite period.

I have personally examined a number of veins and reefs on said property (consisting of about 560 acres) and had some assays made and from such examinations and assays I make this report.

The statement on pages nine and ten of the Prospectus giving the short history of the Company are correct. I insisted on retaining a large interest in the Company rather than sell for any price that seemed reasonable to the purchasers.

DAVID A. FOSTER,
Haileybury.

10c. PER SHARE.

Par Value One Dollar fully paid Up and Nonassessable.

IN THE MATTER OF THE GREAT NORTHERN LARDER LAKE MINING CO., LTD.

Statutory Declaration.

DOMINION OF CANADA
County of York,
TO WIT:

I, David Foster, of the town of Haileybury, in the district of Nipissing, miner, do solemnly declare that the statements in the annexed certificate are true. I have personally inspected all of the fourteen claims now transferred to the Great Northern Larder Lake Mining Company, Limited. I have taken samples containing gold values from said property, and from my personal examination, and from assays made, I believe the Company's property when developed, will prove very valuable. I have full confidence in the success of the said Company, and on this account, with the exception of $400 already received, I have agreed to accept stock in said Company, and a note which I believe will not be of much value should the actual development work not prove the said claims to contain gold in paying quantities as it is not payable for one year from this date or until after the Company shall have done the necessary development work on said claims. And I make this solemn declaration conscientiously believing it to be true and knowing that it is of the same force and effect as if made under oath, and by virtue of "The Canada Evidence Act."

DAVID A. FOSTER.

Declared before me at Toronto, in the County of York, this 31st day of March, 1908. J. T. LOFTUS, A. Commissioner in H. C. J.

PROPERTIES TRANSFERRED.

Since the prospectus was printed, the sale of the 14 mining claims to the Company has been completed and the transfers to the Company are registered in the Recorder's Office at Larder City. There is no mortgage or other encumbrance against said claims.

OFFER IN PLAIN WORDS

$ 5.00 buys	50 shares, par value	$ 50.00	$ 10.00 buys	100 shares, par value	$ 100.00
20.00 buys	200 shares, par value	200.00	10.00 buys	500 shares, par value	500.00
100.00 buys	1,000 shares, par value	1000.00	500.00 buys	5,000 shares, par value	5000.00

We earnestly recommend that you purchase the Great Northern Larder Lake Mining stock at 10 cents per share.

Fill in application form and forward and you will be on the upward move.

Fortunes have always been made by those who can see a good thing coming.

RAWHIDE-DULZURA

1 CENT A 2 SHARE

Send us your name as a member in this new company, with your remittance for as many thousand shares as you can take at $2 per thousand.

This is a short-time offer on a hurry-up proposition. Our vice president is up at Rawhide now putting the miners at work. We want to raise the necessary funds for development as quickly as possible. Therefore, we offer the first block of stock at $5 a thousand shares. This subscription must be all cash. We want the money in hand. We mean to work without let-up, and we have made it an ironclad rule not to run in debt. Cash counts now.

Our prospectuses are out. Send for one.

Make reservation of stock. If you do no more. But, remember, this present offer of stock at Half a Cent a Share is now open, and will be closed as soon as enough cash subscriptions are in hand. Don't wait, or you will get left.

The gold mining property owned outright by the company consists of 7 claims, 2 in the Rawhide district of Nevada, and 4 in the Dulzura district of Southern California.

The Rawhide district to-day is more famous than Goldfield, Tonapah, Bullfrog, or Searchlight were at the same stage of exploration and development. The Dulzura discovery is one of the most sensational in the history of Goldfields.

Ten samples of ore which were among the first assayed, ran as high as $7,601.97 to the ton, and all ten averaged over $1,500 a ton.

In both camps we located early, and our locations are choice. Our own officers will superintend the mining.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS.

Any reserve may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at an Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead duties under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each on and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3) If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of a homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father or mother.

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line exclusive of the width of road allowances crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the agent for the district of such intention.

Six months' notice in writing must be given to the Commissioner of Dominion Lands at Ottawa, of intention to apply for patent.

W. W. CORY,
Deputy of the Minister of the Interior.

N. B.—Unauthorized publication of this advertisement will not be paid for.

Try Again for Health

The Dangerous Weakness That Follows Should be Cured Now

One of the oldest physicians, after closely studying spring tiredness, says it seems to seek out the same victims year after year, and if the disorder is once contracted, one is very prone to contract it again.

The symptoms are common — no appetite — turn against your food, ache in back and limbs, nervous, and often melancholy, dyspepsia and languid.

"I had all the symptoms," writes Mrs. Eva E. Clarkson, well known in Chester. "I was discouraged, but it too poorly to bother with medicine. But I tried again for health and Dr. Hamilton's Pills. The very sight of food used to turn me sick, now I eat and digest like a growing child. I used to feel bloodless and starved, now I am well nourished and gaining in flesh. My face was haggard, dull eyes, dark circles; now I am unnatural, have pink cheeks, bright clear eyes. A hard cough that used to rack my chest is gone. But first of all is the feeling of buoyancy and good spirits that displace the awful tired, drowsy, melancholy fits that come on, and always with splitting headache, too. I hope my letter will induce others to use Dr. Hamilton's Pills such a good honest, bracing tonic should be in every home, both for children and parents' use."

You have a woman's work to do in life — you have only a woman's delicate organism to do it with. You'll be vastly assisted with Dr. Hamilton's Pills, because they are good for women just as they are good for men and children, too. 25c at all dealers.

PETERBOROUGH, ONT.

SATURDAY, JUNE 20, 1908.

CITY AND COUNTY NEWS

DESIRES HERE AND THERE BY TIMES REPORTERS.

Awning Destroyed

The awning in front of the Peterborough Hardware Company's store was torn to pieces by last night's storm.

Schools Closing

The [illegible] for three lower forms of the Collegiate Institute got their holidays yesterday, while the remaining forms of the schools get theirs on Tuesday.

All Saints' Team will Play Here

The All Saints' Football team of Toronto, who have been looking for a game with Peterborough for some time, will clash here with the Quakers on the 27th.

To Start in Toronto

The Lakefield News says, Mr. John Craig of Peterborough, spent Friday in the village visiting friends. Mr. Craig is completing the purchase of a large restaurant in Toronto on the corner of College and Yonge [illegible]

Tennis Club Tea

Owing to [illegible] the Nicholas Oval Tennis Club held their tea in the club house instead of on the ground as announced. There was a large attendance of members and a good time was spent. After the supper Mr. David Ess took a couple of snapshots of the group.

Visiting in the City

Miss H. Ashley, formerly physical instructor of the West End Y.M.C.A., Toronto, has been spending the past couple of days in the city. He is now physical director of the Toronto Saturday night. Mr. Ashley was the [illegible] Lakefield.

Mr. O. H. Moore will be the Speaker at the [illegible] Sunday evening at the Y.M.C.A. at 4 o'clock. The subject will be "How to be a Man." The junior Bible Classes for boys and boys will be held at the usual hour at 10 o'clock.

"Bessie Butler" at Lindsay

The Government tug "Bessie Butler" arrived in town today from Peterborough about noon, and remained at the Wellington street landing for over an hour. It then went back to Rose Dale. The tug was expected here at midnight last night, but it did not arrive. The object of the trip was to inspect the bridge which was disabled some time ago. Mr. McClellan, the supervising engineer was on board, and will likely make his report when he gets back to Peterborough. — Lindsay Free Press.

Beware of Ointments for Catarrh that contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio by F. J. Cheney & Co. Testimonials free.

Sick Twenty Years, Had Given Up All Hope.

Pe-ru-na Relieved After All Else Had Failed.

Chronic Internal Catarrh.

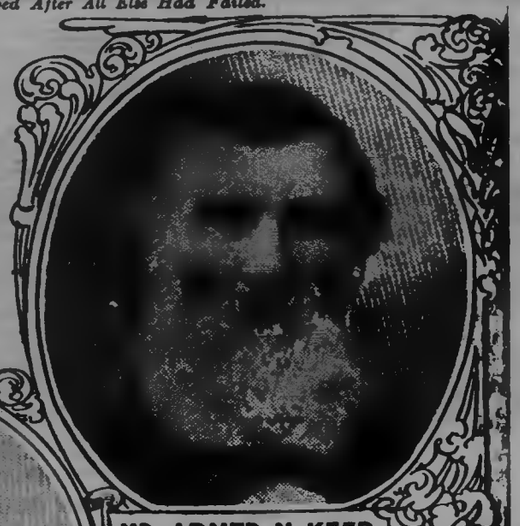
Many an invalid is dragging out a miserable existence with catarrh of the internal organs. There is no disease equal to this in producing complete wretchedness, absolute despair, haggard misery, and stubborn weakness.

An army of this sort of victims have one by one discovered that Peruna could be relied upon to relieve such cases.

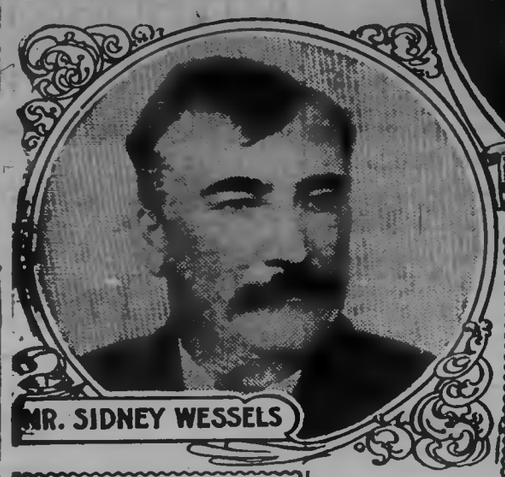
One man tells another man, and in this way the news spreads until in all parts of the country are to be found men who have been permanently liberated from the thraldom of internal troubles.

Many cases of catarrh of the stomach, kidneys and other abdominal organs have reported themselves as permanently relieved.

We give below testimonials which illustrate the benefit of Peruna in these cases.



MR. ABNER N. KEEP



MR. SIDNEY WESSELS

Appetite Returned, Enjoys Meals.

Mr. Sidney Wessels, Meritton Ontario, Can., writes:

"I have been troubled with dyspepsia and indigestion for twenty years, during which time I tried different doctors, but did not get the desired results.

"I have been compelled for weeks at a time to give up work, being completely prostrated. I had to confine myself to a milk diet, as nothing would remain on my stomach.

"I had about given up, thinking my case incurable, when I heard of Peruna and decided to try it.

"One bottle made a great change, and after using another bottle of this wonderful medicine, I had complete freedom from pain, my appetite had returned and I could again enjoy my meals. I believe Peruna is the grandest medicine under the sun."

Grown Young Again.

Mr. Abner N. Keep, Vineland, Ontario, Can., writes: "For over twenty years I was a sufferer from catarrh and had tried almost everything I could hear of. I doctored with physicians in Philadelphia and Buffalo, besides with specialists in Nebraska, but did not get relief.

"Finally, after being exhausted in health and funds, I decided to try Peruna. This was after moving to this country two years ago.

"One bottle of Peruna gave relief. After taking five bottles I was sound and well.

"I am eighty-two years old and feel as good to-day as when I was in my thirties.

"I give this for the benefit of the afflicted in general, as I am but one of many in this country who know what it is to contend with sickness and pay out the last dollar in doctor bills."

Mr. Robert E. Hanvey, Treas. Knights of Industrial Freedom, also a well-known writer and lecturer, writes from 118 S. Lincoln St., Chicago, Ill., as follows:

"I was in good health until about four years ago, when my back became lame and sore. The pains kept increasing with severe twitches and slow, exhaustive aches. Urine was highly colored and passed with great irregularity.

"I knew this must be inflammation of the urinary organs.

"Having read of Peruna I decided to try it.

"I found relief from the pain within ten days. The aches gradually disappeared, and it was a blessed relief I can assure you.

"Within three months I was well once more. My appetite had returned, nervousness and irritability were things of the past, and for over two years since I have been a healthy man."

Mr. H. L. Emory, Vice Chancellor and Master of Arms, K. P.'s, of Omaha, Neb., writes from 205 North Sixteenth St., the following words of praise for Peruna as a tonic. He says:

"It is with pleasure I recommend Peruna as a tonic of unusual merit. A large number of prominent members of the different orders with which I have been connected have been cured by the use of Peruna in cases of catarrh of the stomach and head; also in kidney complaint and weakness of the pelvic organs.

"Peruna tones up the system, aids digestion, induces sleep, and is worthy the confidence of sufferers of the above complaints."

Peruna has saved many people from disaster by rendering the kidneys supine when they were best able to bear their own burdens.

The Late Edward Daly

Well Known in Peterborough and Neighborhood

At an early hour Sunday afternoon, at the home of Mrs. Dorgan, 183 Jersey street, Buffalo, N.Y., there passed away in the person of Mr. Edward Daly, one of Lindsay's best known citizens. His demise will be learned with deep sorrow and regret by all who knew him. The deceased gentleman had been ailing for some time with rheumatism, and has not been in good health since his wife's death about twenty-two years ago.

Mr. Daly was about 70 years of age and was well known in Lindsay, having been proprietor of the Pym house in town, and one in Orillia for over 20 years. Eight years ago last March he sold the house to the present owners and retired from that business. Since then he has been living with friends in different parts of Ontario. A few years ago he visited the Old Country.

Two brothers, Messrs. Patrick Daly, of Buffalo, and James Daly, of North Bay, and a sister, Mrs. Jno. Dogan of Buffalo, are left to mourn his loss.

The remains were taken from the 3 o'clock G.T.R. train last evening to the home of Mr. M. McDonald, St. George street. The funeral took place this morning to St. Mary's church, where the prayers of the church were recited, and thence to the Roman Catholic cemetery.

The following from outside points were in attendance at the funeral. Mr. and Mrs. Doran, Buffalo, and Mr. Wattera, of Orillia, brothers-in-law of deceased; Mr. Geo. Moore, of Orillia, a son-in-law, and Mr. P. J. Daly of North Bay, a brother. — Lindsay Free Press.

Drowning Accident at Dorset Lake

News reached the Post office and drowning accident which took place Saturday at Dorset Lake.

It seems that a man named Truscott, was working on a farm on Dorset Lake in the old Gilmour limits when he fell into the water and getting under the logs was drowned before anything could be done to extricate him.

Truscott lived at Bury's Green and was well known and generally liked and his death is much regretted.

The unfortunate man's brother was in town last evening and was much grieved at the news which had been conveyed to him.—Lindsay Post

NERVOUS DEBILITY

OUR NEW METHOD TREATMENT will cure you and make a man of you. Under its influence the brain becomes active, the blood purified so that all pimples, blotches and ulcers heal up; the nerves become strong as steel, so that nervousness, bashfulness and despondency disappear; the eyes become bright, the face full and clear, energy returns to the body, and the moral, physical and mental systems are invigorated; all drains cease—no more vital waste from the system. The various organs become natural and manly. You feel yourself a man and know marriage cannot be a failure. We invite all the afflicted to consult us confidentially and free of charge. Don't let quacks and fakirs rob you of your hard earned dollars.

NO NAMES USED WITHOUT WRITTEN CONSENT.

THREATENED WITH PARALYSIS.

Peter F. Summers, of Kalamazoo, Mich., relates his experience:

"I was troubled with Nervous Debility for many years. I lay it to indiscretion and excesses in early youth. I became very despondent and didn't care whether I worked or not. I imagined everybody who looked at me guessed my secret. Imaginative dreams at night weakened me—my back ached, had pains in the back of my head, hands and feet were cold, tired in the morning, poor appetite, fingers were shaky, eyes blurred, hair loose, memory poor, etc. Numbness in the fingers set in and the doctor told me he feared paralysis. I took all kinds of medicines and tried many first-class physicians, wore an electric belt for three months, went to St. Clemens for baths, but received little benefit. While at St. Clemens I was induced to consult Drs. Kennedy & Kennedy, though I had lost all faith in doctors. Like a drowning man I commenced the New Method Treatment and it saved my life. The improvement was like magic—I could feel the vigor going through the nerves. I was cured mentally and physically. I have sent them many patients and will continue to do so."

To Canadian Investors

The undersigned has received an allotment of unsold portion of $100,000 of

7 PER CENT FIRST MORTGAGE FIVE-YEAR-GLD BONDS

dated January 1, 1908, and maturing January 1st 1913. These Bonds are offered at par and accrued interest by Metropolitan Trust & Savings Bank, Chicago, trustees.

SECURITY—The Entire Property and Improvements Owned THE URES CONSOLIDATED MINING COMPANY in the District of Ures, State of Sonora Mexico; Free from Mortgage or Bonded Indebtedness except this present Bond issue.

An Unusual Opportunity for Investment in Sound Security

The Ures Consolidated Mining Company offers $100,000.00 of First Mortgage Gold Bonds. This issue of bonds is the only mortgage or bonded indebtedness ever placed on the company's properties.

These bonds are in the denomination of $100.00, and bear interest at the rate of 7 per cent. per annum, payable semi-annually, July and January, and are redeemable on or before five years from date at the company's option at $110.00 and accrued interest.

$100.00 Stock Bonus Given with Every $100.00 Bond

With each bond issued there will be given $100.00 par value of the capital stock of the company as a bonus, and in addition thereto there will be placed in escrow with the Trustee additional stock which will be available to the bondholders at their option any time within a period of three years, the bondholder being entitled to surrender his bond any time within said period and receive in lieu thereof stock for every dollar of indebtedness to him on account of said bonds.

The Security Back of these Bonds

The company owns twelve claims situated in the district of Ures, State of Sonora, Mexico, free from mortgage or bonded indebtedness, except the present bond issue.

On one of these properties (The Diamond Mine) 5,000 feet of underground development work has been done, consisting of an inclined shaft to the depth of 400 feet with drifts in three levels to the North and South of the shaft.

An average value of ore worth $11.47 per ton is exposed throughout the mine, from the collar of the shaft to the extreme parts in the drifts, all of which is above water level.

The company has made surface improvements and mine improvements to the extent of $50,000.00 in the way of machinery, skids, trams, steam hoists, mill and nearly everything necessary to make the mining camp complete.

In addition to the absolute ownership of these twelve valuable claims, the company has a lease on the San Jose Mine, adjoining its property, in which the company has been operating in high grade ore.

During the past sixty days the company has extracted and delivered to ore buyers and the bank at Hermosillo, $3,000.00 worth of ore and bullion, the ore having been reduced to bullion through the company's mill, with the exception of 1,464 pounds, which was sold to an ore buyer for $562.50.

The Money Derived from the Sale of These Bonds

This issue of bonds is made for the purpose of securing money at once in order to extend the development work more quickly than the company's present means will permit.

With the high grade ore in sight to the distance of 50 feet to the South of the shaft, the management is assured that within six months from date of making the improvements now necessary the company's properties will be on a self-sustaining and dividend-paying basis.

The Stock which is Given with these bonds will be as valuable as the bonds when the Company has the ready capital to push operations

Men who invest in these bonds will have no cause or reason to regret their action, for the bonds afford an investment in a security which is absolutely safe—much better than ordinary city or country real estate, which is considered perfectly safe if the property put up to secure a mortgage is double the face of the loan. The security given on these bonds is better than 7 to 1, for the Ures Consolidated Mining Company has refused an offer of $750,000.00 for the property upon which this $100,000.00 worth of bonds is issued.

These bonds are an investment with all speculative risk eliminated —an investment with absolute security.

Make your reservation at once. This is small and promises to be quickly sold.

CAPITAL $1,500,000 RESERVE $950,000

Banco de Sonora,
Hermosillo, Mex.,
Feb. 11th, 1908.

To whom it may concern:—

We hereby beg to state that The Ures Consolidated Mining Company has during the past five years made several deliveries of bullion to this bank, and it is the opinion of mining men here that they have the making of a fair mine, and further, that the properties owned and controlled by them bid promise of becoming paying properties.

From our knowledge of the men connected, we believe they are doing all in their power to bring about the results above mentioned.

Respectfully,
BANCO DE SONORA,
Max Muller, Gerente.

Three Men were Killed in the Crow's Nest

Fernie, B.C., June 20.—A serious accident occurred in No. 2 mine at Coal Creek last night, when three men lost their lives. The killed are:

George Neath, aged 45, engineer, married.

George Rudolph, aged 40, married.

Steven Koey, aged 21, Slav.

The fatal "bump" that caused the disaster was felt all over Coal Creek and people came flocking to the mouth of the mine. The bump occurred in a section six at the bottom, and squeezed up to the top, stopping the air from going in, and the gas quickly accumulated.

General Superintendent Fraser, Local Superintendent Strachan, and the pit bosses were soon on the scene with a rescue party, but were unable to get to the men owing to the large accumulation of gas.

H. Collins, I.O.F. Supreme Treas., at Death's Door

Toronto, June 20.—Harry Collins, Supreme Treasurer of the I.O.F., lies at the point of death at his home, 20 Major street.

He suffers from an acute attack of Bright's disease and has been unconscious for two days.

"He has a very slim chance for recovery," said Dr. Fred Winnett, his physician, to the press at noon today. "The end may come at any moment."

The acute attack began on Tuesday last, and since then Mr. Collins has been confined to his home.

TWO DAYS UNCONSCIOUS.

"For years he has been suffering from Bright's disease," said Dr. Winnett, "and this time it is a serious attack. He has lain for two days in a state of coma, and it is hard to say what may happen.

It was thought in I.O.F. circles that the excitement of the recent annual meeting of the society was too much for the Supreme Treasurer, and that his part in the warm debates had a probably fatal effect.

"'Very low,' was all Dr. Winnett would say just after a call at the Collins residence this afternoon.

"He has been for years a sufferer from a chronic complaint, and the excitement of the recent campaign in the I.O.F. has probably been too much for him," said Dr. C. O'Day Clark, one of the I.O.F. physicians, when asked regarding Mr. Collins' condition.

Dr. Clark thinks that the Supreme Treasurer is not at death's doors, though his illness is very serious, and will probably end fatally.

The Half-Day Trip to Idyl-Wyld a Delightful Outing

The warm and sultry weather is received contentedly by many while a few become distracted. The more discomfort it causes the public the more readily will they appreciate a sail on the cool waters of the Otonabee, which affords a spectacular view of the surrounding country and the fertile fields of waving grain which will soon receive the tint of golden hue.

At Weir street wharf on Saturday afternoon boat officials were kept busy assisting and answering questions of basket laden and holiday seekers, who formed the unmistakeable party of pleasure seekers. First they would climb aboard the palatial steamer "Otonabee," and the genial purser, Sam Pearson, was kept busy hurrying the passengers with their baggage to the steamer Water Lily, owing to the Otonabee receiving repairs previous to her two day trip up the lake with the Masonic excursionists from Havelock today she remained in dock on Saturday. There was no jostling or confusion, it was a good natured crowd easily handled in a courteous manner by the steamer's officials. The boat left the wharf at 2 o'clock, en route for Idyl Wyld.

On board the steamer were a number of private picnic parties—mostly Peterborough citizens with friends from Kingston, Rochester and other American cities. And needless to say all were delighted with the trip as a more beautiful example of true Canadian scenery could not be found in all Canada than is encountered on the sail down the Otonabee into the Rice Lake waters on to Idyl Wyld. The green banks slope toward the water and being covered with shrubs and vines to the water's edge, afford many a pleasure seeker a rendezvous for a quiet hour.

In the absence of Capt. Flear of the Water Lily, Mr. Chas. Calcutt, who was returning from the north to visit at his home in Harwood, was at the wheel on the sail down. Charlie is an expert with the steering gear, having sailed on the Otonabee for many years and of course a well known as a jovial good natured fellow, commanding the respect of all the passengers and those coming in contact with him and they are many.

The journey down the river to Idyl Wyld was made in about two hours and a half and the first signal to get ready to disembark was from the old Indian warrior Maddox Howard, who spied the genial Charlie at the wheel and Maddox gave the Hiawatha war whoop. Of course Miss Host Parker, was there with the glad hand. Tommy is the picture of health, or as a Rochester gentleman on board said, "Why that man is the best advance agent for a summer resort I have ever seen." Yes! Tommy looks the part alright. After the pleasure seekers had landed tables were spread under the shade trees by those with baskets, while others went to the Idyl Wyld House, where every accommodation in the way of refreshments and recreation has been provided for. Including the delicious fresh fish dinners for which the house has become so famous.

A spacious verandah overlooks the lake on the north, while all around the cool waters of the lake and the many small islands form a spectacular view where one can spend an hour or so pleasantly, drinking in the healthy invigorating ozone. Of course the younger generation can go to the dance hall and engage in the "Merry Widow" waltz, while the little tots run and frolic or utilize the swings.

Mr. Parker, or "Tommy," as he is more familiarly known as, has provided every convenience for picnickers and tourists.

The return trip was a most beautiful sail being made at sunset. Capt. Tobin had the steamer in charge, and around the lake to Harwood and Gore's Landing was made, and then up the Otonabee, reaching the city at 10.15, thus ending one of the most enjoyable afternoon trips that the citizens of Peterborough are afforded.

If one feels dull and spiritless, in the spring or early summer, they call it "Spring Fever." But there is no fever—usually. It is the after-effect of our winter habits. The nerves are mostly at fault. Tired, worn-out nerves leave us languid, lifeless, and without spirit or ambition. A few doses of Dr. Shoop's Restorative will absolutely and quickly change all of these depressing symptoms. The Restorative of course won't bring you back to full health in a day or two, but it will do enough in 48 hours to satisfy you that the remedy is reaching that "tired spot." Druggists everywhere are advising its use as a splendid and prompt general tonic. It gives more vim and more spirit to the spaceful than any other known nerve or constitutional tonic. It sharpens a failing appetite, aids digestion, frees sluggish livers and kidneys, and brings new life, strength and ambition. Test it a few days and be convinced. Sold by all dealers.

With Stumps for Limbs He Saved Boys' Lives

New York, June 20.—The World today says: With stumps for legs, a stump for his right arm, and his left hand minus several fingers, Joseph Gilligan, 57 years old, swam to the rescue of [illegible] and saved their lives.

Alexander Patterson and Augustus Monahan were in an old boat on the pond which is near the Lackawanna Railroad tracks at Morris Plains. The pond is about ten feet deep at its greatest depth and it was at this point the boys upset the boat while playing. Patterson could not swim and he clasped Monahan around the neck. Before he was dragged under Monahan cried for help.

Gilligan was sitting with other boys in the shade of a tree, but out of sight of the pond. He had been showing his friends the artificial limbs this parents had procured for him. He had unstrapped the limbs when he heard the cry for help. Not stopping to put them on, Gilligan hurried to the pond.

Plunging in, he swam to the spot where the boys were struggling, grasped the two lads and pushed them apart. He then swam with one hand and pushed Patterson ashore.

Returning, Gilligan sought Monahan, who was sinking. The cripple also pushed him ashore safely, and the two boys, grateful to their rescuer, carried him to his home, where he received dry clothing.

Gilligan, ten years ago, was run over by a trolley car in Brooklyn. He lost one leg above the knee and the other below the knee, his right arm was taken off at the elbow, and three fingers from his left hand. He learned to swim a few years ago.

POLICE

Chas. Healey was fined $20 and costs, or one month in jail, for assaulting Robt. Maxwell on circus day. The prisoner pleaded not guilty through his counsel, G. N. Gordon. But before the case proceeded, he pleaded guilty.

Robt. Maxwell, the complainant, said that on circus day he was standing at the corner of Brock and George streets and the prisoner and another fellow were standing on the opposite corner. The witness went onto an hotel to get out of his way. Healey followed him in, called him out into the hall and commenced abusing him, striking him on the head. The proprietor of the house put Healey out. Maxwell then got on his wheel and started down Water St. At the post office Healey rushed out at him, pulling him off his wheel and then kicked him on the head, knocking him senseless.

Mr. R. F. McWilliams was called. He was standing in his office door on Water street when his attention was attracted to the row. He did not see Healey knock Maxwell off the wheel nor did he see him kick the old man. When Mr. McWilliams saw them Healey was striking Maxwell with his fist.

Chas. Polson said that he saw Healey run out at Maxwell. He could not say that he kicked him. He saw the two rolling in the ditch. Healey was on top striking Maxwell.

At this point Healey changed his plea to guilty and went into the box and told his version of the affair.

Left Her Purse on the Steamer

On Saturday afternoon a lady with a party of pleasure seekers from the offices of the Dairymen & Farming World, who were taking in the Saturday afternoon trip down the river, boarded the steamer Otonabee, but being informed that the boat would not take her usual trip the Water Lily being substituted, in her hurry to board the latter steamer forgot her purse, containing $40 and a gold watch that she left in the ladies toilet room. Before the locks was reached she missed her purse. One of the members of the Otonabee Navagation Co., who was on board was informed and when the locks were reached he telephoned and had the captain of the Otonabee look for the purse. It was found and returned to the lady when the Water Lily reached the city on the return trip.

Ringling Bros' Circus May be Here

The citizens of Peterborough are to have the pleasure of witnessing one of the biggest circuses in America in August, when either Ringling Bros.' or Hagenbeck's Circus will show at the Driving Park.

The Peterborough Turf Club having control of the Driving Park, the management of the circus that will be here will have to rent the grounds from them.

Saturday Mr. Chas. Nixon, secretary of the Turf Club, concerning which of the two above mentioned circuses was coming and at what date it would come. He said no definite arrangements had been yet made, but it was assured that either Ringling Bros. or Hagenbeck's would visit this city in August.

Ringling Bros. is too well known to call for any passing comment on it, but Hagenbeck's show has never been here. It is also a splendid organization, carrying as magnificent a menagerie as any circus on earth.

Masons at Church

The Peterborough Masonic Order Attended Divine Service Yesterday

Peterborough Lodge A.F. & A.M., No. 155, attended divine service at All Saints' church yesterday afternoon at four o'clock. Many members of Corinthian Lodge were also present and the attendance was large, especially so considering the exceptionally hot weather. The Anglican order of service was used and was very heartily joined in by the brethren.

Bro. W. Major, rector of All Saints' and past chaplain of Peterborough Lodge officiated. The rev. gentleman preached an exceedingly appropriate and beautiful sermon, which was generally commented upon as being one of the best Masonic discourses any brother present had ever had the pleasure of listening to. He took for his text, I Chronicles chap 28, verse 10;—"Take heed now, for the Lord had chosen thee to build a house for the sanctuary; be strong and do it." This text was peculiarly adapted to the occasion, and the eloquent preacher was strong and convincing in his application of its command to character building. He also gave a brief and instructive illusion to the remarkable antiquity of misery in the ranks of which has been said "is found the brightest and most distinguished characters in all walks of life."

Rev. Mr. Major prefaced his sermon by expressing his extreme pleasure at meeting his brethren at divine worship which had refuted the impression prevailing amongst a large number of people outside this order that Masonry does not endorse the precepts of Christianity.

The liberal offertory taken up was in aid of All Saints' church building fund.

The Fire, Water & Light Committee will meet tonight after which there will be a meeting of the Committee of the Whole.

New Times Building Approaching Completion

The splendid new building in course of erection on Hunter Street for The Times, is rapidly approaching completion. The brick work is finished and the flooring and plumbing is now under way. The building will have a total depth of 175 feet and a width of 30 feet, making it one of the most complete printing establishments in the Province, outside of Toronto. Messrs. McIntyre Bros., the contractors, will be through early in July, after which the work of moving the printing plant will then begin.

The Times has purchased a new up-to-date newspaper press, which will enable us to improve and greatly strengthen the paper. In addition to this linotypes of the best make have been ordered and will be installed at an early date. It is the purpose of The Times Company to place the newspaper in the front rank as speedily as possible, and are making arrangements accordingly.

The "Petes" Continue Their Victorious Career --Defeated Athletics

A fairly large crowd saw the game between the two rival Midland League teams of Peterborough. The game was late getting started on account of the Athletics being minus a first baseman. Heaslip was at last secured, and the game got going about 3.45. Quinlan pitched a fine game for the Athletics, fanning 11 men and allowing 10 hits, if he had had the support given Clements, no doubt the score would have been closer. Clements pitched good ball, fanning 7 men and allowing 11 hits. Corny Burns was the hit of the day, pulling a nice fly down after a good jump, and also pulled two good outs off his toes. His batting was good and as usual showed great speed on the bases. Murphy and Edmunds also played sterling ball. Shea covered Athletics' former weak spot at third and things looked different to what they have been when Laundry was there. Jack Connors and Saunders did some nice fielding.

Considerable hard feeling exists between the teams and their supporters. The "Petes" did not play their usual game while the Athletics were much stronger than formerly being strengthened by Saunders of Galt and Mackerel of Toronto.

GAME BY INNINGS.

First.

Petes—Quinlan put three over for Burns who failed to meet them, the same thing happened Murphy, Maddock then put a fly into Pilling's mit, but he dropped it and Maddock made second. O'Brien then put one through Shea at third and brought in Maddock, and on a wild throw of Callajan's made home. McDermitt then put a grounder to Mackerel, who got it to first in great style, retiring the side.

Athletics—Connors knocked a fly to O'Brien, who nabbed it, Saunders got four balls and went to first. Shea angled a nice one and got first, and Saunders 2nd. Rattersy fanned Mackerel made a nice hit, but Saunders got out at home.

Second.

Petes—Edmunds, Lawson and Cheatham all retired on infield hits.

Athletics—Pilling and Callahan fanned, Heaslip out to Clements.

Third.

Petes—Clements fanned. Burns got four wide ones, Murphy made a hit and scored Burns. Maddock made a three bagger scoring Murphy. O'Brien made a nice single scoring Maddock and on a wild throw got third. McDermitt and Edmunds fanned.

Athletics—Quinlan singled to Clements, who got him at first. Connors thrown out at first. Saunders made a nice single McDermitt made a good catch of a fly from Shea.—Score 4—0.

Fourth.

Petes—Lawson fanned, Cheatham out on fly to Heaslip Clements got a 3-base hit Burns out to Saunders.

Athletics—Rattersy out on hit to first, Mackerell fanned, Pilling out on hit to first.—4—0.

Fifth.

Petes—Murphy got to first on Mackerell's error. Connors got Maddock's fly. O'Brien fanned, Quinlan walked McDermitt, Edmunds brought on Murphy and McDermitt on a nice hit, but Lawson got out at first.

Athletics—Callahan got to 2nd on an error by Lawson. Heaslip lofted a fly go to Cheatham. Quinlan made a nice hit scoring Callahan. Connors made a nice hit bringing Quinlan to third. Saunders hit and got 1st but Quinlan was caught trying to steal home.—6—1.

Sixth.

Petes—Cheatham got to 1st on an error by Heaslip Clements fanned Burns scored Cheatham, but was put on first. Connors took care of Murphy's fly.

Athletics—Shea and Rattersy fanned, Mackerel got to first on an error by Lawson. Burns got a fly from Pilling.—7—1.

Seventh.

Petes—Maddock, O'Brien and McDermitt fanned.

Athletics—Callaghen got to first on a bunt, Heaslip fanned. Callahan got to third stealing, but was thrown out at home on Quinlan's hit. Connors made a nice hit advancing Quinlan to third, and stealing 2nd, and Quinlan scored on a throw to 2nd to catch Connors, who then scored on a wild throw. Saunders got a hit. Shea's fly was gathered in by Maddock.—7—3.

Eighth.

Petes—McDermitt got to 1st on a single, Lawson bunted and was out at 1st. Clements flew out to Saunders.

Athletics—Rattersy got to first on a pop fly. Mackerel out to O'Brien, who also took a fly from Pilling.—7—3.

Ninth.

Petes—Burns got to first on a hit, then stole second, but was out trying to get third on Murph's hit. Maddock's scored Murphy on a hit. McDermitt out to 1st. O'Brien scored on Edmund's hit. Lawson got a base. Cheatham out to first.

Athletics—Callahan got a charity, Heaslip hit and with O'Brien's error brought in Callahan. Quinlan and Connors out at first. Saunders brought in Heaslip and Rattersy, but was caught at 1st.—Score 11—6 in favor of the Petes.

SUMMARY.

Earned runs—Petes 5, Athletics 1. Two base hits—Maddock. Bases on balls—Off Clements 2, off Quinlan 2. Struck out—Clements 7, Quinlan 11. Left on bases—Petes 6, Athletics 8. Double plays—McDermitt to Lawson to Maddock to Edmunds. Burns Lawson. First base on errors—Petes 5, Athletics 4. Stolen bases—Burns 3, Murphy 2, Cheatham 2, Maddock, McDermitt, Edmunds, Connors 2, Callahan. Umpire Ross Vear. Time of game, 2.15.

BASEBALL.

Games played on the three big professions on Saturday resulted as follows;

EASTERN

Toronto 8, Providence 6
Rochester 0, Newark 1
Baltimore 6, Montreal 3.
Buffalo 3, Jersey City 0.

NATIONAL

Chicago 0, Pittsburg 4.
New York 10, Brooklyn 9.
St. Louis 9, Boston 3.
Cincinnati 4, Philadelphia 0.

AMERICAN

New York 0, St. Louis 0
Detroit 2, Washington 1.

LACROSSE

Tecumsehs 6, Montreal 4.
Capitals 1, Cornwall 2, half time.
Nationals 2, Shamrocks 2, three-time.
Toronto 2, St. Catharines 7.

CITY LEAGUE.

The Lakeviews defeated the Karnots on a well played game on ball on the Oval Saturday by a score of 8—4. The teams lined up as follows,

KARNOTS—
Laing c.
Quinlan p.
Coughlin 1b.
Durnan 2b.
Rae 3b.
Geale ss.
Guerin rf.
Walker lf.
Callender cf.

LAKEVIEWS—
Montague c.
Mahony p.
Campbell ss.
King 1b.
Calder 2b.
Pentland 3b.
Simmons lf.
Connors cf.
Hullmer rf.

In the second game the T.A.S. defeated Strathconas 21—14 in a listless game of ball on account of the high wind blowing, it being almost impossible to tell where a hit ball was going to land.

A boys' championship meet will be held on July 1 at the Nicholls Oval under the direction of the Physical Department of the Y.M.C.A. This meet will be thrown open to all boys in the city of Peterborough. Entries must be in by June 30. Mr. Vincent Eastwood of the Royal Bank has donated a handsome cup for this event, and the boy making the most points in the six cup events will hold the cup for a year. Prizes will be offered for firsts and seconds in the special events.

CUP EVENTS

100 yard dash.
200 yard dash
One-mile run.
One-mile walk
Running hop, step and jump
Putting 12-lb. shot.

There will be open to all boys 12 years and under.

SPECIAL EVENTS

Boys, 15 years and under—
Boys, 15 years and under—
100 yards dash
200 yard dash
Boys, 18 and under.
Relay race, 1 mile, 4 men to compete, each to run 440 yards
10 years and under—
Boot race, 100 yards.
17 years and under—
Pole vault

MARATHON RACE

Boys 18 years and under
Five miles.

All boys who wish to compete in these events should call at the Y.M.C.A. and see the physical director, who will be pleased to give all information.

Disregarded Advice of Friends and was Drowned

St Thomas, June 20.—Percy Young, aged 21, was drowned at Port Bruce last evening. After a fierce storm had passed over, and against admonitions of friends, he set out in a skiff for Silver Creek, where he had some fishing nets set. He was a great swimmer, but the heavy seas was too much for him, and his boat was found swamped by a searching party.

Friends became anxious late last night when he did not re-appear, and the search resulted in finding his body as well as the boat. Young was a general favorite in the community. Just a year ago, and on a Friday, Bruce Young, a cousin of Percy, was drowned at Port Bruce, while bathing.

The storm did very little damage in this vicinity outside of burning out telephones.

Death of W.J. McCallum

At an early hour this morning there passed away in the Nicholls hospital one of Peterborough's young at business men in the person of W. J. McCallum, at the age of 32 years.

The late Mr. McCallum was probably the best known citizen in the town and county.

"Billy" as he was familarly known among the younger generation, was of a kind and affable nature, loved and respected by all who had the good fortune to make his acquaintance, always ready to lend a helping hand to the sick and distressed. The deceased had been suffering for some time from an internal trouble. He was removed to the Nicholls hospital about three weeks ago, where an operation was performed. He rallied for a short time and made a hard fight against the hand of death, but the end came about 3 o'clock this morning.

The late Mr. McCallum carried on a most successful restaurant business here for a number of years, disposing of his business about three years ago, and entering as a partner with Mr. C. R. Banks in sporting goods supplies. He was a prominent Mason, and at the Masonic service in All Saints' church yesterday afternoon prayers were offered in his behalf.

The deceased leaves to mourn his loss a wife, his mother and two sisters who have the heartfelt sympathy of many sorrowing friends.

Particulars of the funeral will appear in tomorrow's issue as arrangements had not been made at the time of going to press.

Tearing Up the Streets

The residents of Charlotte street are up in arms over the tearing up of the road bed for the laying of a gas main. The road has recently been graded and put in good condition, and now this work is being maltreated.

Beware of Ointments for Catarrh that contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

The Outing Magazine for July

The Outing Magazine for July is a blessing to the summer period—a balm for a heated frame of mind. Several of the articles are of keen current interest, such as, for instance, that by Ralph D. Paine entitled "The First American Voyagers to Japan."

Mr. Arthur Rubl, the well-known journalist, writes an article entitled, "The Men Who Set the Marks," in which is shown by generous citation of modern records that Americans are better athletes than were the ancient Greeks. "The Milk Fed Horse," by A. C. Robinson, tells of a wonderfully interesting experiment made with a view to bringing a long pedigreed colt to quick maturity. The horse was fed upon a diet of dry milk and the results were startling. It attained its maturity practically in twenty-six months. The writer of the article then shows pointedly that what can be done with a horse may be done, using the same intelligence as to diet, with man.

Mr. Vance Thompson, who is writing a series of brilliant articles upon contemporary European life, contributed to the July issue "The Royal River," a description of the Thames—a picture which is a masterpiece of descriptive writing as full of color and suggestion as a canvas by an old master. Another article in the number is "The Daughters of the Vikings," by Agnes C. Laut, a tribute to the doughty Swede and Norse women whose thrifty qualities are so valuable in the making of our national character.

Still other leading features are "A National Breathing Spot," by Day Allen Willey, a description of Maine; "Some Indians, Past and Present," by A. W. Dimock, an important contribution to the Indian question; "A Disgruntled Hermit," by Robert Dunn. This hermit, Mr. Dunn, in an hunting for volcanos in the Behring Sea, found isolated in a remote part of the Aleutian Archipelago. The issue throughout is alive with pictures, many of these being photographs and many drawings by well-known artists.

An unusual and very pertinent presentation of the fishing question takes the form of a discussion by several well-known English sportsmen upon the query; "Is fishing a better remedy for brain-fag than shooting?"

Two Ottawa Men Drowned in Lake Near Port Arthur

Port Arthur, Ont., June 20 — A double drowning occurred yesterday on a narrow lake in the English River district, west of here.

The victims are Albert Bertrand, aged 32, from Hull, and William Clarke, aged 27, from Ottawa, the latter being a married man.

In company with Lawrence Bertrand, who was employed at the same lumber camp with them, they were out fishing in a canoe. Clarke stood up to cast the line and upset the craft.

Lawrence Bertrand swam ashore but Clarke, who could not swim grasped Albert Bertrand and both sank.

The bodies have not been recovered.

Thrown Brick at His Horses

A teamster, engaged by a well-known local farm, was delivering brick on Gladstone avenue on Saturday when his horses refused to stand. Becoming annoyed he picked up a brick and threw at the animals, but it went wide of the mark, crashing through a window of a nearby residence, and seriously injuring a little girl.

Making Good.

There is no way of making lasting friends like "Making Good;" and Doctor Pierce's medicines well exemplify this, and their friends, after more than two decades of popularity, are numbered by the hundreds of thousands. They have "made good" and they have not made druggards.

A good, honest, square-deal medicine of known composition is Dr. Pierce's Golden Medical Discovery. It still enjoys an immense sale, while most of the preparations that have come into prominence in the earlier period of its popularity have "gone by the board" and are never more heard of. There must be some reason for this long-time popularity and that is to be found in its superior merits. When once given a fair trial for weak stomach, or for liver and blood affections, its superior curative qualities are soon manifest, hence it has survived and grown in popular favor, while scores of less meritorious articles have suddenly flashed into favor for a brief period and then been as soon forgotten.

For a torpid liver with its attendant indigestion, dyspepsia, headache, perhaps dizziness, foul breath, nasty coated tongue, with bitter taste, loss of appetite, with distress after eating, nervousness and debility, nothing is so good as Dr. Pierce's Golden Medical Discovery. It's an honest, square-deal medicine with all its ingredients printed on bottle-wrapper—no secret, no hocus-pocus humbug, therefore don't accept a substitute that the dealer may possibly make a little bigger profit. *Insist* on your right to have what you call for.

Don't buy Dr. Pierce's Favorite Prescription expecting it to prove a "cure-all." It is only advised for woman's special ailments. It makes weak women strong and sick women well. Less advertised than some preparations sold for like purposes, its sterling curative virtues still maintain its position in the front ranks, where it stood over two decades ago. As an invigorating tonic and strengthening nervine it is unequaled. It won't satisfy those who want "booze," for there is not a drop of alcohol in it.

Dr. Pierce's Pleasant Pellets, the original Little Liver Pills, although the first pill of their kind in the market, still lead, and when once tried are ever afterwards in favor. Easy to take as candy—one to three a dose. Much imitated but never equaled.

Blood-Cleansing Recommended in the Spring Time

In This Way The System is Strengthened and Better Health Assured.

From the earliest time it has been universally acknowledged that the transitory period between winter and spring is the seed time of disease.

Consequently it is necessary for us all to take suitable medicine.

A delay gives the germs and weakness a better chance to take hold.

Don't wait, think of our small resisting powers, and begin building up today. For weakness, overwork and debility the doctors prescribe Ferrozone; let it help you now.

Vitality and power are instilled into the blood; this means new strength for all weak organs.

The fire of youth will dance in your veins, and new found energy will increase your desire to work.

Ferrozone supplies the nourishing and tissue-building material your system lacks. Isn't this a reason why?

From Cobourg, Ont., Mrs. Jno Oram writes as follows: "For a number of years I was sickly in the spring-time. I felt tired, nervous and had headaches. My blood was weak and damp days brought on rheumatism. My nervous system was unstrung and I felt utterly worn out. Ferrozone revived me in a short time. In two days my appetite increased, and I could feel a building-up process going on. This great tonic made a new person of me and I don't think a more strengthening medicine for the spring can be found."

Wouldn't it be just fine for you to get back your old-time spirits and vigor? Easily done with "Ferrozone"; commence to-day. Sold by all dealers, 50c. per box or six boxes for $2.50.

Morning Times

published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

ANTI-ELECTION PLEDGES

The system of exacting pledges from candidates for Parliament grows upon us and will presently deprive legislators of the free exercise of their own judgment, says Goldwin Smith, in the Farmers' Sun. You will hear members of Parliament own in private that they voted for or against the measure, not on their own view of its merits, but in the fulfillment of a pledge. This was notably the case with regard to Gladstone's revolutionary measure of Home Rule, for which some men must evidently have voted against their own opinions and the general tenor of their political lives. We had the other day a suggestion that nobody should be elected to our Legislature who had not pledged himself to vote in a particular way on the liquor question. The tendency of this system is to exclude from Legislatures open-minded and self-respecting men. What self-respecting man would care to be a telephone, or worse than a telephone, for a telephone has no conscience to violate. The only legislators now left in England with freedom to vote according to their conscience are in fact the Lords, who threw out Gladstone's Home Rule bill, and to whom probably a majority of the Commons really looked for its rejection. This gives the House of Lords, notwithstanding its manifest faults and need of reform, a special importance at the present crisis.

C.O.F. Excursion

Court Lilly John, Canadian Order of Foresters, will run their annual excursion to Toronto and Niagara Falls on July 9th. The bills will be issued next week. This has always been a popular event, and no doubt this year will prove no exception to the rule.

Well Known in Peterborough

The late Sir Redvers Buller is not a total stranger in these parts and was a first cousin of the late C. B. Buller, of Campbellford. Gen. Buller was in this city a number of years ago and and stayed with his brother in Campbellford.

The late General Buller has no male children and his baronetcy goes to Reginald Buller of Denver, Col., eldest son of the late C. B. Buller. Reginald Buller is a second cousin to the late General Buller as was also his brother Dr. Buller, of Montreal.

If one feels dull and spiritless, in the spring or early summer, they call it "Spring Fever." But there is no fever—usually. It is the after effect of our winter habits. The nerves are mostly at fault. Tired worn-out nerves, leaves us languid, listless, and without spirit or ambition. A few doses of Dr. Sheop's Restorative will absolutely and quickly change all of these depressing symptoms. The Restorative of course won't bring you back to full health in a day or two, but it will do enough in 48 hours to satisfy you that the remedy is reaching that "tired spot." Druggists everywhere are advising its use as a splendid and prompt general tonic. It gives more vim and more spirit to the spoonful than any other known nerve or constitutional tonic. It sharpens a failing appetite, aids digestion, frees sluggish livers and kidneys, and brings more life, strength and ambition. Just try it a few days and be convinced. Sold by all dealers.

POPULAR MECHANICS FOR JULY

Pictures, like actions, speak louder than words, and this is one reason the magazine Popular Mechanics, has taken such hold on the hearts of people of every class and calling in the few years since it first appeared on the news stands. Not that the words are left out—for the terse, plain language articles go straight to the kernel of the subject and lay it bare—but rather that the pictures are so numerous and supplement the articles with such detail that the mind is grateful for an easy method of acquiring indispatable information in a field where new and stranger wonders are being produced every day. For instance, in the July number 150 pictures are used to illustrate the 125 articles. Neither expense nor trouble has been spared in procuring these pictures; danger to life often has been involved, and many of them are unique productions of the photographer's art. A view of a falling wall snapped by the camera just as it topped is an instance of this in the July number. Other recent issues have contained views of a cyclone in action, a falling church tower, a blast furnace explosion and other remarkable subjects. Where photography is not suitable or available the staff's special artists are assigned to the subject, with gratifying result. In the July number the thrilling views accompany the article on the big Morrell dirigible balloon which exploded at Berkeley, Cal., burning its freightage of 16 men to earth. The accident and its causes are freely discussed. The plan to electrify the entire province of Ontario, Canada, with energy supplied by Niagara Falls forms the topic of another important article. A mark shows the territory to be thus benefitted. The scenes following the collision of the British cruiser "Gladiator" and the American liner "St. Paul" are shown in a full page view. A new method of sinking a mine shaft is described. The shaft wall of reinforced concrete is built above ground and sinks by its own weight, resting at last on solid rock 30 feet below. "Air in Your Room or Office," "Collecting Venom from the Gila Monster," "Photographed as Sphinxes and Mummies" and "The Death Special" are a few other speaking titles selected from this number. The Shop Notes department is, as usual, full of good practical matter. The Amateur Mechanic will be interested in the construction of a pilot balloon described in his special department. Several devices for celebrating the Fourth of July are described, also.

THE BOHEMIAN FOR JULY

So evenly balanced in attractiveness are the features of current interests and the ten short stories in The Bohemian Magazine for July that the issue will strike the ordinary reader as a particularly good example of modern magazine making.

Perhaps for sound doctrine and genuinely entertaining reading the article by the well-known art critic, Mr. Perriton Maxwell, entitled "The Coin of the Realm" is the best of the special articles. Herein this critic writes a caustic commentary upon the art failures "of the form before which we bow down." He makes the radical statement that American courage from an artistic standpoint is a veritable nightmare, almost every piece lacking in artistic beauty.

Of a different nature, but rivaling this leading feature in interest are the following special articles: "The Log of an Ocean Traveler", by Aubrey Lanston, a cleverly written and amusingly interesting chronicle of what happens upon a transatlantic voyage; "My Yesterdays", by John Mason; "Humorous College Journalism," the which is the last article of this series, by G. B. Hill, who writes very cleverly of "The Wisconsin Sphinx"; "The Drink Question," an entertaining article telling particularly how to concoct refreshing summer beverages.

Wonderfully strong is the short story by John G. Neihardt, entitled "The Ragged Edge", which is a story of grim generosity in the early Canadian days. Mr. Neihardt, who has made his mark as a brilliant short writer, here fairly surpasses himself. Other stories in the number are by Edwin L. Sabin, Lucy Pratt, Grace MacGowan Cooke, Forrest Hainey, and Edward Childs Carpenter. The latter who will be remembered as the author of "The Code of Victor Jallot," writes a daring story entitled "Thin Ice."

The July Bohemian also contains the details of the $1,000 prize offer the editors are making.

BUSINESS REVIVAL IN U. S.

Signs of improvement in the commercial situation in the United States continue to multiply.

The city of Boston has been able to float four and one-half million dollars in municipal 4 per cent. bonds at a premium of nearly 6 1-2 per cent., and the deposits in New York city banks are two hundred and fifty million dollars in excess of the amount held when the panic began last fall. Coupled with the easing off in the money market, there are most encouraging reports regarding the crop outlook. The yield of wheat in the United States is expected to show an increase of one-sixth over that of last year; oats will, from present appearances, be 25 per cent. in excess of 1907, and the corn prospects are equally encouraging.

Some little trepidation has been caused by a slight easing off in steel prices, but this has been fairly well offset by freer buying in this and other lines of goods. In all American business circles there appears to be an increase of confidence and a revival of activity, and the change in sentiment seems to have a well-founded basis in present conditions.

To stop any pain anywhere in 20 minutes, simply take just one of Dr. Sheop's Pink Pain Tablets. Pain means congestion—blood pressure—that is all. Dr. Sheop's Headache—or Pink Pain Tablets—will quickly ease blood pressure away from pain centers. After that, pain is gone. Headache, Neuralgia, painful periods, with women, etc., get instant help. Pink Tablets 25c. Sold by all dealers.

THE PRESIDENTIAL ELECTION

The fight over the injunction clause in the Republican platform illustrates the inevitable drift of the party back to the conservative position from which it was removed by President Roosevelt. The President in a recent message declared that it was wrong to use the injunction in the efforts to prevent the action of labor organizations struggling for industrial betterment, or under the guise of protecting property rights unwarrantably to invade the fundamental rights of the individual. "It is futile to concede, as we all do, the right and the necessity of organized effort on the part of wage-earners and yet by injunctive process to forbid peaceable action to accomplish the lawful objects for which they are organized and upon which their success depends. The fact that the punishment for the violation of an injunction must, to make the order effective, necessarily be summary and without the intervention of a jury makes its issuance in doubtful cases a dangerous practice, and in itself furnishes a reason why the process should be surrounded with safeguards to protect individuals against being enjoined from exercising their proper rights."

The discussion over the injunction plank of the platform gave evidence of the existence of a large body of Republicans who are afraid of Roosevelt's radical ideas on this and other subjects. And whatever and other subjects. And whatever compromise may be efforted for the present, the departure of Roosevelt will strengthen the conservative and weaken the radical forces in the Republican party. A good many Republicans supported Roosevelt not because of his radical policies, but spite of them. Taft will be carried into a more conservative position and the hopes of the radicals will be placed in the Democratic party, under the leadership of Bryan. In some respects the election will resemble that of 1896.—Toronto Star.

Child Strayed Into the Woods

Little Passenger Wandered Away from a Train at Gilbert.

Fort William, June 19. — Little Olive Duggy while en route from Winnipeg, where she had an older sister had been attending a convent, to her home here, left the express to pick flowers while it was standing at a siding at Gilbert yesterday awaiting repairs to the track. It was delayed three hours. Her sister accompanied her and boarded the train again without noticing that Olive had failed to do so. The absence of the child was not noticed until the train pulled out for the east. As soon as it was known that the child was missing the train was stopped and for two hours passengers and crew joined in the search but without avail.

The section crew were notified and remained out on the hunt all night. The little one evidently strayed into the bush, which is very dense at that point, and grave fears for her safety are entertained. The parents are continuing the search, however.

Big Problem for the Railways

Western Farmers May Have to Make Their Own Arrangements

Winnipeg, June 19.—Warmy rainy weather still prevails over the West, with the barometer so low as to indicate no immediate change. Grain is growing very fast, and now covers the ground in nearly all sections. The C.N.R. reports uniformly excellent crops along every part of their system, with spring wheat averaging from twelve to fifteen inches in height.

The railways this fall will have the heaviest contract they have ever had to move the crop of Western Canada to the seaboard, and already there is a feeling of uneasiness concerning the facilities for handling grain, especially in the new sections, where there are no elevators.

Grain companies are not building any this year as a result of the policy of farmers in opposition to the Grain Exchange. It begins to look as if settlers along lines like the new Saskatoon branch will have to make their own arrangements to get the wheat out. They may find themselves facing a very serious situation in the event of congestion of traffic.

J. J. Hill is Home

Montreal, June 20.—James J. Hill, railway magnate, arrived in this city today in his private car, Yakima. Mr. Hill is on his way to Labrador for his annual fishing excursion, and will proceed without delay on board his yacht Wacouta, which has been awaiting him. Mr. Hill would not discuss political events over Mr. Taft's nomination. He was optimistic on crop conditions generally, particularly in the Northwest.

Killed By Wife

Little Falls, N.Y., June 18.—Martin Finn, a farmer, was instantly killed by his wife, Elizabeth, as he lay asleep in his home in Salisbury, N.Y., early today. Mrs. Finn walked to the home of her mother, a mile distant, where she drank Paris green and chloroform. She probably will die.

Mrs. Finn used an axe to kill her husband, striking him a terrible blow on the head as he lay in bed. Mr. Finn had taken steps toward securing a divorce from his wife, and it is believed that domestic difficulties were the cause of the tragedy.

Farmers are Drawing in Their Hay

Mr. W. A. Edwards of the Crystal, who has been on a visit to Western Ontario, in the authority for the statement that the farmers between Barrie and Preston are drawing in their hay and states that a splendid yield is looked for in the different crops. In fact the harvest season should be one of the best in Western Ontario.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

Any reserve may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at an Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead duties under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each on and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3) If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of a homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father or mother.

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line exclusive of the width of road allowances crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the agent for the district of such intention.

Six months' notice in writing must be given to the Commissioner of Dominion Lands at Ottawa, of intention to apply for patent.

W. W. CORY,
Deputy of the Minister of the Interior.

Weak Women

To weak and ailing women, there is at least one way to help. But with that way, two treatments must be combined. One is local, one is constitutional, but both are imperative, both essential.

Dr. Shoop's Night Cure is the Local.
Dr. Shoop's Restorative, the Constitutional.

The former—Dr. Shoop's Night Cure—is a topical mucous membrane supplementary remedy, while Dr. Shoop's Restorative is wholly an internal treatment. The Restorative reaches throughout the entire system, making the repair of all sorts, all shapes, and all blood albumens.

The "Night Cure", as its name implies, does its work while you sleep. It soothes sore and inflamed mucous surfaces, heals local weaknesses and discharges, while the Restorative, comes nerve nutriment, gives renewed vigor and manhood, builds up wasted stamina, bringing about renewed strength, vigor, and energy. Take Dr. Shoop's Restorative—Tablets or Liquid—as a general tonic to the system. For positive local help, use as well

Dr. Shoop's Night Cure

"ALL DEALERS"

SPORTING NOTES.

McCormick of Princeton is one of the greatest fullbacks the game has ever known.

Vanna, by Peter the Great, is touted as another Sonoma Girl of the grand circuit next season.

Millard Sanders is confident that Ruth Dillon, 2:15¼, will some day be holder of the world's record for trotters.

Mount Pleasant of the Indians catches kicks on the run and makes the ends who try to tackle him look ridiculous.

It is reported that a new race track is to be built at Venice, a suburb of Los Angeles, Cal. Tim Sullivan and many eastern men are interested.

Considering different ethical attitudes, England has a licensed trainer of race horses who is also a regularly ordained minister of the gospel, and he has not found it necessary to resign his church living and dispose of his old tools either.

It was announced recently that another motor boat race to Bermuda for the Bennett Challenge cup will be started from Gravesend bay, New York, on June 6 next. It is open to all seaworthy motor craft not more than seventy feet over all that comply with certain conditions for safety.

He Saw the Game.

The office boy had buried countless grandmothers, brothers, sisters, aunts and cousins but he felt an enthusiasm for the baseball game that day which would not be deterred.

Suddenly an idea struck him. Approaching the easy boss with an air of familiarity which had been assumed by long usage he asked:

"May I leave at noon today, sir?"

"And why, my boy?"

"There is a fancy fair at our church and mother wants me to go this afternoon. She was so anxious that she bought me a ticket which cost a dollar, as she was sure you would allow me the few hours off. I have to assist at the refreshment stall, and it seems a pity to waste"—

"But surely you are above such things as that which take you away from your work. Why not give the ticket to one of your sisters?"

"Well, you see, sir, that wouldn't be fair, for I'm the only one of our family who can be depended upon to eat a dollar's worth, and"—

His supreme nerve won the day.

Just Discovered It.

Before a New York dairymen's convention Mrs. Marshall, one of the proprietors of a dairy farm, gave a knock at some of the dairy advice so freely floating around at present: "In every movement looking to the reform or betterment of degenerate conditions, the existence of which has been perfectly obvious to thinking people, there arises a class of 'just-discovered-it maniacs' who fairly froth at the mouth in their zeal to outdo each other in correcting the abuse. For a few years the dairy has been the target of surplus wrath. It has been specialized, scrutinized, sterilized, pasteurized and paralyzed. Some of the latest items since the reformers have had their fling are: 'There is nothing but dirt in the dairy, and you keep everlasting at it.' 'And you tell everybody of your gymnastics to keep the dairies sanitary, and you shout it from the housetops, and you write it to the dairy papers,' and soon your labors will be all done, for nobody will want your milk or butter."

Tides at Panama and Colon.

The mean level of the Atlantic and Pacific oceans is the same, but the tidal variation at the two ends of the canal is considerable. The tide rise above mean level at Colon is one foot, while at Panama it is ten feet.

Equality in Iceland.

In Iceland men and women are in all respects political equals.

His View of It.

A little boy had been sent to the dairy to get some eggs, and on his way back he dropped the basket containing them.

"How many did you break?" asked his mother.

"Oh, I didn't break any," he replied, "but the shells came off some of 'em."

"For Americans don't appreciate art," said the man from abroad.

"We don't, eh?" rejoined the eminent patriot. "Why, we pay some opera singers more than we do baseball players!"—Exchange.

Learn to subtract what you have learned unless—Example. Proverb.

Kindness.

Be kind no matter if you are on the honest run to catch your interests in life. While you run let your fleeting presence prove a blessing to those whom you must pass in the race to reach the goal. Leave behind you a trail of golden remembrances of words and smiles of good cheer that have cost you nothing at all in self sacrifice or money or physical strength or mental effort.

A CURE FOR SHYNESS.

Two Kinds of This Disease, Physical and Mental.

There is probably no defect which causes so much anguish of spirit and discomfort as shyness and blushing. Nobody who has not personally suffered from it can conceive what it may cause.

Shyness may proceed from one of two causes—the one physical, the other mental. It is often an affair of health. The nerves are out of order, and the will becomes weak. People shrink from their fellow creatures and are filled with an unreasoning horror of meeting or speaking to them. The best cure for this kind of shyness is fresh air, exercise and cheerful society.

But there is another shyness and one harder to cure which comes from mental causes. The person so afflicted may be in robust health and yet so tormented by this inward enemy that she finds all intercourse with other people positively alarming. To meet strangers causes her a severe struggle. She would gladly turn down the first street corner to avoid bowing to even an acquaintance.

In either case the root of the matter is self consciousness, and it is only by losing that self consciousness that self possession can be gained. As long as one thinks about oneself at all one will be liable to shyness. The only cure is to thrust all thought of oneself into the background as much as possible, when one will gradually become natural, happy and at ease.

Animal Oddities.

In South Africa baboons kill sheep.

Horses, giraffes and ostriches have in proportion to their size larger eyes than any other living creature.

A horse in good condition can exist about twenty-five days without food so long as he has plenty of water to drink.

An elephant works from the age of twelve to eighty. He can haul fifteen tons, lift half a ton and carry three tons on his back.

German Silver.

German silver is a brass containing from fifteen to twenty-five parts of nickel in each hundred.

Spiders.

The spiders that spin webs are in an infinite minority compared with those which do not. Ground spiders, as the spin spanners are called, abound everywhere and depend on agility and swiftness of foot to catch their prey.

Vanilla.

Vanilla comes from a genus of climbing orchid which grows plentifully in the tropics.

Golfing Sarcasm.

"Caddy, how many strokes is that for this hole?" asked the golfer with the plaid cap.

"I can't say, sir."

"Can't say?"

"No, sir; I can only count up to twelve, sir."

Substitute For Candles.

There were two substitutes for candles. The one was the ancient oil lamp, the crusie (French creuset), a triangular metal saucer with an upright hook at the base to be hung up by. There was an inner saucer, movable, to guide to the use of the oil. At the apex of the angle was flame, coming from a wick made of pitch of rushes, which must be cut at full moon, as the flame was thought to wax and wane with the moon if cut at any other time. The other substitute for the candle was the bog candle. It was made by splitting up the resinous logs of the primeval fir that are found imbedded in the bogs.

They were left to dry at the fireside over the crook or chain that held up the pot over the fire. The candlestick, called the peerman, was a stone with a hole in its center, into which was fixed a pillar of wood about four feet high and tipped with a cleft piece of iron, into which the candle fitted. The nose of the candle was always turned to the door.

The Last Cigar in the Box.

"The last cigar in the box is the hardest to sell," was the remark of a Front street dealer. "Not because it is not as good as any other cigar, but because of the superstition of the average man against taking the last of anything. As a result we often take one cigar, or even two cigars, of the last cigars in a box and put them on top of the cigars in a full or almost full box. On the other hand, I ought to mention that there are men who prefer the last cigars and who ask us to save the last cigars in the boxes for them every day, sometimes to the number of six or seven daily, for which they call every evening. We have thus no trouble in disposing of these last cigars, but the contrast in the conduct of the two styles of customers is curious."—Philadelphia Record.

A RAISE IN MINING STOCK

ALLOTMENT SUBSCRIBED.

The requisite amount of stock has been subscribed and paid in full to enable the Company to proceed to allotment and commence business.

RAISE OF MINING STOCK.

THE GREAT NORTHERN LARDER LAKE MINING CO., Limited, proposes to advance price of their treasury stock to Twenty-five (25c) cents on June 22nd. Last chance to buy at ten cents a share, par value One Dollar, fully paid up and non-assessable.

The foreman, Mr. David Foster, of Cobalt, has started to work on the Company's property with a gang of men to develop veins already discovered, also to continue striping in search of new gold veins.

We are erecting boarding houses and dining-rooms for our men.

READ COPY OF CERTIFICATE AND STATUTORY DECLARATION CONFIRMING SAME.

Toronto, March 20th, 1908.

To the Great Northern Larder Lake Mining Company, Limited:—

Gentlemen,—

I beg to confirm my previous report to you that in my judgment the surface showings on the 14 mining claims which the Company has acquired, being Nos. H.A. 221 to H. R. 234, both inclusive indicate the probability of the existence of large bodies of both high grade and low grade free-milling ore, sufficient to pay dividends for an indefinite period.

I have personally examined a number of veins and reefs on said property (consisting of about 160 acres) and had some assays made and from such examinations and assays I make this report.

The statement on pages nine and ten of the Prospectus giving the short history of the Company are correct. I insisted on retaining a large interest in the Company rather than sell for any price that seemed reasonable to the purchasers.

DAVID A. FOSTER,
Haileybury.

IN THE MATTER OF THE GREAT NORTHERN LARDER LAKE MINING CO., LTD.

Statutory Declaration.

DOMINION OF CANADA
County of York
TO WIT:

I, David Foster, of the town of Haileybury, in the district of Nipissing, miner, do solemnly declare that the statements in the annexed certificate are true. I have personally inspected all of the fourteen claims now transferred to the Great Northern Larder Lake Mining Company, Limited. I have taken samples containing gold values from said property, and from my personal examination, and from assays made, I believe the Company's property when developed, will prove very valuable. I have full confidence in the success of the said Company, and on this account, with the exception of $400 already received, I have agreed to accept stock in said Company, and a note which I believe will not be of much value should the actual development work not prove the said claims to contain gold in paying quantities as it is not payable for one year from this date or until after the Company shall have done the necessary development work on said claims. And I make this solemn declaration conscientiously believing it to be true and knowing that it is of the same force and effect as if made under oath, and by virtue of "The Canada Evidence Act."

DAVID A. FOSTER.

Declared before me at Toronto, in the County of York, this 31st day of March, 1908. J. T. LOFTUS, A. Commissioner in H. C. J.

PROPERTIES TRANSFERRED.

Since the prospectus was printed, the majority of the 14 mining claims in the Company has been completed and the transfers to the Company are registered in the Recorder's Office at Larder City. There is no mortgage or other encumbrance against said claims.

10c. PER SHARE.

Par Value One Dollar fully paid Up and Nonassessable.

OFFER IN PLAIN WORDS

$ 5.00 buys	50 shares, par value $ 50.00	$ 10.00 buys	100 shares, par value $	100.00
20.00 buys	200 shares, par value 200.00	10.00 buys	500 shares, par value	500.00
100.00 buys	1,000 shares, par value 1000.00	500.00 buys	5,000 shares, par value	5000.00

We earnestly recommend that you purchase the Great Northern Larder Lake Mining stock at 10 cents per share.

Fill in application form and forward and you will be on the upward move.

Fortunes have always been made by those who can see a good thing coming.

ADVERTISE IN THE TIMES

RAWHIDE-DULZURA

1 CENT A 2 SHARE

Send us your name as a member in this new company, with your remittance for as many thousand shares as you can take at $5 per thousand.

This is a short-time offer on a hurry-up proposition. Our vice president is up at Rawhide now putting the miners at work. We want to raise the necessary funds for development as quickly as possible. Therefore, we offer the first block of stock at $5 a thousand shares. This subscription must be all cash. We want the money in hand. We mean to work without let-up, and we have made it an ironclad rule not to run in debt. Cash counts now.

Our prospectuses are out. Send for one.

Make reservation of stock. If you do no more. But, remember, this present offer of stock at Half a Cent a Share is now open, and will be closed as soon as enough cash subscriptions are in hand. Don't wait, or you will get left.

The gold mining property owned outright by the company consists of 7 claims, 5 in the Rawhide district of Nevada, and 2 in the Dulzura district of Southern California.

The Rawhide district to-day is more famous than Goldfield, Tonopah, Bullfrog, or Shasta-light were at the same stage of exploration and development. The Dulzura discovery is one of the most sensational in the history of California.

Ten samples of ore which were among the first assayed, ran as high as $17,483.57 to the ton, and all ten averaged over $1,600 a ton.

In both camps we located early, and our locations are choice. Our own officers will superintend the mining.

Clean Up Inside

Blood and System Cleansing in the Spring Makes Good Health all Summer.

In spite of all your careful habits, it's safe to say that in the spring you feel poorly—have a throbbing sensation in the head—skin is pale or yellow, with dark rings under the eyes. It not absolutely bilious the system is so full of bile that you feel heavy and tired all day long.

Clean up, work off the winter's accumulation of waste, purify your blood. Do this and you'll feel fresh as a prize-fighter. "For ten years," says W. B. Sangster, of Concord, "I suffered greatly from impure blood, which made me feel debilitated and unfit for work. I had no appetite suffered from indigestion and gas, had some pains in the back, caused by poor kidney action. Spring was the hardest time of all, and many a time I felt dependent and languid enough to throw up the sponge. I was impressed by the marvellous work done by Dr. Hamilton's Pills and tried them. They suited me exactly. In one week I felt like new. I was braced up, got rid of blood weakness, gained in flesh, got back my old time appearance and spirits. Dr. Hamilton's Pills will clean all the sickness out of a man in short order and I urge young and old to use this grand tonic medicine."

Dr. Hamilton's Pills are a perfect spring medicine; they destroy germs and poisons of every description and strength whereby the system rallies and the patient quickly enjoys the blessings of Perfect Health. Get Dr. Hamilton's Pills—to-day—25c at all dealers.

The Turf Club suffered loss by having the roof off the grand stand and the fence on the boundary blown down by Friday night's storm.

Salary Increased

At the County Council meeting Saturday morning County Constable Cochrane's salary was increased by $100. His duties during the last year have also greatly increased and it was thought advisable to increase his salary.

Cow Running at Large

On Saturday evening as the citizens were doing their shopping a cow was parading the main thoroughfare, evidently taking in the sights. It caused considerable amusement for the passersby.

Ross—Hodson

The wedding took place last week in Vancouver, B.C., when John W. Ross of the mechanical department of the World, was united in marriage to Miss Mabel Hodson, daughter of Mrs. W. Hodson, Vancouver. The ceremony was performed by Rev. Dr. Beacham, rector of the Holy Family Church. Mr. Ross is a former Peterborough boy, once time employed at Examiner office.

Dominion Day Excursions

On account of Dominion Day, the Grand Trunk Railway System, will issue return tickets at Single fare between all stations in Canada, also to Detroit and Port Huron, Mich., Buffalo, Black Rock and Suspension Bridge, N.Y., good going June 30th, and July 1st, returning on or before July 2nd, 1908. Secure tickets from any Grand Trunk Ticket Agent.

Kawartha Lakes Excursion

Under the auspices of Lodge No 435 A.F. & A.M., to Fenelon Falls and return, on Monday and Tuesday, Jun 22nd and 23rd. Steamer Greenbank leave Wolfe street wharf Monday at 8 a.m., returning Tuesday evening at 7 o'clock. Return tickets $1.40. Meals on board, 40c. Special hotel rates for stop-over at Fenelon Falls. This will be the trip of the season.

Will Try and Secure the Opera House

It is understood that a representative of the Shubert Bros. of New York, will be here in a few days to negotiate with J. J. Turner & Sons, to secure the Grand Opera House here. The Shubert Bros. control the largest circuit in the United States and also the best theatres. If they are successful we may look for the best shows on the road coming here next season.

Mr. Chas. Thorpe of the Y.M.C.A. Harriers, has entered in the 15-mile Marathon at the Sunderland sports 1st of July. He will make some of them go to beat him.

Personal

—Mr. A. H. Stratton was in Toronto yesterday.

—Mr. R. J. Munro returned from Toronto last evening.

—Mr. Louis Belair was in the city yesterday.

—Mr. James Birney, Kingston, is at the Oriental.

—Mr. Jas. Dickson, Campbellford, was in the city Saturday.

—Mr. Mason of Dayton, Ohio, is in town on a business trip.

—Mr. Wm. Clute of San Antonia, was visiting friends in Peterborough Saturday.

—Mrs. George Hounsell of Wingham is visiting her sister, Mrs. (Dr.) Andrews, McGill street.

—Mr. F. Hawthorne of Bank of Montreal, Goderich, is visiting old friends in Peterborough.

—Mrs. J. P. Crough is attending the convent on for the Deaf of Canada in Toronto.

—Mr. Harry Clarke will spend the next two or three days in Port Perry.

—Mr. Geo. Cryderman and daughter of Warkworth, were in the city on Saturday.

—Miss Edith Currie of Omemee is visiting Mrs. (Dr.) Currie, Gilmour street.

—Mrs. Donnastoun of Winnipeg, returned home Saturday, after visiting many friends in Peterborough.

—Mr. Harry Morgan was in Galt Saturday.

—Hon. Senator Cox and daughter, passed through the city Saturday, on their way up the lakes.

—Mrs. (Dr.) Young and family have moved to Camnong for the summer.

—Miss Violet Blackwell of Cannington, is visiting Miss Olive Howell, Sherbrooke street.

Weak women should try Dr. Shoop's Night Cure. These soothing, healing, antiseptic suppositories go direct to the seat of these weaknesses. My "Book No. 4 For Women" contains many valuable hints to women, and it is free. Ask Dr. Shoop, Racine, Wis. to mail it. Ask the Doctor in strictest confidence, any questions you wish answered. Dr. Shoop's Night cure is sold by all dealers.

—Jack Lunan, formerly sporting editor for The Times, has left for Toronto, where he has accepted a position with the Toronto Star.

—Mr. John Crane, Mr. W. H. Hill, Dr. M. A. Morrison with Inspector A. Mowat returned last night from their visit to the Educational Department, Toronto.

—Mr. T. Wescott, formerly manager T. C. Cubbitt's bookstore, but now of Ottawa, is visiting friends in Peterborough.

—Mr. R. R. Davidson of Peterborough, has graduated at the Ontario School of Pharmacy, and has accepted a position with J. D. Tully for the summer months.

Piles are easily and quickly checked with Dr. Shoop's Magic Ointment. To prove it I will mail a small trial box as a convincing test. Simply address Dr. Shoop, Racine, Wis. I surely would not send it free unless I was certain that Dr. Shoop's Magic Ointment would stand the test. Remember this made expressly and alone for swollen, painful, bleeding or itching piles, either external or internal. Large jar 50c. Sold by all dealers.

—Mr. and Mrs. T. H. Hamilton of Toronto, with their son and daughter are visiting Mrs. Hamilton's parents, Mr. and Mrs. John Kincaid, Harvey street.

—Mrs. J. R. Stratton was in Toronto on Thursday and Friday visiting Miss Alberta Gooding at Havergal Hall. Mrs. Stratton will attend the closing exercises and presentation of prizes on Tuesday afternoon.

Department Railway and Canals, Canada

Trent Canal
Holland River Branch
Notice to Contractors

Sealed Tenders addressed to the undersigned and endorsed "Tender for Trent Canal," will be received at this office until 16 o'clock on Wednesday, the 15th July, 1908, for deepening and improving of a channel way from a point in Cook's Bay—Lake Simcoe, Ontario, to the mouth of and up the Holland River, and the East branch thereof to the Bradford Road a Holland Landing.

Plans, specifications, and the form of the contract to be entered into, can be seen on and after the 22nd June, 1908, at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, at the office of the Superintending Engineer, Trent Canal, Peterborough, Ont., and at the office of the Division Engineer, Newmarket, Ont., at which places forms of tender may be obtained.

Parties tendering will be required to accept the fair wages Schedule prepared or to be prepared by the Department of Labor, which Schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signatures, the nature of the occupation, and place of residence of each member of the firm.

An accepted bank cheque for the sum of $2,000 must accompany each tender, which sum will be forfeited, if the party tendering decline entering into contract for the work, at the rates stated in the offer submitted.

The Cheque thus sent in will be returned to the respective parties whose tender are not accepted.

The lowest or any tender not necessarily accepted.

By order,

L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, 17th June, 1908.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

Mail Contract

Sealed Tenders addressed to the Postmaster General, will be received at Ottawa until Noon, on Friday the 31st July, 1908, for the conveyance of His Majesty's Mails, on a proposed Contract for four years six times per week each way, between Bensfort and South Monaghan, from the 1st October, next.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Office of Bensfort, Lorenz and South Monaghan and at the Office of the Post Office Inspector at Kingston.

Post Office Department, Mail Contract Branch, Ottawa, 18th June, 1908.

Toronto Canadian Investors

The undersigned has received an allotment of unsold portion of $100,000 of

7 PER CENT FIRST MORTGAGE FIVE-YEAR-OLD BONDS

dated January 11, 1908, and maturing January 11, 1913. These Bonds are offered at par and accrued interest by Metropolitan Trust & Savings Bank, Chicago, trustees.

SECURITY—The Entire Property and Improvements Owned THE URES CONSOLIDATED MINING COMPANY in the District of Ures, State of Sonora Mexico, Free from Mortgage or Bonded Indebtedness except this present Bond Issue.

An Unusual Opportunity for Investment in Sound Security

The Ures Consolidated Mining Company offers $100,000.00 of First Mortgage Gold Bonds. This issue of bonds is the only mortgage or bonded indebtedness ever placed on the company's properties.

These bonds are in the denomination of $100.00, and bear interest at the rate of 7 per cent. per annum, payable semi-annually, July and January, and are redeemable on or before five years from date at the company's option at $110.00 and accrued interest.

$100.00 Stock Bonus Given with Every $100.00 Bond

With each bond issued there will be given $100.00 par value of the capital stock of the company as a bonus, and in addition thereto there will be placed in escrow with the Trustee additional stock which will be available to the bondholders at their option any time within a period of three years, the bondholder being entitled to surrender his bond any time within said period and receive in lieu thereof stock for every dollar of indebtedness to him on account of said bonds.

The Security Back of these Bonds

The company owns twelve claims situated in the district of Ures, State of Sonora, Mexico, free from mortgage or bonded indebtedness, except the present bond issue.

On one of these properties (The Itamona Mine) 5,000 feet of underground development work has been done, consisting of an inclined shaft to the depth of 400 feet with drifts in three levels to the North and South of the shaft.

An average value of ore worth $11.47 per ton is exposed throughout the mine, from the collar of the shaft to the extreme parts in the drifts, all of which is above water level.

The company has made surface improvements and mine improvements to the extent of $60,000.00 in the way of machinery, skids, trams, steam hoists, mill and nearly everything necessary to make the mining camp complete.

In addition to the absolute ownership of these twelve valuable claims, the company has a lease on the San Jose Mine, adjoining its property, in which the company has been operating in high grade ore.

During the past sixty days the company has extracted and delivered to ore buyers and the bank at Hermosillo, $2,000.00 worth of ore and bullion, the ore having been reduced to bullion through the company's mill, with the exception of 1,464 pounds, which was sold to an ore buyer for $562.50.

The Money Derived from the Sale of These Bonds

This issue of bonds is made for the purpose of securing money at once in order to extend the development work more quickly than the company's present means will permit.

With the high grade ore in sight to the distance of 80 feet to the South of the shaft, the management is assured that within six months from date of making the improvements now necessary the company's properties will be on a self-sustaining and dividend-paying basis.

The Stock which is Given with these bonds will be as valuable as the bonds when the Company has the ready capital to push operations

Men who invest in these bonds will have no cause or reason to regret their action, for the bonds afford an investment in a security which is absolutely safe—much better than ordinary city or country real estate, which is considered perfectly safe if the property put up to secure a mortgage is double the face of the loan. The security given on these bonds is better than 7 to 1, for the Ures Consolidated Mining Company has refused an offer of $750,000.00 for the property upon which this $100,000.00 worth of bonds is issued.

These bonds are an investment with all speculative risk eliminated—an investment with absolute security.

Make your reservation at once. This is small and promises to be quickly sold.

Banco de Sonora, S.
Hermosillo, Mex.,
Feb. 11th, 1908.

To whom it may concern:—

We hereby beg to state that The Ures Consolidated Mining Company has during the past five years made several deliveries of bullion to this bank, and it is the opinion of mining men here that they have the making of a fair mine, and further, that the properties owned and controlled by them bid promise of becoming paying properties.

From our knowledge of the men connected, we believe they are doing all in their power to bring about the results above mentioned.

Respectfully,
BANCO DE SONORA,

Half of Three Rivers Destroyed by Flames

Quebec Town of Nearly 12,000 Inhabitants Swept by a Terrible Conflagration--Soldiers Fight Flames

Montreal, June 22.—Telephone message from Three Rivers states that close to one-half of the lower portion of the town has been destroyed by the fire, which is making rapid headway along the waterfront.

The firemen are not making any headway.

All the telegraph wires are down.

Montreal, June 22.—One-half of the town of Three Rivers, a place of about 12,000 inhabitants, was wiped out by fire this morning.

All of the telephone wires are down, and the only thing the single telegraph wire running, and details are hard to obtain.

STARTED IN A LIVERY.

The fire is said to have started in Duval's livery stable and spread with great rapidity through the flimsy wooden building in the vicinity.

30 BUILDINGS GONE AT 1 P.M.

The fire swept down Notre Dame street, destroying everything in its path, and at one o'clock it was stated that thirty buildings had been burned.

These included the post office, several banks, two hotels, and the three largest stores in the town.

The Methodist church is also said to have been destroyed.

SOLDIERS FIGHT FLAMES.

Several advance parties of the regiments, which go to camp there tomorrow, are in the town and the soldiers have been put to work fighting the flames.

At 1.30 this afternoon a message from Three Rivers stated that the fire was still burning fiercely and was continuing to make headway through the town.

BIG HOTEL NOW ON FIRE.

The message said that the Hotel Dufresne, one of the largest hotels in the place, was burning.

The fire started just before noon, and help was soon called from outside points. A strong wind was blowing.

Three Rivers has a population of 12,000. It is on the St. Lawrence River, 72 miles west of Quebec, and is one of the oldest towns in Canada. Its principal industries are lumbering, marble works, sash and door factory, foundries, snowshoe factory, carriage and wagon factories, engine and machine shops.

NEW FIRE BRIGADE OF CHIEF, ASSISTANT, SIX PERMANENT AND SIX CALL MEN

Will Cost the City a Maximum Yearly Figure of $6,334—A Brigade of 14 Men as Against 17 Under the Old Regime

The Fire, Water and Light Committee of the City Council, and the special Fire Committee met last night. His Worship Mayor Henry Rush was present, and Chairman Ald. Johnston, and Aldermen McIntyre, Buller, Turner, Morgan, Phelan, Bradburn and Neill. Mr. Howard, the new Fire Chief was in attendance, as were also Mr. Pakenham and a number of the volunteer firemen.

The meeting was called with a view to establishing a permanent brigade, and fixing the salaries of the members thereof.

THE NEW BRIGADE.

After a couple of hours' discussion of the pros and cons of the situation, a majority agreement was reached that the re-organized brigade shall consist of a chief, assistant chief, six permanent and six call men, the engineer to be included in the six permanent firemen, he no longer to be partly engaged with the steam roller and partly in the fire hall.

THE SALARIES.

Ald. Buller moved, seconded by Ald. Turner.—That the salaries of the firemen be as follows;—

Chief	$1250
Assistant Chief	700
First year men	500
Second year men	550
Third year men	575
Call men	150

That the fully employed men be allowed a uniform each year, and members of the present brigade engaged be rated as second year men.

This resolution was carried on the following division;

Yeas.—Ald. Buller, Neill, Turner, Bradburn and Phelan.

Nays.—Ald. McIntyre and Johnston.

Ald. Morgan not being a member of either committee, did not vote.

COST OF NEW BRIGADE.

The new brigade as endorsed by the joint committee, will cost the city per year as follows;

Chief	$1250
Assistant Chief	700
6 permanent men	3300
6 call men	900
	$6150
8 uniforms	184
	$6334

The above figures are based on the assumption that the six permanent men will be engaged from the present volunteer staff, in which case they will be rated as second year men at a salary of $550 a year. Each first year man employed would reduce the cost of the brigade by $50 a year.

The above will permit of a brigade of 14 men, all told, against one of 17 men under the old regime.

Ald. McIntyre, in opposing the measure, said he thought the city better protected with its present brigade, of 17 volunteers than it would be by the new and mixed one of 14 men. We have even now four men permanently on the fire hall, as against but eight under the new system.

Ald. Johnston also recorded his strong opposition to the measure.

The new fire chief made it distinctly understood that he would submit to no interference whatever in the matter of engaging or discharging his men. He also remarked that he had been accustomed to sleeping at home on Saturday and Sunday nights. He had to submit, however to the committee's decision that he must sleep on the hall every night, taking his night off with the men.

A SERIOUS COMPLAINT.

Ald. Johnston, before adjournment said a serious charge was already being laid against the new chief—one of immorality—by people around town, and he wanted the matter cleared up.

Voices—"What charge?"

Ald. Johnston—"That of boozing."

The Chief—"Have you a charge to this effect in writing?"

Ald. Johnston—"No, but verbally, however."

The Chief—"Do you always believe what you are told?"

Ald. Johnston—"Not always."

The chief here smiled.

Ald Turner here rose in defence of Mr. Howard, whom he remarked, had come to this city highly recommended, and he did not believe any person would recommend an undeserving man for an important position. He did not think he would have any cause to regret the confidence he had in Mr. Howard.

The Chief—"I hope not."

The committee here adjourned on motion of Ald. Neill

THE CHIEF'S REPORT.

At the incipiency of the above proceedings;

Mr. Howard, by request, reported and recommended as follows;

That a chief, assistant chief, nine firemen and an engineer be permanently engaged on the fire brigade. That their salaries be as follows;

Chief	$1250
Assistant Chief	700
Engineer	825
Firemen	500

Also that the firemen's salaries be graded as follows;

First year men	$500
Second year men	550
Third year men	575

Mr. Howard also recommended that any of the existing firemen engaging on the permanent staff be graded as second year men.

Mr. Howard also advised that in the suppression to are that cellars and other secluded places are kept free of combustible rubbish. He had followed this course in Owen Sound, with much satisfaction to all concerned, especially the merchants.

Chief Howard contended that the brigade he proposed—chief, assistant, engineer and nine permanent men—would furnish ample protection for the city at present. In Owen Sound he had always had a few fire fighting enthusiasts upon whom he could call in time of need; these extra men were of course paid for their work at such times.

After considerable twisting and figuring, Mr. Howard's report was amended as record d above.

The new fire chief contended that the permanent brigade of drilled men advocated by him would give the city a better rating with the underwriters than a volunteer brigade of 17 men. He was quite firm in insisting that he engage his own men without any interference on the part of the Fire, Water and Light Committee.

The Remarkable Growth of the Cigaret Habit

Ottawa, June 22.—The latest Government returns of the consumption of cigarets in Canada show a great increase in the past ten years in the number of cigarets used in Canada from 80,562,817 to 384,809,394

The latest return is for the 12 months ending March 31st, and is made up from returns of the Customs imports and the output of the Canadian cigaret factories together.

The enormous growth of the cigaret habit in Canada is shown by the consumpton for the past five years, as follows;

1904	211,362,041
1905	250,860,387
1906	269,334,939
1907	355,170,280
1908	384,809,374

There is reason to believe that a very large proportion is due to the prevalence of cigaret smoking among youths, and a law is now before Parliament which aims at the prohibition of the sale of cigarets to youths under 16 years of age

The Farmers' Picnic to Idyl-Wyld

The Farmers' Institute of the County of Peterborough, will hold their annual picnic on Thursday, June 25th to Idyl Wyld. Addresses will be delivered by the following speakers, Mr. Lackie Wilson, Government inspector of Exhibitions and Fairs, upon "Farming in relation to other professions." Mr. W. L. Smith, editor of the Farmers' Sun, upon "Cooperation in farming," and by Mr. J. H. Burnham upon "What we owe to the Poncera." Every arrangement has been made for the convenience and comfort of a large crowd.

Will Preach Farewell Sermons

At the morning service in Charlotte street church last Sunday, the Rev. Mr. Manning stated that he would preach his farewell sermons next Sunday, as pastor of Charlotte St. church.

Referring to the new church for the south end, the rev. gentleman said that $3,700 had already been subscribed, of which amount Charlotte street, had contributed cheerfully over two thousand dollars, and he hoped yet to obtain a considerable amount in addition to that. George street church, he had no doubt, would add considerably to the sum subscribed, and he hoped the amount would be known very shortly—in the course of a couple of weeks. The plans were about ready, and in four or five months the building would be occupied.

Cow was Burned to Death

Yesterday at noon a fire broke out in the barn of Mr. J. Sanderson, 57 Harvey street. The brigade was called from box 42, and were soon on the scene but the fire had spread through the building and it was burned down. Mr. Sanderson lost a valuable cow and a number of hens. The cow refused to move when betailed to get it out, and it had to be left. Soon after it got out, but it was found that both hind legs were broken. One of the firemen put the poor animal out of business. The damage was covered by insurance. The brigade was called there again last night about eight o'clock as fire having broken out again, but it was soon extinguished.

Alarm Box Defective

When Mr. Jas. Dorn went to send the fire alarm for a fire on Harvey street, at noon yesterday, box 27 failed to work. The glass was broken and the key taken out, but the door refused to open, and the alarm had to be 'phoned in.

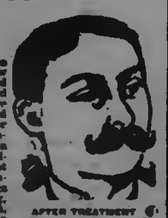
BLOOD DISEASES CURED

Drs. K. & K. Established 20 Years.

NO NAMES USED WITHOUT WRITTEN CONSENT



BEFORE TREATMENT AFTER TREATMENT

He was surprised at how the sores healed—"I took your New Method Treatment for a serious blood disease with which I had been afflicted for twelve years. I had consulted a score of physicians, taken all kinds of blood medicines, visited Hot Springs and other mineral water resorts, but only got temporary relief. They would help me for a time, but after discontinuing the medicines the symptoms would break out again—running sores, blotches, rheumatic pains, loss of the hair, swellings of the glands, palms of the hands scaling, itchiness of the skin, dyspeptic stomach, etc. I had given up in despair when a friend advised me to consult you, as you had cured him of a similar disease 8 years ago. I had no hope, but took his advice. In three weeks' time the sores commenced to heal up and I felt encouraged. I continued the New Method Treatment for four months and at the end of that time every symptom had disappeared. I was cured 7 years ago and no signs of the disease since. My boy, three years old, is sound and healthy. I certainly recommend your treatment with all my heart. You can refer any person to me personally or by letter, if desired, as I am pleased to give testimonial as you wish." W. H. S.

We treat NERVOUS DEBILITY, VARICOCELE, STRICTURE, VITAL WEAKNESS, BLOOD, SKIN and PRIVATE Diseases, URINARY, BLADDER and KIDNEY complaints of Men and Women

READER Are you a victim? Have you lost hope? Are you intending to marry? Was your blood ever tainted? Have you any weakness? Our New Method Treatment will cure you. What it has done for others it will do for you. Consultation Free. No matter who has treated you, write for an honest opinion Free of Charge. Charges reasonable. Books Free—"The Golden Monitor," (Illustrated) on Diseases of Men.

NO NAMES USED WITHOUT WRITTEN CONSENT. Everything confidential. Question list and cost of Home Treatment FREE.

DRS. KENNEDY & KENNEDY

Cor. Michigan Ave., and Griswold St., Detroit, Mich.

The High Court in Session

His Lordship Mr. Justice Anglin opened the High Court yesterday afternoon. Only two cases are to be tried.

The first case is that of the Port Hope Brewing and Malting Co., of which Robert Wallace Smart, of Port Hope, was the secretary-treasurer, against Mr. Thos Reid, of Marmora.

On or about the 3rd day of March 1904, the defendants entered into an agreement with the plaintiff in writing whereby the said defendant agreed to take two shares of stock in the company, to the amount of $200.

The plaintiffs claim from the said defendants the sum of $200 and interest upon the instalments agreed to be paid by the defendants from the respective dates upon which the same became due and payable. They also claim the costs of the action.

The second case is that of the same company against J. H. Burton of Brockbridge.

In April, 1904, Burton, it is said, agreed to take two shares to the amount of $200. The plaintiffs are claiming the $200 and the interests and costs of the action.

The case of the Brewing Company vs. Reid, is being tried.

vs. Reid, is being tried. Messrs. O'Connell and Gordon are solicitors for the plaintiffs and Mr Wright, of Wills & Wright, is looking after the interests of the defendant.

Sports

BASEBALL

Games played in the three big professional leagues yesterday resulted as follows;

EASTERN

Buffalo 1, Baltimore 7.
Montreal 4, Jersey City 0
Toronto 6, Newark 2

NATIONAL

Philadelphia 6, Brooklyn 1.
St. Louis 1, Boston 9

LACROSSE

There was a good turn-out at the lacrosse practice at the Oval last night, the following players were out, and had a good game; Kelly, Daly, Wallace, Halpany, Killenback, Rae, Burt, Barber, Sanderson, Taylor, Prowde, Hart, Weart, Armstrong.

BASEBALL.

A City League game was played on the Oval last evening between the Wellingtons and Y.M.C.A., the latter winning by a score of 9—5

The teams lined up as follows;

Y.M.C.A.—
Warham c.
Patterson p.
Graham 1b.
Squires 2b.
Thornton 3b.
Kressman ss.
Robertson lf.
McDonald cf.
Barnes rf.

WELLINGTONS
Bellington c.
Hawkins p.
Henderson 1b.
Patterson. 2b
Johnston 3b.
Fitzpatrick ss.
Russel lf.
Fulton cf.
McCabe rf.

Umpire—Weatherstone.

McCabe was hit by the ball in the game and had his nose broken.

FOOTBALL.

The Y.M.C.A. and Quakers will practice Wednesday and Thursday evenings of this week at the Exhibition grounds at 6.30.

Shock to Blind Ballplayer Brought Back His Sight

New York, N.Y., June 22.—James Cantillon of Shirastie, Wis., who was totally blind, regained his sight at Bellevue Hospital yesterday during a fit of hysterics which followed the surgeons announcement to him that his case was considered hopeless and that he would probably remain blind for the remainder of his life.

Cantillon who is a professional baseball player, a member of the Des Moines, Iowa, team, and a brother to Joseph Cantillon, manager of the Washington American League team, had to have his left eye removed as the result of an accident in Chicago several months ago. The sight of the other eye failed from sympathetic affection. He came to the Cornell University Medical College here for treatment and was preparing to undergo the operation.

Yesterday the physicians decided that an operation would be useless, and as informed Cantillon what there upon became hysterical. Suddenly he cried out that he could see and tests showed that the sight of the right eye had been almost completely restored. The hospital surgeons say that Cantillon's loss of sight was undoubtedly due to an affection of nervous system and that the hysterical attack he underwent is responsible for the restoration.

Wisdom comes with age

but thousands of school children know the food value of

Grape-Nuts

"There's a Reason"

Preached Religion but Got Stale Eggs and Stones

Millbrook, June 22.—The countryside of North Munvers is considerably excited over some recent occurrences. It appears that two girls from Millbrook had been holding religious meetings which some of the people of the district did not consider orthodox. It is charged that some young men waylaid them on their way from one of the meetings and threw stones and eggs, some too fresh at them and those who were accompanying them. Complaints were laid and the result was a fine of $5 and costs in eleven cases.

Jimmy Reynolds will Try It Again

"I'll never die happy till I've made that trip.

This is the slogan of Jimmy Reynolds, the walking barber, of Port Hope, who was in the city yesterday morning for a short time. Jimmy is as cheerful as ever and seems in no way put out over the recent failure.

Of course many people can't understand why anyone should want to go to Toronto, walking or otherwise, but the Port Hope barber has his heart set upon making the return trip in thirty-three hours and will never rest content until he has accomplished the feat.

"I'm going to try again on September 10th," said Jimmy to a local press representative, "and I'll make it then. I'd have done it last time if I hadn't taken a glass of claret and an egg-nog on the way up. They made me sick and I lost over an hour as a result. I also stopped too long at Toronto. I'll avoid these things next time and see if I don't be successful."

Dummer Resident Passes Away

Warsaw, June 22.—Within two years of the four score mark, death summoned on Saturday Mrs. George Little, for fifty or more years a resident in the northern portion of the township of Dummer. She was one of the best known women of Dummer and wife of the late George Little who predeceased her over four years ago. Her maiden name was Elisabeth Matthews, she being a relative of the late "Soldier" Matthews, a Crimean war veteran, who spent the waning days of his life in Dummer township. Seven children survive. They are William, James, Robert and George, of North Dummer, Hugh in the Northwest; Mrs. John Wright, Smith, and Mrs. Jacob Siddens of Otonabee.

Good Fishing at Chemong

Some Fine Catches Being Made Every Day

Fishing at Chemong is better this year than it has been for many years past. Large numbers of bass and muskinonge are being caught daily at this popular resort.

Yesterday, Mr. Alf. Hamilton caught an 18-pound lunge, while trawling near the floating bridge. On Thursday last Mr. A. W. Crossman caught two very fine lunge, weighing about 10 pounds each, while Mrs. Crossman hooked a superb bass of probably five pounds' weight, while fishing off Mr. Hopewood's island.

A Trip for Fat Women

In a few years that excess fat of yours will become a bad habit—impossible to break. Better take time by the forelock and reduce now in a natural way if you would keep intact the youthful symmetry of 20 through the trying years of middle age. Go to the druggist and ask him for 1-3 ounce Marmola, 3-4 ounce Fluid Extract Cascara Aromatic, and 4 3-4 ounces Syrup Simplex. Take a teaspoonful after meals and at bedtime. Mix them at home if you wish, but see that the Marmola comes to you in a sealed package.

This mixture makes firm fleshed, well-formed women out of flabby, shapeless ones. It animates their stomachs to burn up the food fats instead of allowing them to gather at the waist line. Without disturbing the diet or requiring exercise to help it out it dissolves the fat away just where needed the most. It has been known to melt away harmlessly as much as 16 ounces a day without causing a single wrinkle.

All Asiatics Must Have $200 on Landing

Ottawa, June 22.—An order-in-Council has been passed requiring all Asiatic immigrants to have $200 in their possession, except in the case of immigrants from those countries with which the Government of Canada has made special arrangements, or those concerning whose countries special statutory regulations exist on the part of Canada; the conditions as to tickets to destination to remain as at present.

The ground stated for increasing the amount upon Chinese, at which the order specifically aims, is that Canada is looking primarily for immigrants of an agricultural class to occupy vacant lands, and as immigrants from Asia belong as a rule to laboring classes and their language and mode of life render them unsuited for settlement in Canada, where there are no colonies of their own people to ensure their maintenance in case of their inability to secure employment, it is necessary that provision be made so that such immigrants may be possessed of sufficient money to make them temporarily independent of unfavorable industrial conditions when coming into Canada.

Boquets for Harry Burridge

The following is from the Youngstown Sunday Vindicator, referring to the great work being done by Harry Burridge, the Peterborough last year's clever backstop, in the game with Youngstown against the champion New Castle team;—

"The real batting hero of the game and the candy kid, was Harry Burridge, the Champion young Canuck catcher. He registered twice each time just when a swipe was needed. He also caught a bang-up game and but two stolen bases were made off him. He showed Bridges, the Nooks' backstop how to play the position.

What Ails You?

Do you feel weak, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heartburn," belching of gas, acid risings in throat after eating, stomach gnaw or burn, foul breath, dizzy spells, poor or variable appetite, nausea at times and kindred symptoms?

If you have any considerable number of the above symptoms you are suffering from biliousness, torpid liver with indigestion, or dyspepsia. Dr. Pierce's Golden Medical Discovery is made up of the most valuable medicinal principles known to medical science for the permanent cure of such abnormal conditions. It is a most efficient liver invigorator, stomach tonic, bowel regulator and nerve strengthener.

The "Golden Medical Discovery" is not a patent medicine or secret nostrum, a full list of its ingredients being printed on its bottle-wrapper and attested under oath. A glance at its formula will show that it contains no alcohol, or harmful habit-forming drugs. It is a fluid extract made with pure, triple-refined glycerine, of proper strength, from the roots of the following native American forest plants, viz., Golden Seal root, Stone root, Black Cherry bark, Queen's root, Bloodroot, and Mandrake root.

The following leading medical authorities, among a host of others, extol the formulæ given for the cure of just such ailments as the above symptoms indicate: Prof. R. Bartholow, M. D., of Jefferson Med. College, Phila.; Prof. H. C. Wood, M. D., of Univ. of Pa.; Prof. Edwin M. Hale, M. D., of Hahnemann Med. College, Chicago; Prof. John King, M. D., Author of "American Dispensatory;" Prof. Jno. M. Scudder, M. D., Author of "Specific Medicines;" Prof. Laurence Johnson, M. D., Med. Dept. Univ. of N. Y.; Prof. Finley Ellingwood, M. D., Author of "Materia Medica and Prof. in Bennett Medical College, Chicago. Send name and address on Postal Card to Dr. R. V. Pierce, Buffalo, N. Y., and receive free booklet giving extracts from writings of all the above medical authors and many others, in the strongest possible terms, each and every ingredient of which "Golden Medical Discovery" is composed.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. They may be used in conjunction with "Golden Medical Discovery" if bowels are much constipated. They're tiny and sugar-coated.

THE TRENT VALLEY NAVIGATION COMPANY, LIMITED

TIME-TABLE for season 1908

Between Lindsay and Sturgeon Point

From June 15th to June 30th (Sundays excepted) a Double Daily Service leaving Sturgeon Point at 7.15 a. m. and 3.45 p.m., returning leaves Lindsay at 11.00 a. m. and 6.30 p.m. Trent Valley Ad.

Between Lindsay, Sturgeon Point and Bobcaygeon

From July 1st to August 29th (Sundays excepted) a Triple Daily Service between Lindsay and Sturgeon Point, leaving Lindsay at 11.00 a.m. 2.30 p.m. and 6.45 p.m., and leaving Sturgeon Point at 7.15 a. m. 12.45 p.m. and 4.10 p. m.

Single Daily Service between Lindsay and Bobcaygeon, leaving Lindsay at 5.45 p. m. and Bobcaygeon at 6.15 a. m.

NOTE:—On Mondays, Boat will leave Bobcaygeon at 6.45 a. m. and Sturgeon Point at 6.45 a. m. to make early train connections.

On Saturdays, Boat will await arrival of evening trains from Toronto and Port Hope.

Between Bobcaygeon, Chemong and Burleigh Falls

From June 9th to Sept. 12th (Sundays excepted) a Daily Service leaving Bobcaygeon at 7.00 a. m., Chemong at 9.30 a. m., arriving Burleigh Falls at 12.30 p. m.; returning leaves Burleigh Falls at 1.00 p. m., Chemong Park at 5.00 p. m., arriving Bobcaygeon at 7.45 p. m.

NOTE:—Connections at Burleigh Falls for Lakefield and Stony Lake Points. Bus connection at Chemong to and from Peterborough both morning and evening.

FOR INFORMATION

and tickets apply to W. Burton, Peterborough Agent, or to the Company's Offices, Bobcaygeon, Ont.

This is Best Time For Spring Medicine

es, now the blood is cleansed disease germs are destroyed, good summer health is assured.

That peculiar weakness so common in the spring, is demoralizing to body and mind alike.
feeli the need of a stimulating tonic.
To impart quickness and great vitality to the entire system nothing acts like Ferrozone.
In a short time it makes you feel fi and fine, creates a feeling of youth and strength that's surprising.
Ferrozone revives and blesses the sick ly because it nourishes and builds up the organs that are weak. As a spring tonic appetizer and blood strengthener it is unequalled.
A well known resident of Utopia, Ont., Mr. H. H. Postle, writes: "From long experience I am convinced that everyone requires medicine in the spring. As a rule the blood is thin and impure and the whole system is congested with poisons that should be carried off. I use Ferrozone because it clears up the system, gives you an appetite and makes you feel well. One winter I had serious palpitation of the heart, nervous headaches, and an extreme tired feeling. Sleep was not restful and by spring I was in bad shape. I took six boxes of Ferrozone and was made the picture of health."
Ferrozone makes permanent cures. Absolutely safe because it is purely vegetable and contains no alcohol. Concentrated cure in tablet form, —that's Ferrozone, 50c per box or six boxes for $2.50 at all dealers.

Morning Times

published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.
Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.
The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.
The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.
English office—30 Fleet street, London, E. C.

EDITORIAL COMMENT

Signs of improvement in the commercial situation in the United States continue to multiply.

The city of Boston has been able to float four and one-half million dollars in municipal 4 per cent. bonds at a premium of nearly 6 1-2 per cent., and the deposits in New York city banks are two hundred and fifty million dollars in excess of the amount held when the panic began last fall. Coupled with the easing off in the money market, there are most encouraging reports regarding the crop outlook. The yield of wheat in the United States is expected to show an increase of one-sixth over that of last year, and will, from present appearances, be 25 per cent. in excess of 1907, and if corn prospects are equally encouraging.

Some little trepidation has been caused by a slight easing off in steel prices, but this has been fairly well offset by finer buying in this and other lines of goods. In all American business circles there appears to be an increase of confidence and a revival of activity, and the change in sentiment seems to have a well-founded basis in present conditions.

The system of exacting pledges from candidates for Parliament grows upon us and will presently deprive legislators of the free exercise of their own judgment, says Goldwin Smith, in the Farmers' Sun. You will hear members of Parliament own in private that they voted for or against the measure, not on their own view of its merits, but in the fulfillment of a pledge. This was notably the case with regard to Gladstone's revolutionary measure of Home Rule, for which some men must evidently have voted against their own opinions and the general tenor of their political lives. We had the other day a suggestion that nobody should be elected to our Legislature who had not pledged himself to vote in a particular way on the liquor question. The tendency of this system is to exclude from Legislatures open-minded and self-respecting men. What self-respecting man would care to be a telephone, or worse than a telephone, for a telephone has no conscience to violate. The only legislators now left in England with freedom to vote according to their conscience are in fact the Lords, who threw out Gladstone's Home Rule bill, and to whom probably a majority of the Commons really looked for its rejection. This gives the House of Lords, notwithstanding its manifest faults and need of reform, a special importance at the present crisis.

If our feels dull and spiritless, in the spring or early summer, they call it "Spring Fever." But there is no fever—usually. It is the after effect of our winter habits. The nerves are mostly at fault. Tired worn-out nerves, leaves us languid, lifeless, and without spirit or ambition. A few doses of Dr. Shoop's Restorative will absolutely and quickly change all of these depressing symptoms. The Restorative of course won't bring you back to full health in a day or two, but it will do enough in 48 hours to satisfy you that the remedy is reaching that "tired spot." Druggists everywhere are advising its use as a splendid and prompt general tonic. It gives more vim and made spirit to the roosnful than any other known nerve or constitutional tonic. It sharpens a failing appetite, aids digestion, frees sluggish livers and kidneys, and brings new life, strength and ambition. Test it a few days and be convinced. Sold

POPULAR MECHANICS FOR JULY

Pictures, like actions, speak louder than words, and this is one reason the magazine Popular Mechanics, has taken such hold on the hearts of people of every class and calling in the few years since it first appeared on the news stands. Not that the words are left out—for the terse, plain language articles go straight to the kernel of the subject and lay it bare—but rather that the pictures are so numerous and supplement the articles with such detail that the mind is grateful for an easy method of acquiring indisputable information in a field where new and stranger wonders are being produced every day. For instance, in the July number 150 pictures are used to illustrate the 135 articles. Neither expense nor trouble have been spared in procuring these pictures; danger to life often has been involved, and many of them are unique productions of the photographer's art. A view of a falling wall snapped by the camera just as it topped is an instance of this in the July number. Other recent issues have contained views of a cyclone in action, a falling church tower, a blast furnace explosion and other remarkable subjects. Where photography is not suitable or available the staff's special artists are assigned to the subject with gratifying result. In the July number three thrilling views accompany the article on the big Morrell dirigible balloon which exploded at Berkeley, Cal., hurling its freighage of 16 men to earth. The accident and its causes are freely discussed. The plan to electrify the entire province of Ontario, Canada, with energy supplied by Niagara Falls forms the topic of another important article. A mark shows the territory to be thus benefitted. The scene following the collision of the British cruiser "Gladiator" and the American liner "St. Paul" are shown in a full page view. A new method of sinking a mine shaft is described. The shaft wall of reinforced concrete is built above ground and sinks by its own weight, resting at last on solid rock 80 feet below. "Sea Air in Your Room or Office," "Collecting Venom from the Gila Monster," "Photographed as Sphinxes and Mummies" and "The Death Special" are a few other sparkling titles selected from this number. The Shop Notes department is, as usual, full of good practical matter. The Amateur Mechanic will be interested in the construction of a pilot balloon described in his special department. Several devices for celebrating the Fourth of July are described, also.

THE BOHEMIAN FOR JULY

So evenly balanced in attractiveness are the features of current interests and the ten short stories in The Bohemian Magazine for July that the issue will strike the ordinary reader as a particularly good example of modern magazine making.

Perhaps for sound doctrine and genuinely entertaining reading the article by the well-known art critic, Mr. Perriton Maxwell, entitled "The Coin of the Realm" is the best of the special articles. Herein this critic writes a caustic commentary upon the art failures "of the form before which we bow down." He makes the radical statement that American coinage from an artistic standpoint is a veritable nightmare, almost every piece lacking in artistic beauty.

Of a different nature, but rivaling this leading feature in interest are the following special articles: "The Log of an Ocean Traveler", by Aubrey Lanston, a cleverly written and amusingly interesting chronicle of what happens upon a transatlantic voyage; "My Yesterdays", by John Mason; "Humorous College Journalism," in which is the last article of this series, by G. B. Hill, who writes very cleverly of "The Wisconsin Sphinx"; "The Drink Question," an entertaining article telling particularly how to concoct refreshing summer beverages.

Wonderfully strong is the short story by John G. Neihardt, entitled "The Ragged Edge", which is a story of grim generosity in the early Canadian days. Mr. Neihardt, who has made his mark as a brilliant short writer, here fairly surpasses himself. Other stories in the number are by Edwin L. Sabin, Lucy Pratt, Grace MacGowan Cooke, Forrest Halsey, and Edward Childs Carpenter. The latter who will be remembered as the author of "The Code of Victor Jallot," writes a daring story entitled "Thin Ice."

The July Bohemian also contains the details of the $1,500 prize offers the editors are making.

To stop any pain anywhere in 20 minutes, simply talk just one of Dr. Shoop's Pink Pain Tablets. Pain means congestion—blood pressure—that is all. Dr. Shoop's Headache—or Pink Pain Tablets—will quickly coax blood pressure away from pain centers. After that, pain is gone. Headache, Neuralgia, painful periods with women, etc., get instant help. 20 Tablets 25c. Sold by all dealers.

The Outing Magazine for July

The Outing Magazine for July is a blessing to the summer proud—a balm for a heated frame of mind. Several of the articles are of keen current interest, such as, for instance, that by Ralph D Paine entitled "The First American Voyagers to Japan."

Mr. Arthur Ruhl, the well-known journalist, writes an article entitled, "The Men Who Set the Marks," in which he shows by a nervous citation of modern records that Americans are better athletes than were the ancient Greeks. "The Milk Fed Horse Greeks. "The Milk Fed Horse," by A. C. Robinson, tells of a wonderfully interesting experiment made with a view to bringing a long pedigreed colt to quick maturity. The horse was fed upon a diet of dry milk and the results were startling. It attained its maturity practically in twenty-six months. The writer of the article then shows pointedly that what can be done with a horse may be done, using the same intelligence as to diet, with man.

Mr. Vance Thompson, who is writing a series of brilliant articles upon contemporary European life, contributed to the July issue "The Royal River," a description of the Thames—a picture which is a masterpiece of descriptive writing as full of color and suggestion as a canvas by an old master. Another article in the number is "The Daughters of the Vikings" in which Agnes C. Laut a tribute to the doughty Swede and Norsewomen whose thrifty qualities are so valuable in the making of our national character.

Still other leading features are "A National Breathing Spot," by Day Allen Willey, a description of Maine; "Some Indians, Past and Present," by A. W. Dimock, an important contribution to the Indian question; "A Dagrunthed Hermit," by Robert Dunn. The hermit, Mr. Dunn, in in hunting for volcanoes in the Behring Sea, found isolated in a remote part of the Aleutian Archipelago. The issue throughout is alive with pictures, many of these being photographs and many drawings by well-known artists.

An unusual and very pertinent presentation of the fishing question takes the form of a discussion by several well-known English sportsmen upon this query; "Is fishing a better remedy for brain-fag than shooting?"

Beware of Ointments for Catarrh that contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surface. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Ringling Bros' Circus May be Here

The citizens of Peterborough are to have the pleasure of witnessing one of the biggest circuses in America in August, when either Ringling Bros.' or Hagenbeck's Circus will show at the Driving Park.

The Peterborough Turf Club having control of the Driving Park, the managment of the circus that will be here will have to rent the grounds from them.

Saturday Mr. Chas. Nixon, secretary of the Turf Club, concerning which of the two above mentioned circuses was coming, and at what date it would come. "I said no definite arrangements had been yet made, but it was assured that either Ringling Bros or Hagenbeck's would visit this city in August.

Ringling Bros is too well known to call for any passing comment on it, but Hagenbeck's show has never been here. It is also a splendid organization, carrying as magnificent a menagerie as any circus on earth.

POLICE

Chas. Healy was fined $20 and costs, or one month in jail, for assaulting Robt. Maxwell on circus day. The prisoner pleaded not guilty through his counsel, G. N. Gordon. But before the case ended, he pleaded guilty.

Robt. Maxwell, the complainant, said that on circus day he was standing at the corner of Brock and George streets and the prisoner and another fellow were standing on the opposite corner. The witness went into an hotel to get out of his way. Healy followed him in, called him out into the hall and commenced abusing him, striking him on the head. The proprietor of the house put Healey out. Maxwell then got on his wheel and started down Water St. At the post office Healey rushed out at him, pulling him off his wheel and then kicked him on the head, knocking him senseless.

Mr. R. F. McWilliams was called. He was standing in his office door on Water street when his attention was attracted to the row. He did not see Healy knock Maxwell off the wheel nor did he see him kick the

Department Railway and Canals, Canada

Trent Canal Holland River Branch Notice to Contractors

Sealed Tenders addressed to the undersigned and endorsed "Tender for Trent Canal," will be received at this office until 16 o'clock on Wednesday, the 15th July, 1908, for deepening and improving of a channel way from a point in Cook's Bay—Lake Simcoe, Ontario, to the mouth of and up the Holland River, and the East branch thereof to the Bradford Road at Holland Landing.

Plans, specifications, and the form of the contract to be entered into, can be seen on and after the 22nd June, 1908, at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, at the office of the Superintending Engineer, Trent Canal, Peterborough, Ont., and at the office of the Division Engineer, Newmarket, Ont., at which places forms of tender may be obtained.

Parties tendering will be required to accept the fair wages Schedule prepared or to be prepared by the Department of Labor, which Schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signatures, the nature of the occupation, and place of residence of each member of the firm.

An accepted bank cheque for the sum of $2,000 must accompany each tender, which sum will be forfeited, if the party tendering declines entering into contract for the work, at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective parties whose tender are not accepted.

The lowest or any tender not necessarily accepted.

By order,

L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, 17th June, 1908.

Don't Worry Don't Worry

Why Worry ?

CONSULT

PHAROS

The Mystic and Modern Astrologer

YES, WHY WORRY ?

About your Business, Health, Pleasures, Friends Abroad, your Love Affairs and Chances in Life. Yes, Why Worry? Consult Pharos." He is able to advise you, console you and warn you. His ambition in this life is to help those in trouble, and must not be classed with the run of Palmists who use their supplied gifts to make money. Pharos is independent of this. Willing and able to help all in trouble and relieve their anxiety to the best of his ability and experience.

Pharos has a Message to you.

You are anxious to put your son to a business that he will prosper. Will your daughter be happy in her married life? You are in love. Have I made a wise choice in mate? Shall I take a partner into my business? Should I be wise in going abroad? All these questions Pharos answers and advises by the aid of astrology. Why not put this to the test.

Send P. O. value 1/- and addressed, stamped envelope to

Pharos, Dept. 14, 45 Union St., Glasgow

with your Birth Date, Full Name and Title and Town or County of Birth if possible, upon receipt of same Pharos will send you a written TEST HOROSCOPE.

With the above Pharos will send you FREE a Written Forecast of Your Future.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

reserve may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at an Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead duties under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3) If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of a homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father or mother.

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line exclusive of the width of road allowances crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the agent for the district of such intention.

Six months' notice in writing must be given to the Commissioner of Dominion Lands at Ottawa, of intention to apply for patent.

W. W. CORY,
Deputy of the Minister of the Interior.

PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else, usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablet—removes blood pressure away from pain centers. Its effects, charming, pleasingly delightful, though subtly, surely equalizes the blood circulation.

If you have a headache, it's blood pressure.

If it's a painful period with women, same cause.

If you are sleepless, restless, nervous, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop pain in 20 minutes, and the tablets simply distribute the unnatural blood pressure.

Bruise your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain is—always. It's simply Common Sense.

We sell at 25 cents, and cheerfully recommend

Dr. Shoop's Headache Tablets

"ALL DEALERS"

Her Exalted Position.

"Yo needn't think because yr dee me goin' an' comin' be th' back door fr Mr. Malcolm Goldborough's mansion that Of'm wan fr th' common servants fr th' house," said the haughty customer to the uncivil butcher.

"Oh," ejaculated the fat little man, abruptly turning obsequious, "are—are you a family connection of the great Goldborough's, ma'am?"

"Of'm more than a mere connection, sir."

"Pardon me," added the butcher, gazing patronisingly at this personage, "you're one of the family that's been abroad and whom I haven't had the pleasure of meeting before perhaps?"

"Yo'll have t' go higher than that."

"Not Mr. Malcolm's new wife?" gasped the fat little man. "I didn't have a suspicion that he"—

"Higher, mon. Of'm higher."

"Higher?" uttered the perfectly bewildered butcher.

"Th. Of'm th' cook!"—Bohemian.

Drug Store For Horses.

"I came across a queer little drug store the other day," said the city salesman. "It makes a specialty of veterinarian prescriptions. According to the proprietor's own account, they don't sell very much in that store except horse medicine. They sell more of that than any other drug store in town. The neighborhood abounds in stables and animals' hospitals, and most of the drugs used in doctoring sick horses are bought at that store. Of course the place is fitted up with the usual drug store paraphernalia. There is a soda water fountain, a cigar stand, postage stamps can be purchased there and drafts and doses for human beings will be compounded upon request, but these familiar and supposedly primary functions of a drug store are in this case a superfluity, because about all that druggist does is to put up cures for equine ailments."—New York Press.

Her Secret.

Wife—Have you any secrets you keep from me, dearest?

Husband—None, darling.

Wife—Then I am determined I will have none from you either.

Husband—Have you secrets, then?

Wife—Only one, and I am resolved to make a clean breast of it.

Husband (hoarsely)—Go on!

Wife—For several days I have had a secret—a secret longing for a new dress, with hat to match, for my birthday.

That fetched him.—London Mail.

THE EDUCATED MAN.

Not All of His Knowledge Comes From Books and Schools.

The most important part of education comes from intercourse with people. From this side comes the education in love and duty and service. The actions of people stimulate imitation and emulation. By these men grow in power and skill. From observation of the character of people men form ideals of character for themselves and are transformed thereby. Herein lies the consummate educative power in Christianity—the transforming power of the divine man.

According to this new idea, education is not merely receiving, but giving; not learning alone, but doing. The educated man is open eyed and open minded, quick to respond to influences from without, learning from all his experiences and growing in power as he grows in knowledge. Charles Kingsley said of his father that "he possessed every faculty but the faculty of using his faculties." He was not an educated man, although he was a very learned one.

Education is an individual matter. No two men can be educated alike in manner or degree. They respond to different influences and grow in different ways. One becomes educated by way of schools and colleges and this, another by life alone. The measure of a man's education is the measure of his use in the world.—George W. Martin in Boston Globe.

A COSTLY NAP.

Slumber That Led to the Death of King Charles I.

In the middle of Holborn once stood an inn, the George and Blue Boar, and there took place an incident which entirely changed the whole tale of England's history.

As twilight was falling in October, 1648, a very tired post boy mounted on a sweating horse pulled up outside the old inn. The lad knew nothing of the importance of the letters which lay in his post bag. His orders were to convey them to a point on the Great North road, where he would be met by other messengers.

But Cromwell's spies had followed him from the south coast, for England's liberty depended upon his dispatches miscarrying. The boy had some supper and afterward fell asleep, his head pillowed on his post bag.

While he slept Cromwell's men took the bag and found in it a letter from King Charles I. to the Scottish generals arranging for his rescue, an immediate advance on London and the arrest and execution of Cromwell and his friends. That same evening Cromwell had the fatal letter and determined on Charles' death.—London Tit-Bits.

The cure.

The olive has been applied for various medicinal purposes since old Rameses I. held sway over his dark skinned subjects in northern Africa. In the days of ancient Rome the leaves and bark of the tree were used by the remarkable medical experts of that time to allay and cure violent attacks of intermittent fever, while the resinous gum which exuded from the tree in the hot season was used for many of the ills to which flesh is heir. The oil of the olive itself later was used by the Roman athletes to soothe their heated bodies after indulging in heroic attempts to break the early records for 100 yard dashes and putting the discus or shot. Then the oil of the wild olive was employed as an extraordinary panacea, guaranteed to stop the ravages of all ailments. Last of all, in more modern times the women of our own day use the olive oil in the form of soap to beautify the complexion by softening the pores and nourishing the skin itself.

Creating a Vacancy.

When the republic had been set up in France in 1848, wrote the Baroness Bonde, the first attempts of the enfranchised people to use their new powers resulted in the election of the most miscellaneous assembly that had ever tried to govern a country. A member nominated from Rouen went to Paris and selected his seat. He had hardly taken it when his next neighbor turned and stared at him. The Rouen man, embarrassed, turned up his coat collar, but too late.

"Sir," said his lynx eyed colleague, "I believe I had the honor of sending you to the galleys for murder in 18—, when I was judge. You had strangled the servant of the cure who had brought you up, and robbed the worthy man. Oblige me by resigning immediately."

The next day the Moniteur announced that there was a vacancy for Rouen, but did not tell why.

The Jury's Verdict.

An English coroner had directed the jury in a suicide case to find a verdict of felo de se. "Well, chaps," said the foreman of the jury when they had retired to consider the verdict, "it appears to me that this 'ere chap shot 'isself with a gun after shootin' another chap with a gun, but Dr. Jones, the coroner, who we all know and highly respect, 'e says that this 'ere chap fell in the sea. Well, it ain't for the likes of us to go arguin' the point with the doctor, for 'e knows more about it than we do. So, I propose we find a verdict of found drowned"—and they did.

A Courteous Pirate.

That even a Chinese pirate may have a strong idea of chivalry is proved by the following excerpt from an item in the North China Daily News: "The launch at once stopped when ordered to do so. The leader of the pirates was then heard to order his men that they were not to molest any one on board who voluntarily handed over his or her valuables. Among the passengers, however, were a father and son, the latter of whom, it seemed, was a little too slow in obeying the pirates' order to hand over his money, with the result that he was shot. Upon hearing the shot the pirate chief, who was on deck, came down into the cabin and, seeing the father of the unlucky young man lamenting over his son's death, addressed the old man and condoled with him on his son's unfortunate and 'undeserved' death. The chief finally brought out of his pocket a roll of $200 and handed the sum to the old man as a solatium, bidding him to refrain from further lamentations."

Do Animals Dream?

Much research and investigation warrant the assertion that man is not the only animal subject to dreams. Horses neigh and rear upon their hind feet while fast asleep; dogs bark and growl and in many other ways exhibit all their characteristic passions. It is highly probable that at such times the remembrance of the chase or of a combat is passing through the dogs' minds. Besides the above signs of fleeting pain, anger and excitement these noble creatures often manifest signs of tenderness, playfulness and of almost every other passion. Ruminant animals, such as the sheep and the cow, are believed to be less affected with dreams than those of higher passions which spend their waking hours in scenes of greater excitement.

Philosophers and investigators tell us that if we trace the dream faculty still lower in the scale of animal life we shall probably find that the same phenomena exist, and judging from analogy it is only reasonable to reckon dreaming as one of the universal laws—almost as universal as sleep itself.

Kindness.

Be kind no matter if you are on the honest run to catch your interests in life. While you run let your fleeting presence prove a blessing to those whom you must pass in the race to reach the goal. Leave behind you a trail of golden remembrances of words and smiles of good cheer that have cost you nothing at all in self sacrifice or money or physical strength or mental effort.

A RAISE IN MINING STOCK

ALLOTMENT SUBSCRIBED.

The requisite amount of stock has been subscribed and paid in full to enable the Company to proceed to allotment and commence business.

RAISE OF MINING STOCK.

THE GREAT NORTHERN LARDER LAKE MINING CO., Limited, proposes to advance price of their treasury stock to Twenty-five (25c) cents on June 22nd. Last chance to buy at ten cents a share, par value One Dollar, fully paid up and non-assessable.

The foreman, Mr. David Foster, of Cobalt, has started to work on the Company's property with a gang of men to develop veins already discovered, also to continue striping in search of new gold veins.

We are erecting boarding houses and dining-rooms for our men.

READ COPY OF CERTIFICATE AND STATUTORY DECLARATION CONFIRMING SAME.

Toronto, March 26th, 1908.

To the Great Northern Larder Lake Mining Company, Limited:—

Gentlemen,—

I beg to confirm my previous report to you that in my judgment the surface showings on the 14 mining claims which the Company has acquired, being Nos. H.R. 221 to H. R. 234, both inclusive indicate the probability of the existence of large bodies of both high grade and low grade free-milling ore, sufficient to pay dividends for an indefinite period.

I have personally examined a number of veins and reefs on said property (consisting of about 640 acres) and had some assays made and from such examinations and assays I make this report.

The statement on pages nine and ten of the Prospectus giving the short history of the Company are correct. I insisted on retaining a large interest in the Company rather than sell for any price that seemed reasonable to the purchasers.

DAVID A. FOSTER,
Haileybury.

IN THE MATTER OF THE GREAT NORTHERN LARDER LAKE MINING CO., LTD.

Statutory Declaration.

DOMINION OF CANADA
County of York,
TO WIT:

I, David Foster, of the town of Haileybury, in the district of Nipissing, miner, do solemnly declare that the statements in the annexed certificate are true. I have personally inspected all of the fourteen claims now transferred to the Great Northern Larder Lake Mining Company, Limited. I have taken samples containing gold values from said property, and from my personal examination, and from assays made, I believe the Company's property when developed, will prove very valuable. I have full confidence in the success of the said Company, and on this account, with the exception of $440 already received, I have agreed to accept stock in said Company, and a note which I believe will not be of much value should the actual development work not prove the said claims to contain gold in paying quantities as it is not payable for one year from this date or until after the Company shall have done the necessary development work on said claims. And I make this solemn declaration conscientiously believing it to be true and knowing that it is of the same force and effect as if made under oath, and by virtue of "The Canada Evidence Act."

DAVID A. FOSTER.

Declared before me at Toronto, in the County of York, this 31st day of March, 1908. J. T. LOFTUS, A. Commissioner in H. C. J.

PROPERTIES TRANSFERRED.

Since the prospectus was printed, the sale of the 14 mining claims to the Company has been completed and the transfers to the Company are registered in the Recorder's Office at Larder City. There is no mortgage or other encumbrance against said claims.

10c. PER SHARE.

Par Value One Dollar fully paid Up and Nonassessable.

OFFER IN PLAIN WORDS

$ 5.00 buys	50 shares, par value	$ 50.00	$ 10.00 buys	100 shares, par value	$ 100.00

Cow Running at Large.

On Saturday evening as the citizens were doing their shopping a cow was parading the main thoroughfare, evidently taking in the sights. It caused considerable amusement for the passersby.

SATURDAY, JUNE 27TH, 1908.

TOBACCO POISON.

If You Must Smoke, Puff Your Cigar or Pipe Leisurely.

That it is much more injurious to smoke quickly than slowly is the conclusion arrived at by two Austrian scientists after careful study and experiment.

The two professors—Dr. Liebermann and Dr. Davidovics—tested pieces of cotton which had been placed in the mouthpieces of pipes and cigar holders and found them covered with yellowish brown flecks. These were found to be of a tarry nature, produced during the process of combustion, and highly poisonous.

It was found also that two cigars of the same brand and strength often produced differing degrees of discoloration of the cotton. Further investigation showed that these differences were due to the length of time occupied in smoking. The same weight of tobacco smoked in five minutes produced nearly three times as many yellowish brown spots as if it were smoked in fifteen minutes. The professors therefore concluded that a rapid smoker inhaled a much larger quantity of poisonous substances, to the consequent injury of his health, than does his more phlegmatic colleagues.—Pall Mall Gazette.

RAWHIDE-DULZURA

1 CENT A 2 SHARE

Send us your name as a member in this new company, with your remittance for as many thousand shares as you can take at $5 per thousand.

This is a short-time offer on a hurry-up proposition. Our vice president is up at Rawhide now putting the miners at work. We want to raise the necessary funds for development as quickly as possible. Therefore, we offer the first block of stock at $5 a thousand shares. This subscription must be all cash. We want the money in hand. We mean to work without let-up, and we have made it an ironclad rule not to run in debt. Cash counts now.

Our prospectuses are out. Send for one.

Make reservation of stock, if you do no more. But, remember, this present offer of stock at Half a Cent a Share is now open and will be closed as soon as enough cash subscriptions are in hand. Don't wait, or you will get left.

The gold mining property owned outright by the company consists of 7 claims, 5 in the Rawhide district of Nevada, and 2 in the Dulzura district of Southern California.

The Rawhide district to-day is more famous than Goldfield, Tonapah, Bullfrog, or Searchlight were at the same stage of exploration and development. The Dulzura discovery is one of the most sensational in the history of California.

Ten samples of ore which were among the first assayed, run as high as $7,461.87 to the ton, and all ten averaged over $1,-640 a ton.

In both camps we located early, and our locations are choice. Our own officers will superintend the mining.

Rawhide-Dulzura Gold Mining Company

122 West Third Street, Los Angeles, Cal.

Remember This

A Thorough Cleansing of the System Now is a Sure Protection against Spring and Summer Sickness.

After the long hard winter, system cleansing is badly needed. The blood must be purged and purified, otherwise pent-up impurities will burst through the skin and all through the summer you'll be tormented with rashes, pimples, humors and boils.

The best of all blood purifiers, and at the same time an unequalled tonic and appetizer, is Dr. Hamilton's Pills; they will build up, aid the digestion of food, keep the system vigorous, healthy, strong. Being mild and pleasant in action, you need not hesitate to use Dr. Hamilton's Pills. Take them at night—note the difference in the morning, how fresh, bright and well you feel. No surer health bringer and health keeper known than Dr. Hamilton's Pills. Get a 25c. box today At all dealers.

Had His Nose Broken

In the City League game at the Oval last night between the Y.M.C.A. and Wellington, Stanley McCabe of the Y.M.C.A., was hit with the ball and had his nose broken.

Have Not Decided to Build yet

The Peterborough Cereal Company's shareholders held a meeting on Saturday night, but on account of a great number of the shareholders being away the question of rebuilding was not dealt with. Another meeting of the shareholders will be called soon.

District Convention

—The Maccabees will hold a district convention today in the Orange Hall, about 65 or 70 delegates will be present. The first session is this morning at 10 o'clock. All the members of Lift Lock Tent, Peterborough, are cordially invited to attend the convention, which will be in session for two days.

Horse Electrocuted

A horse belonging to the Peterborough Lumber Co., while passing through the lane in the rear of Gibbs livery stable came in contact with a few wire hanging from a shed. As soon as the wire touched the horse the animal fell. Dr. Poole was called, but the horse was dead when he arrived.

Weak women should try Dr. Shoop's Night Cure. These soothing, healing, antiseptic suppositories go direct to the seat of these weaknesses. My "Book No. 4 For Women" contains many valuable hints to women, and it is free. Ask Dr. Shoop, Racine, Wis. to mail it. Ask the Doctor in strictest confidence, any questions you wish answered. Dr. Shoop's Night cure is sold by all dealers.

Weekly Drill Tonight

The weekly drill of the 57th Regiment, will be held in Riverside Park tonight. The both bands and all the corps will be in attendance. This is the last parade before inspection and a large turnout is requested. The inspection will take place on Thursday night when Col. Gordon, D.O.C., will be in attendance. Orders for the inspection will be issued after drill tonight.

Hotelkeeper was Fined $30

Yesterday morning at the police court a local hotel keeper was fined $30 and costs by Magistrate Dumble for selling liquor to a person on the Indian list. The magistrate said that the determining of identity of persons on the Indian list fell upon the hotel keeper.

Chas. Healey testified that he was on the black list and had been served with liquor by the defendant on Wednesday last.

Inspector Stewart gave evidence as to the black listing of Healey and the service of notice upon the defendant.

The defendant admitted serving Healey with liquor, but stated that he did not know that he was the black-listed person until afterwards.

The magistrate held that the proprietor of the hotel was bound to make enquiries as to the identity of every black-listed person, and that the responsibility fell upon Mr. The maximum penalty for the offence is $50 and the magistrate inflicted a fine of $30 with costs, amounting to $4.15. Mr. W. D. Kerr appeared for the defendant.

Since Chief Black Cloud has come to town, many people have tried his Blood Purifier, and Results have Delighted them in case derangement of the stomach liver kidney and blood. Will be here all summer and manufacture his medicines, made from roots, herbes and barks. Take the car and call on him at

Fire Brigade Question Settled at Last

Will Consist of Chief, Assistant Chief, Engineer and Eight Permanent Men—Eleven Men All Told--No Call Men

The city fathers met in special session last night. There were present.. Mayor Henry, Rush, and Aldermen Morrow, Neill, Turner, Gilmour, McIntyre, Morgan, Tovey, Johnston, Buller.

Several applications for appointment on the new fire brigade staff were received.

Ald. Johnston submitted the report of the proceedings of the Fire, Water and Light Committee, transacted Monday night, and as published in yesterday's Times. This dealt with the matter of firemen's salaries.

Ald. Morrow moved, seconded by Ald. Neill,—That the report be amended to provide for the brigade being composed of a chief, assistant chief, an engineer (this man to act also as a fireman) at $600 a year, eight permanent firemen, and no call men. The report adopted Monday night by the committee, provided for six permanent firemen, including the engineer and six call men. But both the committee and Chief Howard have since concluded the amendment moved by Ald. Morrow to be in the best interests of the city.

Aldermen Johnston and Morgan, both urged that as Mr. Pinkham could qualify as an engineer, he be appointed assistant chief.

Ald. Buller would like to see Pinkham have this appointment, but he would not advise the council to interfere with the chief in the appointment of his subordinates.

Ald. Morrow acquiesced in these views.

Ald. Morrow's amendment here carried and the report was then adopted as amended.

STRENGTH OF BRIGADE

In accordance with the above amended report the brigade will consist of eleven permanent men and no call men. Their salaries will be as follows;—

Chief	$1250
Assistant Chief	700
Engineer	600
Eight permanent men at $550 each	4400
	$6950

The above will be the maximum cost of the brigade in salaries. Should each of the firemen be graded as second year men which is not likely to be the case. Any of the present firemen engaged are to receive second grade pay, $650, therefore the above estimate is based on the highest figure. First year men are to receive $500 a year, second year men $550, and third year men, $575, as recommended by the committee on Monday night.

Ald. Morrow in moving his amendment to the report, was actuated by a desire to give Chief Howard a fair chance with a good workable brigade of permanent men alone, and to establish the measure on a firm and definit footing at once. Then it should be borne in mind that increasing the number of permanent men from six to eight, with no call men, will only mean an increase of $200 above the recommendation of Monday night's committee, even should all the eight permanent men receive second grade pay, which is not likely. In fact it is pretty safe to say that at least two of these eight will be graded as first year men at $500 a year, which would mean that Ald. Morrow's carried amendment entails but an increase of $100, and if any further reduction in the number of second year men to first year grade, which is possible, would effect an additional saving of $50 a year each man so graded.

ONE COMPARISON.

The following comprative figur a speak for themselves;

The Amendment—

Eight permanent men at $550 (maximum)	$ 4400
Six permanent men at $550.....	3300
Six call men at $150	900
	$8200
Increase by amendment	$200

ANOTHER COMPARISON.

The fairest comparison between the report and the amendment is as follows;

The Amendment—

Six permanent men at $550.....	3300
Two permanent men at $500.....	1000
	$4300

The Report—

Six permanent men at $550.....	3300
Six call men at $150	900
	$4200
Increase by amendment	$100

From what we can learn it is quite probable that the latter comparison is the proper one to make, as in all likelihood, six second grade and two first grade men will be appointed.

And since a permanent brigade is to be organized it is perhaps far better to have it a wholly permanent one than a mixed organization.

A bylaw legalizing the above proceedings was passed, and the new brigade will come into force July 1st next.

The pay will be paid twice a month.

WEIGHING OF COAL.

Ald. Morgan gave notice of motion that he will move at next meeting that a bylaw be prepared to provide that all coal delivered in a wagon or other vehicle of a ton weight or over, be weighed on the public scales, free of charge to the consumers.

Ald. Buller—"If this is carried the cost of weighing coal will be charged up to the consumers which will prove a hardship to the poor."

Ald. Morgan—"Even if they do pay a few cents more the people will know that they get proper weight. Coal is the only commodity over the weight of which the people have no control whatever."

LONDON STREET BRIDGE.

The London street bridge will be closed to rigs, but pedestrians may use it at their own risk.

NERVOUS DEBILITY

Thousands of young and middle aged men are annually swept to a premature grave through EARLY INDISCRETIONS, EXCESSES AND BLOOD DISEASES. If you have any of the following symptoms consult us before it is too late. Are you nervous and weak, despondent and gloomy, specks before the eyes, with dark circles under them, weak back, kidneys irritable, palpitation of the heart, bashful, dreams and losses, sediment in urine, pimples on the face, eyes sunken, hollow cheeks careworn expression, poor memory, lifeless, distrustful, lack energy and strength, tired mornings restless nights, changeable moods, weak manhood, premature decay, bone pains, hair loose, sore throat etc.

BLOOD POISONS Blood Poisons are the most prevalent and most serious diseases. They sap the very life blood of the victim, and unless entirely eradicated from the system may affect the future generation. Beware of Mercury. It only suppresses the symptoms—OUR NEW METHOD cures them.

OUR NEW METHOD TREATMENT alone can cure you, and make a man of you. Under its influence the brain becomes active, the blood purified so that all pimples, blotches, and ulcers disappear, the nerves become strong as steel, so that nervousness, bashfulness and despondency vanish, the eye becomes bright the face full and clear, energy returns to the body, and the moral, physical, and vital systems are invigorated, all drains cease—no more vital waste from the system. Dont let quacks and fakirs rob you of your hard earned dollars. We will cure you or no pay.

READER No matter who has treated you, write for an honest opinion Free of Charge. BOOKS FREE—"The Golden Monitor" (Illustrated)

Orange Celebration Will Break Records

5,000 Orangemen and Their Friends Will Be Here to Celebrate the 12th--Great Preparations Being Made

Great preparations are being made for the Twelfth of July celebration in Peterborough this year. On account of the 12th coming on a Sunday, the celebration will be held on Monday, July 13, when it is expected that five thousand Orangemen and their friends will be in the city. It will be a "Glorious Twelfth" for the Orangemen of this and neighboring counties.

Invitations have been sent to Orange lodges all over the Province, and several special trains will be run on the 12th.

As Toronto is celebrating on Saturday, the 11th, many will come down here on the Monday.

A special will be run from Havelock on the C.P.R., and it is expected from Lindsay, Belleville, and Port Hope on the G.T.R. Each place will send large numbers, and from all intervening points hundreds of people will come. Some will arrive on the boats, those from down the river and others from the back lakes.

Apsley Lodge is going to run an excursion by steamer to Lakefield, and then by train to Peterborough.

It is four years since the anniversary of the battle of the Boyne has been celebrated here. The city on that occasion was crowded, but this year's celebration will greatly outdo it.

The great parade will take place at 2.30 o'clock from the Central Park through the principal streets.

At a recent meeting of the Orangemen in their hall on Simcoe street the following committees were appointed;

Printing and Program — Messrs. W. H. B. Armstrong, E. G. Clark and R. E. Juby.

Decoration—Messrs. H. T. Everett, C. E. Wiley, F. G. Allen, and S. Hopkins.

Park—Messrs. G. W. Williamson, H. Patterson, C. Burnie, A. E. Weir, and Geo. Barthy.

Subscriptions—Col. J. W. Miller and W. A. Kincaid.

Reception—Messrs. Jos. Jones, J. B. McWilliams, Jos. Batten.

The several committees have power to add to their number any members they may desire.

The next meeting will be held on Saturday, June 27th.

Premier Surpised At the Indignities

Ottawa, June 23.—At the opening of the House today Mr. Edmund Bristol brought up the matter of the treatment of naturalized Canadians at Niagara Falls last week, reading the press reports of the incident. He added that he did not believe that this was an isolated case, and brought the matter to the attention of Sir Wilfrid Laurier.

The Prime Minister stated that he had seen the reports and had hoped at first that they were exaggerated, but the reports so agreed that there seemed some foundation for them, and it seemed Canadian and British subjects had suffered indignities. He could not see what the motive could be, as our relations with the United States were cordial and friendly; it was possible that some parties had been over zealous. He would ask the British ambassador at Washington to draw the attention of the authorities to the incident.

Thinks New Chief Will Be All Right

Mr. J. H. Saunders, alderman, and Mr. W. D. Fitzgerald, ex-chairman of the Board of Education, London, Ont., who are in the city attending the executive meeting of the Woodmen of the World, speak in terms of high praise of the new chief of the Peterborough Fire Brigade, who was formerly a member of the London brigade. Mr. Fitzgerald, in speaking to a representative of the press, said that the appointment was a most satisfactory one. Mr. Howard, he stated, was a good fireman and a strict disciplinarian and had been most popular in London. He was sure that he would give great satisfaction here.

John Porter of Cavan Meets Death

On Monday while raising a barn on the farm of John Douglas, on the 4th line of Cavan, John Porter met his death by a beam falling on him. The late Mr Porter was 55 years of age, and one of the pioneer residents of Cavan.

He is survived by a widow and two daughters, Mrs. Todd, of Bailieboro, and an unmarried daughter at home. He was a Presbyterian in religion.

The funeral will take place today from the family residence, 4th line, Cavan, to the Centreville cemetery.

Canadians to Hold Practice

London, June 23.—The Canadian athletes, Parkes, Buddo and Tait, are entered in the 600-yard handicap at the London Athletic Club games at Stamford Bridge on Saturday. Kerr and Buddo are entered in the 100-yard handicap; Kerr and Sebert in the 300-yard relay race. In the relay team race Kerr, Sebert, Buddo and Lukeman are entered. McCarthy has entered the quarter-mile, the mile and the five-mile handicap at the National Cycle Union meet.

Religion and Science

London, June 24.—The delegates to the Pan-Anglican Congress filled Albert Hall last night to hear ex-Premier Balfour in a discussion on "Christian Truth and Other Intellectual Forces."

Mr. Balfour said that he could not conceive of human society being permanently deprived of the religious element, but he looked to science more than to anything else as the great ameliorator of the human lot in the future. If he had to believe that the two great powers, religion and science, were in antagonism, it would be impossible for him to avoid that hopeless despair, which deprives labor of all its fruits and makes efforts for the betterment of mankind impossible.

Do You Open Your Mouth

Like a young bird and gulp down whatever food or medicine may be offered you? Or, do you want to know something of the composition and character of that which you take into your stomach whether as food or medicine?

Most intelligent and sensible people now-a-days insist on knowing what they employ whether as food or as medicine. Dr. Pierce believes they have a perfect right to insist upon such knowledge, so he publishes, broadcast and on each bottle-wrapper, what his medicines are made of and vouches for them. This he feels he can well afford to do because the more the ingredients of which his medicines are made are studied and understood the more will their superior curative virtues be appreciated.

For the cure of woman's peculiar weaknesses, irregularities and derangements, giving rise to frequent headaches, backache, dragging-down pain or distress in lower abdominal or pelvic region, accompanied, oftimes, with a debilitating, pelvic, catarrhal drain and kindred symptoms of weakness, Dr. Pierce's Favorite Prescription is a most efficient remedy. It is equally effective in curing painful periods, in giving strength to nursing mothers and in preparing the system of the expectant mother for baby's coming, thus rendering childbirth safe and comparatively painless. The "Favorite Prescription" is a most potent, strengthening tonic to the general system and to the organs distinctly feminine in particular. It is also a soothing and invigorating nervine and cures nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea or St. Vitus's dance, and other distressing nervous symptoms attendant upon functional and organic diseases of the distinctly feminine organs.

A host of medical authorities of all the several schools of practice, recommend each of the several ingredients of which "Favorite Prescription" is made for the cure of the diseases for which it is claimed to be a cure. You may read what they say for yourself by sending a postal card request for a free booklet of extracts from the leading authorities, to Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and it will come to you by return post.

POLICE

A resident of the north end was before Magistrate Dumble yesterday for neglecting to pay his dog tax. He appeared before, and was fined $4.95, but owing to some dispute the case was adjourned another hearing. The defendant was represented by Mr. A. N. Hendon, and pleaded not guilty. How ever, after several witnesses had been heard, his Worship let his previous judgment stand unchanged.

Two boys away to having seen the dog in question around he premises for over a month.

The defence attempted to show that the canine, when first seen by Mr. Batty was not on the third of June, but belonging to him, as he had said it two days previous. This was considerable discussion on the matter, but his worship's judgment remained unaltered.

Labor Refuses to Endorse Taft

New York, June 23.—The members of the Central Federated Union yesterday discussed Taft's nomination and the labor plank as adopted by the Republican convention.

Rudolph Modest, delegate of the Cigarmakers—Taft is the representative of the money bags and trusts, and he won't get many labor votes. The workmen won't be able to get their just rights from a man, who, when judge, granted the first injunction against a labor organization. No, Taft will not do.

William A. Conklin, delegate of the Photographic Apparatus—Taft's past record against labor would have been overlooked had the convention adopted the labor plank as advocated by Samuel Gompers.

Abe Hummans of the Pressmen's Union—In declaring that plank as to speak at all—I feel as against that as the effect of the injunction.

Frank Ellrick, of the Machinists—Taft will get Taft a most fight ticket on his record and on account of the platform adopted.

James Wallace, of the Asphalt Workers—The injunction plank stands will put Taft on the shelves with organized labor, and it will have much to answer at the polls on election day and see the stump.

Hugh Frayne, of the Amalgamated Woodworkers—Although I am a Republican, I will vote and work against Taft. Taft ought to be defeated, and a union man who votes for him should be expelled from his organization.

Minna Howard, of the Cannon Workers—We would have overlooked the fact that Taft was the judge who granted the first injunction had the convention adopted the Gompers labor plank, but turned down as we were, we will do everything to keep Taft's labor record green in the memory of the working people.

James P. Holland, of the Eccentric Sawmakers Union—I will first see who the Democrats nominate before I will express any opinions about Taft.

Herman Grossman, of the Garment Workers—We were entitled to fair treatment from the Republican convention, for labor is getting educated.

Elias Wolf, of the Cigarmakers—Labor will have much to say in the coming campaign. The Republicans have given us Taft, who will be a tough pill for the workers to swallow, but we must wait and see what kind of a dose will be handed out by the Democratic convention.

Dudley-Reid Wedding To-Day

London, June 23.—With King Edward and Queen Alexandra sending approval from their private gallery, Miss Jean Reid, daughter of the Hon Whitelaw Reid, the United States Ambassador to Great Britain, was married this afternoon in the Chapel Royal of St. James's Palace to the Hon John Hubert Ward, brother of the Earl of Dudley, and equerry-in-waiting to the King. The ancient chapel, one of the few remains of the old palace of the Tudors, in which Queen Victoria and several of her daughters were married, was prettily decorated with flowers for the occasion.

The invitations were limited to less than one hundred on account of the smallness of the church. A few minutes before three o'clock, King Edward and Queen Alexandra, accompanied by their suites, drove up from Buckingham Palace and proceeded at once to the Royal gallery, where the Prince and Princess of Wales, the Duke and Duchess of Connaught and Princess Patricia already had arrived. The officiating clergymen, accompanied by a surpliced choir, met the bridal procession at the door, and preceded it to the chapel, the choir singing "Lead Us, Heavenly Father, Lead Us." The Rev. Edgar Sheppard, Canon of St George's Chapel, Windsor, officiated. He was assisted by the Rev. William Grosvenor, rector of the Church of the Incarnation, New York, of which Mr. and Mrs. Reid have been members for many years, and the Rev. Hora Claughton, rector of Hutton-Bryan-wood, a cousin of the groom. The bride's dress was of soft white satin, trimmed with old rose point lace, given by her grandmother. The fronts of the skirt and waist were practically covered with this lace, which was caught up with tiny white rose-buds and orange blossoms. The court train was of the same material as the dress, and like it was trimmed with rose point lace. The veil, too, had a lace center and edging, and was held by a wreath of orange blossoms. The bride wore but three pieces of jewelry, and these were all old-fashioned brooches, the wedding presents of King Edward, Queen Alexandra and Mr. Ward.

Miss Jeanie Crocker of San Francisco, a cousin of the bride, attended her, and was the only bridesmaid. There were also in attendance, five little children, two boys and three girls, all in quaint costumes of blue and white.

Electrocute a Woman

Watertown, N.Y., June 24.—Guilty of murder in the first degree, was the verdict of the jury in the case of Mrs. Mary Farmer, charged with the killing of Mrs. Sarah Brennan, April 23. Justice Rogers sentenced Mrs. Farmer to be electrocuted at Auburn, prison during the week beginning August 3.

Mrs. Farmer's victim, Mrs. Brennan, was her neighbor and intimate friend, and the motive was to gain possession of the Brennan home, deeds of which Mrs. Farmer had forged in October. Mrs. Brennan was hacked to pieces with a hatchet, and her body jammed in a trunk.

Cornwall Has a Greet Disaster

Loss of Half a Million Results from a Serious Break in the Canal--Traffic Tied Up--Pier Gave Away

Cornwall, June 23.—The 200-foot swing bridge of the Ontario and New York Railway, crossing the Cornwall Canal, is a mass of twisted iron, lying on top of its demolished pier, the bank of the canal has a gap right 150 or 175 feet wide and 35 feet deep. Navigation of the canal is tied up and will be for several weeks, and international traffic on the railway will be interrupted for a long period. Besides this several local industries that were using water power are closed down.

All this was caused by a break in the bank of the canal this morning. When first noticed by the lockmen of Lock 18 the hole was about two or three feet in diameter, some 50 feet west of the railway bridge. The canal bank is over 100 feet thick at the bottom at this point, about 40 feet at the top and faced with heavy stone pitching on both sides. Once the water got a start, however, the hole grew rapidly, and in half an hour the canal was pouring down into the river, which is 25 feet lower. This powerful current, which swept huge blocks of stone out into the river like so many chips, soon undermined the pier on which the railway bridge swung, and at 9 a.m. it slipped out at the bottom and came down in a pile.

The shock seemed to break the back of the bridge, which fell in a tangled mass on top of the remnants of the pier.

Lockmaster Alex. Eames sent word of the danger up and down the canal as soon as the break was noticed and the upper levels were cut off at once and the level below lowered with all possible speed. In spite of these precautions when the broken level got low enough the water from the level below forced the gates open and augmented the flood.

The poles of the St. Lawrence Power Co., which carries power into the town were left dangling from the wires.

STEAMER JUST PASSED.

The steamer Samuel Marshall had just passed up the level and made track 19 hours the water lowered too much on the lower level.

Mr. J. L. Weller, superintendent of the Welland Canal, is coming down to superintend the repairs to the canal.

Just what the Ontario and New York will do is not yet known. The wrecked pier was at the south side of the canal and the swing bridge which it carried was over 200 feet long and 30 odd feet above the water.

The Toronto Paper Co's mills are closed in consequence of the break, and the cotton mills are temporarily closed.

It is difficult to estimate the damage, but the accident will ultimately cause a loss of probably over $500,000.

Ottawa, June 23.—Hon. Geo. Graham, in the House today, said that the loss at Cornwall would be many, not only to the country at large, but to the shipping interests. Through traffic on the railway also would be blocked. The Minister said that he was handicapped by the fact that the chief engineer of the canal was in the hospital. Meanwhile there is no explanation of the break. The spot was under the usual examination by the overseer last night, and nothing wrong was noticed. It is impossible to say how long the repairs will take.

GRAIN MEN ARE EXCITED

Cornwall, June 23.—The Corn Exchange Association has called a general meeting of members for tomorrow afternoon to discuss the situation caused by the break in the Cornwall Canal and the consequent stoppage of navigation. Local grain men and shipping companies are excited over the news, and the break was the chief topic of conversation on Change this morning. The general opinion seems to prevail that the statement as to the length of time that will be required to repair the damage is exaggerated, and that the accident, while it will cause inconvenience, will not result in any serious damage to trade.

Tara, June 23.—Mr. D. McKechnie, aged 50, was caught by a circular saw and his body was nearly cut in two.

Longboat's Entry Has Not Been Refused

London, June 23.—Lord Desborough speaking to the Canadian Associated Press, said that he had heard nothing as regard to the refusal of Tom Longboat's entry for the Marathon race. He believed there had been some trouble across the water, but he had no wish to create trouble here. He declared that he had received no objections to Longboat's entry as a matter of fact.

Mr. P. L. Fisher, honorable secretary of the Amateur Athletic Association, also informed the Canadian Associated Press that the Association had not received any objections to Longboat's entry, and that before the Amateur Athletic Association could notice such objections they must be in the shape of a specific charge. Mr. Fisher knows nothing in regard to the rumors emanating from New York sources. The rumors that Longboat's entry has been refused by the Amateur Athletic Association came as a great surprise to him.

Wonder how this will strike Boss Sullivan, Czar of the Amateur Athlete Union, and the yellow journals of New York, which wanted to win the Marathon race on the committee rooms instead of on a fair contest? Canadians can now take it for granted that the English Olympic Committee will not be so anxious to win honors for American athletics, as

THE TRENT VALLEY NAVIGATION COMPANY, LIMITED

TIME-TABLE for season 1908

Between Lindsay and Sturgeon Point

From June 15th to June 28th (Sundays excepted) a Double Daily Service leaving Sturgeon Point at 7.15 a. m. and 2.45 p.m., returning leaves Lindsay at 11.00 a. m. and 6.30 p.m. Trent Valley Act.

Between Lindsay, Sturgeon Point and Bobcaygeon

From July 1st to August 29th (Sundays excepted) a Triple Daily Service between Lindsay and Sturgeon Point, leaving Lindsay at 11.00 a.m. 2.30 p.m. and 6.45 p.m., and leaving Sturgeon Point at 7.15 a. m. 12.45 p.m. and 4.30 p. m.

Single Daily Service between Lindsay and Bobcaygeon, leaving Lindsay at 5.45 p. m. and Bobcaygeon at 6.15 a. m.

NOTE:—On Mondays, Boat will leave Bobcaygeon at 5.45 a. m. and Sturgeon Point at 6.45 a. m. to make early train connections.

On Saturdays, Boat will await arrival of evening trains from Toronto and Port Hope.

Between Bobcaygeon, Chemong and Burleigh Falls

From June 9th to Sept. 12th (Sundays excepted) a Daily Service leaving Bobcaygeon at 7.00 a. m., Chemong at 9.30 a. m., arriving Burleigh Falls at 12.30 p. m.; returning leaves Burleigh Falls at 1.00 p. m., Chemong Park at 5.00 p. m., arriving Bobcaygeon at 7.45 p. m.

NOTE:—Connections at Burleigh Falls for Lakefield and Stony Lake Points. Bus connection at Chemong to and from Peterborough both morning and evening.

and tickets apply to W. Burton, Peterborough Agent, or to the Company's Offices, Bobcaygeon, Ont.

GAINED BOTH IN STRENGTH AND WEIGHT

Another Case That Proves The Merit of

Ferrozone

"I was in poor health nearly all last winter," writes Mrs. Cross, of Wakefield, Ont. "My appetite was variable, I was weak and unfit for work. I suffered a good deal from nervous prostration and palpitation of the heart. My digestion was generally out of order. By springtime I had lost flesh, color, and had a bad cough. The doctor didn't help me very much, so I decided to try Ferrozone. It did me ever so much good in one week. I gained strength, looked and felt a lot better. When I had used six boxes of Ferrozone I weighed myself and found a gain of fifteen pounds. Ferrozone rebuilt my constitution, and made me a new woman. I consider Ferrozone worth its weight in gold to every weak woman. It cures quickly and saves big doctors' bills. (MRS.) R. CROSS."

No tonic so certain, so helpful, so safe; try Ferrozone yourself, 50c per box at all dealers.

Morning Times

published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

GOOD CROPS ; GOOD TIMES

Evidently Canada will this year revel in the prosperity productive of good crops. From east and west, from the middle provinces of Ontario and Quebec the news is the same. Promise is given to the greatest crop in the history of the Dominion.

A pleasing feature of this condition of affairs is the fact that every province of the Dominion will contribute to this record. It is seldom this can be claimed, as favorable weather conditions do not always obtain in all the provinces, but this year has proved the exception.

In Ontario this year an increase of [illegible] bushels of grain over last year and an increase of 15,[illegible] tons of hay is anticipated. This means an increase in crop values of $[illegible]. The increase was needed by the Ontario farmer, for by last year's bad crop he lost $[illegible]. With a good crop this year he will wipe out last year's loss and be able to put considerable away in the bank.

In the province of Quebec the yield of grain crops this year is expected to be fully one-third better than in 1907. In addition to this 1908 promises to be a bumper year for the dairying industry, in which Quebec, the Eastern Townships particularly, is so vitally interested.

In the Maritime provinces the acreage is not only larger, but the production of the tilled fields promises to be exceptional.

Of the Western provinces there has never been such glowing reports. There has been no frost to injure the growing grain, and because of this, even the most optimistic predictions can almost be accepted at par. The West will undoubtedly produce 100,000,000 bushels, and it would not be surprising if that figure would be exceeded if favorable weather conditions continue until the crop is harvested and threshed.

Altogether Canada's crops will probably exceed in value the $350,000,000 crop of 1906. The benefit the country will derive is apparent, for with the return of good crops will return good times.—Ottawa Free Press.

FACTORY INSPECTORS.

Toronto, June 26.—With the election and installation of officers and the selection of a place for holding the next convention, the twenty-second annual meeting of the International Association of Factory Inspectors will come to a close this afternoon. The principal object of the association is to promote uniformity in general laws of the different states and provinces, and much has been accomplished at the present session to accomplish this end.

Beware of Ointments for Catarrh that contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surface. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

NEW CHURCH ATTRACTIONS

Religion has its periods of depression, as well as business, and both of them have recourse to extraordinary measures. The financial world resorts to an emergency currency, and the churches to smoking-rooms, boxing contests and dancing parties. Those church attractions have received two novel additions within the last week, one in Chicago and one in the East.

A west side pastor announced to his people last Sunday that he intended to provide a "courting parlor" for the young people of his congregation. "It will supplant the rear garden and other objectionable meeting places," he said. "Courtship is one of the real delights of our younger lives, and I intend to make it possible for the young men and young women of my church to hold honorable courtship."

It is to be hoped that the pastor will succeed in his enterprise, but most young people would regard a courtship in public as a tasteless affair. It is true that in European countries all courting is done in the presence of a chaperon, but if the pastor can induce American young couples to do their spooning in a roomful of such couples he will deserve credit for uncommon tact.

A pastor in Little Falls, N. Y., whose announcement was made last Sunday also, is to impart attractiveness to his services by making public on one Sunday in every month all the gossip that has been retailed during that month by twelve of the most accomplished gossips in the town. He is to give the names of the gossips, but not the names of the people gossiped about.

Whether the courting parlor of the first pastor is well filled or not, there is not a shadow of a doubt that the pulpit gossip will draw full congregations. The only question is whether the pastor will be able to get out of the house alive. It will be impossible to repeat the gossip without indicating, with reasonable clearness the particular persons referred to, and if this does not sadly interfere with the loving spirit of religion human nature must be different in Little Falls from what it is elsewhere.

It looks to The Times as if the greatest possible Attraction in any church is a pastor who thoroughly believes in the religion he preaches and is devoted to the spiritual welfare of his flock.

GIRL MISSING FOR FIVE DAYS

Relatives Believe Little One Has Been Murdered and Body Hidden

Port Arthur, June 22.—Search for Olive Dupray is still fruitless, though a large number of men have scoured the woods in every direction. Hope now of finding her alive has been abandoned, unless it is a kidnapping case, which is highly improbable. They are only looking to find the body now.

MISSING FIVE DAYS.

Port Arthur, Ont., June 22.—It is now five days since pretty little Olive Dupray disappeared from No. 96, C.P.R. train at this place, and the case is as deep a mystery as though the earth had opened up and swallowed the child. Searching parties have been organized, and systematically traced the bush for miles around. Beacon fires have been lighted. The constant whistling of trains have been kept up to attract the attention of the lost girl, if she be alive. Dogs are busily engaged scenting the ground for miles. The lake around are being dynamited, and, as yet, not the slightest trace of the missing child has been found.

Saturday night about 175 men organized a systematic search. They were composed of the extra gang of were men and bridge men, and for four miles west and from lake to lake, every inch of ground was fruitlessly gone over. Not a thread was found shedding light on the child's fate. Not a sound was heard to give encouragement. The anxious father has not slept for two days, and is loath to give up the search. Pine Lake is being dynamited from end to end. Both the father and the brother-in-law are of the opinion that there is foul play. The day the girl was missed several suspicious tramps were observed loitering about the bush, while two miles to the east two suspicious negroes were seen.

Two miles north at Pine is a mining camp, where many men are employed. Guthrie and Wiggins, the proprietors, are joining heartily in the search. In another direction is an extra gang of 75 to 80 men, and fifteen miles north the Grand Trunk Pacific construction camps are located. These all unite in a systematic search.

OFFER A REWARD.

At Gilbert the passengers on the train from which the child dropped, wired back a reward of $65 for the recovery of the girl, but there has been no claimant for the money yet. The C.P.R. officials are doing everything in their power to assist in the search, the engineering department, under W. K. Guier, having been given over to search the bush, and the many parties have raked the woods as with a fine-toothed combed as far in every direction as the girl could possibly wander in the time she has been missed.

There is, however, considerable swamp through the area, and in the search several bears have been met with. The girl, however, could not have met with accident from this direction without some trace of her clothing being found. Dressed in white, she would be easily seen should she come within the ken of the searching parties. Mr. Dupray is a shipwright in Fort William, and his son-in-law, Mr. Wm. Higgins, who is with him in the search, is an engraver for the bridge construction work on the C.P.R. here.

BY-LAW NUMBER

A By-Law to Provide for the issue of Debentures to the Amount of $6,000.00 for the Purpose of Constructing Bridges in the County of Peterborough.

Passed the day of A.D. 1908.

WHEREAS it is advisable for the Corporation of the County of Peterborough, for the purpose of constructing bridges in the County of Peterborough, to issue debentures for the sum of $6,000, as hereinafter provided (which is the amount of the debt intended to be created by this By-law) the proceeds of the said debentures to be applied to the purpose aforesaid and no other.

AND WHEREAS, it is desirable to issue the said debentures at one time and to make the Principal and Interest of the said debt repayable by yearly sums during the period of twenty years, being the currency of the said debentures; said yearly sums being such respective amounts that the aggregate amount payable in each year for Principal and Interest in respect of said debt shall be as nearly as possible equal to the amount so payable in each of the other nineteen years of the same period

AND WHEREAS the total amount required by the Municipal Act to be raised annually by special rate for paying the said debt and interest as hereinafter provided is $461.80.

AND WHEREAS the amount of the whole rateable property of the said County of Peterborough, according to the last revised and equalized assessment rolls is the sum of $8,149,886.00.

AND WHEREAS the amount of the existing debenture debt of the said county is $82,667.75 and there is no part of the principal or interest thereof in arrear.

THEREFORE, the Municipal Corporation of the County of Peterborough, by the Council thereof, enacts as follows:

(1) That the Warden and Treasurer of the County of Peterborough be, and are hereby authorized and empowered to borrow upon the credit of the said Corporation the sum of $6,000 and to issue debentures of the said Corporation, under the seal of the said Corporation, to be signed by the Warden and Treasurer and countersigned by the Clerk of the said Corporation, for the repayment of the principal and interest of the said indebtedness, by annual instalments extending over the period of twenty years from the date fixed for the coming into force of this By-Law.

(2) Such debentures shall be twenty in number and shall each be for the sum of $461.80, being the amount of the several annual instalments, including the principal and interest, at the rate of four and one-half per cent. per annum.

(3) One of such debentures shall be payable on the second day of October in each year during the currency thereof; the first being payable on the second day of October, A.D., 1908, and the last on the second day of October, A.D., 1928.

(4) During the currency of the said debentures there shall be raised annually by special rate on all the rateable property in the said County of Peterborough the sum of $461.80 for the purpose of paying the amount due in each of the said years, for principal and interest, in respect of the said debentures.

(5) The money so borrowed shall be applied for the purpose of constructing bridges in the County of Peterborough.

(6) This By-law shall come into force on the second day of October, A.D., 1908

The above is a true copy of a proposed By-law to be taken into consideration by the County Council of the County of Peterborough at the County Council Chamber in the said County on the 29th day of Sept., 1908, at the hour of ten o'clock in the forenoon, at which time and place the members of the Council are hereby required to attend for the purpose aforesaid.

ED. M. ELLIOTT,
County Clerk.

Peterborough, June 23rd, 1908.

Department Railway and Canals, Canada

Trent Canal Holland River Branch Notice to Contractors

Sealed Tenders addressed to the undersigned and endorsed "Tender for Trent Canal," will be received at this office until 16 o'clock on Wednesday, the 15th July, 1908, for deepening and improving of a channel way from a point in Cook's Bay—Lake Simcoe, Ontario, to the mouth of and up the Holland River, and the East branch thereof to the Bradford Road at Holland Landing.

Plans, specifications, and the form of the contract to be entered into, can be seen on and after the 22nd June, 1908, at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, at the office of the Superintending Engineer, Trent Canal, Peterborough, Ont., and at the office of the Division Engineer, Newmarket, Ont., at which places forms of tender may be obtained.

Parties tendering will be required to accept the fair wages Schedule prepared or to be prepared by the Department of Labor, which Schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signatures, the nature of the occupation, and place of residence of each member of the firm.

An accepted bank cheque for the sum of $2,000 must accompany each tender, which sum will be forfeited, if the party tendering declines entering into contract for the work, at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective parties whose tender are not accepted.

The lowest or any tender not necessarily accepted.

By order,

L. K. JONES,
Secretary.

Department of Railways and Canals, Ottawa, 17th June, 1908.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

Any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at an Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead duties under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each on and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3) If the father (or mother), if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of a homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father or mother.

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line exclusive of the width of road allowances crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the agent for the district of such intention.

Six months' notice in writing must be given to the Commissioner of Dominion Lands at Ottawa, of intention to apply for patent.

W. W. CORY,
Deputy of the Minister of the Interior.

Cough Caution

Never, positively never poison your home. Every cough—even from a simple cold only—you should always heal, soothe, and ease the irritated bronchial tubes. Don't blindly suppress it with a slow poison. It's strange how dope things finally come about. For twenty years Dr. Shoop has constantly warned people not to take cough mixtures or prescriptions containing Opium, Chloroform, or similar poisons. And now we learn too late though—Congress says "Put it on the label, if poisons are in your Cough Mixture." (Good) Very good! It's even better for this very reason mothers and others, should insist on having Dr. Shoop's Cough Cure. No poison marks on Dr. Shoop's labels—and none in the medicine, else it must by law be on the label. And it's not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chances then, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop package with others and note the difference. No poison marks there! You can always be on the safe side by demanding

Dr. Shoop's Cough Cure

"ALL DEALERS"

L'Envoi of Housekeeping.

When earth's last picture is dusted
And the floors are painted and dried,
When the oldest carpet is beaten
And the youngest spider has died,

We shall rest—and, faith, we shall need it!—
Lie down for a moment or two
Till the dust on the grand piano
Shall set us to work anew.

And those that are clean shall be happy.
They shall eat off a kitchen chair
And dash with a seven league broomstick
At the back of the chiffonier.

We shall have real paint to lean on,
Pile everything into the hall
And scrub for hours at a sitting
And never be tired at all.

And the man of the house will praise us
And will (more than probably) blame,
And we never shall get any money
(And certainly not any fame).

But each for the joy of the cleaning
And each in her feminine glee
To look just as well as the neighbors
For the sake of things they might see.
—Laura Simmons in Circle.

Some Remarkable Guns.

At the siege of Rhodes the Turks constructed mortars by hollowing out cavities in the solid rock at the proper angle, and in the arsenal at Malta is a trophy of the long and glorious defence of Valetta, in a Turkish gun, about a six pounder, composed of a copper tube coiled over with strong rope and "jacketed" with rawhide. In the same collection are some antique "quick firers," breechloaders, with small bores and immensely long barrels, like punt guns. The Malay pirates put great trust in the long brass swivel guns called "lela," and in Borneo these lelas were used as a kind of currency, large sums being estimated in guns.

The Chinese cast excellent bronze guns (there is a fine specimen of them in Devonport dockyard), but so little did they understand gunnery that in the so called "opium war" the forts of the Bocca Tigris, defending the Canton river, had the guns built immovably into the walls. The Sikh gunners opposed to us in the two Punjab wars, though they loaded with amazing recklessness, shovelling in the powder from open boxes, stuck to their guns to the last. The blood of the first man killed was smeared on the gun, and the whole detachment died beside it sooner than retreat.—Chambers' Journal.

A Batch of Anecdotes.

Some interesting anecdotes and gossip, new and old, of the law courts are given in the English Illustrated Magazine. The writer of the article, Mr. A. J. Hughes, was once present in court when a juror who opened the ball by saying, "This case, my lord, really lies in a nutshell," received the reply, "You crack it then."

There have been times when clever witnesses have got the better of counsel in a skirmish of words. When the farrier was asked where he got his knowledge of the mare's age from, he said, "From the mare's own mouth, sir."

Irish lawyers are generally endowed by Dame Nature with quick wits. Among them all, perhaps, Curran held the palm for lightness and vivacity. When some one told him that no student should be called to the bar who did not possess a landed estate of his own, he retorted, "How many acres make a wiseacre?"

But it was a Scotsman, appropriately enough Lord Brougham, who, seeing his horses take fright, yelled to the coachman, "Drive into something cheap!"

HOUSEHOLD NOTES.

Cereals are seldom overcooked, but rather undercooked. Thus always allow plenty of time in preparing cereals.

If a bedstead creaks at each movement of the sleeper, remove the slats and wrap the ends of each in old newspapers. This will prove a complete silencer.

In using linen doilies on the highly polished table cut asbestos pieces to place beneath the mats, especially if there is any danger of the hot dishes marking the table top.

The polished appearance of starched clothes will be increased if a piece of wax the size of a small bean and half a teaspoonful of powdered borax be added during the boiling.

The new heavy embroideries of raised gold and silver work should never be brushed in the ordinary way. If rubbed gently with a piece of crimson velvet, a good result will be obtained.

For bath purposes the cloth brush should take the place of flannel. Indeed, the vigorous use of the cloth brush or glove may be recommended as an effective substitute for a bath where the latter is not at hand, as the rough glove or brush cleanses the skin of small particles which are apt to cling to it from the clothing that is in daily contact with the body.

White spots on furniture caused by putting down a hot jug or cup should be rubbed at once with a little oil of some kind, linseed for choice, though paraffin or sweet oil is nearly as good. Leave the oil on some hours if possible and clean polish.

Big-Wife (reading)—Which is proper, "disillusioned" or "disillusionized?"

Her Husband—Oh, just say "somebody socked it over on them."

VISITING YOUR FRIEND.

No Place Like Home, After All, So a Victim Believes.

Visiting has ever been a form of discomfort.

Your friend, who has a new home, a lately replenished library, a unique garden or something which represents money enough to make him vain in its possession, cannot rest until he has dragged you from a happy home to cater to this feeling of vanity.

As for yourself, you put it off as long as possible. Of course you want to go. The thought of not having been able to get to see him has, you assure him, filled you with perpetual gloom. But circumstances over which you have had no control have forbidden. All this you assert until the fatal moment arrives when you realize that no further subterfuge is possible, and, with many protestations of anticipatory delight, you start off.

Your friend meets you at the station with his auto. He explains its workings, its superiority over all others, as you proceed back. If it breaks down on the way,—as is more than likely, he smiles brightly. Such a thing has never happened before. He knows, of course, what the cause was. He mentions it carelessly, thereby implying that it was of so little consequence that it was scarcely worth while to avoid it.

You arrive at his house. Filled with enthusiasm and revelling in a new victim, he proceeds forthwith to drag you over its weary length before you have had time to change your shoes.

"Fine room this!" he exclaims, with a burst of honest pride, and so on. By and by, when he is getting tired, his wife, like a rainy pony, takes up the lecture where he leaves off.

So plastic are we that at the time by a sort of fictitious warmth you really seem to be enjoying yourself.

You exclaim in wonder over the fact that you have been so long in getting there. And when at last, a week later, you reluctantly leave you tell him, with tears in your eyes, that you had the time of our life.

It is only when once more you find yourself joyfully in your own humble apartments, with its faithful bed, whose very imperfections have endeared themselves to you, that you cry out in deep gladness, "Thank God it's over, for, after all, there's no place like home!"—T. L. Masson in Puck.

They Prayed Running.

Harry and Ethel were crossing a field on their return from Sunday school when they encountered a bull. At the animal's approach they fled in terror. Faster and faster they ran, yet nearer and nearer came the bull.

"We must pray," panted Harry.

"You do it," Ethel pleaded. "We'll kneel down right here."

"No; we'll pray running. You ought to do it. You're a girl."

"O Lord—O Lord—I can't!" sobbed Ethel. "You do it."

The proximity of the bull demanded immediate action, and Harry rose to the occasion. Loudly and fervently he prayed:

"O Lord, for what we are about to receive make us truly thankful!"—Success Magazine.

Trapped.

"I saw the cutest thing today," began Miss Fanny coyly. "It was a painting of the—er—what is the name of that little god that represents matrimony?"

"Well, now," said Mr. Timmid, "you've got me."

"Oh, Mr. Timmid, this is so sudden!"—Philadelphia Press.

Ripping Times.

Gunner—Hot times out at the ball game. The players were slamming balls all the afternoon.

Guyer—And how about the bleachers?

Gunner—Oh, they were slamming the umpire!—Chicago News.

Co-operating With Reform.

"Do you think racing will ever be stopped?"

"The trouble I have always had," replied the hard luck specialist, "is that the horses I bet on always want to stop."—Washington Star.

One For Each Life.

"I want a good revolver," began the determined looking man.

"Yes, sir," said the salesman. "Six chambers?"

"Why—er—you'd better make it a nine chamber. I want to use it on a cat next door."—London Express.

A Poor Corner.

When a girl puts a man off by saying she will keep a little place in a corner of her heart for him he may be sure that it is a corner for which she doesn't expect to have much use.

Just the Same as Usual.

"I thought you said you weren't going to drink any more."

"I did."

"But here you are drinking as much as ever."

"Well, that isn't any more, is it?"

A RAISE IN MINING STOCK

ALLOTMENT SUBSCRIBED.

The requisite amount of stock has been subscribed and paid in full to enable the Company to proceed to allotment and commence business.

RAISE OF MINING STOCK.

THE GREAT NORTHERN LARDER LAKE MINING CO., Limited, proposes to advance price of their treasury stock to Twenty-five (25c) cents on June 22nd. Last chance to buy at ten cents a share, par value One Dollar, fully paid up and non-assessable.

The foreman, Mr. David Foster, of Cobalt, has started to work on the Company's property with a gang of men to develop veins already discovered, also to continue striping in search of new gold veins.

We are erecting boarding houses and dining-rooms for our men.

READ COPY OF CERTIFICATE AND STATUTORY DECLARATION CONFIRMING SAME.

Toronto, March 28th, 1908.

To the Great Northern Larder Lake Mining Company, Limited:—

Gentlemen,—

I beg to confirm my previous report to you that in my judgment the surface showings on the 14 mining claims which the Company has acquired, being Nos. H.S. 221 to H. S. 234, both inclusive indicate the probability of the existence of large bodies of both high grade and low grade free-milling ore, sufficient to pay dividends for an indefinite period.

I have personally examined a number of veins and reefs on said property (consisting of about 640 acres) and had some assays made and from such examinations and assays I make this report.

The statement on pages nine and ten of the Prospectus giving the short history of the Company are correct. I insisted on retaining a large interest in the Company rather than sell for any price that seemed reasonable to the purchasers.

DAVID A. FOSTER,
Haileybury.

IN THE MATTER OF THE GREAT NORTHERN LARDER LAKE MINING CO., LTD.

Statutory Declaration.
DOMINION OF CANADA
County of York
TO WIT:

I, David Foster, of the town of Haileybury, in the district of Nipissing, miner, do solemnly declare that the statements in the annexed certificate are true. I have personally inspected all of the fourteen claims now transferred to the Great Northern Larder Lake Mining Company, Limited. I have taken samples containing gold values from said property, and from my personal examination, and from assays made, I believe the Company's property when developed, will prove very valuable. I have full confidence in the success of the said Company, and on this account, with the exception of $400 already received, I have agreed to accept stock in said Company, and a note which I believe will not be of much value should the actual development work not prove the said claims to contain gold in paying quantities as it is not payable for one year from this date or until after the Company shall have done the necessary development work on said claims. And I make this solemn declaration conscientiously believing it to be true and knowing that it is of the same force and effect as if made under oath, and by virtue of "The Canada Evidence Act."

DAVID A. FOSTER.

Declared before me at Toronto, in the County of York, this 31st day of March, 1908. J. T. LOFTUS, A. Commissioner in H. C. J.

PROPERTIES TRANSFERED.

Since the prospectus was printed, the sale of the 14 mining claims to the Company has been completed and the transfers to the Company are registered in the Recorder's Office at Larder City. There is no mortgage or other encumbrance against said claims.

10c. PER SHARE.

Par Value One Dollar fully paid Up and Nonassessable.

OFFER IN PLAIN WORDS

$ 5.00 buys	50 shares, par value	$ 50.00	$ 10.00 buys	100 shares, par value	$ 100.00
20.00 buys	200 shares, par value	200.00	10.00 buys	500 shares, par value	500.00
100.00 buys	1,000 shares, par value	1000.00	500.00 buys	5,000 shares, par value	5000.00

We earnestly recommend that you purchase the Great Northern Larder Lake Mining stock at 10 cents per share.

Fill in application form and forward and you will be on the upward move.

Fortunes have always been made by those who can see a good thing coming.

TOBACCO POISON.

If You Must Smoke, Puff Your Cigar or Pipe Leisurely.

That it is much more injurious to smoke quickly than slowly is the conclusion arrived at by two Austrian scientists after careful study and experiment.

The two professors—Dr. Liebermann and Dr. Davidovics—tested pieces of cotton which had been placed in the mouthpieces of pipes and cigar holders and found them covered with yellowish brown flecks. These were found to be of a tarry nature, produced during the process of combustion, and highly poisonous.

It was found also that two cigars of the same brand and strength often produced differing degrees of discoloration of the cotton. Further investigation showed that these differences were due to the length of time occupied in smoking. The same weight of tobacco smoked in five minutes produced nearly three times as many yellowish brown spots as if it were smoked in fifteen minutes. The professors therefore concluded that a rapid smoker inhales a much larger quantity of poisonous substance, to the consequent injury of his health, than does his more phlegmatic colleague.—Pall Mall Gazette.

Cow Running at Large

On Saturday evening as the citizens were doing their shopping a cow was parading the main thoroughfare, evidently taking in the sights. It caused considerable amusement for the passersby.

SATURDAY, JUNE 27TH, 1908.

RAWHIDE-DULZURA

1 CENT A 2 SHARE

Send us your name as a member in this new company, with your remittance for as many thousand shares as you can take at $5 per thousand.

This is a short-time offer on a hurry-up proposition. Our vice president is up at Rawhide now putting the miners at work. We want to raise the necessary funds for development as quickly as possible. Therefore, we offer the first block of stock at $5 a thousand shares. This subscription must be all cash. We want the money in hand. We mean to work without letup, and we have made it an ironclad rule not to run in debt. Cash counts now.

Our prospectuses are out. Send for one.

Make reservation of stock, if you do no more. But, remember, this present offer of stock at Half a Cent a Share is now open, and will be closed as soon as enough cash subscriptions are in hand. Don't wait, or you will get left.

The gold mining property owned outright by the company consists of 7 claims, 5 in the Rawhide district of Nevada, and 4 in the Dulzura district of Southern California.

The Rawhide district to-day is more famous than Goldfield, Tonapah, Bullfrog, or Searchlight were at the same stage of exploration and development. The Dulzura discovery is one of the most sensational in the history of California.

Ten samples of ore which were among the first assayed, run as high as $7,461.37 to the ton, and all ten averaged over $1,-600 a ton.

In both camps we located early, and our locations are choice. Our own officers will superintend the mining.

Rawhide-Dulzura Gold Mining Company

122 West Third Street, Los Angeles, Cal.

Weary, Worn-out, Tired

If You Feel Poorly This Spring this Article is worth Considering

Nothing in life keeps people from advancement like poor health. If the nerves are weak, if the stomach, liver, bowels or kidneys, fail to work properly, health surely suffers. Spring is the hardest time on health—the season when the system calls for active cleansing medicine.

The best plan is to entrust your condition to a physician of reputable calibre to a physician of reputation like Dr. Hamilton, who has had years of experience in compounding tonics. For the ills and tired feeling of spring Dr. Hamilton says nothing is better than Mandrake and Butternut Pills, and this is well proved in the case of James Burton, of Lewistown. "I had grip and it left me very weak. The disease settled in my back and side, which ached day and night. I had a nagging cough. My appetite was all gone. My nerves unstrung. I could not sleep well. I struggled against growing pale, thin and weak—but it was not good. Spring brought depression, overpowering weakness and bad headaches. But my life as regard headaches. But my life was spared, simply because I learned of the wonderful merit in Dr. Hamilton's Pills of Mandrake and Butternut. The result was marvelous. I gained rapidly, became strong, ruddy, vigorous, perfectly well. I urge every man and woman to use Dr. Hamilton's Pills regularly.

You'll brighten up, have cleaner blood stronger nerves, better spirits after using Dr. Hamilton's Pills. 25c at all dealers. Guaranteed safe, sure, helpful for old and young.

Since Chief Black Cloud

has come to town, many people have tried his Blood Purifier, and Results have Delighted them a case derangement of the stomach liver kidney and blood. Will be here all summer and manufactue his medicines, made from roots, herbes and barks. Take the car and call on him at

DOINGS HERE AND THERE BY TIMES REPORTERS

A Lost Canoe

The Times received a letter from Mr. William Smith, bridge tender at Bridgport, stating that a canoe was left at the bridge about two weeks ago by two men. There were also cushions, paddles and fishing tackle. After having the bridge the men proceeded to walk towards town. The canoe has evidently been stolen, and the rightful owner, no doubt, will be glad to know of its whereabouts.

Wescott Street Residence Burned

A fire broke out in the shed of Mr. John Evans, Wescott street, yesterday. When the brigade arrived on the scene the flames had reached the inside of the residence, and was soon all through the house. The contents were completely destroyed, and no insurance was carried. The house had just been put up, and was most up-to-date. The shed was struck by lightning during yesterday's storm. It will be remodelled, as the walls and roof are still intact.

Regimental Orders For the Week

Following were the orders read out to the 57th Regiment, Peterborough Rangers, last night;

1. Detail of duty for the week ending June 30th—Captain for the week, Capt. McWilliams, next for duty. Capt. McLean. Subaltern for the week, Lieut. J. D. Clark, next for duty, Lieut. Rackham.

2. Leave of absence from parade, is hereby granted to Major Bennet and Lieut. Hodgson.

3. The regiment with both bands, stretcher bearers and signal corps, will parade in drill order at 7 o'clock sharp on Thursday evening, June 25th, for inspection by Col. W. D. Gordon, D.O.C., and answer roll call by Capt. Cooper, District Paymaster.

4. All N.C.O.'s and men are requested to appear on parade with clothing and accoutrements cleaned and pipe clayed, and all buttons, etc., polished.

—Mr. Mat McDonald of Lindsey, is attending the convention of the Maccabees in this city.

—Mr. and Mrs. R. Shortly left for Stony Lake yesterday morning where they will spend the summer.

—Miss Amelia Stenrner leaves on Thursday for London, England.

Another Runaway

What might have been a serious runaway happened yesterday afternoon when a horse attached to one of the Dominion Express Company's rigs, took fright at a street car while standing in front of Mann's bakery. It ran as far as Brock street, when it was stopped by a young man, who refused to give his name for publication. No damage was done, although there is no saying what might have happened if it had not been for the prompt action of the young man in question.

Precious Life and Health can be Saved By this New Method All Sickness is Alike to

OXYDONOR

It applies to all cases, no matter what the form of disease may be. It revitalizes the human body with OXYGEN from the air. OXYGEN is a vital Necessity—the greatest necessity life knows.

You can apply Oxydonor at home while you rest or sleep. No loss of time from your work or business. It is easily applied, safe, and always ready for use. Its force never exhausts. It will serve the family, children as well as adults.

Mr. Wm. Beers, 196 York St., Toronto writes: "I have the pleasure in recommending your Oxydonor. When I first got the Patentum I was suffering from Sciatica for about four months, and after applying for five weeks it left me all at once and have not been troubled with it since. I can highly recommend it as a good family doctor, and would not be without it for double the price.

Grover Cleveland Passed Away Early Yesterday Morning

Had Not Been in Good Health for Some Time and was Under Medical Care

His Death a Surprise

Princeton, N.J., June 24. —Grover Cleveland, former President of the United States, died suddenly at his home at Westland here at 8.40 o'clock this morning. Death was due to heart failure, complicated with other diseases. The passing away of Mr. Cleveland was not immediately announced, but was delayed until an official statement had been prepared by the physicians who had been attending him in the various periods of his illness.

The following statement signed by Dr. Joseph F. Bryant, Dr. George D. Lockwood and Dr. J. M. Carnochan, was given out;

"Mr. Cleveland for many years had suffered from repeated attacks of gastro intestinal origin. Also he had long standing organic disease of the heart and kidneys. Heart failure complicated with pulmonary thrombosis and oedema were the immediate cause of his death."

Mrs. Cleveland was at home when her husband passed away. The children are at the Cleveland summer home at Tamworth, New Hampshire, in charge of Mrs. Perrine, Mrs. Cleveland's mother. The Clevelands came here from Lakewood, where the former President lay sick for many weeks on June 1, and intended to go to their summer home as soon as Mr. Cleveland had gained sufficient strength to travel.

HIS DEATH A SURPRISE.

While Mr. Cleveland had been seriously ill from time to time the announcement of his death came like a thunderbolt to those who had been watching his illness.

Last night there was a slight flurry among the friends of the Clevelands that something was seriously wrong with the ex-President. This was occasioned by a visit of Dr. Bryant of New York, Mr. Cleveland's physician for many years.

Mrs. Cleveland, later in the evening discussing Dr. Bryant's visit, said that there was no occasion for alarm, and that Mr. Cleveland was getting along nicely.

This reassurance totally unprepared their friends for the announcement of his death.

AGED 71 YEARS.

Mr. Cleveland was 71 years old on March 18th last. During the past winter Mr. Cleveland kept close to his home in Princeton until the approach of his birthday, when he went to Lakewood with his family. He was a trustee of the Equitable Life Assurance Society of this city, and up to the time of his going to Lakewood had attended to correspondence in connection with his duties for that society.

After he went to Lakewood, however, he discontinued that work and it soon developed that Mr. Cleveland was suffering an attack of digestive trouble which he had experienced many times before. Mr. Cleveland was attended by Dr. Joseph D. Bryant, of this city, and Dr. E. Rowe Lockwood, a specialist in stomach disorders, was called into consultation. Dr. Bryant made frequent visits to the distinguished patient at Lakewood. Mr. Cleveland occupied a suite of rooms on the second floor of the Lakewood Hotel, at Lakewood, and was constantly attended by Dr. Gaudenzer, the physician attached to the house, in addition to the visits of Dr. Bryant.

REMOVED FROM LAKEWOOD.

Mr. Cleveland remained at Lakewood for several weeks thereafter, and constant reports of improvement in his condition were issued from the hotel. About a month ago he had sufficiently recovered to be taken to his home in Princeton, making the journey in an automobile.

Yesterday it was reported again that Dr. Bryant had been called to Mr. Cleveland's home in Princeton. Inquiries made as to the reason for this visit brought reassuring answers, and it was not publicly known until the announcement of his death today that Mr. Cleveland's illness had again assumed a critical phase. He died in bed in the second storey front room. Those at the bedside when the end came were Mrs. Cleveland and three physicians. The only other persons in the house at the time were a number of servants.

It is believed that the terrific heat of the last few days contributed in a great degree to the sudden death of Mr. Cleveland.

Peterborough Lady Died in Toronto

Toronto, June 24.—There died yesterday at the house of Prof. W. S. Milner, 19 Albany avenue, Mrs. Dorothea Dundas Flavelle, in her 85th year. The deceased was born on December 22nd, 1823, in Drum, County Cavan, Ireland. She married John Flavelle, of Dungannon, County Fermanagh, and came out to Canada in 1846, shortly after her marriage. They settled in Peterborough, where Mrs. Flavelle taught school for 27 years. During thirteen of these years she kept a private school. In 1861 the deceased went to Lindsay, where two of her sons—John and William—were engaged in business, and there after made her permanent home in Lindsay, broken by frequent and sometimes long visits to her daughter, Mrs. Milner, at whose house she died. Mrs. Flavelle was a woman of rare intellectual power and of unusual character. Her life was distinguished for simple bravery, great steadfastness and strong, quiet, patient religious faith. She faced the trials and the isolation of pioneer life with fortitude, and brought to all the duties of life a faith and courage equal to any ordering of Providence. Essentially home-loving and devoted to her family, Mrs. Flavelle took a keen and wide interest in public affairs, and down almost to her death could discuss with clear understanding and fullness of knowledge very many of the chief events in Canadian history for half a century. Three sons and one daughter survive—Mr. John D. Flavelle and Mr. William Flavelle, of Lindsay; Mr. J. W. Flavelle, of Queen's Park, and Mrs. Milner. The funeral is announced to take place from Mr. J. D. Flavelle's residence at Lindsay on Thursday afternoon at two o'clock.

Board of Education in Special Session--Important Business

The Board of Education met in a special session last night, when the following were present;—Messrs. R. Parr, chairman; W. G. Morrow, W. H. Hill, Dr. Burnham, D. Dumble, W. T. Nelson, L. M. Hayes, W. Robinson and Inspector Mowat.

The question of the revision of the fees of the new Collegiate, and the admitting of county pupils was dealt with and referred to the Supervision Committee, upon motion of Messrs Hill and Burnham.

Mr. Dumble brought before the Board the necessity of a stand pipe with hose attached.

Moved by Dr. Burnham, seconded by W. H. Hill.—That the Building Committee be granted permission to secure a dozen loads of soil for sand beds around Collegiate Institute.—Carried.

COMMITTEE ON APPOINTMENTS.

To the Chairman and Members of the Board of Education;

Gentlemen.— Your Committee on Appointments beg leave to report as reference to the various matters referred to them, and recommend as follows;

1. That Mr. J. M. Rozell of New Hamburg, be appointed principal of the Park street school at an initial salary of $900 per annum.

2. That Mr. W. C. L. Richardson of Stayner, be appointed principal of the King Edward school, at a salary of $1000 per annum.

3 That Mr. R. F. Downey of Port Perry, be appointed principal of the Central school, at a salary of $1000 per annum.

4. Your committee have selected these gentlemen from a large number of applicants, and have found in each case that they are highly recommended and well qualified to fill the positions. Duties in each case to start on the 1st September next.

5. That Mr. John Hart, janitor of the present Collegiate Institute, be transferred to the new Collegiate Institute as janitor. His salary to be according to schedule, and that such appointment date from the 1st July next.

6. That Mr. Simpson, janitor of the Central school, be instructed to take charge of the old Collegiate Institute building from the 1st July. Salary to be according to schedule for both schools.

7. That Mr. R. Baker, janitor of the Queen Alexandra school, be given the usual one month's notice that his services will not be required after the 31st July next.

8. That Mr. W. H. Wilson be appointed janitor of the Queen Alexandra school. Salary to be according to the salary schedule. Duties to commence August 1st, 1908.

9. In reference to the communication of Mr. Scrughy, we recommend that no action be taken at present.

10. Your committee at the request of the Deputy Minister of Education appointed a small sub-committee composed of Messrs. Morrison, Crane, Dumble, Hill and the inspector to go to Toronto to interview the Minister in reference to matters in connection with the Normal school.

11. Your committee received a communication asking for one of the rooms in the King Edward school for the purpose of holding church services, and we instructed the secretary to state, that as it was a standing rule of the Board that the school buildings should not be used for any other than school purposes, the request could not be granted.

12. That, on the retirement of Miss Nichols, Miss Perry and Miss Hall, considering the fact that they have each faithfully taught under this Board for over thirty years, and leave its service carrying the gratitude and respect of many hundreds of parents whose children have passed through their rooms, and taking into account the recent Act of the Legislature Chapter 33, page 325, section 94, which provides that in case of teachers whose time is entirely devoted to the work of the Board, retiring after serving for twenty years or longer, a grant or allowance may be made to such teachers at the time of retirement, your committee after carefully considering the circumstances recommend that each of these teachers be granted as a gratuity $400, one-half to be paid July 1st, 1908, and one half July 1st, 1909.

13. That Miss A. Gillespie be paid paid the sum of $40 salary for the month of May, during the absence of Miss Warner.

14. That Mr. L. J. Petit, B.A., St. Thomas, be appointed a member of the Collegiate Institute staff, as specialist in English History at a salary of $1200 per year. Duties to start September 1st.

15. That Mr. A. W. Baird, M.A., of Brockville, Ont., be appointed a member of the Collegiate Institute staff as junior English master at a salary of $1000 per year, duties to begin September 1st, 1908.

Respectfully submitted,
W. H. HILL,
Chairman.

Board room, June 24th, 1908.

COMMUNICATIONS.

From Miss Hope Carlyle of Brantford, applying for the position of domestic science teacher, if such a department is started here.—Committee of Appointments.

PLUMBING.

Members of the Board of Education;

Gentlemen.—Re Queen Alexandra school, Mr. C. A. J. Duranceau having made alterations in the portion of the plumbing which was condemned, I submitted the work to the "smoke test" on Saturday 13th inst., in the presence of Mr. J. E. Belcher, Mr Duranceau and Mr. J. Kincaid, and herein pronounce the result to have been most satisfactory.

Yours faithfully,
P. THOMPPSON.
Plumbing Inspector.

MONEY GRANTED.

City treasurer account municipal grant	$ 84000
C. Fraserden fees	521

Want Government Grant Increased to $2,500

The committee appointed by the Board of Education to interview the Minister and Superintendent of Education in Toronto, made the following report at last night's meeting of the Board;

Members of the Board of Education, Peterborough, Ont.;

Gentlemen.—Your committee appointed to meet the Minister and Superintendent of Education, to confer with them upon matters pertaining to the Normal school, waited upon them as requested.

The superintendent outlined a plan which by this Board is asked to co-operate with the Education Department in the engaging and employment of certain teachers. These teachers are;—

1. A teacher of manual training.
2. A teacher of domestic science.
3. A teacher of art.
4. A teacher of music.

The superintendent explained that the services of these teachers would be required in the Normal school for spaces amounting altogether to about two days a week and their service would be available to this Board for spaces aggregating three days per week. He intimated that the department would be prepared to pay $400 of the salary of the teacher of domestic science, $600 of the salaries of each of the other teachers, and this Board would be expected to contribute the balance.

The superintendent was unable to inform your committee on the amount of grant which the Education Department would give towards the equipment of the manual training and domestic science rooms, nor could he tell the amount of the annual grants given to these departments. He suggested that the matter be held over until his could send the inspector of manual training and domestic science to Peterborough, when he could be able to explain to this Board the exact amount of financial assistance which the Education Department will be willing to give.

Your committee urged upon them the necessity of having the annual grant of $1500 given to our training school, increased to $2500, the amount received by the London Board of Education.

The above matters were discussed, but no definite action was proposed, or considered advisable until fuller information should be received from the department.

All of which is respectfully submitted.

W. H. HILL.

Nine-Year-Old Boy Killed by Lightning

Barrie, June 24.—During a heavy electric storm, which passed over this locality yesterday morning, the house of Michael Hayes, of lot 18, concession 3, township Ore, was struck by lightning.

Three of Hayes' children, a son aged 9, and two little girls, aged 8 and 4 years, were playing on a lounge in the dining room at the time.

The nine-year-old boy received a severe shock and died in the greatest agony at 6 o'clock in the evening.

The elder girl was also badly injured and is not expected to live.

The third child had the calf of her leg burned, but it is not otherwise hurt.

The boy had been kept from school owing to the storm.

None of the other occupants of the house were injured.

Ex-Premier Whiteway Died Very Suddenly

St. John's, Nfld., June 24.—Former Premier Right Hon. Sir William Whiteway died at eight o'clock this morning.

Sir William had been ill a long time but yesterday was stronger than for months. The end came with startling suddenness. In five minutes after the warning shock, death resulted.

The funeral takes place on Saturday at 3 o'clock.

Several public functions have already been cancelled, and a public funeral is expected.

Sir William Whiteway was District Grand Master of Masons, and his age was over eighty. He leaves a widow, one son, and two daughters, removed

ADVERTISE IN THE TIMES.

Family of Five

All Drank Coffee from Infancy

It is a common thing in this country to see whole families growing up with nervous systems weakened by coffee drinking.

That is because many parents do not realize that coffee contains a drug—caffein—which causes the trouble.

"There are five children in my family," writes an Iowa mother, "all of whom drank coffee from infancy up to two years ago.

"My husband and I had heart trouble and were advised to quit coffee. We did so and began to use Postum. We are now doing without medicine and are entirely relieved of heart trouble.

(Caffeine causes heart trouble when continually used as in coffee drinking.)

"Our grandchild was born with a weak digestion and like the mother always craved and was given coffee. When we changed to Postum he liked it and we gave him all he wanted. He has been restored to health by Postum and still likes it.

"Long live the discoverer of Postum!"

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs. "There's a Reason."

Ever Read the above letter? A new one appears from time to time. They are genuine, true and full of human interest

Will Act as Secretary-Treasurer of I.O.F.

Toronto, June 24.—At this morning's meeting of the Supreme Council of the I.O.F., Dr. Thos. Millman, Supreme Physician, was appointed Acting-Treasurer, as well as temporary successor to the late Mr. H. A. Collins, Supreme Treasurer.

A full attendance of the committee being necessary for a permanent appointment, the four members present could not do more than provide for the present. Many American delegates to the present Supreme Court meeting had started for home before hearing of Mr. Collins' death, and when the position of treasurer fell vacant, it was decided to wait until the council meeting in July before filling the vacancy.

In view of the notice of motion to have a secretary-treasurer, instead of secretary and treasurer, the consummation of which is likely to take place when the Supreme Court meets three or four years from now, a member of the present staff will be instructed in July to discharge the duties of treasurer, but without drawing the full salary of that office.

When the Supreme Court next meets Mr. J. Matheson, the Supreme Secretary, may be made secretary-treasurer with, probably, an additional $1,000 of salary. At the recent meeting his stipend was reduced to $5,000, and the treasurer's to $4,000.

At today's council meeting a committee was chosen to draft a resolution of regret and condolence respecting Mr. Collin's death.

In the event of death it is customary to pay the deceased officer's salary for the current month. This was done in the case of Dr. Oronhyatekha and it is not likely that the precedent will be varied, or exceeded, in this instance.

Rheumatism

Eats Up Strength
Racks the Joints
Prevents Sleep

Unchecked--It Finally Strikes the Heart and Kills its Victim

It originates in the blood and develops most quickly in the system of persons who are run down and lacking in vitality.

The only specific of ALL forms of Rheumatism is Ferrozone, which is a perfect solvent for uric acid and a splendid stimulant for the kidneys and liver.

No remedy is so successful as Ferrozone. It has never failed to cure, because it attacks the cause of the disease in the blood. It neutralizes the uric acid poisons, quickens the sluggish circulation, and relieves the system of all irritating matter.

Every distressing symptom is cured, swollen muscles and aching joints are relieved of their pain. The disease will not return if once cured by Ferrozone, which does its work thoroughly. Its cures are lasting.

Unlike other treatments, Ferrozone does not depress the heart or deaden the nerves. It rebuilds the system, promotes better health, establishes good appetite, sound sleep and freedom from weakening pains and aches.

The perfection of all rheumatic remedies is found in Ferrozone. It is a tablet form easy to take, convenient to carry, guaranteed to cure, and costs only 50c per box, or six boxes for $2.50 at all druggists; don't fail to test Ferrozone.

Closing Session of Maccabees

Tuesday afternoon the 2nd session of the Seventh District of the Knights of the Maccabees met in the Orange Hall, Simcoe street, at two p.m.

The Credentials Committee, consisting of Sir Knights J. Titterson, Geo. Bradshaw and G. H. Sarles, brought in their report, and the session was constituted with Sir Knight C.A. Yule, D.D.C., Colborne, in the chair.

The following committees were then struck;

Good of the Order —Sir Knights W. L. Mitchell, M. McDonald and Lady Lizzie Pratt.

Grievances and Petitions — Sir Knights R. D. Hall, A. M. Fletcher and Lady Alice Titterson.

New Business —Sir Knights O. S. Matchett, W. J. Currie and Lady Eva M. Yule.

Press—Sir Knights J. Titterson, O. S. Matchett and W. L. Mitchell.

In due course the several committees presented their reports, which were adopted.

Addresses were given by Sir Knights, Jos. Jenkins, A.S.C., Port Huron, Mich., and S. W. Trumbler, P. C. of Camlachie.

The election of officers resulted as follows;

P.C., Sir Knight C. A. Yule, Colborne.

Com., Sir Knight J. Titterson, Peterborough.

Lt. Co., Sir Knight W. L. Mitchell, Peterborough.

Record Keeper—Lady Eva M. Yule Colborne.

Chap., Sir Knight G. H. Sarles, Trenton.

Sergt., Lady Alice Titterson, Peterborough.

M. at A., Sir Knight A.M. Fletcher, Peterborough.

First M. of G., Sir Knight W. J Currie, Bala.

Second M. of G., Sir Knight O. S. Matchett, Peterborough.

Sentinel, Sir Knight Geo. Bradshaw, Tweed.

Picket, Sir Knight R. D. Hall, Markham.

In the evening the work of initiation was put on, and a number of candidates were initiated, after which the delegates adjourned to the residence of the Commander-elect Sir Knight J. Titterson, where they were hospitably entertained.

Eleven Pupils Down with Diphtheria

Toronto, June 24.—Eleven children attending Brock avenue school, are suffering from diphtheria, and one room in the school has been closed as a result. Sore throats were the first infication, and inspectors from the Medical Health Department were called to investigate. The cases are spread over Dublin street, St. Clarens avenue and Emerson St.

It was reported that a milkman in whose house there was a case of diphtheria, had spread the disease in his milk, but Dr. Sheard says this is not a fact.

Will Build Bridge Over Indian River

The County Council appointed a committee to deal with Armstrong bridge in Otonabee. It met yesterday and decided to have a new bridge constructed. This bridge is situated over the Indian River about a mile below the Norwood road. It will be 75 feet between the abutments. The committee has authorized the county engineer to prepare plans and specifications to be submitted for approval in the near future. When this has been done, tenders will be called for and the construction of the bridge begun.

Erecting a Balcony

The Lakeview House at Young's Point, is undergoing extensive improvements. Mrs. Kearney is having a large double balcony erected in connection with the annex, and it is being put up by Contractor Thomas Boolsen.

The Petes vs. Athletics

The Petes and Athletics clash for the second time this season on a Mid-land League game, and this contest promises to be a good one. The Petes will have the same line up as last game but the Athletics will have a change bringing in some of the best ball players in the Province. A hot rivalry still exists between these two teams, and the fans will see the game of their life. At Saturday's game ladies will be admitted free.

Mr. J. H. Carnegie, of E. Victoria, May Succeed Hon. N. Monteith

Who will Probably Retire, Owing to His Defeat in South Perth

Will Retire Immediately

Toronto, June 24.—It is understood that Hon Nelson Monteith will probably retire from the Government as a result of the recent election in South Perth, when the Minister suffered defeat in a close contest.

Mr Monteith, it is said, is desirous of taking this course under the circumstances. He has large farming interests of his own, and his personal business has suffered as a result of his attention to public duties.

It is understood also that it is not the policy of the Government to create vacancies by appointment of members, and that it has been decided not to make an exception to the rule.

It is not probable, however, that Mr. Monteith's retirement will be immediate. There are several important matters before the Department of Agriculture, including some reforms and extensions which the Minister inaugurated, which he will be urged to carry to completion.

In Mr. Monteith's retirement the Province will lose the services of a zealous Minister, who has devoted himself to the development of the agricultural interests. His colleagues in the Cabinet will sincerely regret his departure.

No name has yet secured any official endorsation as Mr. Monteith's probable successor. It is rumored, however, that Mr J H Carnegie, of East Victoria, or Mr. Finlay G. Macdiarmid, of West Elgin, may be selected by Hon. Mr. Whitney when time for making the appointment arrives.

The Prime Minister has not indicated whether it is his intention to fill the Cabinet vacancy caused by the death of Hon. Dr. Willoughby. This is a post without portfolio, and its filling is solely in the discretion of the Prime Minister.

Japanese Intrude on the Pacific Coast

St. Paul, Minn., June 24.—The Pioneer Press today prints an interview with Baron Kagura Takahashi, who has been investigating the Japanese situation in the United States and Canada for the Mikado's government. In the interview, the baron says;

"It is the desire of the Japanese government to thoroughly understand the position of Americans on the Japanese question. The government well realizes that certain of its citizens have been the cause of disturbances on this side of the Pacific, which at once have shaken the elements of localities and disturbed our government, too.

"My report will state to the Japanese Government that the collection of Japanese immigrants in the cities of the Pacific coast is detrimental to friendly relations between these two countries and is actually in some cases an intrusion—so far as concerns the Americans who labor—on the liberties and rights of the people who already inhabit this country.

"My report will advise that immigrants reaching the coasts of America be compelled to have in reserve sufficient money to take them across the Rocky Mountains and into the agricultural regions of the middle west."

Pains are easily and quickly checked with Dr. Shoop's Magic Ointment. To prove it I will mail a small trial box as a convincing test. Simply address Dr. Shoop, Racine, Wis. I surely would not send it free unless I was certain that Dr. Shoop's Magic Ointment would stand the test. Remember this made expressly and alone for swollen, painful, bleeding or itching piles, either external or internal. Large jar 50c. Sold by all dealers.

The Farmer's Wife

Is very careful about her churn. She scalds it thoroughly after using, and gives it a sun bath to sweeten it. She knows that if her churn is sour it will taint the butter that is made in it. The stomach is a churn. In the stomach and digestive and nutritive tracts are performed processes which are almost exactly like the churning of butter. Is it not apparent then that if this stomach-churn is foul it makes foul all which is put into it?

The evil of a foul stomach is not alone the bad taste in the mouth and the foul breath caused by it, but the corruption of the pure current of blood and the dissemination of disease throughout the body. Dr. Pierce's Golden Medical Discovery makes the sour and foul stomach sweet. It does for the stomach what the washing and sun bath do for the churn—absolutely removes every tainting or corrupting element. In this way it cures blotches, pimples, eruptions, scrofulous swellings, sores, or open eating ulcers and all humors or diseases arising from bad blood.

If you have bitter, nasty, foul taste in your mouth, coated tongue, foul breath, are weak and easily tired, feel depressed and despondent, have frequent headaches, dizzy attacks, gnawing or distress in stomach, constipated or irregular bowels, sour or bitter risings after eating and poor appetite, these symptoms, or any considerable number of them, indicate that you are suffering from biliousness, torpid or lazy liver with the usual accompanying indigestion, or dyspepsia and their attendant derangements.

The best agents known to medical science for the cure of the above symptomatic conditions, as attested by the writings of leading writers and practitioners of all the several schools of medical practice, have been skillfully and harmoniously combined in Dr. Pierce's Golden Medical Discovery. That this is absolutely true will be readily proven to your satisfaction if you will but mail a postal card request to Dr. R. V. Pierce, Buffalo, N. Y., for a free copy of his booklet of extracts from the standard medical authorities, giving the names of all the ingredients entering into his world-famed medicines and showing what the most eminent medical men of the age say of them.

FATHER & DAUGHTER BENEFIT

Miss Wilhelmina McCharles of Pownsenne, Ont., writes: "I have proved Zam-Buk a healing balm for eczema. My father had it very bad on his hands and they were swollen very much. One night he decided to try Zam-Buk. I had previously used it for Ringworm which I could not remove until I tried Zam-Buk. This removed the Ringworm in a very short time. In the morning father's hands were very much improved. He therefore continued using Zam-Buk, and the eczema is now all gone. I hold Zam-Buk in high esteem as a healing balm."

ZAM-BUK

is Herbine, Soothing, Antiseptic. Of all druggists and stores, 50c. or postpaid from the Zam-Buk Co., Toronto.

Sports

The Y.M.C.A. Lacrosse Club practised on Riverside Park last night, and a game was played between the Juniors and Seniors. The following were out:—Daly, Burt, Rae, McCrea, Brat. Parnell, Killinbeck, Hird, Armstrong, Hart, Halpony, Weart, Taylor, Barber, Frowde, Nattress.

Last night on the Nicholls Oval, West Ends defeated T.A.S. in a well played game of ball by 6—4. The line-up was as follows;

WEST ENDS—
McNern, c.
Butcher, p.
Vinette, 1b.
Halpin, 2b.
Lose, ss.

News in Brief

London, June 24 — Postmaster-General announces from Washington that the weight allowed for parcels to Great Britain and Ireland will be increased to 11 lb as from July 1st. next.

NURSERY ON THE SANDS.

At Southport this week a unique experiment has been tried of establishing a day nursery on the sands, where the babies of excursionists could be cared for or enjoy refreshing sleep.

FIFTY-SIX YEARS IN ONE LIVING

Having held the living of Christ Church, Croydon, for fifty-six years, the Rev. O. B. Byass, M.A., has resigned. He was appointed when the church was consecrated in July, 1852.

400 ACRES OF HOUSES.

Four hundred acres of land, known as the Forster Estate, situate on the south-eastern extremity of Lewisham, are about to be developed for building purposes. Fourteen miles of road have been planned, and thousands of houses will be erected.

KING'S LETTER TO CENTENARIAN

Miss Bult, of Stoke House, Coventry, yesterday celebrated her hundredth birthday, and was the recipient of a congratulatory letter from the King. She is in full possession of her faculties, and comes of a family noted for longevity. Two or three of her sisters lived for upwards of a century.

FIRST-CLASS TRAMS.

The Tramway Committee of the Liverpool Corporation decided to try the experiment of running a first-class tram service on the principal residential routes, the fare on each penny section to be doubled. This decision is the outcome of complaints that coal heavers and others with dirty clothes are allowed into the ordinary cars.

Utica, N.Y., June 24.—Word was sent to the family of Hon. James S. Sherman in this city this morning that the Republican candidate for the Vice-Presidency had been compelled to go to a hospital in Cleveland, Ohio, and that Dr. Finney, of Baltimore, who attended Mr. Sherman during an attack of the same trouble in Washington last year, had been summoned by special train. Mrs. Sherman and one of her sons left for Cleveland by the first train. The news received here is very disquieting and it is said that Mr. Sherman is in a serious condition.

Extensive arrangements had been made to give him a great reception on his return this evening.

Ottawa, June 23.—A sensation was caused here by the disappearance of an Englishman named Robert Fullex, who has been employed in the tannery since he came to the country, last year. His wife states that he informed her that he was going to bathe in Pig on River, and as he did not return, a search was made, and his clothes were found on the bank of the river. For a whole day and night the river was thoroughly searched by villagers, but without finding the body. Much sympathy was expressed for the bereaved wife and two small children. Mrs. Fullex, however, has gone to Toronto, where it is rumored, Fullex is living now under the name of Robert Russell.

WARM ELECTION BET.

Covington, Tenn., June 26.—Within the next few days Covington will witness the spectacle of one of its prominent citizens parading the streets for three successive days, clad in heavy fur coat, fur cap, ear muffs and other winter clothing to match. Whether C. P. Boals, a prominent attorney, or J. L. Garner, an insurance man, will furnish the spectacle is to be decided by to-day's primary election.

Port Arthur, June 22.—Search for Olive Dupuy is still fruitless, though a large number of men have scoured the woods in every direction. Hope now of finding her alive has been abandoned, unless it be a kidnapping case, which is highly improbable. They are only looking to find the body now.

MISSING FIVE DAYS.

Pope, Ont., June 22.—It is now five days since pretty little Olive Dupray disappeared from No 96, C.P.R. train at this place, and the case is as deep a mystery as though the earth had opened up and swallowed the child. Searching parties have been organized, and systematically traced the bush for miles around. Beacon fires have been lighted. The constant whistling of trains have been kept up to attract the attention of the lost girl, if she be alive. Dogs are busily engaged scenting the ground for miles. The lakes around are being dynamited, and as yet, not the slightest trace of the missing child has been found.

Saturday night about 175 men organized a systematic search. They were composed of the extra gang of were men and bridge men, and for four miles west and from lake to lake, every inch of ground was fruitlessly gone over. Not a thread was found shedding light on the child's fate. Not a sound was heard to give encouragement. The anxious father has not slept for two days, and is loath to give up the search. Pine Lake is being dynamited from end to end. Both the father and the brother-in-law are of the opinion that there is foul play. The day the girl was missed several suspicious tramps were observed loitering about the bush. While two miles to the east two suspicious characters were seen.

Two miles north of Pope's mining camp, where many men are employed, Guthrie and Wiggins, the proprietors, are working heartily in the search. In another direction is an extra gang of 75 to 80 men, and fifteen miles north the Grand Trunk Pacific construction camps are located. These all unite in a systematic search.

OFFER A REWARD.

At Gilbert the passengers on the train from which the child dropped, united back a reward of $65 for the recovery of the girl, but there has been no claimants for the money yet. The C.P.R. officials are doing everything in their power to assist in the search, the engineering department, under W. K. Fraser, having been given over to search the bush, and the many parties are combing the woods as with a fine-toothed combed as far in every direction as the girl could possibly wander in the time she has been missed.

There is, however, considerable swamp through the area, and in the search several hours have been met with. The girl, however, could not have met with accident from this direction without some trace of her clothing being found. Dressed in white, she would be easily seen should she come within the ken of the searching parties. Mr. Dupray is a shipwright in Fort William, and his son-in-law, Mr. Wm. Higgins, who is with him in the search, is an organizer for the bridge construction work on the C.P.R. lines.

FACTORY INSPECTORS.

Toronto, June 26.—With the election and installation of officers and the selection of a place for holding the next convention, the twenty-second annual meeting of the International Association of Factory Inspectors will come to a close this afternoon. The principal object of the association is to promote uniformity in general laws of the different states and provinces, and much has been accomplished at the present session to accomplish this end.

Jack White used a home run at Rochester Saturday.

Joe Kelly's team finally won a game, beating Newark in the second game Sunday.

Had the Rochesters been able to bat with men on bases they might have won Saturday's game. Buffalo passed that ability and won 3—1.

Newark and Jersey City broke even in the double-header Sunday at Newark, the locals taking the first game. The scores were the same in both games, 2 to 0.

Providence defeated Buffalo 6 to 3 in a well played game at Rocky Point Sunday, though the Bisons had 10 hits.

Beware of Ointments for Catarrh that contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Lawn Service

Users of lawn services from the Waterworks are reminded that the regulations forbid the use of lawn services at any time except between the hours of 6 and 9 o'clock, a. m. and 4 and 8 o'clock p. m. and notice is now given that these regulations will be strictly enforced.

Notice

Take notice that the Municipal Council of the Corporation of the City of Peterborough intends after one month after the last publication of this notice, to undertake the construction of a sewer on Sherbrooke street, from George street to the Creek, and to assess upon the real property to be benefitted by such sewers, such proportion of the cost thereof as may be just, in accordance with the provisions of Sections 664 to 686 inclusive of The Consolidated Municipal Act, 1903, or so much thereof as may be applicable thereto, and subject to the provisions of such By-law or By-laws of the said Corporation now or hereafter to be passed as shall be applicable to the same, and the number of annual special assessments therefor will be thirty.

Persons desiring to petition the said Council against undertaking the said proposed work, must do so on or before the 3rd day of August, 1908.

Dated the 17th day of June, 1908.

S. R. ARMSTRONG,
Clerk.

—The first annual excursion of the Bricklayers' and Masons' Union will be held at Idyl Wyld on Saturday, afternoon, July 4, per steamer Otonabee.

Department Railway and Canals, Canada

Trent Canal
Holland River Branch
Notice to Contractors

Sealed Tenders addressed to the undersigned and endorsed "Tender for Trent Canal," will be received at this office until 16 o'clock on Wednesday, the 15th July, 1908, for deepening and improving of a channel way from a point in Cook's Bay—Lake Simcoe, Ontario, to the mouth of and up the Holland River, and the East branch thereof to the Bradford Road at Holland Landing.

Plans, specifications, and the form of the contract to be entered into, can be seen on and after the 22nd June, 1908, at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, at the office of the Superintending Engineer, Trent Canal, Peterborough, Ont., and at the office of the Division Engineer, Newmarket, Ont., at which places forms of tender may be obtained.

Parties tendering will be required to accept the fair wages Schedule prepared or to be prepared by the Department of Labor, which Schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signatures, the nature of the occupation, and place of residence of each member of the firm.

An accepted bank cheque for the sum of $2,000 must accompany each tender, which sum will be forfeited, if the party tendering declines entering into contract for the work, at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective parties whose tender are not accepted.

The lowest or any tender not necessarily accepted.

By order,

L. K. JONES,
Secretary.

Department of Railways and Canals, Ottawa, 17th June, 1908.

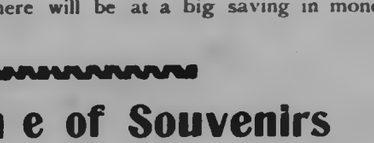
GREAT LABOUR SAVING DEVICE

The Penman & Sprang



DUPLICATOR

Will produce 100 copies in ten minutes, and is without doubt one of the greatest inventions of its kind ever conceived.

THE DUPLIGRAPH

The most reliable, cleanest, simplest, quickest and most up-to-date duplicating machine on the market.

It will reproduce one hundred facsimile copies of a pen written original in fifteen minutes; fifty to seventy five copies of an original written on typewriter or twenty-five copies of an original written with a copying pen.

The original is written on ordinary paper, with an ordinary pen, typewriter or copying pencil, and the copies can be taken on ordinary paper cardboard, wood or china.

Chas. A. Huffman, brick veneer dwelling on Maitland Ave., $1000

Rutherford Bros. have the contract for Mr. Kendry's new dwelling.

ADVERTISE IN THE TIMES.

Labor Refuses to Endorse Taft

New York, June 23.—The members of the Central Federated Union yesterday denounced Taft's nomination and the labor plank as adopted by the Republican Convention.

Rudolph Modest, delegate of the Cigarmakers—Taft is the representative of the money bags and trusts, and he won't get many labor votes. The workers won't be able to get their just rights from a man, who, when judge, granted the first injunction against a labor organization. No, Taft will not do.

William A. Coakley, delegate of the Lithographic Apprentices—Taft's past record against labor would have been overlooked had the convention adopted the labor plank as advocated by Samuel Gompers.

Albert Abrahams of the Pressman's Union—The so-called labor plank is no plank at all. It is right from a spectator. Taft is the father of injunctions.

Frank Bertzel, of the Machinists—Labor will give Taft a stiff fight because of his record and on account of the platform adopted.

James Wallace, of the Asphalt Workers—The injunction plank straddle will put Taft on the defensive with organized labor, and he will have much to explain in his letter of acceptance and on the stump.

R. W. Puckell, of the Amalgamated Woodworkers—Although I am a Republican, I will vote and work against Taft. Taft ought to be defeated, and a union man who votes for him should be expelled from his organization.

Maurice Howard, of the Caisson Workers—We would have overlooked the fact that Taft was the judge who granted the first injunction had the convention adopted the Gompers labor plank, but turned down as we were, we will do everything to keep Taft's labor record green in the memory of the working people.

James P. Holland, of the Eccentric Firemen's Union—I will first see who the Democrats nominate before I will express any opinion about Taft.

Herman Crossman, of the Garment Workers—We were entitled to fair treatment from the Republican convention, for labor is getting educated.

Elias Wolf, of the Cigarmakers—Labor will have much to say in the coming campaign. The Republicans have given us Taft, who will be a tough pill for the workers to swallow, but we must wait and see what kind of medicine will be handed out by the Democratic convention.

Dudley-Reid Wedding.

London, June 23.—With King Edward and Queen Alexandra smiling approval from their private gallery, Miss Jean Reid, daughter of the Hon. Whitelaw Reid, the United States Ambassador to Great Britain, was married this afternoon in the Chapel Royal of St. James's Palace to the Hon. John Hubert Ward, brother of the Earl of Dudley, and equerry-in-waiting to the King. The ancient chapel, one of the few remains of the old palace of the Tudors, in which Queen Victoria and several of her daughters were married, was prettily decorated with flowers for the occasion.

The invitations were limited to less than one hundred on account of the smallness of the church. A few minutes before three o'clock, King Edward and Queen Alexandra, accompanied by their suites, drove up from Buckingham Palace and proceeded at once to the Royal gallery, where the Prince and Princess of Wales, the Duke and Duchess of Connaught and Princess Patricia already had arrived. The officiating clergymen, accompanied by a surpliced choir, met the bridal procession at the door, and preceded it to the chapel, the choir singing "Lead Us, Heavenly Father, Lead Us." The Rev. Edgar Sheppard, Canon of St George's Chapel, Windsor, officiated. He was assisted by the Rev. William Grosvenor, rector of the Church of the Incarnation, New York, of which Mr. and Mrs. Reid have been members for many years, and the Rev. Hara Claughton, rector of Hutton-Bronwood, a cousin of the groom. The bride's dress was of soft white satin, trimmed with old rose point lace, given by her grandmother. The fronts of the skirt and waist were practically covered with this lace, which was caught up with tiny white rosebuds and orange blossoms. The court train was of the same material as the dress, and like it was trimmed with rose point lace. The veil, too, had a lace center and edging, and was held by a wreath of orange blossoms. The bride wore but three pieces of jewelry, and these were all old-fashioned brooches, the wedding presents of King Edward, Queen Alexandra and Mr. Ward.

Miss Jenny Crocker of San Francisco, a cousin of the bride, attended her, and was the only bridesmaid. There were also in attendance, five little children, two boys and three girls, all in quaint costumes of blue and white.

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, but they are symptoms only of a certain specific sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, where it is controlled, and never to Dr. Shoop and his Restorative. What you find original and highly vital principle, up such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We will send absolutely free to prove

Dr. Shoop's Restorative

Canadians to Hold Practice

London, June 23.—The Canadian athletes, Parkes, Buddo and Tait, are entered in the 600-yard handicap at the London Athletic Club games at Stamford Bridge on Saturday. Kerr and Buddo are entered in the 100-yard handicap; Kerr and Sebert in the 300-yard relay race. In the relay team race Kerr, Sebert, Buddo and Lukeman are entered. McCarthy has entered the quarter-mile, the mile and the five-mile handicap at the National Cycle Union meet.

Electrocute a Woman

Watertown, N.Y., June 24.—Guilty of murder in the first degree, was the verdict of the jury in the case of Mrs. Mary Farmer, charged with the killing of Mrs. Sarah Brennan, April 23. Justice Rogers sentenced Mrs. Farmer to be electrocuted at Auburn prison during the week beginning August 2.

Mrs. Farmer's victim, Mrs. Brennan, was her neighbor and intimate friend, and the motive was to gain possession of the Brennan home, deeds of which Mrs. Farmer had forged to October. Mrs. Brennan was hacked to pieces with a hatchet, and her body jammed in a trunk.

—The Y.M.C.A. Baseball Club will finish their game with the Wellingtons on Tuesday evening at the Oval.

Ready-to-Wear Department Second Floor

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

reserve may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at an Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead duties under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each on and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3) If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of a homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father or mother.

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line exclusive of the width of road allowances crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the agent for the district of such intention.

Six months' notice in writing must be given to the Commissioner of Dominion Lands at Ottawa, of intention to apply for patent.

W. W. CORY,
Deputy of the Minister of the Interior.

N. B.—Unauthorized publication of this advertisement will not be paid for.

You cannot possibly have a better Cocoa than

EPPS'S

A delicious drink and a sustaining food. Fragrant, nutritious and economical. This excellent Cocoa maintains the system in robust health, and enables it to resist winter's extreme cold.

Precious Life and Health can be Saved By this New Method All Sickness is Alike to

OXYDONOR

It applies to all cases, no matter what the form of disease may be. It revitalizes the human body with OXYGEN from the air. OXYGEN is a vital Necessity—the greatest necessity life knows.

You can apply Oxydonor at home while you rest or sleep. No loss of time from your work or business. It is easily applied, safe, and always ready for use. Its force never exhausts. It will serve the family, children as well as adults.

Mr. Wm Beers, 196 York St., Toronto writes: "It is a pleasure in recommending your Oxydonor. When I first got the instrument I was suffering from Sciatica for about four months, and after applying for five weeks it left me all at once and have not been troubled with it since. I can highly recommend it as a good family doctor, and would not be without it for double the price.

How to Tell

If the Kidneys and Liver are Not Acting Well.

Thousands die every year from aggravated kidney distress that could have been saved if they only knew.

Your back may ache, you think it's tiredness or physical weakness.

You grow irritable and nervous—it's put down to loss of sleep.

Joints ache, muscles get sore,—that's all put down to bad weather.

Then digestion gets poor, appetite fades away, color bleaches, spirit droops.

Can't you see it's all from your over-worked kidneys, which can't keep the body clear of poisons that are now surging through the whole system.

Cure your kidneys with Dr. Hamilton's pills.

"When I was so stooped and back weary, so lame and sore with kidney and bladder trouble, I cured myself quickly with Dr. Hamilton's Pills" writes C. C. Ferrier, a well known merchant in Plainsville.

"Dr. Hamilton's Pills touched the spot at once, gave my back ease, lifted depression and weariness, made a new man of me. I can also say for a good spring medicine to clear and enrich the blood Dr. Hamilton's Pills have no equal."

The housewife whose aching back makes every little duty a burden, the working man who is tired all day and can't rest at night, whose back aches, and whose feet swell—these people have kidney trouble. Women whose kidneys are sick, suffer continually from blind and sick headaches, faint and dizzy spells, bearing down pains, sharps twinges when stooping, distressing urinary troubles, aching muscles and joints, lack of appetite and loss of sleep. Reach the cause. Cure the kidneys. Use Dr. Hamilton's Mandrake and Butternut Pills, which have cured thousands. 25c. at all dealers.

Since Chief Black Cloud has come to town, many people have tried his Blood Purifier, and Results have Delighted them in case derangement of the stomach liver kidney and blood. Will be here all summer and manufacture his medicines, made from roots, herbes and barks. Take the car and call on him at

Firemen Wanted

Applications will be received by the undersigned up to 12 o'clock noon,

JUNE 27TH

for the position of Firemen on the permanent staff of the Peterborough Fire Brigade.

Address,

W. A. HOWARD,
Care of City Clerk.

City Topics

IN SHORT FORM FOR BUSY READERS

—The W.M.S. of Knox church meets this afternoon at 3.30.

—A garden party took place at Ida last night.

—There will be a partial eclipse of the sun Sunday morning, beginning at 9.43.

—The entrance examinations commenced yesterday morning, and will be concluded Friday evening.

—Nicholas Hospital was struck by lightning Tuesday night.

—The grounds in front of the new Collegiate Institute is being prepared to have the sod laid.

—The bridge over the creek at King street, was replanked yesterday.

—The results of the Separate school examinations which have been going on this week will be published in a week or two.

—Bert Middleton of the 4th line Smith, has replaced the old windmill, which was blown to pieces a month ago, with one of Goold & Co's make.

—Mr. Andrew Hannah of Ida, was found dead in bed on June 16th. He had been ill for some months. Deceased was night watchman on the dredge on the Cavan swamp.

—The George street church is being re-shingled. The roof of the church is almost perpendicular, and the men find it a very difficult and dangerous job.

If one feels dull and spiritless, in the spring or early summer, they call it "Spring Fever." But there is no fever—usually. It is the after-effect of our winter habits. The nerves are mostly at fault. Tired, worn-out nerves leave us languid, jobless, and without spirit or ambition. A few doses of Dr. Shoop's Restorative will absolutely and quickly change all of these depressing symptoms. The Restorative of course won't bring you back to full health in a day or two, but it will do enough in 48 hours to satisfy you that the remedy is reaching that "tired spot." Druggists everywhere are advising its use as a splendid and prompt general tonic. It gives a more vim and more spirit to the spoonful than any other known nerve or constitutional tonic. It sharpens a failing appetite, aids digestion, frees sluggish livers and kidneys, and brings new life, strength and ambition. Test it a few days and be convinced. Sold by all dealers.

Personal

—Mr. D. O'Connell was in Toronto on business yesterday.

—Miss Emma Scollard, of Young's Point, is in the city visiting.

—Miss Edith Tully went to Chemong yesterday to spend a month.

—Mr. L. Powell, of the local branch of the C.P.R., is spending his holidays in Winnipeg.

—Miss Nellie Spooner of Kingston, is the guest of Miss Edith Hunter of Mark street.

—J. Dean, east ward, was in Warkworth yesterday attending the funeral of his cousin.

—Mr. Chas. H. Sawle, editor of the Preston Progress, was in the city yesterday.

—Mr. and Mrs. C. A. Yule of Colborne, are spending a few days in city as the guests of Mrs. J. Ritterson, 335 Reid street.

—Ald. Elliott, sprained his ankle while going to the fire on Harvey street on Monday, and was confined to his bed till yesterday evening.

—Mrs. C. S. Griffith of St. Louis, is visiting her mother, Mrs. J. McNicholl, Stewart street.

—Mr. C. R. D. Booth, County Councillor, and Miss Amy, left the city this morning for their home in Apsley.

—Mr. Victor S. McCarthy, late of the Queen's Hotel, Barrie, has entered upon his duties as clerk at the National Hotel.

—Mr. W. E. Williamson, of Alpena, Mich., is visiting at the home of his parents, 187 Aylmer street, for a few days.

—Mr. Hugh Flaherty, who was called home by the sudden death of his father a month ago, has returned to Port Arthur.

—Mrs. Donald Menzies leaves this evening on the C.P.R. for Vancouver, B.C., where she will visit with her brother, Mr. George McBain. Her niece, Miss Clara Lowes, accompanies her.

—In the list of those having passed the second year's examinations in law at Osgoode Hall, appear the names of two Peterborough young gentlemen—Mr. Herbert S. Wood, son of Mr. E. E. Wood, County Crown Attorney, and Mr. Basil D. Hall, son of Mr. E. H. D. Hall, City Solicitor. The former made an excellent pass, taking an average of 74 per cent. in all the subjects.

Laid at Rest Yesterday Afternoon

The remains of the late W. J. McCallum, were laid to rest yesterday afternoon in the Little Lake cemetery. The Masons had charge of the funeral, and turned out in large numbers in evidence of the respect in which their departed brother was held.

The following societies were also represented; Elks, Knights of Pythias and Oddfellows. The pall bearers were; W. G. Morrow, J. S. Knapman, Monroe Comstock, R. Glover, E. Mahon, R. M. Waddell. The floral contributions were many.

General Servant Wanted

A good general servant wanted. No children, and every modern convenience. Apply box 100. Times office.

Had His Fingers Broken

Mr. Will Clancy of Water street, met with an accident in the Cordage Works, yesterday morning, having two fingers on his right hand broken.

Has Moved to George Street

T. J. Mitchell, wine and liquor merchant, has removed from Hunter St. to R. A. Dutton's old fruit store, George street, and will do business there today. The Times will commence to remodel the vacant store and the contractors will have it ready when the new printing department is finished.

Just Discovered It.

Before a New York dairymen's convention Mrs. Marshall, one of the proprietors of a dairy farm, gave a knock at some of the dairy advice so freely floating around at present: "In every movement looking to the reform or betterment of degenerate conditions, the existence of which has been perfectly obvious to thinking people, there arises a class of 'just-discovered-it maniacs' who fairly froth at the mouth in their zeal to outdo each other in correcting the abuse. For a few years the dairy has been the target of surplus wrath. It has been specialized, scrutinized, sterilized, pasteurized and paralyzed. Some of the latest items since the reformers have had their fling are: 'There is nothing but dirt in the dairy, and you keep everlasting at it.' 'And you tell everybody of your gymnastics to keep the dairies sanitary, and you shout it from the housetops, and you write it to the dairy papers,' and soon your labors will be all done, for nobody will want your milk or butter."

The Last Cigar in the Box.

"The last cigar in the box is the hardest to sell," was the remark of a Front street dealer. "Not because it is not as good as any other cigar, but because of the superstition of the average man against taking the last of anything. As a result we often take one cigar, or even two cigars, of the last cigars in a box and put them on top of the cigars in a full or almost full box. On the other hand, I ought to mention that there are men who prefer the last cigars and who ask us to save the last cigars in the boxes for them every day, sometimes to the number of six or seven daily, for which they call every evening. We have them no trouble in disposing of these last cigars, but the contrast in the conduct of the two styles of customers is curious."—Philadelphia Record.

June Brides

Hughes—Williamson

A very pretty wedding took place at the residence of the bride's parents, Mr. and Mrs. Thos. Williamson, 187 Aylmer street, when their oldest daughter, Edna M., was married to Mr. J. J. Hughes of Morley, Alberta. The bride was assisted by Miss Robinson of Lindsay, and the groom, by Mr. L. G. Williamson, Toronto, brother of the bride.

The bride was attired in a costume of white organdie over white lace. The bridesmaid's dress was pink chiffon over pink silk. The bride's going away dress was champaign silk with hat to match. The bride carried white roses and the bridesmaid pink. The ceremony was performed by Rev. Mr. Manning of Charlotte street Methodist church. The groom's present to the bride was a handsome piano.

The happy couple left yesterday evening on the 4.45 C.P.R. for Toronto, Hamilton and Buffalo. They will reside in Morley, Alberta, where the groom is a telegraph operator.

Building Permits Issued

The following building permits were taken out last week.

Jas. Kendry, solid brick dwelling on Water street, $4500.

Mrs. Catherine Walker, brick veneer dwelling on Elm street, $1400.

Chas. A. Huffman, brick veneer dwelling on Maitland Ave., $1600.

Rutherford Bros. have the contract for Mr. Kendry's new dwelling.

The Farmers' Excursion

An Important Event to Take Place Today

In noticing this excursion in yesterday's issue, we inadvertently used the word "Institute," for which we beg to apologize to Mr. Collins, the genial and magnetic secretary of the Farmers' Institute. We may explain that some years ago the Farmers' Excursion was quite a feature among the excursions of the season to Rice Lake—the Farmers' organizations which contributed to the success of these excursions commenced to decline, which had a marked effect upon the success of these outings, and for a time they were discontinued.

Last year, however, an effort was made to revive them, and a trial excursion was made from the usual points on Rice Lake. The success of last year's excursion to Idyl Wyld, so well pleased the farmers and their friends from the counties of Peterborough, Durham, and Northumberland that they decided to make it an annual affair. After discussing it in conversation among themselves, and also by the chairman from the platform, it was moved by Mr. Geo. Berry of Cavan, and seconded by Mr. John Smithson, of Otonabee, both well known leading farmers in their respective townships;

"That the farmers here assembled and their families, and their friends from everywhere, have an excursion to this place, every year on the third Thursday in June." This resolution was carried unanimously.

This year it was thought advisable on account of the late spring to hold the excursion a week later.

To Canadian Investors

The undersigned has received an allotment of unsold portion of $100,000 of

7 PER CENT FIRST MORTGAGE FIVE-YEAR-OLD BONDS

dated January 11, 1908, and maturing January 11, 1913. These Bonds are offered at par and accrued interest by Metropolitan Trust & Savings Bank, Chicago, trustees.

SECURITY—The Entire Property and Improvements Owned THE URES CONSOLIDATED MINING COMPANY in the District of Ures, State of Sonora Mexico, Free from Mortgage or Bonded Indebtedness except this present Bond issue.

An Unusual Opportunity for Investment in Sound Security

The Ures Consolidated Mining Company offers $100,000.00 of First Mortgage Gold Bonds. This issue of bonds is the only mortgage or bonded indebtedness ever placed on the company's properties.

These bonds are in the denomination of $100.00, and bear interest at the rate of 7 per cent. per annum, payable semi-annually, July and January, and are redeemable on or before five years from date at the company's option at $110.00 and accrued interest.

$100.00 Stock Bonus Given with Every $100.00 Bond

With each bond issued there will be given $100.00 par value of the capital stock of the company as a bonus, and in addition thereto there will be placed in escrow with the Trustee additional stock which will be available to the bondholders at their option any time within a period of three years, the bondholder being entitled to surrender his bond any time within said period and receive in lieu thereof stock for every dollar of indebtedness to him on account of said bonds.

The Security Back of these Bonds

The company owns twelve claims situated in the district of Ures, State of Sonora, Mexico, free from mortgage or bonded indebtedness, except the present bond issue.

On one of these properties (The Ramona Mine) 5,000 feet of underground development work has been done, consisting of an inclined shaft to the depth of 400 feet with drifts in three levels to the North and South of the shaft.

An average value of ore worth $11.47 per ton is exposed throughout the mine, from the collar of the shaft to the extreme parts in the drifts, all of which is above water level.

The company has made surface improvements and mine improvements to the extent of $50,000.00 in the way of machinery, skids, trams, steam hoists, mill and nearly everything necessary to make the mining camp complete.

In addition to the absolute ownership of these twelve valuable claims, the company has a lease on the San Jose Mine, adjoining its property, in which the company has been operating in high grade ore.

During the past sixty days the company has extracted and delivered to ore buyers and the bank at Hermosillo, $3,000.00 worth of ore and bullion, the ore having been reduced to bullion through the company's mill, with the exception of 1,464 pounds, which was sold to an ore buyer for $502.50.

The Money Derived from the Sale of These Bonds

This issue of bonds is made for the purpose of securing money at once in order to extend the development work more quickly than the company's present means will permit.

With the high grade ore in sight to the distance of 80 feet to the South of the shaft, the management is assured that within six months from date of making the improvements now necessary the company's properties will be on a self-sustaining and dividend-paying basis.

The Stock which is Given with these bonds will be as valuable as the bonds when the Company has the ready capital to push operations

Men who invest in these bonds will have no cause or reason to regret their action, for the bonds afford an investment in a security which is absolutely safe—much better than ordinary city or country real estate, which is considered perfectly safe if the property put up to secure a mortgage is double the face of the loan. The security given on these bonds is better than 7 to 1, for the Ures Consolidated Mining Company has refused an offer of $750,000.00 for the property upon which this $100,000.00 worth of bonds is issued.

These bonds are an investment with all speculative risk eliminated—an investment with absolute security.

Make your reservation at once. This is small and promises to be quickly sold.

CAPITAL $1,500,000 RESERVE $950,000

Banco de Sonora,
Hermosillo, Mex.,
Feb. 11th, 1908.

To whom it may concern:—

We hereby beg to state that The Ures Consolidated Mining Company has during the past five years made several deliveries of bullion to this bank, and it is the opinion of mining men here that they have the making of a fair mine, and further, that the properties owned and controlled by them bid promise of becoming paying properties.

From our knowledge of the men connected, we believe they are doing all in their power to bring about the results above mentioned.

Respectfully,
BANCO DE SONORA,
Max Muller, Gerente.

FISCAL AGENTS PETERBOROUGH ONT

"The Prevention of Tuberculosis

in the lungs depends, says a prominent Medical Journal in part, upon food thoroughly munched before it is swallowed, and upon the avoidance of constipation, not by taking physic, but by eating sufficient vegetables, fruit and other food containing cellular waste, also thoroughly munched, to maintain the muscular tone of the stomach and intestines; for the beginning of consumption often follows indigestion and constipation."

It is well known that if "good digestion waits on appetite" all the forces of the body are better able to ward off disease.

GRAPE-NUTS

by restoring digestive power and rebuilding nerve tissue, is ideal as a basis of food for strengthening the individual with a "tendency towards tuberculosis."

With cream, it is delicious appetizing, easily absorbed and highly nourishing.

BLOOD KILLS GERMS

Good Blood Made by Good Food.

If one can surely turn food into good red blood it will combat any and every disease known and conquer completely more times than the disease will win.

Any physician will tell you that good, rich blood and plenty of it, is the best germicide known and surely and safely cures disease when medicines fail; the effort of the doctor is to give food that digests and quickly makes blood.

No food ever discovered will do this as certainly as Grape-Nuts, which is predigested at the pure food factories where it is made.

One of the many illustrations is that of tuberculosis, which refuses to yield to medicine but must give way to good blood. A man from Phila. writes:

"I have been fighting tuberculosis for some years and, with a weak stomach, was losing ground slowly every year.

"I had tried all kinds of food and finally got so far along with the disease that my stomach, liver, kidneys, bowels, and lungs were affected. My stomach got to a point where it would retain no food but peptonized milk and I was down to 99 lbs. in weight.

"The doctors said about two years ago that I had but a month or two more to live. About that time I was put on Grape-Nuts and cream. It made or showed the first sign of coming up, but agreed from the start and in a few days I began to feel increased strength, so I kept on, with the result that the healthy blood has driven the disease from every organ of my body except the lungs and is slowly driving it from them.

"I have gained greatly in vitality and strength and added 20 lbs. to my weight. If I can keep on as I have been, it seems clear that I will get entirely well, thanks to old Dame Nature, who's work was made possible by Grape-Nuts food which I could digest."

VOL. XXXVI., NO. 150 PETERBOROUGH, ONTARIO, FRIDAY, JUNE 26, 1908. PRICE TWO CENTS

About 1,500 People Attended the Farmers' Excursion to Idyl-Wyld

Many farmers from the County of Peterborough, and the townships surrounding Rice Lake, held a very successful picnic at Idyl Wyld yesterday. About fifteen hundred of the farmers and their friends took part in the outing.

The sail down the Otonabee from Peterborough, was much enjoyed and expressions of delight were heard on every side from many of the pleasure seekers on board the splendid excursion steamer Otonabee, the steamers from all the points reached Idyl Wyld about 12 o'clock. The usual proceedings incident to lunch was then entered into when ample justice was done to the contents.

At two o'clock Mr. Dawson Kennedy took the chair, and called the people round the platform and explained the nature and object of the annual outing of farmers to the place, and called the following gentlemen to the platform; Chas. C. Morgan of the Ontario Dairyman, J. Lockie Wilson of Toronto, Inspector of Fairs and Exhibitions, J. H. Burnham, Peterborough; J. A. Sexsmith, Belmont; G. A. Gillespie, Peterborough, Robt. Scott, Reeve of Smith, Joshua Smithson, Otonabee, J. H. Garbutt, Smith; Geo. Berry, Cavan, T. Donaldson, Cavan; E. M. Elliott, Peterborough; T. M. Hunter, Monaghan.

Interesting and instructive addresses were delivered by Mr. Wilson, Mr. Nixon and Mr. Burnham. Short addresses were also made by Messrs. G. M. Elliott, Hunter, Sexsmith, Smithson, Scott and Roberts of Alnwick.

The meeting came to a close with a vote of thanks to all the speakers and a motion to hold the next excursion a year from now.

Port Hope Suicide a Peterborough Man?

Toronto, June 25.—William D. Wallace, aged 45, 265 Montrose avenue, an iron moulder, committed suicide at Port Hope yesterday. Some days ago he went there looking for work, but failed to find it. Being without funds he slept in an old sleigh standing behind the Queen's Hotel. Yesterday he was found lying dead in the sleigh with an empty bottle of carbolic acid beside him.

Wallace had lived in Toronto for years, and was formerly employed by the Standard Ideal Enamelling Works. He leaves a wife and family in Toronto.

LATER.

Toronto, June 25.—The report in the morning papers that William D. Wallace, 265 Montrose avenue, had committed suicide yesterday at Port Hope, where he was out of work, is incorrect. A man named Wallace did commit suicide at that town, but he is a Peterborough man. Mr. Wallace, of Montrose avenue, has not been out of work, and has no intention of committing suicide.

Then the Star called this morning at his residence, which by the way he is building and is not completed. Mrs. Wallace stated he had just gone to work as a moulder at the Pease Co.'s foundry.

The cheerful air that pervaded the house scarcely suggested knowledge of a suicide.

"Have you heard of Mr. Wallace's death?" ventured the reporter.

"No," said Mrs. Wallace, becoming alarmed. "I have not. What is the matter?"

"We have a report that he committed suicide at Port Hope yesterday."

"Oh!" with relief, "then that is not true. He was at home last night and went to work this morning. I thought, maybe," she explained, "he had been hurt at his work."

In the Realm of Sport

CRICKET.

Peterborough Cricket Club opened their season yesterday with a match against Warkworth. The home team batted first, and after losing nine wickets for 33, Cyril Hill and Marshall added 31 for last wicket, making the total 64, the former making 19 not out, and the latter 17. Warkworth were dismissed for 45, but on Peterborough going in second time they collapsed utterly, being out for a miserly 13. Warkworth hit off the 33 runs necessary to win for the loss of one wicket, thus winning the game by nine wickets. The return match takes place at Warkworth on July 1st, when Peterborough with a strengthened side, hope to avenge yesterday's defeat.

The Peterborough team was as follows;

Clarke.
Hill.
Doucette.
Elliott
Gibbs.
Edwards.
Holmes.
Benson.
Burton.
Marshall.
A. N. Other.

WALKING.

The go as you please race and walk that will be held in the Brock street rink on the afternoon and evening of July 13th should be well patronized. There should be a big field of entries for both events.

William and Joe Spencely will be among the starters in Lindsay's four day walking race, which will commence July 1st.

FOOTBALL.

The Quaker Football Club defeated Bethel at Ida on Wednesday, by a score of 2 to 0, thus adding another victory to their long list.

BASEBALL.

The Chestnuts accept the challenge of the Invincibles, game to be played at G.N.S. picnic, July 1st. Full expenses of club are paid.

Following are the results of the baseball games played in the three big prof. leagues yesterday.

Dredging at Dam No. 5

The dredge Emmerson is engaged below Dam No. 5, above Nassau, dredging out the entrance to Lock No. 5, which is somewhat narrow. The steamer Empire is attending it. After concluding its work there the dredge will go to Lakefield and clear out the reaches from there down to the city. Its next work will be between Fenelon Falls and Cameron Lake.

The "Bob Hall" is at Rosedale now bringing down to Peterborough a scow load of machinery, including boring apparatus for locating places for locks, which have been used by the engineers there. The machinery will be stored in the canal store houses here.

The steamer Bessie Buttler was Gamebridge yesterday, and is expected down in Peterborough this morning. She will probably take charge of the new scow which is almost completed. This scow is the only one of its kind on the Trent Canal. It is completely covered with a water proof roof and sides. Its first commission will be the carrying from Lakefield to Buckhorn of 2,000 bags of cement. That is equal to two car loads and weighs 200 tons.

Today the building of a new coal shed on the C.P.R. spur line above the C.P.R. bridge was begun. It will be used for coaling the boats with.

The steam tug Dawn came down the canal yesterday with another load of stone for the Roman Catholic church.

Volunteer Fire Brigade Excursion to Idyl-Wyld

The Fire Brigade are going to commemorate the passing of the old volunteer fire brigade to a paid brigade, by running an excursion on Monday, July 6th to Idyl Wyld per steamer Otonabee.

Funeral of Late Mrs. J. Flavelle

Lindsay, June 25.—The funeral of the late Mrs. John Flavelle, who died in Toronto, on Tuesday last, took place from the residence of her son, John D. Flavelle, Bond street, this afternoon at two o'clock, to Riverside Cemetery, where the remains were interred in the family burial plot. An immense concourse of friends and relatives from town and from distant points were in the procession, and the citizens of Lindsay were strongly represented, nearly every business man in Lindsay being present. Services at the house were conducted by former pastors of the Cambridge Street Methodist church, Rev. S. J. Shorey, Rev. Geo. Henderson, and Rev. Dr. George Bishop. The pall-bearers were the three sons of the deceased—Joseph W., of Toronto, John D., and William of Lindsay—and Flavelle of Lindsay, and Ellsworth Flavelle of Toronto, nephews, and Prof. W. S. Milner, Toronto, son-in-law.

Among the mourners and old friends from this town and from a distance were Joseph Cooper of Lindsay, W. E. Rundle, James and Thomas Mungovan of Toronto, James Stephenson and F. H. Dobbin of Peterborough.

The deceased lady was universally beloved and respected by all classes in the community, and her family have the sincere sympathy of all the citizens of Lindsay and county in the dark hour of their bereavement. All business places on Kent street were closed during the passing of the cortege.

THE CHARM OF BEAUTY

Nothing of More Value to Women.

The glory and satisfaction of beautiful womanhood can be known only to those possessing the unlimited advantages of health.

No weak woman can be happy or enjoy half the pleasures of life. Pallid cheeks, sunken eyes, exhausted nerves, all tell of a terrible struggle to keep up.

What the weak woman needs is Ferrozone; it renews, restores and vitalizes instantly—it's a "woman's remedy"—that's why.

Ferrozone makes women strong, plump and healthful because it contains lots of nutriment, the kind that forms muscle, sinew, bone and nerve.

Vitalizing blood courses through the body, making delightful color, happy spirits, true womanly strength.

To look well, to feel well, to enjoy the unlimited advantages of robust, bounding health use Ferrozone; sold by all dealers in 50c boxes, and refuse a substitute.

Hears That Employees of Cole Bros.' Circus Were Brutally Treated

Man Hired at Toronto by Circus May have Been Thrown Off Train--Coroner's Jury Recommend That Cole's Circus be Detained

THE CORONER JURY'S VERDICT.

Toronto, June 25.—"That the said man, unknown, was found dead on the track of the T. & N.O. Railway at mileage 87 1-2 on Tuesday morning, June 23rd, 1908.

"That the said man, unknown, met his death by falling or being thrown off Cole Bros.' circus train. We strongly recommend that investigation be made by Provincial authorities, as evidence given by two employes of the circus gives good ground for suspicion that deceased was thrown off the train.

"That evidence goes to show that an employe was ill-treated at Woodland Station on the T. & N.O. Railway, by men in authority.

"That employes who asked for wages at Haileybury were refused and were afraid to go further, fearing that they also would be ill-used.

"That the aforesaid circus carries a commissary van at which employes may at any time buy, whisky and other liquors. The evidence points that witnesses purchased liquor at said van on Sunday, last near North Bay and at Haileybury.

"That the employes who left the circus at Haileybury had had no food from the time they left Smith's Falls Saturday afternoon until their arrival in Haileybury Monday morning.

"The above evidence warrants them recommending that Cole Bros' circus be detained until further investigation into the causes of the circus be detained until further investigation into the causes of the above and unknown man's death be made by proper authorities."

Haileybury, June 25.—The inquest on the body of the unnamed man found yesterday morning at mileage 87 1-2 was held by coroner Codd at Latchford yesterday.

Tom Kelly, an ex-employe of Cole Bros' circus, the first witness, testified that he had chummed with deceased, and both decided to quit at Haileybury. The deceased had joined at Toronto, but he did not know his name other than that he was called "Fatty." When he asked for his pay he was told to "wag till we get to North Bay."

Kelly told him not to go to North Bay with the circus, or else they would "ditch" him as they had done another fellow on Sunday near North Bay.

CLUBBED BY BOSS.

W. J. Lawler, another circus employe who had quit at Haileybury, told of seeing deceased about six o'clock Monday evening and advising him not to go back near the circus once he quit. He also told of seeing a fellow being thrown off the train at Woodlands, a flag station on the T. & N.O. Ry., on Sunday morning. This fellow was clubbed by one of the "bosses," as well as being thrown off. Witness interfered and was told he would be the next one, hence his reason for quitting the circus.

LIQUOR ALWAYS AT HAND.

Another piece of information that was brought out in his evidence was that a commissary van was kept by Cole Brothers, whereby any employe or railroad men could get whiskey and other liquors on any day or any time providing he had the price.

The witness also stated that no meals had been given the canvas men or stock men from Saturday afternoon until Monday morning.

The jury were out for about an hour, and brought in the verdict appearing above.

A photograph was taken of the dead man's head, after which he was buried at Latchford. There is no clue to his identity, and until Cole Bros. are notified his name will be a mystery. From the witnesses it was learned that he never touched whiskey, but occasionally took a glass of beer.

HEAD CLEANLY SEVERED.

The dead man's body was first seen by Engineer Morgan on the Cobalt express, while looking out of his cab window on Tuesday morning at a point on the line midway between Temagami and Latchford. It was the terribly mangled body of a young man about 30 years of age, of spleudid physique, lying in the ditch. The head had been carried about 50 yards from the body, having been cut off as with an axe, showing hardly a bruise, and with its shock of curly black hair presenting a peculiarly gruesome appearance.

The circus was at North Bay on Tuesday.

Hamilton, June 25.—Before leaving here the Cole circus almost lost its baby elephant. John Hule, the chef of the cookery camp sent a bait of down to secure it for $32 wages. The money was then paid.

Men purporting to sell tickets for the circus, worked a fraid game here, but people got their money back by calling in the police. The circus and the men were not its employes.

HAVEN'T HELD UP CIRCUS.

Officials at the Attorney-General's Department said this morning that they had received no news as to the request to hold up the Cole Bros.' circus, and thought a whole circus was rather a big proposition to handle in any event. The Crown Attorney telephoned the department when the matter was brought to his attention, and the constable at Cobalt was at once instructed to proceed to the scene of the trouble. Constable Baldock was told that he would be sent a detective from the department if he found the circumstances warranted it.

Depicts War Between Japan and United States

Berlin, June 25.—A book, the title of which is "Banzai," and the author of which writes under the pseudonym of "Parabellum," will be published here today. It depicts phases of "the approaching war" between the United States and Japan, in which the latter is shown as invading America without warning, occupying the Pacific Coast States before Washington is aware of the outbreak of hostilities. Incidents of fighting, with the eventual defeat of Japan, are interspersed and there is discussion of the political aspects and of international relations as well as the naval policy of the United States.

Most Bitterly Fought Game Ever Seen Here

One of the hardest and bitterest games of the season will be pulled off at Riverside Park on Saturday afternoon when the Petes and Athletics clash for the second time this season. That it will be a stubborn contest is putting it mild. The keenest of rivalry exists between the two teams and their supporters, as was evidenced in last Saturday's game. The Athletics will further strengthen their team and are duped out by many to take the first fall of the season out of the Petes. Manager Johnston's outfit cannot see it this way, nil are preparing for the fray. They are on the diamond every day getting right into tip top shape. Capt. Cormy Burns and his nine are aware that they are up against a stiff proposition on Saturday. It will be a great day for the fans. Get your money ready.

Ladies will be admitted free to the game.

A Warning to the Public re Prince Rupert

A notice with the above heading has appeared in the "Vancouver World," signed by the Prince Rupert Townsite Company, 43 Fairfield Building, Vancouver. A statement is therein made that their property is the original and only legal Prince Rupert, and the Railway Company own 4,000 to 5,000 acres of arable land immediately surrounding the same.

The above statements misleading and incorrect as the only townsites registered are; South Prince Rupert, owned, it is understood, by the Company who signed the above warning, and the Township of Prince Rupert at the terminus of the Grand Trunk Pacific Railway situated on the North-West portion of Kaien Island. The distance between these two towns is over eleven miles, and the Grand Trunk Pacific Railway Company is not in any way interested in South Prince Rupert, nor is it the intention to have a station at that place.

East Prince Rupert so-called in various reports which have appeared in the press, is not registered; the sub-division referred to is situated over 16 miles from the terminus of the Grand Trunk Pacific Railway and is not on the line of that railway.

The Prince Rupert at the terminus of the Grand Trunk Pacific Railway is now being surveyed, and it is expected the lots will be placed in the market in September or October next, due notice of which will appear in the public press.

Any further information the public may require can be obtained by addressing the Land Commissioner of the Grand Trunk Pacific Railway.

57th Regiment Inspected Last Night

There was a splendid turnout of the 57th Regiment for inspection last night at Riverside Park. The men mustered at the drill shed and headed by the two bands paraded to the park where inspection took place. The inspection officers complimented the officers and men on their fine showing, both as to neatness of dress and drill. The inspecting officers were, Col. Gordon, Col. Young, and Paymaster Conger. The pay roll was called after parade.

For Stony Lake

Steamer Water Lily will leave Wolfe street wharf for Stony Lake today (Friday, 26th instant), at 9 a.m. Freight and passengers. Return Saturday. Tickets 50c., returns 75c.

Mrs. H. F. Strickland Narrowly Escapes Death?

Toronto, June 25.—One of East Toronto's municipal street poles was nearly the cause of an accident on McLean avenue this morning. Mr. H. F. Strickland lives at No. 47, and opposite his residence is a pole which has already been reported as rotten. It proved to be this morning. A tall maple tree was being felled by corporation employes. It was thrown in the wrong direction, and struck the street wires. The pole snapped off and fell in the direction of Mr. Strickland's house.

Mrs. Strickland was sitting on the steps with a baby in her arms. She saw the pole coming, and jumped just in time. It struck exactly where she had been sitting, and might have killed her had she not noticed its fall and acted promptly.

The same old pole, minus four feet its length, has been stuck in the ground again.

Mrs. Strickland is well known here being the wife of Mr. H. F. Strickland, formerly of Lakefield, and son of the late Henry Strickland, of East Ward.

Preliminary Hearing of Four Alleged Pickpockets

J. Adams, James Graney, Geo. Williams and Henry Hamilton, the four men arrested circus day by P.C.'s Newhall and McHarry, appeared before Magistrate Dumble yesterday morning on the charge of picking the pockets of Mr. E. McTaggart of Brockville and James Groves of Gordon appeared for the prisoners and pleaded not guilty, and asked that all witnesses be excluded, Mr. Wood, Crown Attorney, objected saying he could not get along without the constable's assistance. After considerable arguing, P. C. Newhall was called first and the others excluded. His cross examination was left over till Saturday afternoon at two o'clock when preliminary hearing will be concluded.

P. C. NEWHALL.

P. C. Newhall was the first witness. He said that he was on duty the 17th day of June. He told his story as follows:

"About 11 o'clock that morning I noticed the prisoner Williams, in the vicinity of the C.P.R. station. I watched him for a couple of minutes. I met the 11.16 train in the C.P.R. I then came to the police station, talked to the chief and then went to the G.T.R. station. I again noticed Williams. When the train came in from Lindsay there was a large crowd, there being two wedding parties. I noticed the other three prisoners on the platform of the rear of the second coach. A large number were trying to board the train. Adams the prisoner came down the steps first. Mr. E. McTaggart was trying to board the second coach. Adams got behind him on his left hand side. Hamilton got in front of Mr. McTaggart and Graney stood on the gentleman's right. Adam's right hand went into Mr. McTaggart's left hand pants' pocket, pulled out what appeared to be a pocketbook. Hamilton and Graney pushed him, knocking him down. The three quickly got out of the crowd, all going in different directions till they reformed Charlotte street. Williams remained on the platform. When the three reached the freight sheds, Graney remained on the sidewalk and Hamilton and Adams got right close up to the freight shed. Adams passed several bank bills to Hamilton. Hamilton put them in his trousers pocket. Williams and Graney approached Hamilton and Adams and something, and they appeared to take great stock of me from that moment. I had previously drawn the attention of Alex and James Reed to the prisoners. When I saw they noticed me I returned to Mr. Alex. Reed. He had a trunk and a valise taking them to the express wagon. Adams and Graney were close behind me. I said 'Where does that train go to.' It said "Port Hope." I said, 'Take that trunk and valise up to Smith street for me.' He took them and I paid him a quarter. Adams and Graney seemed satisfied and went away. Then the four came back. They were pushing and jostling about the passengers. Finally they all left pretty quickly, walking a few yards apart from each other. They went east, along Charlotte street to the Snowden House, went on there for a few moments, came out and went to the Greek restaurant, traveling about ten yards apart. Williams wasn't with the other three. There was a crowd on the corner of Charlotte and George streets. Hamilton got behind a man fumbling at his hipp pocket. Graney and Adams were jostling against the same man. They crossed the street to another crowd, tried the same business there. They then went to the White House and remained. As I was coming away from the White House I noticed Williams on the opposite side of the street. I came to the police station found the chief had gone, the station found the chief had gone to dinner. I went to the Crown Hotel and found him there. I told him what happened and asked for another man.

ON THE STREET CARS

I then went home. I boarded a car at Hunter street and at Charlotte St. Adams, Hamilton and Graney got on it. The car was crowded and they were pretty quiet until they reached the C.P.R. station when they commenced jostling and pushing the people. Hamilton appeared to be trying one man's hip pocket, and Graney and Adams were shoving. The conductor came along. They stood outside, one on the west and two on the east side of the vestibule. When they arrived at the grounds, Williams was standing there. The other three jumped off before the car stopped. All four went along Lansdowne streets and into the grounds.

The case will be resumed next Saturday afternoon, (tomorrow).

Patriotic Service Next Sunday

Next Sunday morning a patriotic service will be held in Knox church for the scholars of the Sunday school. Rev. H. J. Keith will deliver a special sermon, and the children will take an important part in the service. Miss Margaret King of Montreal, a missionary from China, will speak at the evening service.

A strawberry festival will be held Monday evening under the auspices of the Young People's Guild.

May Form Automobile Organization Here

Three more automobiles have been purchased by citizens of Peterborough from the Ford Automobile Co. The new machines have arrived and will be delivered in a day or two, to Mr. Vincent Eastwood, Mr. Ed. Connor and Dr. McClelland. The cars are handsome and speedy machines.

Unemployed Wait on Mayor Rush

A delegation of about twelve men, representing the unemployed of Peterborough, waited on Mayor Rush Tuesday morning, asking him for assistance in getting employment. The party that waited Mayor Rush had two spokesmen, Messrs. Joseph Pope, Albert street, and Chas. Coleman, 360½ street. Henry Coyt, Albert street, was another member of the deputation. They informed the Mayor that they were all willing to work, but it was impossible to get any. They had families to provide for, the same as other men, they said, but the summer was passing away and the prospects were very discouraging. A grievance that they emphasized was the fact that men of another nationality were readily given work on the sewers, etc., but they were refused. One of the men said to the reporter; "I was told that if I were an Italian I would be taken on," and he was very angry that an Englishmen should not be given a chance.

SOLD THE STOVE

The men told of one of their companions who lives on George street, who had been idle for months. "He sold his stove last week in order to get money with which to buy food for his family, and he only got $3 for it. He paid $9 for it when he bought it."

When asked what Mayor Rush promised to do, Henry Coyt said, "He treated us like a gentleman and said he would do whatever he could for us, and nobody can do more than that."

FOUR MEN HAVE WORK.

Mr. Coyt and three other men have obtained work near Frankford, in Hastings county, and intend to start this morning for that place. According to their statements, they have to walk to Frankford, which they say is nearly seventy miles distant.

To stop any pain anywhere in 20 minutes, simply take just one of Dr. Shoop's Pink Pain Tablets. Pain means congestion—blood pressure—that's all. Dr. Shoop's Headache—or Pink Pain Tablets—will quickly ease blood pressure away from pain centers. After that, pain's gone. Headache, Neuralgia, painful periods with women, etc., get instant help. 20 Tablets 25c. Sold by all dealers.

House to Prorogue Before July 22nd

Ottawa, June 25.—There is good reason to believe that by mutual concessions between the Government and the Opposition in regard to the Aylesworth Election bill, an understanding has been reached which makes it pretty certain that prorogation will be reached by the middle of July, in time for the Quebec Tercentenary celebrations.

Morning Times

published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

News In Brief

NURSERY ON THE SANDS.

At Southport this week a unique experiment has been tried of establishing a day nursery on the sands, where the babies of excursionists could be cared for or enjoy refreshing sleep.

Ottawa, June 23. — Postmaster-General announces from Washington that the weight allowed for parcels to Great Britain and Ireland will be increased to 11 lb. as from July 1st, next.

400 ACRES OF HOUSES.

Four hundred acres of land, known as the Forster Estate, situate on the south-eastern extremity of Lewisham, are about to be developed for building purposes. Fourteen miles of road have been planned, and thousands of houses will be erected.

KING'S LETTER TO CENTENARIAN

Miss Bull, of Stoke House, Coventry, yesterday celebrated her hundredth birthday, and was the recipient of a congratulatory letter from the King. She is in full possession of her faculties, and comes of a family noted for longevity. Two or three of her sisters lived for upwards of a century.

FIRST-CLASS TRAMS.

The Tramways Committee of the Liverpool Corporation decided to try the experiment of running a first-class tram service on the principal residential routes, the fare on each penny section to be doubled. This decision is the outcome of complaints that coal heavers and others with dirty clothes are allowed into the ordinary cars.

Utica, N.Y., June 23.—Word was sent to the family of Hon. James S. Sherman in this city this morning that the Republican candidate for the Vice-Presidency had been compelled to go to a hospital in Cleveland, Ohio, and that Dr. Phinney, of Baltimore, who attended Mr. Sherman during an attack of the same trouble in Washington last year, had been summoned by special train. Mrs. Sherman and one of her sons left for Cleveland by the first train.

The news received here is very disquieting and it is said that Mr. Sherman is in a serious condition.

Extensive arrangements had been made to give him a great reception on his return this evening.

Ottawa, June 23.—A sensation was caused here by the disappearance of an Englishman named Robert Fullbix, who has been employed in the tannery since he came to the country, last year. His wife states that he informed her that he was going to bathe in Pigeon River, and as he did not return, a search was made, and his clothes were found on the bank of the river. For a whole day and night the river was thoroughly searched by villagers, but without finding the body. Much sympathy was expressed for the bereaved wife and two small children. Mrs. Fullbix, however, has gone to Toronto, where, it is rumored, Fullbix is living now under the name of Robert Russell.

WARM ELECTION BET.

Covington, Tenn., June 26.—Within the next few days Covington will witness the spectacle of one of its prominent citizens parading the streets for three successive days, clad in heavy fur coat, fur cap, ear muffs and other winter clothing to match. Whether C. P. Boals, a prominent attorney, or J. L. Garner, an insurance man, will furnish the spectacle is to be decided by to-day's primary election.

Port Arthur, June 22.—Search for Olive Dupraw is still fruitless, though a large number of men have scoured the woods in every direction. Hope now of finding her alive has been abandoned, unless it is a kidnapping case, which is highly improbable. They are only looking to find the body now.

MISSING FIVE DAYS.

Pine, Ont., June 22.—It is now five days since pretty little Olive Dupray disappeared from No. 96, C.P.R. train at this place, and the case is as deep a mystery as though the earth had opened up and swallowed the child. Searching parties have been organized, and systematically traced the bush for miles around. Beacon fires have been lighted. The constant whistling of trains have been kept up to attract the attention of the lost girl, if she be alive. Dogs are busily engaged scenting the ground for miles. The lakes around are being dynamited, and, as yet, not the slightest trace of the missing child has been found.

Saturday night about 175 men organized a systematic search. They were composed of the extra gang of work men and bridge men, and for four miles west and from lake to lake, every inch of ground was fruitlessly gone over. Not a thread was found shedding light on the child's fate. Not a sound was heard to give encouragement. The citizens father has not slept for two days, and is loath to give up the search. Pine Lake is being dynamited from end to end. Both the father and the brother-in-law are of the opinion that there is foul play. The day the girl was missed several suspicious tramps were observed loitering about the bush, while two miles to the east two suspicious looking were seen.

Two miles north of Pine is a mining camp, where many men are employed. Guthrie and Wiggins, the proprietors, are joining heartily in the search. In another direction is an extra gang of 75 to 80 men, and fifteen miles south the Grand Trunk Pacific construction camps are located. These all unite in a systematic search.

OFFER A REWARD.

At Guelph the passengers on the train from which the child dropped, raised back a reward of $65 for the recovery of the girl, but there has been no claimants for the money yet. The C.P.R. officials are doing everything in their power to assist in the search, the engineering department, under W. K. Guise, having been given over to search the bush, and the many parties have combed the woods as with a fine-toothed combed as far in every direction as the girl could possibly wander in the time she has been missed.

There is, however, considerable swamp through the area, and in the search several bears have been met with. The girl, however, could not have met with accident from this direction without some trace of her clothing being found. Dressed in white, she would be easily seen should she come within the ken of the searching parties. Mr. Dupray is a shipwright in Fort William, and his son-in-law, Mr. Wm. Higgins, who is with him in the search, is an organizer for the bridge construction work on the C.P.R. lines.

FACTORY INSPECTORS.

Toronto, June 26.—With the election and installation of officers and the selection of a place for holding the next convention, the twenty-second annual meeting of the International Association of Factory Inspectors will come to a close this afternoon. The principal object of the association is to promote uniformity in general laws of the different states and provinces, and much has been accomplished at the present session to accomplish this end.

Jack White made a home run at Rochester Saturday.

Joe Bean's team finally won a game, beating Newark in the second game Sunday.

Had the Rochesters been able to hit with men on bases they might have won Saturday's game. Buffalo passed that ability and won 3—1.

Newark and Jersey City broke even in the double-header Sunday at Newark, the locals taking the first game. The scores were the same in both games, 2 to 0.

Providence defeated Buffalo 6 to 3 in a well played game at Rocky Point Sunday, though the Bisons had 10 hits.

Horse Electrocuted

ough Lumber Co., while passing through the lane in the rear of Gibbs livery stable came in contact with a live wire hanging from a shed. As soon as the wire touched the horse the animal fell. Dr. Poole was rallied, but the horse was dead when he arrived.

Taken to Nichols Hospital

Mr. Hammond Lee of the Machine Telephone Co., was removed to Nicholas Hospital Saturday morning, and underwent an operation for appendicitis which proved so far successful. His many friends are glad to hear that he is doing nicely.

Beware of Ointments for Catarrh that contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

A big poplar tree fell at the corner of Bethune and Hunter streets, taking with it an electric light pole and the wires attached to it.

Notice

Take notice that the Municipal Council of the Corporation of the City of Peterborough intends after one month after the last publication of this notice, to undertake the construction of a sewer on Sherbrooke street, from George street to the Creek, and to assess upon the real property to be benefitted by such sewers, such proportion of the cost thereof as may be just, in accordance with the provisions of Sections 664 to 686 inclusive of The Consolidated Municipal Act, 1903, or so much thereof as may be applicable thereto, and subject to the provisions of such By-law or By-laws of the said Corporation now or hereafter to be passed as shall be applicable to the same, and the number of annual special assessments therefor will be thirty.

Persons desiring to petition the said Council against undertaking the said proposed work, must do so on or before the 3rd day of August, 1908.

Dated the 17th day of June, 1908.

S. R. ARMSTRONG,
Clerk.

—The first annual excursion of the Bricklayers' and Masons' Union will be held at Idyl Wyld on Saturday afternoon, July 4, per steamer Dreamlike.

Department Railway and Canals, Canada

Trent Canal Holland River Branch Notice to Contractors

Sealed Tenders addressed to the undersigned and endorsed "Tender for Trent Canal," will be received at this office until 16 o'clock on Wednesday, the 15th July, 1908, for deepening and improving of a channel way from a point in Cook's Bay—Lake Simcoe, Ontario, to the mouth of and up the Holland River, and the East branch thereof to the Bradford Road at Holland Landing.

Plans, specifications, and the form of the contract to be entered into, can be seen on and after the 22nd June, 1908, at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, at the office of the Superintending Engineer, Trent Canal, Peterborough, Ont., and at the office of the Division Engineer, Newmarket, Ont., at which places forms of tender may be obtained.

Parties tendering will be required to accept the fair wages Schedule prepared or to be prepared by the Department of Labor, which Schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signatures, the nature of the occupation, and place of residence of each member of the firm.

An accepted bank cheque for the sum of $2,000 must accompany each tender, which sum will be forfeited, if the party tendering declines entering into contract for the work, at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective parties whose tender are not accepted.

The lowest or any tender not necessarily accepted.

By order,

L. K. JONES,
Secretary.

Department of Railways and Canals, Ottawa, 17th June, 1908.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

reserve) may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at an Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead duties under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each on and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3) If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of a homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father or mother.

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line exclusive of the width of road allowances crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the agent for the district of such intention.

Six months' notice in writing must be given to the Commissioner of Dominion Lands at Ottawa, of intention to apply for patent.

W. W. CORY,
Deputy of the Minister of the Interior.

Stop That Cold

To check early colds or Grippe with "Preventics" means sure defence for Pneumonia. To stop a cold with Preventics is safer than to let it run and be obliged to cure it afterwards. To be sure, Preventics will cure even a deeply seated cold, but taken early—at the sneeze stage—they break up most of these early colds. That's surely better. That's why they are called Preventics.

Preventics are little Candy Cold Cures. No Quinine, no physic, nothing sickening. Nice for the children—and thoroughly safe too. If you feel chilly, if you sneeze, if you ache all over, think of Preventics. Preventics may also save half your usual sickness. And don't forget your child. It may be hyperthermia, night or day. Handle readily like Preventics' greatest efficiency. Sold in 25c boxes for the pocket, also in 50c boxes of 48 Preventics. Insist on your druggists giving you

Preventics

HOUSEHOLD NOTES.

Cereals are seldom overcooked, but rather undercooked. Thus always allow plenty of time in preparing cereals.

If a bedstead creaks at each movement of the sleeper, remove the slats and wrap the ends of each in old newspapers. This will prove a complete silencer.

In using linen doilies on the highly polished table cut asbestus pieces to place beneath the mats, especially if there is any danger of the hot dishes marking the table top.

The polished appearance of starched clothes will be increased if a piece of wax the size of a small bean and half a teaspoonful of powdered borax be added during the boiling.

The new heavy embroideries of raised gold and silver work should never be brushed in the ordinary way. If rubbed gently with a piece of crimson velvet, a good result will be obtained.

L'Envoi of Housekeeping.

When earth's last picture is dusted
And the floors are painted and dried,
When the oldest carpet is beaten
And the youngest spider has died.

We shall rest—and, faith, we shall need it!—
Lie down for a moment or two
Till the dust on the grand piano
Shall set us to work anew.

And those that are clean shall be happy.
They shall eat off a kitchen chair
And dash with a seven league broomstick
At the back of the chiffonier.

We shall have real paint to lean on,
Pile everything into the hall
And scrub for hours at a sitting
And never be tired at all.

And the man of the house will praise us
And will (more than probably) blame,
And we never shall get any money
(And certainly not any fame).

But each for the joy of the cleaning
And each in her feminine glee
To look just as well as the neighbors
For the sake of things they might see.
—Laura Simmons in Circle.

For bath purposes the flesh brush should take the place of flannel. Indeed, the vigorous use of the flesh brush or glove may be recommended as an effective substitute for a bath where the latter is not at hand, as the rough glove or brush cleanses the skin of small particles which are apt to cling to it from the clothing that is in daily contact with the body.

White spots on furniture caused by putting down a hot jug or cup should be rubbed at once with a little oil of some kind, linseed for choice, though paraffin or sweet oil is nearly as good. Leave the oil on some hours if possible and then polish.

His Wife (writing)—Which is proper, "disillusioned" or "disillusionized?"

Her Husband—Oh, just say "mistaken" and let it go at that.

Some Remarkable Guns.

At the siege of Rhodes the Turks constructed mortars by hollowing out cavities in the solid rock at the proper angle, and in the arsenal at Malta is a trophy of the long and glorious defense of Valetta, in a Turkish gun, about 6 six pounder, composed of a copper tube coiled over with strong rope and "jacketed" with rawhide. In the same collection are some antique "quick firers," breechloaders, with small bores and immensely long barrels, like punt guns. The Malay pirates put great trust in the long brass swivel guns called "lela," and in Borneo these lelas were used as a kind of currency, large sums being estimated in guns.

The Chinese cast excellent bronze guns (there is a fine specimen of them in Devonport dockyard), but so little did they understand gunnery that in the so called "opium war" the forts of the Bocca Tigris, defending the Canton river, had the guns built immovably into the walls. The Sikh gunners opposed to us in the two Punjab wars, though they loaded with amazing recklessness, shoveling in the powder from open boxes, stuck to their guns to the last. The blood of the first man killed was smeared on the gun, and the whole detachment died beside it sooner than retreat.—Chambers' Journal.

A Batch of Anecdotes.

Some interesting anecdotes and gossip, new and old, of the law courts are given in the English Illustrated Magazine. The writer of the article, Mr. A. J. Hughes, was once present in court when a juror who opened the ball by saying, "This case, my lord, really lies in a nutshell," received the reply, "You crack it then."

There have been times when clever witnesses have got the better of counsel in a skirmish of words. When the farrier was asked where he got his knowledge of the mare's age from, he said, "From the mare's own mouth, sir."

Irish lawyers are generally endowed by Dame Nature with quick wits. Among them all, perhaps, Curran held the palm for lightness and vivacity. When some one told him that no student should be called to the bar who did not possess a landed estate of his own, he retorted, "How many acres make a wiseacre?"

But it was a Scotsman, appropriately enough Lord Brougham, who, seeing his horses take fright, yelled to the coachman, "Drive into something clean!"

ADVERTISE IN THE TIMES.

VISITING YOUR FRIEND.

No Place Like Home, After All, So a Victim Believes.

Visiting has ever been a form of discomfort.

Your friend, who has a new home, a lately replenished library, a unique garden or something which represents money enough to make him vain in its possession, cannot rest until he has dragged you from a happy home to cater to this feeling of vanity.

As for yourself, you put it off as long as possible. Of course you want to go. The thought of not having been able to get to see him has, you assure him, filled you with perpetual gloom. But circumstances over which you have had no control have forbidden. All this you assert until the fatal moment arrives when you realize that no further subterfuge is possible, and, with many protestations of anticipatory delight, you start off.

Your friend meets you at the station with his auto. He explains its workings, its superiority over all others, as you proceed back. If it breaks down on the way, as is more than likely, he smiles brightly. Such a thing has never happened before. He knows, of course, what the cause was. He mentions it carelessly, thereby implying that it was of so little consequence that it was scarcely worth while to avoid it.

You arrive at his house. Filled with enthusiasm and revealing in a new victim, he proceeds forthwith to drag you over its weary length before you have had time to change your shoes.

"Fine room this!" he exclaims, with a burst of honest pride, and so on. By and by, when he is getting tired, his wife, like a relay pony, takes up the lecture where he leaves off.

So plastic are we that at the time by a sort of fictitious warmth you really seem to be enjoying yourself.

You exclaim in wonder over the fact that you have been so long in getting there. And when at last, a week later, you reluctantly leave you tell him, with tears in your eyes, that you had the time of our life.

It is only when once more you find yourself joyfully in your own humble apartments, with its faithful bed, whose very imperfections have endeared themselves to you, that you cry out in deep gladness, "Thank God it's over, for, after all, there's no place like home!"—T. L. Masson in Puck.

They Prayed Running.

Harry and Ethel were crossing a field on their return from Sunday school when they encountered a bull. At the animal's approach they fled in terror. Faster and faster they ran, yet nearer and nearer came the bull.

"We must pray," panted Harry.

"You do it," Ethel pleaded. "We'll kneel down right here."

"No; we'll pray running. You ought to do it. You're a girl."

"O Lord—O Lord—I can't!" sobbed Ethel. "You do it."

The proximity of the bull demanded immediate action, and Harry rose to the occasion. Loudly and fervently he prayed:

"O Lord, for what we are about to receive make us truly thankful!"—Success Magazine.

Trapped.

"I saw the cutest thing today," began Miss Passay coyly. "It was a painting of the—er—what is the name of that little god that represents matrimony?"

"Well, now," said Mr. Timmid, "you've got me."

"Oh, Mr. Timmid, this is so sudden!"—Philadelphia Press.

Ripping Times.

Gunner—Hot times out at the ball game. The players were slamming balls all the afternoon.

Guyer—And how about the bleacherites?

Gunner—Oh, they were slamming the umpire!—Chicago News.

Co-operating With Reform.

"Do you think racing will ever be stopped?"

"The trouble I have always had," replied the hard luck specialist, "is that the horses I bet on always want to stop."—Washington Star.

One For Each Life.

"I want a good revolver," began the determined looking man.

"Yes, sir," said the salesman. "Six chambers?"

"Why—er—you'd better make it a nine chamber. I want to use it on a cat next door."—London Express.

A Poor Corner.

When a girl puts a man off by saying she will keep a little place in a corner of her heart for him he may be sure that it is a corner for which she doesn't expect to have much use.

Just the Same as Usual.

"I thought you said you weren't going to drink any more."

"I did."

"But here you are drinking as much as ever."

"Well, that isn't any more, is it?"

You cannot possibly have a better Cocoa than

A RAISE IN MINING STOCK

ALLOTMENT SUBSCRIBED.

The requisite amount of stock has been subscribed and paid in full to enable the Company to proceed to allotment and commence business.

RAISE OF MINING STOCK.

THE GREAT NORTHERN LARDER LAKE MINING CO., Limited, proposes to advance price of their treasury stock to Twenty-five (25c) cents on June 22nd. Last chance to buy at ten cents a share, par value One Dollar, fully paid up and non-assessable.

The foreman, Mr. David Foster, of Cobalt, has started to work on the Company's property with a gang of men to develop veins already discovered, also to continue striping in search of new gold veins.

We are erecting boarding houses and dining-rooms for our men.

READ COPY OF CERTIFICATE AND STATUTORY DECLARATION CONFIRMING SAME.

Toronto, March 28th, 1908.

To the Great Northern Larder Lake Mining Company, Limited:—

Gentlemen,—

I beg to confirm my previous report to you that in my judgment the surface showings on the 14 mining claims which the Company has acquired, being Nos. H.S. 231 to H. R. 234, both inclusive indicate the probability of the existence of large bodies of both high grade and low grade free-milling ore, sufficient to pay dividends for an indefinite period.

I have personally examined a number of veins and reefs on said property (consisting of about 600 acres) and had some assays made and from such examinations and assays I make this report.

The statement on pages nine and ten of the Prospectus giving the short history of the Company are correct. I insisted on retaining a large interest in the Company rather than sell for any price that seemed reasonable to the purchasers.

DAVID A. FOSTER,
Haileybury.

IN THE MATTER OF THE GREAT NORTHERN LARDER LAKE MINING CO., LTD.

Statutory Declaration.
DOMINION OF CANADA
County of York
TO WIT:

I, David Foster, of the town of Haileybury, in the district of Nipissing, miner, do solemnly declare that the statements in the annexed certificate are true. I have personally inspected all of the fourteen claims now transferred to the Great Northern Larder Lake Mining Company, Limited. I have taken samples containing gold values from said property, and from my personal examination, and from assays made, I believe the Company's property when developed, will prove very valuable. I have full confidence in the success of the said Company, and on this account, with the exception of $60 already received, I have agreed to accept stock in said Company, and a note which I believe will not be of much value should the actual development work not prove the said claims to contain gold in paying quantities as it is not payable for one year from this date or until after the Company shall have done the necessary development work on said claims. And I make this solemn declaration conscientiously believing it to be true and knowing that it is of the same force and effect as if made under oath, and by virtue of "The Canada Evidence Act."

DAVID A. FOSTER.

Declared before me at Toronto, in the County of York, this 31st day of March, 1908. J. T. LOFTUS, A. Commissioner in H. C. J.

PROPERTIES TRANSFERRED.

Since the prospectus was printed, the sale of the 14 mining claims to the Company has been completed and the transfers to the Company are registered in the Recorder's Office at Larder City. There is no mortgage or other encumbrance against said claims.

10c. PER SHARE.

Par Value One Dollar fully paid Up and Nonassessable.

OFFER IN PLAIN WORDS

$ 5.00 buys	50 shares, par value $ 50.00	$ 10.00 buys	100 shares, par value $ 100.00
20.00 buys	200 shares, par value 200.00	10.00 buys	500 shares, par value 500.00
100.00 buys	1,000 shares, par value 1000.00	500.00 buys	5,000 shares, par value 5000.00

We earnestly recommend that you purchase the Great Northern Larder Lake Mining stock at 10 cents per share.

Fill in application form and forward and you will be on the upward move.

Fortunes have always been made by those who can see a good thing coming.

SPORTING NOTES.

McCormick of Princeton is one of the greatest fullbacks the game has ever known.

Nahma, by Peter the Great, is touted as another Sonoma Girl of the grand circuit next season.

Millard Sanders is confident that Ruth Dillon, 2:15¼, will some day be holder of the world's record for trotters.

Mount Pleasant of the Indians catches kicks on the run and makes the ends who try to tackle him look ridiculous.

It is reported that a new race track is to be built at Venice, a suburb of Los Angeles, Cal. Tim Sullivan and many eastern men are interested.

Considering different ethical attitudes, England has a licensed trainer of race horses who is also a regularly ordained minister of the gospel, and he has not found it necessary to resign his church living and dispose of his old tools either.

It was announced recently that another motor boat race to Bermuda for the Bennett Challenge cup will be started from Gravesend bay, New York, on June 6 next. It is open to all seaworthy motor craft not more than seventy feet over all that comply with certain conditions for safety.

—The George Street church is being re-shingled. The roof of the church is almost perpendicular, and the men find it a very difficult and dangerous job.

ADVERTISE IN THE TIMES.

RAWHIDE-DULZURA

1 CENT A 2 SHARE

Send us your name as a member in this new company, with your remittance for as many thousand shares as you can take at $5 per thousand.

This is a short-time offer on a hurry-up proposition. Our vice president is up at Rawhide now putting the miners at work. We want to raise the necessary funds for development as quickly as possible. Therefore, we offer the first block of stock at $5 a thousand shares. This subscription must be all cash. We want the money in hand. We mean to work without letup, and we have made it an ironclad rule not to run in debt. Cash counts now.

Our prospectuses are out. Send for one.

Make reservation of stock, if you do no more. But, remember, this present offer of stock at Half a Cent a Share is now open, and will be closed as soon as enough cash subscriptions are in hand. Don't wait, or you will get left.

The gold mining property owned outright by the company consists of 7 claims, 5 in the Rawhide district of Nevada, and 4 in the Dulzura district of Southern California.

The Rawhide district to-day is more famous than Goldfield, Tonopah, Bullfrog, or Searchlight were at the same stage of exploration and development. The Dulzura discovery is one of the most sensational in the history of California.

Ten samples of ore which were among the first assayed, run as high as $7,461.87 to the ton, and all ten averaged over $1,500 a ton.

In both camps we located early, and our locations are choice. Our own officers will superintend the mining.

Rawhide-Dulzura Gold Mining Company

122 West Third Street, Los Angeles, Cal.

Appetite Gone Nerves Badly Run Down

A Strong Moral Well Exemplified in Mrs. Wilson's Case.

Like thousands of other people at this season of the year Mrs. E. P. Wilson was tired and worn out—winter sorely tried her health and vigor. But now she is robust and well, eats well, sleeps well, feels invigorated and braced. "For some years," writes Mrs. Wilson of Watmore, P.O., "I suffered from systematic weakness, biliousness and depressing headaches. I could tak little nourishment and grew thin and pale. If I ate a hearty meal the result was dreadful. Pains started at my chest, and spread all through my body going across my stomach, back and right side. I was discouraged till a friend insisted on me taking Dr. Hamilton's Pills. They made a new woman of me, and for the past eight months my health has been perfect. For a good cleansing, rejuvenating medicine I urge every one to use Dr. Hamilton's Pills."

There is extraordinary and magic power in Dr. Hamilton's Pills; they bring vigor, tone, health, and spirits—are compounded from the most wonderful and healing juices and essence in vegetable life—are safe for young and old, and guaranteed to kindle renewed activity and strength in every system that is weak, sickly or run down from kidney, liver, stomach or bladder trouble. Get Dr. Hamilton's Pills of Mandrake and Butternut—today—25c. at all dealers.

Since Chief Black Cloud

has come to town, many people have tried his Blood Purifier, and Results have Delighted them a case derangement of the stomach liver kidney and blood. Will be here all summer and manufactue his medicines, made from roots, herbes and barks. Take the car and call on him at

for the position of Firemen on the permanent staff of the Peterborough Fire Brigade.

Address,

W. A. HOWARD,
Care of City Clerk.

Three More Automobiles in the City

It is rumored that an automobile club will be formed in this city. There are now over a dozen autos in town. A strong club could be formed in Peterborough, and it would be a benefit and pleasure to all those who own cars. A meeting may be called at an early date for the purpose of organization.

A good general servant wanted. No children, and every modern convenience. Apply Box 109, Times office.

Will Decorate Port Hope

The contract for decorating Port Hope for the old boys' reunion has been let to Messrs. J. J. Turner & sons, of this city.

Medical Inspector at Stony Lake

Dr. R. W. Bell, Medical Inspector for the Provincial Board of Health, was in the city yesterday on his return from an official visit east. He went north for a day to officially look into conditions at Stony Lake that may or may not have significance from a sanitary point of view.

S. A. Band Has Many Engagements

The local Salvation Army band has a number of engagements for church parade and garden parties to fill within the next few weeks. The band has reached a high state of efficiency, and are being engaged for many entertainments. They will fill engagements at Fraserville, Chemong and Lakefield.

Beware of Ointments for Catarrh that contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio by F. J. Cheney & Co. Testimonials free.

Yale Won and Lost Races with Harvard

New London, Conn., June 25.—Yale today won the Varsity four-oared race with Harvard, distance two miles, on the Thames River. Time unofficial, 10 mins. 33 1-5 seconds.

Yale won by three-quarters of a length. Both crews appeared to be in good condition at the finish.

Harvard won the Freshmen eights by a length and a half. The distance was two miles, and the unofficial time 9 minutes 38 2-5 seconds.

Weak women should try Dr. Shoop's Night Cure. These soothing, healing, antiseptic suppositories go direct to the seat of those weaknesses. My "Book No. 4 For Women" contains many valuable hints to women, and it is free. Ask Dr. Shoop, Racine, Wis., to mail it. Ask the Doctor in strictest confidence, any questions you wish answered. Dr. Shoop's Night Cure is sold by all dealers.

City Topics

IN SHORT FORM FOR BUSY READERS

—St. Paul's choir practised last night.

—There was no practice of George street choir yesterday evening.

—The Selwyn Foresters held an excursion to Crawford's Grove yesterday.

—Mr. J. B. Cuneanman of this city has issued a writ against Jas. Pollard for possession.

There was no game last night between the Wellingtons and Y.M.C.A. The "Y's" refused to play.

—The hotelkeeper, who some days ago was fined $15 and costs for selling liquor to a minor, is appealing the case. It will likely come before his Honor Judge Weller next week.

—There was an unconfirmed rumor going around in London, England, yesterday, that Georg Hackenschmidt the wrestler, died at La Chapelle, France.

Fully Nourished

Grape-Nuts a Perfectly Balanced Food

No chemist's analysis of Grape-Nuts can begin to show the real value of the food—the practical value as shown by personal experience.

It is a food that is perfectly balanced, supplies the needed elements of brain and nerves in all stages of life from the infant, through the strenuous times of active middle life, and is a comfort and support in old age.

"For two years I have used Grape-Nuts with milk and a little cream, for breakfast. I am comfortably hungry for my dinner at noon.

"I use little meat, plenty of vegetables and fruit in season, for the noon meal, and if tired at tea time, take Grape-Nuts alone and feel perfectly nourished.

"Nerve and brain power, and memory are much improved since using Grape-Nuts. I am over sixty and weigh 155 lbs. My son and husband seeing how I had improved, are now using Grape-Nuts.

"My son, who is a travelling man, eats nothing for breakfast but Grape-Nuts and a glass of milk. An aunt, over 70, seems fully nourished on Grape-Nuts and cream." "There's a Reason."

Precious Life and Health can be Saved By this New Method All Sickness Is Alike to

OXYDONOR

It applies to all cases, no matter what the form of disease may be. It revitalizes the human body with OXYGEN from the air. OXYGEN is a vital Necessity—the greatest necessity life knows.

You can apply Oxydonor at home while you rest or sleep. No loss of time from your work or business. It is easily applied, safe, and always ready for use. Its force never exhausts. It will serve the family, children as well as adults.

Mr. Wm. Beers, 196 York St., Toronto writes: "I have great pleasure in recommending your Oxydonor. When I first got the instrument I was suffering from Sciatica for about four months, and after applying for five weeks it left me all at once and have not been troubled with it since. I can highly recommend it as a good family doctor, and would not be without it for double the price."

—Mr. Orel Stark and his brother Charles of Denver, Colorado, are visiting friends in town.

—Mrs. George Winston of Toronto, Mrs. John McCaw and Mr. J. Armstrong of Welland, are the guests of Mrs. George Rasky, Aylmer St.

If one feels dull and spiritless, in the spring or early summer, they call it "Spring Fever." But there is no fever—usually. It is the after effect of our winter habits. The nerves are mostly at fault. Tired, worn-out nerves, leave us languid, listless, and without spirit or ambition. A few doses of Dr. Shoop's Restorative will absolutely and quickly change all of these depressing symptoms. The Restorative of course won't bring you back to full health in a day or two, but it will do enough in 48 hours to satisfy you that the remedy is reaching that "tired spot." Druggists everywhere are advising its use as a splendid and prompt general tonic. It gives more vim and more spirit to the spoonful than any other known nerve or constitutional tonic. It sharpens a failing appetite, aids digestion, frees sluggish livers and kidneys, and brings new life, strength and ambition. Test it a few days and be convinced. Sold by all dealers.

To Canadian Investors

The undersigned has received an allotment of unsold portion of $100,000 of

7 Per Cent. First Mortgage Five-Year Gold Bonds

dated January 11, 1908, and maturing January 11, 1913. These Bonds are offered at par and accrued interest by Metropolitan Trust & Savings Bank, Chicago, trustees.

SECURITY—The Entire Property and Improvements Owned THE URES CONSOLIDATED MINING COMPANY in the District of Ures, State of Sonora Mexico, Free from Mortgage or Bonded Indebtedness except this present Bond Issue.

An Unusual Opportunity for Investment in Sound Security

The Ures Consolidated Mining Company offers $100,000.00 of First Mortgage Gold Bonds. This issue of bonds is the only mortgage or bonded indebtedness ever placed on the company's properties.

These bonds are in the denomination of $100.00, and bear interest at the rate of 7 per cent. per annum, payable semi-annually, July and January, and are redeemable on or before five years from date at the company's option at $110.00 and accrued interest.

$100.00 Stock Bonus Given with Every $100.00 Bond

With each bond issued there will be given $100.00 par value of the capital stock of the company as a bonus, and in addition thereto there will be placed in escrow with the Trustee additional stock which will be available to the bondholders at their option any time within a period of three years, the bondholder being entitled to surrender his bond any time within said period and receive in lieu thereof stock for every dollar of indebtedness to him on account of said bonds.

The Security Back of these Bonds

The company owns twelve claims situated in the district of Ures, State of Sonora, Mexico, free from mortgage or bonded indebtedness, except the present bond issue.

On one of these properties (The Ramona Mine) 5,000 feet of underground development work has been done, consisting of an inclined shaft to the depth of 400 feet with drifts in three levels to the North and South of the shaft.

An average value of ore worth $11.47 per ton is exposed throughout the mine, from the collar of the shaft to the extreme parts in the drifts, all of which is above water level.

The company has made surface improvements and mine improvements to the extent of $40,000.00 in the way of machinery, skids, trams, steam hoists, mill and nearly everything necessary to make the mining camp complete.

In addition to the absolute ownership of these twelve valuable claims, the company has a lease on the San Jose Mine, adjoining its property, in which the company has been operating in high grade ore.

During the past sixty days the company has extracted and delivered to ore buyers and the bank at Hermosillo, $5,000.00 worth of ore and bullion, the ore having been reduced to bullion through the company's mill, with the exception of 1,464 pounds, which was sold to an ore buyer for $562.80.

The Money Derived from the Sale of These Bonds

This issue of bonds is made for the purpose of securing money at once in order to extend the development work more quickly than the company's present means will permit.

With the high grade ore in sight to the distance of 50 feet to the South of the shaft, the management is assured that within six months from date of making the improvements now necessary the company's properties will be on a self-sustaining and dividend-paying basis.

The Stock which is Given with these Bonds will be as valuable as the bonds when the Company has the ready capital to push operations

Men who invest in these bonds will have no cause or reason to regret their action, for the bonds afford an investment in a security which is absolutely safe—much better than ordinary city or country real estate, which is considered perfectly safe if the property put up to secure a mortgage is double the face of the loan. The security given on these bonds is better than 7 to 1, for the Ures Consolidated Mining Company has refused an offer of $750,000.00 for the property upon which this $100,000.00 worth of bonds is issued.

These bonds are an investment with all speculative risk eliminated—an investment with absolute security.

Make your reservation at once. This is small and promises to be quickly sold.

CAPITAL $1,500,000 RESERVE $950,000

Banco de Sonora,
Hermosillo, Mex.,
Feb. 11th, 1908.

To whom it may concern:—

We hereby beg to state that The Ures Consolidated Mining Company has during the past five years made several deliveries of bullion to this bank, and it is the opinion of mining men here that they have the making of a fair mine, and further, that the properties owned and controlled by them bid promise of becoming paying properties.

From our knowledge of the men connected, we believe they are doing all in their power to bring about the results above mentioned.

Respectfully,
BANCO DE SONORA,
Max Meller, Gerente.

A Great Tented City to be Located on Plains of Abraham

Grand Stand will Accommodate 15,000 People --100 Carloads of Lumber and 600 Kegs of Nails Used---Greatest Naval Display

Quebec, June 26.—One of the great features of the coming Tercentenary celebration at Quebec will be the great "Tented City", erected on the grounds of the Seminary and of the Female Orphan Asylum. The site chosen commands a view which in extent, in beauty, and in historical associations is unsurpassed, and comprises about 50 acres. It occupies part of the historic Plains of Abraham, the battlefield on which Montcalm and Wolfe met in conflict long ago, immortalizing their names and adding luster to our history.

To the west, within five minutes walk, is the monument erected to Wolfe, which bears the legend;

"Here Died Wolfe Victorious, September 13th, 1759."

A little further on there is being built the huge grand stand, capable of holding 15,000 people, before which all the pageants will be enacted, and near it will take place the review of 12,500 troops coming to Quebec for the celebration. This huge stand has used up 100 carloads of lumber and 600 kegs of nails in its construction.

WHERE WOLFE CLIMBED.

Still further west is to be seen Wolfe's Cove, the actual spot where Wolfe and his Fraser Highlanders scaled the cliff, climbing to victory or death.

A few minutes' walk in another direction will bring the visitor to that other battlefield, St. Foye, where Levis defeated Murray. A handsome monument marks the spot and bears the inscription,

"Aux Braves de 1760"

To the east is seen the "Gibraltar of America" crowned with her frowning battlements, from which floats in the breeze the Standard of of England.

The present Citadel and fortifications about Quebec were commenced in 1823, after a plan approved by the Duke of Wellington, and completed nine years later at a cost of $35,000,000, all paid by the Imperial Government.

GREATEST NAVAL DISPLAY.

The noble St. Lawrence rolls below the site selected for the "Tented City," sweeping onward to the ocean, 400 miles away. Floating on its placid waters during the celebration will be the fleets of Britain, France, and the United States, the greatest aggregation of naval armaments ever seen in America.

EXCELLENT ACCOMMODATION.

The accommodation provided in the "Tented City" will be excellent. The furnishings will be absolutely new. Every convenience of a first-class hotel will be at the disposal of the guests. Telephone, telegraph, and baggage offices, and automobile and bicycle storage, all under competent and experienced management, will be situated on the grounds.

Hospital tent will be attached, with skilled nurses and medical attendants.

MEALS AT FIFTY CENTS.

The huge dining tent or tents will be in charge of a capable caterer, who is under contract to furnish meals to the guests of the "Tented City" for 50 cents. He will also provide meals for 25 cents and upwards. There will be no bar or saloon in the vicinity.

Accommodation is being provided for the immediate reception of three thousand guests. This is to be increased at once, if necessary, to five thousand, and if notice is given before July 20th, the capacity of the "Tented City" can be extended to ten thousand.

Tent accommodation (reserved) will be charged at the rate of $1.50 per bed per night, and in some special large tents (not reserved) at $1.

Motion Made to Commit Midland Editor to Jail

As a Result of Statements Made Regarding the Unseating Proceedings in Connection with Midland Elections

Toronto, June 26.—A notice of motion to commit John F. Goodfellow, editor of the Midland Free Press, to jail, was fyled before Mr. Justice Clute this morning by Mr. J. B. McKenzie, as a result of statements made by him in regard to the unseating proceedings in connection with the Midland elections.

Mr. Goodfellow, it is alleged, referred to the character of the people who were carrying on the proceedings in a libellous manner and spoke of "dirty work," which he intimated was performed by McKenzie in connection with unseating proceedings and the quashing of local option bylaws. The motion is returnable on Monday.

Citizens Want Lower House Rent

Tenants in various parts of the city are making vigorous demands for lower rents. They say that they are paying too much for rent and are threatening to move if this request is not granted.

The seven tenants of a block of houses on London street are all demanding lower rent and threatening to all move if the landlord does not come to their terms. It is said that they are paying $11.50 per month at the present time and are demanding a reduction of $1.50 per month. Similar cases are reported in other parts of the city. The landlords are having their trouble.

Over 3,000 People at Victoria Park

Last night over 3000 people took in the weekly band concert given by the 57th Regt. band on Victoria Park. The band, under the direction of Mr. Rupert Gliddon, rendered an excellent program, many of the numbers bringing forth rounds of applause.

The following program was presented;

March—Glamour's Triumphal.

Overture—Nabucodonosor.

Cornet Solo—Columba Polka, by Sergt. Hughes.

Transcription—In the Deep cellar.

Cakewalk—King of Rags.

Reminiscences of Ireland.

Sextette—From Lucia de Lammermoor.

Hymn—Selected.

Grand Nautical Fantasy —Voyage on a Troopship.

God Save the King.

Scalp Disease Cured by Zam-Buk

Mrs. Albert Goldike of 485 Amherst street, Montreal, says "My three-year-old girl Anna suffered terribly since birth from scalp disease, and we could not get rid of the irritating sores. On March 10th, 1908, someone recommended my husband (who is elevator man at the Carsley Co.) to try Zam-Buk Balm and Zam-Buk Medicinal Soap. From commencing to use these remedies we saw an improvement and after nine days' treatment the child was cured completely."

No home should be without Zam-Buk. It is Nature's skin remedy and without equal as a healing balm. All druggists and stores, 50 cents a box.

Fire at Quaker Oats Co's Mill

What might have proved a most disastrous fire had it not been discovered in its incipiency, occured last night at the Quaker Oats Co. elevator. About 12.30 the electrician at the Peterborough Light and Power Co.'s power house, noticed a blaze in the driveway at the elevator, and telephoned to the mill where an alarm was sent in from box 24. The blaze was eating its way up the side of the driveway when the brigade arrived, but was quickly extinguished. The cause of the fire is unknown.

Scholes Had Little Difficulty in Defeating O'Neil

Port Dalhousie, June 26.—The preliminary heats for the Canadian Henleys were scheduled in the following order;

1. 11 a.m.—North Star vs. Northwest Arm.
2. 11.30—Argonauts vs. St. Mary's.
3. 12—O'Neil, Scholes, Jacobs.
4. 12.30—Duggan, Cosgrave, Bowler.

Wind way light, no advantage in positions.

The start will be a few minutes late.

NORTH STAR FIRST.

North Star won first heat by a short quarter length. Time—8.28 3-5.

ARGONAUTS GET THE SECOND.

Argonauts won the second heat by three lengths. Time—8.25. St. Mary's finished outside the course.

Scholes won the first heat in the Henleys in a paddle by several lengths, Jacobs second. Time—9.43.

Two-thirds down the course O'Neil steered himself off the course, and stopped a length behind Jacobs as the latter finished.

BOWLER WON SECOND HEAT.

Bowler won the second heat, Scholes, Cosgrave, second, Duggan, third. Time—9.50.

SENIOR SINGLES.

1. Scholes.
2. Bowler.
3. Jacobs.
4. Cosgrave.

FORS. FINALS

1. Argos, Toronto
2. North Stars, Dartsmouth

Time—8.12 1-5

Losing Muscular Power

The First Sign of Mental Decay--The Warning of General Break-Down.

Changes in the nervous system manifests themselves slowly.

They show first by muscular weakness—a feeling that threatens paralysis, or by a fullness in the head that indicates approaching apoplexy.

It seems like stiffness but you soon discover there's a lack of power—that the endurance of this or that muscle is not what it ought to be.

Your friends may notice a slight thickness of speech or that your memory is decidedly failing.

These symptoms may grow worse very quickly if they are not treated by Ferrozone. You must build up the nervous system. This can be accomplished in no other way as thoroughly and permanently as by the use of Ferrozone.

This remarkable remedy, which has cured tens of thousands of Canadian people, increases enormously the digestive power, stimulates the formation of blood, the rich, red kind that puts new life into the nerves.

The first result of these changes is increased strength.

Natural circulation quickly follows, and that fullness in the head, so disturbing and alarming, too, quickly passes away.

These changes are wrought in a natural way, for the reason that Ferrozone treats the causes that excite these troubles.

For the aged and weak who need strength—for those run-down and thin,—for the sickly and nervous who lack staying power—nothing compares with Ferrozone.

No tonic gives such lasting good health, try it yourself. Sold by all dealers in 50c boxes.

The Big Game Today

The big game today between the Athletics and the Peterboros is creating much excitement among the baseball fans. Many are backing the Athletics to win, and with this lineup they will place on the diamond, Manager Johnston's bunch will have to play the game all the way to win.

Beware of Ointments for Catarrh that contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do a ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Prince Edward is 14

London, June 22.—Prince Edward, eldest son of the Prince of Wales, was yesterday fourteen years of age. The youthful Naval College student is highly popular with his fellows, and is perhaps the most democratic boy in the school. He is also undoubtedly the poorest, as he is allowed only a shilling a week as spending money.

If You Read This

It will be to learn that the leading medical writers and teachers of all the several schools of practice recommend, in the strongest terms possible, each and every ingredient entering into the composition of Dr. Pierce's Golden Medical Discovery for the cure of weak stomach, dyspepsia, catarrh of stomach, "liver complaint," torpid liver, or biliousness, chronic bowel affections, and all catarrhal diseases of whatever region, name or nature. It is also a specific remedy for all such chronic or long standing cases of catarrhal affections and their resultants, as bronchial, throat and lung disease (except consumption) accompanied with severe coughs. It is not so good for acute colds and coughs, but for lingering, or chronic cases it is especially efficacious in producing perfect cures. It contains Black Cherry bark, Golden Seal root, Bloodroot, Stone root, Mandrake root and Queen's root—all of which are highly praised as remedies for all the above mentioned affections by such eminent medical writers and teachers as Prof. Bartholow, of Jefferson Med. College; Prof. Hare, of the Univ. of Pa.; Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago; Prof. John King, M. D., of Cincinnati; Prof. John M. Scudder, M. D., of Cincinnati; Prof. Edwin M. Hale, M. D., of Hahnemann Med. College, Chicago, and scores of others equally eminent in their several schools of practice.

The "Golden Medical Discovery" is the only medicine put up for sale through druggists for like purposes that has any such professional endorsement—worth more than ANY NUMBER of ordinary testimonials. Open publicity of its formula is the best possible guaranty of its merits. A glance at this published formula will show that "Golden Medical Discovery" contains no poisonous, harmful or habit-forming drugs and no alcohol—chemically pure, triple-refined glycerine being used instead. Glycerine is entirely unobjectionable and besides is a most useful agent in the cure of all stomach as well as bronchial, throat and lung affections. There is the highest medical authority for its use in all such cases. The "Discovery" is a concentrated glyceric extract of native, medicinal roots and is safe and reliable.

A booklet of extracts from eminent, medical authorities, endorsing its ingredients mailed free on request. Address Dr. R. V. Pierce, Buffalo, N. Y.

DISCOURAGED MEN

IS LIFE WORTH LIVING

MEN, you become disheartened when you feel the symptoms of Nervous Debility and decline steadily upon you. You haven't the nerve or ambition you used to have. You feel you are not the man you ought to be. You feel like giving up in despair. You get nervous and weak, have little ambition, pain in the back over kidneys, drains at night, hollow eyes, tired mornings, prefer to be alone, distrustful, variable appetite, heaviness of body, poor circulation—you have Nervous Debility. Our New Method Treatment is your refuge. It will strengthen all weak organs, vitalize the nervous system, purify the blood and restore you to a manly condition.

Pay When Cured.

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weakness? Our New Method Treatment will cure you. What it has done for hundreds of others, it will do for you. CONSULTATION FREE. No matter who has treated you, write for an honest opinion Free of Charge. Charges reasonable. BOOKS FREE—"The Golden Monitor" (Illustrated), on Diseases of Men.

ESTABLISHED 20 YEARS—CURES GUARANTEED. No Treatment sent C. O. D. No names on boxes or envelopes. Everything confidential. Question list and cost of Home Treatment FREE.

A QUESTION OF TIME.

By Clarissa Mackie.

Copyrighted, 1908, by Associated Literary Press.

A night in India—humid, breathless, with great stars hanging in the dark blue sky and the dank odor of rotting vegetation from the nearby jungle.

From his seat in a bamboo reclining chair Welton stared unwinkingly at the blazing constellations. The punka boy had fallen into exhausted slumber on the mat, and the huge fan hung motionless overhead.

Welton could hear the low murmur of voices from the interior of the bungalow, and he knew that by slightly turning his head he could see the pink glow of light from the shaded lamp and the reflection of two faces in the large mirror in the corner.

The two forms leaned over the piano, the white fingers of Marion Lester drawing soft harmonies from the instrument, while Akerslie murmured tenderly in her pretty ear.

And it was because of these two at the piano that Welton was very miserable and stared at the stars. He knew that Mrs. Lester was nodding over her embroidery in some obscure corner of the room, and as for himself—well, he seemed not to be in it at all!

Colonel Lester was quartered at Lucknow, and when it was learned that Welton could not obtain the desired leave of absence to visit his sweetheart Mrs. Lester had good naturedly undertaken the journey to Welton's isolated station at Gola Chat.

The unexpected visit of the two women had thrown the little station into a blissful confusion of preparation. The depredations of a man eating tiger had furnished an inexhaustible source of conversation and had been the occasion for many tentative trips into the jungle for several weeks before the advent of the visitors, but now all was forgotten save the fact that there would be new faces to break the dead monotony of the days—the fresh faces and low toned voices of refined Englishwomen.

And then Akerslie had stepped in and spoiled it all. He had come up to see Welton and to try pot shots at the man eater, but he had met Marion Lester, and in spite of the fact that he was Welton's guest and that he knew the relations existing between the two he paid assiduous court to the girl.

Thus far she had repelled his advances with a dignified coolness that seemed to inflame him to greater ardor. This evening, however, the gentleness of her manner toward him and her careless treatment of her lover had driven the latter to sulky solitude in the veranda.

When the blue smoke wreaths from

"WERE YOU REALLY ASLEEP, BILLY?"

his cigar had formed a dense cloud which obliterated the starry heavens from his gaze Welton dropped his eyes and stared at two points of yellow light that oscillated near the ground.

They were ten inches apart, and they moved in unison. Welton calculated that they must be just without the bamboo stockade which inclosed the compound.

There was a prickly feeling along the spine, and he could feel the hair rising slightly around his forehead as he realized that Chuni had neglected to close the great gate and that there was perhaps only a hundred feet intervening between the man eater and the open window of the little drawing room.

He thought rapidly, with his eyes fixed on the lambent points of flame in the velvet gloom of the gateway. If he made a dash for the window and the safety that lay beyond the beast would spring before he could close the shutters behind his retreating form. If he could make Akerslie hear, at least the women would be safe.

"Akerslie!" he called in a low, clear whisper.

"Yes!" came the other man's lazy tones.

"Close those shutters instantly! The man eater!"— His words were lost in the quick manipulation of the [illegible]

[illegible] window, and the shutters fell with a clang, blotting out the glow of light and leaving Welton alone to face the tiger.

The momentary confusion roused the beast into action. Welton could see the slow approach of the yellow eyes, could hear the padding of the great paws on the sandy path, and now his long sinuous form was dimly outlined in the starlight.

Welton remembered that he had left his revolver on his dressing stand. It could not be much of a fight with all the odds on the other side. At any rate he was prepared for the worst when [illegible] appeared, and the animal put to death.

KNEW HIS HABITS.

The following anecdote is given by an Indian officer as illustrative of the manners and customs of the wily Pathan: A certain general and his staff, while wending their way through one of the narrowest valleys of Tirah, were annoyed by the attentions of a solitary marksman, who from time to time sent a bullet unpleasantly close. At last the general turned to his orderly—a Pathan sowar—and told him to dismount, take his carbine and try and stalk the mountaineer. The sowar started off, and presently there was a crack and a gray bearded old Afridi tumbled headlong down the mountain side. The sowar rejoined and fell into his place.

"Well done!" said the general. "But how on earth did you manage it so easily?"

"Oh," replied the sowar, "I knew his habits. He was my father."—London

A DEEP MYSTERY SOLVED.

Women Blinded by Science.

The Doctor writes his prescription in Latin and the patient shuts her eyes to what she is swallowing. She takes that much on faith. If it should cure her she doesn't know what cured her. If the prescription injures her she doesn't know what did the injury. The physician is experimenting with different prescriptions all the time. Sometimes his medicine is successful in the case but often not. This mystery of a concealed prescription is intended to mystify and to blind the patient. One physician of wide experience and national reputation does not believe in mystifying the public, nor does he grasp at the stars, but believes that Nature provides that which is necessary for our health and happiness.

When the womanly system is deranged beyond the stage where it will respond to sunshine, good air, cheerfulness and proper rest; when the balance of health is seriously disturbed this doctor believes that Nature has placed at your hand the balance of power for good. Hidden in our American forests are many plants which correct and cure those distressing ailments which cause women to suffer with backache, bearing-down pains, pain in the back or front of the head, nervousness and lassitude. Most all women who love Nature, who like to wander through the woods, have at one time or another picked the beautiful blossom of the Lady's Slipper (Cypripedium). This is not only a beautiful but a very useful plant. The root of this plant when treated properly with glycerine to extract its medicinal virtues is "valuable in all cases of nervous excitability or irritability," says Prof. John M. Scudder, M. D. Another authority, Prof. F. Ellingwood, M. D., says of this plant: "Exercises special influence upon nervous conditions depending upon disorders of the female organs." Another plant which is frequently found in our American forests is Helonias, or Unicorn root. The AMERICAN DISPENSATORY says of this plant, that it "possesses a decidedly beneficial influence in an enfeebled condition of the general system, with weakness or dull pain in the renal, or lumbo-sacral (small of the back) region. In diseases of the womanly organs, it is one of our most valuable agents, acting as a uterine tonic, and gradually removing abnormal conditions, while at the same time it imparts tone and vigor to the organs." Hence, it is much used in catarrhal, pelvic drains, irregularities and painful periods. Prof. King further says, of Unicorn root: "A particular phase removed by it is the irritability and despondency that often attends these troubles (referring to the ailments just mentioned). It has been found especially adapted to those cases in which pelvic fullness, and the aching, bearing-down organs *feel as if they would fall out of the body.*"

Dr. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute of Buffalo, N. Y., says, that a combination of the active principles of these two native plants together with Golden Seal root, Black Cohosh and Blue Cohosh roots when extracted by the use of pure, triple-refined glycerine of proper strength (which is used instead of alcohol), will almost invariably cure those peculiar weaknesses and maladies incident to women. That is why Dr. Pierce, nearly forty years ago, decided to put up in a ready-to-use form, a "Prescription" which he had found so useful in his large practice.

Dr. Pierce is frank and open about his ready-prepared medicine, called Dr. Pierce's Favorite Prescription—he tells just what is contained in it—he says it is not a cure-all, as it serves only a singleness of purpose, being for women's peculiar weaknesses and maladies, the only medicine put up for sale through druggists for the cure of such maladies, all the ingredients of which have the endorsement of leading medical practitioners and writers, as being the very best known remedies for the ailments for which "Favorite Prescription" is advised. All this will be learned to the reader's full satisfaction by perusing a booklet of extracts compiled by Dr. Pierce from standard authorities of the several schools of practice, and which will be sent *free* to any address on request for same, mailed to Dr. R. V. Pierce, Buffalo, N. Y. It stands alone. Dr. Pierce's Favorite Prescription is the *only* medicine for woman's peculiar weakness and affections, all the ingredients of which are printed upon the bottle-wrapper in plain English, so that all who take it may know exactly what they are using.

A further reason for the unprecedented popularity of the "Favorite Prescription" of Dr. Pierce for the special use of women is to be found in the fact that it contains not a drop of alcohol. He does not believe that an alcoholic compound is beneficial for those affections peculiar to women because the after-effect of spirituous wines or alcoholic medicines is harmful for weak, invalid, nervous women.

What "Favorite Prescription" has done for others it will no doubt, DO FOR YOU, if similarly afflicted, and you give it a good, fair and faithful trial.

Department Railways and Canals, Canada

Trent Canal Holland River Branch Notice to Contractors

Sealed Tenders addressed to the undersigned and endorsed "Tender for Trent Canal," will be received at this office until 16 o'clock on Wednesday, the 15th July, 1908, for deepening and improving of a channel way from a point in Cook's Bay—Lake Simcoe, Ontario, to the mouth of and up the Holland River, and the East branch thereof to the Bradford Road at Holland Landing.

Plans, specifications, and the form of the contract to be entered into, can be seen on and after the 22nd June, 1908, at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, at the office of the Superintending Engineer, Trent Canal, Peterborough, Ont., and at the office of the Division Engineer, Newmarket, Ont., at which places forms of tender may be obtained.

Parties tendering will be required to accept the fair wages Schedule prepared or to be prepared by the Department of Labor, which Schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signatures, the nature of the occupation, and place of residence of each member of the firm.

An accepted bank cheque for the sum of $2,000 must accompany each tender, which sum will be forfeited, if the party tendering declines entering into contract for the work, at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective parties whose tender are not accepted.

The lowest or any tender not necessarily accepted.

By order,

L. K. JONES,
Secretary.

Department of Railways and Canals, Ottawa, 17th June, 1908.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

Mail Contract

Sealed Tenders addressed to the Postmaster General, will be received at Ottawa until Noon, on Friday the 31st July, 1908, for the conveyance of His Majesty's Mails, on a proposed Contract for four years six times per week each way, between Bensfort and South Monaghan, from the 1st October, next.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Office of Bensfort, Lorens and South Monaghan and at the Office of the Post Office Inspector at Kingston.

Post Office Department, Mail Contract Branch, Ottawa, 16th June, 1908.

G. C. ANDERSON,
Superintendent.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

reserve may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at an Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead duties under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each one and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3) If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of a homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father or mother.

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line exclusive of the width of road allowances crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the agent for the district of such intention.

Six months' notice in writing must be given to the Commissioner of Dominion Lands at Ottawa, of intention to apply for patent.

W. W. CORY,
Deputy of the Minister of the Interior.

Weak Kidneys

Weak Kidneys, surely point to weak kidney nerves. The Kidneys, like the Heart, and the Stomach, find their weakness, not in the organ itself, but in the nerves that control and guide and strengthen them. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the Kidneys alone, is futile. It is a waste of time, and of money as well.

If your back aches or is weak, if the urine scalds, or is dark and strong, if you have symptoms of Bright's or other distressing or dangerous kidney disease, try Dr. Shoop's Restorative a month—Tablets or Liquid—and see what it can and will do for you. Druggists recommend and sell

Dr. Shoop's Restorative

Her Exalted Position.

"Ye needn't think because ye see me goin' an' comin' be th' back door iv Mr. Malcolm Goldborough's mansion that Of'm wan iv th' common servants iv th' house," said the haughty customer to the uncivil butcher.

"Oh," ejaculated the fat little man, abruptly turning obsequious, "are—are you a family connection of the great Goldborough's, ma'am?"

"Of'm more than a mere connection, sir."

"Pardon me," added the butcher, gazing patronizingly at this personage, "you're one of the family that's been abroad and whom I haven't had the pleasure of meeting before perhaps?"

"Ye'll have t' go higher than that."

"Not Mr. Malcolm's new wife?" gasped the fat little man. "I didn't have a suspicion that he"—

"Higher, mon. Of'm higher."

"Higher?" uttered the perfectly bewildered butcher.

"Yis. Of'm th' cook!"—Bohemian.

Drug Store For Horses.

"I came across a queer little drug store the other day," said the city salesman. "It makes a specialty of veterinarian prescriptions. According to the proprietor's own account, they don't sell very much in that store except horse medicine. They sell more of that than any other drug store in town. The neighborhood abounds in stables and animals' hospitals, and most of the drugs used in doctoring sick horses are bought at that store. Of course the place is fitted up with the usual drug store paraphernalia. There is a soda water fountain, a cigar stand, postage stamps can be purchased there and drafts and doses for human beings will be compounded upon request, but those familiar and supposedly primary functions of a drug store are in this case a superfluity, because about all that druggist does is to put up cures for equine ailments."—New York Press.

Her Secret.

Wife—Have you any secrets you keep from me, dearest?

Husband—None, darling.

Wife—Then I am determined I will have none from you either.

Husband—Have you secrets, then?

Wife—Only one, and I am resolved to make a clean breast of it.

Husband (hoarsely)—Go on!

Wife—For several days I have had a secret—a secret longing for a new dress, with hat to match, for my birthday.

That fetched him.—London Mail.

A Courteous Pirate.

That even a Chinese pirate may have a strong idea of chivalry is proved by the following excerpt from an item in the North China Daily News: "The launch at once stopped when ordered to do so. The leader of the pirates was then heard to order his men that they were not to molest any one on board who voluntarily handed over his or her valuables. Among the passengers, however, were a father and son, the latter of whom, it seemed, was a little too slow in obeying the pirates' order to hand over his money, with the result that he was shot. Upon hearing the shot the pirate chief, who was on deck, came down into the cabin and, seeing the father of the unlucky young man lamenting over his son's death, addressed the old man and condoled with him on his son's unfortunate and 'undeserved' death. The chief finally brought out of his pocket a roll of $30 and handed the sum to the old man as a solatium, bidding him to refrain from further lamentations."

Some Remarkable Guns.

At the siege of Rhodes the Turks constructed mortars by hollowing out cavities in the solid rock at the proper angle, and in the arsenal at Malta is a trophy of the long and glorious defense of Valetta, in a Turkish gun, about a six pounder, composed of a copper tube coiled over with strong rope and "jacketed" with rawhide. In the same collection are some antique "quick firers," breechloaders, with small bores and immensely long barrels, like punt guns. The Malay pirates put great trust in the long brass swivel guns called "lela," and in Borneo these lelas were used as a kind of currency, large ones being estimated in guns.

The Chinese cast excellent bronze guns (there is a fine specimen of them in Devonport dockyard), but so little did they understand gunnery that in the so called "opium war" the forts of the Bocca Tigris, defending the Canton river, had the guns built immovably into the walls. The Sikh gunners opposed to us in the two Punjab wars, though they loaded with amazing recklessness, shoveling in the powder from open boxes, stuck to their guns to the last. The blood of the first man killed was smeared on the gun, and the whole detachment died beside it sooner than retreat.—Chambers' Journal.

Animal Oddities.

In South Africa baboons kill sheep.

Horses, giraffes and ostriches have in proportion to their size larger eyes than any other living creature.

A horse in good condition can exist about twenty-five days without food so long as he has plenty of water to drink.

An elephant works from the age of twelve to eighty. He can haul fifteen tons, lift half a ton and carry three tons on his back.

Sports

The Port Hope walk promises to be a great success, as it will form one of the chief attractions on the program for the Port Hope Old Boys' and Girls' Reunion. It will be held in the skating rink on a track 12 laps to the mile, and the walkers will go for 32 hours—the limit being placed at 150 miles. Mr Reynolds himself will referee, and it is expected that many of the United States and Canadian cracks will compete in this event, including Hoogland, Slater, Blake, Stacey of Toronto, and other well-known walkers.

The program is as follows.

Wednesday, July 1—
9 a.m. to 11.30 a.m.
8 p.m. to 11.30 p.m.
Thursday, July 2—
1.30 p.m. to 11.30 p.m.
Friday, July 3—
9 a.m. to 11.30 a.m.
8 p.m. to 11.30 p.m.
Saturday, July 4—
1.30 p.m. to 11.30 p.m.

THE RING.

Paris, June 15.—Tommy Burns, the Canadian boxing champion of the world, had a tough fight Saturday night with Bombier B. O Squires. The bout at the bowling palace in Neuilly, and being the night before the Grand Prix, there was an enormous crowd in attendance.

It was the second meeting. Burns having put Squires away before in the first round.

Last night Burns sent Squires down for the count in the third, but after that the Australian recovered, and forced the battle somewhat, giving the champion the worst of the exchanges. Burns was knocked to the carpet in the eighth, but came back fiercely, and by a series of body punches scored a knockout.

The winner was enthusiastically cheered.

Piles are easily and quickly checked with Dr. Shoop's Magic Ointment. To prove it I will mail a small trial box as a convincing test. Simply address Dr. Shoop, Racine, Wis. I surely would not send it free unless I was certain that Dr. Shoop's Magic Ointment would stand the test. Remember this made expressly and alone for swollen, painful, bleeding or itching piles, either external or internal. Large jar 50c. Sold by all dealers.

London, June 23.—The Canadian athletes, Parkes, Buddo and Tait, are entered in the 600-yard handicap at the London Athletic Club games at Stamford Bridge on Saturday. Kerr and Buddo are entered in the 100-yard handicap; Kerr and Sebert in the 300-yard relay race. In the relay team race Kerr, Sebert, Buddo and Lukeman are entered. McCarthy has entered the quarter-mile, the mile and the five-mile handicap at the National Cycle Union meet.

Electrocute a Woman

Watertown, N.Y., June 24.—Guilty of murder in the first degree, was the verdict of the jury in the case of Mrs. Mary Farmer, charged with the killing of Mrs. Sarah Brennan, April 23. Justice Rogers sentenced Mrs. Farmer to be electrocuted at Auburn prison during the week beginning August 5.

Mrs. Farmer's victim, Mrs. Brennan, was her neighbor and intimate friend, and the motive was to gain possession of the Brennan home, deeds of which Mrs. Farmer had forged in October. Mrs. Brennan was hacked to pieces with a hatchet, and

A RAISE IN MINING STOCK

ALLOTMENT SUBSCRIBED.

The requisite amount of stock has been subscribed and paid in full to enable the Company to proceed to allotment and commence business.

RAISE OF MINING STOCK.

THE GREAT NORTHERN LARDER LAKE MINING CO., Limited, proposes to advance price of their treasury stock to Twenty-five (25c) cents on June 22nd. Last chance to buy at ten cents a share, par value One Dollar, fully paid up and non-assessable.

The foreman, Mr. David Foster, of Cobalt, has started to work on the Company's property with a gang of men to develop veins already discovered, also to continue striping in search of new gold veins.

We are erecting boarding houses and dining-rooms for our men.

READ COPY OF CERTIFICATE AND STATUTORY DECLARATION CONFIRMING SAME.

Toronto, March 28th, 1908.

To the Great Northern Larder Lake Mining Company, Limited:—

Gentlemen,—

I beg to confirm my previous report to you that in my judgment the surface showings on the 14 mining claims which the Company has acquired, being Nos. H.S. 231 to H. S. 234, both inclusive indicate the probability of the existence of large bodies of both high grade and low grade free-milling ore, sufficient to pay dividends for an indefinite period.

I have personally examined a number of veins and reefs on said property (consisting of about 560 acres) and had some assays made and from such examinations and assays I make this report.

The statement on pages nine and ten of the Prospectus giving the short history of the Company are correct. I insisted on retaining a large interest in the Company rather than sell for any price that seemed reasonable to the purchasers.

DAVID A. FOSTER,
Haileybury.

IN THE MATTER OF THE GREAT NORTHERN LARDER LAKE MINING CO., LTD.

Statutory Declaration.

DOMINION OF CANADA
County of York,
TO WIT:

I, David Foster, of the town of Haileybury, in the district of Nipissing, miner, do solemnly declare that the statements in the annexed certificate are true. I have personally inspected all of the fourteen claims now transferred to the Great Northern Larder Lake Mining Company, Limited. I have taken samples containing gold values from said property, and from my personal examination, and from assays made, I believe the Company's property when developed, will prove very valuable. I have full confidence in the success of the said Company, and on this account, with the exception of $440 already received, I have agreed to accept stock in said Company, and a note which I believe will not be of much value should the actual development work not prove the said claims to contain gold in paying quantities as it is not payable for one year from this date or until after the Company shall have done the necessary development work on said claims. And I make this solemn declaration conscientiously believing it to be true and knowing that it is of the same force and effect as if made under oath, and by virtue of "The Canada Evidence Act."

DAVID A. FOSTER.

Declared before me at Toronto, in the County of York, this 31st day of March, 1908. J. T. LOFTUS, A. Commissioner in H. C. J.

PROPERTIES TRANSFERRED.

Since the prospectus was printed, the sale of the 14 mining claims to the Company has been completed and the transfers to the Company are registered in the Recorder's Office at Larder City. There is no mortgage or other encumbrance against said claims.

10c. PER SHARE.

A CURE FOR SHYNESS.

Two Kinds of This Disease, Physical and Mental.

There is probably no defect which causes so much anguish of spirit and discomfort as shyness and blushing. Nobody who has not personally suffered from it can conceive what it may cause.

Shyness may proceed from one of two causes—the one physical, the other mental. It is often an affair of health. The nerves are out of order, and the will becomes weak. People shrink from their fellow creatures and are filled with an unreasoning horror of meeting or speaking to them. The best cure for this kind of shyness is fresh air, exercise and cheerful society.

But there is another shyness and one harder to cure which comes from mental causes. The person so afflicted may be in robust health and yet so tormented by this inward enemy that she finds all intercourse with other people positively alarming. To meet strangers causes her a severe struggle. She would gladly turn down the first street corner to avoid bowing to even an acquaintance.

In either case the root of the matter is self consciousness, and it is only by losing that self consciousness that self possession can be gained. As long as one thinks about oneself at all one will be liable to shyness. The only cure is to thrust all thought of oneself into the background as much as possible, when one will gradually become natural, happy and at ease.

RAWHIDE-DULZURA

1 CENT A 2 SHARE

Send us your name as a member in this new company, with your remittance for as many thousand shares as you can take at $5 per thousand.

This is a short-time offer on a hurry-up proposition. Our vice president is up at Rawhide now putting the miners at work. We want to raise the necessary funds for development as quickly as possible. Therefore, we offer the first block of stock at $5 a thousand shares. This subscription must be all cash. We want the money in hand. We mean to work without let-up, and we have made it an ironclad rule not to run in debt. Cash counts now.

Our prospectuses are out. Send for one.

Make reservation of stock. If you do so more. But, remember, this present offer of stock at Half a Cent a Share is now open, and will be closed as soon as enough cash subscriptions are in hand. Don't wait, or you will get left.

The gold mining property owned outright by the company consists of 7 claims, 5 in the Rawhide district of Nevada, and 4 in the Dulzura district of Southern California.

The Rawhide district to-day is more famous than Goldfield, Tonopah, Bullfrog, or Searchlight were at the same stage of exploration and development. The Dulzura discovery is one of the most sensational in the history of California.

Ten samples of ore which were among the first assayed, ran as high as $7,461.87 to the ton, and all ten averaged over $1,500 a ton.

In both camps we located early, and our locations are choice. Our own officers will superintend the mining.

Rawhide-Dulzura Gold Mining Company

122 West Third Street, Los Angeles, Cal.

Says This Medicine Has Mystic Powers

Will Assist Anyone in Weak, Pale, Nervous Condition to Robust, Hearty, Health.

It's on the spring that health gives out—that folks begin to feel sluggish, weary, tireless,—hate to eat, look pale, feel discouraged.

If you've reached this state, read what J. W. Jervell, well known in Morristown, has to say about the medicine that cured him. 'Last winter I caught a heavy cold that settled in my back. My kidneys and liver were affected and my health failed. By spring I was in bad shape—couldn't sleep like I used to—felt tired in the morning—the very little—was terribly depressed, pale and anxious looking. Twinges of rheumatism, frequent neuralgic attacks over the temples, made matters worse. The doctor prescribed three times, but didn't help. Then I heard of Dr. Hamilton's Pills.—They possess mystic power surely, for I gained and improved day by day and now am in perfect health again. I will praise and use Dr. Hamilton's Pills till I die."

The ingredients in Dr. Hamilton's Pills are pure and wholesome—come right from the storehouse of Nature in the form of vegetable juices and extracts.—consequently this gentle invigorating laxative tonic and blood purifier is safe for old and young alike. We assure you of enormous benefit from Dr. Hamilton's Pills which revitalize delicate glands, search out the seat of hidden disease, flood the body with vigor and health that has caused thousands of broken-down, despairing men and women to join in a mighty song of praise for the beneficient aid that comes from this king of all tonics. Get Dr. Hamilton's Pills today. 25c at all dealers.

Sioux Chief Black Cloud

City Topics

IN SHORT FORM FOR BUSY READERS

—The usual Salvation Army Holiness meeting was held last night.

—A large picture of Bishop O'Connor is in Roy's window.

—The local barber shops will be closed on Wednesday.

—Arrangements have been made for the local to stop at Asphodel Siding on July 13 to take South Dummer I.O.L. to Peterborough to the celebration.

—Weak women should try Dr. Shoop's Night Cure. These soothing, healing, antiseptic suppositories go direct to the seat of these weaknesses. My "Book No. 4 For Women" contains many valuable hints to women, and it's free. Ask Dr. Shoop, Racine, Wis., to mail it. Ask the Doctor in strictest confidence, any questions you wish answered. Dr. Shoop's Night Cure is sold by all dealers.

Will be Home This Month

Rev. Father McGoll will be home from Europe at the end of this month. Letters have been received from him saying he is enjoying the best of health.

A Cat in the Mail Box

While Mr. Alfred Kingscote was emptying a post office parcel box on the corner of Hunter and Mark streets, east ward, he found a cat in it. Some boys are responsible for committing this offence, and an effort will be made to punish the guilty parties.

To stop any pain anywhere in 20 minutes, simply take just one of Dr. Shoop's Pink Pain Tablets. Pain means congestion—blood pressure—that's all. Dr. Shoop's Headache—or Pink Pain Tablets—will quickly coax blood pressure away from pain centers. After that, pain is gone. Headache, Neuralgia, painful periods with women, etc., get instant help. 20 Tablets 25c. Sold by all dealers

Troublesome Children

Mr. and Mrs. Henry of the Children's Aid Society, are at a loss to know what to do with the London children who have made so much trouble. Just recently one of them was given to a woman, who was going to take her out to her farm. The woman got as far as the Munro House, but while she had her back turned, the child escaped.

Will go to Idyl-Wyld

At a special meeting held by the Bricklayers and Stonemasons' Union on Thursday night, it was decided to hold an excursion down the river July 4th, to Idyl Wyld. The palatial steamer Otonabee, has been chartered for the occasion and everything is being done to make the day an enjoyable one for all who attend.

Will Return to the West

Mr. and Mrs. Bruce Ferguson of Lemberg, Sask., returns home today after visiting friends in Peterborough for the last two weeks. Mr. Ferguson, in speaking of the West, said the prospects were most encouraging and an abundance of wheat and money was anticipated at harvest time. The money stringency which has been practically universal, has been pretty severely felt in the west, but would be relieved if the harvest is as good as it at present gives indications of being.

Up-to-date Printing Machine

Mr. Walter M. Newey, representing the Harris Automatic Press Company, Chicago, called on The Times yesterday, and arranged for the installation, at any early date, of one of these famous printing machines. These machines print 5000 an hour in two colors, and are regarded by pressmen as the most up-to-date printing press on the market.

June Shipment of Cheese for this District

The first half of the June shipment of cheese was made yesterday afternoon, and is said to be some of the best cheese ever turned out of the Peterborough District. Mr. Geo. A. Gillespie, one of the buyers on the local board, considers that the quality is excellent, and as Peterborough cheese has always been looked upon as being of the best, the patrons and makers must be giving special care to the work.

51 Years a Member of the Orange Lodge

This year on the 12th of July, Mr. Rowborough of Lakefield, will be 51 years a member of the Orange Order. Mr. Rowborough has only missed one "Orange walk," in fifty years, and hopes to see a good many more. The one celebration he missed was on account of his wife's death.

Mr. Rowborough states that the Orangemen of Lakefield are coming to Peterborough in full force for the Orange celebration on the 13th of July and he hopes to be among them. He was an excellent drummer and is also familiar with the art of drum-making. In fact he is an expert in this line. He is still hale and hearty and hopes to be able to celebrate the diamond anniversary of his joining the order.

CHRONIC CATARRH NOSE AND THROAT

"At the Advice of Friends I Tried Peruna and the Results Have Been Highly Satisfactory."—So Writes Mr. Pilon.

MR. RAOUL PILON, 116 Rue Notre Dame, Lachine, P. Q., Can., writes:

"I write you a few words to express to you my satisfaction at being cured. *I was afflicted with catarrh of the throat and nose and suffered much.* I was greatly discouraged. I had a bad breath and a bad taste in my mouth in the morning.

"I took treatment for some time without obtaining relief. At the advice of friends I tried the Peruna and the results have been highly satisfactory. *At the end of four months I was completely cured."*

Neglected catarrh becomes chronic. Having developed into the chronic stage, a longer and more persistent treatment will be required to cure it than if the disease were treated at the onset.

However, Peruna generally brings relief, whether the catarrh is acute or chronic. If you are wise you will keep Peruna on hand and take a few doses at the first appearance of a cold or cough, and thus perhaps save yourself both suffering and expense.

Peruna is recognized the world over as a standard remedy for catarrh. A multitude of people have been benefited by it.

WOMEN CURED AT HOME

Women's disorders always yield, from the very beginning of the treatment to the mild but effective action of Orange Lily.

Within two or three days after commencing its use the improvement becomes noticeable, and this improvement continues until the patient is completely cured. Orange Lily is an applied or local treatment, and acts directly on womanly organs, removing the congestion, toning and strengthening the nerves, and restoring perfect circulation in the diseased parts.

In order to convince all suffering women of the value of this remedy I will send a 35 cent box enough for ten days' treatment, absolutely FREE to each lady sending me her address.

ADVERTISE IN THE TIMES.

To Canadian Investors

The undersigned has received an allotment of unsold portion of $100,000 of

7 Per Cent. First Mortgage Five-Year Gold Bonds

dated January 11, 1908, and maturing January 11, 1913. These Bonds are offered at par and accrued interest by Metropolitan Truet & Savings Bank, Chicago, trustees.

SECURITY—The Entire Property and Improvements Owned THE URES CONSOLIDATED MINING COMPANY in the District of Ures, State of Sonora Mexico, Free from Mortgage or Bonded Indebtedness except this present Bond issue.

An Unusual Opportunity for Investment in Sound Security

The Ures Consolidated Mining Company offers $100,000.00 of First Mortgage Gold Bonds. This issue of bonds is the only mortgage or bonded indebtedness ever placed on the company's properties.

These bonds are in the denomination of $100.00, and bear interest at the rate of 7 per cent. per annum, payable semi-annually, July and January, and are redeemable on or before five years from date at the company's option at $110.00 and accrued interest.

$100.00 Stock Bonus Given with Every $100.00 Bond

With each bond issued there will be given $100.00 par value of the capital stock of the company as a bonus, and in addition thereto there will be placed in escrow with the Trustee additional stock which will be available to the bondholders at their option any time within a period of three years, the bondholder being entitled to surrender his bond any time within said period and receive in lieu thereof stock for every dollar of indebtedness to him on account of said bonds.

The Security Back of these Bonds

The company owns twelve claims situated in the district of Ures, State of Sonora, Mexico, free from mortgage or bonded indebtedness, except the present bond issue.

On one of these properties (The Itamona Mine) 6,000 feet of underground development work has been done, consisting of an inclined shaft to the depth of 400 feet with drifts in three levels to the North and South of the shaft.

An average value of ore worth $11.47 per ton is exposed throughout the mine, from the collar of the shaft to the extreme parts in the drifts, all of which is above water level.

The company has made surface improvements and mine improvements to the extent of $60,000.00 in the way of machinery, skids, trams, steam hoists, mill and nearly everything necessary to make the mining camp complete.

In addition to the absolute ownership of these twelve valuable claims, the company has a lease on the San Jose Mine, adjoining its property, in which the company has been operating in high grade ore.

During the past sixty days the company has extracted and delivered to ore buyers and the bank at Hermosillo, $5,000.00 worth of ore and bullion, the ore having been reduced to bullion through the company's mill, with the exception of 1,464 pounds, which was sold to an ore buyer for $562.50.

The Money Derived from the Sale of These Bonds

This issue of bonds is made for the purpose of securing money at once in order to extend the development work more quickly than the company's present means will permit.

With the high grade ore in sight to the distance of 50 feet to the South of the shaft, the management is assured that within six months from date of making the improvements now necessary the company's properties will be on a self-sustaining and dividend-paying basis.

The Stock which is Given with these bonds will be as valuable as the bonds when the Company has the ready capital to push operations

Men who invest in these bonds will have no cause or reason to regret their action, for the bonds afford an investment in a security which is absolutely safe—much better than ordinary city or country real estate, which is considered perfectly safe if the property put up to secure a mortgage is double the face of the loan. The security given on these bonds is better than 7 to 1, for the Ures Consolidated Mining Company has refused an offer of $750,000.00 for the property upon which this $100,000.00 worth of bonds is issued.

These bonds are an investment with all speculative risk eliminated—an investment with absolute security.

Make your reservation at once. This is small and promises to be quickly sold.

Bank References

CAPITAL $1,500,000 RESERVE $950,000

Banco de Sonora,
Hermosillo, Mex.,
Feb. 11th, 1908.

To whom it may concern:—

We hereby beg to state that The Ures Consolidated Mining Company has during the past five years made several deliveries of bullion to this bank, and it is the opinion of mining men here that they have the making of a fair mine, and further, that the properties owned and controlled by them bid promise of becoming paying properties.

From our knowledge of the men connected, we believe they are doing all in their power to bring about the results above mentioned.

Respectfully,
BANCO DE SONORA,
Max Muller, Gerente.

Successful Pupils in the Commercial Dept. Collegiate Institute

It is the aim of the Collegiate to give in the Commercial Department in addition to the Commercial subjects a thorough grounding in the English branches and arithmetic. For this reason the students of this department are required to take a higher percentage to pass than the pupils in the other forms. The complete course can be done in two years. The students take typewriting when they reach the Senior Form. After a student has completed the full course and passed successfully the examination of the different parts he or she is awarded a Commercial Diploma.

COMMERCIAL 2.

The results of this year's examinations are as follows:—

Part 1.—This part comprises Reading, Spelling, Grammer, Composition, Literature, History, Geography and Arithmetic. To pass 55 per cent. in each subject and 55 per cent. of the total is required. Honors 75 per cent. The names are in order of merit.

Honors—Irena Spicer.

Pass—Mabel Russell, Ethel Pethick, Miss Waldie, Estella Collinson, Grace Evans, Maud Lindsay, Emily Horsfield.

Part 2.—Comprises Book-keeping Theory, Book-keeping Practice, Single and double entry, Business Forms and Law, Penmanship, Business Correspondence. To pass in this part 60 per cent total is required.

Honors—I. Spicer.

Pass—E. Collinson, E. Pethick, M Waldie, G. Evans, M. Curtis, M Russell, M. McIntosh, L. Haskill, E. Horsfield, (equal) L. Stillman, H. Baptie

Part 3.—Stenography.

To pass in this subject the student must pass in two five-minute tests. At least 80 words per minute must be attained, with less than 2 per cent mistakes (the Pitmanic test)

Those who attained 100 words per minute are I. Spicer and E. Pethick 90 words per minute H. Baptie, E. Horsfield, G. Evans, M. Russell.

Part 4.—Typewriting.

The students after taking a course in general work, tabulating and mimeographing must pass with an average speed of 30 words per minute in copy and dictation tests.

I. Spicer averaged 45 words per minute.

E. Pethick and M. Curtis 35, G Evans 34; E. Horsfield and M. Russell 32; H. Baptie and L. Stillman, 31; M. McIntosh and L. Haskill 30.

Commercial Diplomas are granted to I. Spicer, E. Pethick, G Evans, E. Horsfield, M. Russell.

Irena Spicer is the best student that has ever passed through the Commercial Department since it was organized.

Promoted from Commercial 1 to Commercial 2:—

To pass 55 per cent. in each subject and 55 per cent. of the total.

Elsie Kirk, N. Brand, May Rose, Audrey Bennett, B. Heenan, Myra White, Cecelia Shelvin, Birdie McDonald, Pearl Haskill, Muriel Caldwell, Ruby Derry, W. Tully, O. Girvin, Lillian Harris, H. Blanchard, P. Morgan, W. Sucee, H Stewart.

Otonabee Navigation Company's Steamers will Start To-Day

Regular Time Table for the Balance of the Season Now in Operation

The Otonabee Navigation Company's Steamers will begin their regular trips to-day. The following is the time-table:—

FOR STONY LAKE Steamer Water Lily

The STEAMER WATER LILY will leave Wolfe Street Wharf as follows:—MONDAYS at 7.00 a. m. Steamer Water Lily will leave Crowe's Landing, calling at any point (on request), arriving at Peterborough in the afternoon. Tickets same as quoted below.

TUESDAYS, WEDNESDAYS, THURSDAYS, leave Peterborough at 7.30, a.m., calling at Lift Lock, Lakefield, Young's Point, Juniper Island, Burleigh, Mount Julian and McCracken's, returning to Peterborough at 3.30 p. m. Connecting at Burleigh with Steamer Manita for Chemong Park and Bobcaygeon. Fare: Lift Lock, 25c; Lakefield, 35c; return 50c; Young's Point, 35c; return, 60c. All points on Stony Lake, 50c; return, 75c.

STEAMER WATER LILY will run a weekly freight trip during the season, leaving the Wolfe Street Wharf every Friday at 9.00 a. m. for Stony Lake, calling at intermediate points and also at all islands where freight or passengers are to be delivered. Fare as above, returning Saturday morning.

Saturday Market Trips

STEAMER WATER LILY, will leave Crowe's Landing, every Saturday during the season, for Peterborough at 6.30 a. m., calling at Breese's, Viamede, Mount Julien, Juniper, McCracken's Landing, Sandy Point, and intermediate points, arriving at Peterborough about 11.00 a. m. Returning will leave Peterborough at 3.00 p. m. calling at above-named points. Tickets from Crowe's Landing, 50; return 75c. From other points same as above.

Week End Trips—Stoney Lake

EVERY SATURDAY at 3.00 p. m. Steamer Water Lily will leave Wolfe street Wharf for Stony Lake, calling at Juniper, McCracken's, Mount Julien Viamede, Breese and Crowe's Landing, arriving at latter place about 5 p. m. where steamer will remain till Monday at 8.00 a. m. Tickets same as quoted above.

Around the Lakes

Parties can leave Peterborough on Tuesdays, Wednesdays and Thursdays at 7.30 a. m., by Water Lily, connecting at Burleigh with steamer Manita for Chemong Park, thence by auto bus to Peterborough, arriving about 7.00 p.m. Or they may go by Chemong and return by Water Lily at 3.30 p.m. This is a delightful trip and should be largely patronized.

Stony Lake to Rice Lake

In order to afford an opportunity for sojourners and others at Stony Lake resorts to visit Rice Lake and the magnificent driveway between these two points, including a trip over the famous Hydraulic Lift Lock, special return tickets to Idyl Wyld or to Gore's Landing will be issued for $1.50, including a coupon which will secure special rates at the Hotel National, the Snowden House, and the White House, Peterborough, for stop-over going and returning.

FOR RICE LAKE Steamer Monarch

THE STEAMER MONARCH will leave Wolfe street wharf daily for Rice Lake, calling at Jubilee Point, Gore's Landing, Idyl Wyld, and all points on the Otonabee River, as follows: Mondays at 10.00 a. m and all other days at 8.30 a. m., except Saturdays (when she will leave at 4.00 p. m.). Fare: 50c, return 75c; Children, half price.

THE STEAMER MONARCH will also leave Peterborough on Friday evening on arrival of C. P. R. local from Toronto, for Gore's Landing and Idyl Wyld, returning Saturday morning at 10.00. She will again leave for Gore's Landing and Harwood at 4.00 p.m., calling at all points on the River. Fare: 60c, return, 75c; Children half price.

Saturday Market Trips

THE STEAMER MONARCH will leave Idyl Wyld every Saturday, during the season for Peterborough at six a.m., calling at Harwood, Gores Landing, and all points on the river, arriving at Peterborough at 10.00 a. m., returning will leave Wolfe Street Wharf at 4.00 p.m.

Week End Trips—Rice Lake

THE STEAMER MONARCH will leave Saturday afternoons at 4.00 o'clock for Gore's Landing, Harwood and Idyl Wyld returning at 9 Monday morning. This affords a splendid opportunity for spending Sunday at either of these delightful resorts and getting back in time for business on Monday.

EXCURSION TRIPS Steamer Otonabee

The splendid new Twin Screw Excursion Steamer Otonabee will leave Peterborough every Thursday and Saturday afternoon at 1.30 for Gore's Landing and Idyl Wyld, returning at 9.30 p. m. Return tickets 50c. Children half price. A good dining-room service on board.

Excursions Solicited

THE STEAMER OTONABEE is open for engagements for Sunday Schools and Societies on all week days except Thursdays and Saturdays. Private excursion parties carried on all the boats on regular trips at reduced rates.

Regarding Freight

Freight and passengers for Stony Lake points will only be landed at points above named unless arranged for in advance. Freight must be delivered to all boats half an hour before starting. Freight to or from any point on the waters, by the scow load or less on reasonable terms.

Failed to Make the Port Hope Walk

Billy Grant, the Toronto man, who Friday endeavoured to lower Reynolds record on the Toronto-Port Hope walk, and return, quit Saturday morning about a mile west of Newcastle. Grant left Toronto on Thursday morning at 8 o'clock, arriving there at 11.30 and went direct to the Ontario House. He was attired in a light undershirt and bathing trunks, and immediately upon his arrival here his trainer gave him a cold bath. He remained about an hour, and his gait up the Walton street hill was sufficient proof that he would never finish the undertaking. Port Hope's 67-year-old barber is too much for most of them, and his time of 8h hours and 15 minutes will hold good for many a day.—Port Hop Guide.

Chemong Yacht Club Annual Meeting

The annual meeting of the Chemong Yacht Club was held Friday evening in the office of Hall, Medd and Davidson. The financial conditions of the club were reported to be very favourable. Commodore T. F. Matthew reported success of the last years regattas.

The election of officers resulted as follows:—

Hon Commodore—T. F. Matthews.

Commodore—A. A. Hollingshead.

Vice-Commodore—Howard Hopwood

Sec.-Treas.—W S. Davidson.

Committee—F. H. Dobbin, Alex. Elliott, W. R. Hartshorn, and Dr. Young.

The Club has one of the prettiest spots on the Kawartha Lakes for their summer home—Chemong Park — and with a club house of a modern character, with sleeping rooms which may be secured by any desiring to spend the nights there, they have a pleasant summer before them.

Regimental Parades are Discontinued

The following orders have been issued from headquarters of the 57th Regiment by the O. C.:—

1.—The regular Tesday night regimental parades are discontinued until further orders, but officers commanding companies will arrange such parades of their respective companies as will maintain their organization and efficiency until after the annual trip.

2.—The ranges in the drill hall will be kept open so as to give those members of the regiment who have not as yet done so, an opportunity to qualify for efficiency pay.

3.—Company pay sheets, efficiency pay sheets, service rolls and target returns must be completed and handed in to the Regimental Paymaster on or before July 11th next.

By order,

G. W. Bennett, Major,
Acting Adjutant.

ONE-ARMED MAN SWAM THE LOWER WHIRLPOOL RAPIDS

Wonderful Feat of Young Man---Did not Touch Rock or Bottom--- Was Under Over a Minute

Buffalo, N. Y., June 28.—Although handicapped by the loss of one arm, the result of an accident several years ago, George Powell, 25 years old, whose home is at 125 Main street, this city, last evening braved death at Niagara Falls and successfully swam the lower whirlpool rapids, a feat that has not been accomplished in two years.

In a state bordering on exhaustion he was lifted from the water at the Lewiston dock, thirty-five minutes after having entered the rapids at Flat Rock on the American side. The distance was 2 1-2 miles.

HAD NO AIR BAGS.

The youngman undoubtedly would have established a record for time had it not been for his being caught in the death dealing "Boiler" eddies a short distance above the Lewiston bridge. Powel swam only with life preservers, while those who made the trip before wore not only preservers, but air bags at their throats.

SWEPT TO CANADIAN SIDE.

When Powell jumped into the water at Flat Rock at 6.30 o'clock he was quickly whirled to the Canadian side and swept along by the powerful current.

Changing his course to the mid-stream he made remarkable progress for a hundred yards or so. He struggled desperately to avoid the eddies, but was caught on the edge of one, however, and was dragged under. William J. Lee and Mason Knapp, of this city, who kept watch of his movements say he was under the surface for fully a minute. When he finally appeared above water, he was whirled and buffeted for fully 30 minutes.

BACK INTO RAPDIS

He managed to hurl himself out of the frothing current and was swept into the rapids again. There he encountered a stiff back current, which he successfully resisted only after a violent effort. He proved equal to his task, however, and afterwards easily made the Lewiston dock. It was exactly 6.55 o'clock when he was landed on the dock.

Despite his condition Powell was game, and declared he had no hesitation in attempting the feat again.

TO SWIM TWICE A WEEK.

Powell says he will try to make arrangements with the owners of the Gorge Route. He proposes to swim the rapids twice a week. Powell is 25 years old, and weighs 155 pounds. He has made a number of difficult journeys in the water, but his chief exploits heretofore have been long distance swims. He has on several occasions covered 25 miles.

NEVER TOUCHED A ROCK

Powell made this statement to a reporter to-day:—

"I experienced little difficulty in the swim," said he this morning, after his arrival in Buffalo, "with the exception of passing through the 'Boiler' eddies, when I was under water for a minute and a half anyway. My chief trouble was in keeping my face down stream so that I could see where I was going. The waters of the Niagara have a great whirling motion, or rather a number of different whirling motions, and turned me around first one way and then the other. I never touched a rock or bottom during the trip.

MADE NO MONEY.

"I didn't make any money out of the swim yesterday. I went through the rapids for the purpose of establishing a record for myself. This is not my first swim of importance. When I was 16 I swam a five mile stretch in the Hudson River at New York. That was before I lost my arm. My last swim before the feat of yesterday was from the foot of Main street to the farthest lighthouse, about two weeks ago."

Previous to eight years ago Powell was one of the most prominent amateur swimmers in this part of the country. He was caught in a railway accident and suffered the amputation of his right arm. Despite that handicap he continued to figure in acquatic sports.

Four Alleged Pickpockets Committed for Trial

The four alleged pickpockets who were arrested circus day by P. C. Newhall were committed for trial by Magistrate Dumble Saturday afternoon, principally on the evidence of P. C Newhall.

The greater part of the afternoon was taken up by the cross examination of Policeman Newhall by G. N. Gordon, counsel for the prisoners. The Crown's witness could not be shaken after two hours and a half severe examination by Mr. Gordon.

The next witness for the Crown was a man by the name of Groves, who on cross examination by Mr. Gordon, was considerably mixed up.

In summing up the Magistrate said that with the evidence presented by the Crown he could do nothing but send the prisoners up for trial.

WALKING.

Mr. George Stevens, of Peterborough, who is engineering the big walk in the skating rink here on July 1st, is in town to-day in connection with the event. He is accompanied by Mr. James Stacey, of the Irish Canadian Athletic Club, Toronto, who has decided to enter the contest and will do his training here.

Mr. Stevens says the contest is arousing deep interest among the walkers of the province, and prospects are good for a large entry list. Following are the names of outsiders who have already entered: Tom Slater, Jas. Stacey, Charles Ashland Stevens (the boy wonder), W. Spencely, J. Spencely, Jas. Guerin, P. G. Towns, P. G. Walker, Slater is looked upon as a "comer" in walking circles; he is of the right build and was in second place in the Peterborough contest when he had to drop out owing to illness. When examined by a physician it was found that the poor fellow was on the brink of utter collapse owing to a severe attack of pneumonia.

Young Stevens and young Guerin will leave Peterborough at 2.30 p.m on Tuesday next for Lindsay, with the intention of establishing a record between the two places. They will be given a start from the Oriental Hotel by representatives of the local papers. They will be met some miles outside of Lindsay by Mr. Stacey, who will pace them over the last stretch of the long journey.—Lindsay Free Press.

Nervous?

DO YOU BROOD?
HAVE MORBID FEARS?
TOSS IN YOUR SLEEP?

Your Physical Condition is Below Par and must be Built Up. Try Ferrozone.

All the vital activities of the body are quickened into vigor by Ferrozone, which contains all the constituents necessary to make nerve strength.

Its first action is upon digestion. It stimulates the secretion of gastric juice, ensures perfect digestion and prepares the food so as to be easily assimilated.

Then everything you eat is converted into nourishment that enriches the blood and lends new strength to the nerves.

By Ferrozone the mind is relieved of those brooding tendencies, of morbid, unnatural fears, of unwillingness to concentrate attention on things that should be done.

Won't you try Ferrozone?

Won't you give it a chance to win you back to health; It will do it, just as it did for Mrs. Creighton Zinck of Palm Street, Lunenburg, N. S., who says: "I want to give my experience with Ferrozone because I believe it will be of assistance to thousands of women who need it badly. I was very thin, run down in flesh and lacked color. My nerves were in a dreadful state. If anything fell I would jump and start. At night I would suddenly wake up, heart palpitating and all keyed up. Ferrozone went right to work. It restored my poise and balance, gave me self-control, cured my nervousness. Ferrozone increased my appetite and my weight came up so fast that I simply didn't need to use it any longer. Eight boxes cured me."

Why Won't you use Ferrozone also. It certainly will do you good in many ways—sold by all druggists in 50c. boxes.

If one feels dull and spiritless, in the spring or early summer, they call it "Spring Fever." But there is no fever—usually. It is the after effect of our winter habits. The nerves are mostly at fault. Tired, worn-out nerves, leave us languid, lifeless, and without spirit or ambition. A few doses of Dr. Shoop's Restorative will absolutely and quickly change all of these depressing symptoms. The Restorative of course won't bring you back to full healthin a day or two, but it will do enough in 48 hours to satisfy you that the remedy is reaching that "tired spot." Druggists everywhere are advising its use as a splendid and prompt general tonic. It gives more vim and more spirit to the spoonful than any other known nerve or constitutional tonic. It sharpens a failing appetite, aids digestion, frees sluggish livers and kidneys, and brings new life, strength and ambition. Test it a few days and be convinced. Sold by all dealers.

Canines in Paris to be Chained or Muzzled

Paris, Ont., June 27.—Last night saw a crisis in the mad dog scare when Mayor Patterson issued a proclamation calling for all dogs to be muzzled or chained for two months.

Just a week ago, this morning, the trouble started when the little fox terrier of Mr. Thos Baker, Jane street, got Councillor Fred Elmes' ten-year-old son, Ira, and immediately after tackled a bull dog and two collies from the country, and finished up by killing Baker's parrot, which was on the verandah in a strong cage. It also bit Mr. G. H. Armstrong's horse, which is kept next door. Shortly after the dog died. The head of the animal was sent to the Provincial Board of Health, Toronto, for examination and last evening a wire came from Dr. Amyott to the effect that there was little doubt that the dog had rabies and advising that the child be sent away at once.

Baker's dog was at Dr. Paskin's veterinary stables for several days the forepart of last week, as it had been acting strange, but it was taken home Thursday afternoon.

The bull dog that was bitten was a thoroughbred and owned by Mrs. Widdet, but has since been destroyed.

TWO DOGS MISSING.

The two dogs from the country have not as yet been treated.

The home question will be carefully guarded to see what develops.

Mr. Elmes left last night for the Pasteur Institute, New York. The dog bit the little boy through the stocking. It is thought that most of the virus on the dog's teeth would be absorbed before reaching the flesh. Mayor J. M. Patterson accompanied Mr. Elmes.

Every precaution is being taken by the authorities, as several strange dogs also are reported to have been bitten.

New Home Rule Movement

Dublin, June 25.—A new Home Rule organization has been formed on plans opposed to the Nationalist policy. The new organization is called the Irish Imperial Home Rule Association. Its motto is "Federation, no separation". Its object is to get Home Rule for Ireland on the lines of Canada and Australia. The most prominent Irish Unionists, who hitherto have opposed Home Rule while it meant separation from England, are at the head of the new association, of which the gold-new association, of which the headquarters are established in Dublin.

Prominent commercial unionists are supporting the new organization, which includes Protestants, Catholics and Jews.

"Petes" Meet Their First Defeat of the Season at the Hands of the Athletics on Saturday

For the first time this season the laurels of Manager Johnston's Petes were lowered on Saturday afternoon in the Midland League game with Manager Lynch's Athletics by the score of five to three, before a small crowd of spectators.

The game was a splendid one for fans to witness and no doubt the result came as a great surprise to many of them. The Athletics and their supporters are naturally wearing a broad smile, for they are the only team in the Midland League that have conquered the Johnsonites—in fact out of 14 games this season the Athletics have been the first to break the "Petes" winning streak.

The "Petes" were without the services of Cheetham, at 3rd, O'Brien covering that sack and "Josh" Craig, who made his first appearance in Midland League Company, playing centre field. Craig made a very creditable showing getting a single and taking in a number of nice flys. Madoc is suffering from a bad ankle and his usefulness at the bat was a loss to the Petes. In Saturdays game. Hawkins filled his position at 2. s. and got everything.

The Athletics went into the game with confidence and steadied right in to playing ball.

The Petes were in the lead right up till the ninth innings when the Athletics secured three runs, winning the game by 5 to 3.

The Petes played an almost errorless game having but one chalked up against them, while the Athletics had five. It was their inability to hit Quinlan that lost the game, they being only able to get three hits off his delivery, while Clements was touched up for nine. The Athletics showed better form on Saturday than in any game this season. They used the willow to better advantage than in previous games which was a lamentably weak point in their playing, and in the game with Cobourg on July 1st should add another victory.

JOHNSTON'S PETES

	AB.	R.	H.	PO.	A.	E.
Burns, r. f.	4	½	½	0	1	0
Murphy, l. f.	4	0	0	4	1	0
O'Brien, 3b.	4	0	0	2	1	1
McDermott, 2b.	4	0	0	2	2	0
Edmunds, c.	4	0	0	5	1	0
Lawson, f. f.	4	1	0	1	0	0

Quinlan, p.	3	½	½	1	2	0
	32	3	4	27	7	5

SUMMARY.

Bases on balls—Off Clements, 2, Hit by pitched ball—Pilling. Struck out—By Clements, 6; by Quinlan, 5. Two-base hits—Hemslip. Sacrifice hits—Graham. Left on bases—Peterboroughs, 2; Athletics, 6. Stolen bases—Burns, 6; Lawson, 1; Connors, 1; Rattray, 1; Mackrell, 1; Quinlan, 1. Hits—Off Clements, 9; off Quinlan, 8.

NOTES.

Murphy, for the Petes, played a sensational game, making three long runs after flys and eating them up like a hungry man. Murphy makes a long run to creek after another but refused to take the water jump, owing to a wagon being the obstacle in the way.

"Cornoy" Burns at right field played his usual brilliant game.

Jerry Edmunds, was there with the goods behind the bat and watched the bases well.

Pilling on second played a great game for the Athletics.

Quinlan pitched one of the best games ever witnessed here.

The game on July 1st between the Athletics and Cobourg should be a sizzler. Cobourg plays great ball and is a dangerous aggregation but with the form shown by the Athletics on Saturday Manager Lynchs team should come out on top.

Rev. H. M. Manning's Farewell at Charlotte St. Church

Last evening the Rev. H. M. Manning of Charlotte Street Methodist Church, preached his farewell sermon to a large congregation, closing a most successful two years' work as the pastor of the church.

Rev. Mr. Manning will not leave the city but will take charge of the new St. James Church, which will be built in the South End of the city in a short time. His text for last night was taken from the 10th chapter of the Acts of the Apostles, 32 verse, "I Commend you to God", and his subject was immortality, or the true test in the career of the children of God. He emphasized very strongly in his sermon as to why people should commend themselves to God and closed with the words, "I commend you to God and [illegible]"

Fish Inspector is After Americans

A party of nine Americans arrived in town yesterday morning and commenced their journey by canoe up to the upper waters, presumably for the purpose of angling. According to the fishing notice, non-residents of the Province of Ontario, who angle without a special permit, which they did not have, are liable to have their fish and rods confiscated. Inspector Bradshaw, as usual, had his weather eye open for such irregularity, and although the party assured him they were merely out for a good time, the inspector wired to Fenelon Falls to be on the lookout for any suspicious occurrence on the part of the young men in question.—Lindsay Post.

To Launch Big Vessel

North Tonawanda, N.Y., June 27.—The Daniel B. Muncham, one of the biggest steel bulk freight steamers will be launched tomorrow. Many members of the American Society of Mechanical Engineers, now in session at Detroit, will be here for the occasion.

Charlie Stevens Makes Record Walk to Lindsay

Made the Distance from Peterborough to Lindsay in Five Hours and Three Minutes

Charlie Stevens (the boy wonder) made a record in his walk to Lindsay on Saturday afternoon, when he covered the distance from the Oriental here to Lindsay, over 30 miles, in 6 hours and three minutes. Charlie was endeavoring to make it in 5 1-2 hours but clipped about 30 minutes off his schedule time.

Pills are easily and quickly checked with Dr. Shoop's Magic Ointment. To prove it I will mail a small trial box as a convincing test. Simply address Dr. Shoop, Racine, Wis. I surely would not send it free unless I was certain that Dr. Shoop's Magic Ointment would stand the test. Remember this made expressly and alone for swollen, painful, bleeding or itching piles, either external or internal. Large jar 50c. Sold by all dealers.

ADVERTISE IN THE TIMES.

OUR EMIGRATION POLICY

Canada is still encouraging immigration, even paying a commission for each desirable alien induced to make his home within its boundaries. But its desire for population is not so great now as to lead it to welcome anybody and everybody without question. On the contrary it has become decidedly "particular" and has imitated the United States in adopting a series of restrictive measures designed to keep out, or to deport, new arrivals of certain objectionable classes.

A few weeks ago an order in council was passed prohibiting the landing in Canada of any person whose passage money has been paid wholly or part by any charitable organization or from any public treasury, unless a permit in writing has been obtained from the Dominion immigration agents in London and such permit has been acted upon within sixty days.

This action is due to the fact that during the year 1907 our immigration authorities were obliged to reject as undesirable 141 arrivals and to deport over three times that number. An investigation had shown that certain philanthropic societies in England were inducing emigration to Canada under a mistaken theory of what the Dominion wanted—that they were confining their operations to the... "unemployed, destitute and incompetent". Now, the government realizes that many of the destitute an dunemployed may have good stuff in them, the making of excellent citizens under healthier and better industrial and social conditions; still, it wants competent, ambitious, industrious, hopeful men and women, not "failures" from the lowest strata of the old world's population.

Perhaps the well-to-do American has "spoiled" the Dominion. At any rate, it is going to be very particular henceforth, even if the effect of its restrictions be to check perceptibly the movement of emigrants Canadaward.

No $10 a Month for These Men

Mayor Rush was not the only one to be waited upon by the unemployed of the city as the same morning Geo Howson was called upon so was Geo Howson. About twenty unemployed filed into the office and asked him for work as they had to support their wives and families. Mr. Howson told them he had a number of vacancies on farms, and asked them what they were going to do about it.

NO $10 A MONTH

One of the men continued: "We are willing to do anything, but we won't stand for $10 a month. You can't keep your wife and family on that but and there's no use of us going for that." A tall man spoke up from the rear of the crowd, "and we won't stand for getting up at four o'clock in the morning." Mr. Howson explained the duties on the farm, and what was required of helpers. He asked them what experience the men had at farm work, and some were inexperienced. They acknowledged that it was not fair to the farmer that he should have to pay a man more than he earned. After some discussion it was arranged that the men should call on the afternoon and talk the matter over.

Mr. Howson states that the man who called out about getting up early in the morning had called at his house for three times this spring, but did not take the work as was offered. In the afternoon he was called by 'phone to Keene, and he left a card on the door stating that he would in turn that evening. Several of the men came to him but they had secured work out of town. Three remained away.

Last Saturday two men called for work. They had walked from Kingston. Work was offered them at Norwood or Westwood, but this was refused, as they said it was too far to walk. Mr. Howson thought of a farmer near Cavanville, and Mr Fisher, who had been on that day with cheese, was driving close to the home. Arrangements were made for the applicant to go with Mr. Fisher at three o'clock, but he did not appear. That is one kind of men who apply. Other young fellows are engaged and start to work in earnest and good reports are sent in about how they are getting along. They really want work and they intend to do what the farmers reasonably ask them.

MEN AND WOMEN
One Pill Cures in 1 to 5 days. Guaranteed not to stricture. Prevents contagion. Sold by Druggists, or sent in plain wrapper, by express, prepaid, for $1.00, or 3 bottles, $2.75. Circular sent on request.

Typical Westerner in the City

Mr. E. T. Kingsley, editor of the Western Clarion, Vancouver, was registered at the National Thursday. He arrived from Lindsay at 9 o'clock, and was met by a few of the Socialist party of which he is a leader.

Mr. Kingsley is a typical western man. He is tall and rather stout, and fluent and earnest in his speech. He has great hopes for the future regarding the propagation of Socialism, which he claims is growing at a rapid rate. Born in the State of New York, he devoted a great many years ago went to British Columbia, and became editor of the West ern Clarion—the only outspoken paper in the English language in Canada. This is his first trip to Ontario, and in fact his first trip past the Rocky Mountains, so far as Canada is concerned. Coming west he noticed a great number of men unprovided with labor, and especially was this the case in Winnipeg just at present.

Rumors are Said to be False

The stories that are going about that the Shuberts are going to put Canadian theatres on their circuits seem to be false. Mr. A. J. Small's representative was in the city yesterday and informed the press that Mr. Small had already received flattering offers next season that will be the strongest ever presented in Canada, and that no negotiations had been or would be carried through for the Shuberts getting control of any of the theatres in the Small circuit.

Mr. Small's interests are very extensive and he has two theatres in Toronto, one in Hamilton, one in St. Thomas, one in Kingston, and will build a magnificent $75,000 opera house in Brantford, next to the Kerby House, to replace the one that was burned down on the Telephone City.

Mr. Small's representative said that next season a splendid list of plays would be given Mr. Turner, the manager of the Grand Opera House in the city. There will not be so much difficulty in bringing first-class productions from the States as there has been during the past year.

If one feels dull and spiritless, in the spring or early summer, they call it "Spring Fever." But there is no fever—usually. It is the after-effect of our winter habits. The nerves are mostly at fault. Tired, worn-out nerves, leave us languid, listless, and without spirit or ambition. A few doses of Dr. Shoop's Restorative will absolutely and quickly change all of these despairing symptoms. The Restorative of course won't bring you back to full health in a day or two, but it will do enough in 48 hours to satisfy you that the remedy is reaching that "tired spot." Druggists everywhere are advising its use as a splendid and prompt general tonic. It gives more vim and more spirit to the spoonful than any other known nerve or constitutional tonic. It sharpens a failing appetite, aids digestion, frees sluggish livers and kidneys, and brings new life, strength and ambition. Test it a few days and be convinced. Sold by all dealers.

Obituary

Early yesterday morning the death occurred of James McDonough, 245 Park street. The deceased has been sick for some time.

Mr. McDonough was born in County Galway, Ireland, and was 64 years of age. He came to this country twenty-five years ago, taking up his residence in Peterborough. His wife predeceased him 18 years ago.

Three daughters are left to mourn his loss. They are Mrs. O'Malley and Miss Martin Neary of this city and Mrs. Bernier, of Spokane, Wash.

The funeral will take place on Sunday afternoon at 3 o'clock from the family residence to St. Peter's Cathedral and thence to the Roman Catholic cemetery.

Yesterday morning the death occurred of Robert Bowles of lot 1, con. 10, North Monaghan. He was 57 years of age, and was born in Cavan. Mr. Bowles was married to Sarah Ann Madill who predeceased him five years ago. He was widely known and highly respected. He was a member of the Springfield Presbyterian church, and in politics was a staunch Conservative.

Two sons and three daughters are left to mourn his loss. The sons are Messrs. Albert and Walter. The daughters are Mrs. Wesley Dalyard of Cavan, and Misses Euphemia and Pearl residing at home.

The funeral will take place on Monday at 2 o'clock from the family residence to the Little Lake cemetery.

Erecting a Building for a Card Factory

Excavations are being made on the north side of Sherbrooke St., near the creek for the Art Card factory, to be operated by M. A. Turner. The building will be 150ft. by 35ft. It will be three stories high, including basement.

It is being erected on the Peter Hamilton Company's lot on Sherbrooke street, and a gang of men have already begun the work. The plans have been prepared by Mr. Wm. Blackwell, and calls for a concrete foundation and the walls will be of white brick. The foundation will be built up rather high.

The former building on Dublin street, which was erected for the manufacture of card board, proved too small and this new one is expected to meet all demands. Mr. Malcolm McIntyre has the contract of the work, the completion of which is called for October 1st.

To clear the space for the factory a house had to be moved, and it is learned that it was one of the first dwellings erected in the city. It was a long, low white plastered sort of bungalow and was removed in two parts to the corner of Wolfe and Stewart streets.

Chief Howard will Read Paper at I.A.F.E

Peterborough's new fire chief holds the position of Canadian secretary of the International Association of Fire Engineers. Mr. Howard has been chosen to contribute a paper at their convention at Columbus, Ohio, Aug. 25, 27, 27 and 28. His subject will be, "Legislation That Empowers Chiefs of Fire Departments to force the equipping of public buildings with necessary fire escapes and other appliances for the protection of life in time of fire and panic."

Investigate Tuberculosis

Fort Atkinson, Wis., June 27.—One of the most thorough scientific investigations of the causes of tuberculosis ever made will be undertaken by the experts of the state college of agricultural, during the state dairy and alfalfa conventions, opened here today. Several cattle will be slaughtered and tested to show the ravages of the tuberculosis germ.

Department Railway and Canals, Canada

Trent Canal Holland River Branch Notice to Contractors

Sealed Tenders addressed to the undersigned and endorsed "Tender for Trent Canal," will be received at this office until 16 o'clock on Wednesday, the 15th July, 1908, for deepening and improving of a channel way from a point in Cook's Bay—Lake Simcoe, Ontario, to the mouth of and up the Holland River, and the East branch thereof to the Bradford Road at Holland Landing.

Plans, specifications, and the form of the contract to be entered into, can be seen on and after the 22nd June, 1908, at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, at the office of the Superintending Engineer, Trent Canal, Peterborough, Ont., and at the office of the Division Engineer, Newmarket, Ont., at which places forms of tender may be obtained.

Parties tendering will be required to accept the fair wages Schedule prepared or to be prepared by the Department of Labor, which Schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signatures, the nature of the occupation, and place of residence of each member of the firm.

An accepted bank cheque for the sum of $2,000 must accompany each tender, which sum will be forfeited, if the party tendering declines entering into contract for the work, at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective parties whose tender are not accepted.

The lowest or any tender not necessarily accepted.

By order,

L. K. JONES,
Secretary.

Department of Railways and Canals, Ottawa, 17th June, 1908.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

Mail Contract

Sealed Tenders addressed to the Postmaster General, will be received at Ottawa until Noon, on Friday the 31st July, 1908, for the conveyance of His Majesty's Mails, on a proposed Contract for four years six times per week each way, between Benston and South Monaghan, from the 1st October, next.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Offices of Benston, Lorenz and South Monaghan and at the Office of the Post Office Inspector at Kingston.

Post Office Department, Mail Contract Branch, Ottawa, 16th June, 1908.

H. C. ANDERSON,
Superintendent.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

reserve may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at an Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead duties under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each on and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3) If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of a homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father or mother.

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line exclusive of the width of road allowances crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the agent for the district of such intention.

Six months' notice in writing must be given to the Commissioner of Dominion Lands at Ottawa, of intention to apply for patent.

W. W. CORY,
Deputy of the Minister of the Interior.

Profanity Must Cease

As a sign of the times it may be noted that an order has been issued by Mr. D. Nicholl, vice-president of the Canadian Pacific Railway, calling the attention of trainmen to the instructions regarding swearing and the use of obscene language on trains. Employes of the C.P.R. are not only instructed to refrain from swearing or using obscene language, but have been ordered to see that language of an offensive or annoying character is not used by passengers. During the past few days the Grand Trunk Railway discharged eight employes for not obeying the rules. Six of the men were discharged for swearing on passenger trains, and two for drunkenness.

100,000 Suffragettes will Surround The Commons

Another Novel Plan to Secure Suffragette Demonstration on Tuesday.

London, June 26.—Convinced that their recent tactics have failed to persuade Premier Asquith to accelerate the legislative machine in their favor, the Suffragettes project another novel demonstration next Tuesday, with a view to exerting further pressure.

While a deputation will seek an interview with the Prime Minister, it is the intention to surround the House of Commons with a cordon of Suffragettes, which the leaders predict will number at least 100,000.

It will be a peaceful gathering, however, and no attempt will be made to force an entry into the House.

Fish Inspector is After Americans

A party of nine Americans arrived in town yesterday morning and commenced their journey by canoe up to the upper waters, presumably for the purpose of angling. According to the fishing notice, non-residents of the Province of Ontario who angle without a special permit, which they did not have, are liable to have their fish and rods confiscated. Inspector Bradshaw, as usual, had his weather eye open for such an irregularity, and although the party assured him they were merely out for a good time, the inspector wired to Fenelon Falls to be on the lookout for any suspicious occurrences on the part of the young men in question.—Lindsay Post.

Piles are easily and quickly checked with Dr. Shoop's Magic Ointment. To prove it I will mail a small trial box as a convincing test. Simply address Dr. Shoop, Racine, Wis. I surely would not send it free unless I was certain that Dr. Shoop's Magic Ointment would stand the test. Remember this made expressly and alone for swollen, painful, bleeding or itching piles, either external or internal. Large jar 50c. Sold by all dealers.

To Decorate the City

Mr. Alf Kingscot of Water St., has the contract of decorating Peterborough for the 12th of July celebration this year. Mr. Kingscote is already making preparations for the event and no doubt through his efforts the city will appear at its best on the 13th day of July.

In the Realm of Sport

The last four innings between the Y.M.C.A. and Wellingtons was played at the Oval last night. It was fast and exciting. Cuthiel of the Wellingtons was the star of the game. The "Y" won out by a score of 13—6. The teams lined up as follows:

THE RING

Paris, June 15.—Tommy Burns, the Canadian boxing champion of the world, had a tough fight Saturday night with Boxher B. O. Squires. They met at the bowling palace in Neuilly, and being the night before the Grand Prix, there was an enormous crowd in attendance.

It was their second meeting. Burns having put Squires away before in the first round.

Last night Burns sent Squires down for the count in the third, but after that the Australian recovered, and forced the battle somewhat, giving the champion the worst of the exchanges. Burns was knocked to the carpet in the eighth, but came back fiercely, and by a series of body punches scored a knockout.

The winner was enthusiastically cheered.

The Port Hope walk promises to be a great success, as it will form one of the chief attractions on the program for the Port Hope Old Boys' and Girls' Reunion. It will be held on the skating rink on a track 12 laps to the mile, and the walkers will go for 32 hours, the limit being placed at 150 miles. Mr. Reynolds himself will referee, and it is expected that many of the United States and Canadian cracks will compete in this event, including Hoagland, Slater, Black, Stacey of Toronto, and other well-known walkers. The program is as follows.

Wednesday, July 1—
9 a.m. to 11.30 a.m.
8 p.m. to 11.30 p.m.
Thursday, July 2—
1.30 p.m. to 11.30 p.m.
Friday, July 3—
9 a.m. to 11.30 a.m.
8 p.m. to 11.30 p.m.
Saturday, July 4—
1.30 p.m. to 11.30 p.m.

May Erect a Cottage for the Caretaker

It is rumored that the trustees of the Nicholls' estate, have considered the erection of a caretaker's cottage at Jackson Park. If built it will be erected on the left hand side of the roadway at the main entrance, on a high level of land overlooking the front of the park. It will be a brick cottage with stone foundation. The plans have been prepared by Mr. Blackwell. The dimensions of the cottage as proposed are 36 feet x28 feet.

—Mr. Barton Earle has returned from Roseneath after visiting friends there.

"The Strike of a Sex."

London, June 20.—"The Strike of a Sex," described in Miller's novel, will become a partial reality tomorrow, when thousands of women in all parts of England will desert home and husband and children, in order to attend a monster mass meeting in Hyde Park. It is declared that nearly 300,000 women will take part in the strike, which is scheduled to last two weeks. Leaders in the movement have urged the strikers, when they "walk out" tomorrow, to not only resolve not to perform a single house hold duty for fourteen days, by that time it is hoped, the men of England will be starved into submission, and will be ready and willing to accede to the demands of the women for the ballot.

The suffragettes from the province will be met at the railroad stations by delegations from the London organization, and seven processions, each headed by a military band, will march on the park from different points of the compass.

Twenty speakers, all women, will harangue the assembled masses until, at a given time, buglers will announce that the resolutions to be framed, demanding the vote, are about to be put.

An ancient law prohibits demonstrations from approaching within a mile of the house of commons. The police will have a strong force on hand.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic sufferers, nor turn back gray the hair of the fourscore. That is impossible, but I've one surely will rid the pains and pangs of this deplorable disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism, but now, at last, it will surely cure all curable cases of this heretofore much dreaded disease. These mad-like granular crystals, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as nothing so does sugar when added to pure water. And then, when dissolved, these poisonous crystals freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer with rheumatism. We will, and in confidence recommend

Dr. Shoop's Rheumatic Remedy

The Great Northern Larder Lake Mining Company Ltd.

A RAISE IN MINING STOCK

ALLOTMENT SUBSCRIBED.

The requisite amount of stock has been subscribed and paid in full to enable the Company to proceed to allotment and commence business.

RAISE OF MINING STOCK.

THE GREAT NORTHERN LARDER LAKE MINING CO., Limited, proposes to advance price of their treasury stock to Twenty-five (25c) cents on June 23nd. Last chance to buy at ten cents a share, par value One Dollar, fully paid up and non-assessable.

The foreman, Mr. David Foster, of Cobalt, has started to work on the Company's property with a gang of men to develop veins already discovered, also to continue striping in search of new gold veins.

We are erecting boarding houses and dining-rooms for our men.

READ COPY OF CERTIFICATE AND STATUTORY DECLARATION CONFIRMING SAME.

Toronto, March 30th, 1908.

To the Great Northern Larder Lake Mining Company, Limited:—

Gentlemen,—

I beg to confirm my previous report to you that in my judgment the surface showings on the 14 mining claims which the Company has acquired, being Nos. H.S. 231 to H. S. 234, both inclusive indicate the probability of the existence of large bodies of both high grade and low grade free-milling ore, sufficient to pay dividends for an indefinite period.

I have personally examined a number of veins and rocks on said property (consisting of about 560 acres) and had some assays made and from such examinations and assays I make this report.

The statement on pages nine and ten of the Prospectus giving the short history of the Company are correct.

I insisted on retaining a large interest in the Company rather than sell for any price that seemed reasonable to the purchasers.

DAVID A. FOSTER,
Haileybury.

IN THE MATTER OF THE GREAT NORTHERN LARDER LAKE MINING CO., LTD.

Statutory Declaration.
DOMINION OF CANADA
County of York
TO WIT:

I, David Foster, of the town of Haileybury, in the district of Nipissing, miner, do solemnly declare that the statements in the annexed certificate are true. I have personally inspected all of the fourteen claims now transferred to the Great Northern Larder Lake Mining Company, Limited. I have taken samples containing gold values from said property, and from my personal examinations, and from assays made, I believe the Company's property when developed, will prove very valuable. I have full confidence in the success of the said Company, and on this account, with the exception of $40 already received, I have agreed to accept stock in said Company, and a note which I believe will not be of much value should the actual development work not prove the said claims to contain gold in paying quantities as it is not payable for one year from this date or until after the Company shall have done the necessary development work on said claims. And I make this solemn declaration conscientiously believing it to be true and knowing that it is of the same force and effect as if made under oath, and by virtue of "The Canada Evidence Act."

DAVID A. FOSTER.

Declared before me at Toronto, in the County of York, this 31st day of March, 1908. J. T. LOFTUS, A. Commissioner in H. C. J.

PROPERTIES TRANSFERRED.

Since the prospectus was printed, the sale of the 14 mining claims to the Company has been completed and the transfers to the Company are registered in the Recorder's Office at Larder City. There is no mortgage or other encumbrance against said claims.

10 PER SHARE.

Par Value One Dollar fully paid Up and Nonassessable.

OFFER IN PLAIN WORDS

$ 5.00 buys	50 shares, par value	$ 50.00	$ 10.00 buys	100 shares, par value	$ 100.00

COCOA

Sold by Grocers and Storekeepers in ½-lb. and ¼-lb. Tins.

RAWHIDE-DULZURA

1 CENT A 2 SHARE

Send us your name as a member in this new company, with your remittance for as many thousand shares as you can take at $5 per thousand.

This is a short-time offer on a hurry-up proposition. Our vice president is up at Rawhide now putting the miners at work. We want to raise the necessary funds for development as quickly as possible. Therefore, we offer the first block of stock at $5 a thousand shares. This subscription must be all cash. We want the money in hand. We mean to work without let-up, and we have made it an inviolate rule not to run in debt. Cash counts now.

Our prospectuses are out. Send for one.

Make reservation of stock. If you do no more. But, remember, this present offer of stock at Half a Cent a Share is now open, and will be closed as soon as enough cash subscriptions are in hand. Don't wait, or you will get left.

The gold mining property owned outright by the company consists of 7 claims, 5 in the Rawhide district of Nevada, and 2 in the Dulzura district of Southern California.

The Rawhide district to-day is more famous than Goldfield, Tonapah, Bullfrog, or Searchlight were at the same stage of exploration and development. The Dulzura discovery is one of the most sensational in the history of California.

Ten samples of ore which were among the first assayed, run as high as $7,661.57 to the ton, and all ten averaged over $1,600 a ton.

In both camps we located early, and our locations are choice. Our own officers will superintend the mining.

What every Woman Requires for Headache Langour

Mrs. Mary Flannigan Gives Advice that is Sound, Useful and True.

Has your strength given out?
Do you feel languid and tired this spring?
Are you pale, somewhat nervous, finding it hard to do your housework?
Thousands feel just the same,—feel the enervating influence of spring, whether that brings out latent symptoms of disease and we know. You should do like Mrs. Flannigan of Killaxy Junction — here is her experience. "I will never again suffer the torture of deadening spring illness — never will I have headaches, such sleepless nights, such pale cheeks and lack of appetite. I lived through it all several times, but now I know the medicine that cures. I urge every person, young and old, to try the invigorating effect of Dr. Hamilton's Pills. When I was so played out, listless,—Dr. Hamilton's Pills gave me appetite—I relished my meals and grew strong. Rosy color came to my cheeks, every day I felt brighter and better. All my old strength has been restored and the great tonic, blood purifying powers of Dr. Hamilton's Pills did it all."
Women who are continually pale, tired and sick headaches, faint and dizzy spells, aching muscles, bearing down pains, lack of sleep and loss of appetite—they are the poor women that surely need Dr. Hamilton's Pills of Mandrake and Butternut, 25c at all dealers.

CITY AND COUNTY NEWS

DOINGS HERE AND THERE BY TIMES REPORTER S.

Young People's Society

The Young People's Society of St. Andrew's Church will not meet tonight owing to the Sunday School picnic to Burleigh. They will meet on Wednesday night

Communion Service

Service preparatory to Communion will be held on Friday night in St. Andrew's Church at 8 o'clock. Communion will be dispensed next Sunday at the evening service.

Closing Exercises at Conservatory

The Conservatory of Music will hold the closing exercises this afternoon and evening at 3 and 8 o'clock respectively at the Music Hall, Rubidge street. An excellent programme will be given by the advanced pupils and a musical treat is promised. The admission will be by programmes which may be secured at the Conservatory or from members of the staff.

Walked at a Jimmy Reynolds Clip

Two young girls, aged 14 and 16, years, respectively, walked from Tamworth to Bancroft last week and pushed a carriage with a baby in it, in four and one-half hours. Jimmy Reynolds could hardly beat this.—Bancroft Times.

Will Have a Launch Race

Thef eature of the T.A.S. picnic on July 1st is the launch race. It is under direction of Mr. R. M. Roy. The course is one mile and a quarter down the river and back to starting point. Then one mile and a quarter up the river and back. Besides prizes the winner gets a handsome flag.

Big Excursion Coming

The big excursion of the Whitby Sons of England will be here July 7. There will be about 400 visitors in the city. A good time is being prepared for them by the local S.O.E lodge. The Otonabee Navigation Co. will make two trips over the Lift Lock via steamer Ossaphee.

A Daily Mail Service

The Springville Post Office will be served with mails daily except Sunday via Keadry Station on the C. P. R. The change will take place at once and will no doubt prove very acceptable to the residents of Springville. This is due to the efforts of Mr. R. R. Hall, M.P.

Small Market on Saturday

Saturday morning's market was very small, although prices were moderate. Chickens per pair were considerably cheaper, as were many other lines of produce, but eggs hovered from 15 to 20 cents.

Jr. Part I to Sr. Part I.

The following are the results of the promotion examinations of the Queen Alexandra School from Junior Part I. to Senior Part I.: Bertha Le Hart, Hilda Carter, Harold Henry, George Ross, Percy Moore, Roderick Cameron, Willie Hutlied, Fred. Moore, Norman Snow, Percy Harrison, Harry Rothwell, Cecil Wedgewood, Nellie Wires James Mitchell, Sidney Staunton.

School Teachers Remembered

At the closing of the term at the West Ward School Mr. McCreary, retiring principal, was presented with a pair of cuff links with his name engraved thereon, by the pupils. Miss Hall who is also retiring was given a lace pin set with amethests and pearls. The most pleasant relationship has always existed in the school, and best wishes are extended to both teachers.

A Very Creditable Standing

At St. Andrew's College, Toronto, Harold Meldrum, son of Mr. W. H. Meldrum, has made a creditable showing. He has only been there one year, yet during that time he has been promoted twice, and is now in Form V. A. the graduation class. The report of his standing shows that in a class of ninety, he came well up among the leaders, being second in chemistry, and fifth, seventy, eighth, etc., in other subjects. His general standing was marked "very good".

Socialists Will Hold Meetings

Mr. J. Kennedy, of this city states as an outcome of Mr. Kingsley's visit, here Thursday that a number of socialists have been brought to light and in the course of the next few days open air meetings will be held on the street corners and good speakers will be here to address them. Mr. Kingsley has promised to pay Peterborough a visit very shortly again. It was impossible for him to hold a meeting at such a late hour, but the organization, through his visit, has now something to work on.

Weak women should try Dr. Shoop's Night Cure. These soothing, healing, antiseptic suppositories go direct to the seat of these weaknesses. My "Book No. 4 For Women" contains many valuable hints to women, and it is free. Ask Dr. Shoop, Racine, Wis., to mail it. Ask the Doctor in strictest confidence, any questions you wish answered. Dr. Shoop's Night Cure is sold by all dealers.

Harry Burridge to the Front Again

Harry Burridge, the Peter last year's catcher is again in the limelight, with the Youngstown team. He was sent to bat for another player in the ninth and started a rally which resulted in a victory for his team. The Youngstown Vindicator says:— "Capt. McAleese chased Geo. Mech from the plate at the start of the ninth. Harry Burridge was called upon to show his stuff in the time of trouble. He responded nobly, lining a hard one to short and digging for first for all he was worth. Harry started the rally with a single. The Vindicator also says:—"Harry Burridge is getting to be the prize pinch hitter and was one of the biggest factors."

Beware of Ointments for Catarrh that contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surface. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Personal

Miss Edna Fowler was in Lakefield Saturday.

Mr. W. E. Hazelwood, of Oshawa, was in the city Saturday.

Mrs. Osborne, of Toronto, is Registered at the National.

Mr. Albert Martin, formerly foreman of the "news" room of the Examiner, and now of Warwick Bros. & Rutter, Toronto, was in the city for the week end, renewing old acquaintances.

City Topics

IN SHORT FORM FOR BUSY READERS

About 700 excursionists from Norwood were in the city on Saturday.

—Hon. Mr. Graham has erected a cottage across the channel from W. H. Meldrum's at Stony Lake.

Mrs (Dr.) Bell, of Apsley, has had erected a beautiful summer residence near Kimo, Stony Lake.

—Another dog met death on Saturday evening by being run over by a street car.

The Masons of Toronto, ran an excursion to town yesterday bringing about 300 pleasure seekers.

—Of those who passed from Senior Part Second to Junior Second in the Central School the names of the three following pupils were not sent in for Saturday's issue:—Vina Fife, Clara Hudson, Merrill Long.

To stop any pain anywhere in 20 minutes, simply take just one of Dr. Shoop's Pink Pain Tablets. Pain means congestion—blood pressure—that's all. Dr. Shoop's Headache—or Pink Pain Tablets—will quickly coax blood pressure away from pain centers. After that, pain is gone. Headache, Neuralgia, painful periods with women, etc., get instant help. 20 Tablets 25c. Sold by all dealers

CHILDREN'S TROUBLES.

Treat Them Seriously and Try to Gain Their Confidence.

When your child first comes to you in tears and complains bitterly of this or that petty wrong or injury, he forces you to one of the most important decisions in your parental career. Your path lies open before you—to treat his trouble seriously, to speak to him "man to man" or to laugh at it as of no consequence.
Beware before you too hastily make your choice. You are choosing between your little one's future confidence, even his self respect and his final alienation from you.
To the child all his woes are real and important. His little fears and angers are as great factors in his mental development as your large ones are in yours.
Many a timid child has been frightened into convulsions and death by something which would not cause an adult even to start, and many a passionate one has lived to regret that all his infantile naughtinesses were treated as jokes and made simply the cause for laughter.
There is no occasion to overestimate their importance. It will not be necessary. Simply accord to the child the same consideration, help and criticism that you would give a grown person suffering from proportionately heavy troubles, and do not let him feel that always he is to be the butt for the mirth of his audiences, "just because," as one small boy plaintively remarked, "they woke up a few years before I did!" His philosophy was inadequate, but his sense of justice was in the right place.

A Lazy Liver

May be only a tired liver, or a starved liver. It would be a stupid as well as savage thing to beat a weary or starved man because he lagged in his work. So in treating the lagging, torpid liver it is a great mistake to lash it with strong drastic drugs. A torpid liver is but an indication of an ill-nourished, enfeebled body whose organs are weary with over work. Start with the stomach and allied organs of digestion and nutrition. Put them in working order and see how quickly your liver will become active. Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver trouble" by its wonderful control of the organs of digestion and nutrition. It restores the normal activity of the stomach, increases the secretions of the blood-making glands, cleanses the system from poisonous accumulations, and so relieves the liver of the burdens imposed upon it by the defection of other organs.
If you have bitter or bad taste in the morning, poor or variable appetite, coated tongue, foul breath, constipated or irregular bowels, feel weak, easily tired, despondent, frequent headaches, pain or distress in small of back, gnawing or distressed feeling in stomach, perhaps nausea, [illegible] "rising" in throat after eating, and kindred symptoms of weak stomach and torpid liver, no medicine will relieve you more promptly or cure you more permanently than Doctor Pierce's Golden Medical Discovery. Perhaps only a part of the above symptoms will be present at one time and yet point to torpid liver or biliousness and weak stomach. Avoid all hot bread and biscuits, griddle cakes and other indigestible food and take the "Golden Medical Discovery" regularly and stick to its use until you are vigorous and strong.
The "Discovery" is non-secret, non-alcoholic, is a glycerine extract of native medicinal roots with a full list of its ingredients printed on each bottle-wrapper and attested under oath. Its ingredients are endorsed and extolled by the most eminent medical writers of the age and are recommended to cure the diseases for which it is advised.
Don't accept a substitute of unknown composition for this non-secret MEDICINE OF KNOWN COMPOSITION.

City League

The Lakeviews took a fall out of the Y.M.C.A. baseball team by a score of 13 to 6. The Y.M.C.A. are down and out in city league, while the four other team are tied for first place. The battery for the Y.M.C.A. did excellent work, but received poor support. The Lakeviews have an excellent team and look good for the championship.

ADVERTISE IN THE TIMES.

Where is J. D. Sands?

Chief Rorrai wants a man who supposedly resides in Peterborough by the name of J. D. Sands. It will be to the advantage of Mr. Sands to see the chief as soon as possible.
What the nature of the advantages are, the chief will not divulge, but Mr. Sands would do well to see him as soon as possible.

ADVERTISE IN THE TIMES.

To Canadian Investors

The undersigned has received an allotment of unsold portion of $100,000 of

7 Per Cent. First Mortgage Five-Year Gold Bnds

dated January 11, 1908, and maturing January 11, 1913. These Bonds are offered at par and accrued interest by Metropolitan Trust & Savings Bank, Chicago, trustees.

SECURITY—The Entire Property and Improvements Owned THE URES CONSOLIDATED MINING COMPANY in the District of Ures, State of Sonora Mexico, Free from Mortgage or Bonded Indebtedness, except this present Bond Issue.

An Unusual Opportunity for Investment in Sound Security

The Ures Consolidated Mining Company offers $100,000.00 of First Mortgage Gold Bonds. This issue of bonds is the only mortgage or bonded indebtedness ever placed on the company's properties.
These bonds are in the denomination of $100.00, and bear interest at the rate of 7 per cent. per annum, payable semi-annually, July and January, and are redeemable on or before five years from date at the company's option at $110.00 and accrued interest.

$100.00 Stock Bonus Given with Every $100.00 Bond

With each bond issued there will be given $100.00 par value of the capital stock of the company as a bonus, and in addition thereto there will be placed in escrow with the Trustee additional stock which will be available to the bondholders at their option any time within a period of three years, the bondholder being entitled to surrender his bond any time within said period and receive in lieu thereof stock for every dollar of indebtedness to him on account of said bonds.

The Security Back of these Bonds

The company owns twelve claims situated in the district of Ures, State of Sonora, Mexico, free from mortgage or bonded indebtedness, except the present bond issue.
On one of these properties (The Ramona Mine) 5,000 feet of underground development work has been done, consisting of an inclined shaft to the depth of 400 feet with drifts in three levels to the North and South of the shaft.
An average value of ore worth $11.67 per ton is exposed throughout the mine, from the collar of the shaft to the extreme parts in the drifts, all of which is above water level.
The company has made surface improvements and mine improvements to the extent of $60,000.00 in the way of machinery, skids, trams, steam hoists, mill and nearly everything necessary to make the mining camp complete.
In addition to the absolute ownership of these twelve valuable claims, the company has a lease on the San Jose Mine, adjoining its property, in which the company has been operating in high grade ore.
During the past sixty days the company has extracted and delivered to ore buyers and the bank at Hermosillo, $5,000.00 worth of ore and bullion, the ore having been reduced to bullion through the company's mill, with the exception of 1,464 pounds, which was sold to an ore buyer for $662.80.

The Money Derived from the Sale of these Bonds

This issue of bonds is made for the purpose of securing money at once in order to extend the development work more quickly than the company's present means will permit.
With the high grade ore in sight to the distance of 50 feet to the South of the shaft, the management is assured that within six months from date of making the improvements now necessary the company's properties will be on a self-sustaining and dividend-paying basis.

The Stock which is Given with these bonds will be as valuable as the bonds when the Company has the ready capital to push operations

Men who invest in these bonds will have no cause or reason to regret their action, for the bonds afford an investment in a security which is absolutely safe—much better than ordinary city or country real estate, which is considered perfectly safe if the property put up to secure a mortgage is double the face of the loan. The security given on these bonds is better than 7 to 1, for the Ures Consolidated Mining Company has refused an offer of $700,000.00 for the property upon which this $100,000.00 worth of bonds is issued.
These bonds are an investment with all speculative risk eliminated —an investment with absolute security.
Make your reservation at once. This is small and promises to be quickly sold.

CAPITAL $1,500,000 RESERVE $950,000

Banco de Sonora,
Hermosillo, Mex.,
Feb. 15th, 1908.

To whom it may concern:—
We hereby beg to state that The Ures Consolidated Mining Company has during the past five years made several deliveries of bullion to this bank, and it is the opinion of mining men here that they have the making of a fair mine, and further, that the properties owned and controlled by them bid promise of becoming paying properties.
From our knowledge of the men connected, we believe they are doing all in their power to bring about the results above mentioned.
Respectfully,
BANCO DE SONORA,
Max Muller, Gerente.

The Pope Criticizes the Anglican Church

His Holiness' Organ Says It Has a Religion Only for This World

Rome, June 29.—The Osservatore Romano, the organ of the Vatican, in an editorial concerning the recent Pan-Anglican Congress, in London, says:—

"Religion without a legitimate hierarchy, although calling itself Christian, is a religion only for this world, as the questions discussed by the Pan-Anglican Congress show. Throughout the centuries all religions that have arisen without the seal of the real Divine personality were similar to that discussed at the Pan-Anglican Congress. All of them aimed at securing the largest amount of joy in this life without caring for the other world."

At the end of a strong attack, the Osservatore Romano says that Catholic Rome to-morrow will celebrate with veneration the anniversary of the death of Saint Peter at his tomb in a church which is a miracle of art, and that this veneration will answer better than anything else the superlative poverty of the Pan-Anglican Congress.

From the attitude of the Osservatore Romano it is supposed that Pope Pius will deal with the recent Congress held in London in his forthcoming encyclical.

Try Again for Health

The Dangerous Weakness That Follows Should be Cured Now

One of the oldest physicians, after closely studying spring tiredness, says it seems to seek out the same victims year after year, and if the disorder is once contracted, one is very prone to contract it again.

The symptoms are common — no appetite — turn against your food, ache in back and limbs, nervous, and often inactively, dyspeptic and languid.

"I had all the symptoms," writes Mrs. Eva E. Clarkson, well known in Chester. "I was discouraged, blue, felt too poorly to bother with medicine. But I tried again for health and Dr. Hamilton's Pills. The very sight of food used to turn me sick; now I eat and digest like a growing child. I used to feel bloodless and starved, now I am well nourished and gaining in flesh. My face was haggard, full eyes, dark circles; now I am animated, have pink cheeks, bright clear eyes. A hard cough that used to rack my chest is gone. But best of all is the feeling of buoyancy and good spirits that displaces the awful tired, drowsy, melancholy fits that come on, and always with splitting headache, too. I hope my letter will induce others to use Dr. Hamilton's Pills—such a good house, tonic should be in every home, both for children and parents."

You have a woman's work to do in life — you have only a woman's delicate organism to do it with. You'll be vastly assisted with Dr. Hamilton's Pills, because they are good for women just as they are good for men and children, too; 25c. at all dealers.

One Company will Go to Quebec

The 57th Regiment will send one company to Quebec to take part in the Tercentenary celebration in July. It will consist of 43 of all ranks, as outlined in the following orders which have been issued:—

Headquarters,
Peterborough, June 29, 1908.

Orders by the O. C., 57th Regiment P. R.

Extract from "Militia Order", No. 134, of June 13th, 1908.

Prov. Lt. J. H. Eastwood, 57th Regiment is detailed to attend a medical course of instruction at Kingston camp which commences August 31st, prox.

Quebec Tercentenary Celebration. — Extract from "Command order R.O.C. No. 43, of June 18th, 1908. One company of 43, all ranks is detailed from the 57th Regiment to attend the above, and the troops may be required to remain there for a period varying from five to eight days. Transport rations and quarters, tents and blankets, will be provided.

In accordance with the above common order the composite company from the 57th Regiment will attend the Quebec Tercentenary celebration and is detailed as follows:—

Captain	1
Subaltern	2
Sergts. to be selected hereafter	4
Signal corps	1
Stretcher Bearer Sec.	1
Buzie Band	3
Each Company 4	33

The officer to command the company will be the Captain, available according to regimental seniority for the subaltern, two will be selected in like manner.

No. 4.—O.C. Coys. will parade their respective coys three times during the months of July and August for the purpose of performing company drill.

No. 5.—The composite company will parade in the drill hall on Friday, July 3rd, at eight o'clock, sharp.

G. W. BENNETT, Major,
Acting Adjutant.

Successful Pupils in Collegiate Institute Exams.

The following are the successful pupils at the Collegiate Institute mid-summer examinations:—

FORM II. TO III.

Names in order of Merit.

W. Adamson, H. Smith, M. Anderson, F. Stone, H. Wallis, K. Leary, B. Read, T. Campbell, C. Moore, J. M. Garvin, H. Matthews, H. Kern, T. Hinchcliffe, W. Giles, M. Edwards, E. McNamara, C. Dean, W. Fortye, J. S. McIntyre, A. Richardson, G. Mowat, C. Peel, M. Ellis, F. Mitchell, H. Torrance, M. Lyle, K. Cockery, J. Kerr, M. Young, F. Hussey, W. Adams, H. Moore, A. Edmison, E. Brown, M. Curtis, H. Hall, M. Gibson.

FORM I A TO FORM II

Names in order of merit

W. Browett, W. Coon, A. Butcher, L. Figo, A. Adams, W. Gibson, S. Elliott, H. Moffat, A. Howson, L. Weatherell, M. Halpin, M. Turner, S. Smythe, P. McNamara, M. Squair, A. Cameron, J. Boothe, H. Clancy, H. Giroux, G. Minorgan, S. Mather, M. Metheral, D. Layfield, L. Kincaid, H. Conroy, F. Smith, G. Tovey, S. Sheehy, C. Pearson, F. Brooks, A. Primeau, Jack Harstone, H. Bonus, G. Sanderson, Jack Harstone.

FORM I B TO FORM II.

Names in order of merit

F. Lenne, K. Skinner, W. Fessenden, G. Cameron, H. Lees, R. Palmer, M. Brown, K. Crane, H. Stock, S. Lynch, F. Douglas, C. Ekombe, L. Grady, R. Montgomery, G. Moore, V. Elliott, J. Hill, H. Walker, J. Collins, A. Brown, M. Grady, Margaret Grady, D. Hatton

FORM I C TO II.

Names in order of merit.

M. Quinlan, G. Rankin, V. Thompson, R. Kirn, A. Morrow, G. Sullivan, A. Curtis, E. Bogue, E. Blake, H. Armstrong, E. Brown, M. Patterson

FROM I B TO I A

Names in order of merit.

F. Lowes, M. Harmer, B. Marshall, W. Harstone, F. Tenney, V. Hayes, W. Hatrick, M. Pringle, H. Leahy, A. Graham, J. O'Brien, E. Langford, W. Stevenson, M. Birchard, E. Outram

FORM I C TO I A.

Names in order of merit.

M. Pearson, C. Overend, W. Bell, N. Laing, D. Clarke, E. Ray, M. Dixon, D. Conroy, V. Henry, G. Perdue, E. Kelley, J. Saunders, M. Howson, J. Herridge, D. Carlysle, M. Packenham, V. McCabe, C. Johnson, C. Doughty, M. Wood, J. A. Waddell, G. Potter, R. Gaskins, C. Bartlett, M. Eastwood, L. Williams, F. Pierce, A. Perks, B. Arthur.

The Perfect Woman Is Is Not a Fat One

Artists say the ideal proportion of weight in a woman is 26 pounds for every foot of her height. This would make a woman of 5 feet 4 inches weigh 138 pounds 8 ounces.

If you weigh more than this in proportion you are on the danger line and are likely to get too fat in a few years. Check it by taking a teaspoonful after meals and at bedtime of this receipt: 1-2 ounce Marmola; 3-4 ounce Fluid Extract Cascara Aromatic and 4 3-4 ounces Syrup Simplex. Get the Marmola sealed and mix it with no other ingredients at home. This mixture is harmless, will not cause wrinkles, and has been known to take off seven pounds of fat a week without any help from exercise or dieting. It is inexpensive.

Law Should Apply to Boarding House

The numerous cases who have to put up with the inconveniences incidental to private boarding will welcome the following outspoken utterance of an exchange.

Temperance hotels and boarding-houses cannot be conducted in a haphazard way. Buildings must be constructed or adapted for that purpose, with proper lavatories and other sanitary conveniences, and with sitting-rooms, in short, with all the conveniences that the well-conducted licensed hotel supplies.

A large boarding-house is to all intents and purposes a hotel, and whatever laws and regulations are necessary for hotels are necessary for all places in which rooms and meals are supplied on a large scale. The more this is realized, the easier it will be to get rid of the notion that the sale of liquor is an inseparable adjunct to house-keeping on a large scale.

King Edward to Signal Start at Marathon Race

Marathon Race at the Stadium to be Honored by His Majesty's Presence

London, June 29.—It is rumored that King Edward will be present at the Marathon race and signal the start.

Manager Crocker of the Canadian team has received numerous invitations for the Canadians to compete in games throughout the country. The presence of Bobby Kerr is particularly desired. All invitations have been declined.

Fred McCarthy on Saturday had his machine geared to 104. The high gearing is blamed for his poor showing.

The Canadians are entered in some events at the championship games to be held in the Stadium on the 4th of July.

KERR'S FINE PERFORMANCE.

London, June 29.—At the London Athletic Club's sports on Saturday, Bobby Kerr of Hamilton gave a fine demonstration of his speed in the hundred yards handicap. He won the first heat by a yard in 10 1-5 seconds.

Buddo of Montreal got a bad start, but came second (time 10 2-5) beating Duffey, the South African champion.

In the other heat, Walker, champion of Natal, beat Duncker, the German champion, in 10 1-5 seconds. In the finals he gave Walker a yard and an inch, and won out. Time, 10 seconds. The Canadian was given a magnificent reception.

In the 220 yards relay race Kerr won again. His time was 22 1-5 seconds.

The Canadians motored to Windsor, Saturday. On the return journey the Marathoners started from the ten-mile post, finishing at the Stadium; time, 58 minutes. The runners were pleased with the course, but think it somewhat hilly, crooked and hard to follow.

In the standing broad jump, Stafford of London, just managed to get a first from George R. Barber, of the Central Y.M.C.A., Toronto. Stafford's jump was 9 feet, 10 1-2 inches. Barber's jump was 9-4 inch shorter—9 feet 10 1-4 inches.

FRED McCARTHY UNPLACED.

London, June 29.—At the National Cycling Union sports at the Stadium, Fred McCarthy, the Canadian, lost his heat in the quarter-mile championship also in the 660 yards open cycle handicap and in the mile handicap.

McCarthy also lost his heat in the one mile championship.

Heaviness, Lassitude, Drowsy and Dull

Do You Feel That way?

How provoking these symptoms are! You sleep well, but when you awaken there is none of the exhilaration that sleep and rest should confer.

Instead of being alert, having quickness of apprehension, there is languour, dullness, a disinclination to do things.

Three causes for this feeling.

Lazy liver, lazy kidneys, and a mighty lazy stomach, which does its work very poorly and compels the other organs to do things they are unequal to for any length of time.

Note the consequences—blood is filled with wastes — poisons weigh down the nervous system — rebuilding processes are absolutely stopped.

You'll note an instant change when you take Ferrozone.

Appetite improves, digestion becomes good as ever — skin grows ruddy and clear, all sense of languor, unsteadiness and depression fades away and finally disappears.

Ferrozone clarifies the brain, supplies tone and vigor, imparts cleanness and strength. You feel like a new person, full of life, full of ambition, ready to do things,—and the ...tion, ready to do things,— and able to do them also.

Think it over. Ferrozone is a tonic that uplifts, upbuilds, that nourishes and restores the sick by supplying the elements their weakened system need.

It can't help but do you good. For men, women and children, in fact anyone seeking strength and health, Ferrozone is invaluable; try it, sold by all druggists in 50c boxes.

Women Who Wear Well.

It is astonishing how great a change a few years of married life often make in the appearance and disposition of many women. The freshness, the charm, the brilliance vanish like the bloom from a peach which is rudely handled. The matron is only a dim shadow, a faint echo of the charming maiden. There are two reasons for this change, ignorance and neglect. Few young women appreciate the shock to the system through the change which comes with marriage and motherhood. Many neglect to deal with the unpleasant pelvic drains and weaknesses which too often come with marriage and motherhood, not understanding that this secret drain is robbing the cheek of its freshness and the form of its fairness.

As surely as the general health suffers when there is derangement of the health of the delicate womanly organs, so surely when these organs are established in health the face and form at once witness to the fact in fresh and cheerful... Nearly a million women have found health and happiness in the use of Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well. Ingredients on label—contains no alcohol or harmful habit-forming drugs. Made wholly of those native, American, medicinal roots most highly recommended by leading medical authorities of all the several schools of practice for the cure of woman's peculiar ailments.

For nursing mothers, or for those broken down in health by too frequent bearing of children, also for the expectant mothers, to prepare the system for the coming of baby and making its advent easy and almost painless, there is no medicine quite so good as "Favorite Prescription." It can do no harm in any condition of the system. It is a most potent invigorating tonic and strengthening nervine ideally adapted to woman's delicate system by a physician of large experience in the treatment of woman's peculiar ailments.

Dr. Pierce may be consulted by letter free of charge. Address Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

Dominion Day at Stony Lake

The Steamer Water Lily will leave, Wolfe Street Wharf on Wednesday, July 1st, at 7.30 a.m. for Stony Lake, returning at 7.30 p. m. Return tickets 75c. An ideal outing at small cost.

Local Option By-Law Quashed in Orillia

Toronto, June 29.—Orillia's local option by-law is quashed.

That town carried local option last January by five votes over the three-fifths, and when Hotelkeeper Hickey applied to Chief Justice Meredith to quash the by-law, his Lordship refused.

The Divisional Court at Osgoode Hall handed out an unanimous judgment to-day, reversing the decision of the Chief Justice, and voiding the by-law.

The grounds for the quashing of the by-law include the fact that the by-law prohibited the sale of liquor in shops and taverns, and in 1907, a by-law had been passed closing the shops.

Another argument was that there were irregularities in the polling. More men were allowed in polling booths than the Act provides for.

The vote was 558 to 363, and 25 ballots were spoiled.

If one feels dull and spiritless, in the spring or early summer, they call it "Spring Fever." But there is no fever—usually. It is the after effect of our winter habits. The nerves are mostly at fault. Tired, worn-out nerves leave us languid, listless, and without spirit or ambition. A few doses of Dr. Shoop's Restorative will absolutely and quickly clear all of these depressing symptoms. The Restorative of ours won't bring you back to full health in a day or two, but it will do enough in 48 hours to satisfy you that the remedy is reaching that "tired spot." Druggists everywhere are advising its use as a splendid and prompt general tonic. It gives a more vim and more spirit to the spoonful than any other known nerve or constitutional tonic. It sharpens a failing appetite, aids digestion, frees sluggish livers and kidneys, and brings new life, strength and ambition. Test it a few days and be convinced. Sold by all dealers.

Death of Mrs. William Hawkins

The death occurred of Mrs. Wm. Hopkins Sunday evening at her residence in South Monaghan. The deceased was 66 years of age and was born in Monaghan where she passed away.

She is survived by her husband, two sons and two daughters. The sons are Messrs. Wm., of Toronto; and Joe of Fraserville. The daughters are Misses Ada and Jane residing at home. Three brothers and five sisters also left to mourn her loss. The brothers are Messrs. P. Alexander, and John of this city, and Richard, of Los Angeles, Cal. The sisters are Mrs Jos. Hopkins, South Monaghan; Mrs Young, of Smith; Mrs. Argue, of Quebec, Mrs. Winch, La Rado, Texas; and Mrs. Evans, King street, city.

The funeral arrangements have not yet been made.

IN SHORT FORM FOR BUSY READERS

—Chief Howard, served 18 months on the London Police force.

—The new time table of the Ottawa & Navigation Company was put into force yesterday.

—The St. Andrew's Sunday School picnic went up the Lakes yesterday.

—Sunday night George Street Church was lighted by electric light for the first time.

Lakefield News:—Miss Sadie Staunton, who has been at Mrs. F. J. Tate's for the past six months, has returned to her home in Peterborough. Miss Bella Graham, of Peterborough, spent a few days in the village this week visiting friends.

Want some GO? Eat Grape-Nuts "There's a Reason."

Closing Exercises of the Conservatory of Music

The closing exercises of the Conservatory of Music were held yesterday afternoon and evening. A large assemblance of friends of the pupils and others were present and were given a most appreciative treat.

The programme for the occasion was a pleasing and very acceptable one and showed the high state of efficiency the pupils of this praiseworthy institution have obtained in the musical art.

The following is the programme:—

AFTERNOON PROGRAMME.

Mozart, Overture "Zauber Flote" arranged for two pianos; first piano, Miss Annie Sisson, Mrs. J. E. Hodgson; second piano, Miss Laura Edwards, Miss Beatrice Starke.

Noel Johnson, Song "The River and the Rose", Miss Annie Short.

Raff, "Cavatine", Miss Eva Irwin.

Liszt, "Liebestraum", Miss Bessie Pilcorne.

Kindergarten Demonstration, (a) Staff Building; (b) Leger Notes; (c) Sight Reading.

Lack, Piano, "Waltz, Arabesque", Miss Geraldine Rudkins.

Summerville, Song, "The Gates of Yesterday", Miss Irene Mowry.

Lack, Serenade, Miss Jeanette Titterson.

Wright, Two Lyrics, Miss Ida Sanderson.

Handel, Air and Var. "Harmonious Blacksmith", Miss Katheryn Burnett.

Piano Duette, Misses Shearer, Belmont Smith, "Fairy Fairy Eyes", Miss Mona O'Shea.

(a) Arbutt, Canzonetta; (b) Poldini, March, Mignonne, Miss Wood.

EVENING PROGRAMME.

March, "White Squadron", Orchestra.

Beethoven, Sonata "Pathetique", Miss Mabel McCaw.

DeBeriot, Violin "Concerto No. 7", Miss Marguerite Burnett.

Nevin, "The Tournament", Miss Annie Sisson.

Dunn, "May Morning", Mrs. Dickson Hall.

Verdi, "Chorus from Lombardi", Orchestra.

(a) Liszt, "Nocturne"; (b) Shermann, "Rhapsodie" No. 11, Miss Grace Taft.

Macfarren, "For all Eternity", Miss Carrie Reesor, Violin Obligato, Miss Cousins.

Chaminade, Dance "Circienne" op. 79, Jean Hill.

Hugay, Violin "Hyde Park", Miss Julia Choate.

(a) MacDowell, "To a Wild Rose"; Piano; (b) Liszt, "The Nightingale"; (c) Chopin, "Etude in G Flat" op. 10, Miss Campbell.

Mozart, Overture, "Zauber Floete" two Pianos.

Verdi, "Anvil Chorus", Orchestra.

God Save the King.

In the Realm of Sport

Games played in the three big precincts yesterday resulted as follows:—

EASTERN LEAGUE.

Toronto,	6.
Montreal,	8.
Newark,	3.
Providence,	6.
Rochester,	0.
Buffalo,	3.
Baltimore,	2.
Jersey City,	5.

NATIONAL LEAGUE.

New York,	7.
Brooklyn,	1.
Philadelphia,	9.
Boston,	2.
Chicago,	2.
Cincinnati,	0.

AMERICAN LEAGUE.

Boston,	1.
New York,	1.
(Washington,	0.
Philadelphia,	4.

The Y.M.C.A. Lacrosse team have withdrawn from the Trent Valley the Trent Valley League.

The Strathconas and Wellingtons play their league game at the Oval tonight.

Wellington's line-up:—
Hawkins, p.
Billington, c.
McCabe, 1st.
Fitzpatrick, 2nd.
Patterson, 3rd.
Kenally, s. s.
Fallen, r. f.
Johnson, l. f.
Russell, l. f.

The Wellingtons and T.A.S. play for the Ball Trophy at T.A.S. park tomorrow.

Gordon Campbell, of Trinity College, Port Hope, is home for his holidays. At field day sports Pete got first in the 1-8 mile and 1st in the 100 yards dash, time being 10 4-5 seconds for the last-named event. He will enter in the boys' championship meet at Ovals 1st July for the Eastwood trophy.

The Midland League game billed for to-morrow between the Athletics and the Cobourg fast nine should bring out a large number of the fans. Both teams will put up a great argument to win and both need the game. The Athletics are playing great ball now and are confident of starting out on the first of the second schedule with a win.

To Launch Big Vessel

North Tonawanda, N.Y., June 27.—The Daniel B. Meacham, one of the biggest steel bulk freight steamers will be launched tomorrow. Many members of the American Society of Mechanical Engineers, now in session at Detroit, will be here for the occasion.

ADVERTISE IN THE TIMES.

FRENCH MEMBERS LEFT CHURCH--LONG STANDING PREJUDICE

Bitter Feeling Between the Two Races Breaks Out Fiercely at North Bay--Drove Out French Singers

North Bay, June 29.—The French-Canadian parishioners of St. Mary's Catholic Church are incensed at the action of the Church authorities in refusing them permission to sing mass yesterday in celebration of the Fete of St. Jean Baptiste, Wednesday's fete was duly observed by French-Canadian parishioners with mass, picnic and sports. Sunday, the French choir asked permission to repeat the mass and the refusal angered them. There is a large French-Canadian section in the congregation, and strong feeling exists between them and the English-speaking members, principally over the language question in school and church.

The English-speaking members say yesterday's outbreak does not amount to anything, and that it is magnified through the glass of long-standing prejudice. They state that Rev. Father O'Brien was requested to allow the French mass to be sung, and in the absence of Bishop Scollard he referred the petitioners to the English choirmaster, who refused the request, as it would interfere with arrangements already made and in his opinion was unnecessary.

Bishop Scollard and Father O'Brien were out of town this morning.

The ultimate result will probably be a new French congregation for North Bay, although Rev. Father Dufresne is permanently attached to the local Church, and the French service is held every Sunday. The congregation of St. Mary's-on-the-Lake worship in a handsome church edifice erected by them three years ago at an expense of fifty thousand dollars. St. Mary's congregation is very large and ministered to by Bishop Scollard.

Speaking of the trouble yesterday a prominent French-Canadian merchant stated that permission had been obtained during the week from the Bishop and French priest to hold a French mass in honor of St. Jean Baptiste, and the church was crowded to hear the service. On entering the choir gallery, the French singers, it is alleged, were driven out by choirmaster Hughes very offensively and told they could not hold the service.

The French people in the Church immediately left, and held an indignation meeting outside, which was adjourned until to-night, when steps will be taken to try and organize a separate congregation.

Steamer Empress Sunk In Burleigh Locks

The steamer Empress while coming through Clear Lake on Saturday afternoon struck a log twisting her shaft and while in Burleigh locks Sunday afternoon where she was being repaired, the water was let out and the bow of the boat sunk.

It took some time to raise her before the repairs could be finished.

The boat resumed her regular trips yesterday.

NERVOUS DEBILITY CURED

Excesses and indiscretions are the cause of more sorrow and suffering than all other diseases combined. We see the victims of vicious habits on every hand: the sallow, pimpled face, dark circled eyes, stooping form, stunted development, youthful, melancholic countenance and timid bearing proclaim to all the world his folly and lead to blight his existence. Our treatment positively cures all weak men by overcoming and removing the effects of former indiscretions and excesses. It stops all drains and quickly restores the victim to what nature intended—a healthy and happy man with physical, mental and nerve power complete.

For over 30 years Drs. K. & K. have treated with the greatest success all diseases of men and women.

If you have any nerve disease that is a worry and a menace to your health consult old established physicians who do not have to experiment on you.

We guarantee to cure NERVOUS DEBILITY, BLOOD DISEASES, STRICTURE, VARICOCELE, KIDNEY AND BLADDER DISEASES. Consultation Free. If unable to call, write for a question Blank for Home Treatment.

Located in Our Own Office Building.

TUESDAY, JUNE 30, 1908

One of Hook's Practical Jokes.

Theodore Hook forged 4,000 letters to 4,000 tradesmen and others requesting them to call on a certain day and hour at the house of a wealthy widow, Mrs. Tottenham, in Berners street, London, against whom he had conceived a grudge.

These people began to arrive soon after daybreak. The rush continued until nearly midnight. They came by fifties and hundreds.

There were 100 chimney sweeps, 100 bakers, fifty doctors, fifty dentists, fifty coachers. There were priests to administer extreme unction and Methodist ministers to offer last prayers. There were fifty confectioners with wedding cakes, fifty undertakers with coffins, fifty fishmongers with baskets of cod and lobsters. They pushed, quarreled and fought, and the police were called out to prevent a riot. Finally among the hoaxed ones came the governor of the Bank of England, the royal Duke of Gloucester and the lord mayor of London, each lured thither by some cunning pretext. A police investigation followed, but the perpetrator was not detected.

A Wonderful Bowman.

The Romans were very skillful bowmen, although they discarded the weapon in warfare, trusting to the charge and to hand to hand fighting. Many of the Roman emperors were famous archers. It is said that Domitian would place boys in the circus at a considerable distance from him and as they held up their hands with the fingers outstretched he would send the arrows between them with such nicety and accuracy of aim that he never inflicted a wound.

The wicked emperor Commodus boasted that he never missed his aim or failed to kill the wild beast that he shot with a single arrow. He would set a shaft in his bow as some wild beast was set free in the circus to devour a living criminal condemned to die. Just when the furious animal was springing on his prey the emperor would strike it dead at the man's feet. Sometimes 100 lions were let loose at once in order that he, with 100 arrows, might kill them. With arrows the heads of which were semicircular he would sever the necks of ostriches in full flight.

A Talent For Balancing.

The pleasant coffee room of the old Star and Garter at Richmond, which was burned down in 1869, was patronised by England's statesmen, politicians and writers. On Saturday evenings it was regularly visited by a middle aged gentleman of rather broad stature, with gray hair and a large shirt collar which formed a conspicuous feature in his attire. He would dine always alone at a particular corner table, and after dinner it was his humor to build up before him a pyramid of tumblers and wineglasses, which he topped with a decanter. Occasionally the whole structure would topple over and litter the table with its ruins. Then the middle aged gentleman would rise, pay his bill, including the charge for broken glass, and depart. The waiters knew him well. He was Thomas Babington, Lord Macaulay.

Curious Greetings.

A French journal has been looking into the question of how different races express the colloquialism "How do you do?" and presents some curious examples. The Koreans, for instance, do not give or imply any offense when they greet each other with the remark, "You do look old." Persians say, "May Allah preserve your beard and cover it with benedictions." Among a tribe of Fiji islanders the correct form of salutation is to pull one's ear. A Caroline islander kneels before his friend, whose feet he grasps and slaps himself vigorously in the face with it. In the Sudan a traveler was addressed by a native chief as "Mighty sun," the said chief finishing up with "Glory to thee, O splendid moon," the remark being accentuated by expectorating in the traveler's right hand.

Greatness.

There is a kind of elevation which does not depend on fortune. It is a certain air which distinguishes us and seems to destine us for great things. It is a price which we imperceptibly set on ourselves. By this quality we usurp the deference of other men, and it puts us, in general, more above them than birth, dignity or even merit itself. —La Rochefoucauld.

A Coincidence.

"I'm afraid, George," said his fiancee, "that you are going from bad to worse."

"Quite a coincidence," muttered George. "That's what Clara said when I threw her over for you."

Spurgeon's Complaint.

Mr. Spurgeon once complained that his deafness were worse than the devil.

"Resist the devil," said he, "and he will fly from you, but resist a deafness and he will fly at you."

Hope.

"There's an ancestor suffering from hope." So runs an old Cornish proverb, melancholy text for hearts that bitter disappointment has caused suddenly to leap up at a mention.

Trent Canal Holland River Branch Notice to Contractors

Sealed Tenders addressed to the undersigned and endorsed "Tender for Trent Canal," will be received at this office until 16 o'clock on Wednesday, the 15th July, 1908, for deepening and improving of a channel way from a point in Cook's Bay—Lake Simcoe, Ontario, to the mouth of and up the Holland River, and the East branch thereof to the Bradford Road at Holland Landing.

Plans, specifications, and the form of the contract to be entered into, can be seen on and after the 22nd June, 1908, at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, at the office of the Superintending Engineer, Trent Canal, Peterborough, Ont., and at the office of the Division Engineer, Newmarket, Ont., at which places forms of tender may be obtained.

Parties tendering will be required to accept the fair wages Schedule prepared or to be prepared by the Department of Labor, which Schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signatures, the nature of the occupation, and place of residence of each member of the firm.

An accepted bank cheque for the sum of $2,000 must accompany each tender, which sum will be forfeited, if the party tendering declines entering into contract for the work, at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective parties whose tender are not accepted.

The lowest or any tender not necessarily accepted.

By order,

L. K. JONES,
Secretary.

Department of Railways and Canals, Ottawa, 17th June, 1908.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

reserve may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at an Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead duties under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3) If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of a homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father or mother.

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line exclusive of the width of road allowances crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the agent for the district of such intention.

Six months' notice in writing must be given to the Commissioner of Dominion Lands at Ottawa, of intention to apply for patent.

W. W. CORY,
Deputy of the Minister of the Interior.

31 William St. - TORONTO

An Eccentric Genius.

Among the geniuses none perhaps stranger than the poet Baudelaire. ... dyed his hair green, tried to strangle his father-in-law, used opium, to ... and wine to excess and enjoyed perfect olfactory sensations. "My soul soars upon perfumes as the souls of other men soar upon music," he wrote. But what pleased him, strangely, were odors of putrefaction, vile smells which other men abhorred and the stenches of disease which made others sick. And yet his poetry is among the most passionately musical of the literature of France. He was exceedingly superstitious, believing he would not succeed in an undertaking unless he left a house first with the left foot, and would count the number of gas jets along the streets, the numbers of cabs and numbers of doors. Adding these figures in his mind he would consider the result an omen—multiples of three good, multiples of seven reassuring, while his bad number was seventeen. Curiously, once he was thrown out of a cab, the figures of which he added and found amounted to seventeen.

A Sharp Swindler.

A fashionable young lady once drove up in a handsome carriage to a private lunatic asylum situated a few miles from Paris and requested to see the proprietor. Her wish being acceded to, she informed the doctor that she desired to place her husband under his care to see if a cruel mania under which he labored—viz., that he had lost a large quantity of jewels"—could not be removed. After some hesitation the doctor consented, and the lady drove away directly to a jeweler's in Paris and selected jewels to the value of several thousand francs and requested one of the shopmen to go with her in her carriage to procure the money for the goods she had taken. She drove with him to the asylum, and arriving there, he was shown into a room. The lady ... the doctor, told him of the ... of her husband and getting out her carriage again drove away. The rest may be imagined, but the poor fellow was confined several days before it was found they both had been "done." The lady was never heard of after.

Wagner's Portrait.

When Wagner was in England superintending the first production of his operas the music critic ... commissioned the artist Herkomer to paint the ... portrait for ... which he ... in such a ... of temper ... to get him to ... Said Herkomer afterwards: "I ... a limpet fed with him ... and talked with him, watched his ... conduct his orchestra, write music ... Crotchets. At last, when every attempt to secure a "sitting" had failed, Herkomer one early one morning painted with frenzied speed all day, spent a short night in restless sleep ... early again and painted furiously. Sat on the second evening he sat down exhausted but with his picture finished. Wagner was called in and threw up his hands in amazement. "Ah!" he cried. "Wonderful! That is exactly how I would like to look if I could."

Why Kelly Didn't Sleep.

"One night I went in late to Father Dempsey's hotel. Every bed was full, and there were 200 men sleeping on the floor of the recreation room. Each one of them had a newspaper under him to keep off the dust of the floor. I pointed to one little Irishman and remarked that he did not seem to be resting well.

"'What's your name, my man?' Father Dempsey asked him.

"'Thomas Kelly, your reverence.'

"'You don't seem to be resting well, Mr. Kelly.'

"'I'll get to sleep after awhile, your reverence,' he answered.

"'I don't believe you will unless you change your bed. You're sleeping on a Westliche Post,' answered Father Dempsey."—St. Louis Post-Dispatch.

Caught the General.

One of the regular army officers tells a story of how the old stringent army regulations once went against General Scott. One wet afternoon that soldier was caught in the rain in Washington. He was in full uniform and was well known, so, no cab being near, he borrowed an umbrella. Arriving at his hotel, an underofficer approached him and calmly remarked:

"General, you will consider yourself under arrest for eight days for carrying an umbrella while in full uniform."

His Solicitude.

"Is it a fact that your mother-in-law threw herself out of the third story window and you did nothing to restrain her?"

"Excuse me, I went to the first story to catch her, but she had already passed."—Diavolo Rosa.

Riches.

It is not what we have, but what we can do without, that makes us rich. Socrates, seeing a large loaf of valuables pass one day, exclaimed, "I am most happy, for there are so many things that I do not want!"

Weak Kidneys

Weak Kidneys, simply point to weak kidney Nerves. The Kidneys, like the Heart, and the Stomach, find their weakness, not in the organ itself, but in the nerves that control and guide and strengthen them. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the Kidneys alone, is futile. It is a waste of time, and of money as well.

If your back aches or is weak, if the urine smells, or is dark and strong, if you have symptoms of Brights or other distressing or dangerous kidney disease, try Dr. Shoop's Restorative a month—Tablets or Liquid—and see what it can and will do for you. Druggists recommend and sell

Dr. Shoop's Restorative

An Unsought Pardon.

Among the stories of that former governor of Texas familiarly known as Sam Houston is more than one amusing tale.

There was a financial agent of the penitentiary who had warmly opposed the election of Governor Houston, but was particularly anxious to retain his own pleasantly lucrative position. Consequently the new governor was soon in receipt of a petition in which the man's years of faithful service and special qualifications for the place were set forth in glowing terms by himself.

The governor sent for him and said gravely, "It appears from this petition that you have been in the penitentiary eight years."

"I have," was the reply.

"And during that time you have performed faithfully every duty that has come in your way to the best of your ability?"

"I have," answered the agent, his courage swiftly rising.

"Then, sir," said the governor, with the air of one conferring a priceless favor, "I pardon you out."

Put Out of Commission.

Abernethy was supposed to influence people by a brusqueness amounting to absolute rudeness. It is related that one day a very voluble lady took her daughter, who was ill, to see him.

"Which of you two wants to consult me?" said Abernethy.

"My daughter," replied the elder woman.

Abernethy then put a question to the girl. Before she had a chance to reply her mother began a long story. Abernethy told her to be quiet and repeated his question to the girl. A second time the woman began a story, and a second time he told her to be quiet. Then she interrupted him a third time.

"Put your tongue out," he said to the mother.

"But there's nothing the matter with me," she exclaimed.

"Never mind, put your tongue out," he commanded.

Thoroughly overawed, the woman obeyed.

"Now, keep it out," said Abernethy, and he proceeded to examine the girl.—Grand Magazine.

A Queer Complication.

In Sydney, a town of 500,000 inhabitants, one can get nothing to eat on a Sunday. Certain restaurants supply food surreptitiously, but the whole time the guests are in danger of being arrested. Once an Italian was in such a restaurant on Sunday when suddenly the police entered. The Italian was promptly pushed by the proprietor into a room where a waitress happened to be standing in negligee. Even this room the police invaded, but the waitress saved the situation by declaring that the young man was her fiance. The young man, by the way, had been married some time. He thought that he had deceived the policeman; but, as a matter of fact, he had got out of the frying pan into the fire. One fine day the waitress called him before the courts and claimed $2,500 for breach of promise. The Italian had to pay. And then came the worst of all. His wife sued for a divorce and shortly after married another man.

Tackle This One.

The following paragraph of a hundred words is an excellent test in pronunciation. Try it first, and then go over it again, every word, in company with a good dictionary:

"Cleopatra, isolated in the caste, soon became acclimated and had ample leisure to contemplate all the economic details of her inextricable sword. The wound resisted the allopathic misogynist, who gave a courteous diagnosis and humbly craved precedence for a tiny idyl in the form of a vase with an aesthetic accosting apparatus. This told the news like a book, but it might have been a dog living in squalor from the look she launched at him when he wrote down his address. She ate her breakfast and then fraternized with a national expert in appendicitis, who attended the obsequies."

A Plot That Failed.

A story of a plot to kidnap Queen Victoria and turn England into a republic is told in Peter Latouche's book, "Anarchy; Its Methods and Exponents." This coup d'etat was planned to take place in 1868, the year of the great dock strike in London, but was frustrated by the success of the strikers and the unexpected sympathy and help shown them by the moneyed classes. This did much to conciliate the masses, on whose help the revolutionists relied.

Capital Punishment.

Bride (throwing her arms about the bridegroom's neck)—You are my prisoner for life! Bridegroom—It's not imprisonment for life, love; it's capital punishment.—Sydney Town and Country Journal.

The Villain.

Critic—The villain in your story is a perfect masterpiece. Where did you get the character? Novelist—I imagined a man possessed of all the forms of wickedness which my wife attributes to me when she is angry.

His Limit.

Operator—What do you think of the new foreman, Jimmie? Printer's Devil—Say, dat feller could print all he knows in display type on a postage stamp without canceling the stamp.—Exchange.

Uncomplimentary.

Howell—I'm a man of parts. Powell—Most of them seem to be missing.—Exchange.

Next to acquiring good friends the best acquisition is that of good books.—Colton.

Moe Rose—Do you think the automobile is replacing the horse? Joe Cose—Well, not entirely, anyway. I haven't found automobile in my bologna as yet.—Broadway's Magazine.

Of a Modern Genius.

"Going to compile his life and letters?"

"There were no letters. I'm going to compile his life and post cards."—Washington Herald.

The Great Northern Larder Lake Mining Company Ltd.

A RAISE IN MINING STOCK

ALLOTMENT SUBSCRIBED.

The requisite amount of stock has been subscribed and paid in full to enable the Company to proceed to allotment and commence business.

RAISE OF MINING STOCK.

THE GREAT NORTHERN LARDER LAKE MINING CO., Limited, proposes to advance price of their treasury stock to Twenty-five (25c) cents on June 22nd. Last chance to buy at ten cents a share, par value One Dollar, fully paid up and non-assessable.

The foreman, Mr. David Foster, of Cobalt, has started to work on the Company's property with a gang of men to develop veins already discovered, also to continue stripping in search of new gold veins.

We are erecting boarding houses and dining-rooms for our men.

READ COPY OF CERTIFICATE AND STATUTORY DECLARATION CONFIRMING SAME.

Toronto, March 20th, 1908.

To the Great Northern Larder Lake Mining Company, Limited:—

Gentlemen,—

I beg to confirm my previous report to you that in my judgment the surface showings on the 14 mining claims which the Company has acquired, being Nos. H.R. 231 to H. R. 234, both inclusive indicate the probability of the existence of large bodies of both high grade and low grade free-milling ore, sufficient to pay dividends for an indefinite period.

I have personally examined a number of veins and rents on said property (consisting of about 560 acres) and had some assays made and from such examinations and assays I make this report.

The statement on pages nine and ten of the Prospectus giving the short history of the Company are correct. I insisted on retaining a large interest in the Company rather than sell for any price that seemed reasonable to the purchasers.

DAVID A. FOSTER,
Haileybury.

IN THE MATTER OF THE GREAT NORTHERN LARDER LAKE MINING CO., LTD.

Statutory Declaration.

DOMINION OF CANADA
County of York,
TO WIT:

I, David Foster, of the town of Haileybury, in the district of Nipissing, miner, do solemnly declare that the statements in the annexed certificate are true. I have personally inspected all of the fourteen claims now transferred to the Great Northern Larder Lake Mining Company, Limited. I have taken samples containing gold values from said property, and from my personal examination, and from assays made, I believe the Company's property when developed, will prove very valuable. I have full confidence in the success of the said Company, and on this account, with the exception of $400 already received, I have agreed to accept stock in said Company, and a note which I believe will not be of much value should the actual development work not prove the said claims to contain gold in paying quantities as it is not payable for one year from this date or until after the Company shall have done the necessary development work on said claims. And I make this solemn declaration conscientiously believing it to be true and knowing that it is of the same force and effect as if made under oath, and by virtue of "The Canada Evidence Act."

DAVID A. FOSTER.

Declared before me at Toronto, in the County of York, this 31st day of March, 1908. J. T. LOFTUS, A. Commissioner in H. C. J.

PROPERTIES TRANSFERRED.

Since the prospectus was printed, the sale of the 14 mining claims to the Company has been completed and the transfers to the Company are registered in the Recorder's Office at Larder City. There is no mortgage or other encumbrance against said claims.

10 PER SHARE.

Par Value One Dollar fully paid Up and Non-assessable.

OFFER IN PLAIN WORDS

$ 5.00 buys	50 shares, par value	50.00	$ 10.00 buys	100 shares, par value	$ 100.00

EPPS'S

A delicious drink and a sustaining food. Fragrant, nutritious and economical. This excellent Cocoa maintains the system in robust health, and enables it to resist winter's extreme cold.

COCOA

Sold by Grocers and Storekeepers in ½-lb. and ¼-lb Tins.

RAWHIDE-DULZURA

1 CENT A 2 SHARE

Send us your name as a member in this new company, with your remittance for as many thousand shares as you can take at $5 per thousand.

This is a short-time offer on a hurry-up proposition. Our vice president is up at Rawhide now putting the miners at work. We want to raise the necessary funds for development as quickly as possible. Therefore, we offer the first block of stock at $5 a thousand shares. This subscription must be all cash. We want the money in hand. We mean to work without let-up, and we have made it an inviolate rule not to run in debt. Cash counts now.

Our prospectuses are out. Send for one.

Make reservation of stock. If you do so more. But, remember, this present offer of stock at Half a Cent a Share is now open, and will be closed as soon as enough cash subscriptions are in hand. Don't wait, or you will get left.

The gold mining property owned outright by the company consists of 7 claims, 6 in the Rawhide district of Nevada, and 1 in the Dulzura district of Southern California.

The Rawhide district to-day is more famous than Goldfield, Tonapah, Bullfrog, or Shoshone ever were at the same stage of exploration and development. The Dulzura discovery is one of the most sensational in the history of California.

Ten samples of ore which were among the first assayed, run as high as $7,461.87 to the ton, and all ten averaged over $1,600 a ton.

In both camps we located early, and our locations are choice. Our own officers will superintend the mining.

Rawhide-Dulzura Gold Mining Company

122 West Third Street, Los Angeles, Cal.

Since Chief Black Cloud has come to town, many people have tried his Blood Purifier, and Results have Delighted them a case derangement of the stomach liver kidney and blood. Will be here all summer and manufactue his medicines, made from roots herbes and barks. Take the car and call on him at

DESIRES HERE AND THERE AS OUR TIMES REPORTER SEES.

General Servant Wanted

A good general servant wanted. No children, and every modern convenience. Apply box 109, Times office.

Will Walk at Port Hope

Jimmy Harrison the fast local pedestrian, is entered in the Port Hope walk for 1st, 2nd, 3rd and 4th July.

Many Excursionists in the City

Two large excursions from Lindsay and Fenelon Falls were in the city yesterday. They were run under the auspices of the Methodist Church, Fenelon Falls, and St. Paul's Church, Lindsay.

Funeral of the Late Thos. McDonough

The funeral of the late Mr. McDonough was held yesterday afternoon from the family residence, 245 Park street, and was largely attended. The pallbearers were Messrs. John Callaghan John Murray, John Kelly, Patrick Lavery, Michael Neary and Patrick Gorham, members of the T. A. B. of which the deceased was a member.

May Camp at Barrisfield

It is probable that the 57th Regiment may camp at Barrisfield during the first week in September. The Regiment will leave on a Saturday evening and on September 5th go in to camp. On Labor Day they will take a trip through Thousand Islands and then return and spend two or three days in camp.

Improved Boxes

An improvement is being made at the local Post Office. The mail boxes on Hunter street are being taken out and a new device being put in. The arrangement will have compartments for mail going each way and in this manner the work of sorting of the outgoing mails will be much easier.

Pleased with the West

A letter was received by friends in Lindsay from Mr. R. J. McLaughlin, who is now at Brandon with Mrs. McLaughlin. He has enjoyed his trip very much so far, and was pleased with the ride over the new C.P.R. line to Sudbury on the fast Winnipeg Limited. Mr. McLaughlin intends to go through to Vancouver, where after a few weeks' stay he will return home.

He will arrive back in Lindsay about the 1st of August.

Weak women should try Dr Shoop's Night Cure. These soothing, healing, antiseptic suppositories go direct to the seat of these weaknesses. My "Book No. 4 For Women" contains many valuable hints to women, and it is free. Ask Dr. Shoop, Racine, Wis., to mail it. Ask the Doctor in strictest confidence, any questions you wish answered. Dr Shoop's Night Cure is sold by all dealers.

Big Excursion Dominion Day

Dominion Day will be celebrated by the people of Dunsford by the four churches of that town combining and running an excursion to Thurstonia Park, on the steamer Kathleen. The proprietors of the steamers have cancelled their trip to Cobourg and a pleasant time is assured. The steamer will make two trips leaving at 9.00 a. m. and 1.00 p. m.

Electricity on the Farm

Prof. W. H. Day, of the Department of Physics, at the O. A. C., who last week visited his home in Fenelon Falls, has an interesting article in the June number of the College Review. It is on "Electrical Power on the Farm", in which he states that all through Ohio, Illinois, Indiana, and Wisconsin, this form of power is used extensively, and that soon he believes Ontario will be using this power.

To stop any pain anywhere in 20 minutes, simply take just one of Dr. Shoop's Quick Pain Tablets. Pain means congestion—blood pressure—that's all Dr. Shoop's Headache—or Pain Pain Tablets—will quickly coax blood pressure away from pain centers. After that, pain is gone. Headache, Neuralgia, painful periods with women, etc., get instant help. 20 Tablets 25c. Sold by all dealers

Will Lecture in Toronto University

Mr. Geo. A. Cornish, B. A., of the Lindsay High School, has been engaged by the Ontario Government to lecture on science in the summer classes of Toronto University. Mr. Cornish will be away from his home for about two months but will return in time for the opening of school. He is one of the best science teachers in the Province and will no doubt fill his important position in the University to the satisfaction of the government and those who will be under him.

Beware of Ointments for Catarrh that contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do a ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio by F. J. Cheeney & Co. Testimonials free

To Canadian Investors

The undersigned has received an allotment of unsold portion of $100,000 of

7 Per Cent. First Mortgage Five-Year Gold Bonds

dated January 11, 1908, and maturing January 11, 1913. These Bonds are offered at par and accrued interest by Metropolitan Trust & Savings Bank, Chicago, trustees.

SECURITY—The Entire Property and Improvements Owned THE URES CONSOLIDATED MINING COMPANY in the District of Ures, State of Sonora Mexico, Free from Mortgage or Bonded Indebtedness, except this present Bond issue.

An Unusual Opportunity for Investment in Sound Security

The Ures Consolidated Mining Company offers $100,000.00 of First Mortgage Gold Bonds. This issue of bonds is the only mortgage or bonded indebtedness ever placed on the company's properties.

These bonds are in the denomination of $100.00, and bear interest at the rate of 7 per cent. per annum, payable semi-annually, July and January, and are redeemable on or before five years from date at the company's option at $110.00 and accrued interest.

$150.00 Stock Bonus Given with Every $100.00 Bond

With each bond issued there will be given $100.00 par value of the capital stock of the company as a bonus, and in addition thereto there will be placed in escrow with the Trustee additional stock which will be available to the bondholders at their option any time within a period of three years, the bondholder being entitled to surrender his bond any time within said period and receive in lieu thereof stock for every dollar of indebtedness to him on account of said bonds.

The Security Back of these Bonds

The company owns twelve claims situated in the district of Ures, State of Sonora, Mexico, free from mortgage or bonded indebtedness, except the present bond issue.

On one of these properties (The Ramona Mine) 6,000 feet of underground development work has been done, consisting of an inclined shaft to the depth of 400 feet with drifts in three levels to the North and South of the shaft.

An average value of ore worth $11.47 per ton is exposed throughout the mine, from the collar of the shaft to the extreme parts in the drifts, all of which is above water level.

The company has made surface improvements and mine improvements to the extent of $40,000.00 in the way of machinery, skids, trams, steam hoists, mill and nearly everything necessary to make the mining camp complete.

In addition to the absolute ownership of these twelve valuable claims, the company has a lease on the San Jose Mine, adjoining its property, in which the company has been operating in high grade ore.

During the past sixty days the company has extracted and delivered to ore buyers and the bank at Hermosillo, $2,000.00 worth of ore and bullion, the ore having been reduced to bullion through the company's mill, with the exception of 1,456 pounds, which was sold to an ore buyer for $662.00.

The Money Derived from the Sale of These Bonds

This issue of bonds is made for the purpose of securing money at once in order to extend the development work more quickly than the company's present income will permit.

With the high grade ore in sight to the distance of 50 feet to the South of the shaft, the management is assured that within six months from date of making the improvements now necessary the company's properties will be on a self-sustaining and dividend-paying basis.

The Stock which is Given with these bonds will be as valuable as the bonds when the Company has the ready capital to push operations

Men who invest in these bonds will have no cause or reason to regret their action, for the bonds afford an investment in a security which is absolutely safe—much better than ordinary city or country real estate, which is considered perfectly safe if the property put up to secure a mortgage is double the face of the loan. The security given on these bonds is better than 7 to 1. For the Ures Consolidated Mining Company has refused an offer of $750,000.00 for the property upon which this $100,000.00 worth of bonds is issued.

These bonds are an investment with all speculative risk eliminated—an investment with absolute security.

Make your reservation at once. This is small and promises to be quickly sold.

Bank References

CAPITAL $1,500,000 RESERVE $950,000

Banco de Sonora,
Hermosillo, Mex.,
Feb. 11th, 1908.

To whom it may concern:—

We hereby beg to state that The Ures Consolidated Mining Company has during the past five years made several deliveries of bullion to this bank, and it is the opinion of mining men here that they have the making of a fair mine, and further, that the properties owned and controlled by them bid promise of becoming paying properties.

From our knowledge of the men connected, we believe they are doing all in their power to bring about the results above mentioned.

Respectfully,
BANCO DE SONORA,
Max Muller, Gerente.

VOL. XXXVI., NO. 153 — PETERBOROUGH, ONTARIO, WEDNESDAY, JULY 1, 1908 — PRICE TWO CENTS

Many Thunderstorms Predicted for July by Prof. Irl Hicks

Twelfth of July May be Cool — Thunder Storms Coming — Rainfall Not Great

THE ENTIRE PREDICTIONS

— is the first day of July and many will be interested in Prof. Irl Hicks' weather predictions for the month. He believes that about the 5th or 6th of the month the earth will be visited by a great electrical storm. There will also be a number of other electrical storms, but the rainfall will not be in proportion to their threatening appearances. The Twelfth of Ju.' will probably be cool. Following are the complete weather predictions as stated in "Word and Works":

A reactionary storm period is central on the 4th, 5th and 6th. The storm period central on June 29 will last into the 1st and 2nd of July. storms of that period, however, will have worked past the central parts of the country by July 1, followed from the west by rising barometer and change to somewhat cooler. On and touching the 4th, 5th and 6th look for reaction to falling barometer and change to much warmer Cloudiness, rain and thunderstorms will visit many localities on and next to the 5th and 6th, as low barometric areas pass eastwardly over the country. The crisis of electrical excitation will fall on and touching the 6th. As these storms pass off to the east, rising barometer and change to cooler will follow closely from the west. A somewhat remarkable conjunction of astronomic phenomena falls within this period, namely, the inferior conjunctions of both Venus and Mercury—Mercury on the 4th and Venus on the 5th. Added to these, Earth is in conjunction with Neptune and the Sun on the 6th, and within a few hours falls the opposition of Uranus, or the passing of Earth between Uranus and the Sun. We believe that phenomenal barometric fluctuations, with great magnetic and electric unrest, will result at this period. If the Moon were in either conjunction or opposition, earthquakes would be a certainty on and about the 6th.

A regular storm period reaches from the 9th to the 13th, embracing the full moon at greatest south declination on the 13th. By the 10th a decided fall of barometer will be noted in western sections, attended by a warm wave of marked intensity. From about Friday the 10th to Monday the 13th, coming to a crisis on and touching the 13th, look for thick, threatening storm clouds, with rain, thunder and high winds. We fear that the rainfall at this and other July periods will not be in proportion to the severity and threatening appearances of the storms "Waterspouts and cloudbursts" will visit some localities, but other and much wider sections will suffer for want of rain. We believe that the world-wide predisposition to earthquakes will have greatly subsided by the summer of 1908 but such things must occasionally happen during any and all years. Taking a period of five to six days, with July the 13th as the centre, seismic disturbances are more than probable in many quarters of the globe, especially in regions on and south of the equator Brief change to somewhat cooler will be natural from about the 13th to 15th

A reactionary storm period is central on the 16th and 17th. This period is also within the bros es the Mercury period, shown in the engraved storm chart for July During this period look for a reaction to much warmer, with falling barometer and return to cloudiness and scattering, light rains.

A regular storm period is central, coincident with the centre of the Mercury period, the regular storm period extending from the 19th to the 24th, and the Mercury period from the 15th to the 28th About the 20th the barometer will fall in western parts of the country, with rapidly rising temperature, followed by general cloudiness. During the 21st to 24th threatening storm clouds and much severe bluster will be natural This period is also one of the most favourable times for rain during this month. As a rule the Mercury periods bring much continued cloudiness, with drizzling rain, but some of the heaviest storms and rainfalls frequently occur at the blending of regular storm periods directly with the Mercury periods. Such results are possible at this period, but we fear that rains will not be generally diffused and copious. Narrow localities may have deluging downpours, but the grain belts, and other wide areas of the country, while they may have ugly storm clouds, thunder and high winds, will most likely suffer a shortage in rainfall. A change to cooler, more pleasant conditions may reasonably be expected from about the 24th to the 27th.

A reactionary storm period is central on the 27th, 28th and 29th The moon is at extreme north declination on the 26th, in apogee on the 29th, and in conjunction with earth and sun, or at new moon, on the 28th. It is possible that change to cooler may not appear generally from the 26th to 27th, following the previous period, in which event the temperature will continue to increase, culminating in one of the most intense "hot waves" of the summer, counting three days before and after Tuesday the 28th. A seismic period of five to seven days is also central on July 28th. The indications are that a "heated term" will break down, letting in a respite of some days of more pleasant weather, as we pass from July into August

Close students will observe that we indicate the end of Jupiter period in the diagram for June In the nature of the case, the exact beginning and ending of these great perturbations are only approximated Like all the other periods, they may be precipitated or prolonged by other astronomic causes. (We believe that the strong characteristics of the Jupiter disturbance will practically subside with the June, 1908, solstice, and yet they may continue in force until after the autumnal equinox The Saturn period still being in force may prolong the Jupiter period. Drought in the summer of 1908 will be in proportion as Jupiter's influence continues

In closing our forecasts in June Word and Works, we give telegraphic dispatches from different parts of the earth, showing that our forecasts of seismic shakes for the opening days of May were verified. For many years we have constantly urged all whom we could reach to keep a complete record of all the earthquake reports—no matter where or when they might occur We shall continue to urge the same thing, and we just as earnestly insist that all these reports be compared with our seismic forecasts. By so doing any one may soon prove to himself that there are regular seismic cycles, outside of which such phenomena rarely occur. There were two other seismic periods in our May forecasts, one central on the 15th, and extending from the 13th to 17th

To the woman who bakes, Royal is the greatest of time and labor savers. Makes home baking easy, a pleasure and a profit.

ROYAL Baking Powder

The only Baking Powder made from Royal Grape Cream of Tartar

With minimum trouble and cost biscuit, cake and pastry are made fresh, clean and greatly superior to the ready-made, dry, found-in-the-shop variety.

Central Smith's Good Record

Ottawa, June 30.—Eden Bank, B.C., Cow Testing Association for May had the record for 241 cows of an average production of 917 lbs. milk, 3.7 test, 31.4 lbs fat. In each of the 26 herds some individual cows gave over 1,000 lbs. milk, while the three best single yields were 1,630 lbs. testing 3.2, 1,750 lbs. testing 3.5, and 1,781 lbs. milk in the 30 days. The best herd average was from a lot of 20 cows yielding 1,284 lbs. milk, 3.4 test, 44 lbs. fat. Such animals must be a pleasure to handle, a source of pride and satisfaction, as well as of good cash profit.

A good Ontario record for the same period is at the Central Smith Association, where a herd of 20 cows averaged 1,096 lbs. milk, 3.2 test, 35 lbs fat. The best cow in that herd gave 1,465 lbs. milk testing 4.0, and the lowest yield in the same herd was 400 lbs. testing 3.2.

A contrast to the above is at St. Antoine, Que., for the same period where 60 cows averaged only 654 lbs. milk, 3.3 test, 21.9 lbs. fat. The 60 cows gave a total yield of 39,244 lbs milk, 1,317 lbs. fat. If they had milked as well as the cows at Eden Bank, B.C., they would have given an additional weight of actually 16,000 lbs. of milk and over 700 lbs. of butter-fat during the one month!

Are there not some more places where there are still some poor cows left? The poor cows are quickest detected by systematic weighing and testing.

Thos. Deakin, Reported Killed at Haileybury Living in the City

Left the Circus at Napanee So That the News of the Man Identified as Deakin is Still a Mystery—Has Been Here Since June 19th

IDENTIFIED BY THE PHOTO

The circus man who was found near Haileybury last week and who has been positively identified by his landlady and other people as Thomas Deakin of Toronto is not Deakin at all, for that gentleman is in Peterborough and has been here since June 19, two days after Cole Bros.' circus visited the city. Mr. Deakin called on the Examiner to-day to notify the public through the medium of this paper that he is still alive and well, despite the people who identified the dead body as him.

It will be remembered that the body of an unknown man was picked up near Haileybury and it was supposed he had either been thrown from or had fallen off the circus train. There was an investigation and circus employees gave some startling information. A few days afterwards by means of a photograph the body was identified as that of Thos. Deakin of Toronto.

The latter was with the circus until they reached Napanee the day after they had given two shows here. At Napanee he left Cole Bros. and returned to Peterborough next day, remaining here ever since Since he has learned of the mistake from the Toronto papers he has been busily engaged in letting his friends know that he is still alive. His home is at Providence, R.I.

Prospects Bright for a Record Grain Crop

Ottawa, June 27.—Never in the history of Canada have the prospects been brighter for a record grain crop than they are to-day. From the east and west, from the middle provinces of Ontario and Quebec, come reports of the most optimistic character, and give assurance that the country will result in the prosperity consequent upon abundant crops.

A unique feature in this pleasing situation is the fact that every province of the Dominion will contribute to this record. It is seldom that this can be claimed, and favourable weather conditions do not always obtain in all the provinces, but this year has proved the exception. So far all reports coming forward from the west contain nothing but good news. The present wheat season may be said to have begun on April 12 and a reasonable supposition is that the harvest will begin not later than August 16. The time required to produce spring wheat in this country varies from 100 to 130 days. And more than half of the present season has passed, therefore, without so much as even a hint of a setback being reported.

After an extended tour of inspection in the West, James Carruthers, one of the principal grain exporters of Canada, has returned here with glowing accounts of the western crops. He estimates that about 30 per cent. more acreage has been sown to wheat this year than ever before. Under these circumstances he predicts that the yield will be fully 125,000,000 bushels of wheat should weather conditions continue favorable. Cy.u Warman, the well-known writer, who has just returned from his western tour, corroborates this estimate.

In Ontario thisye ar an increase of $5,000,000 bushels of grain and 15,000,000 tons of hay over the production of last year As anticipated. This means an increase in crop values of $100,000,000. In the province of Quebec the yield of grain crops is expected to be fully one-third greater than last year, while in the maritime provinces the acreage is not only larger, but the production of the tilled fields promises to be exceptional.

ARRANGEMENTS HAVE BEEN MADE FOR SPECIAL TRAINS ON JULY 13th

Mr W. H. G. Armstrong, representing the local district or Orangemen, under whose auspices a monster celebration will be held in Peterborough on Monday, July 13th, returned yesterday from Allendale, where he was in conference with the G. T. R. officials regarding the passenger service to the city. Arrangements were made by Mr. Armstrong with Mr. W. R. Tiffin and Mr. Macdonald, district passenger agent, and provision has been made to accommodate 15,000 visitors Special trains will be run from Port Hope, Cobourg, Lindsay, Lakefield and Belleville, and in some cases the regular train will have to be used.

On the C. P. R. a special train will be run from Blairton and will stop at Havelock, Norwood and Indian River. The trains on the G. T. R. will, of course, stop at all intermediate points. The regular train from Toronto will bring a large number and altogether there will be one of the largest crowds of visitors in Peterborough that the city has ever seen, and as an Orange demonstration it is expected that all past celebrations in this district will be surpassed. The visit of so many persons will mean much to the city and it is desirable that a good impression be made.

JUDGMENT IS RESERVED IN APPEAL

Judge Weller Heard Arguments Against Magistrate Dumble's Decision

The appeal made by a local hotelkeeper against the decision of Magistrate Dumble, by which he was fined fifty dollars and costs on a charge of selling liquor to a minor, was argued before Judge Weller. Mr. Jas. Haverson of Toronto appeared on behalf of the appellant, and argued that the decision was not based on good law, and asked that if His Honour found that the judgment was sound that the fine be reduced. Judge Weller reserved judgment.

Hoagland was in the City Yesterday

W. A. Hoagland, of Auburn, N.Y., the world's champion walker, who won the big six-day walking race here in April, and who likewise won the hearts of the citizens of Peterborough by his clever walking and sportsmanlike conduct, was in the city yesterday for a few hours renewing acquaintances. Mr. Hoagland will be a starter in Jimmy Reynolds' four day race at Port Hope which opens in the skating rink at 9 o'clock to-day, and in which Tom Ritter, the Oswego crack, and Jim Harrison, our own speedy "pad," are entered. The Buffalonian as he was familiarly called during the walk here, has been in Port Hope for a couple of days and took a run up to Peterborough this morning in company with his little daughter, Bernice, who is the guest of the Misses Graham.

To the Examiner the champion stated that he was not a walking shape on his feet since he left here but is in good condition and confident of giving the Port Hopers a satisfactory exhibition. The walk there will be a success as there are ten entries and as the people seem to be generally interested in the affair.

Hoagland has been umpiring ball games in the Empire State League every day since the middle of May until Sunday when he obtained a week's leave to come over to Port Hope for the race.

He was given a warm welcome to Peterborough by those who made his acquaintance during the walk here.

Laborer Had a Narrow Escape from Death

Alex Walker, one of the city labourers, who is engaged in locating the sewer on Hunter street in order to make a connection with the Times building, had a narrow escape from being killed by a cave-in at 9 o'clock yesterday. The plan of the sewer was not on file at the City Engineer's office and it was necessary to dig at random in an effort to locate it. An excavation to the depths of six feet was made, but it was found that it was north of the sewer which was located by means of rods shoved through from the man hole at George street. Walker was lying on the ground at the bottom of the excavation, listening for the rods, when his fellow workmen above noticed that the ground had started to cave in and shouted a warning to him. Walker quickly sprang to his feet, but before he could get out of the way he was buried up to his shoulders in the downpour of gravel. He was, as quickly as possible, dug out of his predicament and was found to be unhurt.

His escape was a narrow one. Had he not been able to stand erect before the cave-in, he would undoubtedly been smothered before he could be rescued.

Exhibit of Hand-Painted China

Mr. Alex. Gibson, jeweller, has made arrangements with the Pickard Studios of Chicago, to send a representative to Peterborough, with the entire studio line, which embraces thousands of dollars worth of the most beautiful specimens of the art of painting china by hand, to give an exhibit in his store.

All the artists in the Pickard Studios have had many years of training in the finest art schools of Europe and America, and you see the results of this thorough training in their work. Pickard China possesses a harmonious, satisfying richness that has never been successfully imitated.

The exhibit embraces many hundreds of pieces, ranging in price from $1.50 to $75.00 each.

There is nothing in this exhibit for sale. But if you wish to place an order now for Fall or Christmas shipment, you can have any piece you wish painted to order.

Mr. Gibson will pay the duty and the freight on all orders placed while this exhibit is on, and deliver the goods to you at the American price. A small deposit required when the order is given.

This exhibit is for two days only, Friday and Saturday, July 3rd and 4th Store will be open Friday night for Exhibit only.

To stop any pain anywhere in 20 minutes, simply take just one of Dr. Shoop's Pink Pain Tablets. Pain means congestion—blood pressure—that is all. Dr. Shoop's Headache—or Pink Pain Tablets—will quickly coax blood pressure away from pain centers. After that, pain is gone. Headache, Neuralgia, painful periods with women, etc., get instant help. 20 Tablets 25c. Sold by all dealers.

ADVERTISE IN THE TIMES.

A Trip Through the Holy Land Described by a Peterboro' Citizen

Mr. T. F. Matthews' Interesting Address at the Murray Street Baptist Sunday School — The Holy Land, Its Places and Its People

A PROFITABLE ADDRESS

The Times is pleased to be able to present to its readers the address given by Mr T. F. Matthews at the Murray Street Sunday School on Sunday afternoon, which, no doubt, will be found decidedly interesting and enjoyable. It deals with the Holy Land especially and sets forth some of the places visited by Mr. Matthews during his recent trip to the Orient. The address was as follows:

Before telling you of my impressions of Jerusalem and Palestine I have thought it might be interesting to give a very brief account of the trip I was fortunate enough to be able to take early this year, during which we touched at some very pretty and historic spots of the old world.

Leaving Peterborough early in February, when it was extremely cold and the ground completely covered with snow, we sailed two days afterwards from New York, and had very disagreeable weather for the first few days, but as we neared the other side of the Atlantic Ocean it became much warmer. On the morning of the eighth day we approached the Madeira Islands, and during the early morning sailed alongside of the largest island, and could see from the ship the sides of the hills studded with pretty white cottages, around which were clustered vineyards and fields of sugar cane, while at the back, the hills developed into mountains, many of them snow-capped We reached Funchal, the capital, about ten o'clock in the morning, and we all were most anxious to get on shore. We were surprised and delighted with what we saw The city is built on the steep side of a hill, making it almost impossible to use horses on the streets, which are all paved with cobble stones. The cabs are large sleds with wooden runners drawn by oxen, and the driver carries an oil soaked cloth which he throws down and allows the runners to pass over it, when in his opinion the conveyance is "drawing hard." The weather was just such as we have here in June. We saw all varieties of semi-tropical flowers and fruits, picked oranges and bananas, drove around in the bullock-drawn cabs, and as we passed along the bright-faced, happy-looking children threw flowers at us, hoping that we would throw out pennies in return

Cadiz was Visited

After a two days stay here we left for Spain, finding at Cadiz, I had expected to see the usual dirty seaport city, but on going ashore was immediately struck with the cleanliness of the streets and the smart appearance of the Spanish women Instead of hats each wore a mantilla. One of the historic spots in the city is Los Capuchinos, formerly a convent, now a church It was here that the great painter Murillo met his death by falling from the scaffold while finishing his famous painting, the "Marriage of St Catherine." We had a short though interesting trip through Spain, going to Seville, a very fascinating city noted even now for the cruel sport of bull fighting. It is a very celebrated residential city, even in Germany the saying is current, "God gives his favourites a house in Seville." Next to Granada and the Alhambra the European strongholds of the ancient Moorish kings, it was surrendered to King Ferdinand of Spain, in January, 1492 The legend goes that on this withdrawal from Granada Boabdil, the defeated Moorish king, turned to take a last look at the beautiful city he had lost and his eyes were filled with tears. His unflinching mother Aisha, rebuked him with the words, "Weep not like a woman for what you could not defend like a man." We found this place very interesting We stood on the spot where Queen Isabella received Christopher Columbus on his return after discovering America.

On to Gibraltar

Next on to Gibraltar. Our first view of the rock was from the train, it looked to be a huge lion in a crouching attitude, and our view of it here and again as we sailed out of the harbour, by the light of a full moon at midnight, was such that we were constrained to express more than once, that we were proud of the fact that we belonged to an Empire which held this key to the Mediterranean, and which commanded the respect of all other nations.

The one day spent at Algiers was full of interest. This city for centuries was the headquarters of the pirates of the North African coast. They claimed "They were friends to the sea and enemies to all those who sail upon it." One hundred years ago the pirates held the whole civilized world in terror and exacted tribute from every nation. It is estimated that over 600,000 Christian people have suffered the nameless horrors and atrocities of Algerian bondage, of whom a very small proportion ever escaped or were ransomed.

Malta the Naval Base

Two days afterwards we reached Malta. The captain blew his whistle as the ship passed the bay where St. Paul was shipwrecked, when on his way as a captive for trial at Rome. As a fortress Malta is nearly as formidable as Gibraltar and much more useful as a coaling station and naval base.

We next sailed through the Aegean Sea, and landed at Piraeus, the port of Athens. Almost immediately we hastened to the Acropolis, from which we had a splendid view of Athens and the surrounding country. Our stay in and around the Parthenon was most interesting and we were so fascinated with it that we returned the following day in order to again be at the very centre of the Athens of art, of literature, of history, of statecraft and philosophy. We approached Mars hill by probably the same way as was (favored by St Paul, and while standing on the top of it we heard from one of the ministers who was with us, St. Paul's words, as contained in Acts 17, verses 22-31.

Constantinople Visited

Going to Constantinople, which as

Cures Woman's Weaknesses.

We refer to that boon to weak, nervous, suffering women known as Dr. Pierce's Favorite Prescription.

Dr. John Fyfe one of the Editorial Staff of THE ECLECTIC MEDICAL REVIEW says of Unicorn root (*Helonias Dioica*) which is one of the chief ingredients of the "Favorite Prescription":

"A remedy which invariably acts as a uterine invigorator * * * more for normal activity of the entire reproductive system." He continues "in Helonias we have a medicament which more fully answers the above purpose than any other drug with which I am acquainted. In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent." Dr. Fyfe further says: "The following are among the leading indications for Helonias (Unicorn root). Pain or aching in the back, with a sense of bearing down, weak conditions of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women; constant sensation of heat in the region of the kidneys; menorrhagia (floodings) due to a weakened condition of the reproductive system; an enormity, suppressed or absent monthly periods, arising from or accompanying an abnormal condition of the digestive organs and a pale (thin blood) habit; dragging sensations in the extreme lower part of the abdomen."

If more or less of the above symptoms are present, be it known that there is no better than take Dr. Pierce's Favorite Prescription, one of the leading ingredients of which is Unicorn root, or Helonias, and the medical properties of which it most faithfully represents.

Of Golden Seal root, another prominent ingredient of "Favorite Prescription," Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says:

"It is an important remedy in disorders of the womb in all catarrhal conditions * * * and general enfeeblements, it is useful."

Prof. John M. Scudder, M. D., late of Cincinnati, says of Golden Seal root:

"In relation to its general effects on the system, there is no medicine in use about which there is such general unanimity of opinion. It is universally regarded as the tonic useful in all debilitated states."

Prof. R. Bartholow, M. D., of Jefferson Medical College, says of Golden Seal:

"Valuable in uterine hemorrhage, menorrhagia (flooding) and congestive dysmenorrhœa (painful menstruation)."

Dr. Pierce's Favorite Prescription faithfully represents all the above named ingredients and cures the diseases for which they are recommended.

Left Money to Peterboro' Woman--Assists Churches

Lindsay, June 27.—A Peterborough hospital and a Peterborough woman are among the number that receive bequests from the will of the late Michael Guiry who died some weeks ago having an estate valued at $14,227.95 As was generally known the late Mr. Guiry was blind but this did not prove a hindrance to his business capabilities.

He had no direct descendant, as he never was married, and his will is made up of numerous bequests to friends and relatives. He was an adherent and member of St. Mary's church, and both St. Mary's and St. Luke's Emily, were willed sums of money.

The executors of the estate are Mr. George McHugh, of town; Mr. Joseph Brennan of Peterborough, and Mr. Michael Clancy of Emily.

Following are the bequests:

The centre part of lot 8 on north side of Kent street, including the stores leased by Geo. A. Little & Ford, Frank Forbert and A. Higinbotham, valued at $11,000, on which is a mortgage of $4,025.84 in favor of William Meagher, equal to $6,974.16.

Farm on lot 16, con. 5, all Ops east of Seugog, value $4,500

Total value of estate $11,474.16

The south part of lot 8, north side of Kent street, conveyed by Michael Guiry during his life to Thos. Brennan for value of said land being $4,500

PERSONAL PROPERTY.

Cash on hand, $910.85; cash on hand, $305; securities for money, $539.09; book debts and promissory notes, $307.25; horses and cattle, $350; goods and implements, $370; farm produce, $170.

Total value of estate, $14,227.95.

BEQUESTS.

"All household furniture to my sister, Margaret Guiry; also an annuity of two hundred dollars during her life, and if this is not considered sufficient by the executors, as much more as should be required.

"Frederick Butler, the son of my niece, shall receive not more than $500, for his education, at the discretion of the executors.

"The parish priest of St. Mary's, $100 for the celebration of masses for the repose of my soul.

"St. Joseph's Hospital, Peterborough, $500.

"$50 to St. Luke's, Dawnsville, for maintenance of my father's and my mother's graves.

"$300 for the support and education of Kathleen and Charles Brennan.

"$1,000 to my nephew, William, son of my brother, John.

"$300 to Mary and Francis Butler, $100 to each of the children of Michael Houlihan.

"$500 to my niece Margaret Kelly.

"$100 to children of the late Bridget Cook.

"$200 to Ada Guiry.

"$400 to Mary Ashley.

"$100 to Annanza Guiry.

"$100 to Loretta Guiry.

"$500 to Mirm Maloney, wife of John Maloney, of Peterborough.

"$400 to Ellen Guiry.

"To divide the rest of my estate equally between the Saint Vincent de Paul Society of St. Mary's, and St. Mary's church parish fund, and the Separate school."

Morning Times

The only Morning Daily Newspaper published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic despatches each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

WEDNESDAY, JULY 1ST.

One of Hook's Practical Jokes.

Theodore Hook forged 4,000 letters to 4,000 tradesmen and others requesting them to call on a certain day and hour at the house of a wealthy widow, Mrs. Tottenham, in Berners street, London, against whom he had conceived a grudge.

These people began to arrive soon after daybreak. The rush continued until nearly midnight. They came by fifties and hundreds.

There were 100 chimney sweeps, 100 bakers, fifty doctors, fifty dentists, fifty accouchers. There were priests to administer extreme unction and Methodist ministers to offer last prayers. There were fifty confectioners with wedding cakes, fifty undertakers with coffins, fifty fishmongers with baskets of cod and lobsters. They pushed, quarreled and fought, and the police were called out to prevent a riot. Finally among the hoaxed ones came the governor of the Bank of England, the royal Duke of Gloucester and the lord mayor of London, each lured thither by some cunning pretext. A police investigation followed, but the perpetrator was not detected.

A Wonderful Bowman.

The Romans were very skillful bowmen, although they discarded the weapon in warfare, trusting to the charge and to hand to hand fighting. Many of the Roman emperors were famous archers. It is said that Domitian would place boys in the circus at a considerable distance from him and as they held up their hands with the fingers outstretched he would send the arrows between them with such nicety and accuracy of aim that he never inflicted a wound.

The wicked emperor Commodus boasted that he never missed his aim or failed to kill the wild beast that he shot with a single arrow. He would set a shaft in his bow as some wild beast was set free in the circus to devour a living criminal condemned to die. Just when the furious animal was springing on his prey the emperor would strike it dead at the man's feet. Sometimes 100 lions were let loose at once in order that he, with 100 arrows, might kill them. With arrows the heads of which were semicircular he would sever the necks of ostriches in full flight.

A Talent For Balancing.

The pleasant coffee room of the old Star and Garter at Richmond, which was burned down in 1869, was patronized by England's statesmen, politicians and writers. On Saturday evenings it was regularly visited by a middle aged gentleman of rather broad stature, with gray hair and a large shirt collar which formed a conspicuous feature in his attire. He would dine always alone at a particular corner table, and after dinner it was his humor to build up before him a pyramid of tumblers and wineglasses, which he topped with a decanter. Occasionally the whole structure would topple over and litter the table with its ruins. Then the middle aged gentleman would rise, pay his bill, including the charge for broken glass, and depart. The waiters knew him well. He was Thomas Babington, Lord Macaulay.

Curious Greetings.

A French journal has been looking into the question of how different races express the colloquialism "How do you do?" and presents some curious examples. The Koreans, for instance, do not give or imply any offense when they greet each other with the remark, "You do look old." Persians say, "May Allah preserve your beard and cover it with benedictions." Among a tribe of Fiji islanders the correct form of salutation is to pull one's ear. A Caroline islander kneels before his friend, whose foot he grasps and slaps himself vigorously in the face with it. In the Sudan a traveler was addressed by a native chief as "Mighty sun," the said chief finishing up with "Glory to thee, O splendid moon," the remark being accentuated by expectorating in the traveler's right hand.

Greatness.

There is a kind of elevation which does not depend on fortune. It is a certain air which distinguishes us and seems to destine us for great things. It is a price which we imperceptibly set on ourselves. By this quality we usurp the deference of other men, and it puts us, in general, more above them than birth, dignity or even merit itself. —La Rochefoucauld.

A Coincidence.

"I'm afraid, George," said his fiancee, "that you are going from bad to worse."

"Quite a coincidence," muttered George. "That's what Clara said when I threw her over for you."

Spurgeon's Complaint.

Mr. Spurgeon once complained that his deacons were worse than the devil.

"Resist the devil," said he, "and he will fly from you, but resist a deacon and he will fly at you."

Hope.

"There is no evening suffusing than hope." So runs an old German proverb, melancholy test for hearts that bitter disappointment has caused God to whom all hope is [illegible].

General Servant Wanted

A good general servant wanted. No children, and every modern convenience. Apply box 160, Times office.

Why We Are All Mimics.

"If we did not cough in church, the human race would not exist." And the professor, twiddling a piece of chalk in his hand, regarded the sophomores with a quizzical smile.

"What I mean," he continued, "is that the cause of coughing is the cause of our survival. That cause is mimicry. Mimicry is a better life preserver than fleetness or strength. For by mimicry we manage not to attract attention, and in prehistoric times they who attracted attention were hunted down by the tribe and roasted for dinner or hunted down by the saber tooth tiger and taken raw.

"Since those dark days mimicry has been instinctive with us. Mimicry is what causes us to follow the fashions. It causes us, when in England, to say 'cawn't' and 'lawf.' If your friend yawns, you yawn—that's mimicry. If he laughs, you laugh—mimicry again. If he snuffles, you snuffle—mimicry. And if he coughs in church, straightway you and all the rest of the congregation cough, the reason being the same one which saved our forefathers from extermination."—New York Press.

Famous Floggers.

Among English schoolmasters whose names have come down to posterity with the dubious reputation of great floggers Dr. Busby of Westminster school is the generally acknowledged chief.

Of him it is recorded that, one of his head boys having insulted a young French viscount who came to the school to demand satisfaction, he flogged the viscount first for the bloodthirsty intentions and next his friend who was the bearer of his challenge.

Dr. Valpy, too, who edited an edition of the classics, was a potent wielder of the rod. Archdeacon Groom, who was a pupil of his, tells a story in illustration of his prowess. One of the boys had been flogged by the redoubtable dominie, and the lad's father came to complain.

"Sir," said Valpy to him, "I flogged your son because he richly deserved it. If he again deserves it, I shall flog him again, and," rising, "if you come here, sir, interfering with my [illegible] I shall flog you."

The parent fled.

A Famous Architect's Trick.

When Sir Christopher Wren was building the town hall of Windsor, a fidgety member of the corporation, so the story goes, insisted that the roof required further support and desired the architect to add more pillars. In vain did Sir Christopher assure him that the danger was imaginary. He knew better. The alarm spread, and the great architect was worried into adding the desired columns.

Years passed, and in later times, when architect and patrons were dead, cleaning operations in the roof revealed the fact that the supposed additional supports did not touch the roof by two inches, though this was not perceptible to the gazers below.

By this ingenious expedient did Wren pacify his critics, while vindicating his own architectural skill to future generations.

I'm Telling You.

Pat Murphy, who was in lodgings, was greatly annoyed by the landlady helping herself to his provisions. She began by taking a piece of his butter, and when Pat came home she said:

"Pat, I'm taking a little of your butter, but I'm not like other landladies—I'm telling you."

Next day it was an egg, and so on. Every day there was something taken and put off with the remark, "I'm not like other landladies—I'm telling you."

Of course there was never any reduction in Pat's bill. One Saturday his bill came to a larger amount than usual. Pat looked at it, bundled up a few things in his handkerchief, walked to the door and said:

"Landlady, I'm sloping. I'm not like other lodgers—I'm telling you."—London Answers.

Beautifully Arranged.

Brown—Well, you've got the quarter. Is your sister coming down?

"I've arranged it beautifully, old chap. I told her it was you first, and she said to tell you she was out, and then I said I was fooling and that it was Charley Jones, and you ought to have seen her hustle to get into a clean shirt waist! She'll be right down!"

Not Surprised.

Skipper—I am inordinately sensitive to uncongenial surroundings, so much so that the very sight of some people will give me a nervous shudder. Chipper—Oh, well, there are very few of us that do not shrink from meeting our creditors.

No Hitch.

"How did the wedding come off today?"

"Without a hitch."

"Glad to hear it."

"I said without a hitch. The bride backed out at the last minute."

Not Written.

"How do you write 'born?'" asked the teacher of a small boy at the blackboard.

"A born isn't written at all," answered the little fellow. "It's blowed." —Exchange.

Like a Bicycle.

"What does the doctor say is the matter with Mirandy?"

"He says she has pneumatic tendencies and that she is threatened with spiral trouble."—Baltimore American.

The man who saves when he has little is called stingy. He that saves when he has much is said to be judicious.—Chicago Record-Herald.

Beware of Ointments for Catarrh that contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Derbyshire, Box 384, Rochester, N. Y.

Pleased with the West

A letter was received by friends in Lindsay from Mr. R. J. McLaughlin, who is now at Brandon with Mrs. McLaughlin. He has enjoyed his trip very much so far, and was pleased with the ride over the new C.P.R. line to Sudbury on the fast Winnipeg Limited. Mr. McLaughlin intends to go through to Vancouver, where after a few weeks' stay he will return home. He will arrive back in Lindsay about the 1st of August.

Weak women should try Dr. Shoop's Night Cure. These soothing, healing, antiseptic suppositories go direct to the seat of those weaknesses. My "Book No. 4 For Women" contains many valuable hints to women, and it is free. Ask Dr. Shoop, Racine, Wis., to mail it. Ask the Doctor in strictest confidence, any questions you wish answered. Dr. Shoop's Night Cure is sold by all dealers.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

reserve may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at an Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead duties under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3) If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of a homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father or mother.

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line exclusive of the width of road allowances crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the agent for the district of such intention.

Six months' notice in writing must be given to the Commissioner of Dominion Lands at Ottawa, of intention to apply for patent.

W. W. CORY,
Deputy of the Minister of the Interior.

Tombs of the Patriarchs.

Except in all Palestine is so jealously guarded as the haram or sacred area built above the cave where, according to tradition, lie buried the bodies of Abraham and Sarah, Isaac and Rebecca, Jacob and Leah. This haram is inclosed within a double wall, an outer one of Arab workmanship, dating from the fourteenth century, and an inner very massive one with many buttresses, which competent authorities ascribe to the days of Herod's. No Christian or Jew is, except by very special permission, allowed within these walls. The most that unbelievers may ordinarily do is to ascend from the street to the seventh step on one of the staircases between the walls. At a spot near the north is a stone with a hole in it, down which, it is said, a long Bedouin lance can be thrust its whole length without finding any obstruction. This, the true believers, touches to the sacred rock itself, and—its neighborhood they assemble every Friday to mourn and pray, as they do before the wall of that other haram, the temple area in Jerusalem.—Philadelphia Ledger.

Proving His Honesty.

"You say you have confidence in the plaintiff, Mr. Smith?"

"Yes, sir."

"State to the court, if you please, what caused this confidence."

"Why, you see, sir, there's allers reports 'bout cattle' house men, and I used to think"—

"Never mind what you thought. Tell us what you know."

"Well, sir, one day I goes down to Cooken's shop and sez to the waiter, 'Waiter,' sez I, 'gives a weal pie.' Well, just then Mr. Cooken comes up, and sez he: 'How do Mr. Smith? What ye going to have?'

"'Weal pie,' says I. 'Good,' says he; 'I'll have one too.' So he sets down and eats one of his own weal pies right afore me."

"Did that cause your confidence in him?"

"Yes, indeed. For when an eatin' house keeper sets down afore his customers an' eats one of his own weal pies, no one can refuse to feel confidence. It was him to be an honest man."—London Scraps.

The Irresponsible Child.

Small Boy (to Phi Beta Kappa key bearing) from the minister's watch chain): Did you find it again, or is this another?

Minister: Why, my little man, what do you mean? I've not lost it.

Small Boy: Oh me! Ma said you had got the charm you'd taken you were engaged.

Saw Things.

"Can't trying to stop glasses. How do they look now? See them any better? Mr. Winnicore: Well, the green grass I can see fairly well, but that red elephant and the purple pedestrians are too much for my kinder blurred eyes."

She Lost Her Shoe.

While in Samoa Robert Louis Stevenson and his wife in a great measure did as the Romans did—that is to say, as the Samoans did. It was Louis' custom to lie abed late of a morning and spend the remainder of the time under a tree on the hill clad in light pajamas, the dress of the native Kanaka. With his wife it was the same. Stays were unknown to her and a curling iron a dim recollection of a shady past. It was while Stevenson and his wife were living at Apia, in Samoa, that Mr. Heywood was appointed consul there for this country. Shortly after his arrival in the country he arranged for a reception to the English, German and American residents of the country that they might meet him in his official capacity and he them as "citizens of Samoa." Of course an invitation was sent Robert Louis Stevenson and his wife. Two days before the date of the function Mr. Heywood was surprised to receive a note from Mr. Stevenson sent by courier. The note read as follows:

Mrs. Robert Louis Stevenson and Robert Louis Stevenson accept Consul Heywood's invitation with pleasure and assure him that they will be present on the evening of the 23d if by that time Mrs. Stevenson finds her other shoe. Ever thine, ROBERT LOUIS STEVENSON.

Ancient Fashion Jargon.

The language of the fashion plate and the woman's paper is sufficiently appalling to the mere man even in these days of emancipated and, we may presume, more grammatical womanhood; but, according to an extract from a fashion journal of 1787, the jargon of those days was even more astounding. This is how the paper described the dress of a certain Mlle. D. at the opera:

"She appeared in a dress of 'stifled sighs,' ornamented with 'superfluous regrets,' the bodice cut in a 'perfect candor' point and trimmed with 'indiscreet complaints.' Her hair was dressed in 'sustained sentiments,' with a headdress of 'sustained conquest,' ornamented with several 'byeways' and 'downcast eye' ribbons, and her collar was 'beggar on horseback' color."

No doubt all these marvelous terms conveyed some meaning to the fashionable woman of the days when French society danced on the edge of the volcano of 1789, but to their descendants of today they have absolutely no meaning.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn back the time of those again. That is impossible, but I can now surely kill the pains and pangs of this deplorable disease.

In Germany—with a Chemist in the City of Dusseldorf—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, it will surely cure all terrible pains of this horrendous much dreaded disease. Three small-like granular wafers, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no need—no actual excuse to suffer longer with pain. We will, and in confidence recommend

Dr. Shoop's Rheumatic Remedy

Flinty Plant Covers.

When Sir Humphry Davy was a boy about sixteen, a little girl came to him in great excitement:

"Humphry, do tell me my these two pieces of cane make a tiny spark of light when I rub them together?"

Humphry was a studious boy, who spent hours in thinking out scientific problems. He patted the child's curly head and said:

"I do not know, dear. Let us see if they really do make a light, and then we will try to find out why."

Humphry soon found that the little girl was right. The pieces of cane if rubbed together quickly did give a tiny light. Then he set to work to find out the reason, and after some time, thanks to the observing powers of his little friend and his own kindness to her in not impatiently telling her not to "worry," as so many might have done, Humphry Davy made the first of his interesting discoveries. Every reed, cane and grass has an outer skin of flinty stuff, which protects the inside from insects and also helps the frail looking leaves to stand upright.

Table Manners in Old France.

Could we restore for half an hour the dinner table of old France and obtain half a dozen instantaneous photographs of a royal banquet at any era between the reigns of Francis I and Louis Quatorze such a "cataract of laughter" would be heard as might disturb the serenity of Louis in paradise. The duchess, her napkin tied securely round her neck, would be seen mumbling a bone, the noble marquis surreptitiously scratching himself, the belle marquise, withdrawing her spoon from her lips to help a neighbor to sauce with it, another fair creature scouring her plate with her bread, a gallant courtier using his doublet or the tablecloth as a towel for his fingers and two footmen holding a yard of damask under a lady's chin while she emptied her goblet at a draft. During a feast of inordinate length it was sometimes necessary to substitute a clean cloth for the one which the carelessness or bad manners of the guests had reduced to a deplorable condition. —"An Idler In Old France."

The Midget Snakes.

"I see by your paper," says a correspondent, "that you want to find a man who can tell a snake story with the sound of originality to it. Here it is: Nearly forty years ago in the woods of Indiana I captured three snakes, each less than three and one-fourth inches in length, a combined length of less than ten inches, a little longer and a little larger in the middle than an old fashioned wool darning needle. Although these snakes were so small they would crawl around with their heads up and dart out their tongues like larger snakes. I put these reptiles in an eight ounce bottle, and they had plenty of room to crawl around on the bottom of it without crowding. These were not the kind of snakes generally seen in bottles, but genuine snakes. Among those who saw them was a minister of the gospel, and he had not been taking anything to make him see snakes either."—Emporia Gazette.

The Pirates.

The Chicago News fails to name the hero of this story, but has it that the visitor to the home of a well known Hoosier State author found his three youngsters romping in the hallway.

"What are you playing, boys?" he inquired.

"We are playing pirates," elucidated the smallest.

"Pirates? Why, how can you play pirates in Indiana? There are no seas bordering on this state."

"Oh, we don't need any seas. We are literary pirates, like pa."

And five minutes later a chorus of yells from behind the barn told that the hand that wields the pen can also wield the shingle.

Outside of His Practice.

"All that is the matter with you, sir," said the eminent physician after a thorough examination, "is lack of nutrition. You don't eat enough."

"I eat all I can hold, doctor," said the attenuated caller.

"Then you need to have your capacity enlarged, and that's a case for a surgeon. Five dollars, please. Good morning."—Chicago Tribune.

Overstudy.

Books are pleasant, but if by being overstudious we impair our health and spoil our good humor, two of the best pieces we have, let us give it over. I, for my part, am one of those who think that no fruit derived from them can recompense so great a loss.—Montaigne.

She Was Safe.

Little four-year-old Mabel was running downhill, holding her dress tightly.

"Be careful," called her mother, "or you will fall."

"Oh, no, I won't," replied Mabel, "'cause I'm holding tight to myself."

Not What He Meant.

Physician—Have you any aches or pains this morning? Patient—Yes, doctor; it hurts me to breathe—in fact, the only trouble now seems to be with my breath. Physician—All right. I'll give you something that will soon stop that!

Forbearance.

Bacon—Did you ever have any desire to go on the stage? Egbert—Oh, yes; only last week I did. Oh, the actor was vile! But I contented myself with shying an egg at him.—Yonkers Statesman.

I never listen to calumnies, because if they are untrue I run the risk of being deceived and if they are true of hating people not worth thinking about. —Montesquieu.

Sympathy.

"What made you kick Jimpson?"

"He called me an ass."

"Oh, well, kicking is a characteristic of asses, but I shouldn't think you'd want to confirm Jimpson's statement so quickly."—London Telegraph.

Why It Was There.

Aunty—Tommy, I put three pies in here yesterday, and now there is only one. How is that? Tommy—Please, it was so dark, aunty, I didn't see that one.—Punch.

The Great Northern Larder Lake Mining Company Ltd.

Incorporated on the 6th Day of June, A. D., 1907

The Great Northern Larder Lake Mining Company is incorporated by Letters Patent of the Ontario Government under the Ontario Companies Act.

AUTHORIZED CAPITAL $1,000,000

Divided into 1,000,000 shares of the par value of $1.00 each, fully paid up and non-assessable, and carrying no personal liability.

TREASURY STOCK, 600,000 SHARES.

HEAD OFFICE---404 McKINNON BUILDING, TORONTO, ONTARIO, CANADA

Maltby, Toronto, Cattle Dealer; Managing Director—C. C. Richardson, Toronto, Manufacturing Jeweler; M. Tromer, Toronto, Retail Furrier; David A. Foster, Haileybury, Miner; Solicitor—John A. Ferguson, Temple Building, Toronto; Bankers—Bank of Toronto, Head Office, Toronto.

A RAISE IN MINING STOCK

ALLOTMENT SUBSCRIBED.

The requisite amount of stock has been subscribed and paid in full to enable the Company to proceed to allotment and commence business.

RAISE OF MINING STOCK.

THE GREAT NORTHERN LARDER LAKE MINING CO., Limited, proposes to advance price of their treasury stock to Twenty-five (25c) cents on June 23rd. Last chance to buy at ten cents a share, par value One Dollar, fully paid up and non-assessable.

The foreman, Mr. David Foster, of Cobalt, has started to work on the Company's property with a gang of men to develop veins already discovered also to continue striping in search of new gold veins.

We are erecting boarding houses and dining-rooms for our men.

READ COPY OF CERTIFICATE AND STATUTORY DECLARATION CONFIRMING SAME.

Toronto, March 28th, 1908.

To the Great Northern Larder Lake Mining Company, Limited:—

Gentlemen,—

I beg to confirm my previous report to you that in my judgment the surface showings on the 14 mining claims which the Company has acquired, being Nos. H.S. 221 to H. S. 234, both inclusive indicate the probability of the existence of large bodies of both high grade and low grade free-milling ore, sufficient to pay dividends for an indefinite period.

I have personally examined a number of veins and reefs on said property (consisting of about 56c acres) and had some assays made and from such examinations and assays I make this report.

The statement on pages nine and ten of the Prospectus giving the geological history of the Company are correct. I insisted on retaining a large interest in the Company rather than sell for any price that seemed reasonable to the purchasers.

DAVID A. FOSTER,
Haileybury.

10 PER SHARE.

Par Value One Dollar fully paid Up and Non-assessable.

IN THE MATTER OF THE GREAT NORTHERN LARDER LAKE MINING CO., LTD.

Statutory Declaration.

DOMINION OF CANADA
County of York,
TO WIT:

I, David Foster, of the town of Haileybury, in the district of Nipissing, miner, do solemnly declare that the statements in the annexed certificate are true. I have personally inspected all of the fourteen claims now transferred to the Great Northern Larder Lake Mining Company, Limited. I have taken samples containing gold values from said property, and from my personal examination, and from assays made, I believe the Company's property when developed, will prove very valuable. I have full confidence in the success of the said Company, and on this account, with the exception of $100 already received, I have agreed to accept stock in said Company, and a note which I believe will not be of much value should the actual development work not prove the said claims to contain gold in paying quantities as it is not payable for one year from this date or until after the Company shall have done the necessary development work on said claims. And I make this solemn declaration conscientiously believing it to be true and knowing that it is of the same force and effect as if made under oath, and by virtue of "The Canada Evidence Act."

DAVID A. FOSTER.

Declared before me at Toronto, in the County of York, this 31st day of March, 1908. J. T. LOFTUS, A. Commissioner in H. C. J.

PROPERTIES TRANSFERRED.

Since the prospectus was printed, the sale of the 14 mining claims to the Company has been completed and the transfers to the Company are registered in the Recorder's Office at Larder City. There is no mortgage or other incumbrance against said claims.

OFFER IN PLAIN WORDS

$ 5.00 buys	50 shares, par value $	50.00	$ 10.00 buys	100 shares, par value $	100.00
20.00 buys	200 shares, par value	200.00	10.00 buys	500 shares, par value	500.00
100.00 buys	1,000 shares, par value	1000.00	500.00 buys	5,000 sharer, par value	5000.00

We earnestly recommend that you purchase the Great Northern Larder Lake Mining stock at 10 cents per share.

Fill in application form and forward and you will be on the upward move.

Fortunes have always been made by those who can see a good thing coming.

SUBSCRIPTION FOR STOCK

GREAT NORTHERN LARDER LAKE MINING CO., LIMITED,
Room 404, McKinnon Building.

Toronto 1908

Gentlemen,—

I hereby subscribe for..... shares of fully paid, non-assessable Stock of THE GREAT NORTHERN LARDER LAKE MINING CO., LIMITED, at 10c per share (par value $1), for which I enclose herewith $..... in full payment thereof.

COCOA

Sold by Grocers and Storekeepers in ½-lb. and ¼-lb Tins.

RAWHIDE-DULZURA

1 CENT A 2 SHARE

Send us your name as a member in this new company, with your remittance for as many thousand shares as you can take at $5 per thousand.

This is a short-time offer on a hurry-up proposition. Our vice president is up at Rawhide now putting the miners at work. We want to raise the necessary funds for development as quickly as possible. Therefore, we offer the first block of stock at $5 a thousand shares. This subscription must be all cash. We want the money in hand. We mean to work without let-up, and we have made it an inviolable rule not to run in debt. Cash counts now.

Our prospectuses are out. Send for one.

Make reservation of stock. If you do no more. But, remember, this present offer of stock at Half a Cent a Share is now open, and will be closed as soon as enough cash subscriptions are in hand. Don't wait, or you will get left.

The gold mining property owned outright by the company consists of 7 claims, 5 in the Rawhide district of Nevada, and 4 in the Dulzura district of Southern California.

The Rawhide district to-day is more famous than Goldfield, Tonopah, Bullfrog, or Searchlight were at the same stage of exploration and development. The Dulzura discovery is one of the most sensational in the history of California.

Ten samples of ore which were among the first assayed, run as high as $7,462.57 to the ton, and all ten averaged over $1,500 a ton.

In both camps we located early, and our locations are choice. Our own officers will superintend the mining.

Rawhide-Dulzura Gold Mining Company

122 West Third Street, Los Angeles, Cal.

Clean Up Inside

Blood and System Cleansing in the Spring Makes Good Health all Summer.

In spite of all your careful habits, its safe to say that in the spring you feel poorly—have a throbbing sensation in the head—skin is pale or yellow, with dark rings under the eyes. If not absolutely billous the system is so full of bile that you feel heavy and tired all day long.

Clean up, work off the winter's accumulation of waste, purify your blood. Do this and you'll feel fresh as a prize-fighter. "For ten years, says W. B. Sangster, of Concord, I suffered greatly from impure blood, which made me feel debilitated and unfit for work. I had no appetite suffered from indigestion and gas, had some pains in the back, caused by poor kidney action. Spring was the hardest time of all, and many a time I felt dependent and languid enough to throw up the sponge. I was impressed by the marvellous work done by Dr. Hamilton's Pills and tried them. They suited me exactly. In one week I felt like new. I was braced up, got rid of blood weakness, gained in flesh, got back my old time appearance and spirits. Dr. Hamilton's Pills will clean all the sickness out of a man in short order and I urge young and old to use this grand tonic medicine."

Dr. Hamilton's Pills are a perfect spring medicine; they destroy germs and poisons of every description and strength whereby the system rallies and the patient quickly enjoys the blessings of Perfect Health. Get Dr. Hamilton's Pills—to-day—25c at all dealers.

Kicked by a Horse

Yesterday morning Mr. W. H. Eastman, blacksmith, on Hunter east, was kicked by a horse. The horse was a very ferocious beast, and while shoeing in Mr. Eastman was kicked on the side of the head, being badly cut. He was removed to his home on Burnham street in the ambulance.

Port Hope Consulate Closed

The U.S. Consular office, Port Hope, closed to-day and the Consular agent, Mr. H. P. Dill, is transferred to the Consulate at Orillia. The Peterborough Consular agency, Mr. Frank Hill, agent, is now included in the Toronto district.

Come with the 57th Regiment Band and Firemen, the Old Brigade, to Idyl Wyld, Monday, July 6th. Two Steamers, full Military Band and Good Music for Dancing

Will Speak at S. A. Barracks

Special meetings are to be held at the Salvation Army barracks on Saturday evening and Sunday next. Adjutant and Mrs. White, of Toronto, will visit here and will speak at all services. They are connected with the financial work of the Army in Toronto. Adjutant White visited here last November and the meetings he conducted will be remembered and his visit here is being looked forward to with much interest.

Charge Not Made By the Ball Team

This notice, or hold-up (as it has been termed by some) at last Saturday's game has occasioned the Peterborough baseball team to some severe and undeserved remarks.

The charge of 5 cents to gentlemen for the covered grand stand was not made by the ball team but by the owners of the grounds, who believed it to be a fair and reasonable charge for the accommodation it affords, when other stands with similar accommodations are receiving 10 to 15 cents extra.

The Riverside Park so far as business proposition is concerned has been a losing venture to those interested ever since it was taken hold of by them. And they surely cannot be criticized very severely if they deem it necessary to place a small charge on the grand stand to assist in endeavoring to have the receipts come a little closer to balancing the expenses than in the past. The park owners are not raising any squeal, after investing a large amount of money in the park, now find a yearly deficit of several hundreds of dollars without adding anything for interest on the amount invested, and feel that an explanation only is necessary to place both the ball teams and themselves in the proper light before the athletic public. In any event the park owners assume any and all responsibility in connection with the matter of the charge that has been made.

Truman Dunn and R. N. Simpson were fined $25 each at Campbellford for having fish out of season.

Canadian Club Will Donate $50

A meeting of the Executive of the Canadian Club of Peterborough was held yesterday and a donation of $50 was made towards the Quebec Battlefields Fund. A committee was also appointed to wait on the city council to bring the matter before them to see what they could do for the same cause.

Personal

Mr. J. Batey, Toronto, is in the city for the holiday.

Mr. R. A. Morrison, of Winnipeg, is spending his vacation in the city.

Miss Edna Armstrong is spending her vacation with friends in Walkerton.

Mr. Harold Burns, of R. Fair & Co's staff is spending the holiday in Owen Sound.

Miss Beatrice R. Geddes, of Marmora, is the guest of Miss Mollie Meldrum, Fairview.

Miss Beatrice Dettsoul is the guest of Mr. and Mrs. Geo. S. Davison at Gravenhurst for the holiday.

Come with the 57th Regiment Band and Firemen, the Old brigade, to Idyl Wyld, Monday, July 6th. Two steamers, full Military Band and good Music for Dancing

Misses Gladys and Mabel Mackay of Toronto, are the guests of Miss Ruby Adamson, Stewart street.

Miss Marion Brandon, 199 Beverley street, Toronto, is the guest of Mr. and Mrs. Thomas Brown, McGill st.

Mrs. N. Fitzgerald has returned to her home in Hamilton after visiting her sister Mrs. Preston, Monaghan street.

Rev. Father Sherry, O.M.I., professor of Greek in Ottawa College, is in the city, the guest of the local Catholic clergy.

Mr. and Mrs. R. J. Wren have returned to the city after spending a few days at their cottage, "Yarrowbrae," Stony Lake.

Mrs. S. Kemp has returned after attending the funeral of her brother-in-law Mr. E. W. Evans, of Little Falls, New York.

Miss Olive Stevens has returned to Brooklyn, N.Y., to resume her studies as nurse in training at the Brooklyn general hospital.

The passing out of the Old Fire Brigade was celebrated last night by a procession, headed by the Band, parading the streets.

Dr. J. E. LeRoy Richmond, graduate in dental surgery of the University of Michigan, is visiting at the home of his parents, Mr. and Mrs. J. L. Richmond. He took at the University of Michigan a very thorough, it being the only American university whose diploma entitled the holder to practice on the Continent of Europe.

Rosy Cheeks

The Ambition of Every Woman

Hollow cheeks with dark lines, sallow complexion—how a woman hates them!

But rosy cheeks, clear skin, bright eyes—give them to a woman and she is happy.

In the blood is found the first sign of trouble.

It grows thin and watery, its color fades, and the coming pallor and weakness gives the outward evidence of the change within.

Soon the nerves weaken, the heart easily tires and palpitates, strength declines.

The delicate mechanism of the womanly functions is interfered with, and pleasures, activities and even duties are loaded down with the burdens of declining health.

Why is it that women neglect the first warnings?

Usually she waits till she is ready to drop—often then it's too late.

These conditions are easily checked, easily cured at the beginning—but even when long established Ferrozone will remove the cause and cure the trouble.

Ferrozone's action aids the three principal functions of the body—digestion, assimilation, elimination.

By strengthening digestion it forms an abundance of rich, red blood—this gives good color.

By perfecting assimilation, Ferrozone supplies nutrition—this gives strength, vim, stability.

Elimination is assured because Ferrozone quickens the actions of the liver, kidneys and bowels—this guarantees the maintenance of vigorous health.

Ferrozone puts you on the right road—the one that leads to health.

Not a man, woman or child needing blood, vigor, endurance—not a person who is weak, nervous or sickly, but a person in ill-health who won't receive immediate help from Ferrozone.

As a tonic and restorative, as a health-bringer and body-builder, Ferrozone is unrivalled. It cures because it feeds and nourishes, because it contains the elements that build up and strengthen. Try it yourself—sold everywhere in 50c boxes.

THE SICK MADE WELL

WITHOUT Hercules Sanche MEDICINE

Copyrighted 1907 by Dr. Hercules Sanche All rights reserved.

Precious Life and Health can be Saved By this New Method

All Sickness is Alike to

OXYDONOR

It applies to all cases, no matter what the form of disease may be. It revitalizes the human body with OXYGEN from the air. OXYGEN is a vital Necessity—the greatest necessity life knows.

You can apply Oxydonor at home while you rest or sleep. No loss of time from your work or business. It is easily applied safe, and always ready for use. Its force never exhausts. It will serve the family, children as well as adults.

Mr. Wm Beers, 196 York St., Toronto writes: "I have great pleasure in recommending your Oxydonor. When I first got the instrument I was suffering from Sciatica for about four months, and after applying it for five weeks it left me quite at once and have not been troubled with it since. I can highly recommend it as a good family doctor, and would not be without it for double the price."

DR. H. SANCHE & COMPANY

364 St. Catharines Street, West - - Montreal, Canada

To Canadian Investors

The undersigned has received an allotment of unsold portion of $100,000 of

7 Per Cent. First Mortgage Five-Year Gold Bonds

dated January 11, 1908, and maturing January 11, 1913. These Bonds are offered at par and accrued interest by Metropolitan Trust & Savings Bank, Chicago, trustees.

SECURITY—The Entire Property and Improvements Owned THE URES CONSOLIDATED MINING COMPANY in the District of Ures, State of Sonora Mexico. Free from Mortgage or Bonded Indebtedness except this present Bond Issue.

An Unusual Opportunity for Investment in Sound Security

The Ures Consolidated Mining Company offers $100,000.00 of First Mortgage Gold Bonds. This issue of bonds is the only mortgage or bonded indebtedness existing on the company's properties.

These bonds are in the denomination of $100.00, and bear interest at the rate of 7 per cent. per annum, payable semi-annually, July and January, and are redeemable on or before five years from date at the company's option at $110.00 and accrued interest.

$100.00 Stock Bonus Given with Every $100.00 Bond

With each bond issued there will be given $100.00 par value of the capital stock of the company as a bonus, and in addition thereto there will be placed in escrow with the Trustee additional stock which will be available to the bondholders at their option any time within a period of three years, the bondholder being entitled to surrender his bond any time within said period and receive in lieu thereof stock for every dollar of indebtedness to him on account of said bonds.

The Security Back of these Bonds

The company owns twelve claims situated in the district of Ures, State of Sonora, Mexico, free from mortgage or bonded indebtedness, except the present bond issue.

On one of these properties (The Ramona Mine) 5,000 feet of underground development work has been done, consisting of an inclined shaft to the depth of 400 feet with drifts in three levels to the North and South of the shaft.

An average value of ore worth $11.47 per ton is exposed throughout the mine, from the collar of the shaft to the extreme parts in the drifts, all of which is above water level.

The company has made surface improvements and mine improvements to the extent of $40,000.00 in the way of machinery, skids, frame, steam hoists, mill and nearly everything necessary to make the mining camp complete.

In addition to the absolute ownership of these twelve valuable claims the company has a lease on the San Jose Mine, adjoining its property, in which the company has been operating in high grade ore.

During the past sixty days he company has extracted and delivered to ore buyers and the bank at Hermosillo, $2,000.00 worth of ore and bullion, the ore having been reduced to bullion through the company's mill, with the exception of 1,454 pounds, which was sold to an ore buyer for $562.50.

The Money Derived from the Sale of These Bonds

This issue of bonds is made for the purpose of securing money at once in order to extend the development work more quickly than the company's present means will permit.

With the high grade ore in sight to the distance of 80 feet to the South of the shaft, the management is assured that within six months from date of making the improvements now necessary the company's properties will be on a self-sustaining and dividend-paying basis.

The Stock which is Given with these bonds will be as valuable as the bonds when the Company has the ready capital to push operations

Men who invest in these bonds will have no cause or reason to regret their action, for the bonds afford an investment in a security which is absolutely safe—much better than ordinary city or country real estate, which is considered perfectly safe if the property put up to secure a mortgage is double the face of the loan. The security given on these bonds is better than 7 to 1, for the Ures Consolidated Mining Company has refused an offer of $750,000.00 for the property upon which this $100,000.00 worth of bonds is issued.

These bonds are an investment with all speculative risk eliminated—an investment with absolute security.

Make your reservation at once. This is small and promises to be quickly sold.

CAPITAL $1,500,000 RESERVE $950,000

Banco de Sonora,
Hermosillo, Mex.,
Feb. 11th, 1908.

To whom it may concern:—

We hereby beg to state that The Ures Consolidated Mining Company has during the past five years made several deliveries of bullion to this bank, and it is the opinion of mining men here that they have the making of a fair mine, and further, that the properties owned and controlled by them bid promise of becoming paying properties.

From our knowledge of the men connected, we believe they are doing all in their power to bring about the results above mentioned.

Respectfully,
BANCO DE SONORA,
Max Muller, Gerente.

A Trip Through the Holy Land

Continued from page 1

we approached it, seemed to be a beautiful city, its countless domes and minarets shining in the sunlight, but on landing we were disappointed at the condition of the streets, which are infested with dogs who are the city scavengers. They lie about the streets all day, and it is considered to be a crime to kick or disturb them. At night they do their best to clean up the refuse thrown into the streets by the householders. It is said that there are more than 30,000 dogs in the city.

On Sunday, March 1, we sailed through the Bosphorus to the Black Sea. We had a grand view of the summer palaces of the Sultan and various members of his family, also the summer homes of the various foreign ambassadors and wealthy residents of Constantinople. The steamer turned around in the Black Sea, re-passed the city and steamed away for Smyrna, where we arrived the following day. This is the chief city of Asia Minor. It was most interesting to watch the arrival of camel trains from the interior laden with bales of rugs, fruits and spices. From here quite a party went for a day's trip to Ephesus, and stood where Paul stood for two hours trying to make himself heard against the furious and howling mob which was at the last appeased only by the authority of the town clerk. (Acts 19.)

Here was the place on Mount Pagus of the martyrdom of St. Polycarp, the second bishop of Smyrna, whose last words, when pressed to recant his faith in Christ, have become famous: "Eighty and six years have I served Him, and He has never done me wrong; how then can I blaspheme my King. That saved me." Our first view of Palestine was on the morning of March 3, as we approached Caifa, the Haift of olden times. Here we landed in small boats manned by excitable Arabs, and after walking through the market place of the old town, procured a carriage and ascended Mount Carmel to the cave where Elijah resided during his stay in that vicinity. It was on this mountain that Elijah built his altar and received the sign from God in the burning of the sacrifice and slew the 450 prophets of Baal. (I. Kings 18.)

Jaffa, or Joppa. Here we took our suit cases ashore with us for a stay of five days. Here Hiram, King of Tyre brought the cedars of Lebanon for the building of the temple. Here Jonah came to find a ship in his attempt to flee from the presence of God. Here is the house of Simon the tanner (Acts 9, 34.) from the roof of which Peter saw a vision, and the home of Dorcas, and by the look of the people and children I would say there is plenty of room for Dorcas societies there at present.

The Rose of Sharon

Leaving Joppa by train, we passed through orange groves laden with that fruit for which the place is famous, on to the Plains of Sharon which when we passed along were covered with the flower, "Rose of Sharon." We passed Lydda, then Ramleh with its historic tower. It was here that Samuel judged the people and the children of Israel asked for a king. Next through Ekron, the northern boundary of Philistia, and Zorah, the birthplace of Samson, and through the country over which the foxes ran after Samson had tied the firebrands to their tails, then through the valley of Sorek, where Samson met Delilah.

A stop at a station called Bettir, known as Bether in ancient times, famous as the scene of the last triumphs of the Jews in their war against Hadrian—A.D. 135. Leaving here the line runs beside Ain Hanieh, or Philip's Fountain, the traditional scene of the baptism of the Ethiopian eunuch.

At Jerusalem

We reached Jerusalem railway station, about a mile outside the walls, and drove over a very dusty road to our hotel. Our hotel experience was not what might be called a satisfactory one. They are all cold and cheerless, built of stone, with flag stone or marble stairways and floors, and although the evenings and nights in the winter season are quite cold, they are not heated, with the exception of a saloon or sitting-room. After seeing to our baggage, we started out to get our first impressions of the most famous city of the world.

Jerusalem proper is surrounded by a wall, in places seventy feet high, two and a half miles in circumference, and has thirty-four towers and seven gates. The gates are all in use excepting the Golden Gate, and it is said the Moslems believe that at some future time on a Friday a Christian conqueror will enter the Golden Gate and take Jerusalem from them.

The streets at first seemed intricate, but we soon learned to find our way about. It is not possible to drive within the walls as every street has more or less steps, and most of them are so narrow that a carriage could not pass along. From what I had read, I expected to find a dirty city, and was agreeably surprised to find it clean, considering the congested state of the population. We entered first through the Joppa Gate, past the ancient Tower of Hippicus, and immediately came into contact with a mixture of population such as we had not seen before—Jews, Greeks, Armenians, Kopts, Turks, and representatives of every eastern country. It was the month before Easter and pilgrims were arriving daily from all points.

The Via Dolorosa

We passed along the Via Dolorosa from the Chapel of Scourging, underneath the Ecce Homo Arch, where, it is stated, Pilate placed our Saviour, exclaiming, "Behold the Man." Along this road it is said Christ carried the cross, and several stations along it are marked with small chapels or shrines, at every one of which the pilgrims worship, prostrating themselves and kissing the stones on which they believe Jesus Christ once trod. The Via Dolorosa ends in the Church of the Holy Sepulchre. This is, in fact, a cluster of churches, chapels and shrines built at different periods, but now covered by one roof. It is the belief of millions that on this spot was Mount Calvary of old, where the three crosses arose and where the tomb of Jesus was hollowed out of the rock. St. Helena, the mother of Constantine the Great, it is said, discovered the true cross, and on the site built a memorial church of Byzantine splendour. All the religious bodies except the Protestants have their own portion or chapel and worship under one roof, but the Holy Sepulchre itself belongs to them jointly. Each sect has its own lamps there, and services are held at different times by arrangement. Turkish soldiers are always on guard inside and outside to keep order. Riots have occurred at different times, principally among the pilgrims.

The Haren

Perhaps the principal sights in Jerusalem is the enclosure, called by the Moslems, the Haram containing the Mosque of Omar, and the Mosque El-Aksa. The Temple area consists of an enclosure of thirty-six acres or about one-sixth of the entire space within the city walls. Here is the site of Solomon's Temple and Palace and here on Mount Moriah is the stone on which Abraham attempted to offer up Isaac as a sacrifice; here Elijah and David, Jesus and Mahomet have prayed, it has been a chosen spot for the worship of God under one or other of its numberless names from the earliest of antiquity. The Dome of the Rock is principally constructed of materials that had been used in older edifices and portions of it are pointed out as having belonged to the first temple. The Ark of the Covenant is supposed to be buried in the enclosure, on which account no Jew would venture to cross the threshold of the Mosque of Omar, lest he should unwittingly profane the Holy of Holies by his tread.

The Moslems believe that Mohammed made his last prayer on this Rock and that when he went up to Heaven the stone attempted to follow him, but it was kept back by the Angel Gabriel whose finger marks are pointed out.

Around the Walls of the City

We went around the walls of Jerusalem on donkeys; this was our first experience with this patient animal. We passed out of the Jaffa gate, down through the valley, past the hill of Evil Counsel, past Absolem's Tomb, at which pious Jews to this day throw stones as they pass, because he attempted to overthrow his father's (David) rule. Through the Valley of Jehoshaphat, over which the Moslems believe a wife will be stretched on the day of judgment from the wall around the Mosque of Omar to the Mount of Olives; on this slender bridge the souls of the good will safely pass over and enter Paradise while the bad will fall midway into the valley where the mouth of hell will gape wide for them.

Outside of the Damascus gate is a hill on one side of which there are openings in the rock which give it the appearance of "the place of the skull." This is called by the Jews "The place of stoning," and here is what many modern scholars believe the site of the true Calvary; here is also the supposed tomb of Joseph of Arimathea, in which our Saviour was laid. We stood in the garden outside of the tomb where Mary stood and when she asked of Him, thinking He was the gardener, "Tell me where you have laid Him." We stood inside of the Tomb and mingled feelings of awe and reverence came over us that were not experienced at any other portion of the Holy City. The summit of the hill is used now as a Moslem burying ground and no Christian is allowed upon it.

The Trip to Jericho

Our trip to Jericho was most interesting and exciting. Leaving the hotel at an early hour in a carriage drawn by three Arab horses, we started out on the identical way by which "a certain man went down from Jerusalem to Jericho," and while we were not set upon by thieves we had experiences in the breaking down of our carriage and harness that were interesting and exciting. One of these stoppages occurred on the hill as we were about opposite St. Stephen's Gate and approaching the Garden of Gethsemane, and while our driver returned to the city for repairs to the harness, we had an opportunity of watching the arrival of a number of Russian pilgrims who were returning from the Jordan, and who on reaching the spot where Stephen was stoned, knelt down and kissed the stones many times and then passed in through the gate.

While it is only about thirteen miles in a straight line from Jerusalem to Jericho, the distance by road is twenty-three miles. After passing Gethsemane and the Mount of Olives the country is extremely hilly and barren. Some grain is grown in spots, but there are no trees whatever. We stopped to rest the horses at the Good Samaritan's Inn. It was to this spot that the wounded man was brought after his wounds had been bound up. As we approached the plains of the Jordan the road became very rough and steep and it was necessary for us to get out and walk for about half a mile, while the drivers skidded the two hind wheels of the carriages as the brakes were not sufficient and the horses could not hold them back. We reached Jericho shortly after midday; had lunch at the Hotel Belle-view.

The Dead Sea

Early in the afternoon we started across the plains for the Dead Sea. It was now very hot. The level of the Plains of the Jordan is 1,300 ft. below the Mediterranean and 4,000 ft. lower than Jerusalem; at present they are practically a barren waste, but could be made fertile by irrigation. For half a mile or more around the Dead Sea there is absolutely barrenness, nothing but sand dunes. It is hardly possible to conceive of such a scene of desolation. After a short stay on the shores we drove to the Jordan, to the spot where the Israelites crossed and where Christ was baptized. I do not wonder that Naaman objected to washing in the Jordan when there were rivers in his own country, the water is turbid and the current is very swift. The distance across was about one hundred yards and the banks were lined with trees of various kinds. To this spot thousands of pilgrims come annually, bringing a white garment with them in which they are immersed in the river after which it is carefully dried and put away to be used again at burial.

Israel's First Camp

Returning to Jericho we passed Gilgal, Israel's first camp in the land of Promise, and where the first Passover was kept. Samuel anointed Saul King here. Then passing many camps of Bedouins we entered the so called City of Palm Trees, where the spies were sent to and from which Rahab helped them to escape. The site of Jericho at the time of our Lord is on the banks of the brook Cherith at the foot of the Mountains of Judea and the Valley of Achor. We drove over to the old site and to Elisah's Fountain, where the waters were healed by Elisah (II Kings, 2; 21.) and where recent excavations made by a Dutch Society have revealed what is believed to be a portion of the original wall that fell down when the priests blew the ram horn trumpets.

The waters from Elisah's spring are carried down through modern Jericho and is used to irrigate a small portion of land on which is grown bananas, oranges and palms.

The Return Journey

Our experience over night in the hotel was not satisfactory; the "enemies of repose" made themselves felt. So after an uncomfortable night and without breakfast, for it was impossible to eat what was put before us, we started off at daylight on our return journey. At the foot hills we had to get out and walk a considerable portion of the road which we had the day before also walked over, passing in full view of the Mount of Temptation, "Jebel Karantel" where it is said Christ fasted 40 days and 40 nights, and where it is said He was tempted by the devil. And while we carried here we turned and saw the sun rise on the other side of the Dead Sea, apparently coming up from behind Mount Nebo, and we could imagine the feeling of Moses as he stood there and saw the land of Promise before him, beautiful as it well cultivated plains and prosperous cities. We then passed along beside the Brook Cherith where Elijah was fed by the ravens. A monastery and church are built on the spot by the Greek Orthodox Church.

Passing again the Good Samaritan's Inn we reached the Apostles' Fountain at the south-eastern slope of Mount Olivet on the boundary between Benjamin and Judah. It is said that Christ came here to instruct the Apostles, and they drank of the water, hence the name. Before reaching Bethany on the top of the hill, is another Greek Church to mark the spot where Martha met Jesus.

Bethany is in Ruins

Bethany at the present time is a ruined and repulsive place. Whether it is the site of the town of Martha and Mary, and where Christ raised Lazarus to life, it is hard to say, but certainly along the slope of Mount Olivet our Saviour dwelt and from here the colt was taken on which Christ made his triumphal entry into Jerusalem. The supposed site of the Garden of Gethsemane is on the west side at the foot of the Mount of Olives; a small plot is enclosed by an iron fence. This contains several very old olive trees and beds of flowers. The rock where the disciples slept during Christ's agony is close to the entrance.

A trip to Bethlehem from Jerusalem is one that every traveller takes. The road is good and passes the reputed Tomb of Rachel, much visited by pilgrims and reverenced by Christians, Moslems and Jews alike.

At Bethlehem Christ was born and in Bible history it is associated with the romance of Ruth and the youthful home life of David. Here the people seem happier, and the children certainly cleaner than any other part of Palestine we had visited. There is little doubt that the Church of the Nativity stands on the spot where Christ was born. The exact spot is marked by a star in the nave, where thousands prostrate themselves and kiss the sacred spot. The church was first built A. D., 330. Jerome fully believed that this spot was authentic and the cave where he spent so many happy and useful hours well repays a visit. We walked through the small town and out to the fields where Ruth gleaned and where David sang inspired songs among his sheep. The inhabitants are employed chiefly in preparing articles of olive wood and mother of pearl for sale to visitors.

The Mount of Olives

We went out to the Mount of Olives and here witnessed a service in a Greek church at its summit. We saw the Lord's prayer painted on the walls of a building in 32 languages. We looked down the hillside over the way by which Christ travelled mounted on the colt obtained at Bethany, and just while here the sun was setting on the farther side of Jerusalem, we could vividly imagine Christ weeping as he came in sight of the Holy City. (St. Luke 19; 41). We lingered here for quite a time and as we were quietly driving back to Jerusalem, each one filled with his or her own thoughts, we beheld the shepherds in their picturesque garments which have not altered in all these years, bringing their little flocks of sheep to the fold, each walking ahead of the sheep and with a little tired lamb in his strong arms.

Mr. Matthews, in concluding, dealt with incidents of the return journey.

With these experiences our visit to Palestine and Jerusalem is practically ended. We returned by rail to Joppa and then embarked for Egypt. We had some discomforts and saw many sights that were not pleasing; the persistency of the beggars and the awful wretchedness of the lepers will not soon be forgotten. Personally, I was pleased, indeed, at having the opportunity of visiting these lands, and the pleasure was very considerably enhanced by having my wife and three other charming young ladies, all from Peterborough, along with me.

BIG G CURES in 1 to 5 days. Guaranteed not to stricture. Prevents contagion. THE EVANS CHEMICAL CO. CINCINNATI, U.S.A.

MEN AND WOMEN. Use Big G for unnatural discharges, inflammations, irritations or ulcerations of mucous membranes. Painless, and not astringent or poisonous. Sold by Druggists, or sent in plain wrapper, by express, prepaid, for $1.00, or 3 bottles $2.75. Circular sent on request.

Over Five Million Feet of Lumber Burned

Victoria Harbor, July 2.—A disastrous fire broke out here yesterday in Turner's lumber yard, and in spite of every effort to check the flames all the contents of the yard, including between five and six million feet of lumber were consumed. For a time it looked as if the mill would be burned also, but this was saved.

Part of the lumber burned was owned by the Turner Lumber Company, but as Mr. Turner is out of town the amount cannot be ascertained.

The cut was valued at between $125,000 and $150,000 at the mill, and is fully covered by insurance.

The origin of the fire is not clearly known.

Waubaushene, July 2.—A fire started in the lumber yard of A. G. Chew Tennessee, about a mile and a half from this village, at 2.25 a.m. July 1st, destroying the following.

Approximately, 7,000,000 feet of lumber.
2,600,000 lath.
3,000 railway ties.
50,000 broom handles.
13 Grand Trunk cars.
11 trams cars, two 10-foot trams
Origin of fire unknown.

Celebrated Dominion Day by Leaping 200 Feet Into Niagara

Nervy Feat of Robert Leech of Chippewa to Celebrate Dominion Day

Risked His Life for $150

Niagara Falls, Ont., July 2.—More than two thousand people who had gathered at Niagara Falls yesterday witnessed a sight never before seen at Niagara. This was the plunge of Robert Leech, of Chippewa, Ont., from the upper steel arch bridge to the surface of the lower river.

It was just 1.10 o'clock when Leech sprang out from the railing of the bridge and dropped swiftly towards the current 200 feet below.

As he fell he opened a large parachute, which checked his speed and in less than a half minute he had made the descent and he struck the water with a softness that hardly caused a splash. That it was in no way overcome was evident from the fact that he quickly struck out to swim, and within a few minutes friends in a row boat had picked him up and taken him to the Canadian shore, where he was greeted with cheers.

Leech is 45 years old, and about ten years ago attempted to win fame here by the rapids trip. It has since been abroad. Those who knew of his rapids performance did not think he would make the flight. It is said he will repeat it, if permitted, on the 4th.

Years ago another party dropped from the same level, assisted by a rubber cable that broke the fall, but no person has ever made the leap unaided and lived.

HIGH WIND BLEW

A high wind was blowing from the east when Leech walked on the bridge from the Canadian side, accompanied by Harry Williams, proprietor of the Lafayette House.

The wind caused much trouble in arranging the parachute, the big umbrella being blown from its fastenings twice, and was secured only through the combined efforts of two men. While the preparation of the parachute was under way, Leech became impatient, and some men in the crowd irritated him by shouting, "Jump!"

When the parachute broke the second time in the high wind, Leech, who is an expert swimmer, talked about jumping without a parachute. The umbrella was quickly fixed, however, and it was raised to a small platform extending off the bridge. Leech grasped the release cord with one hand and the ring with the other and yelled, "Let go!"

PARACHUTE STICKS.

The man went for 30 feet like a flash, but his descent was halted when the umbrella opened in the wind and veered his course toward the Canadian side. Within a few feet of the water Leech made ready to alight from his perch, and he got off in fine style. The rowboats were about 1,000 feet north of the bridge, the boatmen figuring that the wind would carry Leech that far at least.

He was not 100 feet from the bridge when he struck the water, and the boats were rowed to his side promptly. He kept his head above the water by floating. The parachute was red, white and blue, and bore advertisements. The jump netted Leech $150. It was a hazardous jump on account of the outlet of the Niagara Falls Power Company, which is just below the bridge, and because of the high wind. A cheer went up from the throng along the bank when Leech struck the water. He was pulled up and carried to the Maid of the Mist land.

Just as the parachute sprang from its fastenings the heavy iron pole where it was jointed broke and fell to the sidewalk among the spectators, but no one was hurt.

PHONEY MARQUIS DEAD

FASCINATED IMPRESSIONABLE WOMEN OF THREE CAPITALS.

Was Great Masquerader — Had Picturesque Figure and Great Ideas—Hunting For Heiresses—Swindled Them Out of Huge Sums—Gulled the Parisians With Tall Stories of His Wealth.

There has just died at Brighton, a veritable prince of dandies, who masqueraded for twenty years as the Marquis de Leuville, knowing full well that he was only the son of a penny-a-shave barber, and knowing also that many people were aware of his lowly origin. He was one of the oddest characters that ever strutted upon the world's stage. London, Paris, and New York knew him well and regarded him as a tolerable imposter, whose vanity and "bluff" added to the gaiety of nations.

In hundreds of female hearts he lit the flame of adoration by the glamor of his personality and the daring with which he conquered gallantes, impressionable spinsters. He wrote silly, sickly verses to maidens young and old, borrowing money with one hand and spending it lavishly with the other. Comic opera never portrayed a counterpart to this dashing, swaggering, self-styled marquis, and real life will not soon look upon his like again.

Tall as a guardsman, broad-shouldered, square jowled, an amplitude of jet-black oily ringlets that rippled round each side of his neck, under a broad-brimmed, low-crowned hat; pegtopped trousers, and a flowing frock-coat; luminous rolling eyes, that fascinated women as the glare fascinates moths; and in his pink-gloved hand a clouded cane, which had the unfounded reputation of being the dreaded sword stick with which the mock marquis has done terrible execution for love and honor in other lands.

He boasted of his duels, but he never fought one in his life. His chest was only another proof of this romantic pose. Beneath his waistcoat he wore a tin breastplate, which, he confided to fair women in mysterious moments, he wore to save himself from assassination at the hands of jealous men.

Yet withal he was a man of ideas, and to some extent he was a man of action. And so, tiring of the little lot with which fate had provided him, he first burst upon the life of New York in 1886 as the Marquis de Leuville.

In those days New York knew little of marquises. In effect he said, "I am the Marquis de Leuville. Come and interview me." So the marquis was interviewed, boomed, and made famous. To a great extent he out-Americaned the Americans. So imbued did he become with the spirit of New York that he hired his own press agent, and set out on a tireless campaign of advertising himself. His success was immediate and tremendous.

Establishing himself at the Hotel Victoria in Fifth avenue, then the most fashionable hotel in New York, he made no secret of the fact that he was in search of an heiress.

The heiresses were not shy. A certain lady in society fell passionately in love with him, and wrote pages and pages of letters of the most tender and romantic description. The marquis showed these letters to particular friends he had made.

Among those friends were men who, doubting the marquis' bona fides from the first, did not hesitate to speak to the ubiquitous New York reporters.

Soon, therefore, his history had been hunted out; his popularity waned, but undaunted, he set out for Paris, determined that though the New York newspapers might call him William Oliver, the son of a barber, he would still be a marquis in the most exclusive capital of the world.

His temerity was justified. He found that it was quite easy in those days to call oneself an English marquis in Paris, and to obtain both honor and credit. Then Paris found him out, and he was reduced to the expedient of traveling back to London to describe himself as a marquis of France.

London was more credulous than Paris. It was in 1890 that, thanks to his carefully thought-out mode of dress and almost scientifically calculated pose of manner, he established himself as the Marquis de Leuville.

STOLEN BRIDE'S RETURN.

Wild Scenes at Reunion in Ireland—Light Huge Bonfire.

Robert Flynn, of Ballinagleragh, county Leitrim, and his bride, who were boycotted because they were married before a registrar against the wishes of the priest, have been reunited after a two months' separation. After the marriage on March 16, a mob of thirty disguised men broke into Flynn's house and carried away the bride to her father's home. Since then bride and bridegroom have been kept apart, armed men maintaining a blockade of Flynn's house.

Recently the parish priest, Father King, called on Flynn and told him that the ceremony would take place the next day. The long-separated couple accordingly met and were united according to the rules of the Catholic Church. As Flynn's bodyguard there came a motley crowd mounted on mountain ponies and armed with every description of farming implement.

Another escort, also mounted and armed, accompanied the bride, but both escorts were ordered to remain outside the chapel while the ceremony was going on. They leant on their arms, eyeing one another with no friendly feelings, and apparently spoiling for a fight. The tension was relieved by the appearance of the married couple. Some of the rustic orators delivered speeches as to the necessity for a cessation of hostilities, as the Church and the people of the district had now been satisfied by the penance imposed on Flynn. Cheers were then given, the rival factions shook hands, and the guests adjourned to the bridegroom's house for the wedding feast.

About two o'clock in the morning, when the merrymaking was at its height, a score of masked men entered the house and indulged in the wildest display. They kissed the bride, drank deeply, and, having practically cleared out the place and broken up the festivities, lit a huge bonfire outside the house, tearing down the greater part of the thatch of Flynn's house to feed the flames.

Flynn accepts all as the natural state of things, and seems proud of the victory he has gained over the forces arrayed against him.

STOLEN GEMS WERE PAWNED.

But Have Been Redeemed and Restored to Dublin Castle.

A recent London cable says:

Though Scotland Yard disclaims any knowledge of the transaction, and though Chief Secretary Birrell has diplomatically denied it in Parliament, it can be stated as a fact that the stolen regalian jewels are back in Dublin Castle.

The jewels whose theft from the office of the Ulster King-at-Arms in Dublin Castle was discovered in July, 1907, have been released from a pawnshop in London for over $50,000, their value has been set down at $200,000, and have been taken to Ireland by the senior member of the firm of pawnbrokers.

It is understood that the money for the release of the stolen regalia was put up by a newly-created nobleman who has been given a household berth for the accommodation.

It was hoped that this translation would definitely close the unhappy and mysterious affair. To the contrary, it seems to have given it new life, and now an Irish barrister, a kinsman of Sir Arthur Vicars, has applied to a magistrate for an arraignment of the Viceroy and Chief Secretary of Ireland on the charge of compounding a felony. Of course, the magistrate refuses to give the barrister a hearing, and the English papers do not even give his name.

Pierce O'Mahony, the half-brother of Sir Arthur Vicars, has never faltered in his belief that his kinsman, in addition to having been dismissed for negligence in office, has been allowed to lie under a stigma of disgraceful and sordid conduct, and, further, that he has been made a scapegoat to shield a lot of disreputables who have brought shame to Dublin Castle circles.

Second Sight.

One night a party of soldiers were telling stories of thrilling adventures, wonderful spectacles, marvelous sight-seeing experiments, etc., gathered around the camp fire in the Transvaal. An Irishman had listened with open mouth, staring eyes and bristling hair at the adventures and miraculous escapes of his comrades in arms. Then, clearing his throat, the Irishman said:

"No doubt, me boys, ye have seen some wonderful sights, but me sister used to squint so bad that when she wanted to read a newspaper she had to buy two and hold one in each hand, about the length of a bayonet apart, and even then she has sometimes discovered her eyes looking into each other over the bridge of her nose."

Princesses Who Work.

The Duke of Schleswig-Holstein-Sanderburg-Glucksburg believes that every woman should be competent to earn her own living if necessary, and each of his daughters has a certificate for some trade or profession. The youngest, Princess Caroline Mathilda, has just finished a course in typewriting and stenography. Her eldest sister, Victoria Adelaide, now the wife of the Duke of Saxe-Coburg, was graduated a few years ago from the Berlin Royal School of Cookery and has received a diploma in all that pertains to the kitchen. Princess Alexandria is a miniature painter. Princess Helena is a trained nurse, and Princess Adelaide is a kindergarten teacher.

His Way Out.

A certain Irish member of Parliament, popular and a bachelor, had been polite to the daughter of the house where he was visiting. When the time came for him to go the too anxious mamma called him in for a serious talk. "I'm sure I don't know what to say," she went on. "'Tis reported all around that you are to marry Letitia."

"Just say that she refused me," quietly advised the Parliamentarian.

London, July 3.—Henry Arthur Cadogan, Viscount Chilston, is dead. He was born in 1868.

ROLAND BOSWELL JOINED THE CUTHBERT PARTY HERE ON WAY TO EUROPE

Was to Have Married a West Toronto Girl---Everything Ready for the Wedding but the Groom

The Toronto News of yesterday evening's date contains the following:

Peterborough, July 2. — Mr. Roland Boswell, Elora, who, it is said, disappointed a West Toronto young woman on Tuesday in not presenting himself at the hour the marriage was to have taken place, joined the Cuthbert party here this morning, on a trip to Europe. He left by the 11.26 C.P.R. train to Montreal. While in Peterborough on Sunday he was the guest of a relative.

When interviewed at his house this gentleman stated that he had not received the slightest hint from Boswell as to the marriage that had been arranged for in West Toronto.

"Mr. Boswell is my nephew and he was here yesterday," said the man. "He left here this morning, and, I understand, he is on his way to the Old Country.

"He said nothing to me about any young lady, and this is the first I have heard of the matter. I have not seen the Toronto papers containing the story of his failure to appear at the wedding. We know nothing of his intention to be married, and he gave no hint, while he was here, as to what his plans had been or might be. This is certainly news to me."

At nine o'clock this morning the "Cuthbert" house party that left by C.P.R. for Montreal should have included "Mr. and Mrs. Roland M. Boswell, Elora."

It did not.

Instead, Mr. Roland M. Boswell, aged 26, a grocer of that town, is moaning, and there is no Mrs. Roland Boswell.

Miss Wilhelmina Cummings, of 69 Union street, West Toronto, expected to have taken that name on Tuesday afternoon at 3 o'clock, or as soon after as Rev. Dr. Hazlewood could arrange it.

Today she is still unmarried, doing her household work as before, and wondering "Why?"

She thinks it is "very queer," and the bridegroom-to-be must make a very convincing explanation when he finds himself again, or a West Toronto girl will cast him over for ever—or enter suit against him for breach of promise. Perhaps both.

Tomorrow it had been planned to set sail from Montreal for England, and for nearly three months the two were to have toured Europe. Africa, the Holy Land, anywhere almost that a fond bridegroom could wish to take his bride on the honeymoon.

BRIDEGROOM CAME NOT.

And for hours she waited, and the bridegroom came not.

The party was gathered at Miss Cummings' home in West Toronto, a neat brick building on Union street, near Dundas. A few friends only were there, for it was to be very quiet—few except her parents, two young sisters and a brother. Her pastor, Rev. Dr. J. H. Hazlewood, of the High Park Avenue Methodist Church, was there, ready to perform the ceremony. But his name not, and in unhappy suspense, for fear some accident had befallen him, they waited, the girl in her wedding gown, and those who had looked forward to a happy wedding.

On her finger was her engagement ring—given her by Boswell only that morning.

The time passed slowly, painfully. Dr. Hazlewood told a funny story, and Mrs. Cummings sent out for some refreshments for the guests. The father, suspecting that there had been a backing-out at the last moment, called up Mrs. Boswell, the mother, by long-distance telephone. She knew nothing, except that her son had left on Monday for Toronto, to go on the house party for Europe. Whether with or without a bride she knew not.

THE GUESTS DEPARTED.

At five o'clock the tension had become too great, the guests said good-bye. The girl took off the wedding garment and sat down to await the groom or an explanation of his absence.

But neither came. Her father notified the police of West Toronto and Toronto, and called up the hospitals, thinking there had been an accident. But no clue was at hand.

Yesterday he tried for information about the house party, but could find none of the principals. This morning he left the city on work for the firm.

The courtship of Miss Cummings by the well-to-do Elora young man was rapid, occupying scarcely more than one month. He was brought to her home two months ago by her father and stayed to tea. Letters were exchanged and an engagement followed. A couple of weeks ago she visited his mother in Elora.

Small Child was Badly Scalded

While following its mother the little child of Mr. and Mrs. John Lesson of Douro, tripped and fell into a pail of boiling water, which was being used to clean some milk cans. The child's face and shoulders were severely scalded, but no serious results are expected. Mr. Lesson lives on Warsaw road about five miles from the city.

Attended Meeting of Shriners in Toronto

At the meeting of the Shriners in Toronto on Wednesday, 219 new members were announced by the Oriental guide, and initiated into this order. Among those who attended the meeting of the Shriners in Toronto Wednesday from Peterborough were Messrs. R. J. Munro, W. R. G. Higgins, W. H. Walkey, H. R. H. Konner and W. H. Bradburn. Referring to the meeting, a Toronto despatch says:—Rameses Temple of the Ancient Order of the Mystic Shrine held its 21st anniversary in Massey Hall last night, which turned out to be one of the most successful gatherings in the history of the organization. About 700 were present. Several distinguished visitors from Ismaila Temple, Buffalo; Damascus Temple, Rochester; Mecca, New York; Moslem, Detroit; India Temple, Oklahoma; Karnac Temple, Montreal; Mecca, London, participated in the festivities.

Obituary

The death occurred Wednesday night of Mary Rawlings, wife of H. C. Bacon at the family residence, 197 Weascott. The deceased was 58 years of age, and was born in London, Eng. She was the daughter of the late Mr. Thomas Rawlings of Peterborough. Surviving her are four daughters, Mrs. Mendel Green, Mrs. Wm. Butcher, Mrs. Carlos Green and Miss Millie Bacon living at home, and two sons, Thomas and Roy. She was a very faithful attendant of the Salvation Army and at one time held a position of rank.

The funeral will be held today from her late residence, 197 Weascott street at 2 pm to Little Lake cemetery.

Sure Cure for Sciatica

Sciatica is really inflammation of the sciatic nerve, the largest nerve in the body.

This painful inflammation is the product of a run-down condition, and in every case you may be sure the nerves are worn down fine.

The pain is the cry of the nerves for more food—for richer, redder blood.

Rubbing on a greasy liniment can't help very much—you must treat the blood and rebuild the nervous system.

This can be promptly done with Ferrozone.

No builder of nerve force is more powerful.

No tonic so quickly fortifies the muscular system, imparts such strength, such endurance and vigor.

Any traces of Uric Acid and rheumatic poison are quickly driven out by Ferrozone. The lowered condition of the system is changed into a reserve of vigor that defies further attacks of Sciatica.

Marvelous in its reconstructive and rebuilding power, quick to give relief, absolutely sure to cure,—where can you find a better treatment than Ferrozone? Sold by all druggists in 50c. boxes; try Ferrozone.

In the Realm of Sport

BASEBALL

Games played in the three big pre leagues yesterday resulted as follows:—

EASTERN LEAGUE.

Toronto 4, Rochester 3.
Buffalo 7, Montreal 4.
Newark 5, Providence 2.
Baltimore 9, Jersey City 1.

AMERICAN LEAGUE.

St. Louis 1, Chicago 5.
New York 3, Washington 4.
Boston 1, Philadelphia 4.
Detroit 7, Cleveland 2.
St. Louis 1, Chicago 0.
New York 3, Washington 5.

NATIONAL LEAGUE.

Brooklyn 2, Boston 1.
Philadelphia 3, New York 4.
Cincinnati 1, St. Louis 3.
Chicago 3, Pittsburg 0.
Chicago 4, Pittsburg 2, 2nd.

The Athletics defeated Cobourg Wednesday in the best game seen here this season by a score of 4—2. The batteries were; Cobourg, Turner and Floyd; Athletics, Quinlan and Rattery.

The Peterboroughs lost their second game this season by losing to Port Hope on Wednesday by the score of 9—8. The batteries were; Port Hope, Sarpis and Wilson; Peterborough, Hawkins, Clements and Edmonds.

Harry Munroe was the first winner of the Eastwood trophy on Wednesday, by taking two firsts, two seconds, two thirds. Campbell and Shipney were tied for second.

ADVERTISE IN THE TIMES.

Boswell Said to Have been Confined in a Sanitarium

Toronto, July 2nd.—"One year ago Roland Boswell left a sanitarium in Toronto, where he had been confined for a year. His mind must have weakened again, and he probably forgot all about the wedding."

This explanation was given the press this afternoon by a close relative of Roland M. Boswell, who was to have been married to Miss Wilhelmina Cummings, of West Toronto, on Tuesday afternoon.

"The girl visited his mother's home in Elora one week ago Sunday. As soon as we understood about the engagement we and the mother made arrangements for a lawyer in Peterborough to visit West Toronto and warn the girl and her parents. He was to have gone last Friday and told them but it looks as if he didn't as the wedding arrangements would have been broken off. Why he did not even go to meet the girl on Saturday or see her off on Monday from Elora. The family was left in easy circumstances by the father, who died three years ago, and the son gets money as he wants it. He often goes off for trips by himself, and last week he went down to Montreal and Quebec. A short time before a doctor was sent to the Sault to bring him back.

"He was at the Elliott House Monday night, and came to see us Tuesday morning, but never mentioned the wedding. Probably he had never thought of it. We wanted him to take the trip to Europe, thinking it would help his mental condition.

"It was no cruel desertion of the girl, but evidently a weakening of his mind. We knew nothing about the West Toronto girl until just before she went to Elora."

"How he own a grocery store in Elora?" inquired the reporter.

"In one way he does," was the reply. "It was bought for him to give him something to do, but he gives it little attention.

Boswell is slightly built, and scarcely two feet six inches tall. He is fair and clean shaven. An inquiry at the Elliott House it was learned that Boswell arrived there Monday evening.

In the morning shortly before 11 o'clock he paid his bill for bed and breakfast, saying he was going to a matinee.

Eleven Head of Cattle Killed by Lightning

Warsaw, July 2.—Not until Thursday did Mr. R. G. Moore, who lives about four miles south-east of here, learn that he was a loser of eleven head of young cattle, killed by lightning during Monday night's electric storm. The cattle were pasturing in a field some distance from the house and a neighbor, Mr. Bert Hendren, who happened along that way discovered the cattle under an elm tree. The tree was badly disfigured and the cattle were sprawling in every direction, some piled on top of others. There was no insurance on the herd.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions, and financially able to carry out any obligations made by his firm.

Walding, Kinnan & Marvin,
Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucus surfaces of the system. Testimonials sent free. Price, 75c. per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

10 Big Bargains

How the Citizens Spent the Holiday

A perfect summer day marked the forty-first anniversary of the birth of the Dominion on Wednesday. A few fleecy clouds occasionally flecked the heavens, but Old Sol soon put them to rout.

Dominion Day is one of the holidays of the year when city folk avail themselves of the opportunity to get out for a day's outing, or refresh the sweet memories of old friendship and the last was no exception to this rule. From Tuesday evening until Wednesday noon the outward bound trains and boats were filled to capacity, and the incoming trains as well brought hordes of visitors. The Ontario Navigation Company declare the day to have been the best in history. Many went to Port Hope and Hastings while the majority went to Idyl Wyld and T.A.S. Point.

T.A.S. PICNIC.

The T.A.S. picnic at their park was the meeting place of hundreds. The boats were kept busy plying from the street railway wharf to the park, and the day was immensely enjoyed.

A large crowd went to Port Hope with the ball team while nearly half as many went with the Strathconas to Hastings, where they played ball.

AT IDYL WYLD.

The Men's Adult Bible Class of the George street Methodist church held an excursion to Rice Lake and over 500 took in this outing, which was a most enjoyable one.

A large number of citizens stayed in the city and enjoyed some of the following sports:—Eastwood trophy, City League ball game, football match, and the game between the Athletics and Cobourg.

ST. LUKE'S BIBLE CLASS.

The St. Luke's Bible Class held their fifth annual excursion to Stony Lake, on Wednesday, and it was a great success in every way. The day was delightfully spent at Burleigh where a stop of two and half and half hours was made while dinner was served.

Rev. Dr. Langfeldt and Rev. J. B. Anderson were present as guests of the club.

Have Returned from Oshawa

Messrs. R. C. & J. T. Braund, the two well known general merchants of this city, have returned from Oshawa, where they were visiting their mother, who is suffering from a paralytic stroke and is very ill, and their brother Frank, who is just recovering from an operation performed a few weeks ago in the Toronto hospital. Oshawa is the birth place of Messrs. R. C. and J. T. Braund.

Labor Saving Device.

"Do you know, Sam, that a man does not have to do as much work now as he did ten years ago?"

"Yes, sah; I know it, sah. Why, I've been married nearly eight years, sah!"—Yonkers Statesman.

Pleasant.

Mistress—Now, remember, Bridget, the Jenkins are coming for dinner. Cook—Leave it to me, mum. I'll show them worse! They'll never trouble you again!—Illustrated Bits.

What Do They Cure?

The above question is often asked concerning Dr. Pierce's two leading medicines, "Golden Medical Discovery" and "Favorite Prescription."

The answer is that "Golden Medical Discovery" is a most potent alterative or blood-purifier, and tonic or invigorator and acts especially favorably in a curative way upon all the mucous lining surfaces, as of the nasal passages, throat, bronchial tubes, stomach, bowels and bladder, curing a large per cent. of catarrhal cases whether the disease affects the nasal passages, the throat, larynx, bronchia, stomach (as catarrhal dyspepsia), bowels (as mucous colitis), kidneys, bladder, uterus or other pelvic organs. Even in the chronic or ulcerative stages of these affections it is often successful in effecting cures.

"Favorite Prescription" is advised for the cure of those class of diseases peculiar to women, and is unequaled as a soothing and strengthening nervine, and as a powerful yet gentle general tonic and invigorating tonic and nervine. For weak women, over-worked women—no matter what has caused the break-down, "Favorite Prescription" will be found most effective in building up the strength, regulating the womanly functions, subduing pain and bringing about a healthy, vigorous condition of the whole system.

A book of particulars wraps each bottle giving the formulas of both medicines and quoting what scores of eminent medical authors, whose works are consulted by physicians of all the schools of practice as guides in prescribing, say of each ingredient entering into these medicines.

The words of praise bestowed on the several ingredients entering into Doctor Pierce's medicines by such writers should have more weight than any amount of non-professional testimonials, because such men are writing for the guidance of their medical brethren and know whereof they speak.

Both medicines are non-alcoholic, non-secret, and contain no harmful habit-forming drugs, being composed of glycerin extracts of the roots of native, American medicinal forest plants. They are both sold by dealers in medicine. You can't afford to accept as a substitute for one of these medicines of known composition, any secret nostrum.

Dr. Pierce's Pellets, small, sugar-coated, easy to take as candy, regulate and invigorate stomach, liver and bowels.

ADVERTISE IN THE TIMES.

Morning Times

The only Morning Daily Newspaper published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

Delivery will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

Offices: 30 Fleet street, London, E. C.

The South Sea Whiskers Trade.

"In the south seas whiskers is a rarity," said a sailor. "Most of them there Maoris has hairless faces, like a girl's. When a young Maori, at the age of sixteen or so, finds himself endowed with whiskers he blesses the day when he was born, for now, by tar, he knows his whiskers will keep him from want in his old age.

"Puzzlin', ain't it? I'll explain it out to you.

"The Maori chiefs down Tahiti way wears a complicated headdress, and a necessary part of this here headdress is a lot of stiff tufts of white whiskers. The headdress makers pays for white whiskers their weight in gold.

"So, you see, old fellers with snowy spunach is in demand in the south seas. Contractors keeps herds of these old fellers, the same as drovers keeps sheep, and reglar in June and December the semiannual shearin' comes off.

"The curly white harvest is loaded on to pirogues, and the contractors puts out over the roarin' coral reefs, and from island to island sells to the chiefs big handfuls of that there snowy fluff for its weight in French gold."—New Orleans Times-Democrat.

The Battle at Ship Launches.

Down to Charles II.'s time it was customary to name and baptize a ship after she was launched, sometimes a week or two after. The old Tudor method used for men-of-war was still in use. Pepys' "Diary" shows that. The ship was safely got afloat, after which some high personage went on board with a special silver "standing cup" or "flagon" of wine, out of which he drank, naming the ship, and poured a libation on the quarter deck. The cup was then generally given to the dockyard master shipwright as a memento. When did the present usage of naming and baptizing a ship before she is sent afloat come in? I trace the last explicit mention of the old method to 1664, when the Royal Katherine was launched (see Pepys). The first mention of smashing a bottle of wine on the bows of a British man-of-war that I have found is in a contemporary newspaper cutting of May, 1780, describing the christening of H. M. S. Magnanime at Deptford, but nothing is hinted that it was then a new custom. —London Notes and Queries.

Almost at Rest.

A kind hearted but somewhat close fisted man who was sorely afflicted with a conscience came to a friend, holding a visiting card in his hand. He looked deeply troubled. "I know," said he, "this man wants to borrow money. I know he will drink it. What am I to do?"

"It is perfectly simple," said the friend. "Send down word that you are out."

"I cannot," he said. "I have never told a lie in my life."

"Then," said his friend, "lend all your money to me, and you can tell him you haven't a penny in your pocket."

After some hesitation the kind hearted man complied and, having seen his caller, returned.

"Well," asked his friend, "are your conscience and mind at rest?"

"Not quite, man," he replied, "but they will be as soon as you have given me my money back."—Bellman.

He Writ.

A well known dramatic critic visiting Stratford on Shakespeare's birthday and, hearing the clangor of the bells which, from their tower in the old church where the poet lies buried, awoke the little town to its devotions approached a wintry headed street sweeper in front of Irving's inn and said: "Who is the fellow they're making this fuss about? I see you have Shakespeare hotels, Shakespeare gingerbread, and only the other day I saw a man driving to town some pigs called 'Shakespeare's best.' Who is he—the fellow who lived in that tumbledown shanty yonder?" The "oldest inhabitant" megaphoned his ear and, wheezing, replied, "I think he writ." "Oh, he writ, did he? What did he write—books, confessions of a deer stealer, magazine articles—what?" "I think he writ for the Bible."

A Decorated Interior.

Mrs. Graham is an estimable lady whose hobby is house decoration. One day the lady was careless enough to drink a glass of red ink, believing it to be claret. She was a good deal scared when she discovered her mistake, but no harm came to her.

The doctor who was summoned, upon hearing what had happened, dryly remarked to her, "Mrs. Graham, there's such a thing as pushing this rage for decorated interiors too far."—Argonaut.

Memory Training.

If men only realized how great an asset in life is a retentive memory they would take care to see that their children's were properly trained. The simplest method consists in learning every day a few lines by heart. None of our faculties can be trained so easily as that of memory.—Stuttgart Fremdenblatt.

Her Choice.

"What would you do, dear, if I were to die?" asked Mrs. Darley fondly.

"I don't know," replied Darley thoughtfully. "Which is your choice—burial or cremation?"—Londonlilb.

Mr. R. A. Morrison, of Winnipeg, is spending his vacation in the city.

Wild Animals and Medicine.

A writer in the British Medical Journal thinks that an interesting essay might be written on the addition to medical remedies made by animals. It is said that it is to dogs we owe the knowledge of the fever abating properties of bark, while to the hippopotamus is attributed the use of bleeding. The story as told in Philemon Holland's translation of Pliny is as follows: "The river-Horse hath taught physitions one deuice in that part of their profession called Surgerie, for he finding himself ouer-grosse and fat by reason of his high feeding so continually gets forth of the water to the shore, hauing spied afore where the reeds and rushes haue bin newly cut, and where he seeth the sharpest cane and best pointed lee cut his body hard on to it to pricke a certaine veine in one of his legs, and thus by letting himself bloud maketh evacuation, whereby his body, otherwise inclining to diseases and maladies, is well eased of the superfluous humour, and having thus done hee stoppeth the orifice againe with mud and so stancheth the bloud and healeth the wound."

His Idea of the English.

The following illustrates Louis Philippe's idea of England and the English. He one day asked Hugo if he had ever been in England and on receiving a negative reply continued:

"Well, when you do go—for you will go—you will see how strange it is. It resembles France in nothing. Over there are order, arrangement, symmetry, cleanliness, well mowed lawns and profound silence on the streets. The passersby are as serious and as mute as specters. When, being French and alive, you speak in the street these specters look back at you and murmur with an inexpressible mixture of gravity and disdain, 'French people!' When I was in London I was walking arm in arm with my wife and sister. We were conversing in a not too loud tone of voice, for we are well bred persons, you know, yet all the passersby, bourgeois and men of the people, turned to gaze at us, and we could hear them growling behind us: 'French people! French people!'"—"Memoirs of Victor Hugo."

Rossini and the Drum.

When Rossini's "Gazza Ladra" was performed for the first time the drum in the orchestra not only excited much comment, but caused the enemies of the composer, whom they denounced as a "foolish inventor of unmusical novelties," to threaten Rossini with bodily violence. One young man, a pupil of Rolla's, gained admission to the composer's presence and declared that art had been so violently outraged by the invention that he must kill the offender. He drew a weapon, but consented to listen to argument. He had been a soldier, and when the composer asked him why there should not be a drum where there are soldiers he sheathed his knife. "Promise me, though," he said, "that you will put no drums in your future music." Rossini promised, but forgot.

The Retort Courteous.

A young man in a hurry went through the left side of a pair of swinging doors in the senate wing of the capitol at Washington last session and almost knocked over a senator who was about to push through the right side.

The young man apologized profusely. "I'm very sorry—I didn't know I was—I am in a great hurry."
